### GENERAL RISK

Investment in non-convertible securities is risky and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this Tranche VI Issue. For taking an investment decision, the investors must rely on their own examination of the Issuer and the Issue, including the risks involved in it. Specific attention of the Investors is invited to the section “Risk Factors” on page 19, and “Material Developments” on page 165 before making an investment in this Tranche VI Issue. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor’s decision to purchase such securities. This Tranche VI Prospectus has not been and will not be approved by any regulatory authority in India, including the Securities and Exchange Board of India (“SEBI”), the Reserve Bank of India (“RBI”), any Registrar of Companies, Kerala and Lakshadweep, or any stock exchange in India nor do they guarantee the accuracy or adequacy of this document.

### COUPON RATE, COUPON PAYMENT FREQUENCY, REDEMPTION DATE, REDEMPTION AMOUNT & ELIGIBLE INVESTORS

For details relating to Coupon Rate, Coupon Payment Frequency, Redemption Date, Redemption Amount & Eligible Investors of the NCDs, please see “Issue Structure” on page 283.

### CREDIT RATING

Our Company has received rating of “Crisil AA-/Stable” (pronounced as Crisil double A minus rating with a Stable outlook) for an amount of ₹ 1,90,000 lakhs of NCDs (of which, ₹ 50,081 lakhs is unutilized) by Crisil Ratings Limited vide its letter dated June 9, 2025, along with the rating rationale dated June 6, 2025, read with the credit bulletin dated June 17, 2025, for the NCDs proposed to be issued pursuant to this Tranche VI Issue. The rating given by Crisil Ratings Limited is valid as on the date of this Tranche VI Prospectus and shall remain valid on date of issue and Allotment of the NCDs and the listing of the NCDs on BSE. The rating of the NCDs indicates that instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. The ratings provided by Crisil Ratings Limited may be suspended, withdrawn or revised at any time by the assigning rating agency and should be evaluated independently of any other rating. These ratings are not a recommendation to buy, sell or hold securities and Investors should take their own decisions. Please refer to Annexure A on page 347 for the rationale and press release for the above rating. There are no unaccepted ratings and any other ratings other than as specified in this Tranche VI Prospectus.

### PUBLIC COMMENTS

The Draft Shelf Prospectus dated August 8, 2024 was filed with BSE, the Designated Stock Exchange, pursuant to the provisions of the SEBI NCS Regulations and was kept open for public comments for a period of seven Working Days (i.e., until 5 p.m.) from the date of filing of the Draft Shelf Prospectus with the Stock Exchange. No comments were received on the Draft Shelf Prospectus until 05:00 pm on August 19, 2024.

### LISTING

The NCDs offered through this Tranche VI Prospectus are proposed to be listed on BSE Limited (“BSE” or “Stock Exchange”). Our Company has received an ‘in-principle’ approval from BSE vide their letter no. DCS/BM/PI-BOND/16/24-25 dated August 21, 2024. BSE shall be the Designated Stock Exchange for the Issue.

Notwithstanding anything contained herein, capitalised terms that have been defined in, “*History and Certain Corporate Matters*”, “*Financial Indebtedness*”, “*Our Management*” and “*Outstanding Litigations and Defaults*” on pages 113, 166, 140 and 216 will have the meaning ascribed to them in such sections.

## **CERTAIN CONVENTIONS, USE OF FINANCIAL, INDUSTRY AND MARKET DATA AND CURRENCY OF PRESENTATION**

### **Certain Conventions**

All references in this Tranche VI Prospectus to “India” are to the Republic of India and its territories and possessions and all references to the “Government”, the “Central Government” or the “State Government” are to the Government of India, central or state, as applicable.

Unless stated otherwise, all references to page numbers in this Tranche VI Prospectus are to the page numbers of this Tranche VI Prospectus.

### **Presentation of Financial Statements**

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Tranche VI Prospectus are to a calendar year and references to a Fiscal/Fiscal Year/ FY are to the year ended on March 31, of that calendar year.

The Audited Standalone Financial Statements for 2025, the Audited Consolidated Financial Statements 2025, and the respective reports on the audited financial statements as issued by our Company’s Statutory Auditors M/s. Isaac & Suresh, Chartered Accountants and M/s. Vishnu Rajendran & Co, Chartered Accountants along with the Audited Standalone Financial Statements for 2024, the Audited Consolidated Financial Statements 2024, the Audited Standalone Financial Statements for 2023, the Audited Consolidated Financial Statements 2023 and the respective reports on the audited financial statements, as issued by our Company’s Erstwhile Joint Statutory Auditors, M/s Krishnan Retna & Associates, Chartered Accountants and M/s. Rangamani & Co, Chartered Accountants, are included in this Tranche VI Prospectus in “*Financial Statements*” beginning at page 164.

Any discrepancies in the tables included herein between the amounts listed and the totals thereof are due to rounding off.

Unless stated otherwise, macroeconomic and industry data used throughout this Tranche VI Prospectus has been obtained from publications prepared by providers of industry information, government sources and multilateral institutions. Such publications generally state that the information contained therein has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although the Issuer believes that industry data used in this Tranche VI Prospectus is reliable, it has not been independently verified. Further, the extent to which the market and industry data presented in this Tranche VI Prospectus is meaningful depends on the readers’ familiarity with and understanding of methodologies used in compiling such data.

The extent to which the market and industry data used in this Tranche VI Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. The methodologies and assumptions may vary widely among different industry sources. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. We have relied on the Crisil Report on ‘Industry Report on Gold Loans’ released in June 2025 for industry related data that has been disclosed in the Tranche VI Prospectus. Accordingly, no investment decision should be made solely on the basis of such information.

While we have compiled, extracted and reproduced data from external sources, including third parties, trade, industry or general publications, we accept responsibility for accurately reproducing such data. However, neither we nor the Lead Manager has independently verified this data and neither we nor the Lead Manager make any representation regarding the accuracy of such data. Similarly, while we believe our internal estimates to be reasonable, such estimates have not been verified by any independent sources and neither we nor the Lead Manager can assure potential investors as to their accuracy.

### **Financial Data**

Except where stated otherwise in this Tranche VI Prospectus, all figures have been expressed in ‘lakhs’. All references to ‘lakhs/ lakhs/ lacs/ lac’ refer to one lakh, which is equivalent to ‘one hundred thousand’ and ‘crore’ means ‘hundred lakhs’.

Unless stated otherwise or unless the context requires otherwise, the financial data as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 used in this Tranche VI Prospectus is derived from our Audited Consolidated Financial Statements and Audited Standalone Financial Statements, as applicable. Unless otherwise stated all figures pertaining to the financial statements in connection with the Company are on an unconsolidated basis.

Any discrepancies in the tables included herein between the amounts listed and the totals thereof are due to rounding off.

### Currency and Unit of Presentation

In this Tranche VI Prospectus, references to ‘₹’, “Indian Rupees”, “INR”, “Rs.” and ‘Rupees’ are to the legal currency of India. Except as stated expressly, for the purposes of this Tranche VI Prospectus, data will be given in ₹ in lakhs.

Certain figures contained in this Tranche VI Prospectus, including financial statements, have been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

### Industry and Market Data

Any industry and market data used in the Tranche VI Prospectus consists of estimates based on data reports compiled by government bodies, professional organizations and analysts, data from other external sources and knowledge of the markets in which the Company competes. These publications generally state that the information contained therein has been obtained from publicly available documents from various sources believed to be reliable, but it has not been independently verified by us or its accuracy and completeness is not guaranteed, and its reliability cannot be assured. Although the Company believes the industry and market data used in this Tranche VI Prospectus is reliable, it has not been independently verified by us. The data used in these sources may have been reclassified by us for purposes of presentation. Data from these sources may also not be comparable. The extent to which the industry and market data is presented in the Tranche VI Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the Company conducts its business, and methodologies and assumptions may vary widely among different market and industry sources.

### Exchange Rates

The exchange rates for INR (₹) vis-à-vis of USD, as of March 31, 2025, March 31, 2024 and March 31, 2023 are provided below:

Currency	March 31, 2025	March 31, 2024	March 31, 2023
1 USD	85.58	83.34	82.22

Source: <https://www.fbil.org.in/#/home> and <https://www.rbi.org.in/scripts/ReferenceRateArchive.aspx>

*The above exchange rates are for the purpose of information only and may not represent the rates used by the Company for purpose of preparation or presentation of its financial statements. The rates presented are not a guarantee that any person could have on the relevant date converted any amounts at such rates or at all.*

*In case March 31 of any of the respective years/ period is a public holiday, the previous working day not being a public holiday has been considered.*

## FORWARD LOOKING STATEMENTS

### General Risk

Investment in non-convertible securities is risky and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of this Tranche VI Issue including the risks involved in it.

Specific attention of investors is invited to statement of risk factors contained under section “*Risk Factors*” on page 19 and “*Material Developments*” on page 165 before making an investment in such Issue. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor’s decision to purchase such securities.

Certain statements contained in this Tranche VI Prospectus that are not statements of historical fact constitute “forward-looking statements”. Investors can generally identify forward-looking statements by terminology such as “aim”, “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “objective”, “plan”, “potential”, “project”, “pursue”, “shall”, “seek”, “should”, “will”, “would”, or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability, new business and other matters discussed in this Tranche VI Prospectus that are not historical facts. All statements contained in this Tranche VI Prospectus that are not statements of historical fact constitute “forward-looking statements” and are not forecasts or projections relating to our Company’s financial performance.

All forward-looking statements are subject to risks, uncertainties and assumptions about the Company that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from the expectations of the Company include, among others:

- General economic and business conditions in India and globally;
- Ability to effectively manage our growth or successfully implement business plans and growth strategies;
- Ability to compete effectively and access funds at competitive costs;
- Ability to control or reduce the level of non-performing assets in our portfolio;
- Changes in the value of Rupee and other currency changes;
- Unanticipated turbulence in interest rates, gold prices, global bullion prices or other rates or prices;
- Availability of funds and willingness of the lenders of the Company to lend;
- Changes in political conditions in India;
- The rate of growth of the loan assets of the Company;
- The outcome of any legal or regulatory proceedings the Company is or may become a party to;
- Changes in Indian laws and regulations, including tax, accounting, banking, securities, insurance and other regulations; changes in competition and the pricing environment in India; and regional or general changes in asset valuations;
- Any changes in connection with policies, statutory provisions, regulations and/or RBI directions in connection with NBFCs, including laws that impact lending rates and the Companys’ ability to enforce our collateral;
- Competition from existing as well as new competitors;
- Performance of the Indian debt and equity markets;
- Occurrence of natural calamities or natural disasters affecting the areas in which our Company has operations; and
- Other factors discussed in the Tranche VI Prospectus, including under the section titled “*Risk Factors*” on page 19.

Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed in “*Our Business*”, “*Risk Factors*” on pages 122 and 19, and “*Outstanding Litigations and Defaults*” on page 216. The forward-looking statements contained in this Tranche VI Prospectus are based on the beliefs of management, as well as the assumptions made by, and information currently available to management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable as of the date of this Tranche VI Prospectus, our Company cannot assure investors that such expectations will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialize, or if any of our

underlying assumptions prove to be incorrect, our actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to us are expressly qualified in their entirety by reference to these cautionary statements.

Neither our Company, its Directors and its officers, nor any of their respective affiliates or associates, Lead Manager nor any of its Directors and its officers have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI NCS Regulations, our Company, the Lead Manager will ensure that investors in India are informed of material developments between the date of filing the Tranche VI Prospectus with the RoC and the date of commencement of listing and trading of the securities offered through this Tranche VI Issue.

## SECTION II : RISK FACTORS

*The following are some of the important factors that could cause actual results to differ materially from the Company's expectations:*

*The following are the risks envisaged by the management of the Company relating to the Company, the secured NCDs and the market in general. Potential investors should carefully consider all the risk factors stated in this Disclosure Document in relation to the secured NCDs for evaluating the Company and its business and the secured NCDs before making any investment decision relating to the secured NCDs. The Company believes that the factors described below represents the principal risks inherent in investing in the secured NCDs but does not represent that the statements below regarding the risks of holding the secured NCDs are exhaustive. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Potential investors should also read the detailed information set out elsewhere in this Tranche VI Prospectus and reach their own views prior to making any investment decision. If any one of the following stated risks actually occurs, the Company's business, financial conditions and results of operations could suffer and, therefore, the value of the Company's secured NCDs could decline and/or the Company's ability to meet its obligations in respect of the secured NCDs could be affected. More than one risk factor may have simultaneous affect with regard to the secured NCDs such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No prediction can be made as to the effect that any combination of risk factors may have on the value of the secured NCDs and/or the Company's ability to meet its obligations in respect of the secured NCDs. These risks and uncertainties are not the only issues that the Company faces. Additional risks and uncertainties not presently known to the Company or that the Company currently believes to be immaterial may also have a material adverse effect on its financial condition or business. Unless specified or quantified in the relevant risk factors, the Company is not in a position to quantify the financial or other implications of any risk mentioned herein below.*

### INTERNAL RISK FACTORS

#### Risks relating to the Company and its Business

- 1. Scheduled commercial banks and payment banks have been directed not to open and maintain current accounts for customers who have availed credit facilities in the form of cash credit (CC)/overdraft (OD) from the banking system. Implementation of the aforesaid direction without providing alternate mechanism for financial institutions transacting with scheduled commercial banks and payment banks to withdraw and deposit cash may adversely affect our business, results of operations and financial condition.***

RBI has by way of circular (RBI/2020-21/20 DOR No. BN.BC/7/21/04.048/2020-21) dated August 6, 2020 directed scheduled commercial banks and payment banks not to open or maintain current accounts for customers who have availed credit facilities in the form of cash credit ("CC")/ overdraft ("OD") from the banking system and all transactions are required to be routed through the CC/OD account. These changes were to be implemented within a period of three months from the date of the Circular i.e. by November 5, 2020, which period was subsequently extended to December 15, 2021. Aggrieved by the said Circular, our Company has filed a writ petition with the Kerala High Court *inter alia* praying that RBI should issue clarification on implementation and enforcement of the Circular in light of the representations made by our Company to RBI and State Bank of India and to State Bank of India to seek clarifications on the points urged in representations made to State Bank of India. Further, it has also been prayed that the implementation of Circular, in so far as our Company is concerned, should be kept pending the disposal of the writ petition. The said writ petition 22768 of 2020 is disposed of on April 9, 2021 wherein State Bank of India was directed to consider the matter and to arrive at a workable solution in 6 months, failing which, State Bank of India was directed to approach RBI. In the meantime, other banks (where we have current accounts for our branches) have issued communications to close such accounts in view of the RBI circular. Since banks, other than State Bank of India, were proceeding with closure of accounts inspite of the above order, we have filed another WP 14854 / 2021 ("Writ Petition") making all the banks party and seeking for the intervention of the court. The Hon'ble court was pleased to order status quo. The said Writ Petition is pending.

In the meantime, RBI has *vide* its circular RBI/2021-22/116 DOR.CRE.REC.63/21.04.048/2021-22 dated October 29, 2021 has permitted to open and maintain current accounts. The circular, however, has put a condition that such current accounts can be opened only with one bank, which has more than 10% of banking exposure in the respective company. Pursuant to the RBI Circular, the Company has approached State Bank of India and initiated the process of opening such current accounts for its branches with State Bank of India. The timeline for complying with the said circular was November 29, 2021; resultantly, all banks other than State Bank of India are required to close the existing current accounts within such time. However, the Hon'ble

Kerala High Court, in the pending Writ Petition filed by the Company, has extended the interim order thereby protecting the rights and interest of the Company.

Considering the large number of rural branches of the Company and non-availability of branches of State Bank of India near all such branches, there is a possibility that the smooth operation of some of the branches of the Company may be affected.

We cannot assure whether State Bank of India will be able to promptly service the requirements of our branches, thereby ensuring the smooth functioning of some of our branches, which may have a material effect on our business, results of operations and financial condition.

**2. *Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.***

Our liquidity and ongoing profitability are, in large part, dependent upon our timely access to cost effective sources of funding. Our funding requirements historically have been met through a combination of borrowings such as working capital limits from banks, issuance of commercial paper, non-convertible debentures issuance through public issues and on private placement basis.

Our ability to raise funds, on acceptable terms and at competitive rates, continues to depend on various factors including our credit ratings, financial performance & growth prospects of our Company, the macro economic factors including regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for securities of NBFCs. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

According to RBI Master Circular on Bank Finance to Non-Banking Financial Companies, 2015, as amended, bank's exposure (both lending and investment, including off balance sheet) to a single NBFC which is predominantly engaged in lending against collateral of gold jewellery (i.e. such loans comprising 50% or more of their financial assets), cannot exceed 7.5% of banks' capital funds and have an internal sub-limit on their aggregate exposure to all NBFCs having gold loans to the extent of 50% or more of their total financial assets, taken together. This sub-limit is within the internal limit fixed by the banks for their aggregate exposure to all NBFCs put together. This limits the exposure that banks may have on NBFCs such as us, which may restrict our ability to borrow from such banks and may increase our cost of borrowing, which could adversely impact our growth, business and financial condition.

We also face significant maturities of our debt each year. Out of the total outstanding debt, the Company has, as on March 31, 2025, an amount of ₹ 5,87,501.05 lakhs will mature during the next 12 months other than the regular rollover and renewal credit facilities. In order to repay the short-term credit facilities, the company will need to refinance the debt. In the case of tight credit market, the company will face difficulty to renew the cash credit facilities and get sanction of new credit facilities to retire the short-term facilities.

**3. *Any instructions by RBI or other regulatory authority in India directing the Company to stop the use of its premises/branches or officials for the operations of its Group entities could materially and adversely affect our business and impact our future financial performance.***

We have entered into various agreements with our Group entities for letting our Company's branches/premises or officials to be used for the business operations of our Group entities. In the event of any directions/circulars/notice being issued by RBI or other regulatory authority in India, restricting the usage of Company's branches/premises or officials for business operations of group entities, it may have an adverse effect on the business and financial conditions of the Company.

**4. *Our financial performance is particularly vulnerable to interest rate risk. If we fail to adequately manage our interest rate risk in the future it could have an adverse effect on our net interest margin, thereby adversely affecting our business and financial condition.***

The results of our operations are substantially dependent upon the level of our net interest margins. Interest rates are sensitive to many factors beyond our control, including RBI's monetary policies, domestic and international economic and political conditions and other factors. In the past, rise in inflation, and consequent changes in bank rates, repo rates and reverse repo rates by RBI has led to an increase in interest rates on loans provided by banks and financial institutions.

Income from our financing activities is the largest component of our total income and constituted 98.82%, 98.68% and 98.27% of our total income on a standalone basis for Fiscal 2025, Fiscal 2024 and Fiscal 2023,

respectively. Further, as of March 31, 2025, March 31, 2024 and March 31, 2023 the total secured borrowings of the Company aggregated to ₹ 22,37,974.84 lakhs, ₹ 18,17,629.76 lakhs and ₹ 15,54,458.77 lakhs, respectively and unsecured borrowings of our Company aggregated to ₹ 3,47,483.08 lakhs, ₹ 2,14,117.72 lakhs and ₹ 2,27,858.69 lakhs, respectively.

We provide loan at a fixed rate of Interest while we borrow funds on both fixed and floating rates. Our borrowings, such as our secured non-convertible redeemable debentures, subordinated debt and term loans from financial institutions carry fixed rates of interest while the borrowings from banks are linked to the respective banks' MCLR rates. As March 31, 2025, 29.70% of our borrowings, respectively, were at fixed rates of interest, comprising primarily of our secured and unsecured (subordinated debt) non-convertible redeemable debentures. We cannot assure you that we will be able to adequately manage our interest rate risk in the future and be able to effectively balance the proportion of our fixed rate loan assets and fixed rate liabilities in the future. Thus, our results of operations could be affected by changes in interest rates and the timing of any re-pricing of our liabilities compared with the re-pricing of our assets.

We borrow funds on both fixed and floating rates. Volatility in interest rates can materially and adversely affect our financial performance. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted. Additional risks arising from increasing interest rates, among others, include:

- increases in the rates of interest charged on our loans and other secured/ unsecured loans, which could result in the extension of loan maturities and higher monthly installments due from borrowers which, in turn, could result in higher rates of default;
- reductions in the volume of our loans as a result of clients' inability to service high interest rate payments; and
- reduction in the value of fixed income securities held in our investment portfolio.

There can be no assurance that we will be able to adequately manage our interest rate risk. If we are unable to address the interest rate risk, it could have an adverse effect on our net interest margin, thereby adversely affecting our business and financial condition.

**5. *The Company has been subject to RBI inspections and any adverse action taken could affect the business and operations of the Company.***

As an NBFC, we are subject to periodic inspection by RBI under section 45N of the RBI Act, pursuant to which RBI inspect our books of accounts and other records for the purpose of verifying compliance with applicable regulations, the correctness or completeness of any statement, information or particulars furnished to RBI. During the course of finalization of inspection, RBI shares its findings and recommendations with us and gives us an opportunity to provide justification and clarifications. Further, RBI also seeks certain clarifications and shares its findings. RBI in the past has issued observations pursuant to such periodic inspection and our Company had given clarifications in this regard.

In recent inspection reports, the RBI has, among other things, identified major areas of non-compliance to statutory and regulatory guidelines including (a) Non-compliance with Para 6 (B) in Annex II of SBR Framework with respect to computation of LCR at monthly intervals and not on an ongoing basis; (b) Non-compliance of Para 45.2.1 of SBR Framework with respect to sanction letters not being in vernacular language; (c) Gaps in the review of the transactions and ancillary activities related to the same with related entities/parties; (d) Pending repayment of auction surplus; (e) Non-compliance with Para 45.1.2 of SBR Framework with respect to incomplete information in application forms for loans; (f) non-compliance of inspection of end use of funds by related parties; (g) non-validation of assumptions used for capital estimation for ICAAP; (h) Pending review of compliance of Fair Practices Code and functioning of grievance redressal mechanism before the board of directors of the Company; (i) oversight of senior management with respect to certain activities such as non-disclosure of charges collected from customers, non-maintenance of LTV etc.; (j) Non-compliance of fundamental norms of borrower-based asset classification; (k) Non-compliance with para 15.1 of SBR Framework with respect to provision to the extent of 100% for unsecured portion for doubtful advances; (l) Non-review of the NBFCs liquidity risk management process in terms of Para C of Annex II of SBR Framework; (m) non-compliance with 22 IS Audit observations of 2023-24; (n) non-satisfactory closure of the supervisory concerns over the disposal of properties acquired by the group entity, non-maintenance of LTV, among others; (o) issues with the company's compliance on circular on gold loan

irregularities dated September 30, 2024, including the offering of top-up loans without fresh appraisal and the ineffective threshold for transaction monitoring of gold loans.

Whilst we have responded/continue to respond to such observations made by RBI and addressed them, however, we cannot assure you that RBI will not make similar or other observations in the future. In the event we are unable to resolve the issues to RBI's satisfaction, we may be restricted in our ability to conduct our business as we currently do. While we seek to comply with all regulatory provisions applicable to us, in the event we are unable to comply with the observations made by RBI, we could be subject to penalties and restrictions which may be imposed by RBI. Imposition of any penalty or adverse findings by the RBI during the ongoing or any future inspections may have an adverse effect on our business, results of operations, financial condition and reputation.

**6. *Our ability to access capital also depends on our credit ratings. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, as a result, would negatively affect our net interest margin and our business.***

The cost and availability of capital is also dependent on our short-term and long-term credit ratings. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. We have been assigned Crisil AA-/Stable rating by Crisil for our bank facilities, Crisil AA-/Stable rating by Crisil and BWR AA-/Stable rating by Brickworks for its various non-convertible debt instruments, Crisil A+/Stable rating by Crisil for ₹ 84,900 lakh perpetual bonds and BWR A+/Stable rating by Brickworks for ₹ 37,400 lakh perpetual bonds and Crisil A1+ rating by Crisil for its short-term debt programme.

Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. For instance, Crisil had on November 18, 2016, downgraded its ratings on the bank facilities and debt instruments of the Company to 'Crisil A-/Stable/Crisil A1' from 'Crisil A/Stable/Crisil A1'. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, financial condition and results of operations. The financial and risk profiles of one or more of our Group entities may also result in a downgrade of our credit ratings.

**7. *If we are unable to manage the level of NPAs in our gold loans and other loans, our financial position and results of operations may suffer.***

Our Stage 3 Assets as a percentage of total loan assets as per Ind AS was 1.98%, 1.62% and 2.11% as of March 31, 2025, March 31, 2024 and March 31, 2023, respectively. Our Stage 3 Assets net of Stage 3 Provision as per Ind AS as on March 31, 2025, March 31, 2024 and March 31, 2023 were at 1.28%, 0.64% and 0.58% on a standalone basis.

The Master Directions prescribe the provisioning required in respect of our outstanding loan portfolio. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our non-performing assets. Furthermore, although we believe that our total provision will be adequate to cover all known losses in our asset portfolio, our current provisions may not be adequate when compared to the loan portfolios of other financial institutions.

Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of gross non-performing assets or otherwise, or that the percentage of non performing assets that we will be able to recover will be similar to our past experience of recoveries of non performing assets. In the event of any further increase in our non-performing asset portfolio, there could be an even greater, adverse impact on our results of operations.

**8. *High levels of customer defaults could adversely affect our business, financial condition and results of operations.***

Our primary business involves lending money and accordingly we are subject to customer default risks including default or delay in repayment of principal or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted if the auction proceeds of the defaulted accounts could not meet the principal and interest amount.

Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan contracts, particularly for individual borrowers, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition and/or cash flows.

**9. *We may not be able to recover the full loan amount, and the value of the collateral may not be sufficient to cover the outstanding amounts due under defaulted loans. Failure to recover the value of the collateral could expose us to a potential loss, thereby adversely affecting our financial and operational performance.***

We primarily extend loans secured by gold jewellery provided as collateral by the customer. An economic downturn or sharp downward movement in the price of gold could result in a fall in collateral value. In the event of any decrease in the price of gold, customers may not repay their loans and the value of collateral gold jewellery securing the loans may decrease significantly in value, resulting in losses which we may not be able to support. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio monitoring, which include periodic assessment of loan to security value on the basis of conservative market price levels, limits on the amount of margin, ageing analysis and predetermined loan closure call thresholds, no assurance can be given that if the price of gold decreases significantly, our financial condition and results of operations would not be adversely affected. The impact on our financial position and results of operations of a hypothetical decrease in gold values cannot be reasonably estimated because the market and competitive response to changes in gold values is not pre-determinable.

Additionally, we may not be able to realise the full value of our collateral, due to, among other things, defects in the quality of gold though the adequate systems in place like periodical verification of the pledged jewellery by the gold inspectors and employing well trained staff and large segment of the borrowers being repeat customers. In case of a default, we typically sell the collateral gold jewellery through auctions primarily to jewellers however there can be no assurance that we will be able to sell such gold jewellery at prices sufficient to cover the amounts under default. Furthermore, enforcing our legal rights by litigating against defaulting customers is generally a slow and potentially expensive process in India. Accordingly, it may be difficult for us to recover amounts owed by defaulting customers in a timely manner or at all.

We may also be affected by failure of employees to comply with internal procedures and inaccurate appraisal of credit or financial worth of our clients in spite of the periodical verification of the pledged ornaments by Gold inspectors and specified interval inspection and auditing by internal auditors. Failure by our employees who are experienced and trained, to properly appraise the value of the collateral provides us with no recourse against the borrower and the loan sanction may eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, our business and results of operations may be adversely affected.

In our other lending businesses, we may be impacted by the inability of the customers to repay the outstanding loans, as a result of which, we may not be able to recover the full loan amount which could expose us to a potential loss, thereby adversely impacting the financial and operational performance of the company

**10. *Our Statutory Auditors and the Erstwhile Joint Statutory Auditors have highlighted certain reservations or qualification or adverse remarks or other observations by the auditors in the audit reports relating to our audited financial statements which may affect our future financial results.***

The Auditor's Report on the issued by our Erstwhile Joint Statutory Auditors for the Fiscals 2024 and 2023 and the auditor's report issued by our Statutory Auditors for the Fiscal 2025, included certain reservations or qualification or adverse remarks or other observations. However, the auditor's opinion was unmodified. For further details of the observations, please refer "*Financial Information*" on page 164 and "*Outstanding Litigations - X. Summary of reservations or qualifications or adverse remarks or other observations by auditors in the audit report / CARO by the auditors in the last three financial years i.e. Fiscal 2023 to Fiscal 2025, and their impact on the financial statements and financial position of the company and the corrective steps taken and proposed to be taken by the company for each of the said reservations or qualifications or adverse remarks*" on page 233. There can be no assurance that our statutory auditors will not include further reservations or qualifications or other observations or other similar comments in the audit reports to our audited financial statements in the future, or that such remarks or observations will not affect our financial results in future fiscal periods. Investors should consider the reservations or qualifications or other observations and remarks in evaluating our financial condition, results of operations and cash flows. Any such matter of emphasis or remark in the auditors' report on our financial statements in the future may also adversely affect the trading price of the NCDs.

**11. *We were subjected to payment of fine to BSE in past for certain delayed compliances with reporting requirements mentioned under the SEBI Listing Regulations***

Our Company is subject to the obligations and reporting requirements under SEBI Listing Regulations, including Regulation 60(2) which specifies that a listed entity shall intimate the Stock Exchange the Record Date of the Security, 7 working days (excluding the intimating date and record date) in advance. There has been a delay in intimating the record date to BSE with respect to certain debt instruments during financial year 2022-23, which has resulted in levy of fines by BSE. The Company has paid the requisite fine. Further, there have been no penalties levied on us by BSE for the financial year 2024-2025. Though our Company endeavours to comply with all such obligations/reporting requirements on timely manner, there have been certain instances of non-compliance and delays in complying with such obligations/reporting requirements. Any such delays or non-compliance would render our Company to prosecution and/or penalties.

**12. *Our significant indebtedness and the conditions and restrictions imposed by our financing arrangements could restrict our ability to conduct our business and operations in the manner we desire.***

As of March 31, 2025, the total secured borrowings of the company aggregated to ₹ 22,37,974.84 lakhs, unsecured borrowings of our company aggregated to ₹ 3,47,483.08 lakhs and outstanding securitization (pass through certification) is Nil.

Most of our borrowings are secured by hypothecation of current assets/loan receivables. Our significant indebtedness could have several important consequences, including but not limited to the following:

- a portion of our cash flow may be used towards repayment of our existing debt, which will reduce the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other general corporate requirements;
- our ability to obtain additional financing in the future at reasonable terms may be restricted or our cost of borrowings may increase due to sudden adverse market conditions, including decreased availability of credit or fluctuations in interest rates;
- fluctuations in market interest rates may affect the cost of our borrowings as some of our indebtedness are at variable interest rates;
- there could be a material adverse effect on our business, financial condition and results of operations if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements; and
- we may be more vulnerable to economic downturns, we may be limited in our ability to withstand competitive pressures and we may have reduced flexibility in responding to changing business, regulatory and economic conditions.

Moreover, certain loans may be recalled by our lenders at any time. Any of these lenders may affect our business and operations where we are currently in breach of or have breached in the past.

**13. *Some of our financial arrangements contain restrictive covenants that may adversely affect our business and operations, some which we are currently in breach of or have breached in the past.***

Some of our financing agreements include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. Specifically, under some of our financing agreements, we require, and may be unable to obtain, consents from the relevant lenders for, among others, the following matters: entering into any scheme of merger; spinning-off of a business division; selling or transferring all or a substantial portion of our assets; making any change in ownership or control or constitution of our Company; making amendments in our Memorandum and Articles of Association; creating any further security interest on the assets upon which the existing lenders have a prior charge; and raising funds by way of any fresh capital issue. These covenants vary depending on the requirements of the financial institution extending the loan and the conditions negotiated under each financing document. Such covenants may restrict or delay certain actions or initiatives that we may propose to take from time to time.

Further, the financing arrangements that we have entered into with certain banks and financial institutions and terms and conditions for issue of non-convertible debentures issued by us contain restrictive covenants, which among other things require us to obtain prior permission of such banks, financial institutions or debenture trustees or to inform them with respect to various activities, including, alteration of our capital structure, changes in management, raising of fresh capital or debt, payment of dividend, revaluation or sale of our assets, undertaking new projects, creating subsidiaries, change in accounting policies, or invest by way

of share capital or lend to other companies, undertaking guarantee obligations on behalf of other companies, and creation of further charge on fixed assets. Additionally, certain loan agreements require us to meet and maintain prescribed financial ratios. Further, under these loan agreements during the subsistence of the facilities, certain lenders have a right to appoint nominee directors on our Board from time to time. Furthermore, some of our financing arrangements contain cross default provisions which could automatically trigger defaults under other financing arrangements, in turn magnifying the effect of an individual default. Although we attempt to maintain compliance with our covenants or obtain prospective waivers where possible, we cannot assure you that we will be continuously compliant.

We have breached certain such covenants in the past and may continue to be inadvertently in technical breach of, certain covenants under these loan agreements and other financing arrangements. While we are not aware of any such breaches, and although no bank or financial institution has issued a notice of default to us, if we are held to be in breach of any financial or other covenants contained in any of our financing arrangements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs, and because of such defaults we may be unable to find additional sources of financing. If any of these events were to occur, it would likely result in a material adverse effect on our financial condition and results of operations or even our ability to continue as a going concern. A failure to observe the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under our other financing agreements. If the obligations under any of our financing documents are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Further, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect our business, credit rating and financial condition and results of operations. Moreover, any such action initiated by our lenders could result in the price of our NCDs being adversely affected.

- 14. Our entire customer base comprises of individuals, small traders and business operators, who generally are more likely to be affected by declining economic conditions than larger corporate borrowers. Any decline in the repayment capabilities of our borrowers, may result in increase in default thereby adversely affecting our business and financial condition.**

Individual and small enterprise segment borrowers generally are less financially resilient than larger corporate borrowers, and, as a result, they can be more adversely affected by declining economic conditions. In addition, a significant majority of our customer base belongs to the low to medium income group and/or the small enterprises finance sector who may be more likely to be affected by declining economic conditions than large corporate houses.

Any decline in the economic conditions may impact the repayment capabilities of our borrowers, which may result in increase in defaults, thereby adversely affecting our business and financial conditions.

- 15. We face difficulties in carrying out credit risk analyses on our customers, most of whom are individual borrowers, which could have a material and adverse effect on our results of operations and financial condition.**

A portion of our borrowers are new to formal credit and, as such, lack established credit histories. Additionally, many of our customers have limited experience with banking services. Furthermore, unlike several developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial statements available about individuals, particularly our focus customer segment from the low to medium income group who typically have limited access to other financing sources. It is therefore difficult to carry out precise credit risk analyses on our customers. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to maintain sufficient credit assessment policies for non gold loans particularly for individual borrowers, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

- 16. Since we handle high volumes of cash and gold jewellery in a dispersed network of branches, we are exposed to operational risks, including employee negligence, fraud, petty theft, burglary and embezzlement, which could harm our results of operations and financial position.**

As of March 31, 2025, March 31, 2024 and March 31, 2023, we held cash balance of ₹ 12,428.56 lakhs, 8,613.95 lakhs and ₹ 9,437.66 lakhs and gold jewellery of 43.69 tons, 48.21 tons and 48.01 tons, respectively.

Our gold loan transactions involve handling significant volumes of cash and gold jewellery at our branch offices. Large cash and gold jewellery transactions expose us to the risk of fraud by employees, agents, customers or third parties, theft, burglary and misappropriation or unauthorised transactions by our employees. Our insurance policies, security systems and measures undertaken to detect and prevent these risks may not be sometimes, sufficient to prevent or deter such activities in all cases, which may adversely affect our operations and profitability. Our employees may also become targets of the theft, burglary and other crimes if they are present when these crimes are committed and may sustain physical and psychological injuries as a result. We may encounter difficulties recruiting and retaining qualified employees due to this risk and our business and operations may be adversely affected. Please see below details as on March 31, 2025:

(₹ in lakhs)

As on March 31, 2025				
	No. of cases	Amount	No of cases after recovery	Amount after recovery
Internal Fraud	9	418.5	8	392.09
Spurious	6	65.94	6	65.94
Theft	85	167.78	85	167.28
<b>Total</b>	<b>100</b>	<b>652.22</b>	<b>99</b>	<b>625.31</b>

Further, we may be subject to regulatory or other proceedings in connection with any unauthorised transaction, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill. The nature and size of the items provided as collateral allow these items to be misplaced or misdelivered, which may have a negative impact on our operations and result in losses.

**17. We may not be able to successfully sustain our growth strategy. Inability to effectively manage any of our growth and related issues could materially and adversely affect our business and impact our future financial performance.**

Our gross loans under management as of March 31, 2025, March 31, 2024 and March 31, 2023 was ₹ 26,03,164.78 Lakhs, ₹ 21,71,234.13 lakhs and ₹ 17,61,507.49 lakhs, respectively, on a standalone basis as per IndAS. As of March 31, 2025, March 31, 2024 and March 31, 2023 our Company held 43.69 tonnes, 48.21 tonnes and 48.01 tonnes, respectively, of gold jewellery, respectively, as security for all gold loans. Our capital adequacy ratio as of March 31, 2025, March 31, 2024 and March 31, 2023 computed on the basis of applicable RBI requirements was 19.50%, 20.01 % and 21.34%, respectively, on standalone basis as per Ind AS, compared to RBI stipulated minimum requirement of 15%, with Tier I Capital comprising 15.85%, 15.87% and 16.48%, respectively.

Our Stage 3 Assets as a percentage of total loan assets as per Ind AS was 1.98%, 1.62% and 2.11% as of March 31, 2025, March 31, 2024 and March 31, 2023 respectively. Our Stage 3 Assets net of Stage 3 Provision as per Ind AS as on March 31, 2025, March 31, 2024 and March 31, 2023 were at 1.28%, 0.64% and 0.58%, respectively, on a standalone basis.

Our growth strategy includes growing our loan book, expanding our customer base and expanding our branch network. There can be no assurance that we will be able to sustain our growth strategy successfully or that we will be able to expand further or diversify our product portfolio or grow the levels of net profit earned in recent years. Furthermore, there may not be sufficient demand for such products, or they may not generate sufficient revenues relative to the costs associated with offering such products and services. Even if we were able to introduce new products and services successfully, there can be no assurance that we will be able to achieve our intended return on such investments. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition.

We also face a number of operational risks in executing our growth strategy. We have experienced rapid growth in our gold loan business and our branch network also has expanded significantly, and we are entering into new, smaller towns and cities within India as part of our growth strategy. Our rapid growth exposes us to a wide range of increased risks, including business risks, such as the possibility that a number of our impaired loans may grow faster than anticipated, as well as operational risks, fraud risks and regulatory and legal risks. Moreover, our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, maintaining effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. Particularly, we are significantly dependent upon a core management team who oversee the day-to-day

operations, strategy and growth of our businesses. If one or more members of our core management team were unable or unwilling to continue in their present positions, such persons may be difficult to replace, and our business and results of operation could be adversely affected. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

***18. We face increasing competition in our business which may result in declining margins if we are unable to compete effectively. Increasing competition may have an adverse effect on our net interest margin, and, if we are unable to compete successfully, our market share may decline.***

Our principal business is the provision of personal loans to retail customers in India secured by gold jewellery as collateral. Historically, the gold loan industry in India has been largely unorganised and dominated by local jewellery pawn shops and money lenders, with very few public sector and old generation private sector banks focusing on this sector. Attractive interest rates relative to risk together with increased demand for access to capital from middle income group, previously utilised predominantly by lower income group customers with limited access to other forms of borrowings, have increased our exposure to competition. The demand for gold loans has also increased due to relatively affordable interest rates, increased need for urgent borrowing or bridge financing requirements and the need for liquidity for assets held in gold and also due to increased awareness among customers of gold loans as a source of quick access to funds.

All of these factors have resulted in increased competition from other lenders in the gold loan industry, including commercial banks and other NBFCs. Unlike commercial banks or deposit taking NBFCs, we do not have access to funding from savings and current deposits of customers. Instead, we are reliant on higher-cost term loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively with commercial banks or deposit-taking NBFCs will depend, to some extent, on our ability to raise low-cost funding in the future. If we are unable to compete effectively with other participants in the gold loan industry, our business, future financial performance, and the trading price of the NCDs and Equity Shares may be adversely affected.

We operate in largely un-tapped markets in various regions in India where banks operate actively in the gold loan business. We compete with pawnshops and financial institutions, such as consumer finance companies. Other lenders may lend money on unsecured basis, at interest rates that may be lower than our service charges and on other terms that may be more favourable than ours.

Furthermore, as a result of increased competition in the gold loan industry, gold loans are becoming increasingly standardised and variable interest rate and payment terms and waiver of processing fees are becoming increasingly common in the gold loan industry in India. There can be no assurance that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive gold loans industry. Increasing competition may have an adverse effect on our net interest margin and other income, and, if we are unable to compete successfully, our market share may decline as the origination of new loans declines.

***19. We may experience difficulties in expanding our business into new regions and markets in India and introducing our complete range of products in each of our branches which may affect our business prospects, financial condition and result of operations.***

As part of our growth strategy, we continue to evaluate attractive growth opportunities to expand our business into new regions and markets in India. Factors such as competition, culture, regulatory regimes, business practices and customs and customer requirements in these new markets may differ from those in our current markets and our experience in our current markets may not be applicable to these new markets. In addition, as we enter new markets and geographical regions, we are likely to compete not only with other traditional gold loan NBFCs, banks and financial institutions but also the local unorganized or semi-organized private financiers and pawn brokers, who are more familiar with local traditions, regulations, business practices and customs and have stronger relationships with customers.

As a part of our growth strategy, we propose to increase our network of branches across the country and reach out to newer markets while strengthening our position in our existing markets with respect to the core gold loans business. Such branches will only be opened after multiple rounds of market evaluation, customer research and launching branches in close proximity to high customer activity areas. These branches are proposed to service the needs of our customers for all our Company's products.

Our business may be exposed to various additional challenges including obtaining necessary governmental approvals, identifying and collaborating with local businesses and partners with whom we may have no previous working relationship; successfully gauging market conditions in local markets with which we have no previous familiarity; attracting potential customers in a market in which we do not have significant experience or visibility; being susceptible to local taxation in additional geographical areas of India and adapting our marketing strategy and operations to different regions of India in which different languages are spoken. Our inability to expand our current operations may adversely affect our business prospects, financial conditions and results of operations.

**20. *A majority of our branches are located in southern India, and any disruption or downturn in the economy in the states in India where we operate, or any change in consumer preferences in that region could adversely affect our results of operations and financial condition.***

We have a strong concentration of our business in south India with 2,641 branches out of our 3,736 branches as on March 31, 2025, located in the southern states of Kerala (708 branches), Tamil Nadu (769 branches), Andhra Pradesh (347 branches), Telangana (257 branches), Goa (11 branches), Karnataka (549 branches), and other states (1,095 branches). Further, approximately 54.61% of our gold loan portfolio as on March 31, 2025 is concentrated in the aforementioned states. Any adverse change in the political and/or economic environment in the states of Kerala, Tamil Nadu, Andhra Pradesh, Telangana, Goa and Karnataka or any unfavourable changes in the regulatory and policy regime in the said region could adversely affect our business operations, financial condition and/or profitability. Our concentration in southern India exposes us to adverse economic or political circumstances that may arise in that region as compared to other NBFCs and commercial banks that may have diversified national presence. Further, any changes in customer preferences in the said region could also affect our operations and profitability. If there is sustained downturn in the economy of southern India, our financial position may be adversely affected.

**21. *New product/services offered by us may not be successful.***

We introduce new products/services to explore new business opportunities from time to time. We cannot assure you that all our new products/services and/or business ventures will gain customer acceptance, and this may result in our inability to recover incurred pre-operative expenses and launch costs. Further, our inability to grow in new business areas could adversely affect our business and financial performance.

**22. *We may not be able to maintain our current levels of profitability due to increased costs or reduced spreads.***

Our business involves a large volume of small-ticket size loans and requires manual operational support. Hence, we require dedicated staff for providing our services. In order to grow our portfolio, our expanded operations will also increase our manpower requirements and push up operational costs. Our growth will also require a relatively higher gross spread, or margin, on the consumer lending products we offer in order to maintain profitability. There can be no assurance that we will be able to maintain our current levels of profitability if the gross spreads on our consumer lending products were to reduce substantially, which could adversely affect our results of operations.

**23. *Majority of our loan portfolio is not classified as priority sector advances by RBI. Further, any RBI regulations making our gold loans ineligible for securitization, will result in higher cost of funds.***

RBI prudential norms for banks require domestic commercial banks operating in India to maintain an aggregate 40% (32% for foreign banks) of their adjusted net bank credit or credit equivalent amount of off-balance sheet exposure, whichever is higher as “priority sector advances”. These include advances to agriculture, micro, small and medium enterprises, exports and similar sectors where the Government seeks to encourage flow of credit for developmental reasons. Banks in India that have traditionally been constrained or unable to meet these requirements organically, have relied on specialised institutions like our Company that are better positioned to or focus on originating such assets through on-lending or purchase of assets or securitised pools to comply with these targets.

The gold loan borrowers have the option to pay the interest regularly to have the concessionary interest rate and have the option to part /fully pay the principal. However, small percentage (around 11-13%) of the borrowers follow this. Of the overall loan book, only a small portion of our portfolio meets the eligible criteria for securitization/ assignment norms (including holding period and seasoning), thereby restricting our Company’s ability to raise significant fund by assignment /securitization.

**24. *A decline in our capital adequacy ratio could restrict our future business growth.***

All non-deposit taking NBFCs are required to maintain a minimum capital adequacy ratio, consisting of Tier

I and Tier II Capital of not less than 15% of their aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items. Further, RBI has introduced minimum Tier I Capital requirement of 12% to be effective from April 1, 2014 for NBFCs primarily for whom loans against gold jewellery comprise more than 50% of their financial assets, including us. Our capital adequacy ratio as of March 31, 2025, March 31, 2024 and March 31, 2023 computed on the basis of applicable RBI requirements was 19.50%, 20.01% and 21.34%, respectively, on standalone basis as per Ind AS, compared to RBI stipulated minimum requirement of 15%, with Tier I Capital comprising 15.85%, 15.87% and 16.48%, respectively. If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II Capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all and this may adversely affect the growth of our business. Failure to maintain adequate capital adequacy ratio or Tier I Capital may adversely affect the growth of our business. Further, any regulatory change in capital adequacy requirements imposed by the RBI may have an adverse effect on our results of operation.

**25. *If we fail to maintain effective internal control over financial reporting in the future, the accuracy and timing of our financial reporting may be adversely affected.***

We have taken steps to enhance our internal controls commensurate to the size of our business, primarily through the formation of a designated branch audit and inspection team. However, certain matters such as fraud and embezzlement cannot be eliminated entirely given the cash nature of our business. While we expect to remedy such issues, we cannot assure you that we will be able to do so in a timely manner, which could impair our ability to accurately and timely report our financial position, results of operations or cash flows.

**26. *A significant proportion of the gold loans we offer are due within twelve months of disbursement, and a failure to disburse new loans may result in a reduction of our loan portfolio and a corresponding decrease in our interest income.***

88.08%, 90.71% and 94.90% of our total loan portfolio (AUM) as on March 31, 2025, March 31, 2024 and March 31, 2023, respectively, are due within twelve months from the end of the respective period. The relatively short-term nature of such gold loans (i) may lead to a positive mismatch in the asset liability position of our Company in the short term since a portion of our borrowings are typically for longer duration negative mismatch in the long term but cumulatively positive mismatch and/or (ii) affect ability to ascertain steady long terms revenues. In addition, our existing customers may not obtain new gold loans from us upon maturity of their existing gold loans, particularly if competition increases. The potential instability of our interest income could materially and adversely affect our results of operations and financial position.

**27. *System failures or inadequacies and security breaches in computer systems may adversely affect our business operations and result in financial loss, disruption of our business, regulatory intervention or damage to our reputation.***

Our business is largely dependent on our ability to process a large number of transactions on a daily basis. Significantly, all our branches are required to send records of transactions, at the end of every working day, to a central system for consolidation of branch data. Our financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are wholly or partially beyond our control including a disruption of electrical or communications services.

Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to and received by our management through our existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate our growing customer base and range of products.

Our operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Our computer systems, software and networks may be vulnerable to unauthorised access, computer viruses or other malicious code and other events that could compromise data integrity and security.

Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation. In addition, our ability to

conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the localities in which we are located.

**28. *We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.***

We face potential liquidity risks due to varying periods over which our assets and liabilities mature. As is typical for NBFCs, a portion of our funding requirements is met through short-term funding sources such as bank loans, working capital demand loans, cash credit, short term loans and commercial papers. However, each of our products differs in terms of the average tenor, average yield, average interest rates and average size of loan. The average tenor of our products is lesser than the average tenor of our liabilities. Typically, the average maturity profile of our Company's lending portfolio is 4-5 months to 1 year whereas the liabilities are of a longer term. Consequently, since our assets are of short term and liabilities are of long term nature, our inability to obtain additional credit facilities or renew our existing credit facilities, in a timely and cost-effective manner or at all, may lead to liquidation/ non building of assets of our assets, which in turn may adversely affect our operations and financial performance. Further, mismatches between our assets and liabilities are compounded in case of pre-payments of the financing facilities we grant to our customers. Such prepayment of the financing facility, if further assets are not built up may affect the financial performance.

**29. *Any disassociation of our Company from "Muthoot Pappachan Group" could adversely affect our operations and profitability.***

Our Promoters collectively hold 79.68% of our paid-up Equity Share capital as on March 31, 2025. If our Promoters cease to exercise control over our Company as a result of any transfer of shares or otherwise, our ability to derive any benefit from the brand name "Muthoot Fincorp" and "Muthoot Pappachan" brand names and our goodwill as a part of the "Muthoot Pappachan" Group may be adversely affected, which in turn could adversely affect our business and results of operations. Any such change of control could also significantly influence our business policies and operations.

We benefit in several ways from other entities under the "Muthoot Pappachan" Group. Our customer base over the years has comprised of customers of other entities in the Muthoot Pappachan Group, such as customers of Muthoot Capital Services Limited and MHFCL. Accordingly, any disassociation of our Company from the Muthoot Pappachan Group could adversely affect our ability to attract customers and to expand our business, which in turn could adversely affect our goodwill, operations and profitability.

**30. *The trademark/service mark and logo in connection with the "Muthoot Pappachan" brand and the "Muthoot Fincorp" logo are pending registration in various classes including classes which pertain to our Company's business. Our failure to protect our intellectual property may adversely affect our goodwill, operations and profitability.***

The trademark/service mark and logo in connection with the "Muthoot Pappachan" brand and the "Muthoot Fincorp" logo are pending registration in various classes including classes which pertain to our Company's business. Our Promoters have applied for but not obtained registrations in connection with protection of the aforesaid trademarks and logos. Presently, the status of our application is 'opposed' as on date, however there is no restriction on the usage of the mark. There can be no assurance that our Promoters would be able to obtain registrations of the aforesaid logos and trademarks under each or all of the classes. Once such trademarks and/or logos are registered we intend to enter into an agreement with our Promoters for the use of such logos and/or trademarks. There can be no assurance that we would be able to enter into such agreement(s) with our Promoters on terms which are commercially favourable to us, or at all. Further, if the commercial terms and conditions including the consideration payable pursuant to the said agreement are revised unfavourably, our Company may be required to allocate larger portions of its profits and/or revenues towards such consideration, which would adversely affect our profitability.

Any failure to protect our intellectual property rights may adversely affect our competitive business position. If any of our unregistered trademarks or proprietary rights are registered by a third party, we may not be able to make use of such trademark or propriety rights in connection with our business and consequently, we may be unable to capitalize on the brand recognition associated with our Company. Until such time that we have rights in connections with registered trademarks, we can only seek relief against "passing off" by other entities. Accordingly, we may be required to invest significant resources in developing a new brand. Further, the intellectual property protection obtained by us may be inadequate and/or we may be unable to detect any unauthorised use and/or that we may need to undertake expensive and time-consuming litigation to protect our intellectual property rights and this may have an adverse effect on our business, prospects, results of operations and financial condition. We operate in a competitive environment and we believe that our brand recognition is a significant competitive advantage to us. Any such failure to protect our intellectual property

rights could require us to incur additional costs and may adversely impact our goodwill, business prospects and results of operations.

31. *We do not own most of our branch offices and our registered office. Any failure on our part to execute and/or renew lease and license agreements and/or lease deeds in connection with such offices or failure to locate alternative offices in case of termination of the leases and/or leave and license arrangements in connection with any branch could adversely affect our operations and profitability.*

Our Registered Office and most of our branches are located on leased and/or licensed premises. If any of the owners of these premises does not renew an agreement under which we occupy the premises, attempt to evict us or seek to renew an agreement on terms and conditions unfavourable to us, we may suffer a disruption in our operations or increased costs, or both, which may adversely affect our business and results of operations. Further, most of our lease agreements with respect to our immovable properties may not be adequately stamped or duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered as inadmissible as evidence in a court in India, may not be authenticated by any public officer, or attract penalty as prescribed under applicable law, which impact our ability to enforce these agreements effectively, which may result in a material adverse effect on the continuance of the operations and business of our Company.

32. *We have certain contingent liabilities which may adversely affect our financial condition if they materialise.*

Our financial statements disclosed and reflected the following contingent liabilities:

**Contingent Liabilities (to the extent not provided for)**

Particulars	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
<b>Claims against the Company not acknowledged as debt</b>			
i. Income Tax Demands	8,166.12	3,679.87	3,420.85
ii. Service Tax Demands	5,106.13	5,106.18	5,106.18
iii. Value Added Tax Demands	-	-	1,327.12
iv. Goods & Services Tax	1,433.74	787.09	-
v. Legal cases*	65.02	46.41	-
v. Bank Guarantees	613.75	215.05	43.81
<b>Commitments not provided for:</b>			
i. Commitments related to loans sanctioned but undrawn	4,208.67	3,921.60	-

*\*Apart from the above, Company is subject to legal proceedings and claims which have arisen in the ordinary course of the business that are pending first level verdicts as at March 31, 2025 for which a present obligation as at the reporting date does not exist. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Company's financial position.*

In the event that any of these contingent liabilities materialise, our financial condition may be adversely affected.

33. *We and some of our Subsidiaries, Directors and Promoters are involved in various legal and other proceedings that if determined against us could have a material adverse effect on our business, financial condition and results of operations.*

We and some of our Subsidiaries, Directors and Promoters are currently involved in a number of legal proceedings arising in the ordinary course of our business. These proceedings are pending at different levels of adjudication before various courts and tribunals, primarily relating to civil suits and tax disputes.

We cannot provide any assurance in relation to the outcome of these proceedings. An adverse decision in these proceedings could materially and adversely affect our business, financial condition and results of operations. Further, there is no assurance that similar proceedings will not be initiated against us in the future.

34. *We are required to comply with strict regulations and guidelines issued by regulatory authorities in India. Any non-compliance with such regulations/guidelines may affect our status of operations.*

We are regulated principally by and have reporting obligations to the RBI. We are also subject to the corporate, taxation and other laws in effect in India. The regulatory and legal framework governing us may continue to change as India's economy and commercial and financial markets evolve. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency in India's asset finance sector.

Compliance with many of the regulations applicable to our operations may involve significant costs and otherwise may impose restrictions on our operations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of our Company could be adversely affected. Our present operations may not meet all regulatory requirements or subsequent regulatory amendments. There can be no assurance that changes in these regulations and the enforcement of existing and future rules by governmental and regulatory authorities will not adversely affect our business and future financial performance.

For instance, pursuant to RBI guidelines and based on the recommendations of the K.U.B Rao Committee, NBFCs are required to be more transparent to the borrower and bring standardization in valuation. Consequently, gold jewellery accepted as collateral shall have to be valued at the average of the closing price of 22 carat gold for the preceding 30 days as quoted by The Bombay Bullion Association Limited ("BBA") or the historical spot gold price data publicly disseminated by a commodity exchange regulated by the Forward Markets Commission. The Loan to Value ratio remains at 75%. While accepting the gold as collateral, NBFCs are required to give in writing to the borrower, on their letter head giving the purity (in terms of carats) and weight of the gold. If the gold is of purity less than 22 carats, the NBFC should translate the collateral into 22 carat and state the exact grams of the collateral. Loans amounting to ₹20,000 or more can be disbursed only by cheque or online transfers. Further, NBFCs have also been prohibited from issuing advertisements claiming the availability of loans in a matter of 2-3 minutes. Consequently, these guidelines could have an adverse effect on our results of operation and financial condition.

Further, existing NBFCs having more than 1,000 branches shall have to approach the RBI for prior approval for any further branch expansion.

**35. *Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts in India and in some developed countries. Inability to effectively manage our risk management systems can adversely affect our business, financial condition and results of operation.***

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data.

Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behavior. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, current, or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective. Our future success will depend, in part, on our ability to respond to new technological advances and evolving NBFC and gold loan sector standards and practices on a cost-effective and timely basis. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will successfully implement new technologies or adapt our transaction-processing systems to customer requirements or evolving market standards and any failure to do so can adversely affect our business, financial condition and results of operation.

**36. *We have entered into certain related party transactions and may continue to do so in the future.***

We have entered into transactions with related parties, within the meaning of AS 18 as notified by the Companies (Accounting Standards) Rules, 2006 including our Promoters, Directors and related entities. We can give no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties. Additionally, there can be no assurance that any dispute that may arise between us and related parties will be resolved in our favour.

**37. *Our success depends in large part upon our management team and key personnel and our ability to attract, train and retain such persons.***

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives and gold assessment technical personnel. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. In addition, we may not be able to hire and retain enough skilled and experienced employees to replace those who leave or may not be able to deploy and retain our employees to keep pace with continuing changes in technology, evolving standards and changing customer preferences. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, divert management resources and subject us to incurring additional human resource related expenditure. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees in the finance sector can be intense. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

**38. *Our results of operations could be adversely affected by any disputes with our employees.***

As of March 31, 2025, we employed 26,723 employees including 92 contracted experts in our operations. Currently, none of our employees are members of any labour union. While we believe that we maintain good relationships with our employees, there can be no assurance that we will not experience future disruptions to our operations due to disputes or other problems with our work force, which may adversely affect our business and results of operations.

**39. *Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business.***

We require certain statutory and/or regulatory permits and approvals for our business.

NBFCs in India are subject to strict regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory permits and approvals for our business. In the future, we will be required to renew such permits and approvals and obtain new permits and approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such permits or approvals in a timely manner or at all, and/or on favourable terms and conditions. Failure by us to comply with the terms and conditions to which such permits or approvals are subject, and/or to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

In addition, our branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled, and we shall not be able to carry on such activities.

**40. *We are subject to supervision and regulation by RBI as an NBFC-ML, and any adverse changes in RBI's regulations governing us could adversely affect our business.***

We are regulated principally by and have reporting obligations to the RBI. We are also subject to the corporate, taxation and other laws in effect in India. The regulatory and legal framework governing us may continue to change as India's economy and commercial and financial markets evolve. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency in India's asset

finance sector. We are subject to the RBI's guidelines on financial regulation of NBFCs, including capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFCs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to NBFCs. The RBI's regulations of NBFCs could change in the future which may require us to restructure our activities, incur additional cost, impose restrictions on banks in relation to the exposure to NBFCs or could otherwise adversely affect our business and our financial performance. The RBI, from time to time, amends the regulatory framework governing NBFCs to address, among others, concerns arising from certain divergent regulatory requirements for banks and NBFCs. The laws and regulations governing the banking and financial services industry in India have become increasingly complex and cover a wide variety of issues, such as interest rates, liquidity, securitisation, investments, ethical issues, money laundering and privacy. In some cases, there are overlapping regulations and enforcement authorities. Moreover, these laws and regulations can be amended, supplemented or changed at any time such that we may be required to restructure our activities and incur additional expenses to comply with such laws and regulations, which could materially and adversely affect our business and our financial performance. Compliance with many of the regulations applicable to our operations in India, including any restrictions on investments, lending and other activities currently being carried out by our Company, involves a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. Further, compliance with many of the regulations applicable to our operations may involve significant costs and otherwise may impose restrictions on our operations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and our business could be adversely affected.

We are also subject to changes in Indian laws, regulations and accounting principles and practices. There can be no assurance that the laws governing our Company and its operations will not change in the future or that such changes or the interpretation or enforcement of existing and future laws and rules by governmental and regulatory authorities will not adversely affect our business and future financial performance.

**41. *Our insurance coverage may not be adequate to protect us against potential losses. Any liability in excess of our insurance claim could have a material adverse effect on our results of operations and financial position.***

We maintain such insurance coverage that we believe is adequate for our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. We cannot, however, assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims or that the insurer will not disclaim coverage as to any future claim.

A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies including premium increases or the imposition of a larger deductible or co-insurance requirement could adversely affect our business, financial condition and results of operations. We maintain insurance cover for our free hold real estate and tangible properties and infrastructure at all owned and leased premises which provide insurance cover against loss or damage by fire, earthquake, lightning, riot, strike, storm, flood, explosion, aircraft damage, rock-slide and missile testing. Further we maintain insurance cover for employee fidelity, cash and gold in the office premises and in transit which provides insurance cover against loss or damage by employee theft, burglary, house breaking and hold up. The aggregate insured value covered by the various insurance policies we have subscribed may be less than the replacement cost of all covered property and may not be sufficient to cover all financial losses that we may suffer should a risk materialise. Further, there are many events that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. If we were to incur a significant liability for which we were not fully insured, it could have a material adverse effect on our results of operations and financial position.

**42. *Our internal procedures, on which we rely for obtaining information on our customers and loan collateral, may be deficient and result in business losses.***

We rely on our internal procedures for obtaining information on our customers and loan collateral provided. In the event of lapses or deficiencies in our procedures or in their implementation, we may be subject to business or operational risk. For example, in the event that we unknowingly receive stolen goods as collateral from a customer, the goods can be seized by the authorities. Once seized by the authorities, gold items will be stored in court storage facilities without a surety arrangement unless released to the Company from safe custody, upon a specific order. No recourse will generally be available to the Company in the event of such seizure, except the recovery of the loss from the customer.

**43. *Increase in competition from our peer group in the finance sector may result in reduction of our market share, which in turn may adversely affect our profitability.***

We have been increasingly facing competition from domestic and foreign banks and NBFCs in each of our lines of businesses. Some of our competitors are very aggressive in underwriting credit risk and pricing their products and may have access to funds at a lower cost, wider networks and greater resources than our Company. Our financial condition and results of operations are dependent on our ability to obtain and maintain funds at low costs and to provide prompt and quality services to our customers. If our Company is unable to access funds at a cost comparable to or lower than our competitors, we may not be able to offer loans at competitive interest rates to our customers.

While our Company believes that it has historically been able to offer competitive interest rates on the loans extended to our customers, there can be no assurance that our Company will be able to continue to do so in the future. An increase in competition from our peer group may result in a decline in our market share, which may in turn result in reduced incomes from our operations and may adversely affect our profitability.

**44. *Conflicts of interest may arise out of common business objects shared by our Company and certain other entities promoted by our Promoters.***

Certain decisions concerning our operations or financial structure may present conflicts of interest among our Promoters, other Shareholders, Directors, executive officers and the holders of equity shares. Our Promoters have interests in other companies and entities that may compete with us, including other companies and partnership firms that conduct businesses with operations that are similar to ours.

Our Promoters and Group entities have interests in the following entities that are engaged in businesses similar to ours and this may result in potential conflicts of interest with the Company.

**Companies:**

- Muthoot Capital Services Limited;
- Muthoot Housing Finance Company Limited;
- Muthoot Microfin Limited;

Except as disclosed in this Tranche VI Prospectus, we have not entered into any non-compete agreement with our Promoter and/or such entities promoted by our Promoter. To this extent, we may have a potential conflict of interest between such entities and our Company. Further, there is no requirement or undertaking for our Promoters to conduct or direct any opportunities in the gold loans and/or NBFC business only to or through us. As a result, conflict of interests may arise in allocating or addressing business opportunities and strategies amongst our Company and other entities promoted by our Promoters in circumstances where our interests differ from theirs. In cases of conflict, our Promoters may favour other entities in which our Promoters have an interest, as listed above. There can be no assurance that the interests of our Promoters will be aligned in all cases with the interests of our minority shareholders or the interests of our Company. There can be no assurance that entities promoted by our Promoters will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours.

Commercial transactions in the future between us and related parties could result in conflicting interests. A conflict of interest may occur directly or indirectly between our business and the business of our Promoters which could have an adverse effect on our operations. Conflicts of interest may also arise out of common business objectives shared by us, our Promoters, directors and their related entities. Our Promoters, directors and their related entities may compete with us and have no obligation to direct any opportunities to us. There can be no assurance that these or other conflicts of interest will be resolved in an impartial manner.

**45. *We may not be able to detect money-laundering and other illegal or improper activities fully or on a timely basis, which could expose us to additional liability and harm our business or reputation.***

We are required to comply with applicable anti-money-laundering, anti-terrorism laws and other applicable regulations in India. We, in the course of our operations, run the risk of failing to comply with the prescribed KYC procedures and the consequent risk of fraud and money laundering by dishonest customers despite putting in place systems and controls to prevent the occurrence of these risks. In our pursuit of business, we run the risk of inadvertently offering our financial products and services ignoring customer suitability and appropriateness despite having a Board approved customer suitability policy and associated processes in place. To the extent the Company fails to fully comply with applicable laws and regulations, the relevant

government agencies to which the Company reports have the power and authority to impose fines and other penalties. In addition, the Company's business and reputation could suffer if customers use the Company for money-laundering or illegal or improper purposes. Any potential penalties or liabilities imposed by the relevant regulators on such matters may adversely affect the Company's financial condition and results of operations.

**46. *Any failure by us to identify, manage, complete and integrate acquisitions, divestitures and other significant transactions successfully could adversely affect our results of operations, business prospects and/or cash flows.***

Our current business strategy is to leverage on our experience in the gold loans industry and to expand our branch network and increase our gold loan portfolio. We cannot assure you that we will continue to follow these business strategies. In the future, we may decide to diversify into other businesses. We may also explore opportunities for expansion into new geographic markets outside India. We have stated our objectives for raising funds through the Issue and have set forth our strategy for our future business herein. However, depending on prevailing market conditions and other commercial considerations, our business model in the future may change from what is described herein. We cannot assure you that any diversification into other businesses will be beneficial to us. Further, any failure to successfully diversify in new businesses can adversely affect our financial condition.

As part of our business strategy, we may acquire complementary companies or businesses, divest non-core businesses or assets, enter into strategic alliances and joint ventures and make investments to further our business. In order to pursue this strategy successfully, we must identify suitable candidates for and successfully complete such transactions, some of which may be large and complex, and manage the integration of acquired companies or employees. We may not fully realise all of the anticipated benefits of any such transaction within the anticipated timeframe or at all. Any increased or unexpected costs, unanticipated delays or failure to achieve contractual obligations could make such transactions less profitable or unprofitable. Managing business combination and investment transactions requires varying levels of management resources, which may divert our attention from other business operations, may result in significant costs and expenses and charges to earnings. The challenges involved in integration include:

- i. combining product offerings and entering into new markets in which we are not experienced;
- ii. consolidating and maintaining relationships with customers;
- iii. consolidating and rationalising transaction processes and corporate and information technology infrastructure;
- iv. integrating employees and managing employee issues;
- v. coordinating and combining administrative and other operations and relationships with third parties in accordance with applicable laws and other obligations while maintaining adequate standards, controls and procedures;
- vi. achieving savings from infrastructure integration; and
- vii. managing other business, infrastructure and operational integration issues.

Any such acquisition may also result in earnings dilution, the amortisation of goodwill and other intangible assets or other charges to operations, any of which could have a material adverse effect on our business, financial condition or results of operations. These acquisitions may give rise to unforeseen contingent risks or latent liabilities relating to these businesses that may only become apparent after the merger or the acquisition is finalised. Such acquisitions could involve numerous additional risks, including, without limitation, difficulties in the assimilation of the operations, products, services and personnel of any acquired company and could disrupt our ongoing business, distract our management and employees and increase our expenses.

In addition, in order to finance an acquisition, we may be required to make additional borrowings or may issue additional Equity Shares, potentially leading to dilution of existing shareholders.

**47. *We have not entered into any definitive agreements to utilise a substantial portion of the net proceeds of the Issue.***

We intend to use the net proceeds for the purposes as identified on page 60 ("*Objects of the Tranche VI Issue*"), the net proceeds shall not be utilized for investment in real estate. Our management will have broad

discretion to use the net proceeds and you will be relying on the judgment of our management regarding the application of these net proceeds. Our funding requirements are based on current conditions and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy. Our management, in response to the competitive and dynamic nature of the industry, will have the discretion to revise its business plan from time to time. Any such change in our plans may require rescheduling of our current plans or discontinuing existing plans and an increase or decrease in the fund requirements for the objects, at the discretion of the management. Pending utilisation for the purposes described above, we intend to temporarily invest the funds in interest bearing liquid instruments including deposits with banks and investments in liquid (not equity) mutual funds. Such investments would be in accordance with the investment policies approved by our Board from time to time.

***48. We continue to be controlled by our Promoters and they will continue to have the ability to exercise significant control over us. We cannot assure you that exercise of control by our Promoters will always favour our best interest.***

Our Promoters hold 79.68% of our total outstanding paid up Equity Shares as on March 31, 2025. Our Promoters exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders. By exercising their control, our Promoters could delay, defer or cause a change of our control or a change in our capital structure, delay, defer or cause a merger, consolidation, takeover or other business combination involving us, discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us which may not favour our best interest.

***49. Our business and activities may be regulated by the Competition Act, 2002.***

The Competition Act, 2002 (the “**Competition Act**”) seeks to prevent business practices that have a material adverse effect on competition in India. Under the Competition Act, any arrangement, understanding or action in concert between enterprises, whether formal or informal, which causes or is likely to cause a material adverse effect on competition in India is void and attracts substantial monetary penalties. Any agreement that directly or indirectly determines purchase or sale prices, limits or controls production, shares the market by way of geographical area, market, or number of customers in the market is presumed to have a material adverse effect on competition. Provisions of the Competition Act relating to the regulation of certain acquisitions, mergers or amalgamations which have a material adverse effect on competition and regulations with respect to notification requirements for such combinations came into force on June 1, 2011. The effect of the Competition Act on the business environment in India is unclear. If we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the Competition Commission of India, or any adverse publicity that may be generated due to scrutiny or prosecution by the Competition Commission of India, it may have a material adverse effect on our business, prospects, results of operations, cash flows and financial condition.

***50. The bankruptcy code in India may affect our rights to recover loans from borrowers.***

The Insolvency and Bankruptcy Code, 2016 (“**Bankruptcy Code**”) was notified on August 5, 2016. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision, and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process. In case insolvency proceedings are initiated against a debtor to our Company, we may not have complete control over the recovery of amounts due to us. Under the Bankruptcy Code, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Bankruptcy Code provides a 180-day timeline which may be extended by 90 days when dealing with insolvency resolution applications. Subsequently, the insolvency resolution plan prepared by the insolvency professionals has to be approved by 66% of voting share of financial creditors, which requires sanction by the adjudicating authority and, if rejected, the adjudicating authority will pass an order for liquidation. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it. In case a liquidation process is opted for, the Bankruptcy Code provides for a fixed order of priority in which proceeds from the sale of the debtor’s assets are to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes, debts owed to workmen and other employees rank at par with those owed to secured creditors, and thereafter the debts owed to unsecured creditors shall be paid. Further, under this process, dues owed to the Central and State Governments rank at par with those owed to secured creditors for any amount

unpaid following the separate enforcement of security interest. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority. Accordingly, if the provisions of the Bankruptcy Code are invoked against any of the borrowers of our Company, it may affect our Company's ability to recover our loans from the borrowers and enforcement of our Company's rights will be subject to the Bankruptcy Code.

## **EXTERNAL RISK FACTORS**

### **Risks Relating to the Indian Economy**

#### ***51. A slowdown in economic growth in India could cause our business to be adversely affected.***

Our results of operations are significantly affected by factors influencing the Indian economy and the global economy in general. Any slowdown in economic growth in India could adversely affect us, including our ability to grow our loan portfolio, the quality of our assets, and our ability to implement our strategy.

Any slowdown in the growth or negative growth of sectors where we have a relatively higher exposure could adversely impact our performance. Any such slowdown, and in particular the financing requirement of our customers could adversely affect our business, prospects, results of operations and financial condition.

#### ***52. Political instability or changes in GoI could adversely affect economic conditions in India generally, and consequently, our business in particular.***

GoI has traditionally exercised and continues to exercise a significant influence over many aspects of the economy. Since 1991, successive governments have pursued policies of economic and financial sector liberalisation and deregulation and encouraged infrastructure projects. There can be no assurance that these liberalized policies will continue in the future as well. A significant change in GoI's policies in the future, particularly in respect of the gold loan NBFCs and the gold loan industry, could affect business and economic conditions in India. This could also adversely affect our business, prospects, results of operations and financial condition.

#### ***53. We may be adversely affected by increase in taxes and duties.***

Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, goods and service tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. Taxes and duties, including those taxes and duties on certain types of trade transactions and industries affecting the movement and transportation of goods in India, may affect our business, financial condition and results of operations. There can be no assurance that the current levels of taxes, tariffs and duties will not increase in the future, or that State Governments will not introduce additional levies, each of which may result in increased operating costs and lower income. To the extent additional levies are imposed, there can be no assurance that we will be able to pass such cost increases on to our customers.

#### ***54. Significant fluctuations in exchange rates between the Rupee and foreign currencies may have an adverse effect on our results of operations.***

Our results of operations may be adversely affected if the Indian rupee fluctuates significantly against foreign currencies or if our hedging strategy is unsuccessful. To the extent that our income and expenditures are not denominated in Indian rupees, despite us entering into foreign exchange hedging contracts from time to time, exchange rate fluctuations could affect the amount of income and expenditure we recognise. In addition, the policies of RBI may also change from time to time, which may limit our ability to hedge our foreign currency exposures adequately.

#### ***55. Natural calamities could have a negative impact on the Indian economy and could cause our business to be adversely affected.***

India has experienced natural calamities such as earthquakes, tsunamis, floods and drought in the recent past. The extent and severity of these natural disasters determine their impact on the Indian economy. In previous years, many parts of India received significantly less than normal rainfall. As a result, the agricultural sector recorded minimal growth. Prolonged spells of below normal rainfall in the country or other natural calamities could have a negative impact on the Indian economy, thereby affecting our business, prospects, results of operations and financial condition.

**56. *If regional hostilities, terrorist attacks or social unrest in India increases, our business could be adversely affected.***

India has from time to time experienced social and civil unrest and hostilities within itself and with neighbouring countries. India has also experienced terrorist attacks in some parts of the country. India has experienced terrorist attacks in some parts of the country, which resulted in the loss of life, property and business. These hostilities and tensions and/or the occurrence of terrorist attacks have the potential to cause political or economic instability in India and adversely affect our business and future financial performance. Further, India has also experienced social unrest in some parts of the country. If such tensions occur in other parts of the country, leading to overall political and economic instability, it could have an adverse effect on our business, prospects, results of operations and financial condition. These hostilities and tensions could lead to political or economic instability in India and possible adverse effects on the Issuer's business, its future financial performance and the trading price of the NCDs.

**57. *If more stringent labour laws or other industry standards in the jurisdictions in which we operate become applicable to us, our profitability may be adversely affected.***

We are subject to a number of stringent labour laws and restrictive contractual covenants related to levels of employment. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal, payment of overtime to employees and legislation that imposes financial obligations on employers upon retrenchment. In the future, if we are also required to supply manpower as part of our services, we shall incur additional cost in addition to be exposed to other labour legislation. If labour laws become more stringent or are more strictly enforced, it may become difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could adversely affect our business, results of operations, financial condition and cash flows.

**58. *Any downgrading of India's sovereign rating by an international rating agency (ies) may affect our business and our liquidity to a great extent.***

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional finances at favourable interest rates and other commercial terms. This could have an adverse effect on our growth, financial performance and our operations. Instances of corruption in India have the potential to discourage investors and derail the growth prospects of the Indian economy. Corruption creates economic and regulatory uncertainty and could have an adverse effect on our business, profitability and results of operations. The Indian economy has had sustained periods of high inflation. Should inflation continue to increase sharply, our profitability and results of operations may be adversely impacted. High rates of inflation in India could increase our employee costs which could have an adverse effect on our profitability and results of operations.

**59. *A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition.***

A decline in India's foreign exchange reserves could impact the valuation of the Rupee and could result in reduced liquidity and higher interest rates which could adversely affect our financial condition.

**60. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.***

Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business.

There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are

amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

## **RISKS RELATING TO THE NCDS**

### ***61. We have not independently verified certain industry data in this Tranche VI Prospectus.***

We and the Lead Manager have not independently verified the data from industry publications contained herein including the Crisil Report and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Unless stated otherwise, macroeconomic and industry data used throughout this Tranche VI Prospectus has been obtained from the Crisil Report and from publicly available data prepared by providers of industry information, government sources and multilateral institutions. Therefore, matters relating to India, the Indian economy, as well as NBFCs, the gold loan industry, that are included herein are subject to the caveat that the statistical and other data upon which it is based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

### ***62. Refusal of listing of any security of our Company during preceding three financial years and current financial year by any of the stock exchanges in India or abroad.***

There has been no refusal of listing of any security of the Issuer during the current financial year and last three financial years prior to the date of this Tranche VI Prospectus by any Stock Exchange in India or abroad. We may face the risk of refusal of listing by stock exchanges in India or abroad. Such a scenario could impact the liquidity and marketability of the securities. If such securities are not listed, investors may face challenges in buying or selling them at desired prices or times, which could adversely affect their investment strategies and ability to realize returns. Refusal to list any security could also affect market perception of the securities issued by our Company, potentially leading to a decrease in confidence of the potential investors and may have a negative impact on market value of securities. Therefore, investors should carefully consider this risk factor and its potential implications before making any investment decisions.

### ***63. There is no assurance that the NCDs issued pursuant to the Issue will be listed on BSE in a timely manner.***

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to the Issue will not be granted until after the NCDs have been issued and allotted. While an in-principle approval from the BSE has been obtained prior to filing of the final Prospectus, approval for listing and trading will require all relevant documents to be submitted to BSE. While the Company will use its best efforts to ensure that all steps for completion of the necessary formalities for allotment, listing and commencement of trading at BSE are taken within 6 Working Days of the Issue Closing Date, there can be no assurance that it will be completed in a timely manner. There could be a failure or delay in listing the NCDs on BSE.

We cannot assure you that the monies refundable to you, on account of (a) withdrawal of your applications, (b) withdrawal of the Issue, or (c) failure to obtain the final approval from the BSE for listing of the NCDs, will be refunded to you in a timely manner. We, however, shall refund such monies, without interest, as prescribed under applicable statutory and/or regulatory provisions.

### ***64. You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.***

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner, or at all. Although the Company has undertaken to create appropriate security in favour of the Debenture Trustee to the Issue for the Secured NCD Holders on the assets adequate to ensure 100% security cover on the outstanding amounts of the Secured NCDs and interest thereon, the realisable value of the secured assets may be lower than the outstanding principal and/or interest accrued

thereon in connection with the Secured NCDs. A failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the Secured NCDs could expose you to a potential loss.

**65. *Changes in interest rates may affect the trading price of the NCDs.***

All securities where a fixed rate of interest is offered, such as the NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon rate, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the trading price of the NCDs.

**66. *Any downgrading in credit rating of our NCDs may affect the trading price of our NCDs.***

Crisil has assigned a rating of “Crisil AA-/Stable” (pronounced as Crisil double A minus rating with a Stable outlook) for an amount of ₹ 1,90,000 lakhs of NCDs (of which, ₹ 50,081 lakhs is unutilized) by Crisil Ratings Limited vide its letter dated June 9, 2025, along with the rating rationale dated June 6, 2025, read with the credit bulletin dated June 17, 2025. We cannot guarantee that these ratings will not be downgraded. These ratings may be suspended, withdrawn or revised at any time. Any revision or downgrading in the credit rating may lower the trading price of the NCDs and may also affect our ability to raise further debt.

**67. *Securities on our Secured NCDs rank as subservient residual charge on the current assets of the Company***

Substantially all of our Company’s current assets represented mainly by the gold loan receivables are being used to secure our Company’s debt. As on March 31, 2025, our Company’s outstanding secured borrowings is ₹ 22,37,974.84 lakhs. The Secured NCDs being issued shall be secured by way of subservient charge with existing secured creditors on all loan receivables and current assets (both present and future) of the company in favour of Debenture Trustee to be held on pari-passu basis among the present and / or future NCD holders, as may be applicable. Residual loan receivables amount available to secure the Secured NCDs are adequate to ensure 100.00% asset cover for the total value of the Secured NCDs. The realizable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and/or interest accrued thereon in connection with the Secured NCDs. A failure or delay in recovering the expected value from a sale or disposition of the assets charged as security in connection with the Secured NCDs could expose you to a potential loss.

**68. *Payments made on the NCDs will be subordinated to certain tax and other liabilities preferred by law.***

The Secured NCDs will be subordinated to certain liabilities preferred by law such as claims of GoI on account of taxes, and certain liabilities incurred in the ordinary course of our transactions. In particular, in the event of bankruptcy, liquidation or winding-up, our assets will be available to pay obligations on the Secured NCDs only after all of those liabilities that rank senior to these Secured NCDs have been paid in accordance with the provisions of the Companies Act. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining, after paying amounts relating to these proceedings, to pay amounts due on the Secured NCDs.

**69. *The Company may raise further borrowings and charge its assets after receipt of necessary consents from its existing lenders.***

The Company may, subject to receipt of all necessary consents from its existing lenders and the Debenture Trustee to the Issue, raise further borrowings and charge its assets. The Company is free to decide the nature of security that may be provided for future borrowings and this may rank *pari passu with similar ranking* with the security created for this Issue. In such a scenario, the NCD Holders will rank *pari passu* with other creditors of similar ranking, after exhausting the first *pari passu* holders’ liabilities and to that extent, the amounts recoverable by the NCD Holders upon the Company’s bankruptcy, winding-up or liquidation may stand reduced.

**70. *The Issuer, being a NBFC is not required to maintain a debenture redemption reserve (“DRR”)***

Pursuant to a Ministry of Corporate Affairs notification dated August 16, 2019 amending Section 71 of the Companies Act, 2013 and Rule 18 (7) of the Companies (Share Capital and Debentures) Rules, 2014, an NBFC is not required to maintain DRR for debentures issued through a public issue. Hence, investors shall not have the benefit of reserve funds to cover the re-payment of the principal and interest on the NCDs.

**71. *There are other lenders and debenture trustees who have pari passu charge over the Security provided.***

There are other lenders and debenture trustees of the Company who have *pari passu* charge over the security provided for the Issue. While the Company is required to maintain security cover of 100% of the outstanding amount of the NCDs and the interest thereon, upon the Company's bankruptcy, winding-up or liquidation, the other lenders and debenture trustees of similar ranking will rank *pari passu* with the secured NCD holders, after exhausting the first *pari passu* holders and to that extent, may reduce the amounts recoverable by the secured NCD holders. Pursuant to the SEBI NCS Regulations, the Company is required to obtain permissions / consents from the prior creditors in favour of the debenture trustee for creation of such similar ranking *pari passu* charge and the same is required to be disclosed. The company has applied for and received consents/permissions from the prior creditors.

**72. *The fund requirement and deployment mentioned in the Objects of the Tranche VI Issue have not been appraised by any bank or financial institution.***

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending, financing and for repayment of interest and principal of existing borrowings of our Company. For further details, see "*Objects of the Tranche VI Issue*" beginning on page 60. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. Further, according to the provisions of the SEBI NCS Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for this Issue.

**73. *There may be no active market for the NCDs on the retail debt market/capital market segment of the BSE. As a result, the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.***

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, and (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

**74. *The liquidity for the NCDs in the secondary market is very low and it may remain so in the future and the price of the NCDs may be volatile.***

The Issue will be a new public issue of NCDs for our Company and the liquidity in NCDs at present is very low in the secondary market. There can be no assurance that liquidity for the NCDs will improve, and if liquidity for the NCDs were to improve, there is no obligation on us to maintain the secondary market. The liquidity and market prices of the NCDs can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of NCDs. Such fluctuations may significantly affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs.

## SECTION III : INTRODUCTION

**Website:** [www.crisilratings.com](http://www.crisilratings.com)

**CIN:** U67100MH2019PLC326247

**Contact Person:** Ajit Velonie

**SEBI Registration No.:** IN/ CRA/ 001/ 1999

### Credit Rating and Rationale

Our Company has received rating of “Crisil AA-/Stable” (pronounced as Crisil double A minus rating with a Stable outlook) for an amount of ₹ 1,90,000 lakhs of NCDs (of which, ₹ 50,081 lakhs is unutilized) by Crisil Ratings Limited vide its letter dated June 9, 2025, along with the June 6, 2025, read with the credit bulletin dated June 17, 2025, for the NCDs proposed to be issued pursuant to this Tranche VI Issue. The rating given by Crisil is valid as on the date of this Tranche VI Prospectus and shall remain valid on date of issue and Allotment of the NCDs and the listing of the NCDs on BSE. The rating of the NCDs indicates that instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. The ratings provided by Crisil Ratings Limited may be suspended, withdrawn or revised at any time by the assigning rating agency and should be evaluated independently of any other rating. These ratings are not a recommendation to buy, sell or hold securities and Investors should take their own decisions. The rationale for the aforementioned rating issued on June 6, 2025, read with the credit bulletin dated June 17, 2025, by Crisil Ratings Limited along with the press release has been provided in Annexure A.

## **Impersonation**

As a matter of abundant caution, attention of the Investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

*“Any person who:*

- (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447 of the Companies Act, 2013.”*

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹50 lakh or with both.

## **Minimum Subscription**

In terms of the SEBI NCS Regulations, for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size. If our Company does not receive the minimum subscription of 75% of Base Issue Size i.e., ₹ 7,500 lakh, the entire blocked Application Amount shall be unblocked in the relevant ASBA Account(s) of the Applicants within eight Working Days from the Tranche VI Issue Closing Date provided wherein, the Application Amount has been transferred to the Public Issue Account from the respective ASBA Accounts, such Application Amount shall be refunded from the Refund Account to the relevant ASBA Account(s) of the Applicants within eight Working Days from the Tranche VI Issue Closing Date, failing which our Company will become liable to refund the Application Amount along with interest at the rate 15 (fifteen) percent per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 and Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription amount was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI Master Circular.

## **Underwriting**

respect of their (i) Audit Reports dated May 20, 2024, May 22, 2023 in respect of the Audited Standalone Financial Statement for the financial year ended March 31, 2024, March 31, 2023, respectively and Audit Reports dated May 20, 2024, May 22, 2023 in respect of the Audited Consolidated Financial Statement for the financial year ended March 31, 2024, March 31, 2023 respectively; and the written consent dated June 27, 2025 from M/s. Isaac & Suresh, Chartered Accountants and M/s. Vishnu Rajendran & Co, Chartered Accountants, to include their name as required under section 26 (1) of the Companies Act, 2013 read with SEBI NCS Regulations, in this Tranche VI Prospectus, and as an “expert” as defined under section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Joint Statutory Auditors, and in respect of their (i) Audit Report dated May 24, 2025 in respect of the Audited Standalone Financial Statement for the financial year ended March 31, 2025 and Audit Reports dated May 24, 2025 in respect of the Audited Consolidated Financial Statement for the financial year ended March 31, 2025; (ii) report on statement of possible tax benefits dated June 27, 2025, and such consent has not been withdrawn as on the date of this Tranche VI Prospectus. However, the term “expert” shall not be construed to mean an “expert” as defined under the U.S. Securities Act, 1993.

### Utilisation of Issue proceeds

For details on utilization of Issue proceeds please see “*Objects of the Tranche VI Issue*” on page 60.

### Issue Programme

TRANCHE VI ISSUE PROGRAMME**			
<b>TRANCHE VI ISSUE OPENS ON</b>		Friday, July 4, 2025	
<b>TRANCHE VI ISSUE CLOSSES ON</b>		Thursday, July 17, 2025	
<b>DEEMED DATE OF ALLOTMENT</b>		The date on which the Board of Directors or the Stock Allotment Committee approves the Allotment of the NCDs for this Tranche VI Issue or such date as may be determined by the Board of Directors or the Stock Allotment Committee and notified to the Designated Stock Exchange. The actual Allotment of NCDs may take place on a date other than the Deemed Date of Allotment. All benefits relating to the NCDs including interest on NCDs shall be available to the Debenture Holders from the Deemed Date of Allotment.	

**\*\* This Tranche VI Issue shall remain open for subscription on Working Days from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) during the period as indicated in this Tranche VI Prospectus. Our Company may, in consultation with the Lead Manager, consider closing this Tranche VI Issue on such earlier date or extended date (subject to a minimum period of two working days and a maximum period of 10 working days from the date of opening of this Tranche VI Issue and subject to not exceeding thirty days from filing of this Tranche VI Prospectus with ROC, including any extensions), as may be decided by the Board of Directors or the Stock Allotment Committee, subject to relevant approvals, in accordance with the Regulation 33A of the SEBI NCS Regulations. In the event of an early closure or extension of this Tranche VI Issue, our Company shall ensure that notice of the same is provided to the prospective investors through an advertisement in an English daily national newspaper with wide circulation and a regional daily with wide circulation where the registered office of the Company is located (in all the newspapers or electronic modes such as online newspapers or websites of the Issuer or the stock exchange in which pre-issue advertisement for opening of this Tranche VI Issue has been given on or before such earlier or initial date of Tranche VI Issue closure). On the Tranche VI Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. and 3:00 p.m. (Indian Standard Time) and uploaded until 5 p.m. or such extended time as may be permitted by the Stock Exchange. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. on one Working Day post this Tranche VI Issue Closing Date. For further details please see “General Information” on page 43.**

*Further please note that Application (including Application under the UPI Mechanism) shall be accepted only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time, “IST”) (“Bidding Period”) during the Tranche VI Issue Period as mentioned above by the (a) by the Designated Intermediaries at the Bidding Centres, or (b) by the SCSBs directly at the Designated Branches of the SCSBs as mentioned on the Application Form, except that on the Tranche VI Issue Closing Date when Applications shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and shall be uploaded until 5.00 p.m. (IST) or such extended time as permitted by Stock Exchange(s). Additionally, an Investor may also submit the Application Form through the app or web interface of the Stock Exchange. It is clarified that the Applications not uploaded in the Stock Exchange(s) Platform would be rejected.*

*Due to limitation of time available for uploading the Applications on the Tranche VI Issue Closing Date, the Applicants are advised to submit their Applications one day prior to this Tranche VI Issue Closing Date and,*

in any case, no later than 3.00 p.m. (IST) on the Tranche VI Issue Closing Date. All times mentioned in this Tranche VI Prospectus are Indian Standard Time. Applicants are cautioned that in the event a large number of Applications are received on the Tranche VI Issue Closing Date, as is typically experienced in public offerings, some Applications may not get uploaded due to lack of sufficient time.

Such Applications that cannot be uploaded will not be considered for allocation under this Tranche VI Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday). Neither our Company, nor the Lead Manager, nor any Member of the Syndicate, Registered Brokers at the Broker Centres, CDPs at the Designated CDP Locations or the RTAs at the Designated RTA Locations or designated branches of SCSBs nor the Stock Exchange are liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise. Please note that, within each category of investors, the Basis of Allotment under this Tranche VI Issue will be on date priority basis, however, from the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis.

**Details on the total outstanding debt of our Company**

For details on the total outstanding debt of our Company, please see “Financial Indebtedness” on page 166.

## OBJECTS OF THE TRANCHE VI ISSUE

Public issue by the Company of secured redeemable non-convertible debentures of face value of ₹ 1,000 each (“NCDs” or “**Debentures**”) for an amount of ₹ 10,000 lakh (“**Base Issue Size**”) with green shoe option up to ₹ 19,000 lakh amounting to ₹ 29,000 lakh (“**Tranche VI Issue Limit**”) (“**Tranche VI Issue**”) which is within the shelf limit of ₹ 2,00,000 lakh and is being offered by way of this Tranche VI Prospectus, which should be read together with the Shelf Prospectus filed with the ROC, Stock Exchange and SEBI.

The funds raised through this Tranche VI Issue, after deducting the Tranche VI Issue related expenses to the extent payable by our Company (the “**Net Proceeds**”), are estimated to be approximately ₹ 28,600.29 lakh. The Net Proceeds of the Tranche VI Issue are intended to be utilised by our Company for the following objects (collectively, referred to herein as the “**Objects**”) subject to applicable statutory and regulatory requirements:

1. For the purpose of onward lending, financing, and for repayment/ prepayment of interest and principal of existing borrowings of our Company - 75% of the amount raised and allotted in this Tranche VI Issue; and
2. For General Corporate Purposes - 25% of the amount raised and allotted in this Tranche VI Issue

The details of the Net Proceeds of this Tranche VI Issue are summarised in the table below:

(₹ in lakh)

Particulars	Amount
Gross Proceeds of the Tranche VI Issue	29,000.00
Less: Tranche VI Issue Related Expenses*	399.71
<b>Net Proceeds of this Tranche VI Issue</b>	<b>28,600.29</b>

\* The above Tranche VI Issue related expenses are indicative and are subject to change depending on the actual level of subscription to this Tranche VI Issue, the number of allottees, market conditions and other relevant factors.

The main objects clause of the Memorandum of Association permits the Company to undertake its existing activities as well as the activities for which the funds are being raised through this Tranche VI Issue.

### Requirement of funds and Utilisation of Net Proceeds

The following table details the objects of this Tranche VI Issue and the amount proposed to be financed from the Net Proceeds:

Sr. No.	Objects of the Fresh Issue	Percentage of amount proposed to be financed from Net Tranche VI Issue Proceeds
1.	For the purpose of onward lending, financing, and for repayment/ prepayment of interest and principal of existing borrowings of our Company <sup>#</sup>	At least 75%
2.	General corporate purposes*	up to 25%
	<b>Total</b>	<b>100%</b>

<sup>#</sup>The Company shall not utilize the proceeds of this Tranche VI Issue towards payment of prepayment penalty, if any.

\*The Net Proceeds will be first utilized towards the Objects mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the gross proceeds, in compliance with the SEBI NCS Regulations.

The main objects clause of the Memorandum of Association permits the Company to undertake its existing activities as well as the activities for which the funds are being raised through this Tranche VI Issue.

### Funding plan

Details of all monies utilised out of this Tranche VI Issue referred above shall be disclosed under an appropriate separate head in our balance sheet indicating the purpose for which such monies have been utilised along with details, if any, in relation to all such proceeds of this Tranche VI Issue that have not been utilized thereby also indicating investments, if any, of such unutilized proceeds of this Tranche VI Issue.

Details of all unutilised monies out of this Tranche VI Issue, if any, shall be disclosed under an appropriate separate head in our balance sheet indicating the form in which such unutilised monies have been invested.

We shall utilize this Tranche VI Issue proceeds only upon (i) receipt of minimum subscription, i.e., 75% of the Base Issue Size i.e., ₹ 7,500 lakh ; (ii) completion of Allotment and refund process in compliance with Section 40 of the Companies Act, 2013; (iii) creation of security; (iv) obtaining requisite permissions or consents for creation of pari passu charge over assets sought to be provided as Security; (v) obtaining listing and trading approval as stated in this Tranche VI Prospectus in the section titled “*Issue Related Information*” beginning on page 283.

No benefit/interest will accrue to our Promoters/ Directors out of the proceeds of this Tranche VI Issue.

This Tranche VI Issue proceeds shall not be utilized towards full or part consideration for the purchase or any other acquisition, inter alia by way of a lease, of any immovable property.

Details of all utilized and unutilized monies out of the monies collected in the previous issue made by way of public offer shall be disclosed and continued to be disclosed in the balance sheet till the time any part of the proceeds of such previous issue remains unutilized indicating the purpose for which such monies have been utilized and the securities or other forms of financial assets in which such unutilized monies have been invested.

**Variation in terms of contract or objects in this Tranche VI Prospectus**

Our Company shall not, in terms of Section 27 of the Companies Act 2013, at any time, vary the terms of a contract referred to in the Tranche VI Prospectus or objects for which the Tranche VI Prospectus is issued, except subject to the approval of, or except subject to an authority given by the shareholders in general meeting by way of special resolution and after abiding by all the formalities prescribed in Section 27 of the Companies Act, 2013.

## STATEMENT OF POSSIBLE TAX BENEFIT

**The Board of Directors**  
**Muthoot Fincorp Limited**  
Muthoot Centre,  
Punnen Road,  
Trivandrum - 695001  
Kerala, India

***Sub: Proposed public issue by Muthoot Fincorp Limited (the “Company” or the “Issuer”) of secured, redeemable non-convertible debentures of face value of ₹ 1,000 each (the “NCDs”) for an amount aggregating to ₹ 10,000 lakhs (“Base Issue”) with green shoe option of up to ₹ 19,000 lakhs up aggregating to ₹ 29,000 lakhs (“Tranche VI Issue Limit”) (“Tranche VI Issue”) which is within the shelf limit of ₹ 2,00,000 lakhs, on terms and conditions as set out in the Tranche VI prospectus dated June 27, 2025 (“Tranche VI Prospectus”).***

This certificate is issued in accordance with the terms of our engagement letter dated June 20, 2025.

The accompanying note prepared by the Company, discusses the special tax provisions applicable to the Potential Debenture holders (“**Investors**”) subscribing in the NCDs of **Muthoot Fincorp Limited** (the “**Company**”) in Annexure A (hereinafter referred to as “**Statement of Possible Tax Benefits/Statement**”), under the Income-tax Act, 1961 (read with Income Tax Rules, circulars, notifications) as amended by the Finance Act, 2025 (hereinafter referred to as the “**IT Act**”) in connection with the offering.

### **Management’s Responsibility**

The preparation of this Statement as of the date of our certificate which is to be included in the Tranche VI Prospectus proposed to be filed by the Company with Registrar of Companies, Kerala and Lakshadweep (“**RoC**”), BSE Limited (the “**Stock Exchange**”) and with the Securities and Exchange Board of India (“**SEBI**”), in relation to the Issue (“**Offer Documents**”) is the responsibility of the management of the Company.

This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and presentation of the Statement, and applying an appropriate basis of preparation; and making estimates that are reasonable in the circumstances. The management is also responsible for identifying and ensuring that the Company complies with the laws and regulations applicable to its activities.

### **Our Responsibility**

Our responsibility is to examine whether the Statement prepared by the Company, in all material respects, is in accordance with applicable provision of the IT Act. For this purpose, we have read the statement of possible tax benefits as given in Annexure I and evaluated with reference to the provisions of the IT Act to confirm that statements made are correct in all material respects.

We draw attention to the fact that the Statement includes certain inherent limitations that can influence the reliability of the information. The benefits discussed in the enclosed Annexure I are not exhaustive. Several of these benefits are dependent on the Investors fulfilling the conditions prescribed under the relevant tax laws. Therefore, the ability of Investors to derive the tax benefits is dependent on fulfilling such conditions.

The statement is only intended to provide general information and is neither designed nor intended to be a substitute for the professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to specific tax implications arising out of their participation. Neither are we suggesting nor advising the investor to invest money based on this statement.

We do not express any opinion or provide any assurance as to whether:

- i) Debenture holders of the Company will continue to obtain these benefits in future;
- ii) the conditions prescribed for availing the benefits have been/would be met with; and
- iii) the revenue authorities/ Courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company. We have relied upon the information and documents of the Company being true, correct and complete and have not audited or tested them. Our view, under no circumstances, is to be considered as an audit opinion under any regulation or law. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein.

Our views are based on existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume any responsibility to update the views consequent to such changes.

In our opinion, the Statement of Possible Tax Benefits prepared by the Company as set out in Annexure I materially covers all tax benefits available as at the date of our report to Debenture Holders, in accordance with provisions of the IT Act as amended.

#### **Restriction on Use**

We hereby consent to inclusion of the extracts of this certificate in the Tranche VI Prospectus and/or any other document in relation to the Issue, and is not to be used, referred to or distributed for any other purpose without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing. Any subsequent amendment / modification to provisions of the applicable laws may have an impact on the views contained in our statement. While reasonable care has been taken in the preparation of this certificate, we accept no responsibility for any errors or omissions therein or for any loss sustained by any person who relies on it.

**Encl: Statement**

## Annexure I

### **STATEMENT OF POSSIBLE TAX BENEFITS UNDER THE INCOME TAX ACT, 1961 AVAILABLE TO THE DEBENTURE HOLDER(S)**

The following tax benefits will be available to the debenture holders of the Company (“Debenture Holder”) as per the existing provisions of law. The tax benefits are given as per the prevailing tax laws under the provisions of the IT Act, as on date, taking into account the amendments made by the Finance Act, 2025, and may vary from time to time in accordance with amendments to the law or enactments thereto. The Debenture Holder is advised to consider the tax implications in respect of subscription to the Debentures after consulting his tax advisor as alternate views are possible.

#### **IMPLICATIONS UNDER THE INCOME TAX ACT, 1961:**

##### **I. TO THE RESIDENT DEBENTURE HOLDER**

###### **A. In Respect of Interest on Debentures (NCDs)**

1. Interest on NCD received by Debenture Holders would be subject to income tax at the normal rates of tax in accordance with and subject to the provisions of the IT Act. Interest will be assessed to Income tax on receipt basis or mercantile basis (accrual basis) depending on the method of accounting regularly employed by the NCD holder under Section 145 of the IT Act.
2. Income Tax is deductible at source at the rate of 10% on interest on debentures held by resident Indians as per the provisions of Section 193 of the IT Act (in case where interest is paid to Individual or HUF, no TDS will be deducted where interest paid is less than 10,000 and interest is paid by way of account payee cheque).

Further, Tax will be deducted at source at reduced rate, or no tax will be deducted at source in the following cases:

- a) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the IT Act; and that a valid certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest;
- b) When the resident Debenture Holder with Permanent Account Number (‘PAN’) (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the IT Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However, as per section 197A(1B) of the IT Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if income in the nature referred to in sections 194, 194EE, 192A, 193, 194A, 194D, 194DA, 194I or 194K as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax;
- c) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on the estimated total income of the year concerned will be NIL; and
- d) In all other situations, tax would be deducted at source as per prevailing provisions of the IT Act. Please find below the class of resident investors and respective documents that would be required for granting TDS exemption:

Sl. No.	Class of Investors	Relevant Section which grants TDS exemption	Documents to be taken on record from Investors
1	Resident Individual or resident HUF	Claiming non-deduction or lower deduction of tax at source under section 193 of the IT Act, 1961	Form No.15G with PAN / Form No.15H with PAN / Certificate issued u/s 197(1) has to be filed with the Company. However, in case of

			NCD Holders claiming non-deduction or lower deduction of tax at source, as the case may be, the NCD Holder should furnish either a declaration (in duplicate) in the prescribed form i.e. (i) Form 15H which can be given by individuals who are of the age of 60 years or more, (ii) Form 15G which can be given by all applicants (other than individuals of the age of 60 years or more, companies, and firms), or (iii) a certificate, from the Assessing Officer which can be obtained by all applicants (including companies and firms) by making an application in the prescribed form i.e. Form No.13.

**B. In respect of Capital Gains**

## **1. Long Term Capital Gain**

Under Section 2(29AA) read with section 2(42A) of the IT Act, listed Debentures held as Capital Asset as defined under section 2(14) of the IT Act is treated as long term capital asset if it is held for more than 12 months. Debentures held as capital asset for a period of 12 Months or less will be treated as short term capital asset.

Long Term Capital Gain for listed debentures will be chargeable to tax under Section 112 of the IT Act at the rate of 12.50% (plus applicable surcharge and education cess). No indexation benefit is available for debentures.

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

## **2. Short Term Capital Gains**

Listed Debentures held as capital asset under Section 2(14) of the IT Act for a period of not more than 12 months would be treated as Short term capital asset under Section 2(42A) of the IT Act. Short Term Capital Gains on transfer of NCD will be taxed at the normal rates of tax in accordance with the provisions of the IT Act. The provisions relating to maximum amount not chargeable to tax would apply to short term capital gains.

## **3. Capital Loss on transfer of Debentures.**

As per Section 74 of the IT Act, short-term capital loss on transfer of debentures suffered during the year is allowed to be set-off against short-term as well as long-term capital gains of the said year. Balance loss, if any could be carried forward for eight years for claiming set-off against subsequent years' short term as well as long-term capital gains. Long-term capital loss on debentures suffered during the year is allowed to be set-off only against long-term capital gains. Balance loss, if any, could be carried forward for eight years for claiming set-off against subsequent year's long-term capital gains.

## **4. Exemption available for Individuals and HUF for Long Term Capital gains u/s 54F, 54EE of the IT Act.**

As per the provisions of Section 54F of the IT Act, any long-term capital gains on transfer of a long term capital asset not being a residential house arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house in India, or for construction of residential house in India within three years from the date of transfer subject to conditions. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the conditions stated in Section 54F.

Under section 54EE of the IT Act, long term capital gains arising to the Debenture Holder(s) on transfer of debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in long term specified asset (a unit or units issued before 01.04.2019) as notified by Central Government within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified bonds are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long-term capital gains in the year in which the bonds are transferred or converted into money. However, the exemption is subject to a limit of investment of INR 50 lacs during any financial year in the notified bonds. Where the benefit of Section 54EE of the IT Act has been availed of on investments in the notified bonds, a deduction from the income with reference to such cost shall not be allowed under section 80C of the Act. If the long term specified asset in which the investment has been made is transferred within a period of three years from the date of its acquisition, the amount of capital gains tax claimed earlier would become chargeable to tax as capital gains in the year in which such long term specified asset is transferred. Specified Asset means a unit or units, issued before the 1st day of April, 2019, of such fund as may be notified by the Central Government in this behalf.

### **C. In respect of Business Income**

In case the Debentures are held as stock in trade by the debenture holder, the income/loss from transfer of debentures would be taxed as Income from Business. Such income is to be computed in accordance with the Income Computation and Disclosure Standard VIII, which is notified by the Ministry of Finance, Government of India under Section 145(2) of the IT Act. Where debentures are held as stock in trade and unpaid interest has accrued before acquisition of Debentures and is included in the price paid for the Debentures, subsequent receipt of interest is to be allocated between pre-acquisition and post-acquisition periods, the pre-acquisition portion of the interest is reduced from the actual cost and is to be treated as interest. In the case of Debentures held by Scheduled Bank and Public Financial Institutions, income is to be recognized in accordance with the guidelines issued by the Reserve Bank of India in this regard.

### **D. Debentures received as gift without consideration or inadequate consideration.**

As per section 56(2)(x) of the IT Act, except in cases which are specifically exempted under this clause (such as gift received from relative as defined under the section), where the debentures are received without consideration where the aggregate market value of all gifts received exceeds Rs. 50,000/- the aggregate market value of the debentures shall be taxable as income in the hands of the recipient. Similarly, if debentures are received for inadequate consideration, the shortfall in the consideration will be treated as income of the recipient subject to the provisions contained in section 56(2)(x) of the IT Act. There is no gift tax for the donor of the Debentures.

## **II. TO THE NON-RESIDENT DEBENTURE HOLDER**

1. A Non – Resident Indian has an option to be governed by Chapter XII – A of the IT Act, subject to the provisions contained therein which are given in brief as under:
  - a. As per Section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20% (plus applicable surcharge and cess), whereas long term capital gains on transfer of such Debentures will be taxable at 12.50% (plus applicable surcharge and cess) of such capital gains without indexation of cost of acquisition. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.
  - b. As per Section 115G of the IT Act, it shall not be necessary for a non-resident Indian to file a return of income under Section 139(1) of the IT Act, if his total income consists only of investment income as defined under Section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII- B of the IT Act in accordance with and subject to the provisions contained therein.
  - c. As per Section 115D (1) of the IT Act no deduction in respect of any expenditure or allowance shall be allowed under any provisions of the IT Act in the computation of investment income of a non-resident Indian under Chapter XII – A of the IT Act.
  - d. In accordance with and subject to the provisions of Section 115-I of the IT Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII – A of the IT Act. In such a case, long term capital gains on transfer of listed debentures would be subject to tax at the rate of 12.50% computed without indexation.
  - e. Interest income and Short – term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the normal rates of tax in accordance with and subject to the provisions of the IT Act.
  - f. Where debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the IT Act.
  - g. Under Section 195 of the IT Act, the applicable rate of tax deduction at source is 20% on investment income and 12.50% on any long-term capital gains as per Section 115E, and 30% for Short Term Capital Gains if the payee debenture Holder is a Non Resident Indian.
  - h. The income tax deducted shall be increased by applicable surcharge and health and education cess.

As per Section 74 of the IT Act, short-term capital loss on transfer of debentures suffered during the year is allowed to be set-off against short-term as well as long-term capital gains of the said year. Balance loss, if any could be

carried forward for eight years for claiming set-off against subsequent years' short-term as well as long-term capital gains. Long-term capital loss on debentures suffered during the year is allowed to be set-off only against long-term capital gains. Balance loss, if any, could be carried forward for eight years for claiming set-off against subsequent year's long-term capital gains.

As per Section 90(2) of the IT Act read with the Circular No. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes, in the case of a remittance to a country with which a Double Tax Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate (TRC), is a mandatory condition for availing benefits under any DTAA. If the tax residency certificate does not contain the prescribed particulars as per CBDT Notification 57/2013 dated August 1, 2013, a self-declaration in Form 10F would need to be provided by the assessee along with TRC.

- i. Alternatively, to avail lower deduction or non deduction of tax at source, as the case may be, the Debenture Holder should furnish a certificate under Section 195(2) and 195(3) of the IT Act, from the Assessing Officer before the prescribed date of closure of books for payment of debenture interest.
- j. In case the Debentures are held as stock in trade by the debenture holder, the income/loss from transfer of debentures would be taxed as Income from Business. Such income is to be computed in accordance with the Income Computation and Disclosure Standard VIII which is notified by the Ministry of Finance, Government of India under Section 145(2) of the IT Act. Where debentures are held as stock in trade and unpaid interest has accrued before acquisition of Debentures and is included in the price paid for the Debentures, subsequent receipt of interest is to be allocated between pre-acquisition and post-acquisition periods, the pre-acquisition portion of the interest is reduced from the actual cost and is to be treated as interest. In the case of Debentures held by Scheduled Bank, income is to be recognized in accordance with the guidelines issued by the Reserve Bank of India in this regard.
- k. As per section 56(2)(x) of the IT Act, except in cases which are specifically exempted under this clause (such as gift received from relative as defined under the section), where the debentures are received without consideration where the aggregate market value of all gifts received exceeds Rs. 50,000/- the aggregate market value of the debentures shall be taxable as income in the hands of the recipient. Similarly, if debentures are received for inadequate consideration, the shortfall in the consideration will be treated as income of the recipient subject to the provisions contained in section 56(2)(x) of the IT Act. There is no gift tax for the Donor of the Debentures.
- l. As per the provisions of Section 54F of the IT Act, any long-term capital gains on transfer of a long term capital asset not being a residential house arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house in India, or for construction of residential house in India within three years from the date of transfer subject to conditions. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the conditions stated therein.

### **III. TO THE FOREIGN INSTITUTIONAL INVESTORS/ FOREIGN PORTFOLIO INVESTORS (FIIs/ FPIs)**

1. As per Section 2(14)(b) of the IT Act, any securities held by FIIs which has invested in such securities in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992, shall be treated as capital assets. Accordingly, any gains arising from transfer of such securities shall be chargeable to tax in the hands of FIIs as capital gains.
2. In accordance with and subject to the provisions of Section 115AD of the IT Act, long term capital gains on transfer of debentures by FIIs are taxable at 10% (plus applicable surcharge and cess) and short-term capital gains are taxable at 30% (plus applicable surcharge and cess). The benefit of cost indexation will not be available. Further, benefit of provisions of the first proviso of Section 48 of the IT Act will not apply.
3. Interest on NCD may be eligible for concessional tax rate of 5% (plus applicable surcharge and health and education cess) for interest referred under Section 194LD.
4. Further, in case where section 194LD is not applicable, the interest income earned by FIIs/FPIs should be chargeable to tax at the rate of 20% under section 115AD of the IT Act. Tax shall be deducted u/s. 196D of the IT Act on such income at 20%. Where DTAA is applicable to the payee, the rate of tax deduction shall be lower of rate as per DTAA or 20%,

subject to the conditions prescribed therein.

5. Section 194LD in the IT Act provides for lower rate of withholding tax at the rate of 5% on payment by way of interest paid by an Indian Company to FIIs and Qualified Foreign Investor in respect of rupee denominated bond of an Indian Company between June 1, 2013 and July 1, 2023 provided such rate does not exceed the rate as may be notified by the Government. Given that there has not been any extension beyond July, 2023, interest paid on or after 1 July 2023 shall be subject to tax at the rate of 20% (excluding applicable surcharge and cess) subject to availability of DTAA benefits.
6. The income tax deducted shall be increased by applicable surcharge and health and education cess.
7. In accordance with and subject to the provisions of Section 196D(2) of the IT Act, no deduction of tax at source is applicable in respect of capital gains arising on the transfer of debentures by FIIs referred to in section 115AD.
8. The CBDT has issued a Notification No. 9 dated 22 January 2014 which provides that Foreign Portfolio Investors (FPI) registered under SEBI (Foreign Portfolio Investors) Regulations, 2014 shall be treated as FII for the purpose of Section 115AD of the IT Act.

#### **IV. MUTUAL FUNDS**

All mutual funds registered under Securities and Exchange Board of India or set up by public sector banks or public financial institutions or authorized by the Reserve Bank of India are exempt from tax on all their income, including income from investment in Debentures under the provisions of Section 10 (23D) of the IT Act in accordance with the provisions contained therein. Further, as per the provisions of section 196 of the IT Act, no deduction of tax shall be made by any person from any sums payable to mutual funds specified under Section 10(23D) of the IT Act, where such sum is payable to it by way of interest or dividend in respect of any securities or shares owned by it or in which it has full beneficial interest, or any other income accruing or arising to it.

#### **V. TO SPECIFIED FUNDS (“SPECIFIED FUND” AS DEFINED UNDER SECTION 10(4D) OF THE IT ACT)**

The income of Specified Funds is taxable for the year beginning April 1, 2020, to the extent attributable to units held by non-resident (not being a permanent establishment of a non-resident in India), and in accordance with and subject to the provisions of Section 115AD of the IT Act, as under:

- a) The interest income earned are chargeable to tax at the rate of 10%;
- b) long term capital gains on transfer of debentures to the specified extent are taxable at 10% (benefit of provisions of the first proviso of section 48 of the IT Act will not apply); and
- c) Short-term capital gains are taxable at 30%.

Further, where any income in respect of NCD is payable to Specified Funds, tax shall be deducted at the rate of 10% on the income other than exempt under section 10(4D) with effect from November 1, 2020 as per Section 196D of the IT Act.

The income tax deducted shall be increased by applicable surcharge and health and education cess.

#### **VI. REQUIREMENTS TO FURNISH PAN/FILING OF RETURNS UNDER THE IT ACT**

##### **1. SEC. 139A (5A):**

Section 139A (5A) requires every person from whom income tax has been deducted at source under chapter XVII – B of the IT Act to furnish his PAN to the person responsible for deduction of tax at source.

##### **2. SEC. 139AA:**

Section 139AA of the Income Tax Act provides that every individual who has been allotted a permanent account number (PAN) as on the 1st day of July, 2017, and who is eligible to obtain an Aadhaar number, shall intimate his Aadhaar number in the prescribed form and manner. In case of failure to link Aadhaar with PAN, the permanent account number allotted to the person shall be made inoperative after the prescribed date.

##### **3. SEC. 206AA:**

a) Section 206AA of the IT Act requires every person entitled to receive any sum, on which tax is deductible under Chapter XVIIIB (‘deductee’) to furnish his PAN to the deductor, failing which tax shall be deducted at the higher of the following rates:

- (i) at the rate specified in the relevant provision of the IT Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent.

b) A declaration under Section 197A (1) or 197A (1A) or 197A (1C) shall not be valid unless the person furnishes his PAN in such declaration and the deductor is required to deduct tax as per Para (a) above in such a case.

c) Where a wrong PAN is provided, it will be regarded as non-furnishing of PAN and Para (a) above will apply.

d) As per Rule 37BC, the higher rate under section 206AA shall not apply to a non resident, not being a company, or to a foreign company, in respect of payment of interest, if the non-resident deductee furnishes the prescribed details inter alia TRC and Tax Identification Number (TIN).

#### **NOTES FORMING PART OF STATEMENT OF TAX BENEFITS**

1. The above Statement sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of debenture/bonds.

2. The above statement covers only certain relevant benefits under the IT Act and does not cover benefits under any other law.

3. The above statement of possible tax benefits is as per the current direct tax laws relevant for the Assessment Year 2026-2027 (Financial year 2025-26) and taking into account the amendments made by the Finance Act, 2025.

4. This statement is intended only to provide general information to the Debenture Holders and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each debenture Holder is advised to consult his/her/its own tax advisor with respect to specific consequences of his/her/its holding in the debentures of the Company.

5. Several of the above tax benefits are dependent on the debenture holders fulfilling the conditions prescribed under the relevant tax laws and subject to Chapter X and Chapter XA of the IT Act. Further, the issuer company may decide on practices to be followed with respect to TDS exemptions, thresholds for accepting documents for lower / nil deduction of tax at source or with respect to such other matters, based on Income Tax law and practice.

6. The stated benefits will be available only to the sole/ first named holder in case the debenture is held by joint holders.

7. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant tax treaty, if any, between India and the country in which the non-resident has fiscal domicile.

8. In respect of non-residents, taxes paid in India could be claimed as a credit in accordance with the provisions of the relevant tax treaty and applicable domestic tax law.

9. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

The information in this section must be read in conjunction with “Risk Factors” and “Our Business” on pages 19 and 122.

#### An overview of the Indian economy

##### India expected to remain one of the fastest growing economies in the world

The Indian economy was one among the fastest-growing economies before the pandemic, and this momentum has been sustained even in the post-pandemic era. In the years leading up to the global health crisis, which severely disrupted economic activities, India's economic indicators showed gradual improvement, driven by strong domestic consumption and a reduced reliance on global demand. Despite ongoing global geopolitical instability, India has maintained its position as one of the fastest-growing economies globally. As of May 2025, the National Statistical Office (NSO) estimates that the country's real GDP will grow at 6.5% year-on-year in fiscal 2025, according to its second advance estimate of national income.

Looking ahead, Crisil Intelligence expects India's GDP growth to remain steady at 6.5% in fiscal 2026. The combination of easing inflation, the RBI rate cuts and the personal income tax cuts announced in the fiscal 2026 budget are expected to benefit households and boost consumption. However, a significant pickup in investment will depend on a revival in private sector investment. The overall fiscal stimulus to economic growth is likely to decrease due to the continued reduction in the fiscal deficit.

##### India's economy expected to grow at 6.5% in fiscal 2026

## RBI cuts repo rate, supporting domestic growth against external headwinds

In fiscal 2023, India experienced a rise in inflation, driven by increasing food and fuel prices. To combat this, the Reserve Bank of India (RBI) raised the repo rate by a cumulative 250 basis points to 6.5%.

As inflation eased and moved closer to RBI's target rate of 4%, the central bank began to shift its monetary policy stance. In February 2025, RBI delivered its first rate cut, decreasing the repo rate by 25 basis points to 6.25%, citing inflation moving closer to its target rate of 4%.

In April 2025, RBI delivered another rate cut of 25bps, bringing the repo rate down to 6.0% and changing its stance to 'accommodative' from 'neutral'. The central bank noted that the risks to food inflation are receding on the back of healthy agricultural output. Moreover, the forecast of normal monsoon will support durable decline in food inflation.

In a surprise move, the RBI front loaded monetary easing by delivering a jumbo repo rate of 50bps in June 2025 meeting. The central bank changed back its stance to 'neutral', while emphasising that monetary policy space to support growth was shrinking.

According to Crisil, the rate cuts will be pivotal in supporting domestic growth in fiscal 2026 against external headwinds. Crisil expects another rate cut in fiscal 2026, with the exact magnitude and timing dependent on key macroeconomic indicators and the impact of previous rate cuts.

### Repo rate in India (%)

Source: RBI, Crisil Intelligence

### Trends in key macroeconomic indicators

Macro variables	FY24	FY25P	FY26P	Rationale for outlook
Real GDP (y-o-y)	9.2%	6.5%#	6.5%*	Budgetary support (in the form of income tax relief and increased allocations for key asset and employment-generating schemes), easing food inflation, lower crude oil prices, and the RBI's interest rate cuts will bolster growth in fiscal 2026. However, the fiscal impulse to growth is expected to moderate further due to fiscal consolidation. Investment prospects hinge on a pick-up in private capex. Risks are tilted to the downside given the US tariff hikes and their impact on global growth and India's exports.
Consumer Price Index (CPI) inflation (y-o-y)	5.4%	4.7%*	4.3%	Inflation is likely to move closer to the RBI's target of 4% on expectations of a normal monsoon, high base effect in food inflation and softer global commodity prices. Some uptick is expected in non-food inflation due to an adverse base.

10-year Government security yield (Fiscal end)	7.1%	6.7%	6.5%	Yields are expected to ease on the back of the RBI's rate cuts, softer crude oil prices and softer domestic inflation. That said, a rise in gross market borrowings could exert mild upward pressure on yields.
Fiscal Deficit (% of GDP) *	5.5%	4.8%^	4.4%^	Fiscal consolidation will be made possible via moderating revenue expenditure thrust, even as capex focus is broadly maintained. On the receipts front, expectations of strong tax collections and a large dividend from the RBI and other central PSUs will help.
CAD (Current Account Deficit as % of GDP)	-0.7%	-1.0%	-1.3%	Merchandise trade deficit will likely come under pressure, given the tariff war and softening global growth. However, robust services exports and healthy flow of remittances should help keep the Current Account Deficit (CAD) in the safe zone in fiscal 2026.
Rs/\$ (March average)	83.0	86.6	88.0	A manageable CAD would mean limited pressure on the rupee, but global shocks and uncertainty are key risks. Foreign capital flows to India could be impacted by the spillovers from tariff hikes and impart volatility to the rupee. That said, India's healthy macroeconomic parameters will provide some cushion.

### Indigenous advantages to result in a stronger economic growth rate in the longer term

#### India has the largest population in the world

As per the report published (in July 2020) by National commission on population, Ministry of Health & Family Welfare report, India's population in 2011 was 1.21 billion, comprising nearly 246 million households. It should be noted that decadal growth rate during 2001-2011 stood at 17%. This is estimated to have fallen to 12% during 2011-2021 and is likely to decline further to 9% during 2021-2031. However, with 1.47 billion estimated population in 2030, India will continue to be a major opportunity market from demand perspective. Additionally, as per United Nations Department of Economic and Social Affairs, India has overtaken China as the world's most populous country in April 2023.

#### India's population growth trajectory (billion)

Note: P – Projected, E – Estimates

Source: Census of India 2011, Ministry of Health and family welfare, Crisil Intelligence

#### Favourable demographics

India is also one of the countries with the largest youth population, with a median age of 28 years. About 90% of Indians are aged below 60 years. It is estimated that 64% of this population is aged between 15 and 59 years. Crisil Intelligence expects the existence of a large share of working population, coupled with rapid urbanisation and rising affluence, will propel growth of the Indian financial services sector.

#### India's demographic division (share of different age groups in India's population)

Note: P – Projected, E – Estimates

Source: Census of India 2011, Ministry of Health and family welfare, Crisil Intelligence

### Rise in urbanization

Urbanisation is a key growth driver for India, as it leads to faster infrastructure development, job creation, development of modern consumer services, and the city's ability to mobilise savings. The share of urban population in total population has been consistently rising over the years and is expected to reach 36% by 2025 from 31% in 2011, spurring more demand.

Urban consumption in India has shown signs of improvement and given the country's favourable demographics, coupled with rising disposable incomes, the trend is likely to continue and drive domestic economic growth.

### Overall NBFC – Industry overview

#### NBFCs are important part of the credit system

Financing needs in India have risen in sync with the notable economic growth over the past decade. NBFCs have played a major role in meeting this need, complementing banks and other financial institutions.

NBFCs help fill gaps in the availability of financial services with respect to products as well as customer and geographic segments. A strong linkage at the grassroots level makes them a critical cog in the financial machine. They cater to the unbanked masses in rural and semi-urban reaches and lend to the informal sector and people without credit histories, thereby enabling the government and regulators to realise the mission of financial inclusion.

#### Structure of non-banking financial institutions in India

Note: The regulatory authority for the respective institution is indicated within the brackets; All-India Financial Institutions include NABARD, SIDBI, EXIM Bank

Source: RBI, Crisil Intelligence

### Classification of NBFCs

NBFCs until now have been classified on the basis of the kind of liabilities they access, types of activities they pursue and their perceived systemic importance. RBI on October 22, 2021 introduced additional classification of NBFCs vide Scale Based Regulation (SBR) framework into four categories i.e., Base Layer (NBFC – BL), Middle Layer (NBFC – ML), Upper Layer (NBFC – UL) and Top Layer (NBFC – TL).

### Scale based classification of NBFCs

As per RBI circular dated October 22, 2021, the central bank introduced Scale Based Regulation (SBR) framework for classification of NBFCs along with the activity-based classification of NBFCs as per earlier regulations. The revised SBR framework shall be effective from October 01, 2022.

As per the revised framework NBFCs will be classified into four layers based on their size, activity and perceived riskiness. NBFCs in the lowest layer will be known as NBFC – Base Layer (NBFC BL), NBFCs in middle layer and upper layer shall be known as NBFC - Middle Layer (NBFC-ML) and NBFC - Upper Layer (NBFC-UL) respectively. The Top Layer is expected to be empty and will be known as NBFC - Top Layer (NBFC - TL).

### Classification on the basis of scale-based regulation

NBFC – Base Layer (NBFC-BL) [8857]	NBFC – Middle Layer (NBFC-ML) [440]	NBFC –Upper Layer (NBFC-UL) [15] *	NBFC – Top Layer (NBFC-TL)
--	---	--	-------------------------------

Note: Data in [bracket] represents the number of NBFCs as of June 2024.

*\*The data for Upper Layer NBFCs includes HFCs, as per circular dated January 2025.  
Source: RBI, Crisil Intelligence*

**Base Layer – NBFC – BL** shall comprise of (a). Non deposit taking NBFCs below asset size of Rs 1000 crore and (b). Following NBFCs – (i) NBFC P2P, (ii) NBFC – AA, (iii) NOHFC, and (iv) NBFCs not availing public funds and not having any customer interface.

**Middle Layer – NBFC – ML** shall comprise of (a). All deposit taking NBFCs irrespective of asset size, (b). Non-deposit taking with asset size of Rs 1000 crore and above and (c). Following NBFCs – (i) Standalone primary dealer (SPD), (ii) Infrastructure debt fund (IDF), (iii) Core investment companies (CIC), (iv) Housing finance companies (HFCs) and (v) Infrastructure finance companies (IFCs) Government owned NBFCs shall be placed in the Base Layer or Middle Layer, as the case may be. They will not be placed in the Upper Layer till further notice by RBI.

**Upper Layer – NBFC – UL** shall comprise of NBFCs which are specifically identified by the Reserve Bank as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

**Top Layer – NBFC – TL** shall be populated only if in opinion of RBI there is a substantial increase in the potential systemic risk from specific NBFCs in the Upper Layer. Such NBFCs shall be moved to Top layer from the Upper layer.

#### **Other regulatory changes under Scale Based Regulations**

Net Owned Fund (NOF) for NBFC-ICC, NBFC-MFI and NBFC-Factors shall be increased to Rs 10 cr timelines for change in NOF for above mentioned NBFCs is as follows:

NBFCs	Current NOF	By March 31, 2025	By March 31, 2027
NBFC – ICC	Rs 2 crore	Rs 5 crore	Rs 10 crore
NBFC - MFI	Rs 5 crore (Rs 2 crore in North-East region)	Rs 7 crore (Rs 5 crore in North-East region)	Rs 10 crore
NBFC - Factors	Rs 5 crore	Rs 7 crore	Rs 10 crore

NPA classification: NPA classification norms stands changed to the overdue period of more than 90 days for all categories of NBFCs, timelines to adhere change for NBFC – BL to 90 days NPA norm is as follows:

NPA norms	Timeline
>150 days overdue	By March 31, 2024
>120 days overdue	By March 31, 2025
>90 days overdue	By March 31, 2026

Experience of the board - Considering the need for professional experience in managing the affairs of NBFCs, at least one of the directors shall have relevant experience of having worked in a bank/ NBFC. This regulation shall be applicable for all class of NBFCs.

Ceiling on IPO Funding – RBI prescribed ceiling of Rs. 1 crore per borrower for financing subscriptions to IPO. NBFCs can fix more conservative limits. This regulation shall come into effect from April 01, 2022.

#### **Liabilities-based classification**

NBFCs are classified on the basis of liabilities into two broad categories:

- deposit-taking; and
- non-deposit taking.

Deposit-taking NBFCs (NBFC – D) are subject to the requirements of stricter capital adequacy, liquid-assets maintenance and exposure norms.

Further, in 2015, non-deposit taking NBFCs with an asset size of Rs 5 billion and above were labelled as ‘systemically important non-deposit taking NBFCs’ (NBFC – ND – SI), and separate prudential regulations were made applicable to them.

## Activity-based classification

As per the RBI circular dated February 22, 2019, the central bank merged three categories of NBFCs, i.e., asset finance companies (AFC), loan companies (LCs) and investment companies (ICs), into a new category called NBFC - Investment and Credit Company (NBFC-ICC)

1. **Investment and credit company – (NBFC-ICC):** An NBFC-ICC means any company that is a financial institution carrying on as its principal business of providing finance by making loans or advances or otherwise for any activity other than its own and acquisition of securities; and is not any other category of NBFC.
2. **Infrastructure finance company (IFC):** An IFC is an NBFC that deploys at least 75% of its total assets in infrastructure loans and has a minimum net-owned funds of Rs 300 crore, with a minimum credit rating of 'A' or equivalent and a 15% CRAR (Capital to risk-weighted adequacy ratio).
3. **Infrastructure debt fund (IDF-NBFC):** An IDF-NBFC is a company registered as an NBFC to facilitate the flow of long-term debt into infrastructure projects. It raises resources through the issue of rupee or dollar-denominated bonds with a minimum five-year maturity. Only IFCs can sponsor IDF-NBFCs.
4. **Micro-finance institution (NBFC-MFI):** An NBFC-MFI is a non-deposit-taking NBFC with not less than 60% (as per June 06, 2025 notification) of its assets in the nature of qualifying assets, which satisfy the following criteria:
  - NBFC MFIs can disburse loans to borrowers with household annual income not exceeding Rs 300,000. The household shall mean an individual family unit, i.e., husband, wife and their unmarried children.
  - All collateral-free loans will be considered as qualifying assets. Such loans will include all non-collateral loans irrespective of end use and mode of application/ processing/ disbursal.
  - The loan shall not be linked with a lien on the deposit account of the borrower.
5. **Factors (NBFC-Factors):** An NBFC-Factor is a non-deposit-taking NBFC engaged in the principal business of factoring. Financial assets in the factoring business should constitute at least 50% of its total assets and income derived from the factoring business should not be less than 50% of its gross income.
6. **Mortgage guarantee companies (MGC):** An MGC is a financial institution for which at least 90% of the business turnover is mortgage guarantees or at least 90% of the gross income is from the mortgage-guarantee business and whose net-owned funds is atleast Rs 100 crore.
7. **Non-operative financial holding company (NOFHC):** An NOFHC is a financial institution through which promoter / promoter groups will be permitted to set up a new bank. A wholly owned NOFHC will hold the bank as well as all other financial services companies regulated by the RBI or other financial sector regulators to the extent permissible under the applicable regulatory prescriptions.
8. **Account Aggregators (NBFC-AA):** NBFC Account Aggregator is a financial entity which functions as the Account Aggregator for the customers of NBFC. NBFC-AA accumulates and provides information concerning multiple accounts which are held by the customers in various NBFC entities.
9. **Peer to Peer Lending (NBFC-P2P):** NBFC –Peer to Peer Lending platform (NBFC-P2P) is a type of Non-Banking Financial Company which carries on the business of providing services of Loan facilitation to willing lenders and borrowers through online platform.

## Prompt corrective action framework

NBFCs have been growing in size and now have substantial interconnectedness with other segments of the financial system. Accordingly, in October 2022, the RBI made effective a prompt corrective action (PCA) framework to further strengthen the supervisory tools applicable to NBFCs. The objective of the framework is to enable supervisory intervention at the appropriate time.

It requires the supervised entity to initiate and implement remedial measures in a timely manner to restore its financial health. It does not preclude the central bank from taking any other action as it deems fit at any time, in addition to the corrective actions prescribed in the framework.

The PCA framework applies to all NBFC-Ds and all NBFC-NDs in the middle, upper and top layers, identified under the new SBR. It excludes NBFCs not accepting/ not intending to accept public funds, government companies, primary dealers and HFCs.

The risk thresholds when breached may result in invocation of PCA are:

**For NBFC-Ds and NBFC-NDs (excluding CICs):**

Indicator	Risk threshold 1	Risk threshold 2	Risk threshold 3
CRAR	Up to 300 bps below the regulatory minimum CRAR (currently, CRAR <15% but $\geq 12\%$ )	More than 300 bps, but up to 600 bps below regulatory minimum CRAR (currently, CRAR <12% but $\geq 9\%$ )	More than 600 bps below regulatory minimum CRAR (currently, CRAR <9%)
Tier 1 capital ratio	Up to 200 bps below the regulatory minimum tier 1 capital ratio (currently, tier 1 capital ratio <10% but $\geq 8\%$ )	More than 200 bps, but up to 400 bps below the regulatory minimum tier 1 capital ratio (currently, tier 1 capital ratio <8% but $\geq 6\%$ )	More than 400 bps below the regulatory minimum tier 1 capital ratio [currently, tier 1 capital ratio <6%]
NNPA ratio (including NPIs)	>6% but $\leq 9\%$	>9% but $\leq 12\%$	>12%

Source: RBI

**For CICs**

Indicator	Risk threshold 1	Risk threshold 2	Risk threshold 3
Adjusted net worth (ANW) / aggregate risk weighted asset (RWA)	Up to 600 bps below the regulatory minimum ANW/RWA (currently, ANW/RWA <30% but $\geq 24\%$ )	More than 600 bps, but up to 1200 bps below regulatory minimum ANW/RWA (currently, ANW/RWA <24% but $\geq 18\%$ )	More than 1200 bps below regulatory minimum ANW/RWA (currently, ANW/RWA <18%)
Leverage ratio	$\geq 2.5$ times but <3 times	$\geq 3$ times but <3.5 times	$\geq 3.5$ times
NNPA ratio (including NPIs)	>6% but $\leq 9\%$	>9% but $\leq 12\%$	

Source: RBI

**Credit concentration norms**

RBI, in its April 19, 2022, guidelines on Large Exposure Framework for Non-Banking Financial Company – Upper Layer (NBFC-UL), permits exposures to the original counterparty to be offset with certain credit risk transfer instruments. These include instruments such as cash margin/caution money/security deposit against which the right to set off is available, held as collateral against the advances, and government guaranteed claims (0% risk weight for central and 20% for state government for CRAR computation) However, this was exclusive to NBFC-UL.

In a move towards standardisation, the RBI has extended this provision to NBFCs in the middle and base layers. This harmonisation levels the playing field for all NBFCs across layers.

Out of 9,306 RBI-registered NBFCs (excluding HFCs), only 9 falls under the NBFC-UL category, while the majority are in the middle and base layers.

**Regulatory measures towards consumer credit**

In November 2023, the RBI introduced measures to address concerns surrounding consumer loans by increasing the risk weight on such loans by 25% for all lenders and bank loans to NBFCs. This move aimed to strengthen risk management and respond to the RBI's cautious stance on rapid consumer credit growth and NBFCs' increasing reliance on bank borrowings. As part of this initiative, the RBI directed regulatory entities to review sectoral exposure limits for consumer credit and establish board-approved limits for unsecured consumer credit exposures.

The RBI increased the risk weights on consumer credit exposure of banks and NBFCs from 100% to 125%. This increase applied to commercial banks' consumer credit exposure, including personal loans, but excluding housing loans, education loans, vehicle loans, and loans secured by gold and gold jewellery. Similarly, NBFCs' retail loans, excluding housing loans, education loans, vehicle loans, loans against gold jewellery, and microfinance/SHG loans, also attracted a 125%

risk weight. Additionally, credit card receivables of SCBs and NBFCs carried risk weights of 150% and 125%, respectively. However, following a review in February 2025, the RBI decided to exclude microfinance loans from the higher risk weights applied to commercial banks' consumer credit exposure and will subsequently attract 100% risk weight.

In addition to the changes in consumer credit risk weights, the RBI also increased the risk weights on SCBs' exposures to NBFCs, excluding core investment companies, by 25%, where the existing risk weight was below 100%. Loans to HFCs and priority sector-eligible loans to NBFCs were exempt from this increase. In a later revision, the RBI rolled back the 25% increase in risk weights on bank exposures to NBFCs in February 2025, effectively reinstating the previous levels determined by external credit ratings. This revision, which takes effect from April 1, 2025, is expected to boost credit growth from banks to NBFCs.

## Overview of NBFCs – Review and outlook

### Credit growth faces turbulence amid challenges in unsecured credit

#### Wholesale credit dominates lending

*E: Estimate*

*Note:*

1. The above representation of bank credit is exclusive of agriculture credit.
2. Bank credit is adjusted for on-lending to non-banks.
3. Numbers in the presentation are adjusted for the HDFC merger, with booked moved to banks for like-for-like comparison.

*Source: Reserve Bank of India (RBI), company reports, Crisil Intelligence*

As of the end of fiscal 2025, the financing market, including banks (excluding agriculture credit) and non-banking financial companies (NBFCs)/ housing finance companies (HFCs), was estimated at Rs 202 trillion.

While banks accounted for ~76% of the lending market, with a loan portfolio of Rs 154 trillion, NBFCs/ HFCs constituted ~24%, with Rs 48 trillion. The portfolio of NBFCs/ HFCs, excluding two major government infrastructure finance companies — Power Finance Corporation (PFC) and Rural Electrification Corporation (REC)-is likely to remain skewed towards retail, with a share of 59%.

In fiscal 2025, the credit growth of NBFCs is estimated to have slowed to 18%, compared with 21% in fiscal 2024 due to moderation in unsecured loans, including loans in microfinance, personal and consumer durables. The moderation in unsecured loans can be attributed to its rapid expansion over the past few fiscals and overleveraging concerns, which can impact asset quality. As a result, the Reserve Bank of India (RBI) intervened in November 2023 to slow down the growth of unsecured retail loan by tightening capital norms.

Credit growth picked up momentum in fiscal 2023 after a slow down due to pandemic-related disruptions in fiscals 2021 and 2022. In fiscal 2024, the financing market was valued at Rs 179 trillion, with banks accounting for Rs 138 trillion and NBFCs, Rs 41 trillion. NBFCs recorded a 21% credit growth, driven by auto loans, personal loans, housing finance and microfinance in the retail segment and micro, small and medium enterprises (MSME) and infrastructure financing in

the wholesale segment. NBFC credit rebounded, clocking a compound annual growth rate (CAGR) of 14% between fiscals 2020 and 2025.

### Retail-driven credit expansion to maintain momentum for NBFCs

E: Estimate, P: Projected

Note: Historical credit growth numbers adjusted for the merger of HDFC Ltd with HDFC Bank for fair comparison

Source: RBI, National Housing Bank (NHB), Ministry of Finance, company reports, Crisil Intelligence

India was among the fastest growing economies in the world before the onset of the pandemic. In the years leading up to the global health crisis, which severely disrupted economic activities, the country's economic indicators improved gradually owing to strong domestic consumption and lower reliance on global demand. Today, the economy remains among the fastest growing despite challenges posed by global geopolitical uncertainties. India's real gross domestic product (GDP) exceeded forecasts in fiscal 2024, expanding 9.2%. The National Statistical Office's first provisional estimates indicate real GDP growth of 6.5% in fiscal 2025.

Crisil Intelligence projects India's real GDP growth at 6.5% in fiscal 2026, but with risks on the downside due to external headwinds. The hike in tariff by the US poses a key downside risk to the industrial outlook in fiscal 2026 and while the pause on the same provides temporary relief, the 10% universal increase is in force since April 2025. Slower global growth and reciprocal tariff hikes after June are likely to impact goods exports. Uncertainty regarding tariffs may hinder investments. Nevertheless, healthy agricultural growth, above-normal monsoon, easing inflation and rate cut by the RBI will support domestic consumption, which, in turn, is expected to support industrial activity.

### Credit growth to remain rangebound in fiscal 2026

In fiscal 2025, NBFCs, including PFC and REC, recorded a robust credit growth of 18% on-year, albeit slower than 21% recorded in the previous fiscal. The growth rate is projected to remain high and rangebound between 17-18% in fiscal 2026 owing to expected normalisation in the growth rate of gold loans, changes in global scenarios impacting education loans and slowdown in infrastructure loan disbursements due to completion of the Liquidity Infusion Scheme and Late Payment Surcharge rules.

The retail segment will drive credit growth, although growth in the unsecured lending is expected to normalise from a high base. Additionally, the RBI's vigilance and circular on risk weights will temper growth in unsecured portfolios, ensuring a more measured pace of expansion.

In February 2025, the RBI rolled back the 25% increase in risk weights on bank exposures to NBFCs, effectively reinstating the previous levels determined by external credit ratings. The revision took effect from April 1, 2025 and is expected to boost credit growth from banks to NBFCs, with a positive ripple effect on the overall credit flow to the retail segment in fiscal 2026. Furthermore, upon review, the RBI excluded microfinance loans from the 125% risk weight applied to consumer credit, subsequently restoring it to 100%.

In fiscal 2025, among the retail segment, gold loans recorded robust growth owing to higher prices, which boosted the demand for gold loans. Growth in housing loans remained broadly stable, while auto loan book normalised. Microfinance loans recorded a dip due to overleveraging of borrowers. On the other hand, real estate and corporate loans, construction

equipment and infrastructure financing in the wholesale segment recorded loan growth, while MSME loans continued their double-digit growth rate despite some moderation.

The retail segment witnessed an improvement in the asset quality, except for microfinance, which was impacted by overleveraging by underlying borrowers. Housing, personal loans, vehicle and gold loans also saw an improvement in asset quality, supported by resilient underlying customer base from the impact of high interest rates and tightened monitoring and collection efforts by NBFCs.

### Moderation in the unsecured retail segment weighs on credit growth, while wholesale remains resilient

*E: Estimate, P: Projected*

*Note:*

1) Retail includes housing, vehicle, gold, microfinance, personal, consumer durables and education loans

2) Wholesale includes MSME, real estate and large corporate, infrastructure and construction equipment loans

Source: Industry and Crisil Intelligence

In fiscal 2025, the retail segment's share in the lending mix is estimated to have declined marginally to 45%, while wholesale increased to 55%. The share of both segments is expected to sustain in fiscal 2026 as well.

The growth rate in the retail segment is likely to rise moderately to 17-18% in fiscal 2026, driven by growth in housing, vehicle and consumer durable loans. However, NBFCs are expected to maintain a cautious approach to unsecured lending due to visible stress in the microfinance and personal loan segments. The growth of gold loans is expected to normalise following an exceptional growth in fiscal 2025.

In contrast, the wholesale segment's growth rate is projected to decline slightly due to an expected slowdown in infrastructure disbursements. Nevertheless, MSME, and corporate and real estate loans are expected to see an uptick.

In fiscal 2024, the retail segment's share in the lending mix increased to 46%, driven by strong credit growth over the past two years. The wholesale segment also saw a strong credit growth of 19%. The trends were a continuation of the patterns observed in fiscal 2023 when retail and wholesale segments expanded 22% and 12%, respectively.

Growth in the wholesale segment was driven by MSME loans in fiscal 2023, which was further aided by a steady rise in infrastructure financing. Historically, the retail segment led the NBFC sector's growth post the fiscal 2018 crisis, while the wholesale segment experienced low single-digit growth between fiscals 2021 and 2022.

## Break-up of retail and wholesale NBFC credit (fiscal 2025E)

E: Estimate

## Secured lending segments aid NBFC credit growth momentum in fiscal 2025

Unsecured loans to grow in fiscal 2026 amid abating asset quality issues

E:  
Estimate,  
P:  
Projected  
Note: For

calculation of unsecured retail loans given by NBFCs, segments such as personal, microfinance and consumer durables loans and a share of education loans are considered

Source: RBI, NHB, Microfinance Institutions Network (MFIN) and Crisil Intelligence

In fiscal 2025, NBFCs' retail portfolio is estimated to have grown 16% on-year to Rs 22 trillion. Within the portfolio, the unsecured category expanded rapidly in the past five fiscals. The surge raised concerns about underlying risks, prompting the RBI to issue the November 2023 circular requiring lenders to keep higher capital buffers against such exposures. This led to a slowdown in credit in the second half of fiscal 2024, which continued into fiscal 2025. The impact was evident in microfinance and personal loans, driven by overleveraging, higher inflation and stagnant income, which impaired the borrowers' repayment capability.

Overleveraging at the borrower's end augments asset quality vulnerability. This is exacerbated in unsecured lending, where there is no recourse to collateral and hence, the loss, given the default, is high. Hence, NBFCs lowered exposure to unsecured loans in fiscal 2025.

Crisil Intelligence projects the unsecured lending segment's share to increase to 30% in fiscal 2026, supported by partial loan growth recovery in microfinance, following a considerable decline in fiscal 2025. To manage overleveraging in microfinance, the MicroFinance Institutions Network (MFIN) announced a cap of three microfinance lenders and maximum retail unsecured loan indebtedness of Rs 0.2 million per borrower, effective from April 1, 2025. In anticipation of these guidelines, lenders cautiously lowered exposure in fiscal 2025 to fulfil the applicable criteria, leading to a decline in the loan book.

As a result, Crisil Intelligence expects the unsecured segment's growth rate to increase to 19-20% in fiscal 2026, while the secured segment is expected to normalise to 16-17%, driven by moderation in gold loan growth following a blockbuster growth in fiscal 2025.

Between fiscals 2021 and 2024, the secured segment logged a CAGR of 14%, compared with the pre-pandemic growth of 8%. In contrast, the unsecured segment clocked a CAGR of 39% as NBFCs expanded their reach to new-to-credit customers and Tier II and lower-tier cities.

The low savings rate by Indian households of 5.2%, as of fiscal 2024, on account of higher financial liabilities, indicates a debt-driven consumption-led post-pandemic recovery. The emergence of financial technology companies (fintech) has played a key role in the growth of the unsecured segment. Fintechs have been at the forefront of innovative lending practices, often catering to segments that traditional financial institutions might not reach.

### Secured lending segments to aid credit growth, with moderation in unsecured loans

E: Estimate, P: Projected

Source: Company reports, Crisil Intelligence

**Housing finance:** In fiscal 2025, the sector recorded 14% credit growth, led by prime housing-focused HFCs, while that in the affordable housing-focused HFCs saw a slight moderation due to the impact of high interest rates on their underlying customer base. The growth in housing credit was supported by rising disposable income, salaried class appetite for home loans being relatively insulated from the impact of high repo rate and sustained demand from Tier II and III cities. Crisil Intelligence expects the housing loan book growth of HFCs/ NBFCs to accelerate to 15-16% in fiscal 2026 as the repo rate cut on lending rates will boost home loan demand. The recent allocation of Rs 30 billion to the Interest Subsidy Scheme under the Pradhan Mantri Awas Yojana for fiscal 2026 will boost growth in the sector.

**Vehicle finance:** Between fiscals 2020 and 2025E, the NBFC vehicle finance segment logged a CAGR of 13.8%, compared with 14.4% for the overall vehicle finance advances. In fiscal 2025, NBFCs' vehicle finance portfolio expanded 16%, compared with the industry's growth rate of 13.5%. Despite lower volume growth, impacted by delayed government capital expenditure and extreme environmental challenges, the vehicle finance segment remained steady owing to higher demand for used vehicles and premiumisation in the passenger vehicles (PV) category, credit demand for two-wheelers and tractors, driven by rural demand, and the rising penetration of NBFC vehicle finance in Tier II and III cities. Crisil Intelligence forecasts NBFCs' vehicle finance advances to grow 16-17% in fiscal 2026, driven by the RBI's repo rate cut

of 100bps between February and June 2025, income tax benefits, pick-up in replacement demand and premiumisation in the PV category.

**Gold finance:** The NBFC gold loan segment grew ~26% in fiscal 2025, supported by higher prices and strong demand for gold loans from borrowers. As of March 2025, the average gold loan prices increased 25% over the past 12 months. Further, the higher tonnage growth of 7% in fiscal 2025, compared with 3% in fiscal 2024 and 11% rise in active gold loan customers, compared with 6%, indicated strong demand for gold loans. Crisil Intelligence expects growth in the NBFC gold loans segment to moderate in fiscal 2026, with a 17-19% expansion in credit, compared with 26% in fiscal 2025. Moreover, the impact of revised RBI directions on gold loans would be a key monitorable for the segment.

**Microfinance:** NBFC's microfinance institutions are estimated to have logged a CAGR of 15% between fiscals 2020 and 2025E. The industry's growth momentum was disrupted in fiscal 2025 due to extreme heat wave, general elections, loan waiver campaigns in Punjab, overleveraging and the Karnataka ordinance on prevention of coercive action for recovery of loans. The primary concern underlying the industry's deterioration in asset quality was overleveraging among borrowers. As a result, the industry is estimated to have faced a steep decline in advances by 8-12% in fiscal 2025. It is likely to record a modest growth of 4-8% in fiscal 2026.

**MSME finance:** MSME lending has undergone a significant transformation in recent years, with both banks and NBFCs intensifying their focus on this segment. The rise of digital lending, government-backed initiatives, a thriving economy and increasing adoption of formal credit channels have propelled this growth. The shift towards cash flow-based underwriting has further boosted lending to MSMEs. Consequently, NBFC credit to MSMEs grew a robust 27% in fiscal 2025. Crisil Intelligence projects that NBFCs will drive the growth of MSME credit, which is projected to grow 27-29% in fiscal 2026 as domestic demand continues to rise and urbanisation accelerates in growing urban centres.

**Real estate and corporate finance:** NBFCs/HFCs have been reducing their wholesale portfolios and focusing on the retail business because of asset quality issues. However, those continuing to expand their wholesale portfolios have reported steady growth, estimated at 5.2% in fiscal 2025. Crisil Intelligence projects the wholesale book of NBFCs to grow a moderate 6-8% in fiscal 2026 as a few large HFCs have resumed expanding their developer finance portfolio after years of book clean-up. Real estate project launches slowed in fiscal 2025, but the RBI's rate cuts are expected to revive new project launches in fiscal 2026, thereby supporting the growth of the wholesale book.

**Infrastructure finance:** The infrastructure book of NBFCs grew 16.8% in fiscal 2025 driven by investments in renewable power and transmission and distribution (T&D) sectors, which saw a significant pickup in demand. This growth momentum is expected to persist in fiscal 2026, with a projected 12-13% growth, led by the continued expansion of the power sector and an anticipated pickup in non-power capital expenditure, such as construction. The 11.6% increase in budgetary allocation for infrastructure to Rs 10.7 trillion is expected to provide a boost to infrastructure investment in fiscal 2026. However, the growth rate is expected to be slightly lower than the previous year owing to higher repayments and certain government schemes nearing completion.

## Asset quality pressure mount for unsecured loans, secured to remain range-bound

### Improving asset quality, a positive for medium-term growth

Note: For calculating GNPA and NNPA, 100 NBFCs that collectively accounted for loans and advances of Rs 23,000 billion as on March 31, 2024, were considered. The above set excludes PFC and REC.  
Source: RBI, company reports, Crisil Intelligence

### Decline in Stage 2 assets and higher provisioning instil optimism

Note: The analysis is based on aggregate data for 27 NBFCs/HFCs in fiscal 2024, accounting for a gross exposure of Rs 15,810 billion as on March 31, 2024.  
Source: RBI, company reports, Crisil Intelligence

The asset quality of NBFCs continued to improve until March 2024. Fiscal 2025 has been challenging for unsecured lending, with personal loans and microfinance facing asset quality concerns due to borrower overleveraging and collection disruptions. Crisil Intelligence expects GNPA of the unsecured segment to remain elevated over the next two fiscals, despite regulatory interventions.

In contrast, secured retail assets such as housing and vehicle loans saw a decline in GNPA in fiscal 2024, driven by effective collections and provisioning. However, vehicle loans may experience a marginal uptick in GNPA in near term due to retail borrowers' exposure to unsecured lending.

On the wholesale front, asset quality improved in fiscal 2024, driven by economic growth and robust credit expansion. Infrastructure financing, in particular, has benefitted from its low-risk borrower profile, with GNPA expected to decline further in current fiscal.

### Asset quality of secured retail loans improved in fiscal 2025

		GNPA FY24	GNPA FY25E	GNPA FY26P
Retail	Housing	1.3%	1.2%	1.1-1.2%
	Vehicle (all segments)	4.3%	3.8%	3.8-4.0%
	Gold	2.8%	2.6%	2.6-2.8%
	Microfinance	2.4%	6-7%	3.0-5.0%
Wholesale	MSME	3.6%	4.0%	4.0-5.0%
	Real estate & corporate	NM	NM	NM
	Infrastructure (incl. PFC REC)	2.9%	1.7%	1.4-1.5%
Scale		<2.5%	2.5-7.5%	>7.5%

Notes:

1) P – Projected, NM – Not meaningful

2) Green: <2.5%, amber: 2.5-7.5%, red: >7.5%

3) Asset quality of real estate and corporate loans is not meaningful due to the addition of contractual moratoriums, extension of date of commencement of commercial operations, one-time restructuring and player strategy to downsize the wholesale portfolio.

Source: Company reports, Crisil Intelligence

**Housing finance:** The housing portfolio of HFCs has demonstrated a positive trend with a decline in GNPA since fiscal 2021, indicating an improvement in asset quality. In fiscal 2025, the housing portfolio's GNPA ratio is estimated to have decreased 13 bps to 1.2%, attributable to the resilience of customers of prime HFCs along with intensified efforts to improve collection efficiency by closely monitoring early delinquencies (DPD: +1 day). Crisil Intelligence projects the GNPA ratio of the overall housing portfolio to remain range-bound between 1.1-1.2% in fiscal 2026 on the back of loan book growth and repo rate cuts, which are expected to alleviate the burden of high-interest loans on customers.

**Vehicle finance:** Asset quality deteriorated in the first half of fiscal 2025 owing to delayed government expenditure and extreme weather conditions. However, it improved to 3.8% towards the end of the fiscal. This was primarily because of a large technical write-off of Rs 23,451 million in the fourth quarter by a key auto finance player, of which 76% pertained to the vehicle finance portfolio. Excluding this write-off, GNPA for fiscal 2025 would have remained at 4.2%. For fiscal 2026, asset quality is expected to remain at 3.8-4.0%. The expected pickup in government and private capital expenditure is likely to result in better capacity utilisation and realisation. Additionally, above-normal rainfall forecast by the India Meteorological Department is expected to maintain healthy rural cash flows owing to improved agricultural output.

**Gold finance:** As of March 2025, the GNPA ratio was 2.6%, representing a decrease of 20 bps from the previous year. During the first half of fiscal 2025, asset quality had deteriorated slightly, with the GNPA ratio increasing to 3.1% by the end of September 2024. The deterioration can be attributed, in part, to the customer-centric approach adopted by NBFCs, which involves not auctioning gold in the event of initial loan defaults, resulting in higher delinquency rates. The asset quality improved significantly in the fourth quarter of fiscal 2025 because of the high growth in advances and auctions. The asset quality is expected to remain stable in fiscal 2026 with a projected GNPA ratio of 2.6-2.8%. The tighter underwriting standards proposed in the revised directions are expected to support asset quality in fiscal 2026.

**Microfinance:** In fiscal 2024, GNPA of NBFC-MFIs rose 20 bps to 2.4%. By the end of March 2025, PAR 90+ days is estimated to have increased to 6-7%, indicating mounting stress in the segment. Delinquencies are rising because of transitory factors such as the general election, heatwaves and extended rainfall. However, overleveraging has been a deeper issue in the segment, with multiple loans from various institutions being a major cause of slippage. Also, the Karnataka ordinance is expected to have led to a considerable jump in the slippage ratio during the fiscal. To address overleveraging concerns, the Microfinance Institutions Network (MFIN) has proposed additional self-regulatory measures, including limiting lenders per borrower to three, not to lending to defaulting borrowers when the outstanding amount exceeds Rs 3,000 for more than 60 days. Crisil Intelligence expects GNPA to moderate to 3-5% in fiscal 2026 on account of improved underwriting standards because of MFIN guardrails. Further, sufficient provisions and write-offs might help NBFC-MFIs reduce stress to some extent.

**MSME finance:** In March 2021, the asset quality of MSME loans deteriorated as the pandemic impacted borrowers' incomes, leading to a rise in GNPA. However, with continued improvement in economic activity, better collection efficiency and strong credit growth, GNPA decreased. In fiscal 2025, the GNPA ratio is estimated to be in the range of 4-5% for NBFCs. Private banks, which serve lower-risk customers, have better asset quality than other lenders, including NBFCs, which serve customers with limited or no documented income. Crisil Intelligence projects GNPA to remain to be in a similar range of 4-5% in fiscal 2026 owing to resilient economic activity, easing inflationary pressures and reduction in interest rates.

**Real estate and corporate finance:** Stress in the real estate and corporate segments remains higher than in others. Crisil Intelligence anticipates continued high stress in the wholesale book driven by contractual moratoriums and extension of the date of commencement of commercial operations. The wholesale GNPA of NBFCs/HFCs moderated marginally in fiscal 2025 owing to recoveries and write-offs. However, for a few players, GNPA were in the high double digits because of a continued decline in the wholesale book and no new disbursements.

**Infrastructure (including PFC and REC) finance:** Most of the borrowers of PFC, REC and Indian Renewable Energy Development Agency (IREDA) are state-owned generation and T&D entities covered by state government guarantees. Hence, delinquencies are restricted. GNPA of PFC, REC and India Infrastructure Finance Company Ltd (IIFCL) fell 140 bps, 136 bps and 5 bps, respectively, in fiscal 2025, owing to effective resolution of stressed assets. The industry GNPA dropped 122 bps to 1.66% in fiscal 2025 from 2.88% in fiscal 2024. Looking ahead, the infrastructure loan book

of NBFCs is expected to continue its upward trend in terms of asset quality, with GNPA's projected to remain range-bound and stabilise within a range of 1.4-1.5% in fiscal 2026. This optimistic outlook is supported by the consistent resolution of non-performing loans by large infrastructure financing companies (NBFC-IFCs) and the anticipated resolution of additional accounts in the near term.

### Impact of risk weight circular and hardening of rates led to a decline in share of banks' lending to NBFCs

In fiscal 2025, bank's credit exposure to NBFCs increased 5.7% on-year to Rs 16.4 trillion, slower than the 15.3% growth in the previous fiscal. The share of NBFCs in bank credit exposure declined from 9.4% in fiscal 2024 to 9.0% in fiscal 2025 driven by dynamic management of banking liquidity, which led to higher lending rates among banks and was further compounded by the RBI's risk weight circular. Many NBFCs, particularly large and highly rated, resorted to overseas and capital market borrowings, which brought down their reliance on funding from banks.

The recent reversal of the 25% increase in risk weights on bank exposure to NBFCs is expected to boost credit growth from banks to NBFCs.

The weighted average lending rates on outstanding rupee loans for banks increased from 8.72% in April 2022 to 9.75% in March 2025. The hardening of bank lending rates in relation to other funding avenues, such as domestic capital markets and ECBs, made funding from banks less appealing to NBFCs in fiscal 2025. However, bank borrowings are likely to rebound next fiscal as the effects of interest rate cuts are passed on to borrowers, making bank lending more competitive.

### Debt mutual fund investment in NBFCs surpasses pre-NBFC crisis levels

Note: Exposure refers to debt mutual funds

Source: Securities and Exchange Board of India, Crisil Intelligence

Debt mutual funds' investment in NBFCs reached Rs. 2.47 trillion in fiscal 2025, surpassing the levels prior to the NBFC crisis of 2019. After the crisis, mutual funds have been extremely cautious towards investing in NBFCs, with exposure declining from ~17.6% in fiscal 2018 to 9.4% in fiscal 2023.

In the past two fiscals, investment picked up in both commercial papers and non-convertible debentures (NCDs), supported by healthy balance sheets of non-banks and improvements in asset quality and credit momentum. Also, the RBI's regulatory intervention and continuous monitoring of NBFCs increased confidence in NBFCs. This led to a 60 bps on-year rise in the share of debt mutual fund allocation towards NBFCs to 11.0% in fiscal 2025.

As of March 2025, debt mutual funds' investments in commercial paper stood at Rs 1.34 trillion and in NCDs at Rs 1.12 trillion.

## NCD issuances gain traction

### Issuances rebound towards the end of fiscal 2025

represents the trend for 160 NBFCs forming more than 95% of loans and advances of the estimated NBFC sector outstanding

Source: F' track, monthly portfolio disclosures by mutual funds, Crisil Intelligence

NCD issuance remained buoyant in fiscal 2025, increasing 3% on-year, excluding the Rs 460 billion NCD issued by HDFC Ltd in the first quarter of fiscal 2024 prior to its merger with HDFC Bank effective July 2023.

Notably, NCD issuance surged to Rs 1,170 billion in the second quarter of fiscal 2025, which marked a four-quarter high. This was largely attributed to the rising expectations of the RBI pivoting towards rate cuts following similar moves by major central banks, including the European Central Bank and the US Federal Reserve.

However, the issuances slowed to Rs 750 billion in the third quarter as several high-rated NBFCs resorted to overseas borrowing as the RBI continue to hold interest rates with inflation remaining above its target.

In the final quarter of fiscal 2025, NCD issuances rebounded 39% sequentially to Rs. 1,041 billion. This resurgence was largely driven by the RBI's decision to cut rates in February 2025, rendering NCD issuances an attractive funding option.

### NBFC-IFCs and HFCs lead in NCD issuances compared with other segments

represents trend more than 95% of loans and advances of estimated NBFC sector outstanding

for 200+ NBFCs forming

Source: Crisil Intelligence

In fiscal 2025, NCD issuances exhibited an upward trend across segments, except microfinance, with notable growth in education, housing, vehicle and affordable housing finance. The microfinance segment experienced a significant decline of 37% on-year because of the prevailing asset quality stress in the sector. Infrastructure finance NBFCs maintained their leading position, accounting for 31% of total NCD issuances, followed by HFCs at 18% and vehicle finance companies at 17%. Collectively, these three segments comprised approximately 65% of total issuances during the fiscal year.

### Securitisation reaches record high of Rs 2.36 trillion

The securitisation market in India reached a record high of Rs 2.36 trillion in fiscal 2025, up 24% from the previous fiscal, driven by large deals from private sector banks and steady fundraising by NBFCs. Despite a slower fourth quarter, the market saw an increase in the diversity of issuances, with 175 originators taking part, compared with 165 in fiscal 2024.

The share of securitisation by banks increased significantly to 26%, which was utilised to manage challenges arising from high credit-deposit ratios. Vehicle and mortgage-backed loans accounted for 47% and 22% of securitisation volume, respectively. The share of gold-loan securitisation volume declined owing to regulatory curbs, while that of microfinance was impacted by asset quality stress.

The market saw a mix of pass-through certificates (PTCs) and direct assignments (DAs), with the former accounting for 54% of the volume. Investors, including mutual funds, insurers and alternative investment funds, are expanding their presence in the market. However, banks remain the dominant investors. While private sector banks invested in both DAs and PTCs, public sector banks preferred to invest in DAs.

The securitisation market in India has displayed a steady growth trajectory, driven by the increasing use of securitisation as an efficient fundraising tool by banks and NBFCs. With credit growth expected to pick up in fiscal 2026, the market is likely to continue its momentum. The flexibility of PTCs and the ability to tailor cash flows to suit investor requirements and risk profiles are expected to support the growth of the market. Overall, the securitisation market in India is expected to remain a key source of funding for banks and NBFCs in fiscal 2026.

### Healthy growth in securitisation volumes led by vehicle loans segment and moderation in microfinance

Source: Crisil Ratings

### Securitisation volumes exceed the Rs 2 trillion mark in fiscal 2025

securitisation and assignment of loan portfolios yields substantial benefits for NBFCs. Securitisation deals can effectively unlock liquidity, help manage asset-liability mismatches and liberate capital to pursue new lending opportunities. The assignment of loans to banks or other investors, meanwhile, enables NBFCs to transfer credit risk, reduce provisioning requirements and enhance balance-sheet resilience. Furthermore, securitisation and assignments can provide NBFCs access to a diversified funding base, diminish their reliance on traditional funding sources and bolster their financial stability.

### Gearing comfortable across NBFCs

#### Comfortable gearing provides cushion for accelerated growth

During the pandemic, NBFCs underwent a deleveraging phase as they became cautious in lending to preserve asset quality, which constrained the growth of assets under management (AUM). As a result, gearing declined to 4.2x as of March 2024 from 5.0x as of March 2020. The decline was further supported by healthy internal accrual post the pandemic, which was a result of pent-up credit demand and low-interest rate environment.

While gearing as of March 2024 remained below the average of 4.5x between fiscals 2020 and 2024, it provides NBFCs a launchpad for accelerated credit growth and a cushion for any asset quality-related shocks in future.

Noting the exuberant growth of unsecured lending against the backdrop of a rising interest rate environment, RBI introduced the risk weight circular as a deterrent to the growth of unsecured loans. As per the circular, the risk weights of all consumers loans for both banks and NBFCs (including credit card receivables) was increased by 25%, excluding loans on housing, vehicle, education and gold. Additionally, the risk weights for exposure by banks to NBFCs where the extant risk weight of the NBFC is below 100% was also increased by 25%.

In response, banks faced an impact of ~85 bps on capital adequacy, whereas the impact was as high as ~200-400 bps for key NBFCs operating in the consumer lending segments. Larger NBFCs rated A- and above and operating in these segments also faced the additional impact on their borrowing cost from bank funding as capital cost for the same increased for banks. Such an increase in COF for these NBFCs drove demand for securitisation and co-lending. This accelerated

capital raises by entities for managing loan book growth, while maintaining adequate capital buffers. In short, this lead to higher capital requirements by the lenders.

However, in a notable reversal, the RBI has reinstated the original risk weights on bank exposures to NBFCs effective April 1, 2025. This is expected to have a positive impact on credit growth, since it would unlock better funding opportunities and more competitive pricing from banks as the risk weights are linked to the external credit ratings. This move is likely to stimulate lending from banks to NBFCs, enhancing funding diversity and providing a much-needed boost to the sector.

### Profitability for fiscal 2024 stays resilient even as COF inches up

#### Net interest margin protected by marginal pass on of rising interest rates in fiscal 2024

Note: 100 NBFCs covered (including HFCs) constituting 70% of the total NBFC market size (excluding PFC, REC and HDFC)

Source: Company reports, Crisil Intelligence

NBFCs saw historically highest return on assets during fiscal 2024 on account of faster pass-on of interest rates hike on asset side compared to the increase in funding cost. The RBI raised the repo rate to 6.50% in February 2023, where it remained unchanged until February 2025, when a 25-bps cut was implemented, marking the first reduction since May 2020. This move was followed by an additional 25 bps cut in April 2025, resulting in a repo rate of 6.00%.

The borrowing costs, yields, and spreads of large, medium-sized, and small NBFCs have historically exhibited significant variations. In fiscal 2024, NBFCs demonstrated varying degrees of success in passing on the interest rate hikes to their borrowers. Notably, small NBFCs, including NBFC-MFIs and AHFs, which typically possess stronger pricing power, increased their interest income to average assets by a substantial 110 bps. During the same period, NBFCs of all sizes experienced a rise in their cost of funds, with medium and small NBFCs bearing the brunt of the increase.

In terms of gearing, large and small NBFCs witnessed a decline, while medium NBFCs saw a marginal increase in fiscal 2024 compared to the previous year. The impact of these changes on NIMs varied across the three groups. Medium

NBFCs experienced a marginal 30 bps increase in NIM, driven by a slight rise in gearing and an insignificant change in spreads. In contrast, small NBFCs saw a 50 bps increase in NIM, driven by a decline in gearing and a proportionate rise in spreads.

The Return on Assets (RoA) of medium and small NBFCs witnessed the most significant improvement, rising by 50 basis points each in fiscal 2024. Large NBFCs also saw a notable increase in RoA, albeit to a lesser extent, with a 30 basis point rise during the same period. The key driver of this improved profitability was the greater increase in yields compared to the rise in COF across all NBFCs, which supported their bottom line in fiscal 2024. During the same period, large and small NBFCs benefited from a decline in credit costs, whereas medium NBFCs faced a 10 basis point increase in credit costs, marking a divergent trend among the three groups.

## Scale-wise drivers of NIM

### Spreads

Note: 1) Yield is calculated as interest income as a percentage of average of current and previous year gross loanbook.

2) COF is calculated as interest expense as a percentage of average of current and previous year borrowings

3) Spreads is the difference between yields and COF.

4) Large NBFCs are defined as those having loanbook greater than Rs 500 billion, medium-size NBFCs are defined as those with loanbook smaller than Rs 500 billion and larger than Rs 100 billion and small NBFCs are defined as those with loanbook smaller than Rs 100 billion.

5) 100+ NBFCs covered (including HFCs) constituting 70% of the total NBFC market size (excluding PFC, REC and HDFC).

## Capital Adequacy Ratio (CRAR)

Note: 1) Large NBFCs are defined as those having loanbook greater than Rs 500 billion, medium-size NBFCs are defined as those with loanbook smaller than Rs 500 billion and larger than Rs 100 billion and small NBFCs are defined as those with loanbook smaller than Rs 100 billion .

2) 100 NBFCs covered (including HFCs) constituting 70% of the total NBFC market size (excluding PFC, REC and HDFC).

Source: Company reports, Crisil Intelligence

## Profitability expected to remain flat with stable margins

Source: Company reports, Crisil Intelligence

Compression in NIMs due to impact of rate cuts on lending yields is one of the key reasons for the reduction in profitability outlook for fiscal 2026. In fiscal 2025, cost of funds increased for NBFCs due to high repo rates which made term loan funding from banks as well as market funding such as NCD and commercial papers costlier. Despite high repo rates competition from banks and NBFCs deeper market penetration impacted yield on loans. Credit costs declined for housing, while increased for gold and microfinance loans.

**Housing:** In fiscal 2025, HFC/NBFCs' net interest income is estimated to have compressed by around 15 bps to 3.5% on account of drop in lending yields and rise in borrowing cost. Interest income on average assets declined due to increase in asset base on account of loan growth along with pricing pressures owing to intense competition in the housing space. On the funding side, cost of fund increased by around 3 bps to 6.4% due to elevated interest rates during the fiscal and increased reliance on costlier funding sources such as commercial paper and NCDs. Credit cost declined as many large HFCs reversed their provisions during the fiscal on account of improving asset quality, leading to improvement in asset quality. Crisil Intelligence expects interest income to average asset to decrease by 20-30 bps in fiscal 2026 as lenders reduce the yields due to repo rate cuts. Interest expense is expected to drop moderately due to slower repricing, leading to a decline in net interest income in fiscal 2026. Credit cost is expected to normalise, resulting in decline of RoAs.

**Gold finance:** The interest income as a percentage of average total assets is estimated to have inched up to 16.4% in fiscal 2025. Crisil Intelligence expects interest income to range between 16.1%-16.2% in the current fiscal, driven by the declining interest rate environment and the focus on high-ticket size loans by a key gold loan finance NBFCs. Yields have improved in the last two fiscals, following a decline in fiscal 2022 and 2023 due to high competition and teaser loans. While interest expenses as a percentage of average total assets increased to 6.3% in fiscal 2025, compared to 5.9% in fiscal 2024, due to the repricing of MCLR-linked borrowings. Interest expenses are expected to moderate to 6.2-6.3% in fiscal 2026. The cost of funds is expected to decline at a slower rate due to a lag in pass on of rates. However, the pass-on of rate benefits to NBFCs by banks will remain be a key monitorable. Further, securitisation and ECB borrowings may help keep the cost of funds at moderate levels. Credit costs as a percentage of average total assets are expected to improve slightly in fiscal 2026 yet elevated at 0.5-0.6% as compared to 0.7% in fiscal 2025. Hence, stable NIM and elevated credit cost may lead to slight moderation on RoAs to 4.7-4.8% as compared to 5.0% in fiscal 2025.

**Microfinance NBFCs:** The yields in the microfinance segment have been high due to the riskier borrower profiles. The interest income of NBFC-MFIs as a percentage of average total assets is expected to decline in fiscal 2025 and 2026, primarily due to the RBI measures to contain higher pricing to borrowers and the non-recognition and reversal of interest incomes due to increased slippages and RBI's repo rate cut. Also, the higher interest expense is expected to lead to compression in margins. Credit costs are expected to rise as a result of rising slippages and industry wide stress on account of overleveraging which is expected to put pressure on the RoAs of NBFC-MFIs. Additionally, operating expenses are expected to increase due to higher attrition rates, leading to a rise in employee costs and other operational expenses, which, combined with the higher credit cost, will lead to negative RoAs for NBFC-MFIs. Overall, the outlook for NBFC-MFIs profitability is expected to be impacted by declining interest income, rising credit costs, and increasing operating expenses in the current fiscal.

## Gold Finance – Review and outlook

### Gold price rally and financing demand to sustain credit momentum

Non-banking financial company (NBFC) gold loans are expected to grow, driven by price and increased underlying demand. The Reserve Bank of India (RBI) issued revised directions for gold loans on June 6, 2025, which include changes to the loan-to-value (LTV) limit and credit appraisal. These changes are expected to support sustainable growth, although stricter norms on renewal and top-up may have a moderating effect. The revised directions are scheduled to be implemented by April 1, 2026.

### NBFC gold loans expected to grow in double digits in fiscal 2026

Type	Share in book FY25E	Book billion (Rs) FY25E	CAGR FY20-25 (%)	Growth in FY25E (%)	Growth outlook for FY26P (%)
NBFCs	22.0%	2,068	23.0%	25.6%	17-19%
Banks	78.0%	7,333	35.0%	24.2%	20-25%
Overall	100.0%	9,402	31.8%	24.5%	20-22%

Note: E — Estimated ; P — projected

Source: Company reports, Crisil Intelligence

The gold loan segment, comprising banks and NBFCs, expanded ~25% in fiscal 2025. Borrowers in rural areas, facing credit constraints in the unsecured lending space, opted to monetise their gold holdings, further supported by a 25% on-year rise in average gold prices in the past 12 months. Further, a growth of 7% in tonnage and 11% in active gold loan customers in fiscal 2025, compared with 3% and 6%, respectively, in fiscal 2024, indicates strong demand for gold loans.

The RBI has identified certain issues with the conduct of gold loan financiers. On September 30, 2024, the RBI noted that banks and non-banks, which are supervised entities, have engaged in practices that are not in accordance with established guidelines in the disbursal of gold loans. The central bank asked them to comprehensively review their policies, processes and practices for gold loans to identify gaps and initiate the appropriate remedial measures. The deficiencies identified by the RBI included:

- Shortcomings in loan appraisal by third parties such as financial technology firms (fintechs) and business correspondents (BC)
- Valuation of gold in absence of the customer
- Lack of due diligence and end-use monitoring in the case of non-agricultural gold loans
- Lack of transparency during auctions at the time of default
- Weakness in monitoring the loan-to-value (LTV) ratio
- Incorrect application of risk weights

These concerns were subsequently addressed in the RBI (Lending against Gold and Silver collateral) Directions, 2025 which were released on June 6, 2025. The objective of these directions is to establish a harmonised regulatory framework; address concerns related to lending practices and strengthen conduct-related aspects. These directions are to be complied as expeditiously as possible but no later than April 01, 2026. (The key details of the directions are outlined in the industry overview section.)

RBI had also imposed curbs on new loan sanctions on one gold finance company. After this, company's portfolio shrank considerably, which also hurt the overall credit growth of NBFCs in the first half of fiscal 2025. The company's share fell to almost 6% of the overall NBFC gold loans advances as of September 2024 as compared with nearly 15% share as of March 2024. However, on September 19, 2024, the RBI lifted the ban on the companies gold loan business with immediate effect, allowing the company to sanction, disburse, assign/securitise and sell gold loans. The company nearly reached its pre-embargo levels by end-fiscal 2025. The financier has expanded gold loan credit by nearly 40% sequentially for the past two quarters, indicating considerable expansion to regain lost market share. Competitive pricing helped it gain market share, further supported by strong demand.

Crisil Intelligence forecasts NBFC gold loans would increase 17-19% this fiscal, while those of banks will likely grow at 20-25%. The overall gold loan industry is projected to grow 20-22% in the fiscal, with banks leading the growth. The market share between banks and NBFCs is expected to remain unchanged, with banks holding 78% and NBFCs holding the balance. The impact of the RBI directions on banks and NBFCs will be a key factor to monitor.

Further, the strategic shift towards secured lending is also expected to boost the gold loan advances of NBFCs, as they seek to reduce exposure to the unsecured segment. Gold loans are considered a low-risk proposition due to the strong collateral the yellow metal provides, reinforced by the sentimental value borrowers attach to gold. Additionally, gold loans offer attractive interest margins with spread at 9% to 10%, making them more lucrative than other secured asset classes.

Gold loans are poised to become a preferred option for financial institutions on account of strong demand for credit amidst rising concerns over asset quality and overleveraging in the unsecured loan segment. However, effects of revised directions will be a key monitorable. The low credit cost associated with gold loans, combined with enhanced borrowing capacity facilitated by rising gold prices, is expected to fuel growth in this segment in the longer term.

Furthermore, the vast gold reserves held by Indian households (estimated at 25,000 tonne, as per World Gold Council, of which only 2,950-3,350 tonne is currently being utilised as collateral), presents a significant growth opportunity. The increasing penetration of the formal sector is likely to unlock this potential, driving growth in the gold loan market and making it an attractive proposition for lenders.

### Rising gold prices and a shift towards secured lending are expected to drive growth in the gold loan segment

Note:

1) E – Estimated; P – projected

2) Gold loan portfolio of banks include the loans against gold jewellery and agri-gold loans portfolio

Source: Company reports, Crisil Intelligence

### Gold prices drive growth, while higher tonnage amplifies expansion in gold loans

Crisil Intelligence forecasts the momentum of gold prices to continue this fiscal, albeit at a slower pace. The yellow metal is expected to reach Rs 91,951 (average price of past 12 months) as compared with Rs 75,781 during fiscal 2025. The surge is expected to persist on account of continued pressure from international markets, a weakening rupee and robust investment demand.

Average monthly gold prices increased 25% in fiscal 2025. The key drivers of this growth include:

1. **Global pressures:** Ongoing geopolitical tensions, economic uncertainty and monetary policy changes are contributing to the surge in gold prices globally
2. **Weak rupee:** The depreciation of the Indian rupee against the US dollar is making gold imports more expensive, which is driving up domestic gold prices
3. **Investment demand:** Robust investment demand for gold owing to its appeal as a safe-haven asset and a hedge against inflation, is fuelling the price increase

## Rising penetration will drive organised gold loans market share

The shift in customer preference to organised players from unorganised ones will also support credit growth, largely because the latter charge exorbitant interest rates and provide little clarity on valuation of gold and the LTV ratio. Also, there is no assurance that the pledged asset will be returned.

Crisil Intelligence believes the share of organised financiers will grow on increasing gold loan penetration in the country through geographical diversification and wider popularity of this mode of financing.

Organised gold loan penetration in India is expected to deepen significantly due to wider geographical diversification, a growing branch network and the increasing keenness of households to monetise their gold holdings for consumption and income generation purpose. Rising gold prices and expectations that micro enterprises would fund their working capital requirements through gold loans are also expected to boost gold financing. The organised segment has been using digital and online platforms, along with phygital (combination of physical and digital) modes, for business. The increasing uptake through these modes is expected to be the primary growth driver.

## Evolving dynamics in India's gold loan space

Banks have historically dominated the domestic gold loan market, with their share increasing during times of financial disruption, such as the 2008 global financial crisis, 2014 taper tantrum, and the Covid-19 pandemic. Banks view gold loans as a relatively low-risk product due to the liquid collateral and potential for increasing gold prices.

The regulatory cap on the LTV ratio was increased to 90% in fiscal 2021, further incentivising banks to focus on gold loans. Although the cap was later reduced to 75%, banks continued to grow in the segment. NBFCs have maintained their market share by competing on factors such as rapid turnaround times, service levels, ease of processing, and geographic reach. Banks, on the other hand, have focused on agricultural-gold loans and offered lower interest rates to existing customers, particularly for higher-ticket products.

The revised direction released by the RBI on June 6, 2025 establishes a uniform standard for LTV ratios across lender types, thereby creating a level playing field that enables all lenders to compete on an equal footing. The revised direction require 85% LTV ratio for loans up to Rs 0.25 million, 80% for loan amount of Rs 0.25 million to Rs 0.50 million and 75% for loans amount of more than Rs 0.50 million.

Also, lower availability of unsecured loans for borrowers created higher demand for secured gold loans, leading to new customer acquisitions. Active customers increased ~11% on-year in fiscal 2025 at the top two NBFCs, which account for ~65% of the NBFC gold loan market. This uptick in customer acquisition is a notable improvement over the 6% increase in fiscal 2024, and a substantial reversal from the 1% decline in 2023.

The 11% on-year growth in active customers demonstrates a resurgence in the gold loan market, driven by the increasing demand for credit and the attractiveness of gold loans as a financing option. The top two NBFCs have capitalised on this trend by expanding their customer base and increasing their market share.

NBFCs will no longer be permitted to offer gold loans with bullet repayment structures for tenures exceeding 12 months, similar to banks. This regulatory change is expected to impact only a limited number of NBFCs. It is important to note that the tenure limit cap applies only to consumption purpose loans with bullet repayment structure, and does not extend to income-generating loans.

## The RBI direction on gold loans to harmonise the regulatory framework, promoting a level playing field

Note:

1) E – Estimated; P – projected

2) Includes agricultural lending by banks with gold as collateral  
Source: Company reports, Crisil Intelligence

### NBFCs compete on operating efficiency, turnaround time and local connect, while managing risks

Banks offering gold loans have a competitive advantage over NBFCs because of lower costs. Hence, NBFCs have been trying to compete through aggressive branch expansion and a focussing on improving customer experience. With sharp focus on the gold loan business, NBFCs have built their service offerings by investing significantly in staffing, systems and processes in line with customer needs.

Key features of the NBFCs' operations include:

1. **Lower turnaround time and less documentation:** The borrower generally wants the loan to be disbursed as quickly as possible. Availability of well-trained and experienced employees in assessment and gold valuation helps NBFCs disburse loans faster than banks.
2. **Wider reach and better local connect:** NBFCs have a wider and deeper reach geographically, especially in rural and semi-urban regions, where demand for gold loans is higher.
3. **Risk management process:** Most NBFCs have put in place a comprehensive and robust risk management process based on their experiences and the key risks involved. These include steps to prevent fraud, ensure safety of the gold stored and recoup losses from possible non-performing assets (NPAs).
4. **Operational efficiency:** Gold loan finance requires operational efficiency in storing, securing, transporting and auctioning assets. Industry leaders Muthoot Finance and Manappuram Finance achieved significant growth of 41% and 19% in fiscal 2025, respectively, in the assets under management (AUM) per branch, indicating improved operational efficiency. Since they account for ~65% of the NBFC gold loan market, their performance sets the benchmark for the industry.

### NBFC gold loan growth expected to moderate to high teens this fiscal, from 26% in the previous fiscal

Looking to compete more effectively with banks and fintech players in the gold loan segment, NBFCs are expanding their reach and customer base through focused marketing, increased spending on advertising and employee incentives. They are also working towards ringfencing their high-value customers (those availing loans of over Rs 2 lakh), who are targeted by banks, and expanding to cater to rural low-income customers. Most of the customer base of NBFCs offering gold loans remains stable, since banks typically cater to larger ticket sizes. However, one large NBFC player has shifted its focus towards high-ticket-size customers.

The gold loan portfolio of NBFCs logged 18.0% CAGR between fiscals 2020 and 2025 despite low credit growth of 7.9% in 2023. NBFCs grew their gold loan portfolio at a robust 18.4% in fiscal 2023 and 26% in fiscal 2025. Crisil Intelligence projects the gold loan credit growth of NBFCs at 17-19% this fiscal on account of branch expansion and optimisation, expected rise in gold prices, an increase in demand for credit from the target consumer segment. However, regulatory concerns can weigh on the growth.

The average ticket size of gold loans has increased over the past five years, since higher gold prices have created headroom for incremental credit due to lowering of the LTV ratio. Since the LTV ratio for NBFCs is capped at 75%, the increase in the average ticket size suggests a rise in the gold loan portfolio owing to higher gold prices. Thus, the AUM growth is also led by an increase in ticket size, in addition to higher volumes.

### Rising gold prices aid growth in ticket size for NBFCs

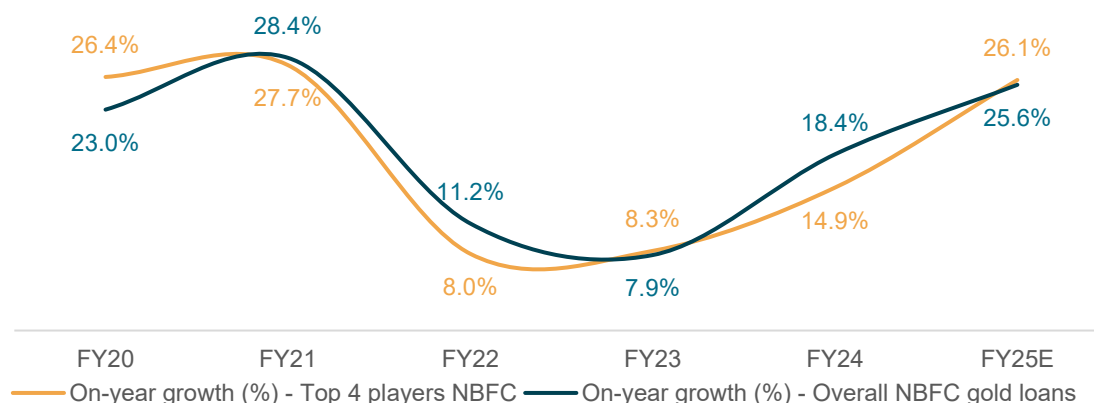

Average ticket size (Rs lakh)	FY20	FY21	FY22	FY23	FY24	FY25
Muthoot Finance	NA	~0.61	~0.69	~0.70	~0.83	~0.93
Manappuram Finance	0.39	0.45	0.57	0.58	0.59	0.68
IIFL Finance	0.56	0.59	0.70	0.63	0.76	1.00
Capri Global	NA			1.01	1.11	1.28

Source: Company reports, Crisil Intelligence

### Growth in gold prices and monetisation of holdings expand credit in fiscal 2025

As of March 2025, Muthoot Finance and Manappuram Finance accounted for ~65% share in the NBFC gold loan market. The other key players were Muthoot Fincorp, IIFL Finance, Shriram Finance, Muthoot Mini Financiers, Bajaj Finance and Kosamattam Finance. The top four companies have established franchises, a strong regional presence and good branch network and reach. The RBI's regulatory action on IIFL Finance led to a decline in its overall portfolio in fiscal 2024 as well as the first half of fiscal 2025. The ban was subsequently lifted in September 2024. By the end of fiscal 2025, the advances of the company reached close to the pre-embargo levels with the gold loan credit expanding more than 40% sequentially in the past two quarters of fiscal 2025.

### Credit expansion of top four players tracks overall growth of NBFC gold loans

Source: E – estimated; P – projected; Company reports, Crisil Intelligence

Note: Top four NBFCs include Muthoot Finance, Manappuram Finance, Muthoot Fincorp and IIFL Finance.

### Higher tonnage and active customer base indicate demand for gold loans

Owing to a sharp rise in gold prices, the LTV ratio of Muthoot Finance and Manappuram Finance, both of which accounted for ~65% of the overall NBFC gold loans, declined to ~60% as of March 2025, compared with ~65% in December 2024.

### Inverse relation between gold prices and LTV ratio evident in fiscal 2025

*Note: Aggregate LTV is computed for Muthoot Finance and Manappuram Finance, which account for ~65% of NBFC gold loan AUM as of March 2025.*

*Source: Company reports, Crisil Intelligence*

### Gold loan book per tonne indicates price-fuelled growth

The chart below comprises data for Muthoot Finance and Manappuram Finance. Gold loan book on a per-tonne basis rose to Rs 4.83 billion in fiscal 2025 from Rs 2.3 billion in fiscal 2020, largely in line with higher gold prices (see the exhibit below). The strong correlation between loan book growth and gold prices indicates that any adverse movement in prices will impact the credit momentum. Crisil Intelligence expects average gold prices to rise 21% on-year in fiscal 2026, slower than 25% in fiscal 2025.

The average gold tonnage per customer for the top two NBFCs declined to 30.6 gram in fiscal 2024 and to 29.5 in fiscal 2025 from ~33 gram in fiscal 2020, indicating the borrowers' ability to opt for higher credit, while pledging less gold, with gold prices logging a CAGR of 16% over fiscals 2020-25.

On the other hand, the average gold loan outstanding per customer for the two companies increased to ~Rs 1,58,000 in fiscal 2025 from ~Rs 94,000 in fiscal 2021. Their active customer base increased ~6% in fiscal 2024 and ~11% in fiscal 2025.

### Amid a 21% expected surge in gold prices in fiscal 2026, gold-loan portfolio per tonne is poised to rise

*Source: Company reports, Crisil Intelligence*

## Shift in gold loan market share, with key player losing considerable share

Source: Company reports, Crisil Intelligence

South India continues to dominate NBFC gold loan AUM, while other regions are likely to witness an increase in its penetration, driven by changing consumer perception of gold loans, rising awareness and funding requirements.

## South India retains major AUM share

Note: Aggregate includes Muthoot Finance and Manappuram Finance

Source: Company reports, Crisil Intelligence

## Demand for gold loans is higher in the southern states

Southern states accounted for 50-51% of the overall gold loan AUM over the past five years on account of:

- Gold owners in the region having better awareness about the utility of the yellow metal as a collateral to raise funds.
- The region having witnessed the origination and establishment of gold loan franchisees, which have devised simple procedures to ensure quick loan disbursement.

Though the southern region continues to dominate, several players have been shifting focus towards the untapped eastern and western markets, which have fewer branches but promise an incremental growth opportunity.

### Gross non-performing assets for NBFC gold loans to remain at 2.6-2.8% in fiscal 2026

Gross non-performing assets (GNPAs) of NBFC gold loans stood at 2.8% as of March 2024, compared with 2.5% in the year-ago period. In the fourth quarter of fiscal 2024, overall GNPAs of the NBFC gold loan industry rose ~30 bps on-year, impacted by a material slippage in IIFL Finance's books following RBI's regulatory action and the company's GNPA rising ~300 bps on-quarter.

As of March 2025, the GNPA ratio stood at 2.6%, representing a decrease of 20 bps from the previous year. However, in the first half of fiscal 2025, the asset quality deteriorated slightly, with the GNPA ratio increasing to 3.1% by the end of September 2024. The rise can be attributed to the customer-centric approach adopted by NBFCs, which involves not auctioning gold in the event of initial loan defaults, resulting in higher delinquency rates.

The asset quality showed considerable improvement in the fourth quarter of fiscal 2025, led by high growth in advances and improved asset quality and auctions. The asset quality is expected to remain stable, with a projected GNPA ratio of 2.6-2.8% in fiscal 2026.

The RBI direction on gold loans require detailed credit appraisal including assessment of borrower's repayment capacity in case of total loan amount is above Rs 0.25 million. This approach is expected to improve asset quality over time. However, the regulations also stipulate that the top-up and renewal of loans shall be permitted only in case the loan is classified as "standard" and loans will not be renewed if the LTV ratio exceed the permissible limit. This may cause short-term liquidity issues for borrowers, potentially affecting their repayment capabilities and resulting in higher slippages. However, the effect can be offset by better underwriting standard and cautious lending.

Additionally, the regulations require lenders to monitor the LTV ratio throughout the loan tenure. Lenders must establish a credit policy that outlines procedures for addressing breaches of the LTV ratio. This will facilitate faster realisation from loans, either through repayment by the borrower or auction.

### Improved underwriting standards and increasing gold prices to reduce vulnerability to delinquencies

Notes: E – estimated; P – projected.

GNPA percentage is arrived at after considering gold loans NBFC comprising ~95% of NBFC gold finance AUM as of September 2024.

Source: Company reports, Crisil Intelligence

### Borrowing mix

Banks' borrowing share trends downwards, while non-convertible debentures and commercial papers moderate due to declining interest rates.

The share of external commercial borrowings in the overall borrowing mix is expected to grow.

Notes: E – estimated; P – projected

Source: Company reports, Crisil Intelligence

At the peak of the pandemic, gold loan NBFCs carried high liquidity on their balance sheets, with low interest rates supporting their cost of funds. However, a reversal in the interest-rate cycle elevated the share of term loan borrowings in the NBFC borrowing mix.

Recently, major gold finance NBFCs, including Muthoot Finance, Manappuram Finance, IIFL Finance and Muthoot FinCorp, have increasingly turned to offshore borrowing, with a notable increase in the issuances of external commercial borrowings (ECB). As of March 2025, the companies raised \$3.0 billion through ECBs, up ~615% from \$0.4 billion in fiscal 2024. The shift was driven by a sharper decline in global interest rates compared with the repo rate cut in India, which made offshore borrowings more lucrative. As a result, the share of ECBs in the companies' overall borrowing mix is expected to increase.

The funding landscape for gold finance NBFCs is expected to undergo a slight change in fiscal 2026, with a decrease in bank term loans due to an overall moderation in bank credit to NBFCs and a marginal improvement in non-convertible debentures and commercial papers. This is largely on account of borrowings being at a fixed rate, which has made it more appealing to lock in fixed interest rates in a declining interest rate environment.

The securitisation of gold loan assets declined to 2% in fiscal 2025 from 6% in fiscal 2024 following RBI's regulatory action on IIFL Finance, which was subsequently lifted in September 2024. The growth of off-balance sheet assets will be aligned with the demand and risk appetite of bank partners.

#### Net interest margins to stay stable, return on assets to face downward pressure

**The repricing of borrowings is expected to sustain the elevated cost of funds, while the pass-through of interest rates to customers will help maintain higher yields.**

Net interest margins (NIMs), which had contracted in fiscal 2023, thereby impacting the profitability of gold NBFCs, improved in fiscal 2024 with a recovery in pricing. In fiscal 2025, yields are estimated to have remained steady, though lower than pre-Covid-19 levels.

The decline in the yields of gold NBFC players up to fiscal 2024 was because of acute competition from banks, which continues to put pressure on their NIMs. Typically, banks offer gold loans at interest rates of 7-15% because of their low cost of funds whereas NBFCs charge 18-24%.

Interest income as a percentage of average total assets increased to 16.4% in fiscal 2025. We expect it to range between 16.1-16.2% in the current fiscal, driven by the declining interest rate environment and the focus on high-ticket-size loans by a key gold loan finance NBFC. Yields have improved in the last two fiscals following a decline in fiscals 2022 and 2023 owing to high competition and teaser loans. Also, most of the players' funding is skewed towards bank borrowings

linked to the marginal cost of funds-based lending rate (MCLR). As a result, the pass-through of benefits from the cost of funds due to a decline in repo rate to borrowers is expected to be a key factor.

Interest expenses as a percentage of average total assets increased to 6.3% in fiscal 2025, compared with 5.9% in fiscal 2024 owing to the repricing of MCLR-linked borrowings. Interest expenses are expected to moderate to 6.2-6.3% in fiscal 2026. The cost of funds is expected to decline at a slower rate because of the lag in the rates being passed on. We expect a cumulative rate cut of 75-100 bps in this cycle, including the 50 bps already announced in February and April. However, the pass-through of rate benefits to NBFCs by banks will remain a key monitorable. Further, securitisation and ECBs may help keep the cost of funds at moderate levels.

Credit costs as a percentage of average total assets are expected to improve slightly in fiscal 2026 because of better underwriting standards in the revised directions on gold loans and improved asset quality performance. We expect credit costs to range between 0.5% and 0.6% in fiscal 2026, compared with 0.7% in fiscal 2025.

### Stable NIM and higher credit cost may lead to slight moderation on return on assets (RoAs)

Note: E – Estimated; P – projected; ratios are on average total assets

### Gold Finance – Industry overview

#### Banks are expected to maintain their lead in the gold loan market in fiscal 2026

The gold loan industry expanded at a CAGR of 25% between fiscals 2020 and 2025E, backed by rising gold prices and strong demand from borrowers. Over the period, the gold loan portfolio of banks grew at a CAGR of 27.0% and that of NBFCs at 18.0%. Consequently, banks accounted for a 78% share of the gold loan market in fiscal 2025E, with NBFCs at 22%.

The gold loan market is also sensitive to movement in gold prices. An increase in gold prices lowers the LTV ratio, creating headroom for incremental credit growth for the same collateral. However, a price decline could result in the loan being called early or requiring an additional margin to maintain the LTV ratio. Hence, a sustained decline in gold prices impedes the segment's credit growth.

Gold collateral is easy to liquidate and, therefore, recover. However, rising gold prices could lower the loss given default (LGD) during the expected credit loss calculation, which could result in a lower provision cover. Thus, any weakening in gold prices would result in higher LGD and a higher provision cover.

Given the significance of gold and the sentimental value attached to gold jewellery in Indian culture, customers typically ensure that loans are repaid and the ornaments redeemed. Hence, even if the GNPA ratio remains elevated, the loss arising from bad asset quality is limited.

## **Factors supporting growth of gold loan AUM**

### **The RBI (Lending against Gold and Silver collateral) Directions, 2025**

Pursuant to the concerns raised by the RBI in its circular dated September 30, 2024, regarding irregular practices in the grant of loans against gold ornaments and jewellery, the RBI issued revised directions on gold loans on June 6, 2025. The RBI (Lending against Gold and Silver collateral) Directions, 2025 aim to establish a harmonised regulatory framework, address concerns related to lending practices and enhance conduct-related aspects. The key aspects of the Directions are as follows:

1. These directions apply to loans provided for:
  - a. Income generation (including farm credit and other economic activities).
  - b. Consumption purposes (excluding income-generating loans).
2. The Directions apply to all banks and non-banks (including housing finance companies), except payment banks.
3. The Directions restrict lending against gold bullion, primary gold/silver, or financial assets backed by primary gold/silver. Additionally, lenders are restricted from availing credit by repledging gold/silver pledged by borrowers and from granting loans to other lenders accepting gold/silver as collateral.
4. Lenders must have a credit policy that defines:
  - a. Single borrower limits
  - b. Aggregate limits for gold loan portfolios
  - c. Maximum LTV ratios
  - d. Actions in case of LTV limit breaches
  - e. Valuation norms
  - f. Documentation requirements for priority sector loans
5. Lenders may provide loans up to Rs 0.25 million based on their risk management framework. However, detailed credit appraisals are required for loans exceeding Rs 0.25 million.
6. The LTV ratio is defined as the outstanding loan amount divided by the total repayment amount at maturity (for loans with bullet repayment structures). The LTV ratio for consumption loans must be maintained throughout the loan tenure, with maximum permissible limits as follows:

Total consumption loan amount per borrower	Maximum LTV ratio
Up to Rs 0.25 million	85%
More than Rs 0.25 million to Rs 0.50 million	80%

Above Rs 0.50 million	75%
-----------------------	-----

*Note: The total repayable amount at maturity is considered for bullet repayment loans.*

7. The tenure of consumption loans with bullet repayment structures shall not exceed 12 months.
8. Renewal/top-up is permitted only in the following circumstances:
  - a. Upon formal request from the borrower
  - b. Subject to credit appraisal
  - c. The loan must be classified as "Standard"
  - d. For bullet loans, renewal/top-up is permitted only if accrued interest has been paid off.
9. The borrower's presence is mandatory during collateral assaying at the time of sanction.
10. Lenders must provide adequate notice to borrowers before auctioning gold and ensure transparency in the auction procedure.
11. The reserve price declared at the time of auction shall not be less than 90% of the current value of the collateral.
12. Lenders must comply with know-your-customer (KYC) and income tax norms when disbursing loans to borrowers.

These directions are to be complied as expeditiously as possible but no later than **April 01, 2026**

### Rising gold prices

International gold prices have been on a sustained upward trajectory since the pandemic and are expected to rise further this fiscal. This trend is driven by several factors, including heightened geopolitical tensions in the Middle East and a weakening rupee. Furthermore, indications of a global slowdown are exerting a downward pressure on capital market investments, prompting investors to seek refuge in safe-haven assets such as gold. The RBI's accumulation of gold is adding to the volatility in gold prices, which, in turn, is affecting retail demand.

### International and domestic gold prices to rise in fiscal 2026

Source: Company reports, RBI, Crisil Intelligence, World Gold Council, World Bank

### Modest rise in gold stocks

In fiscal 2025, gold stocks (tonnage) of NBFCs surged, tonnage increased 7% in fiscal 2025 as compared to 3% in fiscal 2024 while active customer count increased 11% in fiscal 2025 as compared to 6% in fiscal 2024, indicating strong demand for gold loans, driven by a rise in AUM and a stable price trajectory. This marked a significant turnaround from fiscal 2023, when gold stocks had stagnated at fiscal 2022 levels owing to subdued credit demand growth, intense competition and rising gold prices. The gold stock had increased 3% in fiscal 2024. This fiscal, gold stocks are expected to continue to grow, driven by steady growth in the loan book.

Additionally, ongoing geopolitical tension in the Middle East and a global economic slowdown may drive gold prices higher, further softening LTVs.

### Gold stocks to move in tandem with gold prices as demand for gold loans remain robust

Source: Company reports, Crisil Intelligence

### Gold, a hedge against inflation

Between fiscals 2020 and 2025, gold prices clocked a 15% CAGR, significantly outpacing the 5.7% CAGR increase in inflation based on the Consumer Price Index (CPI) over the period. This indicates gold has served as a hedge against inflation, with its value rising more sharply than the CPI.

Further, while CPI-based inflation cooled from 5.4% in fiscal 2024 to 4.6% in fiscal 2025, average monthly gold prices rose 25% on-year in fiscal 2025.

The data, therefore, cements gold's reputation as a reliable safe-haven asset, shielding against inflationary pressures and market volatility.

### Online gold loan schemes

Online gold loan schemes enable consumers to avail gold loans from the convenience of their homes. Several gold loan providers have tied up with banks and payment gateway service providers to offer this service.

Applying for gold loans online is quick, with the loan sanctioned within hours. Digital loan products can be accessed via mobile applications, online platforms and with prepaid cards, among other modes. Know-your-customer checks, registration and disbursements are all carried out online. Also, while some NBFCs require borrowers to personally deliver the gold to their nearest branch, a few provide doorstep services to verify and collect gold ornaments at the customer's residence. The process is managed through a central application that can be simultaneously accessed by all branches.

Manappuram Finance was the first gold loan NBFC to launch online services, in September 2015. Muthoot followed with an online scheme through its website and iMuthoot application in September 2016. In addition to traditional players, fintech companies such as Rupeek have also been offering digital services since 2015. This has seen the online gold loan space gain traction.

## Share of online loans to increase with average gold loan per branch

Source: Company reports, Crisil Intelligence

## Widening branch footprint

Currently, South India dominates demand for NBFC gold loans. However, the uptake in other regions is likely to pick up going forward with the change in consumer perception of gold loans led by growing awareness and fund requirements. Also, lenders are expanding their presence with new branches in the north and east of the country.

## Shift in geographical distribution

Note: Aggregate includes Muthoot Finance, Manappuram Finance

Source: Company reports, Crisil Intelligence

## Specialised gold loan NBFCs have inherent advantages

NBFCs operate at a yield of 18-24% while private sector banks offer ~15% and public sector banks 7-9%. Despite the significant rate differential (8-15%), the AUM of NBFCs clocked a CAGR of 18% between fiscals 2020 and 2025E, owing to their overall conducive environment for customers and extensive branch networks in semi-urban and rural areas.

Gold loan NBFCs have a single-product focus and a wide reach in low-rent areas with a much lower population/ customer base than a typical bank branch, ensuring better customer experience. The other key competitive advantage is faster turnaround time, which adds significantly to the overall customer value proposition as gold loans are predominantly short-term in nature and are taken for emergencies. Further, the gold loan terms of banks tend to be rigid, unlike those of NBFCs. As gold loans are mostly bridge loans (short-term), specifying a minimum tenure with a pre-payment penalty works against the customer's value proposition.

Additionally, gold financing is an operations-intensive business, with special focus required on branch-level infrastructure and personnel. Branches require secure storage, robust electronic monitoring and cybersecurity protocols to protect client data. All these requirements increase operating costs. Moreover, employees must be trained to recognise the possibility of theft and fraud, as well as the procedures to prevent those. Alternatively, some part of the operations, such as appraisal and valuation, could be outsourced to third parties.

The business model has undergone a considerable technological transformation, facilitating faster loan processing, accurate gold valuation, safekeeping, auctions and cost-cutting. Top players require customers to visit the branches only to deposit the physical gold. Proactive marketing, branding and geographic expansion also help capture new-to-market customers.

Still, the focus of banks on gold lending is a competitive threat to NBFCs, mainly on account of their lower rate of interest.

### NBFCs offer convenience while banks offer lower rates

Source: Company reports, Crisil Intelligence

### Competitive advantage vs other financial products

Before the pandemic, gold loan lenders were competing not just with each other, but also with other financial service providers. A borrower who fit the lender's criteria would opt for a personal loan or credit card, which required no security and were provided online within a few hours with minimal documentation. However, during the peak of the pandemic, gold loans emerged as the most feasible option, as lenders became risk-averse and minimised their exposure to unsecured loans.

### Features differentiating gold loans from personal loans

## HISTORY AND CERTAIN CORPORATE MATTERS

Our Company was originally incorporated as a public limited company known as Muthoot Debt Management Services Limited, pursuant to receipt of a certificate of incorporation dated June 10, 1997, from the ROC. Our Company received a certificate for commencement of business on July 3, 1997. Subsequently, the name of our Company was changed to Muthoot Fincorp Limited and a fresh certificate of incorporation dated March 19, 2002 was issued to our Company by the ROC.

Our Company is registered as a non-deposit accepting NBFC with the RBI pursuant to the certificate of registration No. N-16.00170 dated July 23, 2002 issued by the RBI under Section 45 IA of the RBI Act.

### Registered Office

The Registered Office of our Company is located at Muthoot Centre, TC No. 27/ 3022, Punnen Road, Trivandrum – 695 001, Kerala, India.

### Corporate Office

The Corporate Office of our Company is located at Muthoot Centre, Near Spencer Junction, M.G. Road, Trivandrum – 695 039, Kerala, India.

### Main objects of our Company

The main objects of our Company, as contained in the Memorandum of Association include:

1. To carry on the business of a loan company as per RBI guidelines and to carry on and undertake financing by way of giving loans and/or advances and financing otherwise of the activities of others and to receive money on deposits at interest or otherwise for fixed periods as prescribed from time to time by RBI.
2. To carry on the business of money lending in accordance with the RBI guidelines and other applicable laws in force and also giving loans and advances to the weaker sections of the society at preferential rate of interest subject to the ceiling fixed from time to time as prescribed by the RBI, but the Company shall not carry on the business of banking as defined in The Banking Regulation Act, 1949.
3. To carry on the business as authorised dealer, money changer, offshore banker or any other person for the time being authorised to deal in foreign exchange or foreign securities or such other activities and to undertake cross border inward money transfer activities subject to the rules and regulations of the RBI.
4. To take over as going concern, the business of the partnership firms, Muthoot Bankers with their assets and liabilities, manage their affairs and dissolve the firms after the takeover.
5. To solicit and procure insurance business as corporate agency (composite) in respect of all classes of insurance and to undertake such other activities as are incidental or ancillary thereto as permitted by the Insurance Regulatory and Development Authority of India (IRDAI) under IRDAI (Registration of Corporate Agents) Regulations, 2015 as amended from time to time.
6. To distribute, market or promote other financial products and services and to act as collection agents of non-competing businesses through physical and digital medium.
7. To facilitate safe custody of gold ornaments to customers at the places of business of the Company and to provide locker facility.

The Objects to be pursued by the Company on its incorporation as stated in Clause III A of the Memorandum of Association and matters which are necessary for the furtherance of the objects specified in Clause III A enable our Company to undertake its existing activities and the activities for which the funds are being raised through the Issue.

We have received the following awards:

1. Recognised as the '*Top Rated Financial Services Company*' at the AmbitionBox Employee Choice Awards 2025;

2. Recognised as the '*Top Rated Company for Women*' at the AmbitionBox Employee Choice Awards 2025;
3. Recognised as the '*Top Rated Large Company*' at the AmbitionBox Employee Choice Awards 2025;
4. Recognised as the '*Best NBFC*' at the Tusker Awards 2025;
5. Recognised as one of the '*Top 50 India's Best Workplaces in BFSI 2025*' by Great Place to Work;
6. Recognised as one of the '*Top 50 India's Best Workplaces in Health & Wellness 2024*' by Great Place to Work.
7. Our Company has received a certificate whereunder it has been certified that Muthoot Fincorp Limited is a 'Great Place to Work' The certificate is valid from November 2024 to November 2025.

## **Key terms of our Material Agreements**

### **Material Agreements:**

**I. For sharing of services among the Group Companies, the Company had entered into agreements with various Group Companies. Now, the parties concerned have decided to introduce a concept of Master Service Agreement ("MSA") along with Service Level Agreements ("SLAs") and Business Associate Agreements ("BAs") towards each shared service. As per the same, the general terms and conditions are captured in the MSA and the terms specific to each service, including the agreed commercials, are captured in the SLA. Accordingly, the Company has entered into the following agreements:**

**(a) Master Service Agreement dated April 1, 2019 with Muthoot Capital Services Limited ("MCSL") for sharing / providing various services. The following SLAs and BAs are executed wherein the services shared are detailed:**

- i. SLA dated April 1, 2024 for acting as the broker of MCSL for canvassing Public Deposits and collecting application forms along with the supporting documents from prospective depositors and forward to MCSL.
- ii. SLA dated April 1, 2024 for utilizing the safe custody facility for the gold jewelry pledged with MCSL by its vehicle loan customers at MFL branches;
- iii. SLA dated April 1, 2024 for utilizing the space specifically allotted at branches of the Company;
- iv. BA dated May 13, 2024 for offering services in relation to sourcing of loan applications, pre-screening of the borrower applications and assistance in KYC compliances and credit bureau checks and post sanction or disbursement functions.

**(b) Master Service Agreement dated April 1, 2019 with Muthoot Housing Finance Company Limited ("MHFL") for sharing / providing various services. The following SLAs are executed wherein the services shared are detailed:**

- i. SLA dated April 1, 2019 for utilizing the space specifically allotted at branches of the Company;
- ii. Agreement for Referral Incentive Program for home loan referrals; and
- iii. SLA dated July 22, 2020 for utilizing the space specifically allotted at branches of the Company.

**(c) Master Service Agreement dated February 26, 2019 with Muthoot Pappachan Chits (India) Limited ("MPC IPL") for distributing and collecting chit application forms and collect chit instalments through the branch network of the Company. The following SLA is also executed wherein the services shared are detailed:**

SLA dated April 30, 2019 for utilizing the branch space at Mankavu of the Company.

**(d) Master Service Agreement dated June 23, 2020 with Muthoot Housing Finance Company Limited ("MHFL") for Gold Loan sourcing services. The following SLA is executed wherein the services shared are detailed:**

SLA dated June 23, 2020 for Sourcing Gold Loan Services.

**(e) Space Sharing Arrangements**

As per the above arrangements, among others, the Company has agreed to provide identified physical space located at its branches/ offices at various locations for use of authorised employees/ representatives of MML, MCSL, MHFCL and MPC IPL respectively. The identified premises are being provided for developing and servicing the businesses undertaken and carried on by MML, MCSL MHFCL and MPC IPL.

A gist of the said arrangements is as provided below:

Company	Agreement Date	Live Branches	Total Rent (in ₹) as on March 31, 2025	Period
MML	April 1, 2019	0	Nil	10 (ten) years
	April 1, 2018	1	19,837.50	10 (ten) years
	April 1, 2021	1	20,570	8 (eight) years
MHFCL	April 1, 2019	12	90,529.54	10 (ten) years
	July 22, 2020	1	7,552	10 (ten) years
	January 29, 2020	1	2,784	10 (ten) years
	January 20, 2022	1	4,399	10 (ten) years
	March 23, 2022	1	22,297	9 (nine) years
	August 9, 2022	1	15,910	Upto May 15, 2031
	August 27, 2022	1	9,680	Up to August 31, 2028
	December 1, 2022	1	3,401	Upto June 30, 2032
MCSL	April 1, 2019	5	1,44,688.32	Upto October 31, 2028
MPCIPL	May 10, 2024	1	41,101.65	Up to January 31, 2032
	May, 19 2022	1	19,756	Up to June 30, 2026
	November 1, 2022	1	35,000	Up to May 31, 2025*
	July 15, 2022	1	10,805.30	Up to July 31, 2030

\*the agreement is under renewal

## II. Lease Agreements:

- (a) The Company has entered into lease agreements with MML, MAIPL and Muthoot Motors (Cochin), the details of which are provided below:

Company	Lease Agreement	Location	Rent as on March 31, 2025 (in ₹)	Security Deposit (₹)	Period (Years)
MML	May 1, 2016	Vellanad Junction, Trivandrum	33,095	67,200	10
	February 1, 2016	Vellanad Junction, Trivandrum	21,098.47	40,800	10
	December 1, 2015	Vellanad Junction, Trivandrum	16,196.40	31,320	10
	April 1, 2016	Bandra, Mumbai	16,991.07	-	10
MAIPL	March 29, 2022	Kollam Showroom	5,27,953.74	-	3

- (b) The Company has entered into lease agreements with Group Companies, the details of which are provided below:

Company	Lease Agreement, effective date	Live branches	Rent per month as on March 31, 2025 (in ₹)	Validity up to	Location

**III. Agreement dated March 31, 2016 with MML and Addendum dated November 1, 2016 and January 31, 2017 to the original agreement**

The agreements cover sale of identified assets of the Company, including *inter alia* computers, printers, scanners, office furniture to MML. In consideration of the sale, it has been agreed in the agreement that MML shall pay to MFL a lump sum amount of ₹1,58,75,655. The effective date for sale of assets on which the assets shall be transferred was identified as March 31, 2016 in the agreement. By way of addendum agreements, the Company has further agreed to sell some assets to MML for a lump sum amount of ₹27,73,271 as on November 1, 2016 and ₹25,79,907 as on January 31, 2017.

**IV. Agreement dated January 31, 2022, between the Company and Thomas Muthoot, Whole Time Director (designated as Joint Managing Director), agreement dated January 31, 2022, between the Company and Thomas John Muthoot, Managing Director and agreement dated October 01, 2024, between the Company and Thomas George Muthoot, Whole Time Director (designated as Joint Managing Director).**

Pursuant to the unanimous resolution passed by the board of directors of the Company at its meeting held on January 31, 2022 and the approval of the members of the Company at the extra-ordinary general meeting held on March 28, 2022, the Company had re-appointed Thomas Muthoot as the Whole Time Director (designated as Joint Managing Director) and Thomas John Muthoot as the Managing Director of the Company for a period of five years with effect from February 1, 2022. The said agreements have been entered in connection with their re-appointment. Subsequently, the shareholders of the Company at their meeting held on September 30, 2024, has approved the revision in remuneration of Thomas Muthoot and Thomas John Muthoot.

Further, the shareholders of the Company at the Annual General Meeting held on September 30, 2024, has approved the change in designation of Thomas George Muthoot from Non-Executive Director to Whole Time Director (designated as Joint Managing Director) w.e.f October 01, 2024.

The Company has the right to terminate the services of Whole Time Director and Managing Director by giving not less than three months' notice in writing or three months' salary in lieu thereof.

**V. Agreement in relation to Terms of Inter Se Project Engagement dated December 14, 2015 with MPG Hotels and Infrastructure Ventures Private Limited ("MPG")**

The Company has a valid title over the property as described in the agreement located in Thiruvananthapuram, Desom, Kowdiar Village, Thiruvananthapuram Taluk, and Thiruvananthapuram District. The Company vide the agreement (the "**Development Agreement**") authorised and empowered MPG to develop the said property into a premium residential complex at its own cost as per the specifications, terms and conditions laid down in the agreement (the "**Development**"). MPG has agreed to complete the construction of the flats/ units within 48 months from the date of receiving final building permit from the government agencies/ statutory authorities. In consideration of permitting the Development, MPG shall pay to the Company 30% of the full sale value of each unit while MPG may retain the balance. The parties may terminate the Development Agreement by giving 30 days' written notice to the other party in the event of delay in getting the required building permits within one year from the date of the Development Agreement or MPG failing to commence construction within one year from the date of receipt of building permit or MPG failing to progress the construction according to agreed timelines. The Development Agreement was cancelled vide the cancellation deed dated March 30, 2016. The Development Agreement was cancelled in view of restructuring of project execution. An amount of ₹9,00,000 paid by MPG to the project consultant was instructed to be refunded.

**VI. Agreement for asset management services dated March 30, 2016 with MPG and Amendment letter dated April 25, 2018**

MPG has been appointed as an asset manager for *inter alia* keeping all relevant records/ documents pertaining to the properties of the Company, maintenance of building, compound wall, utility lines, facilitating payment of utility bills etc., and advising regarding prospective business opportunity of the properties. The agreement provides that MPG shall be paid a retainer fee of the amount of ₹1,10,000 plus applicable taxes per month by the Company in consideration of the services with effect from April 1, 2018 as per amendment letter dated April 25, 2018. The agreement may be terminated by either party upon failure of other party to remedy its default in the performance or breach of any terms of the agreement after giving a 30 days' notice, upon occurrence of an irremediable default in the performance or breach of terms by the other party or on the other party becomes insolvent or bankrupt or makes a composition with its creditors.

**VII. Agreement dated April 1, 2020 with Muthoot Pappachan Technologies Limited ("MPTL") for providing consultancy, advisory, and other services to MFL**

Pursuant to the aforementioned agreement the Company is desirous of engaging MPTL to provide consultancy, advisory, and other services related to IT and also providing training to its staff on IT and related activities. The Company is required to pay fee for the services availed from MPTL in accordance with the agreement. The period of the agreement is for five years, commencing April 1, 2020. Either party would have the right to terminate the agreement by giving thirty days' notice in writing to the other party.

**VIII. Loan to Directors**

As on March 31, 2025, there are no outstanding loans that have been provided by the Company to the directors.

**Key terms of our other key agreements**

NA

## OUR BUSINESS

*In this section any reference to “we”, “us” or “our” refers to Muthoot Fincorp Limited. Unless stated otherwise, the financial data in this section is according to our Audited Financial Statements, prepared in accordance with the requirements of the SEBI NCS Regulations and the Companies Act set forth elsewhere in the Tranche VI Prospectus.*

*The following information should be read together with the more detailed financial and other information included in this Tranche VI Prospectus, including the information contained in the chapter titled “Risk Factors” on page 19.*

### Overview

We are, middle layer NBFC (“**NBFC ML**”) registered with the RBI bearing registration no. N-16.00170 dated July 23, 2002 under Section 45 IA of the RBI Act. Our Company is also registered to act as a Corporate Agent (Composite) under the Insurance Act, 1938. Our Company is one of the prominent gold loan players in the Indian market. The personal and business loans secured by gold jewellery and ornaments (“**Gold loans**”) offered by our Company are structured to serve the business and personal purposes of individuals who do not have ready or timely access to formal credit or to whom credit may not be available at all, to meet unanticipated or other short-term liquidity requirements.

The Gold loan portfolio of our Company as of March 31, 2025 and March 31, 2024 comprised approximately 34.00 Lakhs and 30.46 lakhs loan accounts. As of March 31, 2025, our Company operated out of 3,736 branches located across 25 states, including union territory of Andaman and Nicobar Islands and the national capital territory of Delhi and employed 26,723 employees including 92 contracted experts in its operations.

We have been engaged in the Gold loans business for over two decades and are headquartered in Kerala, India. Our Company provides retail loan products, primarily comprising of Gold loans. Our Gold loan products include Muthoot Blue Super Value Loan, Swarna Sureksha Super Value, Easy Blue, Easy Max, Easy Pro, Restart India Pradhan, Easy Scale up and 24x7 Express Gold loan. The product of our Company, the “24x7 Express Gold loan” can be utilised by individuals who require quick loans against their gold jewellery and who have an existing loan with the Company. This is a type of top up loan.

For the Fiscal 2025, Fiscal 2024 and Fiscal 2023 revenues from our Gold loan business constituted 76.71%, 85.76% and 92.09% of our total income on standalone basis as per Ind AS, respectively. For the Fiscal 2025, Fiscal 2024 and Fiscal 2023, the gold loan portfolio of our Company earned an interest of ₹ 4,25,797.76 lakhs, ₹ 3,44,395.44 lakhs and ₹ 3,21,521.00 lakhs on standalone basis as per Ind AS, respectively.

In addition to the Gold loan business, our Company provides foreign exchange conversion and money transfer services as sub-agents of various registered money transfer agencies. Our Company is also engaged in following business:

- i. generation and sale of wind energy through its wind farms located in Tamil Nadu;
- ii. real estate business through joint venture developers of the company owned land parcels; and

Furthermore, our Company has also obtained the Certificate of Registration dated January 16, 2025 to act as Corporate Agent (Composite) for the period January 16, 2025 to January 15, 2028 from the Insurance Regulatory and Development Authority of India.

### Main Business of our Subsidiary Companies

Our Company’s subsidiaries are engaged in the following businesses:

- i. our subsidiary Muthoot Housing Finance Company Limited providing affordable housing loans; and
- ii. our subsidiary Muthoot Microfin Limited, providing micro credit facility to aspiring women entrepreneurs;
- iii. Our Subsidiary Muthoot Pappachan Technologies Limited providing IT services.

Our Company is also authorised to act as a depository participant of CDSL as category II.

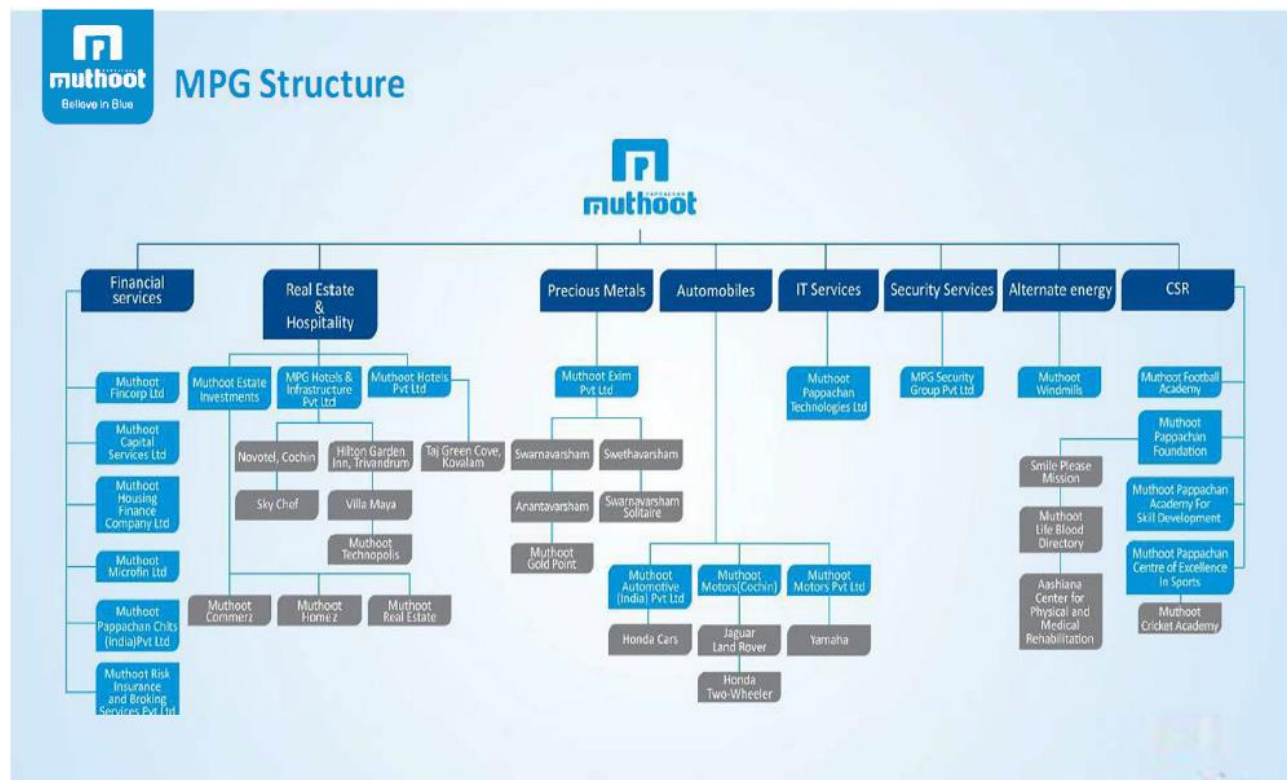

Our Company is a part of the “Muthoot Pappachan Group” which has diversified business interests ranging from hospitality, financial services, infrastructure for information technology, automobile sales and services and real estate.

Our gross loans under management as of March 31, 2025, March 31, 2024 and March 31, 2023 was ₹ 26,03,164.78 Lakhs, ₹ 21,71,234.13 lakhs and ₹ 17,61,507.49 lakhs, respectively, on a standalone basis as per IndAS. As of March 31, 2025, March 31, 2024 and March 31, 2023 our Company held 43.69 tonnes, 48.21 tonnes and 48.01 tonnes, respectively, of gold jewellery, respectively, as security for all gold loans.

Our capital adequacy ratio as of March 31, 2025, March 31, 2024 and March 31, 2023 computed on the basis of applicable RBI requirements was 19.50%, 20.01% and 21.34% respectively, on standalone basis as per Ind AS, compared to RBI stipulated minimum requirement of 15%, with Tier I Capital comprising 15.85%, 15.87% and 16.48%, respectively.

Our Stage 3 Assets as a percentage of total loan assets as per Ind AS was 1.98%, 1.62% and 2.11% as of March 31, 2025, March 31, 2024 and March 31, 2023, respectively. Our Stage 3 Assets net of Stage 3 Provision as per Ind AS as on March 31, 2025, March 31, 2024 and March 31, 2023 were 1.28%, 0.64% and 0.58 %, respectively, on a standalone basis.

## Our Group Structure

## Our Competitive Strengths

We believe that the following competitive strengths position us well for continued growth:

***The Company is one of the largest Indian NBFCs engaged primarily in the Gold loans business in terms of the size of our Gold loans portfolio. Accordingly, we have extensive experience and a strong brand image and track record in the Gold loans business across India.***

We believe that the “Muthoot Pappachan” and the “Muthoot Fincorp” brands are well established in the Gold loans business predominantly in South India. We have been engaged in the Gold loans business for over 20 years (twenty years) and as an NBFC specializing in the Gold loans business, we believe that we have created a niche in the Gold loans market by meeting the expectations of a typical Gold loan customer. Our Company is one of the key players in the gold loan industry (Source: Crisil Report). A typical Gold loan customer expects rapid and accurate appraisals, easy access, low levels of documentation and formalities, quick approval and disbursal of loans, lockers to ensure safety of pledged gold and a team of expert valuers. We believe we meet those expectations. We attribute our growth, in part, to our market penetration, particularly in areas less served by organised lending institutions and the efficient and streamlined procedural formalities which our customers need to complete in order to complete a loan transaction with us, which makes us a preferred medium of finance for our customers. Our targeted focus on the otherwise fragmented nature of this market segment, widespread branch network particularly in South India, as well as our large customer base has enabled us to build a strong brand. We

also attribute our growth to customer loyalty which in turn leads to repeat business. We believe that a large portion of our customer base returns to us to avail credit facility when they are in need of funds. Our efficient credit approval procedures, credit delivery process and Gold loan products designed to suit the requirements of our customers have also aided in increasing customer loyalty which in turn leads to repeat business.

#### ***Widespread Branch Network and Strong Presence in South India***

As on March 31, 2025, the Company had 3,736 branches located across 25 states, including union territory of Andaman and Nicobar Islands and the national capital territory of Delhi, with a significant presence in South India. The customers of the Company are typically retail customers, small businessmen, vendors, traders, farmers and salaried individuals, who for reasons of convenience, accessibility or necessity, avail of our credit facilities by pledging their gold with us rather than by taking loans from banks and other financial institutions. A significant proportion of the Company's branches are located in rural locations and in semi-urban locations. We believe that we have a wide reach in rural markets as compared with other competition in this category. This reach in rural and semi-urban locations gives the Company an added advantage of being able to reach out to a large set of potential rural customers. Having such a network enables us to service and support our existing customers from proximate locations which gives our customers easy access to our services and enables us to reach new customers especially potential rural customers. We believe we can leverage on this existing network for further expansion and for fulfilling our customer requirements.

#### ***High-quality customer service and short response time***

The products and services of the Company are aligned to the lifestyle needs of its customers. We adhere to a strict set of market survey and location guidelines when selecting branch sites to ensure that our branches are set up close to our customers. We believe that our customers appreciate this convenience, as well as extended operating hours that we typically offer, which are often more compatible with our customers' work schedules. Various loan products tailor made for MSME and salaried / household segments are offered. In addition to the physical environment, it is equally important to have professional and attentive staff at both the branch level and at our regional and centralised customer support centers. Each of the Company's branches across India is staffed with persons who possess local knowledge and understanding of customers' needs and who are adequately trained to appraise collateral and disburse loans within a few minutes. Although disbursement time may vary depending on the loan ticket size and the number of items pledged, we endeavour to service the customers within a short span of time.

#### ***Access to a range of cost-effective funding sources***

The Company predominantly access capital/ funding by means of term loans from banks, issuances of redeemable non-convertible debentures on a private and or public placement basis, issuances of commercial paper and cash credit facilities from banks including working capital loans. The Company has in the past issued secured redeemable non-convertible debentures on a private placement basis as a means to access capital/funding for its Gold loan business. The Company utilises funds from a number of credit providers, including nationalized banks and private Indian banks, and its track record of prompt debt servicing has allowed it to establish and maintain strong relationships with these financial institutions. The Company also issued subordinated debt which is considered as Tier II Capital of the Company. The Company has /undertaken securitization/ assignment transactions to increase the efficient use of its capital and as a cost effective source of funds. As of March 31, 2025, the total outstanding secured borrowings aggregated to ₹ 22,37,974.84 lakhs and total outstanding unsecured borrowings by our Company aggregated to ₹ 3,47,483.08 lakhs and outstanding securitization (pass through certification) is Nil.

As on date of this Tranche VI Prospectus, the Company has been assigned Crisil AA-/Stable rating by Crisil for our bank facilities, Crisil AA-/Stable rating by Crisil and BWR AA-/(Stable) rating by Brickworks for its various non-convertible debt instruments, Crisil A+/Stable rating by Crisil for ₹ 84,900 lakh perpetual bonds and BWR A+/Stable rating by Brickworks for ₹ 37,400 lakh perpetual bonds and Crisil A1+ rating by Crisil for its short term debt programme.

#### ***Experienced senior management team and a skilled workforce***

The Board of Directors consists of nine Directors (including the Promoters) with extensive experience in the financial service sectors. The Promoters and key managerial personnel have significant experience and in-depth industry knowledge and expertise. In order to strengthen the credit appraisal and risk management systems, and to develop and implement credit policies, the Company has hired a number of senior managers who have extensive experience in the Indian banking and financial services sector and in specialized finance firms providing loans to retail customers.

Further, the Company has been successful in attracting, fostering and retaining the best talent. The recruitment and business

strategy has been seamlessly aligned right through the years and this strong pool of talent gives the Company a competitive edge in its growth. For recruiting, the Company has a well laid down recruitment policy which includes minimum standards that a prospective candidate should meet. The prospective candidate is rated on various factors like qualifications and academic knowledge, communication skills, family background, experience in relevant field, personality, mental ability and behavioral competencies. The employee welfare initiatives like provident funds, group mediclaim policy etc. ensures a conducive work environment for all. To uphold its performance-oriented culture, the Company conducts training programmes and online skill assessments on a periodic basis, continuously monitoring and augmenting the performance level of the employees.

## **Our Strategies**

The business strategy of the Company is designed to capitalize on its competitive strengths and enhance its market position. Key elements of its strategy include:

### ***Further grow our Gold loan business***

Historically, Indians have been one of the largest consumers of gold due to the strong preference for gold jewellery among Indian households and its widespread use as a savings instrument. Rural India population views investment in gold as a fallback option in the times of need. As a result, the market for Gold loan financing in India is largely untapped and offers good potential for further growth.

We intend to increase our presence in under-served rural and semi-urban markets, where a large portion of the population has limited access to credit either because they do not meet the eligibility requirements of banks or financial institutions, or because credit is not available in a timely manner at reasonable rates of interest, or at all. A typical Gold loan customer expects rapid and accurate appraisals, easy access, low levels of documentation, quick approval and disbursement and safekeeping of their pledged gold. We believe we meet those expectations, and thus our focus is to expand our Gold loan business.

### ***Expansion of business into Tier 2 and Tier 3 towns and in select Tier 1 cities across India***

In addition to our continuing focus on rural and semi-urban markets in the states that we are present, we are also focusing on opening branches in Tier 2 and Tier 3 towns and in select Tier 1 cities where we believe our business has high growth potential. We carefully assess the market, location and proximity to target customers when selecting branch sites to ensure that our branches are set up close to our target customers. We believe our customers appreciate this convenience and it enables us to reach new customers.

### ***In-house training capabilities to meet our branch requirements***

The Company has been continuously investing in developing advanced learning solutions for preparing its employees for the future as well as to equip them with necessary skills to cater to the ever-increasing needs of its customers. The training department is functioning under the Department of Training & Development. The department understands that it has a key role to play in keeping the employee's aspirations and organizational goals aligned. They work on the principle that better knowledge helps employees to serve customers better.

### ***Target new customer segments***

The market for our loan products was traditionally confined to lower and middle income groups, who viewed Gold loans as an option of the last resort in case of emergency. We intend to undertake sustained marketing efforts to diminish the stigma attached to pledging gold jewellery in India. We intend to emphasize our Gold loan products' key advantages of expediency and minimal documentation and alter the image of Gold loans from an option of the last resort to an option of convenience.

### ***Strengthening our Brand Equity***

Staying true to our purpose "To transform the life of the common man by improving their financial well-being", which stems from the life and values of our founder Pappachan Muthoot, we have constantly strived to "**Empower Human Ambitions (our Group Credo)**", by offering our customers with innovative and simple products, in sync with their needs and desires.

We, at Muthoot Pappachan Group, or as we are fondly called "**Muthoot Blue**", believe in supporting and giving wings to

the “ambitions” of all our customers. Our un-flinching adherence to our Group Credo and core values of – integration, collaboration and excellence, all under our over-arching value of TRUST, made us come up with our Brand Positioning – **“Blue Is Belief”**. Blue is the color of the sea and the sky; it is all pervasive, all encompassing. In line with this definition of “Blue”, we have our brand positioning of **“Blue Is Belief”**, the belief that we can fly higher, the belief that there is so much more to achieve!

Recently we announced our association with Shah Rukh Khan as our newest brand ambassador with Book My Gold Loan campaign aimed at spreading word on how the new initiative helps make Gold Loans more accessible and convenient for the customers. This groundbreaking campaign introduces a first-of-its-kind service in India: book a Gold Loan instantly, anytime, from anywhere. The newly launched feature allows customers to initiate loans with a simple missed call, integrating advanced technology with exceptional customer service. This campaign was broadcasted in Hindi, Tamil, Malayalam, Telugu, Kannada, Marathi, Bengali and Gujarati. It encompassed out of home advertising (OOH), digital platforms, television, print, and on-ground activations, ensuring a widespread reach and pan-India impact.

Our Company had a title sponsorship for the Royal Challengers Bangalore (RCB) for three consecutive seasons of the Indian Premier League until February 01, 2023. Our comprehensive advertising campaigns across multiple channels significantly heightened our brand visibility.

### ***Continue to implement advanced processes and systems***

We have invested and continue to invest in latest technology, systems and processes to create a stronger organization and ensure good management of customer credit quality. Our information technology strategy is designed to increase our operational and managerial efficiency. We have planned to upgrade our CRM systems to serve our customers with even better services and faster turnaround time. With this system we have planned to integrate all our group company systems to provide One Muthoot Blue Customer experience. Planning to enhance our analytics capabilities to extract deeper insights about customers which would help us in designing better products and services for them.

### ***Digitalization and ecosystem partnership***

In an attempt to modernize their IT infrastructure, the Muthoot Pappachan Group has tied up with UST Global for outsourcing of our IT infrastructure as a turnkey management solution, thus embarking on the path of digitalization. This new state-of-the-art IT infra will enable powerful new age applications which will drive growth/customer experience and allow us in focusing on our core business.

In the recent times fintechs, working in the domain of digital lending are experiencing the demand of gold loans. We are partnering with such digital players to enhance the distribution network of our company’s product and services. Muthoot Fincorp along with its associated companies has acquired stake in Speckle Internet Solutions Private Ltd (**“Paymatrix”**), a Fintech start-up through a combination of primary and secondary investment, with an objective to play a key role in the growth plan of our Digital initiatives. Paymatrix will be our delivery vehicle to create and incubate any new digital platform/product.

Our Company has also launched Muthoot FinCorp ONE, an all-in-one digital financial platform that has simplified getting an MSME loan and a gold loan, investing in eSwarna Digital gold and non-convertible debentures, making payments and remittances, buying insurance and exchanging forex. This platform has helped in building a holistic financial ecosystem using the latest digital products for lending, investing, protection and payments. The platform allows QR based lending which is helpful in reaching the target audience. Our Company partners with various UPI payment platforms to offer loans to eligible customers. Additionally, we offer equated daily instalment loans that are an integrated product designed to provide a seamless experience for merchants through the partner platform. These loans aim to reduce the repayment burden by splitting payments into daily instalments, which are deducted from the customer’s QR settlement account on the partner platform. The platform also allows easy repayment. The complete loan application process is digitally stitched across partner platform and our company’s system.

### ***Strengthen our operating processes and risk management systems***

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold loan business. The objective of our risk management systems is to measure and monitor the various risks we are subject to and to implement policies and procedures to address such risks. We intend to continue to improve our operating processes and risk management systems that will further enhance our ability to manage the risks inherent to our business. We have internal audit systems which consists of audit and inspection, for risk assessment and internal controls. The audit system comprises of accounts audit and gold appraisal. In accordance with our internal audit policy, all of our branches are subject to surprise

gold audit every month and accounts audit once in very four months. Further the staffs are strictly advised to make the acid test, sound test etc., at the time of making the pledge for checking whether the ornament is of acceptable quality or not. For example, we have commenced installing offsite surveillance cameras in our branches and intend to implement this across our branch network. Tamper evident envelopes have also been introduced in all branches across the country to reduce frauds.

We have invested in our technology systems and processes to create a stronger organization and ensure good management of customer credit quality. Our information technology strategy is designed to increase our operational and managerial efficiency. We continue to implement technology led processing systems to make our systems and processes more efficient to augment the benefits of our relationship based approach. We also believe that deploying strong technology systems will enable us to respond to market opportunities and challenges swiftly, improve the quality of services to our customers, monitor our process and performance and improve our risk management capabilities.

Please see sections titled “Risk Factors” and “Outstanding Litigations and Defaults” on pages 19 and 216, respectively.

### Key Operational and Financial Parameters on a consolidated basis

The table below sets out the key operational and financial parameters of the Company on a consolidated basis as of Fiscal 2025, Fiscal 2024 and Fiscal 2023 as per Ind AS:

(₹ in lakhs)			
Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
<b>BALANCE SHEET</b>			
<b>Assets</b>			
Property, Plant and Equipment	51,119.76	47,751.65	45,646.57

#### Our Company's Business

##### Gold loans

Our core business is disbursement of Gold loans, which are typically small ticket loans secured by the pledge of gold jewellery. As of March 31, 2025 and March 31, 2024, we had approximately 34.00 lakh and 30.46 lakh Gold loan accounts, aggregating to ₹ 22,08,499.13 lakhs and ₹ 19,50,206.75 lakhs, which comprised 84.84% and 89.82% of our total loan portfolio, respectively.

For the Fiscal 2025, Fiscal 2024 and Fiscal 2023 revenues from our Gold loan business constituted 76.71%, 85.76% and 92.09%, of our total income on standalone basis as per Ind AS, respectively. For the Fiscal 2025, Fiscal 2024 and Fiscal 2023 our Gold loan portfolio yield (representing interest income on gold loans as a percentage of average outstanding of Gold loans), were 20.48%, 20.01% and 20.12% per annum, respectively, on standalone basis as per Ind AS.

### ***Loan disbursement process***

#### *Initial Evaluation and Loan Origination Process*

The principal form of security that we accept is wearable, household, used, gold jewellery. While these restrictions narrow the pool of assets that may be provided to us as security, we believe that it provides us with the key advantages. It filters out spurious jewellery that may be pledged by jewellers and goldsmiths. We find that household, used jewellery is less likely to be spurious or fake. The emotional value attached by each household to the pledged jewellery acts as a strong incentive for timely repayment of loans and revoking the pledge. As we only accept the pledge of household jewellery, the value of the pledged gold is typically only as much as the worth of gold that is owned by an average Indian household. This prevents our exposure to large sized loans where the chances of default and subsequent losses are high.

The amount that we finance against the pledged gold jewellery is typically based on a fixed rate per gram of gold content in the jewellery. We value the gold jewellery brought by our Gold loan customers based on our centralized policies and guidelines. We lend up to 75% of the 22 carat gold price based on 30 day average Mumbai Bullion Association price of 22 carat gold as per the recent RBI guidelines. While accepting the gold as collateral, as per the applicable regulatory norms, the Company gives a certificate of estimated purity of the appraised gold to the customer. If the gold is of purity less than 22 carats the Company translates the collateral into 22 carat and specifies the exact grams of the collateral. In other words, jewellery of lower purity of gold is valued proportionately. The certified purity is applied for determining the maximum permissible loan and the reserve price for auction. While jewellery can be appraised based on a variety of factors, such as total weight, weight of gold content, production cost, style, brand and value of any gemstones, we appraise the gold jewellery solely based on its gold content. Our Gold loans are therefore generally well collateralized because the actual value of the gold jewellery is higher than our appraised value of the gold jewellery when the loan is disbursed.

The amount we lend against an item and the total value of the pledged gold we hold fluctuates according to the market price of gold. However, an increase in the price of gold will not automatically result in an increase in the value of gold brought in by potential customers unless the rate per gram is revised by our corporate office. Similarly, since adequate margins are built in at the time of the loan disbursement and owing to the short tenure of these loans on average, a decrease in the price of gold generally has little impact on our interest income. However, a sustained decrease in the market price of gold could cause a decrease in the growth rate of Gold loans in our loan portfolio and interest income.

Gold loans are sanctioned only to genuine borrowers. Before sanctioning the Gold loan, the branch manager takes all precautions to ensure that the applicant, pledging the ornaments, is the owner of those ornaments and that the borrower is genuine. The branch manager obtains ID proof and photograph of the borrower and makes reasonable enquiry about the residence, job, personal details, ownership of the ornaments etc. and makes a note in the pledge form. We also undertake a field verification to authenticate the genuineness of the borrower in case of high value Gold loans. Since the disbursement of loans is primarily based on the value of collateral, the customer's creditworthiness is not a factor in the loan decision. However, we comply with 'know your customer' ("KYC") norms adopted by the Board of Directors and require proof of identification and address proof. Compliance with the KYC policies ensures that the personal data provided by a particular customer is accurate. We also photograph customers with web-cameras installed in our branches at the time of each pledge. For all loans, the customer must produce the original document that confirms the customer's identity and address, which could be a Government issued document, such as a passport, driver's license, Permanent Account Number ("PAN") card, election card or ration card. The KYC details (including proof of identity and the customer's photograph) are maintained electronically at every branch. The unique customer identification code (UCIC) provided to every customer ensures that the customer need not provide the ID proof again in future instances. For loans above ₹5,00,000 and below ₹10,00,000, the customer's gold is checked for its authenticity by our team of gold inspectors in the immediate vicinity or senior staff in nearby branch, followed by a background verification by the vigilance team after disbursal of the loan. For loans above ₹10,00,000 the gold is inspected by a gold inspector and the background of the customer is checked by our vigilance team before disbursal of the loan. Pursuant to the circular dated September 16, 2013 issued by the RBI, Gold loan NBFCs have been mandated to insist on a copy of the PAN card of the borrower for all transactions above ₹5,00,000. Further, where the gold jewellery pledged by a borrower at any one time or cumulatively on loan outstanding is more than 20 grams, NBFCs must keep record of the verification of the ownership of the jewellery. Our internal policies have been suitably modified.

#### *Loan Approval process*

The first step in the process is the appraisal and evaluation of the gold to be used as security for the Gold loan. Each of our branches has designated personnel for gold appraisal who operate in accordance with a clear policy regarding their function and responsibilities. The initial appraisal is performed by a trained employee who has experience in appraising the gold content of jewellery. The initial appraisal is then verified by another trained employee. This process involves several principal tests, which include the nitric acid test, the touchstone test and filling test. For loans above ₹5,00,000 and below ₹10,00,000, the customer's gold is checked for its authenticity by our team of gold inspectors in the immediate vicinity or senior staff in nearby branch, followed by a background verification by the vigilance team after disbursement of the loan. For loans above ₹10,00,000 the gold is inspected by a gold inspector and the background of the customer is checked by our vigilance team before disbursement of the loan. The gross weight of the gold jewellery is determined by weighing the jewellery. An amount in connection with the purity of the gold as also the weight is deducted from the gross weight to arrive at net weight. We have determined a constant percentage deduction that applies depending on the purity of the gold, which is based on the proportion of gold contained in the jewellery in relation to other metals. As purity decreases, the percentage deduction to the gross weight for arriving at the net weight increases. The weight of stones and other material that is embedded in the jewellery is also deducted from the gross weight to determine the net weight.

During the appraisal and evaluation, the customer fills the application form in his handwriting. Details required in the application form in connection with the gold purported to be provided as security are thereafter recorded by an appraiser after the gold has been appraised and evaluated. The application is then signed by both the customer and the appraiser/staff. The pledge form is then printed, one copy is maintained with the branch, and one copy is handed over to the customer. The disbursement of the loan from our branches at this stage is immediate. Loans of ₹ 20,000 and above are disbursed only by way of bank transfer or cheque. The gold items are then packed and immediately stored in the strong room. We also have an option of transferring the amount to the customer's bank account for loans less than ₹ 20,000. Our Company provides loans up to 75.00% of the value of the gold jewellery based on the 30 day average Mumbai Bullion Association price of 22 carat gold as per the recent RBI guidelines. The remainder 25.00% is set aside as margin for the loan extended.

#### Post disbursement process

##### *Custody of gold collateral*

The Gold ornaments pledged by the customers are kept in specially made tamper evident envelopes supplied to the branches for this purpose and then in plastic cover and then kept in a brown cover and sealed with a numbered sticker made for this purpose. The sticker no. is also entered in the system at the time of pledge. The details of the ornaments like item description and weight are noted on the packets. These ornaments are appraised by the appraiser and verified by the branch manager and joint custodian. The packets are then kept inside steel almirahs with a dual lock system in the strong room. When the packets/covers are kept inside, entry is made in the securities register which is also kept inside the strong room. In some of our branches where sufficient space is not available for building a strong room, the gold ornaments are stored in safes. The safes and strong rooms in which the gold jewellery is kept are built as per industry standards and practices. Pursuant to the circular dated September 16, 2013 issued by the RBI, the business of granting loans against the security of gold cannot be transacted at places where there are no proper facilities for storage/security of the gold jewellery. Further, no new branches can be opened without suitable storage arrangements having been made thereat.

##### *Inventory control*

The ornaments pledged are stored in serially numbered packets and entry is made in securities register under the joint signatures of the branch manager and the joint custodian. Entries are also made in this register at the time of release of the pledged ornaments. The cumulative number of packets inside the strong room as per the securities register is verified and tallied with the consolidated stock statement generated from the system at the end of the day, on a daily basis. The stock statement is also verified and tallied with the general ledger on the last working day of the month and at the time of internal audit and gold inspection.

##### *Branch security and safety measures*

Ensuring the safety and security of the branch premises is vital to our business since our cash reserves and gold inventory are stored in each branch. Our branch security measures mainly comprise the following:

1. Strong rooms where the gold ornaments and cash are kept are constructed as per RBI specifications.
2. Majority of our branches are provided with burglar alarms and fire alarms.
3. Security guards are deployed in 800 branches on the basis of potential security risks.

4. Surveillance systems consisting of CCTV cameras have been installed in a majority of our branches.
5. We have introduced ERT (Emergency Response Team) to ensure security of our branches and currently they cover 1,500 MFL branches, during night time. Each ERT will have 2 able-bodied male members in the age group of 25 to 45 years and they perform duties as Driver-cum-Guard. Each team will be entrusted with a cluster consisting of about 20 to 25 branches & these branches will be visited during night time. The ERT personnel will move around the branches in Branded and GPS enabled four-wheeler vehicles and check the surroundings to ensure the security and safety of branches and premises. ERT personnel are given class-room training and practical training by experienced officers in MPG SG who are retired officers either from Police or Military Forces. ERT Training, Reporting, Action Process, Monitoring, Documentation and Follow-up actions are conducted as per the Standard Operating Procedure (SOP) and Training Manual specially prepared by the MPGSG. Since the ERT vehicles are GPS enabled, it helps the Regional Control Rooms to effectively track and monitor its movements & performances.
6. We have 9 Regional Control Rooms across India to monitor the security and safety of our Branches, offices, sites, and valuable assets therein. All these Control Rooms (RCRs) are under the direct supervision and control of respective S&V Managers and Central Control Room (CCR) functioning at Thiruvananthapuram. In addition, we have another Control Room (Corporate Office Control Room) at our HO for facilitating, coordinating, and expediting variety of functions assigned to it by the Corporate Office, Senior Officials, Management Heads etc. All these 11 Control Rooms are in operation on all days on 24 x 7 basis and are manned by Retired Military Personnel.

#### *Collection and Recovery Processes*

At present our Gold loans have a tenure that vary from six-months to 12 months, however, customers may redeem the loan at any time prior to the full tenure. As per the current policy of our Company, interest is to be paid in accordance with the scheme. In the event that a loan is not repaid on time and after providing due notice to the customer, the unredeemed pledged gold is disposed of, on behalf of the customer in satisfaction of the principal and interest charges in accordance with the applicable RBI guidelines. Any surplus arising out of the disposal of the pledged gold is refunded to the customer or is appropriated towards any other liability by the borrower. In the event that the recoverable amount is more than the realisable value of the pledged gold, the customer remains liable for the shortfall.

Our Company has an internal collection process wherein a customer is intimated by means of short messaging service and phone calls in the event of defaults in repayment in a timely manner. When a customer does not repay a loan on or before its maturity, we initiate the recovery process and dispose off the pledged gold to recover the amount owed to us, including both the principal and accrued interest. Before initiating the recovery process, we inform the customer through registered letters or legal notices. We advise and encourage the customers to service the interest regularly to avoid migration of interest rates to higher slabs. Gold ornaments pledged with the company, if not redeemed within a period of 9 months / 12 months from the date of pledge, will be disposed by the company by way of public auction, after the expiry of 9 months/ 12 months (as the case may be) and seven days of grace. The Company will give due notice of auction to the customer by way of registered post/courier at least 15 days before the date of auction. Details about the auction will be published in a vernacular newspaper and also in a national daily.

Pursuant to the circular dated September 16, 2013 issued by RBI, the following additional stipulations have been made in respect to auctioning of gold jewellery:

1. Auction should be conducted in the same town or taluka in which the branch that has extended the loan is located;
2. While auctioning the gold, NBFCs have been mandated to declare a reserve price for the pledged ornaments. The reserve price for the pledged ornaments should not be less than 85% of the previous 30 day average closing price of 22 carat gold as declared by BBA and value of the jewellery of lower purity in terms of carats should be proportionately reduced;
3. NBFCs have been mandated to provide full details of the value fetched in the auction and the outstanding dues adjusted and any amount over and above the loan outstanding should be payable to the borrower; and
4. NBFCs shall disclose in their annual reports, the details of the auctions conducted during the Financial Year including the number of loan accounts, outstanding amounts, value fetched and whether any of its sister concerns participated in the auction.

Apart from Gold loans, we also provide financial assistance to MSMEs and salaried personnel.

### **Muthoot Small Business Loans:**

These are business loans where target customers engaged in micro business sector (micro & small sectors) mostly in trading and service sectors. MSME loans offer a minimum loan amount of ₹25,000 and maximum loan amount of ₹5,00,000 respectively for various fund requirements like working capital needs, expansion of business etc. at nominal rates of interest and with daily instalment or monthly instalment options. MSME Small business loans are tailor made to manifest company's vision to assist the common man to fulfil their business dreams and would contribute to the larger cause of financial inclusion.

<b>Minimum CIBIL score</b>	700		
<b>Constitution</b>	Individual Proprietorship Partnership Pvt Ltd company		

### **Digital Loans (QR Based Loans):**

MFL also provides unsecured digital loans via Muthoot FinCorp ONE (an all-in-one digital financial platform) to its target audience i.e small merchants, traders, etc. The company partners with various UPI payment platforms to offer loans to eligible customers. Additionally, we offer equated daily instalment loans that are an integrated product designed to provide a seamless experience for merchants through the partner platform. These loans aim to reduce the repayment burden by splitting payments into daily instalments, which are deducted from the customer's QR settlement account on the partner

platform. The platform also allows easy repayment. The complete loan application process is digitally stitched across partner platform and our company's system.

Particulars	Digital (QR Based Loans)
Onboarding	Digital
Type of Facility	Unsecured
Loan Amount	Rs.5000 – Rs. 5Lakhs
Tenure	6-18 months
Repayment	EDI (equated daily instalment)

## Other Business Initiatives

### *Money Transfer and Foreign Exchange Conversion Services*

We provide fee-based services including money transfer and foreign exchange services for the Fiscal 2025, Fiscal 2024 and Fiscal 2023, our money transfer and foreign exchange services business generated ₹ 1,718.75 lakhs, ₹ 1471.45 lakhs and ₹ 987.26 lakhs, which forms 0.31%, 0.37% and 0.28% of our total income, respectively, on a standalone basis as per Ind AS. We act as direct agents for Western Union Money Transfer and as sub-agents to Indian representatives and enter into representation agreements for inward money transfer remittance. Under these agreements, we are entitled to receive a commission for the services provided depending on the number of transactions or the amount of money transferred and the location from which the money is transferred to us.

### *Wind Energy*

For the Fiscal 2025, Fiscal 2024 and Fiscal 2023 income from our windmills business was ₹ 919.43 lakhs, ₹ 886.41 lakhs and ₹ 879.84 lakhs which forms 0.17%, 0.22% and 0.25%, respectively, of our total income on a standalone basis as per Ind AS.

### *Other loans*

Our Company has in the past disbursed loans secured against non-convertible debentures of the Company held by customers (issued on a private placement basis). However, pursuant to the guidelines on private placement introduced by the RBI, we will no longer be able to disburse such loans. As on March 31, 2025, March 31, 2024 and March 31, 2023, Nil, Nil and Nil out of such loans remained outstanding. Further, our Company has also disbursed certain loans secured by a charge over immovable property.

### *Third party businesses*

Pursuant to agreements entered into between the Company and some of its Group entities, the Company's branches/ premises and officials are utilised in connection with the business operations of the Group entities such collection and disbursal of loans and sale of jewellery etc. The Company is entitled to a specific fee/ commission pursuant to these agreements. For further details, see section titled "History and Certain Corporate Matters – Material Agreements" and "Financial Statements" on pages 114 and 165, respectively.

## Our Company's Operations

### **Business Outlet Network**

Over the years our Company has established a pan-India presence, with 3,736 branches located across 25 states, including union territory of Andaman and Nicobar, and the national capital territory of Delhi (as of March 31, 2025), with a significant presence in south India. The distribution of branches across India by region as of March 31, 2025, March 31, 2024 and March 31, 2023 is as set out in the following table:

State	As of		
	March 31, 2025	March 31, 2024	March 31, 2023
Andaman & Nicobar	4	4	4
Assam	3	3	3
Andhra Pradesh	347	347	344
Delhi	122	111	110
Goa	11	11	11

State	As of		
	March 31, 2025	March 31, 2024	March 31, 2023
Gujarat	125	125	116
Haryana	78	78	73
Jharkhand	7	7	7
Karnataka	549	549	549
Kerala	708	759	759
Madhya Pradesh	51	51	46
Maharashtra	211	199	193
Orissa	68	68	56
Punjab	80	80	79
Rajasthan	91	69	65
Tamil Nadu	769	771	771
Telangana	257	257	251
Uttar Pradesh	106	69	62
Uttarakhand	8	6	5
West Bengal	89	89	88
Chattisgarh	3	3	2
Bihar	32	11	9
Himachal Pradesh	2	2	2
Jammu & Kashmir	1	1	1
Pondicherry	14	13	13
<b>Total</b>	<b>3,736</b>	<b>3,683</b>	<b>3,683</b>

As of March 31, 2025, the Company employed 26,723 employees including 92 contracted experts in its operations. Most of our branches operate with one branch manager and at least three customer service executives depending upon the transaction volumes in that branch. In addition to the customer service executives, certain branches also have a relationship manager. Further, each branch falls under the purview of an area manager, such area manager being in charge of a group of branches. The area managers report to a regional manager and all the regional managers in a particular State report to the relevant Zonal head.

The core role of each of our branches is to co-exist as sales cum servicing points for all the needs of our Gold loan customers. The branch manager and the senior most customer care executive act as the joint custodian for such gold jewellery. All our branches are computerized and connected with our central server located at Trivandrum.

### Marketing, Sales and Customer Care

Our Company undertakes publicity through media, both print and electronic to increase the visibility of our brand. Our media plan ensures the visibility and reach of our Muthoot brand within the desired budget. These advertisements are carried out across various states wherever our Company has presence. This helps individual branches to target the public and thereby generate business from the locality. For the Fiscal 2025, Fiscal 2024 and Fiscal 2023, our total advertisement expenditure was ₹ 8,563.34 lakhs, ₹ 4,179.70 lakhs and ₹ 8,744.64 lakhs, respectively on a standalone basis as per Ind AS.

In promoting our brand, our advertisement campaigns focus on “**Blue is Belief**”, to differentiate our loan products from other NBFCs and financial institutions and emphasize the convenience, accessibility and expediency of Gold loans.

### Asset Quality

We maintain our asset quality through the establishment of prudent credit norms, the application of stringent credit evaluation tools, limiting customer exposure, and direct interaction with customers. In addition to our credit evaluation and recovery mechanism, our asset-backed lending model and adequate asset cover has helped maintain low gross and net NPA levels.

Details of Stage 3 asset and provisions thereon of our Company, as of the specified dates are set out in the table below:

(₹ in lakhs)

Particulars (as per Ind AS)	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023

Net Stage 3 Assets to Loans and advances	1.28%	0.64%	0.58%
Stage 3 Provision coverage ratio	35.69%	60.37%	72.49%

#### Provisioning policy with respect to Non-Performing Assets

Our Company's provisioning policy was as per the RBI prudential norms up to Fiscal 2018. However, on transition to IndAS, the Company is bound to follow the Expected Credit Loss model as per IndAS norms to provide for Impairment of Loan Assets. Accordingly, the Ind AS financials as of Fiscal 2025, 2024 and 2023 follows the Expected Credit Loss model.

#### Funding Sources

We have expanded our sources of funds in order to reduce our funding costs, protect interest margins and maintain a diverse funding portfolio that will enable us to achieve funding stability and liquidity. Our sources of funding comprise term loans from banks and financial institutions, cash credit/ working capital demand loans/ short term loans from banks, issuances of (i) redeemable non-convertible debentures; (ii) subordinated debt instruments; (iii) perpetual debt instruments; and (iv) short term commercial paper and inter-corporate deposits, and assignment of loan in addition to equity infused by the Promoters.

As of March 31, 2025, March 31, 2024 and March 31, 2023, the total secured borrowings of the Company aggregated to ₹ 22,37,974.84 lakhs, ₹ 18,17,629.76 lakhs and ₹ 15,54,458.77 lakhs, respectively and unsecured borrowings of our Company aggregated to ₹ 3,47,483.08 lakhs, ₹ 2,14,117.72 lakhs and ₹ 2,27,858.69 lakhs, respectively.

The following table sets forth the principal components of our secured loans as per Ind AS of the dates indicated:

(₹ in lakhs)			
Secured Loans	As at March 31, 2025	As of March 31, 2024	As of March 31, 2023
Redeemable non-convertible debentures	3,69,626.16	2,87,032.66	3,04,642.97
Compulsorily Convertible Debentures	Nil	Nil	Nil
<b>Term loans:</b>			
Term loans from banks	9,62,874.90	6,62,069.52	5,02,962.84
Term loans from other parties	50,787.80	15,721.79	437.50
Working Capital Loan and Overdraft from Banks	8,54,685.97	8,52,805.79	7,46,415.46
Loans repayable on demand from Other Parties (PTC)	Nil	Nil	Nil
<b>Total</b>	<b>22,37,974.84</b>	<b>18,17,629.76</b>	<b>15,54,458.77</b>

The following table sets forth the principal components of our unsecured loans as per Ind AS as of the dates indicated:

(₹ in lakhs)

Unsecured Loans	As of March 31, 2025	As of March 31, 2024	As of March 31, 2023
Inter-corporate deposits	Nil	Nil	Nil
Subordinated debt	1,49,724.15	1,46,561.92	1,79,745.30
Commercial Paper	1,21,101.76	Nil	Nil
Perpetual debt instrument	76,657.17	67,555.79	48,113.39
<b>Total</b>	<b>3,47,483.08</b>	<b>2,14,117.71</b>	<b>2,27,858.69</b>

Increasingly, we have depended on loans from banks the issue of redeemable non-convertible debentures the issue of subordinate debt as the primary sources of our funding. We believe that we have developed stable long-term relationships with our lenders and established a track record of timely servicing of our debts and have been able to secure concessionary /competitive interest rate from the lenders to bring down the cost of borrowings.

### Capital Adequacy

We are subject to the capital adequacy ratio (“CAR”) requirements prescribed by the RBI. We are currently required to maintain a minimum CAR of 15.00% based on our total capital to risk-weighted assets. Further, for a NBFC primarily engaged in lending against gold jewellery such as us, we are required to maintain an overall capital adequacy ratio of 15.00%. Our capital adequacy ratio as of March 31, 2025, March 31, 2024 and March 31, 2023 computed on the basis of applicable RBI requirements was 19.50%, 20.01% and 21.34%, respectively.

### Risk Management

Risk management forms an integral element of our business strategy. At an entity level, the objective of risk management is to align the risk appetite of our Company with its strategy. At an operational level, it is intended to enable our Company to make consistent business and operational decisions across all units and departments within the broad risk appetite of our Company. The major risks we face are credit risk, collateral risk, market risk, interest rate risk, liquidity risk and operational risk.

#### Credit risk

Credit risk is the risk of loss due to the failure of counterparty in meeting its obligations in accordance with agreed terms. Our Company’s credit risk arises from the loans that it extends to its borrowers. The management of credit risk starts with robust procedures for approval of the rate per gram used to calculate the loan amount and appraisal of the collateral. However, the risk is minimized since all loans are granted against the collateral of gold jewellery which can be liquidated with relative ease to recover all amounts due to our Company.

#### Collateral risk

Collateral risk arises from a decline in the value of the gold collateral due to fluctuation in gold prices. Our Company has an ongoing process whereby the lending rate per gram of gold is calculated at the average of the closing price of 22 carat gold for the preceding 30 days on quote by Bombay Bullion Association (BBA), which is provided by AGLOC. We are currently maintaining a loan to value of 75.00%, in accordance with the directions issued by RBI.

#### Market risk

Market risk is the risk that the value of a portfolio, either an investment portfolio or a trading portfolio, will decrease due to the change in value of the market risk factors. Our Company has a very small investment portfolio and does not trade in equities or other financial instruments. The Company’s foreign currency operations are restricted to the sale and purchase of currencies from retail customers, purchases being made on a need basis and currency receipts being sold in the market within a short time. Our Company is therefore not exposed to a significant market risk.

#### Interest rate risk

Interest rate risk refers to the impact that fluctuating interest rates may have on the net interest margin. Our Company’s interest rate exposure is not significant, considering that most of its fixed interest earning assets have an average maturity period of three to four months only while a major part of its interest bearing liabilities are not expected to be repriced significantly during the period.

## **Liquidity risk**

Liquidity risk is the risk of being unable to raise necessary funds from the market to meet operational and debt servicing requirements. Liquidity is managed by monitoring short to medium term forecasts of business growth, estimation (based on historic data) of the risk of potential liabilities and our Company's other debt service obligations. Typically, the average tenor of our Company's lending portfolio is three to four months whereas the liabilities are of a longer term.

## **Operational risk**

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events. Our Company has laid down detailed policies and procedures for all its operational activities including a manual of instructions for all activities performed at the branches. All strong rooms, which are built according to RBI specifications at the branches are under dual/joint custody. The company has introduced tamper evident envelopes in all the branches across the country. The tamper evident envelope is expected to bring about a higher degree of safety to the gold pledged with us by our customers.

A centralised team of internal auditors and gold inspectors perform regular and surprise reviews and inspections at all locations and follow up with the management on all audit observations until these are satisfactorily resolved. In accordance with our internal audit policy, all of our branches are subject to periodic inspection. Feedback is provided to the operations department and the process management team on all process improvement/enhancement issues. Each branch data is reviewed centrally. Exceptions or deviations that are identified through the use of automated software are discussed and followed up with the respective branches. Our Company places emphasis on the development of its employees through a formal training and induction process after recruitment and a continuous learning process through various means including e-learning. We also continuously review and enhance operational processes as part of our continuous improvement philosophy.

## **Credit Rating**

We have been assigned "Crisil AA-/Stable" rating by Crisil for our bank facilities, "Crisil AA-/Stable" rating by Crisil and "BWR AA-(Stable)" rating by Brickworks for its various non-convertible debt instruments, "Crisil A+/Stable" rating by Crisil for ₹ 84,900 lakh perpetual bonds and "BWR A+/Stable" rating by Brickworks for ₹ 37,400 lakh perpetual bonds and "Crisil A1+" rating by Crisil for its short term debt programme.

## **Treasury Operations**

Majority of our gold loan disbursements and repayments are in cash which necessitates maintaining a certain level of cash holding at the branches at all times to ensure a quick service to the customer. Since the mode of payment of disbursements above ₹ 20,000 up to ₹ 1,99,999 is through banks, we are required to retain cash up to 0.50% of the AUM or ₹2 lakhs, whichever is higher. Majority of our gold loan repayments are in cash which necessitates maintaining a certain level of cash holding at the branches. Additional fund requirements of the branches are met from the head office of the Company by way of bulk RTGS/ NEFT transfers through designated banks in accordance with the treasury policy. This enables the Company to disburse funds to the branches promptly upon requests from the branches. Excess funds available at the branches are transferred to the bank account of the head office of the Company on a daily basis through an auto swiping facility. This ensures efficient utilisation of the funds, minimizing the holding of idle cash. Branches can also transfer funds/cash from /to nearby branches in case of need.

## **Competition**

Although the business of providing loans secured by gold is a time-honored business (unorganized pawn-broking shops being the main participants), the Gold loan business in India remains very highly fragmented. Our Board believes that we can achieve economies of scale and increased operating efficiencies by increasing the number of branches under operation and utilising modern point-of-sale systems and proven operating methods. We operate in largely un-tapped markets in various regions in India where banks currently provide Gold loans. We also compete with pawnshops and financial institutions, such as consumer finance companies. Other lenders may lend money on an unsecured basis, at interest rates that may be lower than our service charges and on other terms that may be more favorable than ours. We believe that the primary elements of competition are the quality of customer service and relationship management, branch location and the ability to loan competitive amounts at competitive rates. In addition, we believe the ability to compete effectively will be based increasingly on strong general management, regional market focus, automated management information systems and access to capital. Our main competition is from various Kerala based banks and other specialised Gold loan NBFCs.

## **Insurance Coverage**

We maintain insurance coverage on all our assets located at our head office, on all our movable assets in branch premises and locations of our wind energy business owned by us against fire and special perils. Our insurance policies are generally annual policies that we renew regularly. We have also established a scheme of insurance with the Life Insurance Corporation of India for providing gratuity benefits to the employees of the Company are in the name and style – “*Muthoot Fincorp Employees Group Gratuity Assurance Scheme*”.

## **Intellectual Property**

The trademark/service mark and logo in connection with the “Muthoot Pappachan” brand and the “Muthoot Fincorp” logo are pending registration in various classes including classes which pertain to our Company’s business. Our Promoters have applied for but not obtained registrations in connection with protection of the aforesaid trademarks and logos. There can be no assurance that our Promoters would be able to obtain registrations of the aforesaid logos and trademarks under each or all of the classes. Once such trademarks and/or logos are registered we intend to enter into an agreement with our Promoters for the use of such logos and/or trademarks. For further details, see section titled “*Risk Factors*” on page 19.

## **Property**

Our registered office is at Muthoot Centre, TC No 27/3022 Punnen Road Trivandrum 695 001, Kerala which is being used by us on a leasehold basis. We typically enter into lease agreements for these strategic business unit and branch locations. If these leases are not renewed on a timely basis or at all, we do not think that relocating would materially and adversely affect our operations and profitability.

## OUR MANAGEMENT

### Board of Directors

The general superintendence, direction and management of the operations, affairs and business of the Company are vested in the Board of Directors, which exercises its power subject to the Memorandum and Articles of Association of our Company and the requirements of the applicable laws. The Articles of Association set out that the number of Directors in our Company shall not be less than 3 (three) and not more than 15 (fifteen) in number.

The composition of the Board is in conformity with section 149 of the Companies Act, 2013. Currently, the Company has nine Directors on its Board. The Managing Director of the Company is Thomas John Muthoot.

The following table sets out details regarding the Board of Directors, as on the date of this Tranche VI Prospectus:

Our Company confirms that the PAN of the Directors has been submitted to the Stock Exchange at the time of filing the Draft Shelf Prospectus and Tranche VI Prospectus.

### Confirmations

None of our Directors have been identified as a 'wilful defaulter' by the RBI, ECGC, any government/regulatory authority and/or by any bank or financial institution, and none of our directors are otherwise associated in any manner with any company that appears in the list of the vanishing companies as maintained by the Ministry of Corporate Affairs.

### Brief Profiles of Directors

**Thomas John Muthoot**, aged 63 years, is the Managing Director of the Company. He holds a bachelor's degree in commerce from the University of Kerala. He is an alumnus of the Harvard Business School having completed his OPM program in 2014, he is the Member of the CII Kerala State Council, Member of the Chamber of Commerce, Trivandrum. He has been elected as the Chairman of the CII Southern region for the year 2025-26

In recognition of his entrepreneurial talent in hospitality and of his professionalism in management, the Federation of Hotel and Restaurant Association of India (FHRAI) had honoured him with the prestigious "Young Hotel Entrepreneur Award" for the year 2006. In the year 2009, the Chamber of Commerce, Trivandrum had selected him as the "Businessman of the year" for his contribution to the Hospitality Sector.

**Thomas George Muthoot**, aged 63 years, holds a bachelor's degree in commerce from University of Kerala. He is also the Managing Director of Muthoot Hotels Private Limited and a director in the other companies under the "Muthoot Pappachan Group" engaged in hospitality, infrastructure, automotive, property and power generation. He has more than 30 years of

experience and exposure in various facets of non-banking financial services. He is the Chairman of Kerala Non-Banking Finance Companies Welfare Association, Kochi, member of Finance Companies Association, and represents the Group at the Association of Gold Loan Companies (“AGLOC”). He is also acting as the secretary of AGLOC.

**Thomas Muthoot**, aged 58 years leads the Muthoot Pappachan Group’s drive to introduce innovative and efficient loan products. He holds a bachelor’s degree in law from the University of Kerala. He has an in-depth understanding of consumer preferences and market nuances across India, resulting in the Group’s launch of various new financial products. His knowledge of emerging markets and their functions have been harnessed in structuring the business interests of the Group.

Muthoot Pappachan Group’s initiatives in the microfinance sector are spearheaded by Thomas Muthoot. One of his primary creations, Muthoot Mahila Mitra, is an unsecured loan programme aimed at women micro entrepreneurs. It offers women a better alternative to unauthorised money lenders. Muthoot Mahila Mitra is backed strongly by an entrepreneurship development programme for women. The programme known as Sthreejyoti is aimed at training women in general and cash management, in addition to offering sales and marketing skills. He was also instrumental in the Muthoot Pappachan Group’s foray into housing finance.

**Preethi John Muthoot** aged 60 years, holds a master’s degree in Arts from the University of Kerala. She is appointed as Additional Director with effect from March 28, 2019. She was designated as Director of the Company with effect from September 17, 2019. She is also a member of the Board of Directors of many MPG group Companies and hence gained several years hands-on experience in the activities of the Group.

**Badal Chandra Das**, aged 65 years, is an independent director on the Board of the Company w.e.f December 01, 2022. He holds a master’s degree in commerce from the University of Kalyani, West Bengal and a Certified Associate of Indian Institute of Bankers (CAIIB). Badal Chandra Das has a rich all-round Banking experience from State Bank of India (SBI) in various capacities. Retired as Deputy Managing Director from SBI on August 31, 2019, after a tenure of 34 years served in India and abroad in various positions.

**Ravi Ramchandran**, aged 62 years, is an independent director on the Board of the Company w.e.f February 28, 2023. He graduated from the University of Madras with a degree in Bachelor’s in Commerce. He was associated with Nestle India Limited for more than 35 years, where he held several leadership roles within the organization. During his tenure with Nestle India Limited, he also served as the Director for Sales for over nine years. He was also an executive member for the Diversity and Inclusion Council for Nestle India Limited. He completed the ‘Leading the Nestle Way’ programme from London School of Business in September 2017.

**Anthony Abraham Thomas** aged 54 years is an Independent Director of the Company w.e.f November 11, 2023. He holds a bachelor’s degree in technology from the University of Kerala. He is the Chairman of Information and Communication Technology Academy of Kerala.

**Paul Abraham** aged 65 years is an Independent Director on the Board of the Company w.e.f. December 20, 2024. He holds a bachelor’s degree in economics (Hons.) from St. Stephen’s College, Delhi and a post graduate degree in business management from IIM Ahmedabad. He is currently the President of the Hinduja Foundation. Prior to joining the Company, Paul has served as the COO at IndusInd Bank. Paul also sits on the India Advisory Council of the Canadian Huron University.

**Mr. Santosh Kumar Khalli Panigrahy** aged 61 years is an Independent Director on the Board of the Company w.e.f March 20, 2025. He has served in the RBI since January 1989 for about 35 years. He retired as Chief General Manager from RBI, Department of Regulation on December 31, 2023, with extensive experience in supervision and regulation areas.

### **Relationship with other Directors**

Except our Promoter Directors who are siblings and Preethi John Muthoot, who is the wife of Thomas John Muthoot, Managing Director, none of the directors of the Company are related to each other.

### **Borrowing Powers of our Company**

Pursuant to a resolution passed by the members of the Company on September 28, 2022 under the Companies Act, 2013, the Board of Directors is authorised to borrow sums of money on such terms and conditions and for such purposes as the Board may think fit, not exceeding, at any given time, 40 times the aggregate of the paid-up share capital and free reserves of the Company.

The aggregate value of the NCDs offered under this Tranche VI Prospectus, together with the existing borrowings of the

Company, is within the approved borrowing limits as above mentioned.

### Interest of the Directors

All the Directors of the Company, including our independent directors, may be deemed to be interested to the extent of fees, if any, payable to them for attending meetings of the Board or a committee thereof as well as to the extent of other remuneration and reimbursement of expenses payable to them.

In addition, the Directors are interested to the extent of remuneration paid to them for services rendered as officers of the Company.

All the Directors of the Company, including independent directors, may also be deemed to be interested to the extent of Equity Shares, if any, held by them or by companies, firms and trusts in which they are interested as directors, partners, members or trustees and also to the extent of any dividend payable to them and other distributions in respect of the said Equity Shares.

Except as disclosed hereinabove and the section titled “*Risk Factors*” on page 19, the Directors do not have an interest in any venture that is involved in any activities similar to those conducted by the Company.

Except as stated in the section “*Financial Information*” on page 164 and to the extent of compensation and commission if any, and their shareholding in the Company, the Directors do not have any other interest in the business of the Company.

All the Directors may be deemed to be interested in the contracts, agreements/arrangements entered into or to be entered into by the Company with any company in which they hold directorships or any partnership firm in which they are partners as declared in their respective declarations. Except as otherwise stated in this Tranche VI Prospectus and statutory registers maintained by the Company in this regard, the Company has not entered into any contract, agreements or arrangements during the preceding two years from the date of this Tranche VI Prospectus in which the Directors are interested directly or indirectly and no payments have been made to them in respect of these contracts, agreements or arrangements which are proposed to be made with them, except as disclosed in the chapter “*Our Promoter*” on page 161.

The Company had advanced loans to its Directors. As on March 31, 2025, none of such loans given by the Company to its directors are outstanding.

Thomas John Muthoot, Thomas George Muthoot and Thomas Muthoot are our Promoters as well as Directors on the Board of the Company.

Except Thomas John Muthoot, Thomas George Muthoot and Thomas Muthoot, none of the directors are interested in the promotion of the company.

None of the directors have an interest in any immovable property acquired by the Company in the two years preceding the date of the Tranche VI Prospectus or any immovable property proposed to be acquired by it.

None of the directors have an interest in the Company in form of sums paid or agreed to be paid to the director of the Company in cash or shares or otherwise provided by any person either to induce the director to become, or to help the Director qualify as a director, or otherwise for services rendered by the Director or by the Company, in connection with the promotion or formation of the Company.

### Contribution made by the directors as part of the offer or separately

No contribution has been made by the directors as part of the offer or separately. The directors, promoters, key managerial personnel or senior management do not have any financial or other material interest in the Issue and consequently, there is no effect of such interest in so far as it is different from the interests of other persons.

Except as disclosed below, no relatives of the Directors have been appointed to an office or place of profit of our Company:

Name of Director	Number of debentures held	Amount (₹ in lakhs)
Thomas George Muthoot	140	300
Thomas John Muthoot	145	1,350
Thomas Muthoot	20	100

#### Corporate Governance

Our Company believes that good corporate governance is an important constituent in enhancing stakeholder value. Our Company has in place processes and systems whereby it complies with the requirements to the corporate governance provided in SEBI Listing Regulations (to the extent applicable to a company which has listed debt securities) and the applicable RBI Guidelines. The corporate governance framework is based on an effective independent Board, separation of the supervisory role of the Board from the executive management team and constitution of the committees of the Board, as required under applicable law.

Our Company believes that its Board is constituted in compliance with the Companies Act, 2013 and the SEBI Listing Regulations. The Board functions either as a full Board or through various committees constituted to oversee specific operational areas.

#### Details of various committees of the Board of Directors

Our Company has constituted the following committees:

##### Committees of Board of Directors

The Board has constituted among others, the following committees of Directors: (i) Audit Committee; (ii) Nomination and Remuneration Committee; (iii) Asset Liability Management Committee; (iv) Risk Management Committee; (v) Stakeholders Relationship Committee; (vi) CSR Committee; (vii) IT Strategy Committee; and (viii) Customer Service and Protection Committee. The details of these committees are set forth below:

##### I. Audit Committee

The Audit Committee was last re-constituted on March 19, 2025, pursuant to Section 178 of the Companies Act, 2013.

The members of the Audit Committee as on date of the Tranche VI Prospectus are:

Name	Designation in the Committee	Nature of Directorship
Badal Chandra Das	Chairman	Independent Director
Ravi Ramchandran	Member	Independent Director
Thomas George Muthoot	Member	Whole Time Director (designated as Joint Managing Director)
Santosh Kumar Khalli Panigrahy	Member	Independent Director

The terms of reference of the Audit Committee, *inter alia*, include:

- i. Oversight of the Company's financial reporting process and the disclosure of its financial statements to ensure that the financial statement is correct, sufficient and credible;
- ii. recommendation for appointment, remuneration and terms of appointment of auditors of the Company;
- iii. approval of payment to statutory auditors for any other services rendered by the statutory auditors;
- iv. reviewing, with the management, the annual financial statements and auditor's report thereon before submission to the Board for approval, with particular reference to:
  - a) matters required to be included in the director's responsibility statement to be included in the Board's report in terms of clause (c) of sub-section (3) of Section 134 of the Companies Act, 2013;
  - b) changes, if any, in accounting policies and practices and reasons for the same;
  - c) major accounting entries involving estimates based on the exercise of judgment by management;
  - d) significant adjustments made in the financial statements arising out of audit findings;
  - e) compliance with listing and other legal requirements relating to financial statements;
  - f) disclosure of any related party transactions;
  - g) modified opinion(s) in the draft audit report;
- v. reviewing, with the management, the quarterly financial statements before submission to the Board for approval;
- vi. reviewing, with the management, the statement of uses / application of funds raised through an issue (public issue, rights issue, preferential issue, etc.), the statement of funds utilized for purposes other than those stated in the offer document / prospectus / notice and the report submitted by the monitoring agency monitoring the utilization of proceeds of a public issue or rights issue or preferential issue or qualified institutions placement, and making appropriate recommendations to the Board to take up steps in this matter;
- vii. reviewing and monitoring the auditor's independence and performance, and effectiveness of audit process;
- viii. approval or any subsequent modification of transactions of the Company with related parties;
- ix. scrutiny of inter-corporate loans and investments;
- x. valuation of undertakings or assets of the Company, wherever it is necessary;

\*Excludes IND-AS adjustment for effective Interest rate on borrowings

**Penalty:** The loan documentation executed with respect to the term loans mentioned above set out penalty provisions for compliance with the provisions of the loan documents. Such provisions include, but are not limited to:

- Any interest/ principle being over-due will attract penal interest of 2% (two per cent) p.m. (per month) over and above the regular interest rate on the amount due for the period of delay.
- Additional interest payable as per the terms and conditions of the respective sanction letters in the event of any breach of any financial covenants or failure to create security within the period stipulated under the financing documents.

**Events of Default:** The facility documents executed by the Company stipulates certain events as "Events of Default", pursuant to which the Company may be required to immediately repay the entire loan facility availed by it and be subject to additional penalties by the relevant lenders. Such events include, but are not limited to:

**(a) Non-payment**

The Company does not pay on the due date any amount payable pursuant to a finance document at the place at and in the currency in which it is expressed to be payable.

**(b) Financial covenants and Security**

Any requirement of financial covenants and security coverage ratios is not satisfied or the Company does not comply with any provision of the security documents or any other finance document dealing with transaction security.

**(c) Misrepresentation**

Any representation or statement made or deemed to be made by the Company in the finance documents or any other document delivered by or on behalf of the Company under or in connection with any finance document is or proves to have been incorrect or misleading in any material respect when made or deemed to be made.

**(d) Cross default**

- Any financial indebtedness of the Company is not paid when due nor within any originally applicable grace period.
- Any financial indebtedness of the Company is declared to be or otherwise becomes due and payable prior to its specified maturity as a result of an event of default (however described).
- Any commitment for any financial indebtedness of the Company is cancelled or suspended by a creditor of any member of the Group as a result of an event of default (however described).
- Any creditor of the Company becomes entitled to declare any financial indebtedness of any member of the Group due and payable prior to its specified maturity as a result of an event of default (however described).

**(e) Insolvency**

- a. The Company or any of its Subsidiaries is unable or admits inability to pay its debts as they fall due, suspends making payments on any of its debts or, by reason of actual or anticipated financial difficulties, commences negotiations with one or more of its creditors with a view to rescheduling any of its indebtedness.
- b. A moratorium is declared in respect of any indebtedness of the Company or any of its Subsidiaries.

**(f) Insolvency proceedings**

Any corporate action, legal proceedings or other procedure or step is taken in relation to:

- a. the suspension of payments, a moratorium of any indebtedness, initiation of corporate insolvency resolution process, winding-up, dissolution, administration or reorganisation (by way of voluntary arrangement, scheme of arrangement or otherwise) of the Company or any of its Subsidiaries;
- b. a composition, compromise, assignment or arrangement with any creditor of the Company or any of its Subsidiaries;
- c. the appointment of a liquidator, receiver, administrative receiver, administrator, compulsory manager or other similar officer in respect of the Company or any of its Subsidiaries or any of its assets; or
- d. enforcement of any Security over any assets of any member of the Group, or any analogous procedure or step is taken in any jurisdiction.

**(g) Unlawfulness**

It is or becomes unlawful for the Company to perform any of its obligations under the finance documents and/or any obligation or obligations of the Company under any finance document are not or cease to be valid, binding and enforceable.

**(h) Repudiation**

The Company repudiates a finance document or evidences an intention to repudiate a finance document.

**(i) Material adverse effect**

Any event or circumstance occurs which the Lender reasonably believes might have a material adverse effect (as defined in the respective agreements).

**(j) Enforceability of Security**

Any security document is not or ceases to be legal, valid, binding enforceable or effective or is alleged by a party to it (other than the Lender) to be ineffective or the value of the transaction security has been or is threatened to be decreased.

\*Excludes IND-AS adjustment for effective Interest rate on borrowings

**Penalty:** The loan documentation executed with respect to the cash credit / working capital loans/ working capital demand loans/ short term loans mentioned above set out penalty provisions for compliance with the provisions of the loan documents. Such provisions include, but are not limited to:

- Any interest/ principle being over-due will attract penal interest of 2% (two per cent) p.m. (per month) over and above the regular interest rate on the amount due for the period of delay.
- Additional interest payable as per the terms and conditions of the respective sanction letters in the event of any breach of any financial covenants or failure to create security within the period stipulated under the financing documents.

**Events of Default:** The facility documents executed by the Company stipulates certain events as "Events of Default", pursuant to which the Company may be required to immediately repay the entire loan facility availed by it and be subject to additional penalties by the relevant lenders. Such events include, but are not limited to:

**(a) Non-payment**

The Company does not pay on the due date any amount payable pursuant to a finance document at the place at and in the currency in which it is expressed to be payable.

**(b) Financial covenants and Security**

Any requirement of financial covenants and security coverage ratios is not satisfied or the Company does not comply with any provision of the security documents or any other finance document dealing with transaction security.

**(c) Misrepresentation**

Any representation or statement made or deemed to be made by the Company in the finance documents or any other document delivered by or on behalf of the Company under or in connection with any finance document is or proves to have been incorrect or misleading in any material respect when made or deemed to be made.

**(d) Cross default**

- i. Any financial indebtedness of the Company is not paid when due nor within any originally applicable grace period.
- j. Any financial indebtedness of the Company is declared to be or otherwise becomes due and payable prior to its specified maturity as a result of an event of default (however described).
- k. Any commitment for any financial indebtedness of the Company is cancelled or suspended by a creditor of any member of the Group as a result of an event of default (however described).
- l. Any creditor of the Company becomes entitled to declare any financial indebtedness of any member of the Group due and payable prior to its specified maturity as a result of an event of default (however described).

**(e) Insolvency**

- e. The Company or any of its Subsidiaries is unable or admits inability to pay its debts as they fall due, suspends making payments on any of its debts or, by reason of actual or anticipated financial difficulties, commences negotiations with one or more of its creditors with a view to rescheduling any of its indebtedness.
- f. A moratorium is declared in respect of any indebtedness of the Company or any of its Subsidiaries.

**(f) Insolvency proceedings**

Any corporate action, legal proceedings or other procedure or step is taken in relation to:

- i. the suspension of payments, a moratorium of any indebtedness, initiation of corporate insolvency resolution process, winding-up, dissolution, administration or reorganisation (by way of voluntary arrangement, scheme of arrangement or otherwise) of the Company or any of its Subsidiaries;
- j. a composition, compromise, assignment or arrangement with any creditor of the Company or any of its Subsidiaries;
- k. the appointment of a liquidator, receiver, administrative receiver, administrator, compulsory manager or other similar officer in respect of the Company or any of its Subsidiaries or any of its assets; or
- l. enforcement of any Security over any assets of any member of the Group, or any analogous procedure or step is taken in any jurisdiction.

**(g) Unlawfulness**

It is or becomes unlawful for the Company to perform any of its obligations under the finance documents and/or any obligation or obligations of the Company under any finance document are not or cease to be valid, binding and enforceable.

**(h) Repudiation**

The Company repudiates a finance document or evidences an intention to repudiate a finance document.

**(i) Material adverse effect**

Any event or circumstance occurs which the Lender reasonably believes might have a material adverse effect (as defined in the respective agreements).

**(j) Enforceability of Security**

Any security document is not or ceases to be legal, valid, binding enforceable or effective or is alleged by a party to it (other than the Lender) to be ineffective or the value of the transaction security has been or is threatened to be decreased.

*\*Excludes IND-AS adjustment for effective Interest rate on borrowings*

**Penalty:** The loan documentation executed with respect to the non-convertible debentures mentioned above set out penalty provisions for compliance with the provisions of the loan documents. Such provisions include, but are not limited to:

- (a) Any interest/ principle being over-due will attract penal interest of 2% (two per cent) p.m. (per month) over and above the regular interest rate on the amount due for the period of delay.
- (b) Additional interest payable as per the terms and conditions of the respective sanction letters in the event of any breach of any financial covenants or failure to create security within the period stipulated under the financing documents.

**Events of Default:** The facility documents executed by the Company stipulates certain events as "Events of Default", pursuant to which the Company may be required to immediately repay the entire loan facility availed by it and be subject to additional penalties by the relevant lenders. Such events include, but are not limited to:

**(a) Non-payment**

The Company does not pay on the due date any amount payable pursuant to a finance document at the place at and in the currency in which it is expressed to be payable.

**(b) Financial covenants and Security**

Any requirement of financial covenants and security coverage ratios is not satisfied or the Company does not comply with any provision of the security documents or any other finance document dealing with transaction security.

**(c) Misrepresentation**

Any representation or statement made or deemed to be made by the Company in the finance documents or any other document delivered by or on behalf of the Company under or in connection with any finance document is or proves to have been incorrect or misleading in any material respect when made or deemed to be made.

**(d) Cross default**

- m. Any financial indebtedness of the Company is not paid when due nor within any originally applicable grace period.
- n. Any financial indebtedness of the Company is declared to be or otherwise becomes due and payable prior to its specified maturity as a result of an event of default (however described).
- o. Any commitment for any financial indebtedness of the Company is cancelled or suspended by a creditor of any member of the Group as a result of an event of default (however described).
- p. Any creditor of the Company becomes entitled to declare any financial indebtedness of any member of the Group due and payable prior to its specified maturity as a result of an event of default (however described).

**(e) Insolvency**

- g. The Company or any of its Subsidiaries is unable or admits inability to pay its debts as they fall due, suspends making payments on any of its debts or, by reason of actual or anticipated financial difficulties, commences negotiations with one or more of its creditors with a view to rescheduling any of its indebtedness.

h. A moratorium is declared in respect of any indebtedness of the Company or any of its Subsidiaries.

**(f) Insolvency proceedings**

Any corporate action, legal proceedings or other procedure or step is taken in relation to:

- m. the suspension of payments, a moratorium of any indebtedness, initiation of corporate insolvency resolution process, winding-up, dissolution, administration or reorganisation (by way of voluntary arrangement, scheme of arrangement or otherwise) of the Company or any of its Subsidiaries;
- n. a composition, compromise, assignment or arrangement with any creditor of the Company or any of its Subsidiaries;
- o. the appointment of a liquidator, receiver, administrative receiver, administrator, compulsory manager or other similar officer in respect of the Company or any of its Subsidiaries or any of its assets; or
- p. enforcement of any Security over any assets of any member of the Group, or any analogous procedure or step is taken in any jurisdiction.

**(g) Unlawfulness**

It is or becomes unlawful for the Company to perform any of its obligations under the finance documents and/or any obligation or obligations of the Company under any finance document are not or cease to be valid, binding and enforceable.

**(h) Repudiation**

The Company repudiates a finance document or evidences an intention to repudiate a finance document.

**(i) Material adverse effect**

Any event or circumstance occurs which the Lender reasonably believes might have a material adverse effect (as defined in the respective agreements).

**(j) Enforceability of Security**

Any security document is not or ceases to be legal, valid, binding enforceable or effective or is alleged by a party to it (other than the Lender) to be ineffective or the value of the transaction security has been or is threatened to be decreased.

*(f) any failure by the Company to maintain the Gross Non-Performing Assets at 5.5% (Five decimal five percent) or lower and Net Non-Performing Assets at 4.0% (Four percent) or lower, to be tested on a semi-annual basis for Company as on (a) 31 March of each financial year, and (b) 30 September of each financial year.*

**C. Details of all default/s and/or delay in payments of interest and principal of any kind of term loans, debt securities, commercial paper (including technical delay) and other financial indebtedness including corporate guarantee or letters of comfort issued by the Company, in the past three financial years and the current financial year.**

As on the date of this Tranche VI Prospectus, there has been no delay or default in payment of principal or interest of any kind on term loan, debt securities, commercial paper (including technical delay) issued by the Issuer, and other financial indebtedness including corporate guarantee issued by the Issuer, in the past three financial years and current financial year. Further, the Company did not have any liability in respect of deposits or preference shares dividend or the Company has not issued any letter of comfort and/or corporate guarantee during the previous three financial year and current financial year.

As on the date of this Tranche VI Prospectus, there have been no default and non-payment of undisputed statutory dues for the three preceeding financial year and current financial year. For further details, please refer “*Other Regulatory and statutory Disclosures - Details of any other contingent liabilities of the issuer based on the last audited financial statements including amount and nature of liability*” on page 262.

## SECTION VI : LEGAL AND OTHER INFORMATION

### OUTSTANDING LITIGATIONS AND DEFAULTS

*The Company is subjected to various legal proceedings from time to time, mostly arising in the ordinary course of its business. The legal proceedings are initiated by us and also by customers, past employees and other parties. These legal proceedings are primarily in the nature of (a) consumer complaints, (b) criminal complaints, and (c) civil suits. We believe that the number of proceedings in which we are involved is not unusual for a company of our size in the context of doing business in India.*

*As on the date of this Tranche VI Prospectus, except as disclosed below, there are no failures or defaults to meet statutory dues, institutional dues and dues towards instrument holders including holders of debentures, fixed deposits, and arrears on cumulative preference shares, etc., by the Company.*

*For the purpose of disclosures in this Tranche VI Prospectus, our Company has considered the following litigation as 'material' litigation:*

- *all pending proceedings whether civil, arbitral, tax related litigations, or otherwise, of value exceeding more than 1% of our profit after tax as on March 31, 2024, i.e. more than ₹ 562.81 lakhs\*;  
\* Our subsidiary MML is a listed company. The board of the subsidiary has fixed its materiality threshold by way of their materiality policy at ₹ 163.89 lakhs i.e. 1% of their profit after tax as per their restated financial statements for the year ended March 31, 2023.*
- *any other outstanding legal proceeding which is likely to have a material adverse effect on the financial position, profitability and cash flows of our Company (Excluding Muthoot Microfin Limited, which has its own materiality threshold by way of their materiality policy at ₹ 163.89 lakhs i.e. 1% of their profit after tax as per their restated financial statements for the year ended March 31, 2023) which may affect the issue or the investor's decision to invest/continue to invest in the debt securities.*

*Save as disclosed below, there are no:*

1. *outstanding civil or tax proceedings involving the Company, Promoters, Subsidiaries and Directors in which the pecuniary amount involved is in excess of the materiality threshold;*
2. *litigation or legal action pending or taken by any Ministry or Department of the Government or a statutory authority against the Promoter of the Company during the last three years immediately preceding the year of the issue of this Tranche VI Prospectus and any direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action;*
3. *litigation involving the Company, Promoter, Directors, subsidiaries, group companies or any other person, whose outcome could have material adverse effect on the financial position of the Company, which may affect the issue or the investor's decision to invest/continue to invest in the debt securities;*
4. *outstanding criminal proceedings filed by or against the Company, its Promoters, its Subsidiaries and Directors and Group Companies.*
5. *pending proceedings initiated against the Company for economic offences and default; and*
6. *inquiries, inspections or investigations initiated or conducted under the Securities laws or Companies Act or any previous companies' law, prosecutions filed, if any (whether pending or not); and fines imposed or offences compounded or reservations, qualifications or adverse remarks of the auditors of the Company in the last three years immediately preceding the year of issue of this Tranche VI Prospectus against the Company and all of its Subsidiaries.*
7. *material frauds committed against our Company in the preceding three financial years and current financial year.*

## **I. Litigations by and against the Company**

### **A. Litigations against the Company**

#### *Criminal Proceedings*

1. Sholly Rajan (“Complainant”) had filed a petition under Section 451 of CrPC before the Judicial First Class Magistrate, Ernakulam, against the area managers of our Mattancherry and Kalamaserry branches for the interim custody of gold seized by the police, which was taken from the Complainant on account of cheating and pledged with our Company by an alleged accused. The matter is currently pending.
2. Abdul Kahder (“**Complainant**”) filed an FIR on April 28, 2016 under Sections 457 and 380 of the Indian Penal Code for recovery of gold ornaments that were allegedly stolen from his residence. The charge sheet on the matter was submitted by an investigating officer before the Chief Metropolitan Magistrate, Hyderabad on September 16, 2020 against Mohammed Sameer for allegedly stealing the gold ornaments and mortgaging the same with MFL, which were subsequently sold through an auction. This matter is currently pending. Subsequently we have filed W.P. No. 536/20 and procured favourable order whereby chairman and managing director and branch manager are dispensed from attendance of trial court proceedings on filing appropriate application. This matter is currently pending.

#### *Material Civil Proceedings*

1. Our Company has initiated recovery actions under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 against Samson & Sons Builders and Developers Private Limited for the loan availed by the latter amounting to ₹ 735 lakh. Against the said actions, Mary Koshy & others, the persons who are the previous owners of one of the secured assets, have filed a Securitization Application against our Company before the Debt Recovery Tribunal, Ernakulam, which was dismissed. Subsequently they appealed before Debt Recovery Appellate Tribunal (“DRAT”), Chennai. The appeal was dismissed by the DRAT. The same has now been challenged before the High Court of Kerala in WP No. 22192 of 2019 and the matter is pending. In the interim, the borrower company is under resolution process as per provisions of Insolvency and Bankruptcy Code, 2016, by virtue of an order dated August 14, 2024 by National Company Law Tribunal, Kochi bench. The Successful Resolution Applicant has filed an application in NCLT Kochi seeking a direction to MFL to surrender one of the securities, the project land. In the mean time, MFL has filed an application for recall of the orders dated August 14, 2024 in NCLT Kochi on February 10, 2025. The matter was heard on June 3, 2025, and has been reserved for orders.
2. Our Company had advanced a loan of ₹ 2,500 lakhs to Prabhushanti Real Estate Private Limited (“**Borrower**”) against the securities shared with Tamil Nadu Mercantile Bank (“**TMB**”) on pari passu basis. Since the said borrower has defaulted in payments, our Company along with TMB has initiated recovery proceedings under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 by issuing a demand notice. However, before the possession could be taken, AU Small Finance Bank Ltd initiated insolvency proceedings against the Borrower which stood as guarantor and mortgaged some of its properties to a facility granted by the said bank to one educational trust in the same group.

Pursuant to resolution professional (“**RP**”) issuing fresh notice in Form G, two Expression of Interests (“**EOI(s)**”) were received. The committee of creditors (“**COC**”) in its meeting held on August 2, 2024 and subsequent voting, approved one of the resolution plans submitted. NCLT Delhi vide order dated October 24, 2024 approved the Resolution Plan. Currently, the borrower is undergoing implementation of resolution plan.

3. Our Company had taken physical possession of the property of P Mahalingam, mortgaged in favour of MFL as security to the loan sanctioned to Santosh Hospital Private Limited, under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 for an amount of ₹3,900 lakhs and accrued interest. Santosh Hospitals approached the Hon’ble High Court, Chennai under writ petition challenging the actions taken by the Company under SARFAESI Act, including the physical possession of the hospital taken through the court commissioner. The said writ petition got dismissed. Thereafter, Santosh Hospitals Pvt Ltd filed securitization application before DRT, Chennai challenging the action of taking possession of the secured asset by MFL which also stands dismissed. Thereafter, Santosh Hospitals Pvt Ltd has filed Insolvency proceedings under Insolvency Bankruptcy Code before NCLT, Chennai and Interim Resolution Professional was appointed in the matter. The Interim Resolution Professional demanded MFL to handover the possession of the assets taken by MFL under SARFAESI and the same is objected by MFL contending that the said assets do not belong to the corporate debtor. NCLT Chennai has since ordered liquidation of the said corporate debtor and is yet to dispose of the MA 363/2019 filed by the erstwhile interim resolution professional. The Liquidation orders dated December 4, 2019 was challenged in an appeal before NCLAT Delhi.

Further, NCLAT Delhi dismissed the two appeals filed by P Mahalingam on February 14, 2022. The said P Mahalingam has challenged the orders dated February 14, 2022 in SLP in Supreme Court. Supreme court ordered status quo in May 2022. After several hearings/adjournments SC passed an Interim Orders on 16.12.2022 allowing Dr Mahalingam to utilize the Hospital Building for running the hospital, without infringing the rights of any of the parties. MFL filed an application for the vacation of the said Interim orders in July 2023. The matter posted on August 23, 2023 was adjourned for four weeks at the request of the petitioner. The matter is currently under the final hearing list and the hearing was scheduled on August 22, 2024, however, the matter did not reach the bench. During the hearing on February 10, 2025, the Bench did not amend the interim orders. The matter is currently pending.

4. Our Company had advanced a loan of ₹ 700 lakhs to Ganga Foundations Private Limited (“Borrower”) against one security held in the name of the company and two other securities in the name of the guarantors. Since the said borrower has defaulted in payments, our Company initiated recovery proceedings under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 and took possession of the securities. SBI had also funded certain other projects of the said Ganga Foundations Pvt Ltd, called Spectrum Mall. SBI initiated insolvency proceedings against the Borrower. The Company joined the COC along with other lenders. As the Corporate Insolvency Resolution Process (“CIRP”) period ended and SBI, the Institutional Financial Creditor having about 74 % voting rights, voted against the Resolution Plan submitted by a sole Resolution Applicant, the borrower went into liquidation. MFL stood outside the Liquidation and did not surrender the securities held in the name of the borrower to form part of the Liquidation estate. Despite the above the Liquidator claimed contributions towards the CIRP and Liquidation costs. MFL sought certain clarifications such as the details of the expenses and the reasons as to why the same were not met out of the income of the CD being the rent collected from the tenants in the Spectrum mall. The Liquidator arbitrarily and unilaterally included the security in the name of the CD held by MFL in the Liquidation Estate, and sought surrender of the same. Upon MFL refusing to do so, The Liquidator filed an application in NCLT Chennai seeking a direction to MFL to surrender the security. We have filed counter. NCLT disposed the order with a direction to the Company to surrender the title deed to the liquidator. This has been challenged in NCLAT Chennai vide Appeal No. 244/2025 . The hearing was scheduled on May 28, 2025. Further, our Company has challenged the inclusion of the secured asset in the further sale notice issued by the Liquidator by filing IA No. 627 of 2025 in IB 870/2020 in NCLT Chennai and same has been disposed as infructuous. The appeal filed by our Company has been heard on June 4, 2025 and has been reserved for orders.

#### *Economic Offences*

Details of pending proceedings initiated against the issuer for economic offences:

NIL

#### **B. Litigations by the Company**

#### *Criminal Proceedings*

1. Our Company has moved before the Hon'ble High Court of Kerala (“Kerala HC”) to quash the proceedings of the protest complaint filed by Nusaiba Haneef for production of gold ornaments before the Magistrate Court under section 94 of the Code of Criminal Procedure, 1973. The gold was previously seized by the police, which was subsequently released to our Company. The amount involved in the transaction sums up to ₹ 6.77 lakh. While the case has been disposed off by the Kerala HC, the matter is pending before the Magistrate Court.
2. Our Company has moved before the Kerala HC to quash the proceedings of the protest complaint filed by Subaida for production of gold ornaments before the Magistrate Court under section 94 of the Code of Criminal Procedure, 1973. The gold was previously seized by the police, which was subsequently released to our Company. The amount involved in the transaction sums up to ₹ 4.18 lakh. While the case has been disposed off by the Kerala HC, the matter is pending before the Magistrate Court.
3. Our Company has filed a petition before the Judicial First-Class Magistrate Court against Shine Mon, a customer, for cheating. The customer had availed a loan of ₹0.27 lakh against the security of certain ornaments, the ownership of which was claimed by third party and a cheating case was also filed by such third party against the customer.
4. Jibu V. Stephen, the accused has pledged gold with our Company which was seized by police in a cheating case. The court had acquitted the accused and had ordered to release the said 39.5 gm gold to him against which our Company had moved before the Kerala HC. An appeal has been filed by the accused before the Principal District and Sessions Judge, Kottayam. The next date of hearing is scheduled on July 4, 2025. The appeal is admitted and the matter is

pending for hearing.

5. Our Company had filed an appeal in the Session Court, Mavelikkara against the order of the magistrate Court in dismissing application filed by our Company for returning gold valuing ₹ 27.7 lakh on conclusion of trial.
6. Our Company has filed a writ petition 4332/2021 before the Hon'ble High Court of Kerala at Ernakulam ("High Court"), against the notice issued by 1st Respondent being Station house officer seeking seizure of gold ornaments worth ₹ 14.41 lakhs pledged with our Company by the 3rd respondent (Shihabudeen P.V.). The 2nd respondent (Jussalla) had filed a complaint claiming the ownership of gold ornaments which were handed over to 3rd respondent for invocation of magical remedy. However, it is the case of our Company that the pledges made by 3rd respondent were prior to the date of alleged handing over of ornaments by 2nd respondent to 3rd respondent and even in the case of one pledge after the alleged handing over of the ornaments also does not contain any ornaments matching the description provided by the de facto complainant. The High Court vide order dated June 15, 2023 disposed the writ petition. In accordance with the order, the Company is at liberty to move an application under Section 451 of Cr.P.C. for the release of the gold ornaments. Criminal proceedings under Section 420 of the Indian Penal Code, 1860 are pending.
7. Our Company has filed numerous complaints, FIRs and cases of fraud and cheating against customers on account of loan defaults, theft, fraud in relation to pledging of spurious gold/cash embezzlement, and against employees on account of cheating, forgery, criminal breach of trust, misrepresentation, and wrongful gain under *inter alia* Sections 342, 365, 387 397, 392, 380, 420 of the Indian Penal Code, 1860 ("IPC"). As of the date of this Tranche VI Prospectus, there are 429 such matters pending before various courts related to instances of theft and fraud in relation to pledging of spurious gold/cash embezzlement aggregates to ₹ 565.75 lakhs.
8. Company has filed numerous complaints under Section 156(3) of the Code of Criminal Procedure, 1973 read with Section 420 of the Indian Penal Code, 1860 for cheating. As of the date of this Tranche VI Prospectus, there are 1,615 such matters pending before various courts related to instances of cheating and the amount involved in such matters aggregates to ₹ 4,982.52 lakhs.

#### *Civil Proceedings*

1. Our Company has on October 22, 2020 filed a writ petition bearing no. W.P. (C) No. 22768/ 2020 before the Hon'ble High Court of Kerala against Union of India & others. The Writ Petition has been filed in relation to the directions issued by RBI (RBI/2020-21/20 DOR No. BN.BC/7/21/04.048/2020-21) dated August 06, 2020 ("Circular") which directs scheduled commercial banks and payment banks not to open or maintain current accounts for customers who have availed credit facilities in the form of cash credit ("CC")/ overdraft ("OD") from the banking system and that all transactions are required to be routed through the CC/OD account. Our Company has *inter alia* prayed that RBI should issue clarification on implementation and enforcement of the Circular in light of the representations made by our Company to RBI and SBI and to SBI to seek clarifications on the points urged in representations made to SBI. Further, it has also been prayed that the implementation of Circular, in so far as our Company is concerned, should be kept pending the disposal of the Writ Petition. The Hon'ble High Court of Kerala has disposed of the said Writ Petition on April 9, 2021 wherein SBI was directed to consider the matter and to arrive at a workable solution in 6 months, failing which, SBI was directed to approach RBI. In the meantime, since other banks (where the Company has current accounts for its branches) have issued communications to close such accounts in view of the RBI circular and since SBI was already considering a process for devising an alternate solution to address the issues and such closure of accounts would have been detrimental to the interest of the Company, the Company has filed another Writ Petition before the Hon'ble High Court bearing W. P (C) No. 14854 / 2021 making all the banks party and seeking for the intervention of the court. The Hon'ble court was pleased to order status quo as regards current account and stay is extended till further orders on January 3, 2022 and matter is not listed thereafter. In the meantime, RBI has issued another circular RBI/2021-22/116 DOR.CRE.REC.63/21.04.048/2021-22 dated October 29, 2021 wherein opening of current accounts have been permitted with one bank which has more than 10% of banking exposure in the Company. Accordingly, the Company has approached SBI and process of opening such current accounts for its branches with SBI is on.

For further information, see "*Risk Factors – Risk Factor #1 – Scheduled commercial banks and payment banks have been directed not to open and maintain current accounts for customers who have availed credit facilities in the form of cash credit (CC)/overdraft (OD) from the banking system. Implementation of the aforesaid direction without providing alternate mechanism for financial institutions transacting with scheduled commercial banks and payment banks to withdraw and deposit cash may adversely affect our business, results of operations and financial Condition.*" on page 19.

### *Cases filed by the Company under Section 138 of the Negotiable Instruments Act, 1881*

Our Company has filed various complaints against former employees of our Company under Section 200 of the CrPC read with Sections 138 and 142 of the NI Act, and section 25 of the Payments and Settlement Systems Act. As of the date of this Tranche VI Prospectus, there are 1779 such complaints pending before various Magistrate courts in Kerala. The total amount involved in such cases is approximately ₹ 1773.53 lakhs.

### *Other Proceedings*

#### *Tax litigations involving our Company*

1. The Company had filed a Writ Petition before the Honourable High Court of Madras on 30th July, 2019 challenging the Order passed by the Income Tax Settlement Commission, Chennai Bench abating the proceedings before it relating to the Settlement Application filed by the Company dated December 17, 2017 ("Settlement Application"); and praying for stay on proceedings initiated by the Joint Commissioner of Income Tax (OSD), Central Circle, Thiruvananthapuram post abatement of proceedings by the Settlement Commission. The tax and interest due on the issues forming part of the Settlement Application totaled to ₹ 7,406 lakh. The Settlement Application related to notices received under Section 148 for Assessment Year 2010-11, Section 147 of the Income Tax Act, as per which the income chargeable to tax for the Assessment Years 2011-12 to 2016-17 of MFL has not been assessed, and Section 153A of the Income Tax Act, as per which MFL was required to prepare true and correct return of which MFL was assessable for the Assessment Years 2011-2012 to 2016-2017 and for Assessment Year 2017-18, assessment of which was deemed to be pending by virtue of explanation (iv) to Section 245A(b) as on date of filing the settlement application. The Honourable High Court of Madras has dismissed the petition filed by the Company on June 29, 2022 on the ground that the cause of action of the matter has arisen fully in Kerala and not within the territorial jurisdiction of the Honourable Madras High Court, thereby ousting its jurisdiction to entertain the petition. Accordingly, Company filed a writ petition before the High Court of Kerala, wherein the High Court passed an order on April 03, 2023 directing the interim board for settlement to reconsider the settlement application and to start afresh. The Interim Board of Settlement has passed an order dated November 15, 2023 opining on the settlement of income under the matter along with the interest to be charged and granting immunity to MFL from prosecution and penalty imposed under the Income Tax Act. The Deputy Commissioner of Income Tax, Central Circle, Thiruvananthapuram has passed Orders giving effect to the Order of the Honorable Interim Board for Settlement for the Assessment Years 2010-11 to 2017-18 with demands aggregating to ₹13,892.97 lakhs and refunds aggregating to Rs.4,675.93 lakhs. The Company evaluated the Orders passed and identified incorrect computations which has been intimated to the Central Circle, Thiruvananthapuram. The Central Circle, Thiruvananthapuram on October 24, 2024 passed orders for the Assessment Years 2010-11, 2012-13, 2013-14, 2014-15 to 2017-18 identifying incorrect computations and revised their demand aggregating to ₹ 6,931.46 lakhs and passed the Order for Assessment Year 2011-12 with a refund of ₹ 216.40 lakhs. The Company has submitted a letter dated December 23, 2024 against adjustment of refunds to the AY2010-11 and AY2013-14 for which stay had been granted. The DCIT, Central Circle, Trivandrum has issued Notice of Outstanding Demand dated 12/02/2025 for the block years to which the Company has filed its reply dated 19/02/2025. The Company has filed a Revision Petition before the Principal Commissioner of Income Tax / Central/ Kochi dated April 14, 2025.
2. The Joint Commissioner of Income Tax/Special Range/Trivandrum had raised a demand notice for AY2010-11 aggregating to ₹ 1728.50 lakh on our Company on the alleged grounds that the Company failed to deduct tax on entire payments made to Muthoot Pappachan Consultancy and Management Services, including reimbursement of expenses made towards the employees of the said firm. The stance of the Company was that the tax deducted at source is required to be made only on professional fees paid to the said firm and not on reimbursement of expenses. The Company had remitted ₹ 265 lakh in FY16-17 against the demand. Collection of the balance demand has been stayed by the ACIT/Circle 1(1)/Trivandrum vide order dated July 21, 2016, pending disposal of appeal by the CIT (Appeals), Trivandrum. Subsequently, the Company was required to pay an additional 5% of the demand amounting to ₹ 80.75 lakh for continuation of stay of demand, which was remitted by the Company on September 30, 2022 and stay of balance demand was granted vide order of the ACIT/Central Circle/Trivandrum dated October 4, 2022. The appeal was dismissed by the Commissioner of Income Tax (Appeals)-3, Kochi by Order dated May 27, 2025.
3. The Joint Commissioner of Income Tax/Special Range/Trivandrum had raised a demand notice aggregating to ₹2,065.20 lakh for AY2013-14 alleging that our Company had not furnished Form 15G/H from the debenture holders for the interest paid to them as well as disallowing reimbursement of expenses made to Muthoot Pappachan Consultancy and Management Services for non-deduction of tax at source. ₹ 1,188.51 lakh was adjusted against refunds due to our Company and ₹ 135 lakh was remitted by our Company in FY2016-17 against the said demand.

Collection of demand has been stayed by the ACIT/Circle 1(1)/ Trivandrum vide order dated July 21, 2016, pending disposal of appeal by the CIT (Appeals), Trivandrum. Subsequently, the Company was required to pay an additional 5% of the demand amounting to ₹ 40.35 lakh for continuation of stay of demand, which was remitted by the Company on September 30, 2022 and stay of balance demand was granted vide order of the ACIT/Central Circle/Trivandrum dated 04/10/2022. The appeal was dismissed by the Commissioner of Income Tax (Appeals)-3, Kochi by Order dated 25/04/2025.

4. The Assistant Commissioner of Income Tax, Trivandrum had raised a demand notice for payment of tax deducted at source ("TDS") for alleged short-furnishing of details of Form 15G/H collected from customers pertaining to AY2015-16 with a demand aggregating to ₹3,860.60 lakh. A total of ₹ 786.9 lakh for stay of demand was remitted and an appeal before the Commissioner of Income Tax (Appeals)/Trivandrum was filed. The Commissioner of Income Tax (Appeals)-3, Kochi, has vide order dated December 10, 2021, partly allowed the appeal for the AY2015-16 by directing the Assessing Officer to reconsider the demand made. Accordingly, vide order dated February 11, 2022, the original demand was modified and quantified at ₹ 270.37 lakhs by the Deputy Commissioner of Income Tax (TDS), Trivandrum. The Company has filed a rectification application for giving credit to amounts remitted during the course of the proceedings which has been denied by the Assessing Officer in the last Order issued. The Department had filed an Appeal before the ITAT, Cochin bench against the order passed by the Commissioner of Income Tax (Appeals)-3, Kochi. The ITAT, Cochin bench has passed an order dated August 4, 2022 received by the Company on November 5, 2022, remanding the matter to the files of CIT (Appeals) for giving an opportunity to the Assessing Officer for providing additional details.
5. The Service Tax department had raised demands on certain revenues of our Company for the periods prior to FY12-13. Out of the total demand of ₹ 1,263.21 lakh, the Company had remitted ₹ 384.69 lakhs, the balance of which is pending as disputed. The Commissioner of Central GST & Central Excise vide Order dated October 31, 2017 confirmed a demand of Rs.1,051.71 lakh, appropriated the amount paid of ₹ 384.69 lakhs and imposed a penalty of ₹ 784.56 lakhs. The pending demand relates to the assignment of receivables, wherein the department has stated that the entire receipts are liable to tax. The Company, based on opinions received from its consultants has filed its appeal before the Customs Excise and Service Tax Appellate Tribunal ("CESTAT"), Bangalore, which is pending hearing. Pre-deposit fee of ₹ 50 lakh has been remitted.
6. The Service Tax department had raised demands on our Company on notional consideration arrived on support services provided by the Company to its group concerns aggregating to ₹2,132.10 lakh (including penalty of ₹846.34 lakh). The demand also consisted of disallowance of Central Value Added Tax ("CENVAT") credit. The Company had availed CENVAT credit pertaining to 5 years together in FY 2012-13. Citing that the credit was reported in the returns as Opening balance and not as credit availed during the period, the department has sought to disallow the entire credit, stating that the returns did not show any closing balance of credit as at the end of FY2011-12. Our Company, based on opinions received from its consultants have filed its appeal before the Customs Excise and Service Tax Appellate Tribunal ("CESTAT"), Bangalore, which is pending hearing. ₹ 96.60 lakh has been paid as pre-deposit fee.
7. The Commissioner of Central GST & Central Excise has issued Order-In-Original No. TVM-EXCUS-000-COM-04-20-21 dated August 28, 2020 (issued on September 3, 2020) and TVM-EXCUS-000-COM-05-20-21 dated August 28, 2020 (issued on September 3, 2020) ("Order"), demanding tax amounting to ₹264.34 lakhs and ₹571.94 lakhs and interest thereon, and penalty amounting to ₹264.44 lakhs and ₹57.29 lakhs for the periods 2014-15 to 2016-17 and for the period April 2016 to June 2017 respectively relating to taxability of the amount received as collection agent towards assignment of loan receivables. The demand has been made on the ground that the activity of selling loan portfolios to other financial institutions is taxable and that the differential interest between the interest payable to the assignee and the interest charged to the borrowers is service charges, and hence is liable to tax under Section 66B of the Act. The Company has filed an appeal before the Honorable CESTAT, Bangalore on December 30, 2020.
8. The Deputy Commissioner of Commercial Taxes (Audit) ("DCCT") had issued an order dated December 19, 2023 demanding tax aggregating to ₹ 13,045 lakhs and subsequently issued a revised order dated December 26, 2023 demanding tax aggregating to ₹776.18 lakhs, including interest thereon, and penalty for the period July 2017 to March 2018, alleging short declaration of outward supply, short payment of output tax, excesses claim of outward supplies as exempted and nil GST supply and non-payment of output tax, short declaration on reverse charge mechanism in GSTR-3B. The Company has filed an appeal dated March 28, 2024 against the Order before the Joint Commissioner of Commercial Taxes (Appeals-5).
9. The Assistant Commissioner, Arumbakkam has vide Order passed u/s. 73 of the CGST / TNGST Act, 2017 dated May 24, 2024 demanded tax of ₹566.13 lakhs along with interest and penalty aggregating to ₹530.11 lakhs alleging

claim of excess / ineligible input tax credit by the Company. The Company has filed an appeal against the order on July 2, 2024. A hearing has been posted in connection with re-assessment and the initial order has been quashed vide order dated October 14, 2024.

## **II. Litigations involving the Directors**

### *Civil proceedings involving any director of the Company*

1. M. Mathew has filed a suit before the district court at Kottayam, against the Muthoot Pappachan Group and others alleging infringement of the trademark “MUTHOOT”. The mark “MUTHOOT” has been registered as a trademark by M. Mathew, Chairman and Managing Director of Muthoot Mercantile Limited. Thomas John Muthoot, Thomas George Muthoot and Thomas Muthoot on behalf of "Muthoot Pappachan Group", have contended that “Muthoot” is a family name and they have the right to use the same for their business and also that the Muthoot Pappachan Group was using the same much prior to M. Mathew. The matter is currently pending.
2. Thomas John Muthoot, Thomas George Muthoot and Thomas Muthoot have filed an application before the Intellectual Property Appellate Board, Chennai (“IPAB”), to remove/cancel/rectify the trademark “MUTHOOT”. The mark “MUTHOOT” has been registered as a trademark by M. Mathew, Chairman and Managing Director of Muthoot Mercantile Limited. After the abolition of IPAB, the matter has been transferred to the High Court of Madras and is currently pending before the High Court.
3. During Mr. Paul Abraham’s tenure as the then Chief Manager of New Delhi at ABN Amro Bank (“Bank”), there was an allegation against him, in connection with import of gold coins from Austria by a company without proper compliances, through an account opened with the Bank. Subsequently, a complaint has been lodged before the Additional Chief Judicial Magistrate Court, New Delhi, wherein it was alleged that Mr. Paul Abraham and others arrayed as parties therein, have contravened the provisions of section 6 (4) and (5) of FERA, 1973 read with para 11.D.3 of the Exchange Control Manual. It was contended on behalf of Mr. Paul Abraham that he was not an authorised dealer and hence he cannot be prosecuted against any contravention of above provisions. Further, it was contended that he was only a Chief Manager of ABN Amro Bank, New Delhi Branch and he was not having any overall charge on the day to day affairs of the Bank and also there is no evidence that Mr. Paul Abraham did not act on anything personally which could constitute any offence under the above provisions, therefore arraying him as a party to the proceedings is illegal. The Supreme Court of India in Union of India vs ABN Amro Bank and Ors 2013 (9) SCALE 407 has held that the adjudication proceedings against ABN Amro Bank for violation of Section 6(4) and (5) of FERA, 1973 were illegal and cannot be sustained. This fact has been brought before the Chief Metropolitan Magistrate's court and the case now listed on May 24, 2025 at the stage of charge.

### *Criminal proceedings involving any director of the Company*

1. The service tax department has initiated prosecution against Thomas John Muthoot consequent to a tax claim made on another concern. Technically such prosecution will not lie as no claim was made by the department against Thomas John Muthoot. Also, all actions on the assessment made by the department are currently stayed by the appellate tribunal. However, based on a departmental circular, wherein it is mentioned that they can even initiate criminal action in cases which are stayed by the Tribunal, the department has initiated prosecution before the Chief Judicial Magistrate, Kochi. However, the same is challenged before the high court and the court was pleased to grant a stay in the matter.
2. Complainant third party Ranjith C H filed private complaint against CMD and MFL staff in Chief Metropolitan Magistrate Court, Secunderabad, Court directed Police station Marredpally to register crime and investigate. We have filed petition to quash the FIR against CMD and staff vide Criminal petition No.s 15856 /14 and 15830 /2014 and have obtained stay. Both CRLP’s are disposed off and the FIR quashed.
3. Customer Mohd Sameer Lala had availed 2 Gold Loans for an amount of ₹ 50,012/- and ₹ 48,000/- on August 14, 2017 and February 2, 2019. One was auctioned on September 14, 2019, and the police visited the branch asking for the ornaments. Pursuant to that the ornaments in live account were seized. Due to continued pressure and threat from police to handover ornament/auction amount, we have filed WP 5346/2020 and obtained favorable order not to harass branch staff. Now the charge sheet is filed against customers, CMD and branch manager. We have moved petition to partly quash the charge sheet so that name of branch manager and CMD is deleted. However, the court is not convicted of quashing charges against CMD and branch manager. The matter is currently pending.

### III. Litigations involving Subsidiaries

Except as disclosed below, there are no litigation, there are no litigations involving the subsidiaries:

Muthoot Microfin Limited (“MML”)

#### *Criminal Litigation filed by MML*

1. Muthoot Microfin Limited has, in the ordinary course of its business, filed 10 complaints against various persons under Sections 190, 200 and 357 of the CrPC read with Sections 138 and 142 of the NI Act in relation to dishonour of cheques and recovery of dues. These matters are currently pending at different stages of adjudication before the Judicial First Class Magistrate, Ernakulam. The aggregate amount involved in these matters is ₹2.5 lakhs.
2. Muthoot Microfin Limited has filed 130 complaints against 130 individuals under Sections 190, 200 and 357 of the CrPC read with Section 25 of the PSSA in relation to recovery of dues. The dues were pertaining to default in the repayment of loans availed. The Complaints are currently pending at different stages of adjudication before the Chief Judicial Magistrate’s Court, Ernakulam. The aggregate amount involved in these matters is ₹26.38 lakhs.
3. Muthoot Microfin Limited has filed 20 complaints against former employees of the Company and 106 complaints against third parties under Sections 190 and 200 of the CrPC read with Sections 138 and 142 of the NI Act. These matters are currently pending at different stages of adjudication before the Judicial First Class Magistrate, Ernakulam. The aggregate amount involved in these matters is ₹171.79 lakhs.
4. Muthoot Microfin Limited, in the ordinary course of its business, has filed 390 FIRs, 339 complaints and 20 criminal petitions against its employees and third parties under several Sections of the IPC, before various police authorities

and forums alleging offences *inter alia* relating to robbery, misappropriation of funds, criminal intimidation, assault, forgery and theft committed by certain individuals. The total amount collectively involved in all the complaints, criminal petitions and FIRs is ₹2,088.22 lakhs.

#### *Criminal Litigation filed against MML*

1. A FIR dated November 17, 2022 was filed by Greeshma (“**Complainant**”) under Sections 323, 341, 354, 451 read with Section 34 of the IPC against the employees of Muthoot Microfin Limited, namely, Sujesh M S, branch manager, Rohit M G, collection executive and Akshay M.A, assistant branch manager (collectively, the “**Respondents**”), for assaulting and outraging the modesty of the Complainant. Subsequently, the Respondents filed for an anticipatory bail application bearing number 9398 dated November 18, 2022 before the High Court of Kerala (the “**High Court**”). The High Court pursuant to its order dated December 5, 2022 granted an anticipatory bail to the Respondents. The matter is currently pending investigation.

#### *Actions taken by Regulatory and Statutory Authorities*

1. The Directorate of Enforcement, Kochi Zonal Office, Ministry of Finance, Government of India (“ED”) has issued a summon dated December 7, 2022, bearing number FEMA/SUMMON/KCZO/2022/365, to our Managing Director, under Sections 37(1) and 37(3) of the Foreign Exchange Management Act, 1999 (“FEMA”) read with Section 131(1) 363 of the IT Act and Section 30 of the Code of Civil Procedure, 1908, each as amended, directing him to make a personal appearance at the office of the ED to provide evidence and to produce books of accounts and other documents, inter alia, details of bank accounts maintained by him, his family members and our Company, details of movable and immovable properties purchased/ sold in their names, copies of income tax returns filed by our Managing Director from financial year 2016-17 onwards, details of companies, firms, concerns, where our Managing Director is a director, partner or a proprietor, source of funds together with supporting documents in relation to cash deposited amounting to ₹ 44,172,643 during the demonetization period and copy of financial statements including balance sheet & profit and loss of our Company from financial year 2016-17 onwards. Subsequently, similar summons dated January 4, 2023 and January 10, 2023 bearing number FEMA/SUMMON/KCZO/2022/377 and FEMA/SUMMON/KCZO/2023/399, respectively, were issued to our Managing Director (collectively referred to “Summons”). Our Company representatives appeared before the ED and submitted the required information and documents as required by ED pursuant to its Summons. Subsequent to the aforesaid personal hearings, neither our Managing Director nor our Company have received any further communication from the ED in this regard.

Please also refer to, “*Risk Factors – Risk Factor # 33 - We and some of our Subsidiaries, Directors and Promoters are involved in various legal and other proceedings that if determined against us could have a material adverse effect on our business, financial condition and results of operations.*” on page 31.

#### **IV. Litigations involving Group Companies**

Except as disclosed below, there are no civil, criminal, regulatory or tax proceedings involving our Group Companies.

##### **A. Civil proceedings involving the Group Companies**

##### **MPG Hotels & Infrastructure Ventures Private Limited (“MPG Hotels”)**

1. The Company issued a purchase order to R K Sales, a proprietary concern for the supply of doors, wardrobe, etc. for its 5 star hotel at Trivandrum. The said party supplied defective goods which it agreed to replace as per communications with MPG Hotels. However, the replaced goods were also defective and hence MPG Hotels procured the goods from other suppliers. Since the party supplied inferior quality goods, MPG Hotels did not pay for the said goods. The party filed a claim petition before UP State Micro & Small Enterprises Facilitation Council and preliminary objection was filed by MPG Hotels. However, pending conciliation, the Council passed an order directing to pay an amount of ₹ 92,69,453 and an interest of ₹ 97,89,300.41, aggregating to a total of ₹ 1,90,58,753.41. Aggrieved by the said award, MPG Hotels has filed the Writ Petition. The order of the council is stayed by the Allahabad, High Court. The matter is now pending undergoing arbitration proceedings before MSEFC, Meerut Zone.
2. MPG Hotels built a software complex Muthoot Technopolis within the Cochin Special Economic Zone Authority (“CSEZA”), wherein software companies are the occupants. CSEZA is the distribution licensee for electricity supply. MPG Hotels was to provide electricity supply connections to sub-lessee/purchasers in Muthoot Technopolis and to collect charges. At all times the MPG Hotels performed as per the conditions laid down by CSEZA. This licensee CSEZA has no case that, MPG Hotels violated any of the conditions stipulated therein. As required by the licensee and

as insisted, MPG Hotels shared electricity from High Tension (“HT”) electric connection with the subleases/purchasers of Muthoot Technopolis. The licensee never asked MPG Hotels to collect electricity duty @ 10% of energy charges from the subleases / purchasers and never required MPG Hotels to remit it to the licensee or to the state government. The licensee collected electricity duty at HT rates for the entire consumption of electricity metered at the point of supply. As a consumer of HT electricity under CSEZA distribution licensee, MPG Hotels did everything as required by the licensee only. Thereby, MPG Hotels is not at all liable to pay electricity duty applicable to Low Tension (“LT”) electricity supply which was never used by MPG Hotels and which was used by others as required by the licensee. A demand notice for ₹ 91,09,820.00 towards electricity duty arrears for the period from April, 2011 to March, 2016 dated March 2, 2017 has been issued to MPG Hotels. A writ petition has been filed by MPG Hotels praying to quash the demand notice and notice of disconnection. The court has stayed the operation of the notice of disconnection. Matter is currently pending.

## B. Tax Litigation

### MPG Hotels & Infrastructure Ventures Private Limited (“MPG Hotels”)

1. Demand of ₹ 39,64,662/- raised by the Commissioner of Central Excise and Customs, Thiruvananthapuram, towards Service-tax and also for the penalty of Rs.29,41,928/- imposed u/S.78 of the Finance Act for the default on remittance of Service-tax which is disputed on appeal before the higher authorities. The appeal filed by the company before the Customs, Excise and Service Tax Appellate Tribunal against the said order is pending disposal and management hopes to succeed on the appeal.
2. The Tahasildar of Kanayannur Taluk has raised a demand of Rs.56,07,000 towards building tax in respect of the Technopolis building at Kakkanad and the company has obtained stay from the Hon High Court of Kerala against enforcement of the demand. An amount of Rs.28,03,500 has been remitted by the Company based on the interim order of the High Court.

### MPG Security Group Pvt Ltd (“MPGSG”)

1. MPGSG has availed various services from OM Security and Services, Ideas Innovation Squared Technologies Pvt Limited and Softcall Cust-O-Care Pvt. Ltd in their regular course of business. Further, MPGSG has availed GST input credit against such services availed and charges paid to such service providers. It appears that these service providers have filed their GST returns after their respective due dates and therefore, the department has taken a stand that MPGSG is ineligible for the credit claimed. The State Tax Officer, Central Tax, Thane, Maharashtra (“State Tax Officer”) issued a show-cause notice to MPGSG dated March 11, 2022, for an amount of ₹ 13,16,326. The matter has been closed *vide* order dated November 11, 2022.
2. The Superintendent of CGST & Central Excise, Range IV, Purasawalkam Division, Chennai North Commissionerate, Tamilnadu has passed an order dated April 16, 2024 demanding tax and penalty aggregating to ₹ 2,26,756/- and interest thereon alleging non-reversal of Input Tax Credit against credit notes issued by suppliers. The Company has decided to contest the matter and has filed an appeal against the order on July 11, 2024. Subsequently, with the introduction of an Amnesty Scheme allowing taxpayers to settle the matter by paying only the principal tax amount without any liability towards interest and penalty, the Company opted to avail the benefit under the scheme. Accordingly, the principal demand amount was remitted, and the appeal was withdrawn.

### Muthoot Exim Pvt. Ltd. (“MEPL”)

1. MEPL was the consignment agent of M/s. Rajesh Exports Ltd. (“REL”). MEPL sold the gold ornaments supplied by REL on commission basis. MEPL had not paid the Service Tax on commission earlier but remitted along with interest before the issuance of the show cause notice. But department imposed 100% penalty of ₹ 82,04,594 under section 78 with an additional penalty of ₹ 10,000 under section 77 of the Finance Act, 1994 even after remitting the Service Tax with interest. The provisions of Section 78 provide that where penalty demanded has been paid within 30 days from the date of receipt of the Order, 25% of the demanded amount may be paid along with interest to conclude the demand. MEPL has remitted 25% of the demanded amount of ₹ 20,51,150 and ₹ 10,000 within the said 30 days and filed an appeal before CESTAT against the order. The matter is pending.
2. MEPL received a notice (33871122485/2020/A3 dated 14/02/2020) from the commercial tax department, Tamil Nadu towards the CST assessment FY 2015-16 and 2016-17 with a demand amount of ₹ 22,34,708. Department asked us to produce the books of accounts along with F Form. We have submitted all the documents and cleared all the queries except F Form as it must be issued from the Maharashtra commercial tax department. We have forwarded a request to

the MVAT department to get the F Form. But they have not yet given the timeline to issue the F Form as they will consider the request based on the FIFO method. We have intimated the same to the Tamil Nadu commercial tax department, but the assessing officer denied giving extension and also, they have withheld the demand amount of ₹22,34,708 in Current Account.

3. We have filed a writ petition on 25/02/2020 before hon'ble high court of Madras by paying 25% of the demand amount (₹5,58,800) to the Tamil Nadu VAT department and successfully released the lien amount from the bank. Considering the delay in receiving the Form F from Maharashtra, we paid the balance liability amount of ₹ 18,40,567/- and applied for refund. MEPL is now awaiting the Form F from Maharashtra to proceed further.
4. MEPL received a demand order (MUM-VAT-E-822/27450710371C/CST/CST/2020-21/2521131 dated 30/06/2020) from the commercial tax department of Maharashtra towards the CST assessment FY 2015-16 with a demand amount of ₹ 29,50,565. Department asked us to produce the books of accounts along with F form and C form. We have submitted all the documents and cleared all the queries except F form and C form as it must be issued from the Commercial tax department of various states. We have not yet received required forms from respective states. We have intimated the same with the Maharashtra commercial tax department, but the assessing officer denied giving extension and they have withheld the demand amount of ₹29,50,565 in Current Account.

We have filed an appeal to Maharashtra VAT department on April 17, 2021 for getting extension towards the submission of required documents and also to release the withheld amount. Now awaiting revert from the MVAT department to know the status of our appeal application and way forward.

MEPL Bank Account (SBI) has been frozen by Delhi Commercial Tax Department on October 31, 2022 by considering Delhi VAT assessment FY 2016-17 & 2017-18 which we have filed an appeal on November 10, 2022 by highlighting the Tax Computation error against the demand of ₹ 28,84,654 and we have successfully released the bank attachment. The appeal is pending.

#### Muthoot Automotive (India) Private Limited (“MAIPL”)

1. Kerala VAT has taken the position that MAIPL's turnover is not liable for VAT and service tax was added back to VAT liability. Sales made by MAIPL to various canteen stores ordinarily taxable at a rate of 7.25%, have been assessed by the Kerala VAT at 14.5%. The matter is pending before the Appellate Tribunal.
2. Office of the Deputy Commissioner, Central Tax and Central Excise has passed an order against the excess availment of input tax credit for FY 2019-2020. Instead of reducing from the Input tax, MAIPL paid tax for the same and the tax effect is NIL. The Appeal is pending to be filed against the Order of Dy. Commissioner.
3. Office of the Deputy Commissioner, Central Tax and Central Excise has passed an order against Short payment of tax via GSTR 3B than declared in GSTR 9 for the FY 2020-21, excess availment of input tax credit for FY 2020-21., excess tax paid in FY 2018-19 and 2019-20 adjusted with the GSTR 3B filed for FY 2020-21., and mismatch in excess ITC claim for FY 2020-21 is due to ITC claim related to FY 2019-20 invoices.

#### Muthoot Hotels Private Limited

1. KGST demands relating to the A.Y 2007-08 and 2008-09 & 2013-14 aggregating to ₹34,05,551/- are pending final disposal by the assessing authorities as per directions of the appellate authority. The company is hopeful of getting the demand cancelled by producing the requisite documentary evidences and the amount remitted under protest against the above is amounting to ₹11,77,240/-.
2. Luxury tax demand relating to A.Y.2005-06, 2007-08, 2012-13 & 2013-14 amounting to ₹29,96,071 which are disputed by the company on appeal before Kerala Sales Tax Appellate Tribunal. Since the company is confident of succeeding on the appeal, this is not provided for. Amount of ₹3,23,981/- remitted under protest against the above demand is carried forward under long term loans and advances.
3. VAT demands relating to the A.Y.2014-15 & 2015-16 aggregating to ₹77,47,095/- are pending final disposal by the assessing authorities. The company has produced the requisite documentary evidences and the amount remitted under protest against the above is amounting to ₹15,49,419/-.

#### MPG Hotels & Infrastructure Ventures Private Limited (“MPG Hotels”)

1. Demand of Rs.39,64,662/- raised by the Commissioner of Central Excise and Customs, Thiruvananthapuram, towards Service-tax and also for the penalty of Rs.29,41,928/- imposed u/S.78 of the Finance Act for the default on remittance of Service-tax which is disputed on appeal before the higher authorities. The appeal filed by the company before the Customs, Excise and Service Tax Appellate Tribunal against the said order is pending disposal.
2. The Tahasildar of Kanayannur Taluk has raised a demand of Rs.56,07,000 towards building tax in respect of the Technopolis building at Kakkanad and the company has obtained stay from the Hon High Court of Kerala against enforcement of the demand. An amount of Rs.28,03,500 has been remitted by the Company based on the interim order of the High Court.

#### Muthoot Motors (Cochin)

1. Office of the Deputy Commissioner, Central Tax and Central Excise has passed an order against the excess availment of input tax credit for FY 2019-2020. The adjustment of amount excessively paid in FY 2018-19 with input GST in FY 2019-20 was wrongly disallowed. The adjustment of excess CGST and SGST paid during FY 2018-19 against output GST during FY 2019-20 was wrongly disallowed. The Appeal is pending to be filed against the Commissioner of Central taxes and Central excise (Appeals), Cochin.

#### Criminal proceedings involving the Group Companies

\*The aggregate amount does not include writ petition, W.P. (C) No. 22768/ 2020 dated October 22, 2020 filed by the Company before the Hon'ble High Court of Kerala against Union of India & others, as there are no monetary amounts involved in the case.

\*\*This number is inclusive of the cases filed by the company under Section 138 of the Negotiable Instruments Act, 1881, Sections 342, 365, 387, 397, 392, 384, 420 of IPC and Section 156(3) of the Code of Criminal Procedure, 1973.

\*\*\*This number is inclusive of the complaints filed under Sections 190, 200 and 357 of the CrPC read with Sections 138 and 142 of the NI Act, Sections 190 and 200 of the CrPC read with Sections 138 and 142 of the NI Act and FIRs and complaints filed in the ordinary course of business.

## REGULATIONS AND POLICIES

*The regulations summarized below are not exhaustive and are only intended to provide general information to Investors and are neither designed nor intended to be a substitute for any professional legal advice. Taxation statutes such as the IT Act, GST laws (including CGST, SGST and IGST) and applicable local sales tax statutes, labour regulations such as the Employees State Insurance Act, 1948 and the Employees Provident Fund and Miscellaneous Provisions, Act, 1952, and other miscellaneous regulations such as the Trade Marks Act, 1999 and applicable Shops and Establishments statutes apply to us as they do to any other Indian company and therefore have not been detailed below.*

*The following description is a summary of certain sector specific laws and regulations in India, which are applicable to our Company. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of the Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.*

Our Company is a non-banking financial company (NBFC) – Middle Layer which does not accept public deposits. As such, our business activities are *inter-alia* regulated by RBI regulations applicable to a Non-Deposit taking Non-Banking Financial Company – Middle Layer.

### **Principal business criteria and NBFC classification**

As per the RBI Act, a non-banking financial company means (i) a financial institution which is a company, (ii) a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner, (iii) such other non-banking institution or class of such institutions, as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

The RBI Act, further defines a ‘financial institution’ to mean a non-banking institution which, among other things, includes carrying on the business or as part of its business, financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own or the acquisition of shares/stock/bonds/debentures/securities issued by the Government of India or other local authorities or other marketable securities of like nature.

RBI has clarified through a press release (*Ref. No. 1998-99/1269*) issued in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide a company’s principal business. The company will be treated as an NBFC if its financial assets are more than 50 per cent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 per cent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalisation of the balance sheet and in any case, not later than December 30 of that year, *inter-alia* stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

Being an NBFC, our Company is *inter-alia* governed by the RBI Act, the Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 and the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 2016. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

The major regulations governing our Company are detailed below:

In terms of the Master Direction- Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 dated October 19, 2023 (“RBI Master Directions”), NBFCs have been categorised into following four layers based on their size, activity, and perceived riskiness by the RBI:

- i) NBFC- Base Layer (“NBFC-BL”);
- ii) NBFC- Middle Layer (“NBFC-ML”);
- iii) NBFC- Upper layer (“NBFC-UL”); and
- iv) NBFC- Top Layer (“NBFC-TL”)

The NBFC- BL comprise of (a) non-deposit taking NBFCs below the asset size of ₹ 1,00,000 lakhs and (b) NBFCs undertaking the following activities- (i) NBFC-Peer to Peer Lending Platform (NBFC-P2P), (ii) NBFC-Account

Aggregator (NBFC-AA), (iii) Non-Operative Financial Holding Company (NOFHC) and (iv) NBFCs not availing public funds and not having any customer interface.

The NBFC- ML consist of (a) all deposit taking NBFCs (“NBFC-Ds”), irrespective of asset size, (b) non-deposit taking NBFCs with asset size of ₹ 1,00,000 lakhs and above and (c) NBFCs undertaking the following activities (i) Standalone Primary Dealers (“SPDs”)– (ii) Infrastructure Debt Fund - Non-Banking Financial Companies (“IDF-NBFCs”), (iii) Core Investment Companies (“CICs”), (iv) Housing Finance Companies (“HFCs”) and (v) Infrastructure Finance Companies (“NBFC-IFCs”).

The NBFC-UL comprise of those NBFCs which are specifically identified by RBI as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology as provided in appendix to RBI Master Directions. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

The NBFC-TL will ideally remain empty. This layer can get populated if RBI is of the opinion that there is a substantial increase in the potential systemic risk from specific NBFC-Upper Layer. Such NBFC shall move to the NBFC-Top Layer.

As on date of filing of this Tranche VI Prospectus the Company falls under the category of NBFC-ML, as its assets size is above ₹ 1,00,000 lakhs, as per the last audited balance sheet.

#### *Rating of NBFCs*

Pursuant to the RBI Master Directions, all applicable NBFCs are required to furnish information about downgrading / upgrading of assigned rating of any financial product issued by them, within fifteen days of such a change in rating, to the regional office of the RBI under whose jurisdiction their registered office is functioning.

#### *Prudential Norms*

The RBI Master Directions amongst other requirements prescribe guidelines regarding capital requirement, income recognition, asset classification, provisioning requirements, capital adequacy requirements, concentration of credit/ investment, etc.

#### *Provisioning Requirements*

Every applicable NBFC after taking into account the time lag between an account becoming non-performing, its recognition as such, the realisation of the security and erosion overtime in the value of the security charged, shall make provisions against sub-standard assets, doubtful assets and loss assets in the manner provided for in the RBI Master Directions.

In the interests of counter cyclicalities and so as to ensure that NBFCs create a financial buffer to protect them from the effect of economic downturns, RBI vide its circular no. DNBS.PD.CC. No.207/ 03.02.002 /2010-11 dated January 17, 2011, introduced provisioning for standard assets by all NBFCs at the rate of 0.25 per cent of the outstanding standard assets. Subsequently, RBI vide its circular no. DNBR (PD) CC No. 037/03.01.001/2014-15 dated June 03, 2015 raised the provision for standard assets to 0.40 per cent to be met by March 2018. The general provisions on standard assets are not reckoned for arriving at Net NPAs. However, the general provisions towards standard assets are not needed to be netted from gross advances but shall be shown separately as ‘Contingent Provisions against Standard Assets in the balance sheet. NBFCs are allowed to include the ‘General Provisions on Standard Assets’ in Tier 2 Capital which together with other ‘general provisions/ loss reserves’ will be admitted as Tier 2 Capital only up to a maximum of 1.25 per cent of the total risk-weighted assets.

#### *Capital Adequacy Norms*

In terms of the RBI Master Directions, NBFCs – Middle Layer are required to maintain, a minimum capital ratio consisting of Tier 1 and Tier 2 capital which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items. The Tier 1 capital in respect of NBFCs – Middle Layer (except NBFC-MFI and NBFC primarily engaged in lending against gold jewellery), at any point of time, shall not be less than 10 per cent.

“Tier 1 Capital” means owned fund as reduced by investment in shares of other non-banking financial companies and in shares, debentures, bonds, outstanding loans and advances including hire purchase and lease finance made to and deposits with subsidiaries and companies in the same group exceeding, in aggregate, ten per cent of the owned fund; and perpetual debt instruments issued by a non-deposit taking non-banking financial company in each year to the extent it does not exceed 15 per cent of the aggregate Tier 1 Capital of such company as on March 31 of the previous accounting year.

*Owned Funds* are defined as paid-up equity capital, preference shares which are compulsorily convertible into equity, free reserves, balance in share premium account; capital reserve representing surplus arising out of sale proceeds of asset, excluding reserves created by revaluation of assets; less accumulated loss balance, book value of intangible assets and deferred revenue expenditure, if any.

Tier 2 Capital includes the following (a) preference shares other than those which are compulsorily convertible into equity; (b) revaluation reserves at discounted rate of 55%; (c) general provisions (including that for standard assets) and loss reserves to the extent these are not attributable to actual diminution in value or identifiable potential loss in any specific asset and are available to meet unexpected losses, to the extent of one-and-one-fourth percent of risk weighted assets; (d) hybrid debt capital instruments; and (e) subordinated debt; and (f) perpetual debt instrument issued by non-deposit taking non-banking financial company, which is in excess of what qualifies for Tier 1 Capital, to the extent that the aggregate does not exceed Tier 1 Capital.

*Hybrid debt* means, capital instrument, which possess certain characteristics of equity as well as debt.

*Subordinated debt* means an instrument, which is fully paid up, is unsecured and is subordinated to the claims of other creditors and is free from restrictive clauses and is not redeemable at the instance of the holder or without the consent of the supervisory authority of the NBFC. The book value of such instrument is subjected to discounting as prescribed under the RBI Master Directions and to the extent such discounted value does not exceed fifty percent of Tier 1 capital.

#### *Asset Classification*

The RBI Master Directions require that every applicable NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

- Standard assets;
- Sub-standard Assets;
- Doubtful Assets; and
- Loss assets

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such upgradation. At present every NBFC-ML is required to make a general provision for standard assets at 0.40 per cent.

#### *Other stipulations on policies*

Applicable NBFCs are required to frame board approved policies *inter alia* including, (i) a policy for demand and call loan; (ii) liquidity risk management policy; (iii) policy on outsourcing; (iv) fair practice code; (v) policies under the Information Technology Framework for the NBFC Sector; (vi) interest rate model policy; (vii) investment policy; (viii) know your customer/ anti-money laundering policy; (ix) policy for ascertaining the fit and proper criteria of the directors at the time of appointment, and on a continuing basis.

The prudential norms also specifically prohibit NBFCs from lending against its own shares.

#### *Net Owned Fund*

Section 45-IA(1)(b) of the RBI Act, 1934, mandates that any company carrying on the business of an NBFC must have a minimum Net Owned Fund (“NOF”) of ₹ 25 lakh, or such other higher amount (not exceeding ₹ 100 crore) as the RBI may specify by notification in the Official Gazette. Exercising that power, the RBI, *vide* the Master Directions, has specified that NBFC-ICC, NBFC-MFI and NBFC-Factor must maintain NOF of ₹ 10 crore *ab initio*, while NBFC-P2P, NBFC-AA and NBFCs not availing public funds and without customer interface must maintain ₹ 2 crore, and further, NBFC-IFC and IDF-NBFC must maintain ₹ 300 crore. It also provides a glide path for existing NBFC-ICC, NBFC-MFI and NBFC-Factor to achieve NOF of ₹ 10 crore (from their current NOF to ₹ 5 crore by March 31, 2025 and to ₹ 10 crore by March 31, 2027).

#### *Reserve Fund*

In addition to the above, Section 45-IC of the RBI Act requires NBFCs (unless exempted by the Central Government on the recommendation of the RBI under Section 45-IC(3)) to create a reserve fund and transfer therein a sum of not less than 20% of its net profits earned annually before declaration of dividend. Such sum cannot be appropriated by the NBFC except for the purpose as may be specified by the RBI from time to time and every such appropriation is required to be reported to the RBI within 21 days from the date of such appropriation.

Information with respect to change of address, directors, auditors, etc. to RBI

Applicable NBFCs are required to inform the RBI (Regional Office of the Department of Supervision of the Bank) of any

change in the address, telephone numbers, etc. of its registered office, names and addresses of its directors/auditors, names and designations of its principal officers, the specimen signatures of its authorised signatories, within one month from the occurrence of such an event.

*Reserve Bank of India (Know Your Customer (KYC)) Master Directions, 2016 dated February 25, 2016, as amended (“RBI KYC Directions”) and Prevention of Money-Laundering Act, 2002*

The RBI KYC Directions have been extended inter-alia to all NBFCs, and in terms of the RBI KYC Directions, every entity regulated thereunder is required to formulate a KYC policy which is duly approved by the board of directors of such entity or a duly constituted committee thereof. The KYC policy formulated in terms of the RBI KYC Directions is required to include four key elements, being customer acceptance policy, risk management, customer identification procedures and monitoring of transactions. It is advised that all NBFCs adopt the same with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework of anti-money laundering measures is put in place, to ensure adherence to RBI KYC Directions.

Further, all NBFCs are required to adhere to provisions of Prevention of Money Laundering Act, 2002, the Prevention of Money Laundering (Maintenance of Records) Rules, 2005, and rules, circulars and regulations issued thereunder, as amended from time to time. The NBFCs are required to introduce a system of maintaining proper record of transactions prescribed under Rule 3 of Prevention of Money Laundering (Maintenance of Records) Rules, 2005

#### *Accounting Standards & Accounting policies*

NBFCs that are required to implement Indian Accounting Standards (“Ind AS”) as per the Companies (Indian Accounting Standards) Rules, 2015 (“Accounting Standard Rules”) shall prepare their financial statements in accordance with Ind AS notified by the Government of India and shall comply with the regulatory guidance specified in the RBI Master Directions. Disclosure requirements for notes to accounts specified in the RBI Master Directions shall continue to apply. The Ministry of Corporate Affairs (“MCA”), in its press release dated January 18, 2016, issued a roadmap for implementation of Ind AS converged with IFRS for non-banking financial companies, scheduled commercial banks, insurers, and insurance companies. RBI vide its circular dated February 11, 2016, inter alia specified that scheduled commercial banks (excluding RRBs) shall follow the Indian Accounting Standards as notified under the Companies (Indian Accounting Standards) Rules, 2015, subject to any guideline or direction issued by the Reserve Bank in this regard in the manner provided in the said circular. The Accounting Standard Rules were subsequently amended by MCA Notification dated March 30, 2016. Ind AS is applicable to our Company with effect from April 1, 2020.

#### *Implementation of Indian Accounting Standards: RBI Notification*

The Reserve bank of India vide notification number RBI/2019-20/170 DOR (NBFC).CC.PD.No.109/22.10.106/ 2019-20 dated March 13, 2020 framed regulatory guidance on Ind AS which is applicable on Ind AS implementing NBFCs and Asset Reconstruction Companies (ARCs) for preparation of their financial statements from financial year 2019-20 onwards. These guidelines focus on the need to ensure consistency in the application of the accounting standards in specific areas, including asset classification and provisioning, and provide clarifications on regulatory capital in light of Ind AS implementation.

#### *Master Direction- Non-Banking Financial Company Returns (Reserve Bank) Directions, 2016*

The directions lists down detailed instructions in relation to submission of returns, including their periodicity, reporting time, due date, purpose and the requirement of filing such returns by various categories of NBFCs.

#### *Implementation of Green Initiative of the Government*

All applicable NBFCs are required take proactive steps for increasing the use of electronic payment systems, elimination of post-dated cheques and gradual phase-out of cheques in their day to day business transactions which would result in more cost-effective transactions and faster and accurate settlements.

#### *Guidelines for Appointment of Statutory Central Auditors (SCAs)/Statutory Auditors (SAs) of Commercial Banks (excluding RRBs), UCBs and NBFCs (including HFCs) dated April 27, 2021*

The circular puts in place regulations for ensuring independence of auditors, avoiding conflict of interest in auditor’s appointments and to improve the quality and standards of audit in RBI Regulated Entities.

#### *Master Direction – Non-Banking Financial Companies Auditor’s Report (Reserve Bank) Directions, 2016*

In addition to the report made by the auditor under Section 143 of the Companies Act, 2013 on the accounts of an NBFC , the auditor shall make a separate report to the Board of Directors of the company on *inter alia* examination of validity of certificate of registration obtained from the RBI, whether the NBFC is entitled to continue to hold such certificate of

registration in terms of its Principal Business Criteria (financial asset / income pattern) as on 31<sup>st</sup> March of the applicable year, whether the NBFC is meeting the required net owned fund requirement, whether the board of directors has passed a resolution for non-acceptance of public deposits, whether the company has accepted any public deposits during the applicable year, whether the company has complied with the prudential norms relating to income recognition, accounting standards, asset classification and provisioning for bad and doubtful debts as applicable to it, whether the capital adequacy ratio as disclosed in the return submitted to the RBI in NBS-7 (DNBS03), has been correctly arrived at and whether such ratio is in compliance with the minimum CRAR prescribed by RBI, whether the company has furnished to RBI the annual statement of capital funds, risk assets/exposures and risk asset ratio within the stipulated period.

Where the statement regarding any of the items referred in the auditor certificate above, is unfavorable or qualified, or in the opinion of the auditor the company has not complied with the regulations issued by RBI, it shall be the obligation of the auditor to make a report containing the details of such unfavourable or qualified statements and/or about the non-compliance, as the case may be, in respect of the company to the concerned Regional Office of the Department of Non-Banking Supervision of the RBI under whose jurisdiction the registered office of the company is located.

#### *Risk-Based Internal Audit (RBIA)*

An independent and effective internal audit function in a financial entity provides vital assurance to the board of directors and its senior management of NBFC regarding the quality and effectiveness of the entity's internal control, risk management and governance framework. The essential requirements for a robust internal audit function include, inter alia, sufficient authority, proper stature, independence, adequate resources and professional competence. RBI vide its circular dated February 03, 2021, *inter-alia* mandated all non-deposit taking NBFCs (including Core Investment Companies) with asset size of ₹ 5,00,000 lakhs and above to implement the RBIA framework by March 31, 2022.

#### *Master Direction on Information Technology Framework for the NBFC Sector, 2017*

All NBFCs shall have a board approved Information Technology policy/Information system policy. This policy may be designed considering the basic standards stipulated in the said directions.

In November 2023, the RBI issued the Reserve Bank of India (Information Technology Governance, Risk, Controls and Assurance Practices) Directions, 2023 which have come into effect from April 01, 2024. These directions incorporate, consolidate and update the guidelines, instructions and circulars on IT Governance, Risk, Controls, Assurance Practices and Business Continuity/ Disaster Recovery Management. Accordingly, the Master Direction on Information Technology Framework for the NBFC Sector, 2017 will stand repealed with effect from April 01, 2024 for NBFC – Middle Layer, NBFC – Upper Layer and NBFC – Top Layer.

#### *Master Direction - Monitoring of Frauds in NBFCs (Reserve Bank) Directions, 2016*

RBI has issued Monitoring of Frauds in NBFCs (Reserve Bank) Directions, 2016 ("Fraud Directions, 2016"). As per the Fraud Directions, 2016, NBFCs are required to put in place a reporting system for recording frauds without any delay. NBFCs are required to fix staff accountability in respect of delays in reporting of fraud cases to the RBI. In order to maintain uniformity in reporting frauds, the Fraud Directions, 2016, prescribe the manner of classification of frauds. Such NBFCs are required to report frauds committed to various bodies like the board, the audit committee, the RBI and the police authorities, depending on the amount involved in the fraud. In terms of the Fraud Directions, 2016 such NBFCs shall disclose the amount related to fraud reported by the NBFC for the year in their balance sheet.

#### *Directions on Managing Risks and Code of Conduct in Outsourcing of Financial Services by NBFCs*

With a view to put in place necessary safeguards applicable to outsourcing of activities by NBFCs, the RBI has issued directions on managing risks and code of conduct in outsourcing of financial services by NBFCs ("Outsourcing Directions"). The Outsourcing Directions specify that core management functions including internal audit, strategic and compliance functions, decision making functions such as determining compliance with KYC norms, according sanction for loans, shall not be outsourced by NBFCs. However, for NBFCs in a group/conglomerate, these functions may be outsourced within the group subject to compliance with instructions in the Outsourcing Directions. Further, while internal audit function itself is a management process, the internal auditors can be on contract.

#### *Fair practice code*

Applicable NBFCs having customer interface should mandatorily adopt the guidelines on fair practices to be adhered to while conducting business. The guidelines require that all communications to the borrower shall be in the vernacular language or a language as understood by the borrower. Also, loan application forms shall include necessary information which affects the interest of the borrower, so that a meaningful comparison with the terms and conditions offered by other NBFCs can be made and informed decision can be taken by the borrower. Such NBFCs should also give notice to the borrower in the vernacular language or a language as understood by the borrower of any change in the terms and conditions

including disbursement schedule, interest rates, service charges, prepayment charges etc. Such NBFCs shall also ensure that changes in interest rates and charges are effected only prospectively.

In order to regulate charging of excessive interest rates, applicable NBFCs are required to adopt an interest rate model. The rate of interest and the approach for gradations of risk and rationale for charging different rate of interest to different categories of borrowers shall be explicitly disclosed to the borrower. In the matter of recovery of loans, such NBFCs shall not resort to undue harassment methods which include persistently bothering the borrowers at odd hours, use of muscle power for recovery of loans etc. Such NBFCs shall also ensure that the staffs are adequately trained to deal with the customers in an appropriate manner.

Also, NBFC-ML are required to lay down an appropriate grievance redressal mechanism within the organisation.

#### *Ombudsman scheme for customers of NBFCs*

The RBI has on November 12, 2021 introduced the Reserve Bank - Integrated Ombudsman Scheme, 2021 (the “**Scheme**”). The Scheme integrates three ombudsman schemes of RBI namely, (i) the Banking Ombudsman Scheme, 2006; (ii) the Ombudsman Scheme for Non-Banking Financial Companies, 2018; and (iii) the Ombudsman Scheme for Digital Transactions, 2019. The Scheme makes ‘deficiency in services’ as ground for filing complaints with certain exceptions.

The responsibility of representing the NBFC and furnishing information in respect of complaints filed by customers against the NBFC would be that of the principal nodal officer in the rank of a general manager or equivalent. The NBFC will not have the right to appeal in cases where an award is issued by the ombudsman against it on account of non-response or non-furnishing of information sought within stipulated time.

A complaint may be lodged online through the portal designed for the purpose (<https://cms.rbi.org.in>). The complaint may also be submitted through electronic or physical mode to the Centralised Receipt and Processing Centre as notified by the RBI. The ombudsman is entitled to call for certified copy of documents from the NBFC and the ombudsman is required to maintain confidentiality in relation to the same. The proceedings before the ombudsman shall be summary in nature. The Ombudsman’s award shall contain, inter alia, the direction, if any, to the NBFC for specific performance of its obligations and in addition to or otherwise, the amount, if any, to be paid by the NBFC to the complainant by way of compensation for any loss suffered by the complainant.

#### *Asset Liability Management (“ALM”)*

Non-deposit-taking NBFCs with an asset size of ₹ 10,000 lakh and above, and all deposit-taking NBFCs, irrespective of size (excluding Type I NBFC-NDs, NOFHCs and standalone Primary Dealers) must comply with the RBI’s Guidelines on Liquidity Risk Management Framework for Non-Banking Financial Companies and Core Investment Companies (“**Liquidity Framework**”) issued *vide* Notification DOR.NBFC (PD) CC. No.102/03.10.001/2019-20 dated November 4, 2019 (now Annex VI to the Master Directions). The Liquidity Framework requires the Board to ensure maintenance of sufficient liquidity, including a cushion of unencumbered, high-quality liquid assets, to withstand a range of stress events (covering loss or impairment of unsecured and secured funding). The policy must address entity-level liquidity tolerance, funding strategies, prudential limits, measurement and monitoring systems, stress-testing frameworks, contingent funding plans, scenario-based liquidity projection (with periodic review of assumptions), and consolidated structural liquidity reporting. Cumulative negative mismatches in the 1-7 day, 8-14 day and 15-30 day buckets of the structural statement shall not exceed 10%, 10% and 20% respectively of cumulative outflows; mismatches across other up-to-one-year buckets must be governed by board-approved internal limits. NBFCs are also required to manage currency-risk and interest-rate risk under the same Framework.

The Liquidity Framework mandates a three-tier organisational set-up for ALM:

1. Board of Directors: overall responsibility for liquidity-risk management strategy and policy approval
2. Asset Liability Management Committee (“**ALCO**”): chaired by the CEO / MD or an Executive Director, responsible for implementing the Board’s liquidity policy, setting risk tolerances, overseeing funding decisions, determining desired maturity profiles and mix of incremental assets / liabilities, and ensuring adherence to prudential limits.
3. ALM Support Group: operating-staff unit tasked with detailed analysis, monitoring, reporting and review of the NBFC’s liquidity profile to the ALCO.

This structure aims to ensure clear lines of accountability and effective oversight of liquidity-risk across the organisation.

*Reserve Bank of India (Digital Lending) Directions, 2025*

Reserve Bank of India, *vide* Notification RBI/2025-26/36 DOR.STR.REC.19/21.07.001/2025-26 dated May 8, 2025, issued the Digital Lending Directions, 2025, which apply to all Regulated Entities engaged in digital lending, including scheduled commercial banks, co-operative banks, urban cooperative banks, NBFCs and any other entities regulated by the RBI, whether lending directly or through Digital Lending Apps (“DLAs”) or Lending Service Providers (“LSPs”). These Directions consolidate and supersede the earlier Guidelines on Digital Lending dated September 2, 2022 and the Guidelines on Default Loss Guarantee in Digital Lending dated June 8, 2023, and establish a unified framework prescribing comprehensive requirements across the digital-lending value chain, i.e., customer-protection and fair-practice norms (including fair practice code, disclosures, cooling-off / look-up periods, grievance-redressal), caps on fees and charges, rigorous credit-worthiness assessment, transparency in interest-rate models, technology and data-security standards, data-storage and reporting obligations to credit-information companies, mandatory registration of DLAs on the Complaint Management System portal by June 15, 2025, due-diligence norms for LSPs, and detailed rules on Default-Loss Guarantee arrangements and co-lending partnerships.

#### *Reserve Bank of India (Lending Against Gold and Silver Collateral) Directions, 2025*

Reserve Bank of India, *vide* Notification RBI/2025-26/47 DOR.CRE.REC.26/21.01.023/2025-26 dated June 6, 2025, issued the Reserve Bank of India (Lending Against Gold and Silver Collateral) Directions, 2025 (“**Gold and Silver Collateral Directions 2025**”). The Gold and Silver Collateral Directions 2025 applies to all Regulated Entities, including NBFCs and HFCs, for loans secured by gold jewellery, ornaments, or coins (and specified silver collateral), and take effect from April 1, 2026 (with legacy loans governed by earlier norms).

Each lender must adopt a board-approved credit policy and standard operating procedures covering borrower limits, LTV caps (85%, 80%, and 75% for consumption loans up to, between, and above ₹ 2.5 lakh, respectively), purity / valuation norms based on India Bullion and Jewellers Association Limited or exchange prices, and, for loans above ₹2.5 lakh, a formal credit assessment. Multiple loans to the same borrower and any re-pledging of collateral are prohibited.

Operationally, lenders must use uniform documentation, communicate all terms (including charges) in the borrower’s language, assay, and store collateral securely on-site, and release redeemed collateral within seven working days. Auctions must follow transparent reserve-price thresholds and district-level processes, with prompt surplus refunds and half-yearly reporting to the Board or Customer Service Committee.

#### *The Recovery of Debts due to Banks and Financial Institutions Act, 1993*

The Recovery of Debts due to Banks and Financial Institutions Act, 1993 (the “DRT Act”) provides for establishment of the Debts Recovery Tribunals (the “DRTs”) for expeditious adjudication and recovery of debts due to banks and public financial institutions or to a consortium of banks and public financial institutions. Under the DRT Act, the procedures for recovery of debt have been simplified and time frames have been fixed for speedy disposal of cases. The DRT Act lays down the rules for establishment of DRTs, procedure for making application to the DRTs, powers of the DRTs and modes of recovery of debts determined by DRTs. These include attachment and sale of movable and immovable property of the defendant, arrest of the defendant and his detention in prison and appointment of receiver for management of the movable or immovable properties of the defendant.

The DRT Act also provides that a bank or public financial institution having a claim to recover its debt, may join an ongoing proceeding filed by some other bank or public financial institution, against its debtor, at any stage of the proceedings before the final order is passed, by making an application to the DRT.

#### *The Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (“SARFAESI Act”)*

The SARFAESI Act regulates the securitization and reconstruction of financial assets of banks and financial institutions and the matters connected therewith or incidental thereto. The RBI has issued guidelines to banks and financial institutions on the process to be followed for sales of financial assets to asset reconstruction companies. These guidelines provide that a bank or a financial institution or an NBFC may sell financial assets to an asset reconstruction company provided the asset is a Non - Performing Asset (“NPA”). Securitisation Companies and Reconstruction Companies (“SCs/RCs”) are required to obtain, for the purpose of enforcement of security interest, the consent of secured creditors holding not less than 60 per cent of the amount outstanding to a borrower as against 75 per cent. While enforcing security interest under Section 13(4) of the SARFAESI Act, secured creditors, or SCs/RCs acting on their behalf, may sell secured assets either by public auction or by private treaty, in accordance with Rule 8 of the Security Interest (Enforcement) Rules, 2002.

As per the SARFAESI Amendment Act of 2004, the constitutional validity of which was upheld in a recent Supreme Court ruling, non-performing assets have been defined as an asset or account of a borrower, which has been classified by a bank or financial institution as sub-standard, doubtful or loss asset in accordance with directions or guidelines issued by the RBI. In case the bank or financial institution is regulated by a statutory body/authority, NPAs must be classified by

such bank in accordance with guidelines issued by such regulatory authority. The RBI has issued guidelines on classification of assets as NPAs. Further, these assets are to be sold on a “without recourse” basis only.

The SARFAESI Act provides for the acquisition of financial assets by Securitization Company or Reconstruction Company from any bank or financial institution on such terms and conditions as may be agreed upon between them. A securitization company or reconstruction company having regard to the guidelines framed by the RBI may, for the purposes of asset reconstruction, provide for measures such as the proper management of the business of the borrower by change in or takeover of the management of the business of the borrower, the sale or lease of a part or whole of the business of the borrower and certain other measures such as rescheduling of payment of debts payable by the borrower; enforcement of security.

Additionally, under the provisions of the SARFAESI Act, any securitisation company or reconstruction company may act as an agent for any bank or financial institution for the purpose of recovering its dues from the borrower on payment of such fee or charges as may be mutually agreed between the parties.

Various provisions of the SARFAESI Act have been amended by the Enforcement of Security Interest and Recovery of Debt Laws and Miscellaneous Provisions (Amendment) Act, 2016 as also the Insolvency and Bankruptcy Code, 2016 (which amended S.13 of SARFAESI). As per this amendment, the Adjudicating Authority under the Insolvency and Bankruptcy Code, 2016 shall by order declare moratorium for prohibiting, inter alia, any action to foreclose, recover or enforce any security interest created by the corporate debtor in respect of its property including any action under the SARFAESI Act.

Further, in accordance with Ministry of Finance notification no. S.O. 856(E) dated February 24, 2020, the eligibility limit for to enforcement of security interest with respect to secured debt recovery by NBFCs (having assets worth ₹ 10,000 lakh and above) has been reduced from ₹ 100 lakh to ₹ 50 lakh.

#### *Insolvency and Bankruptcy Code, 2016*

The Insolvency and Bankruptcy Code, 2016 (Bankruptcy Code) was notified on August 5, 2016. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (including financial service providers). It allows creditors to assess the viability of a debtor as a business decision and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

RBI *vide* its circular dated June 7, 2019, laid down the Prudential Framework for Resolution of Stressed Assets whereby prescribing the regulatory approach for resolution of stressed assets inter alia by: (i) early recognition and reporting of default by banks, financial institutions and NBFCs in respect of large borrowers; (ii) Affording complete discretion to lenders with regard to design and implementation of resolution plans, in supersession of earlier resolution schemes (S4A, SDR, 5/25 etc.), subject to the specified timeline and independent credit evaluation; (iii) Laying down a system of disincentives in the form of additional provisioning for delay in implementation of resolution plan or initiation of insolvency proceedings; (iv) Withdrawal of asset classification dispensations on restructuring. Future upgrades to be contingent on a meaningful demonstration of satisfactory performance for a reasonable period; and (v) Requiring the mandatory signing of an inter-creditor agreement (ICA) by all lenders, which will provide for a majority decision making criteria. MCA *vide* notification dated November 15, 2019, issued the Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019 (“**FSP Rules**”) inter alia governing the corporate insolvency resolution process and liquidation process of Financial Service Providers (“**FSPs**”) under the Bankruptcy Code. The issuance of the FSP Rules has made viable and unified resolution process accessible for the FSPs and their creditors with some procedural differences.

#### *Companies Act, 2013*

The Companies Act, 2013 (“Companies Act”) has been notified by the Government of India on August 30, 2013 (the “Notification”).

The Companies Act provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, requirements for independent directors, director’s liability, class action suits, and the inclusion of women directors on the boards of companies. The Companies Act is complemented by a set of rules that set out the procedure for compliance with the substantive provisions of the Companies Act

#### *Shops and Establishments legislations in various states*

The provisions of various Shops and Establishments legislations, as applicable, regulate the conditions of work and

employment in shops and commercial establishments and generally prescribe obligations in respect of inter-alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, termination of services and safety measures and wages for overtime work.

#### *Labour Laws*

India has stringent labour related legislations. The Company is required to comply with certain labour laws, which include the Employees' Provident Funds and Miscellaneous Provisions Act 1952, Employees' State Insurance Act, 1948, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, Workmen Compensation Act, 1923, the Payment of Gratuity Act, 1972, Maternity Benefit Act, 1961 and the Payment of Wages Act, 1936, amongst others.

#### *Intellectual Property*

Intellectual Property in India enjoys protection under both common law and statute. Under statute, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trademarks Act, 1999. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

#### *Other Regulations*

Our Company is required to comply with the provisions of the Companies Act, SEBI Listing Regulations, various circulars and notifications issued by SEBI as applicable, labour laws, shops and establishment acts, various tax related legislations and other applicable statutes for its day-to-day operations.

## OTHER REGULATORY AND STATUTORY DISCLOSURES

### Issuer's Absolute Responsibility

*"The issuer, having made all reasonable inquiries, accepts responsibility for and confirms that this Tranche VI Prospectus read together with the Shelf Prospectus contains all information with regard to the issuer and this Tranche VI Issue which is material in the context of the issue, that the information contained in the Tranche VI Prospectus read together with the Shelf Prospectus is true and correct in all material aspects and is not misleading, that the opinions and intentions expressed herein are honestly stated and that there are no other facts, the omission of which make this document as a whole or any of such information or the expression of any such opinions or intentions misleading."*

- v. No regulatory action is pending against the issuer or its promoters or directors before SEBI or RBI.
- vi. Our Company is not in default for:
  - a. the repayment of deposits or interest payable thereon; or
  - b. redemption of preference shares; or
  - c. redemption of debt securities and interest payable thereon; or
  - d. payment of dividend to any shareholder; or
  - e. repayment of any term loan or interest payable thereon,
 in the last three financial years and the current financial year.

**VARDHMAN TRUSTEESHIP PRIVATE LIMITED HAS FURNISHED TO STOCK EXCHANGE A DUE DILIGENCE CERTIFICATE DATED AUGUST 8, 2024, AS PER THE FORMAT SPECIFIED IN SEBI DEBENTURE TRUSTEE MASTER CIRCULAR AND SCHEDULE IV OF THE SEBI NCS REGULATIONS WHICH READS AS FOLLOWS:**

1. We have examined documents pertaining to the said issue and other such relevant documents, reports and certifications.
2. On the basis of such examination and of the discussions with the Issuer, its directors and other officers, other agencies and on independent verification of the various relevant documents, reports and certifications:

We confirm that:

- a. The Issuer has made adequate provisions for and/or has taken steps to provide for adequate security for the debt securities to be issued and listed
- b. The Issuer has obtained the permissions / consents necessary for creating security on the said property(ies).
- c. The Issuer has made all the relevant disclosures about the security and also its continued obligations towards the holders of debt securities.
- d. Issuer has adequately disclosed all Consents/ Permissions required for creation of further charge on assets in Offer Document or ~~Placement Memorandum/ Information Memorandum~~ and all disclosures made in the Offer Document with respect to creation of Security are in confirmation with the Clauses of Debenture Trustee Agreement.
- e. Issuer has disclosed all covenants proposed to be included in debenture trust deed (including any side letter, accelerated payment clause etc.), offer document.
- f. Issuer has given an undertaking that charge shall be created in favour of debenture trustee as per terms of issue before filing of listing application.

We have satisfied ourselves about the ability of the Issuer to service the debt securities.

Our Company has submitted the due diligence certificate from Debenture Trustee to the Stock Exchange as per format specified in Annexure II - A of the SEBI Debenture Trustee Master Circular and Schedule IV of the SEBI NCS Regulations.

## **Terms and Conditions of Debenture Trustee Agreement**

### **Fees charged by Debenture Trustee**

The Debenture Trustee has agreed for one time acceptance fees of ₹ 5,00,000 plus applicable taxes, payable one time on acceptance of Offer Letter and an annuity fee of ₹ 5,00,000 plus applicable taxes payable annually in advance from the date of execution till the redemption and satisfaction of charges in full, as disclosed in their offer letter bearing reference number CL/MUM/24-25/DEB/23 dated May 17, 2024.

### **Terms of carrying out due diligence:**

- a. The Debenture Trustee, either through itself or its agents /advisors/consultants, shall carry out requisite diligence to verify the status of encumbrance and valuation of the assets and whether all permissions or consents (if any) as may be required to create the security as stipulated in the Draft Shelf Prospectus/Shelf Prospectus and Tranche VI Prospectus, has been obtained. For the purpose of carrying out the due diligence as required in terms of the Relevant Laws, the Debenture Trustee, either through itself or its agents /advisors/consultants, shall have the power to examine the books of account of the Company and to have the Company's assets inspected by its officers and/or external auditors/valuers/consultants/lawyers/technical experts/management consultants appointed by the Debenture Trustee.
- b. The Company shall provide all assistance to the Debenture Trustee to enable verification from the Registrar of Companies, Sub-registrar of Assurances (as applicable), CERSAI, depositories, information utility or any other authority, as may be relevant, where the assets and/or encumbrances in relation to the assets of the Company or any third party security provider are registered / disclosed.
- c. Further, in the event that existing charge holders have provided conditional consent / permissions to the Company to create further charge on the assets, the Debenture Trustee shall also have the power to verify such conditions by reviewing the relevant transaction documents or any other documents executed between existing charge holders and the Company. The Debenture Trustee shall also have the power to intimate the existing charge holders about proposal of creation of further encumbrance and seeking their comments/ objections, if any.
- d. Without prejudice to the aforesaid, the Company shall ensure that it provides and procures all information, representations, confirmations and disclosures as may be required in the sole discretion of the Debenture Trustee to carry out the requisite diligence in connection with the issuance and allotment of the Debentures, in accordance with the relevant laws/ Applicable Law.
- e. The Debenture Trustee shall have the power to either independently appoint, or direct the Company to (after consultation with the Debenture Trustee) appoint intermediaries, valuers, chartered accountant firms, practicing company secretaries, consultants, lawyers and other entities in order to assist in the diligence by the Debenture Trustee. All costs, charges, fees and expenses that are associated with and incurred in relation to the diligence as well as preparation of the reports/certificates/documentation, including all out of pocket expenses towards legal or inspection costs, travelling and other costs, shall be solely borne by the Company.
- f. The Secured Debentures shall be considered as secured only if the charged asset is registered with Sub-registrar and Registrar of Companies or CERSAI or Depository, etc, as applicable, or is independently verifiable by the debenture trustee.

### **Process of Due Diligence to be carried out by the Debenture Trustee**

Due Diligence will be carried out as per SEBI (Debenture Trustees) Regulations, 1993, SEBI NCS Regulations and circulars issued by SEBI from time to time. This would broadly include the following:

- A Chartered Accountant ("CA") appointed by Debenture Trustee will conduct independent due diligence as per scope provided, regarding security offered by the Issuer.
- CA will ascertain, verify, and ensure that the assets offered as security by the Issuer is free from any encumbrances or necessary permission / consent / NOC has been obtained from all existing charge holders.
- CA will conduct independent due diligence on the basis of data / information provided by the Issuer.
- CA will, periodically undertake due diligence as envisaged in SEBI circulars depending on the nature of security.

- On basis of the CA's report / finding Due Diligence certificate will be issued by Debenture Trustee and will be filed with relevant Stock Exchange.
- Due Diligence conducted is premised on data / information made available to the Debenture Trustee appointed agency and there is no onus of responsibility on Debenture Trustee or its appointed agency for any acts of omission / commission on the part of the Issuer.

While the Debt Security is secured as per terms of the Offer Document and charge is held in favour of the Debenture Trustee, the extent of recovery would depend upon realization of asset value and the Debenture Trustee in no way guarantees / assures full recovery / partial of either principal or interest.

#### **Other Confirmations**

The Debenture Trustee confirms that they have undertaken the necessary due diligence in accordance with Applicable Law, including the SEBI (Debenture Trustees) Regulations, 1993, read with the SEBI Debenture Trustee Master Circular.

The Debenture Trustee undertakes that the NCDs shall be considered as secured only if the charged asset is registered with sub-registrar and Registrar of Companies or CERSAI or depository, etc., as applicable, or is independently verifiable by the Debenture Trustee.

#### **Listing**

The NCDs proposed to be offered through this Tranche VI Issue are proposed to be listed on the BSE. An application will be made to BSE for permission to deal in and for an official quotation of our NCDs. BSE has been appointed as the Designated Stock Exchange.

Our Company will use best efforts to ensure that all steps for the completion of the necessary formalities for listing at the Stock Exchange are taken within 6 (six) Working Days of the Issue Closing Date. For the avoidance of doubt, it is hereby clarified that in the event of non-subscription or failure to achieve minimum subscription to any one or more of the Series, such Series(s) of NCDs shall not be listed.

For the avoidance of doubt, it is hereby clarified that in the event of zero subscription to any one or more of the series, such NCDs with series shall not be listed.

If permissions to deal in and for an official quotation of our NCDs are not granted by BSE, our Company will forthwith repay, without interest, all moneys received from the applicants in pursuance of this Tranche VI Prospectus.

The Issuer shall pay interest at 15% (fifteen) per annum or such rate as prescribed under applicable laws, if Allotment is not made and refund orders/allotment letters are not dispatched and/or demat credits are not made to investors within 5 Working Days of the Issue Closing Date or date of refusal of the Stock Exchange(s), whichever is earlier. In case listing permission is not granted by the Stock Exchange(s) to the Issuer and if such money is not repaid within the day the Issuer becomes liable to repay it on such account, the Issuer and every officer in default shall, on and from expiry of such date, be liable to repay the money with interest at the rate of 15% as prescribed under Regulation 35(2) of SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021 read with Section 26 of the 2013 Act or such rate as prescribed

under applicable laws, whichever is lower, provided that the beneficiary particulars relating to such Applicants as given by the Applicants is valid at the time of the upload of the demat credit.

## **Common form of Transfer**

We undertake that there shall be a common form of transfer for the NCDs held in dematerialised form shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/CDSL and the relevant Depository Participants of the transferor or transferee and any other applicable laws and rules notified in respect thereof.

## **Filing of the Draft Shelf Prospectus**

The Draft Shelf Prospectus was filed with the designated Stock Exchange on August 8, 2024 in terms of Regulation 27 of the SEBI NCS Regulations for dissemination on its website. The Draft Shelf Prospectus has also been displayed on the website of the Issuer and the Lead Manager.

### **Filing of the Shelf Prospectus and this Tranche VI Prospectus**

Our Company is eligible to file the Shelf Prospectus and this Tranche VI Prospectus as per requirements of Regulation 41(1)(c) of SEBI NCS Regulations. A copy of the Shelf Prospectus has been filed with the RoC, and a copy of this Tranche VI Prospectus will be filed with the RoC, in accordance with Section 26 and Section 31 of Companies Act, 2013.

### **Debenture Redemption Reserve (“DRR”)**

In accordance with recent amendments to the Companies Act, 2013, and the Companies (Share Capital and Debentures) Rules 2014, read with Regulation 16 of the SEBI NCS Regulations, any non-banking finance company that intends to issue debentures to the public are no longer required to create a DRR for the purpose of redemption of debentures. The Government, in the union budget for the Financial Year 2019-2020 had announced that non-banking finance companies raising funds in public issues would be exempt from the requirement of creating a DRR.

Pursuant to the amendment to the Companies (Share Capital and Debentures) Rules 2014, notified on August 16, 2019, and as on the date of filing of this Tranche VI Prospectus, the Company is not required to create DRR for the purpose of redemption of the NCDs. Accordingly, no debenture redemption reserve shall be created by our Company for the purpose of redemption of the NCDs or in connection with the Issue. The Company shall, as per the Companies (Share Capital and Debentures) Rules 2014 and other laws applicable from time to time, invest or deposit, as the case may be, the applicable amounts, within the specified timelines, in respect of debentures maturing during the year ending on the 31st day of March of the next year, in any one or more methods of investments or deposits stipulated under the applicable law. Provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below the specified percentage, which is presently stipulated at 15% (fifteen percent) of the amount of the debentures maturing during the year ending on March 31 of the next year, in any of the following instruments or such other instruments as may be permitted under the applicable laws.

1. in deposits with any scheduled bank, free from any charge or lien;
2. in unencumbered securities of the Central Government or any State Government;
3. in unencumbered securities mentioned in sub-clause (a) to (d) and (ee) of section 20 of the Indian Trusts Act, 1882;
4. in unencumbered bonds issued by any other company which is notified under sub-clause (f) of section 20 of the Indian Trusts Act, 1882:

Provided further that the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above.

### **Recovery Expense Fund**

The Issuer has already created a recovery expense fund in the manner as specified by SEBI in SEBI NCS Master Circular for Debenture Trustees bearing reference no. SEBI/HO/DDHS-PoD3/P/CIR/2024/46 dated May 16, 2024, as amended from time to time and Regulation 11 of the SEBI NCS Regulations with the Designated Stock Exchange and informed the Debenture Trustee regarding the creation of such fund. The recovery expense fund may be utilised by Debenture Trustee, in the event of default by the Issuer under the terms of the Debenture Trust Deed, for taking appropriate legal action to enforce the security.

### **Issue related expenses**

The expenses of this Tranche VI Issue include, *inter alia*, lead management fees to the Lead Manager, and selling commission to the Lead Manager, Consortium Members, fees payable to debenture trustees, the Registrar to the Issue, SCSBs' commission/ fees, fees payable to sponsor bank, printing and distribution expenses, legal fees, advertisement expenses and listing fees. The Issue expenses and listing fees will be paid by our Company.

The estimated break-up of the total expenses shall be as specified in the Shelf Prospectus and this Tranche VI Prospectus. For further details see “*Objects of the Tranche VI Issue*” on page 60.

### Revaluation of assets

Our Company has not revalued its assets in the last three years.

### Mechanism for redressal of investor grievances

Agreement dated July 1, 2024 between the Registrar to the Issue and our Company provides for settling of investor grievances in a timely manner and for retention of records with the Registrar to the Issue for a period of eight years.

All grievances relating to the Issue may be addressed to the Registrar to the Issue and Compliance Officer giving full details such as name, address of the applicant, number of NCDs applied for, amount paid on application and the details of Member of Syndicate or Trading Member of the Stock Exchange where the application was submitted.

All grievances relating to the ASBA process may be addressed to the Registrar to the Issue with a copy to either (a) the relevant Designated Branch of the SCSB where the Application Form was submitted by the ASBA Applicant, or (b) the concerned Member of the Syndicate and the relevant Designated Branch of the SCSB in the event of an Application submitted by an ASBA Applicant at any of the Syndicate ASBA Application Locations, giving full details such as name, address of Applicant, Application Form number, option applied for, number of NCDs applied for, amount blocked on Application.

Additionally, the Stock Exchange shall be responsible for addressing investor grievances arising from applications submitted online through the app based/ web interface platform of the Stock Exchange or through its Trading Members. Further, in accordance with the SEBI Master Circular, the Designated Intermediaries shall be responsible for addressing any investor grievances arising from the Applications uploaded by them in respect of quantity, price or any other data entry or other errors made by them.

We estimate that the average time required by us or the Registrar to the Issue for the redressal of routine investor grievances will be three (3) business days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, we will seek to redress these complaints as expeditiously as possible.

### Registrar to the Issue

#### Integrated Registry Management Services Private Limited

2<sup>nd</sup> Floor, Kences Towers

2	M/s. Vishnu Rajendran & Co.	No:55/315, South Bridge Avenue Road, Panampilly Nagar, Ernakulam – 682036	September 30, 2024	-	-
3	Krishnan Retna & Associates	201 Block A, Nandini Gardens, Fort, Thiruvananthapuram, Kerala – 695 023	March 28, 2022	30th September 2024	-
4	M/s. Rangamani & Co.	Rose Gardens, North of Iron Bridge, Alappuzha, Kerala – 688 011	March 28, 2022	30th September 2024	-

**The summary of reservations or qualifications or adverse remarks of auditors in the three financial years immediately preceding the year of issue of issue document, and of their impact on the financial statements and financial position of the company, and the corrective steps taken and proposed to be taken by the company for each of the said reservations or qualifications or adverse remarks:**

Except as disclosed in “*Outstanding Litigation - X.Summary of reservations or qualifications or adverse remarks or other observations by auditors in the audit report / CARO by the auditors in the last three financial years i.e. Fiscal 2025 to Fiscal 2023 and their impact on the financial statements and financial position of the company and the corrective steps taken and proposed to be taken by the company for each of the said reservations or qualifications or adverse remarks*” on page 264, there are no reservations or qualifications or adverse remarks in the financial statements and financial position of our Company in the last three Fiscals immediately preceding this Tranche VI Prospectus.

**Disclaimer statement from our Company, our Directors and the Lead Manager**

None among our Company or the Lead Manager or any Member of the Syndicate is liable for any failure in uploading the

Application due to faults in any software/ hardware system or otherwise; the blocking of Application Amount in the ASBA Account on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

Investors who make an Application in the Issue will be required to confirm and will be deemed to have represented to our Company, the Lead Manager and their respective directors, officers, agents, affiliates, and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the NCDs and will not issue, sell, pledge, or transfer the NCDs to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the NCDs. Our Company, the Lead Manager and their respective directors, officers, agents, affiliates, and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the NCDs being offered in the Issue.

### **Publication of financial results**

In compliance with regulation 52(8) of the SEBI LODR Regulations, the Company may, while publishing its quarterly, half-yearly and annual financial results, publish only a window advertisement in the newspapers that refers to a quick response code and the link of the website of the Company and the Stock Exchange(s) where such financial results are available and capable of being accessed by the investors. The Issuer further clarifies that it shall not be required to obtain a prior approval from the Debenture Trustee for publishing the aforesaid details.

### **Pre-Issue Advertisement**

Subject to Section 30 of the Companies Act 2013, our Company will issue a statutory advertisement on or before the Tranche VI Issue Opening Date. This advertisement will contain the information as prescribed under SEBI NCS Regulations. Material updates, if any, between the date of filing of this Tranche VI Prospectus with ROC and the date of release of the statutory advertisement will be included in the statutory advertisement.

### **Trading**

Debt securities issued by our Company, which are listed on BSE's wholesale debt market are infrequently traded with limited or no volumes. Consequently, there has been no material fluctuation in prices or volumes of such listed debt securities.

### **Caution**

Attention of the applicants is specifically drawn to the provision of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

*“Any person who:*

- (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under section 447 of the Companies Act, 2013”*

	as the NCD Holders/Debenture Trustee may reasonably request, or as may be required under Applicable Law.
<b>Event of Default (including manner of voting / conditions of joining Inter Creditor Agreement)</b>	Please see “ <i>Terms of the Issue – Events of Default (including manner of voting/conditions of joining Inter Creditor Agreements)</i> ” on page 299.
<b>Creation of Recovery Expense Fund</b>	The issuer has already created a recovery expense fund in the manner as specified by SEBI in SEBI NCS Master Circular for Debenture Trustees bearing reference no.SEBI/HO/DDHS-PoD3/P/CIR/2024/46 dated May 16, 2024, as amended from time to time and Regulation 11 of the SEBI NCS Regulations with the Designated Stock Exchange and informed the Debenture Trustee regarding the creation of such fund. The recovery expense fund may be utilised by Debenture Trustee, in the event of default by the Issuer under the terms of the Debenture Trust Deed, for taking appropriate legal action to enforce the security.
<b>Conditions for breach of covenants (as specified in the Debenture Trust Deed)</b>	Upon occurrence of any default in the performance or observance of any term, covenant, condition or provision contained in the Summary Term Sheet, the Debenture Trustee shall take necessary actions as mentioned in the Debenture Trust Deed
<b>Provisions related to Cross Default Clause</b>	Any material indebtedness of the Company for funds raised or availed by the Company, that is, material indebtedness for and in respect of monies borrowed or raised by the Company (whether or not for cash consideration) by whatever means (including acceptance, credits, deposits and leasing) becomes due prior to its stated maturity by reason of default of the terms thereof or if any such indebtedness is not paid at its stated maturity (in the reasonable opinion of the Debenture Trustee), or there is a default in making payments due under any guarantee or indemnity given by the Company in respect of the material indebtedness of borrowed monies of any person, and proceedings are initiated by the relevant lender or creditor in connection with such default, for recovery of such indebtedness or for enforcement or invocation of such guarantee or indemnity. For further details, please refer to the Debenture Trust Deed.
<b>Role and Responsibilities of Debenture Trustee</b>	Please see “ <i>Terms of the Issue – Debenture Trustees for the Debenture Holders</i> ” on page 297.
<b>Risk Factors pertaining to the Issue</b>	Please see “ <i>Risk Factors</i> ” on page 19.
<b>Governing Law and Jurisdiction</b>	The Issue shall be governed in accordance with the laws of the Republic of India and shall be subject to the exclusive jurisdiction of the courts of Cochin.

**Notes:**

\* In terms of Regulation 7 of the SEBI NCS Regulations, our Company will undertake this Tranche VI Issue of NCDs in dematerialized form. However, in terms of Section 8 (1) of the Depositories Act, the Company, at the request of the Applicants who wish to hold the NCDs post allotment in physical form, will fulfil such request through the process of dematerialization, if the NCDs were originally issued in dematerialized form.

\*\* This Tranche VI Issue shall remain open for subscription on Working Days from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) during the period as indicated in this Tranche VI Prospectus. Our Company may, in consultation with the Lead Manager, consider closing this Tranche VI Issue on such earlier date or extended date (subject to a minimum period of two working days and a maximum period of 10 working days from the date of opening of this Tranche VI Issue and subject to not exceeding thirty days from filing of this Tranche VI Prospectus with ROC, including any extensions), as may be decided by the Board of Directors or Stock Allotment Committee thereof of the Company, subject to relevant approvals, in accordance with the Regulation 33A of the SEBI NCS Regulations. In the event of an early closure or extension of this Tranche VI Issue, our Company shall ensure that notice of the same is provided to the prospective investors through an advertisement in an English daily national newspaper with wide circulation and a regional daily with wide circulation where the registered office of the Company is located (in all the newspapers or electronic modes such as online newspapers or websites of the Issuer or the stock exchange in which pre-issue advertisement for opening of this Tranche VI Issue has been given on or before such earlier or initial date of Tranche VI Issue closure). On the Tranche VI Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. and 3:00 p.m. (Indian Standard Time) and uploaded until 5 p.m. or such extended time as may be permitted by the Stock Exchange. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. on one Working Day post this Tranche VI Issue Closing Date. For further details please see “General Information” on page 43.

#Participation by any of the above-mentioned Investor classes in this Tranche VI Issue will be subject to applicable statutory and/or regulatory requirements. Applicants are advised to ensure that Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and/or regulatory provisions.

%While the NCDs are secured to the tune of 100% of the principal and interest thereon in favour of Debenture Trustee, it is the duty of the Debenture Trustee to monitor the security cover is maintained, however, the recovery of 100% of the amount shall depend on the market

scenario prevalent at the time of enforcement of the security.

If there is any change in coupon rate pursuant to any event including lapse of certain time period or downgrade in rating, then such new coupon rate and the events which lead to such change should be disclosed.

For the list of documents executed/ to be executed, please see “Material Contracts and Documents for Inspection” on page 344.

Debt securities shall be considered as secured only if the charged asset is registered with Sub-registrar and Registrar of Companies or CERSAI or Depository etc., as applicable, or is independently verifiable by the debenture trustee.

Please refer to Annexure C for details pertaining to the cash flows of the Company in accordance with the SEBI NCS Master Circular.

**Participation by any of the above-mentioned Investor classes in this Tranche VI Issue will be subject to applicable statutory and/or regulatory requirements. Applicants are advised to ensure that Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and/or regulatory provisions.**

In case of Application Form being submitted in joint names, the Applicants should ensure that the demat account is also held in the same joint names and the names are in the same sequence in which they appear in the Application Form.

**Applicants are advised to ensure that they have obtained the necessary statutory and/or regulatory permissions/ consents/ approvals in connection with applying for, subscribing to, or seeking allotment of NCDs pursuant to this Tranche VI Issue.**

For further details, please see “Issue Procedure” on page 312.

\*\* Our Company would allot the Option VI of NCDs, as specified in the Tranche VI Prospectus to all valid Applications, wherein the Applicants have not indicated their choice of the relevant Option of NCDs.

1. With respect to Series where interest is to be paid on an annual basis, relevant interest will be paid on each anniversary on the face value of the NCDs. The last interest payment under annual Series will be made at the time of redemption of the NCDs.
2. With respect to Series where interest is to be paid on monthly basis, relevant interest will be paid on the first date of every month on the face value of the NCDs. The last interest payment under monthly Series will be made at the time of redemption of the NCDs. For the first interest payment for NCDs under the monthly options, interest from the Deemed Date of Allotment till the last day of the subsequent month will be clubbed and paid on the first day of the month next to that subsequent month.
3. Please refer to Annexure C for details pertaining to the illustrative cash flows of the Company in accordance with the SEBI Master Circular.

## Specific Terms of NCDs

### Interest and Payment of Interest

#### 1. Monthly interest payment options

Interest would be paid monthly under Options I, II, III and IV at the following rates of interest in connection with the relevant categories of Debenture holders, on the amount outstanding from time to time, commencing from the Deemed Date of Allotment of NCDs:

Category of Debenture Holder	Coupon (%) per annum			
	I	II	III	IV
All categories	8.85%	9.05%	9.30%	9.40%

For the Series where interest is to be paid on monthly basis, relevant interest will be paid on the first date of every month on the face value of the NCDs. The last interest payment under monthly Series will be made at the time of redemption of the NCDs. For the first interest payment for NCDs under the monthly options, interest from the Deemed Date of Allotment till the last day of the subsequent month will be clubbed and paid on the first day of the month next to that subsequent month.

#### 2. Annual interest payment options

Interest would be paid annually under Option V, VI, VII and VIII at the following rates of interest in connection with the relevant categories of Debenture holders, on the amount outstanding from time to time, commencing from the Deemed Date of Allotment of NCDs:

Category of Debenture	Coupon (%) per annum
-----------------------	----------------------

Holder				
Options	V	VI	VII	VIII
All categories	9.20%	9.45%	9.70%	9.80%

For the Series where interest is to be paid on an annual basis, relevant interest will be paid one each anniversary on the face value of the NCDs. The last interest payment under annual Series will be made at the time of redemption of the NCDs.

### 3. Cumulative interest payment options

Options IX, X, XI and XII of the NCDs shall be redeemed as below:

Category of Debenture Holder	Redemption Amount (₹ per NCD)			
Options	IX	X	XI	XII
All categories	₹ 1,192.47	₹ 1,311.46	₹ 1,589.07	₹ 1,752.77

### Day count convention

Interest shall be computed on an actual/actual basis i.e. on the principal outstanding on the NCDs as per the SEBI Master Circular. Please see **Annexure C** for details pertaining to the cash flows of the Company in SEBI Master Circular.

Please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of this Tranche VI Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the transferee of deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs subject to such Transferee holding the NCDs on the Record Date.

### Terms of Payment

The entire face value per NCDs is payable on Application. The entire amount of face value of NCDs applied for will be blocked in the relevant ASBA Account maintained with the SCSB. In the event of Allotment of a lesser number of NCDs than applied for, our Company shall unblock the additional amount blocked upon application in the ASBA Account, in accordance with the terms of specified in “*Terms of the Issue – Manner of Payment of Interest/ Redemption Amounts*” on page 305.

**Participation by any of the above-mentioned Investor classes in this Tranche VI Issue will be subject to applicable statutory and/or regulatory requirements. Applicants are advised to ensure that Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and/or regulatory provisions.**

The NCDs have not been and will not be registered, listed or otherwise qualified in any jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction. In particular, the NCDs have not been and will not be registered under the U.S. Securities Act, 1933, as amended (the “**Securities Act**”) or the securities laws of any state of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. The Issuer has not registered and does not intend to register under the U.S. Investment Company Act, 1940 in reliance on section 3(c)(7) thereof. This Tranche VI Prospectus may not be forwarded or distributed to any other person and may not be reproduced in any manner whatsoever, and in particular, may not be forwarded to any U.S. Person or to any U.S. address.

Applications may be made in single or joint names (not exceeding three). Applications should be made by Karta in case the Applicant is an HUF. If the Application is submitted in joint names, the Application Form should contain only the name of the first Applicant whose name should also appear as the first holder of the depository account held in joint names. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form. Please ensure that such Applications contain the PAN of the HUF and not of the Karta.

In the case of joint Applications, all payments will be made out in favour of the first Applicant. All communications will

be addressed to the first named Applicant whose name appears in the Application Form and at the address mentioned therein.

Applicants are advised to ensure that they have obtained the necessary statutory and/or regulatory permissions/consents/approvals in connection with applying for, subscribing to, or seeking Allotment of NCDs pursuant to this Tranche VI Issue. For further details, please see the chapter titled “*Issue Procedure*” on page 312.

### **Key Covenants of the Tranche VI Issue**

- b. The covenant set out in sub-clause (a) above would be tested on a half yearly basis for the Company, i.e. as on 31st March and 30th September every year, on standalone balance sheet of the Company for the relevant financial half year, till the redemption of the Debentures.

#### ***B. Reporting Covenants:***

Until the Final Settlement Date, the Company shall ensure that all the reporting covenants are complied with.

- a. The Company shall submit on quarterly basis to the Debenture Trustee a report confirming /certificate confirming the following:
  - i. Updated list of names and addresses of all the NCD Holders and the number of NCDs held by the NCD Holders;
  - ii. Details of interest due but unpaid, if any, and reasons for the same;
  - iii. Details of payment of interest made on the NCDs in the immediately preceding calendar quarter;
  - iv. A statement indicating material deviations, if any in utilisation of the proceeds of the Debentures;
  - v. Any events of default;
  - vi. all grievances received from the NCD Holders;
  - vii. any major or significant change in composition of its Board, which may amount to change in control as defined in the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - viii. any amalgamation, demerger, merger or corporate restructuring or reconstruction scheme proposed by the Company;
  - ix. any authorisation required under any law or regulation to enable it to perform its obligations under the Transaction Documents;
  - x. quarterly financial results within 45 (forty five) days from the end of each quarter;
  - xi. any change in the constitutional documents of the Company;
  - xii. details of all the material orders, directions, notices, of any court/tribunal affecting the security;
  - xiii. promptly, and in any event within 2 (two) Business Days of receiving any notice of any application for winding up/insolvency having been made; a certificate certifying maintenance of security cover;

- xiv. provide relevant documents/ information, as applicable, to enable the Debenture Trustee to conduct continuous and periodic due diligence and monitoring of the security interest over the hypothecated assets;
  - xv. the number of grievances pending at the beginning of the quarter, the number and nature of grievances received from the NCD Holders during the quarter, resolved/disposed of by the Company in the quarter and those remaining unresolved by the Company and the reasons for the same; and
  - xvi. statement that the hypothecated assets is sufficient to discharge the claims of the NCD Holders as and when they become due and as mentioned in the asset cover certificate.
- b. The Company shall ensure that all the reporting covenants as per the provisions of SEBI LODR Regulations are complied with including but not limited to the following:
- i. promptly submit to the Debenture Trustee any information, as required by the Debenture Trustee in order to discharge its obligations under the DTD;
  - ii. inform the Stock Exchange and the Debenture Trustee all information having bearing on the performance/operation of the Company, any price sensitive information or any action that may affect the payment of interest or Redemption of the NCDs in terms of Regulation 51(2) of the SEBI (LODR) Regulations.
  - iii. give prior intimation to the Stock Exchange with a copy to the Debenture Trustee at least 11 (eleven) Business Days before the date on and from which the interest on NCDs, and the Redemption Amount of NCDs becomes payable or within such timelines as prescribed under Applicable Law.
  - iv. provide an undertaking to the Stock Exchange on annual basis that all documents and intimations required to be submitted to Debenture Trustees in terms of this Deed and SEBI NCS Regulations have been complied with and furnish a copy of such undertaking to the Debenture Trustee for records.
  - v. inform the Debenture Trustee the status of payment (whether in part or full) of NCDs within 1 (one) Business Day of the payment/redemption.
- c. The Company shall promptly inform the Debenture Trustee the following details (if any) including but not limited to corporate debt restructuring; fraud/defaults by promoter or key managerial personnel or by Company or arrest of key managerial personnel or promoter; and/or reference to National Company Law Tribunal or insolvency petitions (if any) filed by any creditor of the Company.
- d. The Company shall submit to the stock exchange for dissemination, along with the quarterly/half yearly/ annual financial results, all information required under Regulation 52(4) of the SEBI (LODR) Regulations and submit the financial statements to the Debenture Trustee on the same day.
- e. The Company shall ensure compliance with the provisions of the Applicable Law, including but not limited to the SEBI Debenture Trustees Regulations, the SEBI Debenture Trustee Circular and the Companies (Share Capital and NCDs) Rules, 2014.

## TERMS OF THE ISSUE

### Authority for the Issue

The Issue has been authorised by the Board of Directors of our Company pursuant to a resolution passed at their meeting held on May 20, 2024 and the Stock Allotment Committee by way of a resolution dated August 8, 2024 approved the Draft Shelf Prospectus. Further, the Stock Allotment Committee has approved the Shelf Prospectus *vide* its resolution dated August 23, 2024 and this Tranche VI Prospectus *vide* its resolution dated June 27, 2025. Further, the present borrowing is within the borrowing limits under Section 180(1) (c) of the Companies Act, 2013, duly approved by the Shareholders' *vide* their resolution passed at their AGM held on September 28, 2022.

### Principal Terms & Conditions of the Issue

The NCDs being offered as part of this Tranche VI Issue are subject to the provisions of the SEBI NCS Regulations, the applicable provisions of Companies Act, 2013, the Memorandum and Articles of Association of our Company, the terms of the Shelf Prospectus and this Tranche VI Prospectus, the Application Forms, the terms and conditions of the Debenture Trusteeship Agreement, the Debenture Trust Deed, other applicable statutory and/or regulatory requirements including those issued from time to time by SEBI, the Government of India, BSE, RBI, and/or other statutory/regulatory authorities relating to the offer, issue and listing of securities and any other documents that may be executed in connection with the NCDs.

### Ranking of Secured NCDs

The NCDs being offered as part of this Tranche VI Issue are subject to the provisions of the SEBI NCS Regulations, the applicable provisions of Companies Act, 2013, the Memorandum and Articles of Association of our Company, the terms of the Shelf Prospectus and this Tranche VI Prospectus, the Application Forms, the terms and conditions of the Debenture Trusteeship Agreement, the Debenture Trust Deed, other applicable statutory and/or regulatory requirements including those issued from time to time by SEBI, the Government of India, BSE, RBI, and/or other statutory/regulatory authorities relating to the offer, issue and listing of securities and any other documents that may be executed in connection with the NCDs.

### Security

The principal amount of the Secured NCDs to be issued in terms of this Tranche VI Prospectus together with all interest due on the NCDs, as well as all costs, charges, all fees, remuneration of Debenture Trustee and expenses payable in respect thereof shall be secured by way of subservient charge with existing secured creditors on standard loan receivables and current assets (both present and future) of the company in favour of Debenture Trustee, to be held on *pari passu* basis among the present and / or future NCD holders, as may be applicable.

Our Company will create the security for the NCDs in favour of the Debenture Trustee for the Debenture Holders holding the Secured NCDs on the assets to ensure 100.00% security cover of the amount outstanding including interest in respect of the Secured NCDs at any time.

Our Company has entered into the Debenture Trusteeship Agreement and in furtherance thereof intends to enter into a deed of agreement with the Debenture Trustee, ("**Debenture Trust Deed**"), the terms of which shall govern the appointment of the Debenture Trustee and the issue of the NCDs. Our Company proposes to complete the execution of the Debenture Trust Deed before finalisation of the Basis of Allotment in consultation with the Designated Stock Exchange and shall utilise the funds only after the stipulated security has been created.

Under the terms of the Debenture Trust Deed, our Company will covenant with the Debenture Trustee that it will pay the Debenture Holders holding the NCDs the principal amount on the NCDs on the relevant redemption date and also that it will pay the interest due on the NCDs at the rate specified in this Tranche VI Prospectus and in the Debenture Trust Deed.

The Debenture Trust Deed will also provide that our Company may withdraw any portion of the security subject to prior written consent of the Debenture Trustee and/or may replace with another asset of the same or a higher value.

Our Company confirms that the Tranche VI Issue Proceeds shall be kept in the Public Issue Account until the documents for creation of security i.e. the Debenture Trust Deed, is executed.

Further, in the event our Company fails to execute the Debenture Trust Deed within the period specified in Regulation

18(1) of the SEBI NCS Regulations or such other time frame as may be stipulated from time-to-time, our Company shall pay interest of at least 2% p.a. to each NCD Holder, over and above the agreed coupon rate, till the execution of the Debenture Trust Deed.

### **Debenture Redemption Reserve**

In accordance with recent amendments to the Companies Act, 2013, and the Companies (Share Capital & Debentures) Rules 2014, read with Rule 16 of the SEBI NCS Regulations, a listed company that intends to issue debentures to the public are no longer required to create a DRR for the purpose of redemption of debentures. Pursuant to the amendment to the Companies (Share Capital & Debentures) Rules 2014, notified on August 16, 2019, and as on the date of filing of this Tranche VI Prospectus, our Company is not required to create DRR for the purpose of redemption of the NCDs. Accordingly, no debenture redemption reserve shall be created by our Company for the purpose of redemption of the NCDs or in connection with the Issue. Our Company shall, as per the Companies (Share Capital & Debentures) Rules 2014 and other laws applicable from time to time, invest or deposit, as the case may be, the applicable amounts, within the specified timelines, in respect of debentures maturing during the year ending on the 31st day of March of the next year, in any one or more methods of investments or deposits stipulated under the applicable law. Provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below the specified percentage, which is presently stipulated at 15% (fifteen percent) of the amount of the debentures maturing during the year ending on March 31 of the next year, in any of the following instruments or such other instruments as may be permitted under the applicable laws..

1. in deposits with any scheduled bank, free from any charge or lien;
2. in unencumbered securities of the Central Government or any State Government;
3. in unencumbered securities mentioned in sub-clause (a) to (d) and (ee) of section 20 of the Indian Trusts Act, 1882;
4. in unencumbered bonds issued by any other company which is notified under sub-clause (f) of section 20 of the Indian Trusts Act, 1882:

Provided further that the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above.

### **Face Value**

The face value of each NCD to be issued under this Tranche VI Issue shall be ₹ 1,000.

### **Debenture Holder not a Shareholder**

The Debenture Holders will not be entitled to any of the rights and privileges available to the equity and/or preference shareholders of our Company, except to the extent of the right to receive the annual reports of our Company and such other rights as may be prescribed under the Companies Act, 2013 and the rules prescribed thereunder and the SEBI Listing Regulations.

### **Rights of Secured Debenture Holders**

Some of the significant rights available to the Debenture Holders are as follows:

1. The NCDs shall not, except as provided under the Companies Act, 2013, confer upon the Debenture Holders thereof any rights or privileges available to our members including the right to receive notices or annual reports of, or to attend and/or vote, at our general meeting. However, if any resolution affecting the rights attached to the NCDs is to be placed before the members, the said resolution will first be placed before the concerned registered Debenture Holders for their consideration. The opinion of the Debenture Trustee as to whether such resolution is affecting the right attached to the NCDs is final and binding on Debenture Holders. In terms of Section 136 of the Companies Act, 2013, holders of NCDs shall be entitled to a copy of the balance sheet and copy of trust deed on a specific request made to us.
2. Subject to applicable statutory/regulatory requirements and terms of the Debenture Trust Deed, including requirements of the RBI, the rights, privileges and conditions attached to the Secured NCDs may be varied, modified and/or abrogated with the consent in writing of the holders of at least three-fourths of the outstanding amount of the Secured NCDs or with the sanction of a special resolution passed at a meeting of the concerned Debenture Holders, provided that nothing in such consent or resolution shall be operative against us, where such consent or resolution modifies or varies the terms and conditions governing the Secured NCDs, if the same are not acceptable to us.
3. Subject to applicable statutory/regulatory requirements and terms of the Debenture Trust Deed, the registered

Debenture Holder or in case of joint-holders, the one whose name stands first in the register of debenture holders shall be entitled to vote in respect of such Secured NCDs, either in person or by proxy, at any meeting of the concerned Secured Debenture Holders and every such holder shall be entitled to one vote on a show of hands and on a poll, his/her voting rights on every resolution placed before such meeting of the Secured Debenture Holders shall be in proportion to the outstanding nominal value of Secured NCDs held by him/her.

4. The Secured NCDs are subject to the provisions of the SEBI NCS Regulations, the applicable provisions of Companies Act, 2013 and the Companies Act, 1956, the Memorandum and Articles of Association of our Company, the terms of this Tranche VI Prospectus, the Application Form, the terms and conditions of the Debenture Trust Deed, requirements of the RBI, other applicable statutory and/or regulatory requirements relating to the issue and listing, of securities and any other documents that may be executed in connection with the Secured NCDs.
5. The Depositories shall maintain the up to date record of holders of the Secured NCDs in dematerialised form. In terms of Section 88(3) of the Companies Act, 2013, the register and index of beneficial of Secured NCDs maintained by a Depository for any Secured NCD in dematerialised form under Section 11 of the Depositories Act shall be deemed to be a register of Debenture Holders for this purpose.
6. A register of Debenture Holders holding Secured NCDs in physical form pursuant to rematerialisation of the Secured NCDs issued pursuant to this Tranche VI Issue (“**Register of Debenture Holder**”) will be maintained in accordance with Section 88 of the Companies Act, 2013 and all interest/redemption amounts and principal sums becoming due and payable in respect of the Secured NCDs will be paid to the registered holder thereof for the time being or in the case of joint-holders, to the person whose name stands first in the Register of Debenture Holders as on the Record Date.
7. Subject to compliance with RBI requirements, Secured NCDs can be rolled over only with the consent of the holders of at least 75% of the outstanding amount of the Secured NCDs after providing at least 21 days’ prior notice for such roll over and in accordance with the SEBI NCS Regulations. Our Company shall redeem the debt securities of all the debt securities holders, who have not given their positive consent to the roll-over.
8. The aforementioned rights of the Secured Debenture Holders are merely indicative. The final rights of the Secured Debenture Holders will be as per the terms of the Shelf Prospectus, Tranche VI Prospectus and the Debenture Trust Deed to be executed between our Company and the Debenture Trustee.

#### **Debenture Trustees for the Debenture Holders**

We have appointed Vardhman Trusteeship Private Limited to act as the Debenture Trustees for the Debenture Holders in terms of Regulation 8 of the SEBI NCS Regulations and Section 71(5) of the Companies Act, 2013 and the rules prescribed thereunder. We and the Debenture Trustee will execute a Debenture Trust Deed, *inter alia*, specifying the powers, authorities and obligations of the Debenture Trustee and us with respect to the NCDs. The Debenture Holder(s) shall, without further act or deed, be deemed to have irrevocably given their consent to the Debenture Trustee or any of its agents or authorised officials to do all such acts, deeds, matters and things in respect of or relating to the NCDs as the Debenture Trustee may in its absolute discretion deem necessary or require to be done in the interest of the Debenture Holder(s). Any payment made by us to the Debenture Trustee on behalf of the Debenture Holder(s) shall discharge us *pro tanto* to the Debenture Holder(s).

The Debenture Trustee will protect the interest of the Debenture Holders in the event of default by us in regard to timely payment of interest and repayment of principal and they will take necessary action at our cost. The Debenture Trustee has undertaken the necessary due diligence in accordance with Applicable Law, including the SEBI Debenture Trustee Master Circular and SEBI NCS Regulations.

#### **Terms and Conditions of Debenture Trustee Agreement**

##### **Fees charged by Debenture Trustee**

The Debenture Trustee Agreement (DTA) has been executed as per applicable laws. Service charges of Debenture Trustee are ₹5,00,000, as agreed between the Company and the Debenture Trustee.

##### **Terms of carrying out due diligence:**

- a. The Debenture Trustee, either through itself or its agents /advisors/consultants, shall carry out requisite diligence to verify the status of encumbrance and valuation of the assets and whether all permissions or consents (if any) as may be required to create the security as stipulated in the Draft Shelf Prospectus/Shelf Prospectus/ Tranche VI Prospectus, has been obtained. For the purpose of carrying out the due diligence as required in terms of the Relevant Laws, the Debenture Trustee, either through itself or its agents /advisors/consultants, shall have the power to examine the books of account of the Company and to have the Company's assets inspected by its officers and/or external auditors/valuers/consultants/lawyers/technical experts/management consultants appointed by the Debenture Trustee.
- b. The Company shall provide all assistance to the Debenture Trustee to enable verification from the Registrar of Companies, Sub-registrar of Assurances (as applicable), CERSAI, depositories, information utility or any other authority, as may be relevant, where the assets and/or encumbrances in relation to the assets of the Company or any third party security provider are registered / disclosed.
- c. Further, in the event that existing charge holders have provided conditional consent / permissions to the Company to create further charge on the assets, the Debenture Trustee shall also have the power to verify such conditions by reviewing the relevant transaction documents or any other documents executed between existing charge holders and the Company. The Debenture Trustee shall also have the power to intimate the existing charge holders about proposal of creation of further encumbrance and seeking their comments/ objections, if any.
- d. Without prejudice to the aforesaid, the Company shall ensure that it provides and procures all information, representations, confirmations and disclosures as may be required in the sole discretion of the Debenture Trustee to carry out the requisite diligence in connection with the issuance and allotment of the Debentures, in accordance with the relevant laws/ Applicable Law.
- e. The Debenture Trustee shall have the power to either independently appoint or direct the Company to (after consultation with the Debenture Trustee) appoint intermediaries, valuers, chartered accountant firms, practicing company secretaries, consultants, lawyers and other entities in order to assist in the diligence by the Debenture Trustee. All costs, charges, fees and expenses that are associated with and incurred in relation to the diligence as well as preparation of the reports/certificates/documentation, including all out of pocket expenses towards legal or inspection costs, travelling and other costs, shall be solely borne by the Company.
- f. The Secured Debentures shall be considered as secured only if the charged asset is registered with Sub-registrar and Registrar of Companies or CERSAI or Depository, etc, as applicable, or is independently verifiable by the debenture trustee.

#### **Process of Due Diligence to be carried out by the Debenture Trustee**

Due Diligence will be carried out as per SEBI Debenture Trustee Master Circular, SEBI NCS Regulations and circulars issued by SEBI from time to time. This would broadly include the following:

- A Chartered Accountant ("CA") appointed by Debenture Trustee will conduct independent due diligence as per scope provided, regarding security offered by the Issuer.
- CA will ascertain, verify, and ensure that the assets offered as security by the Issuer is free from any encumbrances or necessary permission / consent / NOC has been obtained from all existing charge holders.
- CA will conduct independent due diligence on the basis of data / information provided by the Issuer.
- CA will, periodically undertake due diligence as envisaged in SEBI circulars depending on the nature of security.
- On basis of the CA's report / finding Due Diligence certificate will be issued by Debenture Trustee and will be filed with relevant Stock Exchange.
- Due Diligence conducted is premised on data / information made available to the Debenture Trustee appointed agency and there is no onus of responsibility on Debenture Trustee or its appointed agency for any acts of omission / commission on the part of the Issuer.

While the Debt Security is secured as per terms of the Offer Document and charge is held in favour of the Debenture Trustee, the extent of recovery would depend upon realization of asset value and the Debenture Trustee in no way guarantees / assures full recovery / partial of either principal or interest.

## Other Confirmations

The Debenture Trustee confirms that they have undertaken the necessary due diligence in accordance with Applicable Law, including the SEBI (Debenture Trustees) Regulations, 1993, read with the SEBI Debenture Trustee Master Circular.

The Debenture Trustee undertakes that the NCDs shall be considered as secured only if the charged asset is registered with sub-registrar and Registrar of Companies or CERSAI or depository, etc., as applicable, or is independently verifiable by the Debenture Trustee.

## Events of Default (including manner of voting/conditions of joining Inter Creditor Agreements)

Subject to the terms of the Debenture Trust Deed, the Debenture Trustee, at its discretion may, or if so requested in writing by the holders of at least three-fourths of the outstanding amount of the NCDs or with the sanction of a special resolution, passed at a meeting of the Debenture Holders, (subject to being indemnified and/or secured by the Debenture Holders to its satisfaction), give notice to our Company specifying that the NCDs and/or any particular options of NCDs, in whole but not in part are and have become due and repayable on such date as may be specified in such notice inter alia if any of the events listed below occurs. The description below is indicative and a complete list of events of default including cross defaults, if any, and its consequences will be specified in the Debenture Trust Deed:

Indicative list of Events of Default:

- i. default is committed in payment of the principal amount of the NCDs on the due date(s);
- ii. default is committed in payment of any interest on the NCDs on the due date(s);
- iii. default is committed in payment of any other amounts outstanding on the NCDs;
- iv. defaults in performance or compliance with one or more of its material obligations, covenant, condition or provisions in relation to the NCDs and/or the Transaction Documents, which default is incapable of remedy or, if in the reasonable opinion of the Debenture Trustee is capable of remedy, is not remedied within 30 (thirty) days of written notice of such default being provided to the Company by the Debenture Trustee;
- v. if the Company creates or attempts to create any additional charge on the Secured Assets or any part thereof without the prior approval of the Debenture Trustee.
- vi. if in the opinion of the Debenture Trustee, the Security is in jeopardy.
- vii. an order is made or an effective resolution passed for the winding-up or dissolution, judicial management or administration of the Company, or the Company ceases or threatens to cease to carry on all or substantially all of its business or operations, except for the purpose of and followed by a reconstruction, amalgamation, reorganisation, merger or consolidation on terms approved by a Special Resolution of the NCD Holders;
- viii. the Company commences a voluntary proceeding under any applicable bankruptcy, insolvency, winding up or other similar law now or hereafter in effect, or consent to the entry of an order for relief in an involuntary proceeding under any such law, or consent to the appointment or taking possession by a receiver, liquidator, assignee (or similar official) for any or a substantial part of its property or take any action towards its re-organisation, liquidation or dissolution;
- ix. any step is taken by Governmental Authority or agency or any other competent authority, with a view to the seizure, compulsory acquisition, expropriation or nationalisation of all or (in the opinion of the Debenture Trustee) a material part of the assets of the Company which is material to the Company;
- x. the Company without the consent of Debenture Trustee ceases to carry on its business or gives notice of its intention to do so; and
- xi. any event occurs which under the laws of any relevant jurisdiction has an analogous effect to any of the events referred to in any of the foregoing paragraphs.

In accordance with the SEBI Debenture Trustee Master Circular, in case of 'Default' by Issuers of listed debt securities", post the occurrence of a "default", the consent of the NCD Holders for entering into an inter-creditor agreement (the

“ICA”)/enforcement of security shall be sought by the debenture trustee after providing a notice to the investors in the manner stipulated under applicable law. Further, the meeting of the NCD Holders shall be held within the period stipulated under applicable law. In case(s) where majority of investors express their consent to enter into the ICA, the debenture trustee shall enter into the ICA on behalf of the investors upon compliance with the conditions as stipulated in the abovementioned circular. In case consents are not received for signing the ICA, the debenture trustee shall take further action, if any, as per the decision taken in the meeting of the investors. The consent of the majority of investors shall mean the approval of not less than 75% of the investors by value of the outstanding debt and 60% of the investors by number at the ISIN level.

Regulation 51 read with the Explanation to Clause A (11) in Part B of Schedule III of the SEBI Listing Regulations, defines ‘default’ as non-payment of interest or principal amount in full on the pre-agreed date which shall be recognized at the first instance of delay in the servicing of any interest or principal on debt.

It is hereby confirmed, in case of an occurrence of a “default”, the Debenture Trustee shall abide and comply with the procedures mentioned in the SEBI Debenture Trustee Master Circular.

### **Market Lot and Trading Lot**

Since trading of the NCDs is in dematerialised form, the tradable lot is one NCD.

Allotment in this Tranche VI Issue will be in Demat form in multiples of one NCD. For details of allotment, see “*Issue Procedure*” on page 312.

### **Nomination facility to Debenture Holder**

In accordance with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014 (“**Rule 19**”) and Section 72 of the Companies Act, 2013, the sole Debenture Holder, or first Debenture Holder, along with other joint Debenture Holders’ (being individual(s)), may nominate, in the Form No. SH.13, any one person in whom, in the event of the death of Applicant the NCDs Allotted, if any, will vest. Where the nomination is made in respect of the NCDs held by more than one person jointly, all joint holders shall together nominate in Form No. SH.13 any person as nominee. A nominee entitled to the NCDs by reason of the death of the original holder(s), will, in accordance with Rule 19 and Section 56 of the Companies Act, 2013, be entitled to the same benefits to which he or she will be entitled if he or she were the registered holder of the NCDs. Where the nominee is a minor, the holder(s) may make a nomination to appoint, in Form No. SH.14, any person to become entitled to NCDs in the event of the holder’s death during minority. A nomination will stand rescinded on a sale/transfer/alienation of NCDs by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office, Corporate Office or with the Registrar to the Issue.

Debenture Holder(s) are advised to provide the specimen signature of the nominee to us to expedite the transmission of the NCD(s) to the nominee in the event of demise of the Debenture Holder(s). The signature can be provided in the Application Form or subsequently at the time of making fresh nominations. This facility of providing the specimen signature of the nominee is purely optional.

In accordance with Rule 19, any person who becomes a nominee by virtue of the Rule 19, will on the production of such evidence as may be required by the Board, elect either:

- to register himself or herself as the holder of the NCDs; or
- to make such transfer of the NCDs, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the NCDs, and if the notice is not complied with, within a period of 90 days, the Board may thereafter withhold payment of all interests or redemption amounts or other monies payable in respect of the NCDs, until the requirements of the notice have been complied with.

For all NCDs held in the dematerialized form, nominations registered with the respective Depository Participant of the Applicant would prevail. If the Investors require changing their nomination, they are requested to inform their respective Depository Participant in connection with NCDs held in the dematerialized form.

A nomination may be cancelled or varied by nominating any other person in place of the present nominee, by the Debenture

Holder who has made the nomination, by giving a notice of such cancellation or variation in the prescribed manner as per applicable laws. The cancellation or variation shall take effect from the date on which the notice of such variation or cancellation is received.

For all NCDs held in the dematerialised form and since the allotment of NCDs pursuant to this Tranche VI Issue will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. The nominations registered with the respective Depository Participant of the Applicant would prevail. If the Investors require changing their nomination, they are requested to inform their respective Depository Participant in connection with NCDs held in the dematerialised form.

### **Jurisdiction**

Exclusive jurisdiction for the purpose of this Tranche VI Issue is with the competent courts of jurisdiction in Cochin, Kerala India.

### **Application in the Issue**

Applicants shall apply in this Tranche VI Issue in dematerialised form only, through a valid Application Form filled in by the Applicant along with attachment, as applicable. Further, Applications in this Tranche VI Issue shall be made through the ASBA facility only (including Applications made by UPI Investors under the UPI Mechanism).

In terms of Regulation 7 of the SEBI NCS Regulations, our Company will make public issue of the NCDs in the dematerialised form only.

However, in terms of Section 8(1) of the Depositories Act, our Company, at the request of the Investors who wish to hold the NCDs in physical form will rematerialize the NCDs. However, any trading of the NCDs shall be compulsorily in dematerialised form only.

### **Form of Allotment and Denomination of Secured NCDs**

As per the SEBI NCS Regulations, the trading of the Secured NCDs on the Stock Exchange shall be in dematerialized form only in multiples of one (1) NCD (“**Market Lot**”). Allotment in this Tranche VI Issue to all allottees, will be in electronic form i.e. in dematerialised form and in multiples of one NCD.

For details of allotment please see “*Issue Procedure*” on page 312.

### **Transfer/Transmission of NCD(s)**

The NCDs shall be transferred or transmitted freely in accordance with the applicable provisions of the Companies Act, 2013. The NCDs held in dematerialised form shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/CDSL and the relevant DPs of the transfer or transferee and any other applicable laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. The seller should give delivery instructions containing details of the buyer’s DP account to his Depository Participant.

In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Company or Registrar.

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2018 read with SEBI Press release (no. 49/ 2018) dated December 3, 2018, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition, from April 1, 2019. However, any trading of the NCDs issued pursuant to this Tranche VI Issue shall be compulsorily in dematerialised form only.

### **Title**

In case of:

- the NCDs held in the dematerialised form, the person for the time being appearing in the record of beneficial owners maintained by the Depository; and

- the NCD held in physical form, pursuant to any rematerialisation, the person for the time being appearing in the Register of Debenture Holders as Debenture Holder shall be treated for all purposes by our Company, the Debenture Trustee, the Depositories and all other persons dealing with such person as the holder thereof and its absolute owner for all purposes regardless of any notice of ownership, trust or any interest in it or any writing on, theft or loss of the Consolidated NCD Certificate issued in respect of the NCDs and no person will be liable for so treating the Debenture Holder.

No transfer of title of NCD will be valid unless and until entered on the Register of Debenture Holders or the register and index of Debenture Holders maintained by the Depository prior to the Record Date. In the absence of transfer being registered, interest and/or Maturity Amount, as the case may be, will be paid to the person, whose name appears first in the Register of Debenture Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar.

### **Succession**

Where NCDs are held in joint names and one of the joint holders dies, the survivor(s) will be recognized as the Debenture Holder(s). It will be sufficient for our Company to delete the name of the deceased Debenture Holder after obtaining satisfactory evidence of his death. Provided, a third person may call on our Company to register his name as successor of the deceased Debenture Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the debentures. In the event of demise of the sole or first holder of the Debentures, the Company will recognise the executors or administrator of the deceased Debenture Holders, or the holder of the succession certificate or other legal representative as having title to the Debentures only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. The directors of the Company in their absolute discretion may, in any case, dispense with production of probate or letter of administration or succession certificate or other legal representation. In case of death of Debenture Holders who are holding NCDs in dematerialised form, third person is not required to approach the Company to register his name as successor of the deceased Debenture Holder. He shall approach the respective Depository Participant of the Debenture Holder for this purpose and submit necessary documents as required by the Depository Participant.

Where a non-resident Indian becomes entitled to the NCDs by way of succession, the following steps have to be complied with:

1. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the NCDs were acquired by the non-resident Indian as part of the legacy left by the deceased Debenture Holder.
2. Proof that the non-resident Indian is an Indian national or is of Indian origin.
3. Such holding by a non-resident Indian will be on a non-repatriation basis.

### **Joint-holders**

Where two or more persons are holders of any NCD(s), they shall be deemed to hold the same as joint holders with benefits of survivorship subject to other provisions contained in the Articles.

### **Procedure for Re-materialization of NCDs**

Debenture Holders who wish to hold the NCDs in physical form may do so by submitting a request to their DP at any time after Allotment in accordance with the applicable procedure stipulated by the DP, in accordance with the Depositories Act and/or rules as notified by the Depositories from time to time. **Holders of NCDs who propose to dematerialise their NCDs, would have to mandatorily submit details of their bank mandate along with a copy of any document evidencing that the bank account is in the name of the holder of such NCDs and their Permanent Account Number to the Company and the DP. No proposal for rematerialisation of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialisation.**

### **Restriction on transfer of NCDs**

There are no restrictions on transfers and transmission of NCDs Allotted pursuant to this Tranche VI Issue. Pursuant to the SEBI Listing Regulations, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition, with effect from April 1, 2019. However, any trading of the NCDs issued

pursuant to this Tranche VI Issue shall be compulsorily in dematerialized form only.

### Period of Subscription

The subscription list shall remain open for a period as indicated below, with an option for early closure or extension by such period, as may be decided by the Board or the Stock Allotment Committee, subject to necessary approvals. In the event of such early closure of this Tranche VI Issue, our Company shall ensure that notice of such early closure is given one day prior to such early date of closure through advertisement/s in a leading national daily newspaper and a local newspaper in the state of Kerala, with wide circulation.

### Issue Programme\*\*

<b>Tranche VI Issue Opening Date</b>	Friday, July 4, 2025
<b>Tranche VI Issue Closing Date</b>	Thursday, July 17, 2025
<b>PAY IN DATE</b>	Application Date. The entire Application Amount is payable on Application.
<b>DEEMED DATE OF ALLOTMENT</b>	The date on which the Board of Directors or the Stock Allotment Committee approves the Allotment of the NCDs for this Tranche VI Issue or such date as may be determined by the Board of Directors or the Stock Allotment Committee and notified to the Designated Stock Exchange. The actual Allotment of NCDs may take place on a date other than the Deemed Date of Allotment. All benefits relating to the NCDs including interest on NCDs shall be available to the Debenture Holders from the Deemed Date of Allotment.

*\*\* This Tranche VI Issue shall remain open for subscription on Working Days from 10:00 a.m. to 5:00 p.m. (Indian Standard Time) during the period as indicated in this Tranche VI Prospectus. Our Company may, in consultation with the Lead Manager, consider closing this Tranche VI Issue on such earlier date or extended date (subject to a minimum period of two working days and a maximum period of 10 working days from the date of opening of this Tranche VI Issue and subject to not exceeding thirty days from filing of this Tranche VI Prospectus with ROC, including any extensions), as may be decided by the Board of Directors or the Stock Allotment Committee, subject to relevant approvals, in accordance with the Regulation 33A of the SEBI NCS Regulations. In the event of an early closure or extension of this Tranche VI Issue, our Company shall ensure that notice of the same is provided to the prospective investors through an advertisement in an English daily national newspaper with wide circulation and a regional daily with wide circulation where the registered office of the Company is located (in all the newspapers or electronic modes such as online newspapers or websites of the Issuer or the stock exchange in which pre-issue advertisement for opening of this Tranche VI Issue has been given on or before such earlier or initial date of Tranche VI Issue closure). On the Tranche VI Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. and 3:00 p.m. (Indian Standard Time) and uploaded until 5 p.m. or such extended time as may be permitted by the Stock Exchange. Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. on one Working Day post this Tranche VI Issue Closing Date. For further details please see "General Information" on page 43.*

*Application (including Application under the UPI Mechanism) and any further changes to the Applications shall be accepted only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time, "IST") during this Tranche VI Issue Period as mentioned above by the Members of the Syndicate, Trading Members and Designated Branches of SCSBs, except that on this Tranche VI Issue Closing Date when the Applications and any further changes in details in Applications, if any, shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and shall be uploaded until 5.00 p.m. (IST) or such extended time as permitted by the Stock Exchange. Additionally, an Investor may also submit the Application Form through the app or web interface of the Stock Exchange. It is clarified that the Applications not uploaded in the Stock Exchange platform would be rejected.*

*Due to limitation of time available for uploading the Applications on the Tranche VI Issue Closing Date, the Applicants are advised to submit their Applications one day prior to this Tranche VI Issue Closing Date and, in any case, no later than 3.00 p.m. (IST) on the Tranche VI Issue Closing Date. All times mentioned in this Tranche VI Prospectus are Indian Standard Time. Applicants are cautioned that in the event a large number of Applications are received on the Tranche VI Issue Closing Date, as is typically experienced in public offerings, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for Allocation under this Tranche VI Issue. Applications will be accepted only on Business Days, i.e., Monday to Friday (excluding any public holiday). Neither our Company, nor the Lead Manager, nor any Member of the Syndicate, Trading Members or Designated Branches of SCSBs is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise. Please note that, within each category of Investors, the Basis of Allotment under this Tranche VI Issue will be on date priority basis, however, from the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis.*

### Basis of payment of Interest

NCDs once Allotted under any particular category of NCDs shall continue to bear the applicable tenor, Coupon/Yield and Redemption Amount as at the time of original Allotment irrespective of the category of Debenture Holder on any Record Date, and such Tenor, Coupon/Yield and Redemption Amount as at the time of original Allotment will not be impacted by trading of any series of NCDs between the categories of persons or entities in the secondary market.

Payment of Interest/Maturity Amount will be made to those Debenture Holders whose names appear in the Register of Debenture Holders (or to first holder in case of joint-holders) as on Record Date.

We may enter into an arrangement with one or more banks in one or more cities for direct credit of interest to the account of the Investors. In such cases, interest, on the Interest Payment Date, would be directly credited to the account of those Investors who have given their bank mandate.

We may offer the facility of NACH, NEFT, RTGS, Direct Credit and any other method permitted by RBI and SEBI from time to time to help Debenture Holders. The terms of this facility (including towns where this facility would be available) would be as prescribed by RBI. Please see, *“Terms of the Issue - Manner of Payment of Interest / Redemption Amounts”* on page 305.

## **Taxation**

Income Tax is deductible at source at the rate of 10% on interest on debentures held by resident Indians (other than insurance companies), at the time of credit/ payment, as per the provisions of section 193 of the IT Act. Further, Tax will be deducted at source at reduced rate or no tax will be deducted at source in the following cases:

- a. When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of section 197(1) of the IT Act; and that a valid certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest;
- b. When the resident Debenture Holder with Permanent Account Number (“PAN”) (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the IT Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be Nil. However, under section 197A(1B) of the IT Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in section 194 of the IT Act, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India, as the case may be, or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax;
- c. Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the IT Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on the estimated total income of the year concerned will be Nil; and
- d. In all other situations, tax would be deducted at source as per prevailing provisions of the IT Act.

Form No.15G with PAN/ Form No.15H with PAN/ Certificate issued under section 197(1) of the IT Act has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any withholding tax.

The aforesaid documents, as may be applicable, should be submitted at the office of the Registrar to the Issue quoting 7 (seven) days prior to the Record Date to ensure non-deduction/lower deduction of tax at source from interest on the NCD. The investors need to submit Form 15H/ 15G/certificate in original with the Assessing Officer for each Fiscal during the currency of the NCD to ensure non-deduction or lower deduction of tax at source from interest on the NCD.

Tax exemption certificate/document, if any, must be lodged at the office of the Registrar to the Issue at least 7 (seven) days prior to the Record Date or as specifically required, failing which tax applicable on interest will be deducted at source on accrual thereof in our Company’s books and/or on payment thereof, in accordance with the provisions of the IT Act and/or any other statutory modification, enactment or notification as the case may be. A tax deduction certificate will be issued for the amount of tax, so deducted.

For further details, please see the section *“Statement of Possible Tax Benefits”* on page 64.

If the date of interest payment falls on a Saturday, Sunday or a public holiday in Mumbai or any other payment centre notified in terms of the Negotiable Instruments Act, 1881, then interest would be paid on the next working day. Payment

of interest would be subject to the deduction as prescribed in the I.T. Act or any statutory modification or re-enactment thereof for the time being in force.

Subject to the terms and conditions in connection with computation of applicable interest on the Record Date as stated in the section titled “*Issue Procedure*” on page 312. Please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of this Tranche VI Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the transferee of the deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs.

### **Day Count Convention**

Interest shall be computed on actual/actual basis i.e. on the principal outstanding on the NCDs as per the SEBI Master Circular.

### **Effect of holidays on payments**

If the date of payment of interest does not fall on a Working Day, then the interest payment will be made on succeeding Working Day (the “**Effective Date**”), however the calculation for payment of interest will be only till the originally stipulated Interest Payment Date. The dates of the future interest payments would be as per the originally stipulated schedule. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force. In case the Maturity Date (also being the last Interest Payment Date) does not fall on a Working Day, the payment will be made on the immediately preceding Working Day, along with coupon/interest accrued on the NCDs until but excluding the date of such payment.

### **Illustration for guidance in respect of the day count convention and effect of holidays on payments**

The illustration for guidance in respect of the day count convention and effect of holidays on payments, as required by SEBI Master Circular is disclosed in Annexure C of Tranche VI Prospectus.

### **Maturity and Redemption**

The manner of payment of interest / refund / redemption in connection with the NCDs is set out below:

The bank details will be obtained from the Depositories for payment of interest / refund / redemption as the case may be. Applicants who have applied for or are holding the NCDs in electronic form, are advised to immediately update their bank account details as appearing on the records of the depository participant. Please note that failure to do so could result in delays in credit of interest / refund / redemption amounts to the Applicant at the Applicant’s sole risk, and neither the Lead Manager our Company nor the Registrar to the Issue shall have any responsibility and undertake any liability for the same.

### **Application Size**

Each Application should be for a minimum of 10 NCDs and multiples of one NCD thereof. The minimum Application size for each Application would be ₹10,000 (for all kinds of Options)/ NCDs either taken individually or collectively) and in multiples of ₹1,000 thereafter.

Applicants can apply for any or all Options of NCDs offered hereunder provided the Applicant has applied for minimum Application size using the same Application Form.

**Applicants are advised to ensure that Application made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions.**

### **Terms of Payment**

The entire issue price of ₹ 1,000 per NCD is blocked in the ASBA Account on Application itself. In case of Allotment of lesser number of NCDs than the number of NCDs applied for, our Company shall instruct the SCSBs to unblock the excess amount blocked on Application in accordance with the terms of the Tranche VI Prospectus.

### **Manner of Payment of Interest / Redemption Amounts**

The manner of payment of interest / redemption in connection with the NCDs is set out below:

***For NCDs held in dematerialised form:***

The bank details will be obtained from the Depositories for payment of interest / redemption amount as the case may be. Holders of the NCDs, are advised to keep their bank account details as appearing on the records of the Depository Participant updated at all points of time. Please note that failure to do so could result in delays in credit of interest/redemption amounts at the Applicant's sole risk, and the Lead Manager, our Company or the Registrar shall have no responsibility and undertake no liability for the same.

***For NCDs held in physical form on account of re-materialization:***

In case of NCDs held in physical form, on account of rematerialisation, the bank details will be obtained from the documents submitted to the Company along with the rematerialisation request. For further details, please see "*Terms of the Issue – Procedure for Re-materialization of NCDs*" on page 302.

The mode of payment of interest/redemption/ refund amount shall be undertaken in the following order of preference:

- 1. Direct Credit/ NACH/ RTGS/ NEFT:** Investors having their bank account details updated with the Depository shall be eligible to receive payment of interest / redemption amount, through:
  - i. **Direct Credit:** interest / redemption amount would be credited directly to the bank accounts of the Investors, if held with the same bank as the Company.
  - ii. **NACH:** National Automated Clearing House which is a consolidated system of ECS. Payment of interest / redemption amount would be done through NACH for Applicants having an account at one of the centres specified by the RBI, where such facility has been made available. This would be subject to availability of complete bank account details including Magnetic Ink Character Recognition (MICR) code wherever applicable from the depository. The payment of interest / redemption amount through NACH is mandatory for Applicants having a bank account at any of the centres where NACH facility has been made available by the RBI (subject to availability of all information for crediting the interest / redemption amount through NACH including the MICR code as appearing on a cheque leaf, from the depositories), except where Applicant is otherwise disclosed as eligible to get interest / redemption amount through NEFT or Direct Credit or RTGS.
  - iii. **RTGS:** Applicants having a bank account with a participating bank and whose interest / redemption amount exceeds ₹ 2 lakhs, or such amount as may be fixed by RBI from time to time, have the option to receive the interest / redemption amount through RTGS. Such eligible Applicants who indicate their preference to receive interest / redemption amount through RTGS are required to provide the IFSC code in the Application Form or intimate our Company and the Registrar to the Issue at least 7 (seven) days before the Record Date. Charges, if any, levied by the Applicant's bank receiving the credit would be borne by the Applicant. In the event the same is not provided, interest / redemption amount shall be made through NECS subject to availability of complete bank account details for the same as stated above.
  - iv. **NEFT:** Payment of interest / redemption amount shall be undertaken through NEFT wherever the Applicants' bank has been assigned the Indian Financial System Code ("**IFSC**"), which can be linked to a Magnetic Ink Character Recognition, if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of the interest / redemption amounts, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the de-mat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of interest / redemption amount will be made to the Applicants through this method.
- 2. Registered Post/Speed Post:** For all other Debenture Holders, including those who have not updated their bank particulars with the MICR code, the interest payment / redemption amount shall be paid by way of interest/ redemption warrants dispatched through speed post/ registered post only to Applicants that have provided details of a registered address in India.

Please note that applicants are eligible to receive payments through the modes detailed in (i), (ii), (iii), and (iv) herein above provided they provide necessary information for the above modes and where such payment facilities are allowed / available.

Please note that our Company shall not be responsible to the holder of NCD, for any delay in receiving credit of interest /

refund / redemption so long as our Company has initiated the process of such request in time.

In case of ASBA Applicants, the Registrar to the Issue will issue requisite instructions to the relevant SCSBs to un-block amounts in the ASBA Accounts of the Applicants representing the amounts to be refunded to the Applicants.

The Registrar to the Issue shall instruct the relevant SCSB or in case of Bids by Retail Individual Investors applying through the UPI Mechanism to the Sponsor Bank, to revoke the mandate and to unblock the funds in the relevant ASBA Account to the extent of the Application Amount specified in the Application Forms for withdrawn, rejected or unsuccessful or partially successful Applications within six (6) Working Days of the Issue Closing Date.

### **Printing of Bank Particulars on Interest/ Redemption Warrants**

As a matter of precaution against possible fraudulent encashment of interest/ redemption warrants due to loss or misplacement, the particulars of the Applicant's bank account are mandatorily required to be given for printing on the orders/ warrants. In relation to NCDs held dematerialised form, these particulars would be taken directly from the depositories. In case of NCDs held in physical form on account of rematerialisation, the Investors are advised to submit their bank account details with our Company / Registrar at least fifteen (15) days prior to the Record Date failing which the orders / warrants will be dispatched to the postal address of the holder of the NCD as available in the records of our Company. Bank account particulars will be printed on the warrants which can then be deposited only in the account specified.

### **Loan against NCDs**

Pursuant to RBI Circular dated June 27, 2013, our Company, being an NBFC, is not permitted to extend any loans against the security of its NCDs.

### **Buy Back of NCDs**

Our Company may, at its sole discretion, from time to time, consider, subject to applicable statutory and/or regulatory requirements, buyback of NCDs, upon such terms and conditions as may be decided by our Company.

Our Company may from time to time invite the Debenture Holders to offer the NCDs held by them through one or more buy-back schemes and/or letters of offer upon such terms and conditions as our Company may from time to time determine, subject to applicable statutory and/or regulatory requirements. Such NCDs which are bought back may be extinguished, re-issued and/or resold in the open market with a view of strengthening the liquidity of the NCDs in the market, subject to applicable statutory and/or regulatory requirements.

### **Procedure for Redemption by Debenture Holders**

The procedure for redemption is set out below:

#### ***NCDs held in physical form on account of re-materialization:***

No action would ordinarily be required on the part of the Debenture Holder at the time of redemption and the redemption proceeds would be paid to those Debenture Holders whose names stand in the register of Debenture Holders maintained by us on the Record Date fixed for the purpose of redemption. However, our Company may require that the NCD certificate(s), duly discharged by the sole holder/all the joint-holders (signed on the reverse of the NCD certificate(s)) be surrendered for redemption on maturity and should be sent by the Debenture Holder(s) by Registered Post with acknowledgment due or by hand delivery to our office or to such persons at such addresses as may be notified by us from time to time. Debenture Holder(s) may be requested to surrender the NCD certificate(s) in the manner as stated above, not more than three months and not less than one month prior to the redemption date so as to facilitate timely payment.

We may at our discretion redeem the NCDs without the requirement of surrendering of the NCD certificates by the holder(s) thereof. In case we decide to do so, the holders of NCDs need not submit the NCD certificates to us and the redemption proceeds would be paid to those Debenture Holders whose names stand in the register of Debenture Holders maintained by us on the Record Date fixed for the purpose of redemption of NCDs. In such case, the NCD certificates would be deemed to have been cancelled. Also see "*Terms of the Issue - Payment on Redemption*" on page 308.

#### ***NCDs held in electronic form:***

No action is required on the part of Debenture Holder(s) at the time of redemption of NCDs.

### **Payment on Redemption**

The manner of payment of redemption is set out below:

#### ***NCDs held in physical form on account of re-materialisation***

The payment on redemption of the NCDs will be made by way of cheque/pay order/ electronic modes. However, if our Company so requires, the aforementioned payment would only be made on the surrender of NCD certificate(s), duly discharged by the sole holder / all the joint-holders (signed on the reverse of the NCD certificate(s)). Dispatch of cheques/pay order, etc. in respect of such payment will be made on the redemption date or (if so requested by our Company in this regard) within a period of 30 days from the date of receipt of the duly discharged NCD certificate.

In case we decide to do so, the redemption proceeds in the manner stated above would be paid on the redemption date to those Debenture Holders whose names stand in the Register of Debenture Holders maintained by us/Registrar to the Issue on the Record Date fixed for the purpose of redemption. Hence the transferees, if any, should ensure lodgement of the transfer documents with us at least 15 (fifteen) days prior to the Record Date. In case the transfer documents are not lodged with us at least 15 (fifteen) days prior to the Record Date and we dispatch the redemption proceeds to the transferor, claims in respect of the redemption proceeds should be settled amongst the parties *inter se* and no claim or action shall lie against us or the Registrar.

Our liability to holder(s) towards their rights including for payment or otherwise shall stand extinguished from the date of redemption in all events and when we dispatch the redemption amounts to the Debenture Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCD(s).

#### ***NCDs held in electronic form***

On the redemption date, redemption proceeds would be paid by cheque /pay order / electronic mode to those Debenture Holders whose names appear on the list of beneficial owners given by the Depositories to us. These names would be as per the Depositories' records on the Record Date fixed for the purpose of redemption. These NCDs will be simultaneously extinguished to the extent of the amount redeemed through appropriate debit corporate action upon redemption of the corresponding value of the NCDs. It may be noted that in the entire process mentioned above, no action is required on the part of Debenture Holders.

Our liability to Debenture Holder(s) towards his/their rights including for payment or otherwise shall stand extinguished from the date of redemption in all events and when we dispatch the redemption amounts to the Debenture Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCD(s).

In the event, the interest / payout of total coupon / redemption amount is a fraction and not an integer, such amount will be rounded off to the nearest integer. By way of illustration if the redemption amount is ₹1,837.5, then the amount shall be rounded off to ₹1,838.

### **Right to reissue NCD(s)**

Subject to the provisions of the Companies Act, 2013, where we have fully redeemed or repurchased any NCD(s), we shall have and shall be deemed always to have had the right to keep such NCDs in effect without extinguishment thereof, for the purpose of resale or reissue and in exercising such right, we shall have and be deemed always to have had the power to resell or reissue such NCDs either by reselling or reissuing the same NCDs or by issuing other NCDs in their place. The aforementioned right includes the right to reissue original NCDs.

### **Sharing of information**

We may, at our option, use on our own, as well as exchange, share or part with any financial or other information about the Debenture Holders available with us, and affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither we or our affiliates nor their agents shall be liable for use of the aforesaid

information.

## **Notices**

All notices to the Debenture Holder(s) required to be given by us or the Debenture Trustee shall be published in one English language newspaper having wide circulation and one regional language daily newspaper in Kerala and/or will be sent by post/ courier or through email or other electronic media to the registered holders of the NCD(s) from time to time.

## **Issue of a NCD Certificate(s)**

If any NCD certificate(s), issued pursuant to rematerialisation, if any, is/are mutilated or defaced or the cages for recording transfers of NCDs are fully utilised, the same may be replaced by us against the surrender of such certificate(s). Provided, where the NCD certificate(s) are mutilated or defaced, the same will be replaced as aforesaid only if the certificate numbers and the distinctive numbers are legible.

If any NCD certificate is destroyed, stolen or lost then upon production of proof thereof to our satisfaction and upon furnishing such indemnity/security and/or documents as we may deem adequate, duplicate NCD certificate(s) shall be issued. Upon issuance of a duplicate NCD certificate, the original NCD certificate shall stand cancelled.

## **Future Borrowings**

We will be entitled to borrow/raise loans or avail of financial assistance in whatever form as also to issue debentures/ NCDs/other securities in any manner having such ranking in priority, pari passu or otherwise, subject to applicable consents, approvals or permissions that may be required under any statutory/regulatory/contractual requirement, and subject to the stipulated minimum security cover being maintained, and no event of default has occurred and is continuing change the capital structure including the issue of shares of any class, on such terms and conditions as we may think appropriate, without the consent of, or intimation to, the Debenture Holders or the Debenture Trustee in this connection. However, if consent and/or intimation is required under applicable law, then the Company shall obtain such consents and/or intimation in accordance with such law.

## **Impersonation**

As a matter of abundant caution, attention of the Investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

*“Any person who:*

- a. makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- b. makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- c. otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.”*

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹ 10 lakh or 1% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹ 10 lakh or 1% of the turnover of the Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹ 50 lakh or with both.

## **Pre-closure**

Our Company, in consultation with the Lead Manager reserves the right to close this Tranche VI Issue at any time prior to the Tranche VI Issue Closing Date, subject to receipt of minimum subscription (75% of the Base Issue, i.e. ₹ 7,500 lakh). Our Company shall allot NCDs with respect to the Application Forms received at the time of such pre-closure in accordance with the Basis of Allotment as described herein and subject to applicable statutory and/or regulatory requirements. In the event of such early closure of this Tranche VI Issue, our Company shall ensure that public notice of such early closure is published on or before such early date of closure or the Tranche VI Issue Closing Date for this Tranche VI Issue, as applicable, through advertisement(s) in all those newspapers in which pre-issue advertisement and advertisement for

opening or closure of this Tranche VI Issue have been given.

### **Minimum Subscription**

If our Company does not receive the minimum subscription of 75% of Base Issue Size i.e. ₹ 7,500 lakh, prior to the Tranche VI Issue Closing Date, the entire Application Amount shall be unblocked in the relevant ASBA Account(s) of the Applicants within six Working Days from the Tranche VI Issue Closing Date provided wherein, the Application Amount has been transferred to the Public Issue Account from the respective ASBA Accounts, such Application Amount shall be refunded from the Refund Account to the relevant ASBA Accounts(s) of the Applicants within six Working Days from the Tranche VI Issue Closing Date, failing which the Company will become liable to refund the Application Amount along with interest at the rate 15 (fifteen) percent per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 and Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription amount was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI Master Circular.

### **Pre-Issue Advertisement**

Subject to Section 30 of the Companies Act, 2013, our Company will issue a statutory advertisement on or before the Tranche VI Issue Opening Date. This advertisement will contain the information as prescribed in Schedule V of SEBI NCS Regulations in compliance with the Regulation 30(1) of SEBI NCS Regulations. Material updates, if any, between the date of filing of this Tranche VI Prospectus with RoC and the date of release of the statutory advertisement, will be included in the statutory advertisement.

### **Listing**

The NCDs offered through the Draft Shelf Prospectus, the Shelf Prospectus and this Tranche VI Prospectus are proposed to be listed on the BSE. Our Company has obtained an 'in-principle' approval for the Issue from the BSE *vide* their letter DCS/BM/PI-BOND/16/24-25 dated August 21, 2024. For the purposes of the Issue, BSE shall be the Designated Stock Exchange.

Our Company will use best efforts to ensure that all steps for the completion of the necessary formalities for listing at the Stock Exchange is taken within six Working Days of the Tranche VI Issue Closing Date. For the avoidance of doubt, it is hereby clarified that in the event of non- subscription to any one or more of the option, such option(s) of NCDs shall not be listed. If permissions to deal in and for an official quotation of our NCDs are not granted by the Stock Exchange, our Company will forthwith repay, without interest, all moneys received from the applicants in pursuance of the Prospectus.

### **Guarantee/ Letter of Comfort**

This Tranche VI Issue is not backed by a guarantee or letter of comfort or any other document and/or letter with similar intent.

### **Arrangers**

No arrangers have been appointed for this Tranche VI Issue.

### **Monitoring & Reporting of Utilisation of Issue Proceeds**

There is no requirement for appointment of a monitoring agency in terms of the SEBI NCS Regulations. Our Board shall monitor the utilisation of the proceeds of this Tranche VI Issue. Our Company will disclose in the Company's financial statements for the relevant financial year commencing from Financial Year 2026, the utilisation of the proceeds of this Tranche VI Issue under a separate head along with details, if any, in relation to all such proceeds of this Tranche VI Issue that have not been utilised thereby also indicating investments, if any, of such unutilised proceeds of this Tranche VI Issue

### **Lien**

Not Applicable

#### **Lien on Pledge of NCDs**

Subject to applicable laws, our Company, at its discretion, may note a lien on pledge of NCDs if such pledge of NCDs is accepted by any bank or institution for any loan provided to the Debenture Holder against pledge of such NCDs as part of the funding.

#### **Register of NCD Holders**

No transfer of title of a NCD will be valid unless and until entered on the Register of NCD Holders (for re materialized NCDs) or the register and index of NCD Holders maintained by the Depository prior to the Record Date. In the absence of transfer being registered, interest and/or Redemption Amount, as the case may be, will be paid to the person, whose name appears first in the Register of NCD Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar. The provisions relating to transfer and transmission and other related matters in respect of our Company's shares contained in the Articles of Association of our Company and the Companies Act shall apply, mutatis mutandis (to the extent applicable) to the NCDs as well.

#### **Put / Call Option**

Not Applicable.

#### **Record Date**

The record date for payment of interest in connection with the NCDs or repayment of principal in connection therewith shall be 15 Days prior to the date on which interest is due and payable, and/or the date of redemption. Provided that trading in the NCDs shall remain suspended between the aforementioned Record Date in connection with redemption of NCDs and the date of redemption or as prescribed by the Stock Exchange, as the case may be.

In case Record Date falls on a day when Stock Exchange is having a trading holiday, the immediate subsequent trading day will be deemed as the Record Date.

#### **Recovery Expense Fund**

The Company has created a recovery expense fund and deposited an amount of ₹ 25 lakhs towards recovery expense fund ("**Recovery Expense Fund**" / "**REF**") with the Designated Stock Exchange in the manner as specified by SEBI from time to time and informed the Debenture Trustee about the same. The Recovery Expense fund may be utilised by Debenture Trustee, in the event of default by the Company, for taking appropriate legal action to enforce the security.

#### **Right to recall or redeem prior to maturity**

Not Applicable

## ISSUE PROCEDURE

*This section applies to all Applicants. Specific attention of all Applicants is invited to the SEBI Master Circular, which provides, inter-alia, that for all public issues of debt securities all Applicants shall mandatorily use the ASBA facility for participating in this Tranche VI Issue. ASBA Applicants and Applicants applying through the Direct Online Application Mechanism (as defined hereinafter) should note that the ASBA process and the Direct Online Application Mechanism involve application procedures that are different from the procedure applicable to all other Applicants. Please note that all Applicants are required to pay the full Application Amount or ensure that the ASBA Account has sufficient credit balance such that the entire Application Amount can be blocked by the SCSB while making an Application. Further all individual investors applying through intermediaries (viz. syndicate members, registered stock brokers, registrar to an issue and transfer agent and depository participants), where the application amount is upto ₹ 5 lakh, shall only use UPI for the purpose of blocking of funds and provide his/ her bank account linked UPI ID in the bid-cum-application form submitted with intermediaries. However, individual investors shall continue to have the choice of availing other modes (viz. through SCSBs and Stock Exchange Platform) for making an application in the public issue.*

*Applicants should note that they may submit their Application Forms (including in cases where Applications are being made under the UPI mechanism) at (i) the Designated Branches of the SCSBs or (ii) at the Collection Centres, i.e. to the respective Members of the Consortium at the Specified Locations, the Trading Members at the Broker Centres, the CRTA at the Designated RTA Locations or CDP at the Designated CDP Locations or (iii) through BSE Direct, the app and/or web based interface/platform of the Stock Exchange, as applicable. For further information, please see “Issue Procedure - Submission of Completed Application Forms” on page 329.*

*Applicants are advised to make their independent investigations and ensure that their Application do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable law or as specified in the Tranche VI Prospectus.*

*Please note that this section has been prepared based on the SEBI Master Circular and the notifications issued by BSE in relation to the UPI Mechanism.*

*Further, our Company, the Lead Manager and the Consortium Member do not accept any responsibility for any adverse occurrence consequent to the implementation of the UPI Mechanism for application in this Tranche VI Issue.*

**THE DESIGNATED INTERMEDIARIES (OTHER THAN TRADING MEMBERS), SCSBs AND OUR COMPANY SHALL NOT BE RESPONSIBLE OR LIABLE FOR ANY ERRORS OR OMISSIONS ON THE PART OF THE TRADING MEMBERS IN CONNECTION WITH THE RESPONSIBILITIES OF SUCH TRADING MEMBERS INCLUDING BUT NOT LIMITED TO COLLECTION AND UPLOAD OF APPLICATION FORMS IN THIS TRANCHE VI ISSUE ON THE ELECTRONIC APPLICATION PLATFORM PROVIDED BY THE STOCK EXCHANGE. FURTHER, THE STOCK EXCHANGE SHALL BE RESPONSIBLE FOR ADDRESSING INVESTOR GRIEVANCES ARISING FROM APPLICATION THROUGH TRADING MEMBERS REGISTERED WITH THE STOCK EXCHANGE.**

*For purposes of this Tranche VI Issue, the term “Working Day” shall mean all days excluding Sundays or a holiday of commercial banks in Mumbai and/or Cochin, except with reference to Issue Period, where Working Days shall mean all days, excluding Saturdays, Sundays and public holiday in India. Furthermore, for the purpose of post issue period, i.e. period beginning from the Issue Closure to listing of the NCDs on the Stock Exchange, Working Day shall mean all trading days of the Stock Exchange, excluding Saturdays, Sundays and bank holidays in Mumbai, as per the SEBI NCS Regulations.*

The information below is given for the benefit of the Investors. Our Company and the Lead Manager are not liable for any amendment or modification or changes in applicable laws or regulations, which may occur after the date of the Tranche VI Prospectus.

## PROCEDURE FOR APPLICATION

### Availability of the Shelf Prospectus, Abridged Prospectus and Application Forms

The Physical copies of the Abridged Prospectus containing the salient features of the Shelf Prospectus and Tranche VI together with Application Form may be obtained from:

- a. Our Company’s Registered Office and Corporate Office;
- b. Offices of the Lead Manager/Syndicate Members/ Offices of the Consortium Members;

- c. the CRTA at the Designated RTA Locations;
- d. the CDPs at the Designated CDP Locations;
- e. Trading Members at the Broker Centres;
- f. Designated Branches of the SCSBs; and
- g. Office of the Consortium Member

Electronic copies of the Shelf Prospectus and this Tranche VI Prospectus along with the downloadable version of the Application Form will be available on the websites of the Lead Manager, the Stock Exchange, SEBI and the SCSBs.

Electronic Application Forms may be available for download on the website of the Stock Exchange and on the websites of the SCSBs that permit submission of Application Forms electronically. A unique application number (“UAN”) will be generated for every Application Form downloaded from the website of the Stock Exchange. Our Company may also provide Application Forms for being downloaded and filled at such website as it may deem fit. In addition, brokers having online demat account portals may also provide a facility of submitting the Application Forms virtually online to their account holders.

**Trading Members of the Stock Exchange can download Application Forms from the website of the Stock Exchange. Further, Application Forms will be provided to Trading Members of the Stock Exchange at their request.**

UPI Investors making an Application upto ₹5 lakhs, using the UPI Mechanism, must provide the UPI ID in the relevant space provided in the Application Form. Application Forms that do not contain the UPI ID are liable to be rejected. UPI Investors applying using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

#### **Who can apply?**

The following categories of persons are eligible to apply in this Tranche VI Issue:

#### **Category I – Institutional Investors**

- Public financial institutions, scheduled commercial banks and multilateral and bilateral development financial institutions which are authorised to invest in the NCDs;
- Provident funds of minimum corpus of ₹ 2,500 lakhs, pension funds of minimum corpus of ₹2,500 lakhs, registered with the Pension Fund Regulatory and Development Authority which are authorised to invest in the NCDs;
- Alternative investment funds, subject to investment conditions applicable to them under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012; as amended
- Resident venture capital funds registered with SEBI;
- Insurance Companies registered with the IRDAI;
- State industrial development corporations;
- Insurance funds set up and managed by the Indian army, navy or the air force of the Union of India or by the Department of Posts, India;
- Insurance funds set up and Department of Posts, India;
- Systemically important non-banking financial companies registered with RBI;
- National Investment Fund (set up by resolution no. F. No. 2/3/2005-DDII dated November 23, 2005 of the Government of India and published in the Gazette of India); and
- Mutual Funds registered with SEBI;

#### **Category II – Non Institutional Investors**

- Companies falling within the meaning of Section 2(20) of the Companies Act 2013; statutory bodies corporation and societies registered under the applicable laws in India and authorised to invest in the NCDs;
- Co-operative banks and regional rural banks;
- Trust including public/private charitable/religious trusts which are authorised to invest in the NCDs;
- Educational institutions and associations of persons and/or bodies established pursuant to or registered under any central or state statutory enactment; which are authorised to invest in the NCDs;
- Scientific and/or industrial research organisations, which are authorised to invest in the NCDs;
- Partnership firms in the name of the partners; Limited liability partnerships formed and registered under the provisions of the Limited Liability Partnership Act, 2008 (No. 6 of 2009);
- Association of persons; and

- Any other incorporated and/ or unincorporated body of persons

### **Category III - High Net-worth Individual, (“HNIs”), Investors**

Resident Indian individuals or Hindu Undivided Families through the Karta applying for an amount aggregating to above ₹ 10,00,000 across all options of NCDs in the Issue.

### **Category IV - Retail Individual Investors**

Resident Indian individuals or Hindu Undivided Families through the Karta applying for an amount aggregating up to and including ₹ 10,00,000 across all options of NCDs in the Issue and shall include Retail Individual Investors, who have submitted bid for an amount not more than ₹ 500,000 in any of the bidding options in the Issue (including HUFs applying through their Karta and does not include NRIs) through UPI Mechanism.

*For Applicants applying for NCDs, the Registrar shall verify the above on the basis of the records provided by the Depositories based on the DP ID Client ID and where applicable the UPI ID provided by the Applicants in the Application Form and uploaded onto the electronic system of the Stock Exchange by the Members of the Syndicate or the Trading Members, as the case may be.*

**Please note that it is clarified that Persons Resident outside India shall not be entitled to participate in the Issue and any applications from such persons are liable to be rejected.**

**Participation of any of the aforementioned categories of persons or entities is subject to the applicable statutory and/or regulatory requirements in connection with the subscription to Indian securities by such categories of persons or entities. Applicants are advised to ensure that Application made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions. Applicants are advised to ensure that they have obtained the necessary statutory and/or regulatory permissions/consents/approvals in connection with applying for, subscribing to, or seeking Allotment of NCDs pursuant to this Tranche VI Issue.**

The Lead Manager or Consortium Member and its respective associates and affiliates are permitted to subscribe in the Issue.

### **Who are not eligible to apply for NCDs?**

The following categories of persons, and entities, shall not be eligible to participate in this Tranche VI Issue and any Application from such persons and entities are liable to be rejected:

- i. Minors without a guardian name\*(A guardian may apply on behalf of a minor. However, Application by minors must be made through Application Forms that contain the names of both the minor Applicant and the guardian);
- ii. Foreign nationals, NRI *inter-alia* including any NRIs who are (i) based in the USA, and/or, (ii) domiciled in the USA, and/or, (iii) residents/citizens of the USA, and/or, (iv) subject to any taxation laws of the USA;
- iii. Persons resident outside India and other foreign entities;
- iv. Foreign Portfolio Investors;
- v. Foreign Venture Capital Investors;
- vi. Qualified Foreign Investors;
- vii. Overseas Corporate Bodies; and
- viii. Persons ineligible to contract under applicable statutory/regulatory requirements.

*\*Applicant shall ensure that guardian is competent to contract under Indian Contract Act, 1872*

Based on the information provided by the Depositories, our Company shall have the right to accept Application Forms belonging to an account for the benefit of a minor (under guardianship). In case of such Application, the Registrar to the

Issue shall verify the above on the basis of the records provided by the Depositories based on the DP ID and Client ID provided by the Applicants in the Application Form and uploaded onto the electronic system of the Stock Exchange.

The concept of Overseas Corporate Bodies (meaning any company, partnership firm, society and other corporate body or overseas trust irrevocably owned/held directly or indirectly to the extent of at least 60% by NRIs), which was in existence until 2003, was withdrawn by the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies) Regulations, 2003. Accordingly, OCBs are not permitted to invest in this Tranche VI Issue.

Please see “*Issue Procedure - Rejection of Applications*” on page 331 for information on rejection of Applications.

### **Method of Application**

In terms of the SEBI Master Circular, an eligible Investor desirous of applying in this Tranche VI Issue can make Applications through the ASBA mechanism only. Applicants are requested to note that in terms of the SEBI Master Circular, SEBI has mandated issuers to provide, through a recognised stock exchange which offers such a facility, an online interface enabling direct application by investors to a public issue of debt securities with an online payment facility (“**Direct Online Application Mechanism**”). In this regard, SEBI has, through the SEBI Master Circular, directed recognized Stock Exchange in India to put in necessary systems and infrastructure for the implementation of the SEBI Master Circular and the Direct Online Application Mechanism infrastructure for the implementation of the SEBI Master Circular and the Direct Online Application Mechanism. Further, SEBI vide the SEBI Master Circular has directed the stock exchanges in India to formulate and disclose the operational procedure for making an application through the app/web based interface developed by them in order for investors to apply in public issue on their websites.

All Applicants shall mandatorily apply in this Tranche VI Issue either through:

1. the ASBA process (including UPI Investors). Applicants intending to subscribe in this Tranche VI Issue shall submit a duly filled Application Form to any of the Designated Intermediaries; or
2. UPI Investors having a valid UPI ID, through the app/web-based interface platform of the Stock Exchange (BSE Direct) wherein the application would automatically be uploaded onto the Stock Exchange’s bidding platform and the amount will be blocked using the UPI Mechanism.
3. Additionally, certain SEBI registered UPI handles which can be accessed at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=43>, may also be used for making an Application through the UPI Mechanism.

For RIBs using UPI Mechanism, the Stock Exchange shall share the bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds.

### **Application process through physical Application Form**

Applicants opting for the physical mode of Application process, should submit the Application Form (including for Applications under the UPI Mechanism) only at the Collection Centres, i.e. to the respective Members of the Syndicate at the Specified Locations, the SCSBs at the Designated Branches, the registered broker at the Broker Centres, the RTAs at the Designated RTA Locations or CDPs at the Designated CDP Locations. Kindly note that Application Forms submitted by Applicants at the Specified Locations will not be accepted if the SCSB with which the ASBA Account, as specified in the Application Form is maintained has not named at least one branch at that location for the Designated Intermediaries for deposit of the Application Forms. A list of such branches is available on SEBI’s website *for Applications under the UPI Mechanism* at <https://www.sebi.gov.in>.

The relevant Designated Intermediaries, upon receipt of Application Forms from ASBA Applicants (including for Applications under the UPI Mechanism), shall upload the details of these Application Forms to the online platform of the Stock Exchange and submit the Application Forms (except Application Forms submitted by UPI Investors under the UPI Mechanism) with the SCSB with whom the relevant ASBA Accounts are maintained. An Applicant shall submit the Application Form, which shall be stamped at the relevant Designated Branch of the SCSB, with the SCSB and can also be submitted to be the Designated Intermediaries at the Specified Locations. The SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application Form. For Applicants submitting the physical application Form who wish to block the funds in their respective UPI linked bank account through the UPI Mechanism, post uploading of the details of the Application Forms into the online platform of the Stock Exchange, the Stock Exchange shall share the Application details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor

Bank to initiate a UPI Mandate Request to such UPI Investors for blocking of funds.

Pursuant to SEBI Circular No: SEBI/HO/DDHS/DDHS-PoD-1/P/CIR/2024/128 dated September 24, 2024, all individual investors applying in public issues where the application amount is up to ₹5,00,000 shall use UPI and shall also provide their UPI ID in the bid cum application form submitted with any of the entities mentioned herein below:

1. a syndicate member;
2. a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);
3. a depository participant (whose name is mentioned on the website of the stock exchange as eligible for this activity);
4. a registrar to an issue and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity).

Our Company, the Directors, affiliates, associates and their respective directors and officers, Lead Manager and the Registrar to the Issue shall not take any responsibility for acts, mistakes, errors, omissions and commissions etc. in relation to ASBA Applications accepted by the Designated Intermediaries, Applications uploaded by SCSBs, Applications accepted but not uploaded by SCSBs or Applications accepted and uploaded without blocking funds in the ASBA Accounts. It shall be presumed that for Applications uploaded by SCSBs (other than UPI Applications), the Application Amount payable on Application has been blocked in the relevant ASBA Account and for Applications by UPI Investors under the UPI Mechanism, uploaded by Designated Intermediaries, the Application Amount payable on Application has been blocked under the UPI Mechanism.

#### **APPLICATION PROCESS THROUGH APP/WEB BASED INTERFACE OF THE STOCK EXCHANGE – *BSE DIRECT***

SEBI, vide the SEBI Master Circular, has introduced an additional mode for application in this Tranche VI Issue through online (app / web) interface/platform of the Stock Exchange. In furtherance to the same, the Stock Exchange has extended the facility of ‘**BSE Direct**’, which is a web based and a mobile app-based platform for making an Application in this Tranche VI Issue where the funds can be blocked through the UPI Mechanism. BSE Direct platform can be accessed at <https://www.bsedirect.com> and can be accessed through the mobile app available (for android phone users only) on the Google Playstore.

**PLEASE NOTE THAT APPLICATIONS IN THIS TRANCHE VI ISSUE, THROUGH THE ‘BSE DIRECT’ PLATFORM, CAN ONLY BE MADE BY UPI INVESTORS, I.E., APPLICANTS WHO MAKE AN APPLICATION IN THIS TRANCHE VI ISSUE FOR AN AMOUNT UPTO ₹5 LAKHS ONLY.**

BSE Limited, the Designated Stock Exchange, has *vide* notifications dated December 28, 2020, notified the detailed operational procedure for making an Application, under the UPI Mechanism, using BSE Direct. The detailed operational instructions and guidelines issued by the Stock Exchange can be accessed on the Stock Exchange’s website <https://www.bseindia.com/>.

#### **OPERATIONAL INSTRUCTIONS AND GUIDELINES**

Certain relevant operational instructions and guidelines, for using BSE Direct to make an Application in this Tranche VI Issue, are listed below:

##### **a. General Instructions –**

- i. Applicants are required to preregister themselves with BSE Direct. For the detailed process of registration and Applications under the BSE Direct Platform, see “*Issue Procedure - Process of Registration and Application on BSE Direct Platform/Mobile App*” on page 318.
- ii. Applicants can access BSE Direct platform via internet at <https://www.bsedirect.com> or through the mobile app (on android phones only) called BSE Direct which can be downloaded from the Google Playstore.
- iii. The Stock Exchange shall make the Shelf Prospectus and this Tranche VI Prospectus and the Tranche VI Issue related details available on its website under the ‘Forthcoming Issues’ a day prior to the Tranche VI Issue Opening Date and the details of this Tranche VI Issue shall also be made available on this Tranche VI Issue page

of BSE Direct.

- iv. The BSE Direct platform, offers a facility of making a direct application through the web based platform or the mobile app with a facility to block funds upto ₹5 lakhs through the UPI Mechanism.
- v. The mode of allotment for Applications made through the BSE Direct platform, shall mandatorily be in dematerialised form only.

**b. Order Entry Parameters -**

Pursuant to the SEBI Master Circular and other relevant SEBI circulars, the following operating parameters shall be made available for making an Application in the Debt IPO Segment. Applicants are requested to note the following general instructions:

- i. This Tranche VI Issue symbol will remain same across all series/options;
- ii. Applicants can enter order for a single Application having different series within one order entry screen.
- iii. Before submission of the Application, the Applicant should have created an UPI ID with a maximum length of 45 characters including the handle (example: investorId@bankname)

Applicants can only submit an Application with the UPI Mechanism as the payment mode. The Applications which are successfully accepted will be allotted a bid id or order no.

**c. Modification and cancellation of orders**

- i. An Applicant shall not be allowed to add or modify the Application except for modification of either DP ID/Client ID, or PAN but not both.
- ii. The Applicant can withdraw the bid(s) submitted under a single Application and reapply.
- iii. The part cancellation of bid in a single Application will not be permitted.

For details of the process post the Application details being entered into the bidding platform of the Stock Exchange, see “*Issue Procedure – Submission of Applications - for Applications under the UPI Mechanism*” on page 323.

**d. Re-initiation of Bids**

- i. If the Applicant has not received the UPI Mandate *vide* an SMS or on the mobile app, associated with the UPI ID linked bank account, they will have the option to re-initiate the bid which is pending for confirmation.
- ii. The facility of re-initiation/ resending the UPI Mandate shall be available only till 5 pm on the day of bidding.
- iii. The Designated Intermediaries shall be permitted to use the re-initiation of Application option only once.

**e. Acceptance of the UPI Mandate**

- i. An Applicant will be required to accept the UPI Mandate by 5:00 pm on the third Working Day from the day of bidding on the Stock Exchange platform except for the last day of the Tranche VI Issue Period or any other modified closure date of the Tranche VI Issue Period in which case, they shall be required to accept the UPI Mandate by 5:00 pm of the next Working Day. As the Company reserves the right to close the Tranche VI Issue prior to the Tranche VI Issue Closing Date, hence is advisable that the Applicants should accept the UPI mandate by 5:00 pm on the Working Day subsequent to date of submission of the Application on BSE Direct.
- ii. The transaction will be treated completed only after the UPI Mandate is accepted by the Applicant and the transaction is authorised by entering of their respective UPI PIN and successful blocking of fund through ASBA process by the Applicant's bank.
- iii. If the Applicant fails to accept the mandate within stipulated timelines, their Application will not be considered for allocation.
- iv. Applicants are required to check the status of their Applications with regards to the UPI Mandate acceptance and blocking of fund in the UPI Report for completion of the transaction.
- v. Please note that the display of status of acceptance of the UPI Mandate/fund blocking shall be solely based on the data received from the Sponsor Bank.

**f. Order book and T+1 Modification**

- i. The order book will be available in the Debt module of the Stock Exchange in real time basis.
- ii. An Applicant shall be allowed to modify selected fields such as their DP ID/Client ID or PAN (Either DP

ID/Client ID or PAN can be modified but not both) on T+1 day for a validated bid.

**g. Applicant's responsibilities**

- i. Applicants shall check this Tranche VI Issue details before making an Application.
- ii. Applicants shall only be able to make an Application for an amount upto ₹5 lakhs.
- iii. Applicants shall have only UPI as the payment mechanism with ASBA.
- iv. Applicants must check and understand the UPI Mandate acceptance and the fund blocking process before making an Application.
- v. The receipt of SMS for UPI Mandate acceptance depends upon the system response/ integration of UPI on the Debt Public Issue System.
- vi. Applicants must check their respective mobiles for an SMS or the mobile app, associated with the UPI ID linked bank account, for receipt of the UPI Mandate.
- vii. Applicants must accept the UPI Mandate request within stipulated timelines.
- viii. Applicants must note that the transaction will be treated completed only after the UPI Mandate is accepted by the Applicant and the transaction is authorised by entering of their respective UPI PIN and successful blocking of fund through ASBA process by the Applicant's bank.
- ix. If the Applicant fails to accept the mandate within stipulated timelines, their Application will not be considered for allocation.
- x. Applicants are required to check the status of their Applications with regards to the UPI Mandate acceptance and blocking of fund in the UPI Report for completion of the transaction.

**Our Company, the Directors, affiliates, associates and their respective directors and officers, Lead Manager, the Registrar to this Tranche VI Issue or the Stock Exchange shall not be liable or responsible in the event an Applicant fails to receive the UPI Mandate acceptance request on their mobile or they fail to accept the UPI Mandate within the stipulated time period or due to any technical/other reasons**

***Process of Registration and Application on BSE Direct Platform/Mobile App***

**a. Process of Registration for Investor**

- i. To make an Application on the BSE Direct platform/ mobile app an Applicant is required to register themselves with the platform/mobile app.
- ii. At the time of registration, the Applicant shall be required to select the option of "New Registration Without Broker" and enter their respective PAN along with details of their demat account (i.e., DP ID and Client ID) and UPI ID.
- iii. The Stock Exchange shall verify the PAN and demat account details entered by the Applicant with the Depository, within one Working Day.
- iv. The Applicant shall be required to accept the terms and conditions and also enter the correct 'One Time Password' ("OTP") sent on their respective mobile phones and email IDs to complete the registration process.
- v. Upon the successful OTP confirmation, the Applicant's registration request shall be accepted, and a reference number shall be provided to them for checking their registration status.
- vi. At the time of demat account verification, the Stock Exchange shall also validate Applicant's client type (investor category) present in demat account.
- vii. An Applicant's registration shall be rejected if an incorrect investor category and/or demat account details have been entered.
- viii. Post the verification of the demat account, the Stock Exchange shall activate the Applicant's profile for making an Application and also provide a user ID (which is PAN) and password for login onto the BSE Direct platform.
- ix. An Applicant shall be able to view their respective details including their demat account, by accessing the tab 'My Profile'.
- x. To modify their details, an Applicant must login to the BSE Direct portal and click on 'My profile'.
- xi. The Stock Exchange shall revalidate the modified details with Depository.
- xii. No modification request shall be accepted during this Tranche VI Issue Period if the Applicant has made an Application in this Tranche VI Issue.
- xiii. To re-generate a new password, the Applicant can use the 'Forget Password' option.
- xiv. Existing investors who are already registered for "GSec AND T-Bills investment", can also use the facility for applying in this Tranche VI Issue by using the UPI Mechanism for blocking of funds for Applications with a value upto ₹5 lakhs.

**b. Process to place Bid via BSE Direct platform/ mobile app**

- i. This Tranche VI Issue, during this Tranche VI Issue Period, shall be opened for subscription and will be available for making an Application through the BSE Direct platform/ mobile app.
- ii. Upon successful login, an Applicant can select this Tranche VI Issue to make an Application.
- iii. The details of PAN and DP ID and Client ID will be populated based on the registration done by the Applicant.
- iv. Before submission of the Application, an Applicant would be required to create a UPI ID with a maximum length of 45 characters including the handle (Example: investorId@bankname)
- v. An Applicant shall be required to enter a valid UPI ID, in the UPI ID field.
- vi. An Applicant must select the series/option along with number of NCDs being applied for in this Tranche VI Issue.
- vii. Applicants must check this Tranche VI Issue details before making an Application.
- viii. Applicant will only be able to make an Application for an amount of upto ₹5 lakhs.
- ix. Applicants shall only have UPI as a payment mechanism with ASBA.
- x. Applicants must check and understand the UPI Mandate acceptance and blocking of fund process before making an Application.

For details of the blocking process post the Application details being entered into the bidding platform of the Stock Exchange, see “*Issue Procedure – Submission of Applications - for Applications under the UPI Mechanism*” on page 323.

**c. SMS from the Exchange**

- i. Post completion of the blocking process, the Stock Exchange shall send an SMS to the Applicant regarding submission of the Application at the end of day, during this Tranche VI Issue Period and for the last day of this Tranche VI Issue Period, the SMS shall be sent the next Working Day.

**d. Modification and Cancellation of Orders**

- i. An Applicant shall not be allowed to add or modify the bid(s) of the Application except for modification of either DP ID/Client ID, or PAN but not both.
- ii. An Applicant can withdraw the bid(s) submitted under a single Application and reapply. However, part cancellation of bid in a single Application is not permitted.

**e. Re-initiation of Bid**

- i. If the Applicant has not received the UPI Mandate vide an SMS or on the mobile app, associated with the UPI ID linked bank account, they will have the option to re-initiate the bid which is pending for confirmation, after the lapse of reasonable time.
- ii. The Designated Intermediaries shall be permitted to use the re-initiation of Application option only once.

For details of the process of the UPI Mandate acceptance, see “*Issue Procedure – Operational Instructions and Guidelines - Acceptance of the UPI Mandate*” on page 317.

**Our Company, the Directors, affiliates, associates and their respective directors and officers, Lead Manager, the Registrar to this Tranche VI Issue or the Stock Exchange shall not be liable or responsible in the event an Applicant fails to receive the UPI Mandate acceptance request on their mobile or they fail to accept the UPI Mandate within the stipulated time period or due to any technical/other reasons. Since the process of making an Application through BSE Direct is based on notifications issued by the Stock Exchange, Applicants are requested to check the website of the Stock Exchange for any further notifications by the Stock Exchange amending, supplementing, updating or revising the process of Applications through BSE Direct.**

**APPLICATIONS FOR ALLOTMENT OF NCDs**

Details for Applications by certain categories of Applicants including documents to be submitted are summarized below.

**Applications by Mutual Funds**

Pursuant to the SEBI circular SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 1, 2019 (“**SEBI Circular 2019**”), mutual funds are required to ensure that the total exposure of debt schemes of mutual funds in a particular sector shall not exceed 20% of the net assets value of the scheme. Further, the additional exposure limit provided for financial services

sector not exceeding 10% of net assets value of scheme shall be allowed only by way of increase in exposure to HFCs. However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme. Further, the group level limits for debt schemes and the ceiling be fixed at 10% of net assets value extendable to 15% of net assets value after prior approval of the board of trustees.

A separate Application can be made in respect of each scheme of an Indian mutual fund registered with SEBI and such Applications shall not be treated as multiple Applications. Applications made by the AMCs or custodians of a mutual fund shall clearly indicate the name of the concerned scheme for which Application is being made. In case of Applications made by Mutual Fund registered with SEBI, a certified copy of their SEBI registration certificate must be submitted with the Application Form. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

#### **Application by Systemically Important Non-Banking Financial Companies**

Systemically Important Non-Banking Financial Company, a non-banking financial company registered with the Reserve Bank of India and having a net-worth of more than five hundred crore rupees as per the last audited financial statements can apply in this Tranche VI Issue based on their own investment limits and approvals. The Application Form must be accompanied by a certified copy of the certificate of registration issued by the RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s). **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

#### **Application by commercial banks, co-operative banks and regional rural banks**

Commercial banks, co-operative banks and regional rural banks can apply in this Tranche VI Issue based on their own investment limits and approvals. The Application Form must be accompanied by certified true copies of their (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Application Form. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

**Pursuant to SEBI Circular no. CIR/CFD/DIL/1/2013 dated January 2, 2013, SCSBs making Applications on their own account using ASBA Facility, should have a separate account in their own name with any other SEBI registered SCSB. Further, such account shall be used solely for the purpose of making Application in public issues and clear demarcated funds should be available in such account for applications.**

#### **Application by Insurance Companies**

In case of Applications made by insurance companies registered with the Insurance Regulatory and Development Authority of India ("IRDAI"), a certified copy of certificate of registration issued by IRDAI must be lodged along with Application Form. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefore.**

Insurance companies participating in this Tranche VI Issue shall comply with all applicable regulations, guidelines and circulars issued by the IRDAI from time to time including the IRDA (Investment) Regulations, 2000.

#### **Application by Indian Alternative Investment Funds**

Applications made by Alternative Investment Funds eligible to invest in accordance with the Securities and Exchange Board of India (Alternative Investment Fund) Regulations, 2012, as amended (the "SEBI AIF Regulations") for Allotment of the NCDs must be accompanied by certified true copies of SEBI registration certificate. The Alternative Investment Funds shall at all times comply with the requirements applicable to it under the SEBI AIF Regulations and the relevant notifications issued by SEBI. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by associations of persons and/or bodies established pursuant to or registered under any central or state statutory enactment**

In case of Applications made by 'Associations of Persons' and/or bodies established pursuant to or registered under any central or state statutory enactment, must submit a (i) certified copy of the certificate of registration or proof of constitution, as applicable, (ii) power of attorney, if any, in favour of one or more persons thereof, (iii) such other documents evidencing

registration thereof under applicable statutory/regulatory requirements. Further, any trusts applying for NCDs pursuant to this Tranche VI Issue must ensure that (a) they are authorized under applicable statutory/regulatory requirements and their constitution instrument to hold and invest in debentures, (b) they have obtained all necessary approvals, consents or other authorisations, which may be required under applicable statutory and/or regulatory requirements to invest in debentures, and (c) Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions. **Failing this, our Company reserves the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by Trusts**

In case of Applications made by trusts, settled under the Indian Trusts Act, 1882, as amended, or any other statutory and/or regulatory provision governing the settlement of trusts in India, must submit a (i) certified copy of the registered instrument for creation of such trust, (ii) power of attorney, if any, in favour of one or more trustees thereof, (iii) such other documents evidencing registration thereof under applicable statutory/regulatory requirements. Further, any trusts applying for NCDs pursuant to this Tranche VI Issue must ensure that (a) they are authorized under applicable statutory/regulatory requirements and their constitution instrument to hold and invest in debentures, (b) they have obtained all necessary approvals, consents or other authorisations, which may be required under applicable statutory and/or **regulatory requirements to invest in debentures, and (c) Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions. Failing this, our Company reserves the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by Public Financial Institutions or Statutory Corporations, which are authorised to invest in the NCDs**

The Application must be accompanied by certified true copies of: (i) any act/ rules under which they are incorporated; (ii) board resolution authorising investments; and (iii) specimen signature of authorised person. **Failing this, our Company reserves the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by Provident Funds, Pension Funds, Superannuation Funds and Gratuity Fund, which are authorized to invest in the NCDs**

The Application must be accompanied by certified true copies of incorporation/ registration under any act/rules under which they are incorporated. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by National Investment Fund**

The Application must be accompanied by certified true copies of: (i) resolution authorising investment and containing operating instructions; and (ii) specimen signature of authorized person. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor.**

#### **Companies, bodies corporate and societies registered under the applicable laws in India**

The Application must be accompanied by certified true copies of the registration under the act/ rules under which they are incorporated. **Failing this, our Company reserves the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by Indian Scientific and/or industrial research organizations, which are authorized to invest in the NCDs**

The Application must be accompanied by certified true copies of the registration under the act/ rules under which they are incorporated. **Failing this, our Company reserves the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications by Partnership firms formed under applicable Indian laws in the name of the partners and Limited Liability Partnerships formed and registered under the provisions of the Limited Liability Partnership Act, 2008**

The Application must be accompanied by certified true copies of certified copy of certificate of the partnership deed or registration issued under the Limited Liability Partnership Act, 2008, as applicable. **Failing this, our Company reserves**

**the right to accept or reject any Applications in whole or in part, in either case, without assigning any reason therefor.**

#### **Applications under Power of Attorney**

In case of Applications made pursuant to a power of attorney by Applicants who are Institutional Investors or Non-Institutional Investors, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, with a certified copy of the memorandum of association and articles of association and/or bye laws must be submitted with the Application Form. In case of Applications made pursuant to a power of attorney by Applicants, a certified copy of the power of attorney must be submitted with the Application Form. **Failing this, our Company reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason therefor. Our Company, in its absolute discretion, reserves the right to relax the above condition of attaching the power of attorney with the Application Forms subject to such terms and conditions that our Company and the Lead Manager may deem fit.**

Brokers having online demat account portals may also provide a facility of submitting the Application Forms online to their account holders. Under this facility, a broker receives an online instruction through its portal from the Applicant for making an Application on his/ her behalf. Based on such instruction, and a power of attorney granted by the Applicant to authorise the broker, the broker makes an Application on behalf of the Applicant.

#### **APPLICATIONS FOR ALLOTMENT OF NCDs**

This section is for the information of the Applicants proposing to subscribe to this Tranche VI Issue. The Lead Manager and our Company are not liable for any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of the Tranche VI Prospectus. Investors are advised to make their independent investigations and to ensure that the Application Form is correctly filled up.

Our Company, our Directors, affiliates, associates and their respective directors and officers, the Lead Manager and the Registrar to this Tranche VI Issue shall not take any responsibility for acts, mistakes, errors, omissions and commissions etc. in relation to Applications (including Applications under the UPI Mechanism) accepted by and/or uploaded by and/or accepted but not uploaded by Trading Members, registered brokers, CDPs, RTAs and SCSBs who are authorised to collect Application Forms from the Applicants in this Tranche VI Issue, or Applications accepted and uploaded without blocking funds in the ASBA Accounts by SCSBs or failure to block the Application Amount under the UPI Mechanism.. It shall be presumed that for Applications uploaded by SCSBs (other than UPI Applications), the Application Amount payable on Application has been blocked in the relevant ASBA Account and for Applications by UPI Investors under the UPI Mechanism, uploaded by Designated Intermediaries, the Application Amount payable on Application has been blocked under the UPI Mechanism.

The list of branches of the SCSBs at the Specified Locations named by the respective SCSBs to receive Application Forms from the Members of the Syndicate is available on the website of SEBI (<https://www.sebi.gov.in>) and updated from time to time or any such other website as may be prescribed by SEBI from time to time. For more information on such branches collecting Application Forms from the Syndicate at Specified Locations, see the website of the SEBI (<https://www.sebi.gov.in>) as updated from time to time or any such other website as may be prescribed by SEBI from time to time. The list of registered brokers at the Broker Centres, CDPs at the Designated CDP Locations or the RTAs at the Designated RTA Locations, respective lists of which, including details such as address and telephone number, are available at the website of the Stock Exchange at [www.bseindia.com](http://www.bseindia.com). The list of branches of the SCSBs at the Broker Centres, named by the respective SCSBs to receive deposits of the Application Forms from the registered brokers will be available on the website of the SEBI ([www.sebi.gov.in](http://www.sebi.gov.in)) and updated from time to time.

#### ***Submission of Applications***

Applications can be submitted through either of the following modes:

- a. Physically or electronically to the Designated Branches of the SCSB(s) with whom an Applicant's ASBA Account is maintained. In case of Application in physical mode, the Applicant shall submit the Application Form at the relevant Designated Branch of the SCSB(s). The Designated Branch shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account and shall also verify that the signature on the Application Form matches with the Investor's bank records, as mentioned in the Application Form, prior to uploading such Application into the electronic system of the Stock Exchange. **If sufficient funds are not available in the ASBA Account, the respective Designated Branch shall reject such Application and shall not upload such Application in the electronic system**

**of the Stock Exchange.** If sufficient funds are available in the ASBA Account, the Designated Branch shall block an amount equivalent to the Application Amount and upload details of the Application in the electronic system of the Stock Exchange. The Designated Branch of the SCSBs shall stamp the Application Form and issue an acknowledgement as proof of having accepted the Application.

In case of Application being made in the electronic mode, the Applicant shall submit the Application either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for application and blocking funds in the ASBA Account held with SCSB, and accordingly registering such Application.

- b. Physically through the Designated Intermediaries at the respective Collection Centres. Kindly note that above Applications submitted to any of the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account is maintained, as specified in the Application Form, has not named at least one branch at that Collection Center where the Application Form is submitted (a list of such branches is available at <https://www.sebi.gov.in>).
- c. A UPI Investor making an Application in this Tranche VI Issue under the UPI Mechanism, where the Application Amount is upto ₹5 lakhs, can submit his Application Form physically to a SCSB or a Designated Intermediary. The Designated Intermediary shall upload the application details along with the UPI ID on the Stock Exchange's bidding platform using appropriate protocols. Kindly note that in this case, the Application Amount will be blocked through the UPI Mechanism.
- d. A UPI Investor may also submit the Application Form for this Tranche VI Issue through BSE Direct, wherein the Application will be automatically uploaded onto the Stock Exchange's bidding platform and an amount equivalent to the Application Amount shall be blocked using the UPI Mechanism.

Upon receipt of the Application Form by the Designated Intermediaries, an acknowledgement shall be issued by the relevant Designated Intermediary, giving the counter foil of the Application Form to the Applicant as proof of having accepted the Application. Thereafter, the details of the Application shall be uploaded in the electronic system of the Stock Exchange. Post which:

- a. **for Applications other than under the UPI Mechanism** - the Application Form shall be forwarded to the relevant branch of the SCSB, in the relevant Collection Center, named by such SCSB to accept such Applications from the Designated Intermediaries (a list of such branches is available at <https://www.sebi.gov.in>). Upon receipt of the Application Form, the relevant branch of the SCSB shall perform verification procedures including verification of the Applicant's signature with his bank records and check if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form. **If sufficient funds are not available in the ASBA Account, the relevant Application Form is liable to be rejected.** If sufficient funds are available in the ASBA Account, the relevant branch of the SCSB shall block an amount equivalent to the Application Amount mentioned in the Application Form.
- b. **for Applications under the UPI Mechanism** – once the Application details have been entered in the bidding platform through Designated Intermediaries or BSE Direct, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. Post uploading of the Application details on the Stock Exchange's platform, the Stock Exchange shall send an SMS to the Applicant regarding submission of the Application. Post undertaking validation with the Depository, the Stock Exchange shall, on a continuous basis, electronically share the bid details along with the Applicants UPI ID, with the Sponsor Bank appointed by our Company. The Sponsor Bank shall then initiate a UPI Mandate Request on the Applicant. The request raised by the Sponsor Bank, would be electronically received by the Applicant as an SMS or on the mobile app, associated with the UPI ID linked bank account. The Applicant shall then be required to authorise the UPI Mandate Request. Upon successful validation of block request by the Applicant, the information would be electronically received by the Applicants' bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant's ASBA Account. The status of block request would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchange. The block request status would also be displayed on the Stock Exchange platform for information of the Designated Intermediary.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/failure of this Tranche VI Issue or until withdrawal/ rejection of the Application Form, as the case may be.

Applicants must note that:

- a. Application Forms will be available with the Designated Branches of the SCSBs and with the Designated Intermediaries at the respective Collection Centres; and electronic Application Forms will be available on the websites of the SCSBs and the Stock Exchange at least one day prior to this Tranche VI Issue Opening Date. Physical Application Forms will also be provided to the Trading Members of the Stock Exchange at their request. The Application Forms would be serially numbered. Further, the SCSBs will ensure that the Shelf Prospectus and Tranche VI Prospectus is made available on their websites. The physical Application Form submitted to the Designated Intermediaries shall bear the stamp of the relevant Designated Intermediary. In the event the Application Form does not bear any stamp, the same shall be liable to be rejected.
- b. The Designated Branches of the SCSBs shall accept Application Forms directly from Applicants only during this Tranche VI Issue Period. The SCSBs shall not accept any Application Forms directly from Applicants after the closing time of acceptance of Applications on this Tranche VI Issue Closing Date. However, the relevant branches of the SCSBs at Specified Locations can accept Application Forms from the Designated Intermediaries, after the closing time of acceptance of Applications on this Tranche VI Issue Closing Date, if the Applications have been uploaded. For further information on this Tranche VI Issue programme, please see “*General Information – Issue Programme*” on page 50.

**Physical Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected.**

**Please note that Applicants can make an Application for Allotment of NCDs in the dematerialised form only.**

## **INSTRUCTIONS FOR FILLING-UP THE APPLICATION FORM**

### **General Instructions**

#### **A. General instructions for completing the Application Form**

- Applications must be made in prescribed Application Form only;
- Application Forms must be completed in **BLOCK LETTERS IN ENGLISH**, as per the instructions contained in the Tranche VI Prospectus and the Application Form;
- If the Application is submitted in joint names, the Application Form should contain only the name of the first Applicant whose name should also appear as the first holder of the depository account held in joint names;
- Applications should be in single or joint names and not exceeding three names, and in the same order as their Depository Participant details (in case of Applicants applying for Allotment of the Bonds in dematerialised form) and Applications should be made by Karta in case the Applicant is an HUF. Please ensure that such Applications contain the PAN of the HUF and not of the Karta;
- Applicants must provide details of valid and active DP ID, Client ID and PAN clearly and without error. On the basis of such Applicant's active DP ID, Client ID and PAN provided in the Application Form, and as entered into the electronic Application system of the Stock Exchange by SCSBs, the Designated Intermediaries, the Registrar will obtain from the Depository the Demographic Details. Invalid accounts, suspended accounts or where such account is classified as invalid or suspended may not be considered for Allotment of the NCDs;
- Applications must be for a minimum of 10 NCDs and in multiples of one NCD thereafter. For the purpose of fulfilling the requirement of minimum application size of 10 NCDs, an Applicant may choose to apply for 10 NCDs of the same option or across different option;
- If the ASBA Account holder is different from the Applicant, the Application Form should be signed by the ASBA Account holder also, in accordance with the instructions provided in the Application Form;
- If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in

the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form;

- Applications should be made by Karta in case of HUFs. Applicants are required to ensure that the PAN details of the HUF are mentioned and not those of the Karta;
- Thumb impressions and signatures other than in English/Hindi/Gujarati/Marathi or any other languages specified in the Eighth Schedule of the Constitution needs to be attested by a Magistrate or Notary Public or a Special Executive Magistrate under his/her seal;
- The Designated Intermediaries or the Designated Branches of the SCSBs, as the case may be, will acknowledge the receipt of the Application Forms by stamping and returning to the Applicants the Acknowledgement Slip. This Acknowledgement Slip will serve as the duplicate of the Application Form for the records of the Applicant;
- Applicants must ensure that the requisite documents are attached to the Application Form prior to submission and receipt of acknowledgement from the relevant Designated Intermediaries or the Designated Branch of the SCSBs, as the case may be;
- Every Applicant should hold valid Permanent Account Number and mention the same in the Application Form;
- All Applicants are required to tick the relevant column of “Category of Investor” in the Application Form; and
- All Applicants should correctly mention the ASBA Account number and ensure that funds equal to the Application Amount are available in the ASBA Account before submitting the Application Form to the Designated Branch and also ensure that the signature in the Application Form matches with the signature in Applicant’s bank records, otherwise the Application is liable to be rejected.

The option, mode of allotment, PAN, demat account no. etc. should be captured by the relevant Designated Intermediaries in the data entries as such data entries will be considered for Allotment.

**Applicants should note that neither the Members of Syndicate, Trading Member of the Stock Exchange, Public Issue Account Banks nor Designated branches of SCSBs, as the case may be, will be liable for error in data entry due to incomplete or illegible Application Forms.**

**Our Company would allot the Option VI of NCDs, as specified in the Tranche VI Prospectus to all valid Applications, wherein the Applicants have not indicated their choice of the relevant Option of NCDs. Appropriate instructions will be given to the Designated Intermediaries to indicate Option VI as the Applicant’s choice of the relevant NCD Option wherein the Applicants have not indicated their choice.**

## **B. Applicant’s Beneficiary Account Details**

Applicants must mention their DP ID, Client ID and UPI ID (wherever applicable) in the Application Form and ensure that the name provided in the Application Form is exactly the same as the name in which the Beneficiary Account is held. In case the Application Form is submitted in the first Applicant’s name, it should be ensured that the Beneficiary Account is held in the same joint names and in the same sequence in which they appear in the Application Form. In case the DP ID, Client ID, PAN and UPI ID (wherever applicable) mentioned in the Application Form and entered into the electronic system of the Stock Exchange do not match with the DP ID, Client ID, PAN and UPI ID (wherever applicable) available in the Depository database or in case PAN is not available in the Depository database, the Application Form is liable to be rejected. Further, Application Forms submitted by Applicants whose beneficiary accounts are inactive, will be rejected.

On the basis of the Demographic Details as appearing on the records of the DP, the Registrar to this Tranche VI Issue will take steps towards demat credit of NCDs. Hence, Applicants are advised to immediately update their Demographic Details as appearing on the records of the DP and ensure that they are true and correct, and carefully fill in their Beneficiary Account details in the Application Form. Failure to do so could result in delays in demat credit and neither our Company, Designated Intermediaries, SCSBs, Registrar to this Tranche VI Issue nor the Stock Exchange will bear any responsibility or liability for the same.

In case of Applications made under power of attorney, our Company in its absolute discretion, reserves the right to permit the holder of power of attorney to request the Registrar that for the purpose of printing particulars on the

Allotment Advice, the Demographic Details obtained from the Depository of the Applicant shall be used.

By signing the Application Form, the Applicant would have deemed to have authorized the Depositories to provide, upon request, to the Registrar to this Tranche VI Issue, the required Demographic Details as available on its records. The Demographic Details given by Applicant in the Application Form would not be used for any other purpose by the Registrar to this Tranche VI Issue except in relation to this Tranche VI Issue. Allotment Advice would be mailed by speed post or registered post at the address of the Applicants as per the Demographic Details received from the Depositories. Applicants may note that delivery of Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. Further, please note that any such delay shall be at such Applicants' sole risk and neither our Company, Registrar to this Tranche VI Issue, Public Issue Account Bank, Sponsor Bank nor the Lead Manager shall be liable to compensate the Applicant for any losses caused to the Applicants due to any such delay or liable to pay any interest for such delay. In case of refunds through electronic modes as detailed in the Tranche VI Prospectus, refunds may be delayed if bank particulars obtained from the Depository Participant are incorrect.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of NCDs pursuant to this Tranche VI Issue will be made into the accounts of such Applicants. **Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the parameters, namely, DP ID, Client ID, PAN and UPI ID (wherever applicable), then such Application are liable to be rejected.**

#### C. Permanent Account Number

The Applicant should mention his or her Permanent Account Number allotted under the IT Act. For minor Applicants, applying through the guardian, it is mandatory to mention the PAN of the minor Applicant. In accordance with Circular No. MRD/DOP/Cir-05/2007 dated April 27, 2007 issued by SEBI, the PAN would be the sole identification number for the participants transacting in the securities market, irrespective of the amount of transaction. **Any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction. It is to be specifically noted that the Applicants should not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.**

#### D. Joint Applications

Applications may be made in single or joint names (not exceeding three). In the case of joint Applications all interest / redemption amount payments will be made out in favour of the first Applicant. All communications will be addressed to the first named Applicant whose name appears in the Application Form and at the address mentioned therein. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.

#### E. Additional/Multiple Applications

An Applicant is allowed to make one or more Applications for the NCDs for the same or other option of NCDs, subject to a minimum Application size as specified in the Tranche VI Prospectus and in multiples of thereafter as specified in the Tranche VI Prospectus. **Any Application for an amount below the aforesaid minimum Application size will be deemed as an invalid Application and shall be rejected.** However, multiple Applications by the same individual Applicant aggregating to a value exceeding ₹ 10 lakhs shall be deemed such individual Applicant to be an HNI Applicant and all such Applications shall be grouped in the HNI Portion, for the purpose of determining the Basis of Allotment to such Applicant. However, any Application made by any person in his individual capacity and an Application made by such person in his capacity as a Karta of a Hindu Undivided family and/or as Applicant (second or third Applicant), shall not be deemed to be a multiple Application. For the purposes of allotment of NCDs under this Tranche VI Issue, Applications shall be grouped based on the PAN, i.e. Applications under the same PAN shall be grouped together and treated as one Application. Two or more Applications will be deemed to be multiple Applications if the sole or first Applicant is one and the same. For the sake of clarity, two or more applications shall be deemed to be a multiple Application for the aforesaid purpose if the PAN number of the sole or the first Applicant is one and the same.

## Do's and Don'ts

Applicants are advised to take note of the following while filling and submitting the Application Form:

### Do's

1. Check if you are eligible to apply as per the terms of the Shelf Prospectus and Tranche VI Prospectus and applicable law, rules, regulations, guidelines and approvals.
2. Read all the instructions carefully and complete the Application Form in the prescribed form.
3. Ensure that you have obtained all necessary approvals from the relevant statutory and/or regulatory authorities to apply for, subscribe to and/or seek Allotment of NCDs pursuant to this Tranche VI Issue.
4. Ensure that the DP ID, the Client ID and the PAN mentioned in the Application Form, which shall be entered into the electronic system of the Stock Exchange are correct and match with the DP ID, Client ID and PAN available in the Depository database. Ensure that the DP ID, Client ID, PAN and UPI ID (wherever applicable) are correct and the depository account is active as Allotment of the Equity Shares will be in dematerialized form only. The requirement for providing Depository Participant details is mandatory for all Applicants.
5. Ensure that you have mentioned the correct ASBA Account number (for all Applicants other than UPI Investors applying using the UPI Mechanism) in the Application Form. Further, UPI Investors using the UPI Mechanism must also mention their UPI ID.
6. UPI Investors applying using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking, is certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries.
7. UPI Investors applying using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. UPI Investors shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on the SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected.
8. Ensure that the Application Form is signed by the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) in case the Applicant is not the ASBA account holder. Applicants (except UPI Investors making an Application using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Application Form. UPI Investors applying using the UPI Mechanism should ensure that they have mentioned the correct UPI- linked bank account number and their correct UPI ID in the Application Form.
9. Ensure that you have funds equal to the Application Amount in the ASBA Account before submitting the Application Form to the respective Designated Branch of the SCSB, or to the Designated Intermediaries, as the case may be.
10. UPI Investors making an Application using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to Application Amount and subsequent debit of funds in case of Allotment, in a timely manner.
11. UPI Investors making an Application using the UPI Mechanism shall ensure that details of the Application are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorization of the mandate using their UPI PIN, the UPI Investor may be deemed to have verified the attachment containing the application details of the UPI Investor making and Application using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Application Amount and authorized the Sponsor Bank to issue a request to block the Application Amount mentioned in the ASBA Form in their ASBA Account.
12. UPI Investors making an Application using the UPI Mechanism should mention valid UPI ID of only the Applicants (in case of single account) and of the first Applicant (in case of joint account) in the ASBA Form.
13. UPI Investors making an Application using the UPI Mechanism, who have revised their Application subsequent to making the initial Application, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Application Amount in their account and in case of Allotment in a timely manner.
14. Ensure that the Application Forms are submitted at the Designated Branches of SCSBs or the Collection Centres provided in the Application Forms, bearing the stamp of the relevant Designated Intermediary/ Designated Branch of the SCSB.
15. Before submitting the Application Form with the Designated Intermediaries ensure that the SCSB, whose name has been filled in the Application Form, has named a branch in that relevant Collection Centre.
16. Ensure that you have been given an acknowledgement as proof of having accepted the Application Form.
17. Ensure that signatures other than in the languages specified in the Eighth Schedule to the Constitution of India is

attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.

18. In case of an HUF applying through its Karta, the Applicant is required to specify the name of an Applicant in the Application Form as 'XYZ Hindu Undivided Family applying through PQR', where PQR is the name of the Karta. However, the PAN number of the HUF should be mentioned in the Application Form and not that of the Karta.
19. Ensure that the Applications are submitted to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, before the closure of application hours on this Tranche VI Issue Closing Date. For further information on this Tranche VI Issue programme, please see "*General Information – Issue Programme*" on page 50.
20. **Permanent Account Number:** Each of the Applicants should provide their PAN. Application Forms in which the PAN is not provided will be rejected.
21. Ensure that if the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.
22. All Applicants should choose the relevant option in the column "Category of Investor" in the Application Form.
23. Choose and mark the option of NCDs in the Application Form that you wish to apply for.
24. In terms of SEBI Circular no. CIR/CFD/DIL/1/2013 dated January 2, 2013, SCSBs making applications on their own account using ASBA facility, should have a separate account in their own name with any other SEBI registered SCSB. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for Applications.

#### **Don'ts:**

1. Do not apply for lower than the minimum Application size.
2. Do not pay the Application Amount in cash, by cheque, by money order or by postal order or by stock invest.
3. Do not send Application Forms by post. Instead submit the same to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be.
4. Do not submit the Application Form to any non-SCSB bank or our Company.
5. Do not apply through an Application Form that does not have the stamp of the relevant Designated Intermediary or the Designated Branch of the SCSB, as the case may be.
6. Do not fill up the Application Form such that the NCDs applied for exceeds this Tranche VI Issue Size and/or investment limit or maximum number of NCDs that can be held under the applicable laws or regulations or maximum amount permissible under the applicable regulations.
7. Do not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.
8. Do not submit incorrect details of the DP ID, Client ID, PAN and UPI ID (wherever applicable) or provide details for a beneficiary account which is suspended or for which details cannot be verified by the Registrar to this Tranche VI Issue.
9. Do not submit the Application Form without ensuring that funds equivalent to the entire Application Amount are available for blocking in the relevant ASBA Account or in the case of UPI Investors making and Application using the UPI Mechanism, in the UPI-linked bank account where funds for making the Application are available.
10. Do not submit Applications on plain paper or on incomplete or illegible Application Forms.
11. Do not apply if you are not competent to contract under the Indian Contract Act, 1872.
12. Do not submit an Application in case you are not eligible to acquire NCDs under applicable law or your relevant constitutional documents or otherwise.
13. Do not submit Applications to a Designated Intermediary at a location other than Collection Centres.
14. Do not submit an Application that does not comply with the securities law of your respective jurisdiction.
15. Do not apply if you are a person ineligible to apply for NCDs under this Tranche VI Issue including Applications by Persons Resident Outside India, NRI (inter-alia including NRIs who are (i) based in the USA, and/or, (ii) domiciled in the USA, and/or, (iii) residents/citizens of the USA, and/or, (iv) subject to any taxation laws of the USA).
16. Do not make an Application of the NCD on multiple copies taken of a single form.
17. Payment of Application Amount in any mode other than through blocking of Application Amount in the ASBA Accounts shall not be accepted in this Tranche VI Issue.
18. Do not link the UPI ID with a bank account maintained with a bank that is not UPI 2.0 certified by the NPCI in case of Bids submitted by UPI Investors using the UPI Mechanism.
19. Do not submit more than five Application Forms per ASBA Account.

Please also see "*Issue Procedure – Operational Instructions and Guidelines - Applicant's Responsibilities*" on page 318.

**Kindly note that Applications submitted to the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account, as specified in the Application Form, is maintained has not named at least one branch at that location for the Designated Intermediaries, to deposit such Application Forms (A list of such branches is available**

at <https://www.sebi.gov.in>).

Please see “*Issue Procedure – Rejection of Applications*” on page 331 for information on rejection of Applications.

## TERMS OF PAYMENT

The Application Forms will be uploaded onto the electronic system of the Stock Exchange and deposited with the relevant branch of the SCSB at the Collection Centres, named by such SCSB to accept such Applications from the Designated Intermediaries, as the case may be (a list of such branches is available at <https://www.sebi.gov.in>).

For Applications other than those under the UPI Mechanism, the relevant branch of the SCSB shall perform verification procedures and block an amount in the ASBA Account equal to the Application Amount specified in the Application. For Applications under the UPI Mechanism, i.e., upto ₹5 lakhs, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. The blocking of funds in such case (not exceeding ₹5 lakhs) shall happen under the UPI Mechanism.

The entire Application Amount for the NCDs is payable on Application only. The relevant SCSB shall block an amount equivalent to the entire Application Amount in the ASBA Account at the time of upload of the Application Form. In case of Allotment of lesser number of NCDs than the number applied, the Registrar to this Tranche VI Issue shall instruct the SCSBs or the Sponsor Bank (as the case maybe) to unblock the excess amount in the ASBA Account.

For Applications submitted directly to the SCSBs, the relevant SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application, before entering the Application into the electronic system of the Stock Exchange. SCSBs may provide the electronic mode of application either through an internet enabled application and banking facility or such other secured, electronically enabled mechanism for application and blocking of funds in the ASBA Account.

For Applications submitted under the UPI Mechanism, post the successful validation of the UPI Mandate Request by the Applicant, the information would be electronically received by the Applicants’ bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant’s ASBA Account.

**Applicants should ensure that they have funds equal to the Application Amount in the ASBA Account before submitting the Application. An Application where the corresponding ASBA Account does not have sufficient funds equal to the Application Amount at the time of blocking the ASBA Account is liable to be rejected.**

**A UPI Investor applying through the UPI Mechanism should ensure that, they check the relevant SMS generated for the UPI Mandate Request and all other steps required for successful blocking of funds in the UPI linked bank account, which includes accepting the UPI Mandate Request by 5:00 pm on the third Working Day from the day of bidding on the Stock Exchange (except on the last day of this Tranche VI Issue Period, where the UPI Mandate Request not having been accepted by 5:00 pm of the next Working Day), have been completed.**

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of this Tranche VI Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is approved, and upon receipt of intimation from the Registrar, the controlling branch of the SCSB shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account. The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs or the Sponsor Bank (in case of Applications under the UPI Mechanism) on the basis of the instructions issued in this regard by the Registrar to the respective SCSB or the Sponsor Bank, within six Working Days of this Tranche VI Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of this Tranche VI Issue or until rejection of the Application, as the case may be.

## SUBMISSION OF COMPLETED APPLICATION FORMS

Mode of Submission of Application Forms	To whom the Application Form has to be submitted
ASBA Applications	i. If using <u>physical Application Form</u> , (a) to the Designated Intermediaries at relevant Collection Centres, or (b) to the Designated Branches of the SCSBs where the ASBA

Mode of Submission of Application Forms	To whom the Application Form has to be submitted
	Account is maintained; or ii. If using <u>electronic Application Form</u> , to the SCSBs, electronically through internet banking facility, if available.
Applications under the UPI Mechanism	i. Through the Designated Intermediary, physically or electronically, as applicable; or ii. Through BSE Direct.

**No separate receipts will be issued for the Application Amount payable on submission of Application Form.** However, the Designated Intermediaries will acknowledge the receipt of the Application Forms by stamping the date and returning to the Applicants an Acknowledgement Slips which will serve as a duplicate Application Form for the records of the Applicant.

### Electronic Registration of Applications

- a. The Designated Intermediaries and Designated Branches of the SCSBs, as the case may be, will register the Applications (including those under the UPI Mechanism) using the on-line facilities of the Stock Exchange. **The Members of Syndicate, our Company and the Registrar to this Tranche VI Issue or the Lead Manager is not responsible for any acts, mistakes or errors or omission and commissions in relation to, (i) the Applications accepted by the SCSBs, (ii) the Applications uploaded by the SCSBs, (iii) the Applications accepted but not uploaded by the SCSBs, (iv) with respect to Applications accepted and uploaded by the SCSBs without blocking funds in the ASBA Accounts, (v) any Applications accepted and uploaded and/or not uploaded by the Trading Members of the Stock Exchange or (vi) any Application made under the UPI Mechanism, accepted or uploaded or failed to be uploaded by a Designated Intermediary or through the app/web based interface of the Stock Exchange and the corresponding failure for blocking of funds under the UPI Mechanism.**

In case of apparent data entry error by the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, in entering the Application Form number in their respective schedules other things remaining unchanged, the Application Form may be considered as valid and such exceptions may be recorded in minutes of the meeting submitted to the Designated Stock Exchange. However, the option, mode of allotment, PAN, demat account no. etc. should be captured by the relevant Designated Intermediaries or Designated Branches of the SCSBs in the data entries as such data entries will be considered for Allotment/rejection of Application.

- b. The Stock Exchange will offer an electronic facility for registering Applications for this Tranche VI Issue. This facility will be available on the terminals of Designated Intermediaries and the SCSBs during this Tranche VI Issue Period. The Designated Intermediaries can also set up facilities for off-line electronic registration of Applications subject to the condition that they will subsequently upload the off-line data file into the on-line facilities for Applications on a regular basis, and before the expiry of the allocated time on this Tranche VI Issue Closing Date. On this Tranche VI Issue Closing Date, the Designated Intermediaries and the Designated Branches of the SCSBs shall upload the Applications till such time as may be permitted by the Stock Exchange. This information will be available with the Designated Intermediaries and the Designated Branches of the SCSBs on a regular basis. Applicants are cautioned that a high inflow of high volumes on the last day of this Tranche VI Issue Period may lead to some Applications received on the last day not being uploaded and such Applications will not be considered for allocation. For further information on this Tranche VI Issue programme, please see “*General Information – Issue Programme*” on page 50.
- c. With respect to Applications submitted directly to the SCSBs at the time of registering each Application, the Designated Branches of the SCSBs shall enter the requisite details of the Applicants in the on-line system including:
- Application Form number
  - PAN (of the first Applicant, in case of more than one Applicant)
  - Investor category and sub-category
  - DP ID
  - Client ID
  - UPI ID (if applicable)
  - Option of NCDs applied for
  - Number of NCDs Applied for in each option of NCD
  - Price per NCD
  - Bank code for the SCSB where the ASBA Account is maintained
  - Bank account number

- Location
  - Application amount
- d. With respect to Applications submitted to the Designated Intermediaries, at the time of registering each Application, the requisite details of the Applicants shall be entered in the on-line system including:
- Application Form number
  - PAN (of the first Applicant, in case of more than one Applicant)
  - Investor category and sub-category
  - DP ID
  - Client ID
  - UPI ID (if applicable)
  - Option of NCDs applied for
  - Number of NCDs Applied for in each option of NCD
  - Price per NCD
  - Bank code for the SCSB where the ASBA Account is maintained
  - Bank account number
  - Location
  - Application amount
- e. A system generated acknowledgement (TRS) will be given to the Applicant as a proof of the registration of each Application. **It is the Applicant's responsibility to obtain the acknowledgement from the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be. The registration of the Application by the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be, does not guarantee that the NCDs shall be allocated/ Allotted by our Company. The acknowledgement will be non-negotiable and by itself will not create any obligation of any kind.**
- f. **Applications can be rejected on the technical grounds listed below or if all required information is not provided or the Application Form is incomplete in any respect.** The permission given by the Stock Exchange to use its network and software of the online system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the Lead Manager are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Tranche VI Prospectus; nor does it warrant that the NCDs will be listed or will continue to be listed on the Stock Exchange.
- g. **Only Applications that are uploaded on the online system of the Stock Exchange shall be considered for allocation/ Allotment.** The Designated Intermediaries and the Designated Branches of the SCSBs shall capture all data relevant for the purposes of finalizing the Basis of Allotment while uploading Application data in the electronic systems of the Stock Exchange. In order that the data so captured is accurate the Designated Intermediaries and the Designated Branches of the SCSBs will be given up to one Working Day after this Tranche VI Issue Closing Date to modify/ verify certain selected fields uploaded in the online system during this Tranche VI Issue Period after which the data will be sent to the Registrar for reconciliation with the data available with the NSDL and CDSL.

## REJECTION OF APPLICATIONS

Applications would be liable to be rejected on the technical grounds listed below or if all required information is not provided or the Application Form is incomplete in any respect. The Board of Directors and/or the Debenture Trustee thereof, reserves its full, unqualified and absolute right to accept or reject any Application in whole or in part and in either case without assigning any reason thereof.

Application may be rejected on one or more technical grounds, including but not restricted to:

- a. Application by persons not competent to contract under the Indian Contract Act, 1872, as amended, (other than minors having valid Depository Account as per Demographic Details provided by Depositories);
- b. Applications accompanied by cash, draft, cheques, money order or any other mode of payment other than amounts blocked in the Applicants' ASBA Account maintained with an SCSB;

- c. Applications not being signed by the sole/joint Applicant(s);
- d. Investor Category in the Application Form not being ticked;
- e. Application Amount blocked being higher or lower than the value of NCDs Applied for. However, our Company may Allot NCDs up to the number of NCDs Applied for, if the value of such NCDs Applied for exceeds the minimum Application size;
- f. Applications where a registered address in India is not provided for the non-Individual Applicants;
- g. In case of partnership firms (except LLPs), NCDs applied for in the name of the partnership and not the names of the individual partner(s);
- h. Minor Applicants (applying through the guardian) without mentioning the PAN of the minor Applicant;
- i. PAN not mentioned in the Application Form., In case of minor Applicants applying through guardian, when PAN of the Applicant is not mentioned;
- j. DP ID, Client ID or UPI ID (wherever applicable) not mentioned in the Application Form;
- k. GIR number furnished instead of PAN;
- l. Applications by OCBs;
- m. Applications for an amount below the minimum Application size;
- n. Submission of more than five ASBA Forms per ASBA Account;
- o. Applications by persons who are not eligible to acquire NCDs of our Company in terms of applicable laws, rules, regulations, guidelines and approvals;
- p. Applications under power of attorney or by limited companies, corporate, trust etc. submitted without relevant documents;
- q. Applications accompanied by stockinvest/ cheque/ money order/ postal order/ cash;
- r. Signature of sole Applicant missing, or in case of joint Applicants, the Application Forms not being signed by the first Applicant (as per the order appearing in the records of the Depository);
- s. Applications by persons debarred from accessing capital markets, by SEBI or any other appropriate regulatory authority;
- t. Application Forms not being signed by the ASBA Account holder, if the account holder is different from the Applicant;
- u. Signature of the ASBA Account holder on the Application Form does not match with the signature available on the SCSB bank's records where the ASBA Account mentioned in the Application Form is maintained;
- v. Application Forms submitted to the Designated Intermediaries or to the Designated Branches of the SCSBs does not bear the stamp of the SCSB and/or the Designated Intermediary, as the case may be;
- w. ASBA Applications not having details of the ASBA Account or the UPI-linked Account to be blocked;
- x. In case no corresponding record is available with the Depositories that matches the parameters namely, DP ID, Client ID, UPI ID and PAN;
- y. Inadequate funds in the ASBA Account to enable the SCSB to block the Application Amount specified in the Application Form at the time of blocking such Application Amount in the ASBA Account or no confirmation is received from the SCSB for blocking of funds;

- z. SCSB making an Application (a) through an ASBA account maintained with its own self or (b) through an ASBA Account maintained through a different SCSB not in its own name or (c) through an ASBA Account maintained through a different SCSB in its own name, where clear demarcated funds are not present or (d) through an ASBA Account maintained through a different SCSB in its own name which ASBA Account is not utilised solely for the purpose of applying in public issues;
- aa. Applications for amounts greater than the maximum permissible amount prescribed by the regulations and applicable law;
- bb. Authorization to the SCSB for blocking funds in the ASBA Account not provided;
- cc. Applications by any person outside India;
- dd. Applications not uploaded on the online platform of the Stock Exchange;
- ee. Applications uploaded after the expiry of the allocated time on this Tranche VI Issue Closing Date, unless extended by the Stock Exchange, as applicable;
- ff. Application Forms not delivered by the Applicant within the time prescribed as per the Application Form, the Tranche VI Prospectus and as per the instructions in the Application Form and the Tranche VI Prospectus;
- gg. Applications by Applicants whose demat accounts have been 'suspended for credit' pursuant to the circular issued by SEBI on July 29, 2010 bearing number CIR/MRD/DP/22/2010;
- hh. Applications providing an inoperative demat account number;
- ii. Applications submitted to the Designated Intermediaries other than the Collection Centres or at a Branch of a SCSB which is not a Designated Branch;
- jj. Applications submitted directly to the Public Issue Bank (except in case the ASBA Account is maintained with the said bank as a SCSB);
- kk. Investor category not ticked;
- ll. In case of cancellation of one or more orders (series) within an Application, leading to total order quantity falling under the minimum quantity required for a single Application
- mm. A UPI Investor applying through the UPI Mechanism, not having accepted the UPI Mandate Request by 5:00 pm on the third Working Day from the day of bidding on the stock exchange except on the last day of this Tranche VI Issue Period, where the UPI Mandate Request not having been accepted by 5:00 pm of the next Working Day; and
- nn. A non-UPI Investor making an Application under the UPI Mechanism, i.e., an Application for an amount more than ₹5 lakhs.

For information on certain procedures to be carried out by the Registrar to this Tranche VI Issue for finalization of the Basis of Allotment, please see "*Information for Applicants*" below.

### **Information for Applicants**

Upon the closure of this Tranche VI Issue, the Registrar to this Tranche VI Issue will reconcile the compiled data received from the Stock Exchange and all SCSBs and match the same with the Depository database for correctness of DP ID, Client ID, UPI ID (where applicable) and PAN. The Registrar to this Tranche VI Issue will undertake technical rejections based on the electronic details and the Depository database and prepare list of technical rejection cases. In case of any discrepancy between the electronic data and the Depository records, our Company, in consultation with the Designated Stock Exchange, the Lead Manager and the Registrar to this Tranche VI Issue, reserves the right to proceed as per the Depository records for such Applications or treat such Applications as rejected.

Based on the information provided by the Depositories, our Company shall have the right to accept Applications belonging to an account for the benefit of a minor (under guardianship).

In case of Applications for a higher number of NCDs than specified for that category of Applicant, only the maximum amount permissible for such category of Applicant will be considered for Allotment.

## BASIS OF ALLOTMENT

### Basis of Allotment for NCDs

The Registrar to the Issue will aggregate the Applications, based on the applications received through an electronic book from the Stock Exchange and determine the valid Application for the purpose of drawing the basis of allocation. Grouping of the application received will be then done in the manner stated below.

- a. *Applications received from Category I Investors:* Applications received from the Applicants belonging to Category I, shall be grouped together, (**“Institutional Portion”**);
- b. *Applications received from Category II Investors:* Applications received from the Applicants belonging to Category II, shall be grouped together, (**“Non-Institutional Portion”**);
- c. *Applications received from Category III Investors:* Applications received from the Applicants belonging to Category III, shall be grouped together, (**“High Net-worth Individual Category Portion”**).
- d. *Applications received from Category IV Investors:* Applications received from Applicants belonging to Category IV shall be grouped together, (**“Retail Individual Category Portion”**).

For removal of doubt, **“Institutional Portion”**, **“Non-Institutional Portion”**, **“High Net-worth Individual Category Portion”** and **“Retail Individual Category Portion”** are individually referred to as **“Portion”** and collectively referred to as **“Portions”**.

Particulars	Institutional Portion	Non-Institutional Portion	High Net-worth Individual Category Portion	Retail Individual Investors Portion
% of Issue Size	5%	20%	25%	50%
Base Issue Size (₹ in lakhs)	500	2,000	2,500	5,000
Total Issue Size (₹ in lakhs)	1,450	5,800	7,250	14,500

For the purposes of determining the number of NCDs available for allocation to each of the abovementioned Portions, our Company shall have the discretion of determining the number of NCDs to be Allotted over and above the Base Issue Size, in case our Company opts to retain any oversubscription in this Tranche VI Issue up to this Tranche VI Issue Limit i.e. aggregating up to ₹ 29,000 lakhs. The aggregate value of NCDs decided to be allotted over and above the Base Issue Size, (in case our Company opts to retain any oversubscription in this Tranche VI Issue), and/or the aggregate value of NCDs up to the Base Issue Size shall be collectively termed as the **“Overall Issue Size”**.

### Basis of Allotment for NCDs

- a. Allotments in the first instance:
  - i. Applicants belonging to the Institutional Portion, in the first instance, will be allocated NCDs up to 5% of Tranche VI Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform if the Stock Exchange;
  - ii. Applicants belonging to the Non Institution Portion, in the first instance, will be allocated NCDs up to 20% of Tranche VI Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform if the Stock Exchange;
  - iii. Applicants belonging to the High Net Worth Individual Investors Portion, in the first instance, will be allocated NCDs up to 25% of Tranche VI Issue limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform if the Stock Exchange;
  - iv. Applicants belonging to the Retail Individual Investors Portion, in the first instance, will be allocated NCDs up to 50% of Tranche VI Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchange

As per the SEBI Master Circular, in consultation with the Designated Stock Exchange, the allotment in this Tranche VI Issue is required to be made on date priority basis, i.e., first come first serve basis, based on the date of upload of each application into the electronic book of the Stock Exchange, in each portion subject to the Allocation Ratio indicated herein above. However, from the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis.

- b. *Under Subscription:* If there is any under subscription in any Category, priority in Allotments will be given to the Retail Individual Investors Portion, High Net Worth Individual Investors Portion, and balance, if any, shall be first made to applicants of the Non-Institutional Portion, followed by the Institutional Portion on a first come first serve basis, on proportionate basis. If there is under subscription in the overall Tranche VI Issue Limit due to undersubscription in each Portion, all valid Applications received till the end of last day of the Issue Closure day shall be grouped together in each Portion and full and firm Allotments will be made to all valid Applications in each Portion.

For each Category, all Applications uploaded on the same day onto the electronic platform of the Stock Exchange would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the platform of the Stock Exchanges on a particular date exceeds NCDs to be Allotted for each portion respectively.

- c. Minimum allotment of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application to all applicants.
- d. *Allotments in case of oversubscription:* In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the applicants from the date of oversubscription and thereafter (based on the date of upload of each Application on the electronic platform of the Stock Exchange, in each Portion).

For the purpose of clarity, in case of oversubscription please see the below indicative scenarios:

- i. In case of an oversubscription in all Portions resulting in an oversubscription in this Tranche VI Issue Limit, Allotments to the maximum permissible limit, as possible, will be made on a first-come first serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants on the date of oversubscription in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchanges in each Portion). The date of oversubscription for each category will be determined as per the bucket size based on the allocation ratio stated above not taking into account any spill overs due to undersubscription in other categories.
- ii. In case there is oversubscription in this Tranche VI Issue Limit, however there is under subscription in one or more Portion(s), Allotments will be made in the following order:
  - a. All valid Applications in the undersubscribed Portion(s) uploaded on the electronic platform of the Stock Exchanges till the end of the last day of this Tranche VI Issue Period, shall receive full and firm allotment.
  - b. In case of Portion(s) that are oversubscribed, allotment shall be made to valid Applications received on a first come first serve basis, based on the date of upload of each Application on the electronic platform of the Stock Exchanges. Priority for allocation of the remaining undersubscribed Portion(s) shall be given to day wise Applications received in the Retail Individual Portion followed by High Net Worth Individual Investors Portion, next Non-Institutional Portion and lastly Institutional Portion each according to the day of upload of Applications on the electronic platform of the Stock Exchanges during this Tranche VI Issue Period.
  - c. For the sake of clarity, once full and firm allotment has been made to all the valid Applications in the undersubscribed portion, the remaining balance in the undersubscribed Portion will be Allocated to the oversubscribed Portion(s) and proportionate allotments shall be made to all valid Applications in the oversubscribed Portion(s) uploaded on the date of oversubscription and thereafter on the remaining days of the Tranche VI Issue Period.
- e. Proportionate Allotments: *For each Portion, on the date of oversubscription and thereafter:*

Allotments to the Applicants shall be made in proportion to their respective Application size, rounded off to the nearest integer.

If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher than the Tranche VI Issue Limit, not all Applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each Applicant whose Allotment size, prior to rounding off, had the highest decimal point would be given preference.

In the event, there are more than one Applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalised by draw of lots in a fair and equitable manner.

f. Applicant applying for more than one Option of NCDs:

If an Applicant has applied for more than one Option of NCDs, and in case such Applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for due to such Applications received on the date of oversubscription, the option-wise allocation of NCDs to such Applicants shall be in proportion to the number of NCDs with respect to each option, applied for by such Applicant, subject to rounding off to the nearest integer, as appropriate in consultation with Lead Manager and Designated Stock Exchange.

In cases of odd proportion for Allotment made, our Company in consultation with the Lead Manager will allot the residual NCD (s) in the following order:

- i. first with monthly interest payment in order of least tenor i.e. Options I, II, III and IV;
- ii. followed by annual interest payment in order of least tenor i.e. Options V, VI, VII and VIII;
- iii. followed by payment on cumulative Option in order of least tenor i.e. Options IX, X, XI and XII.

All decisions pertaining to the Basis of Allotment of NCDs pursuant to this Tranche VI Issue shall be taken by our Company in consultation with the Lead Manager, and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Tranche VI Prospectus.

Our Company would Allot Option VI NCDs to all valid applications, wherein the Applicants have not indicated their choice of the relevant Option of the NCDs. Therefore, instructions will be given to the Designated Intermediaries to indicate Option VI NCD as the Applicant's choice of the relevant NCD Option wherein the Applicants have not indicated their choice.

Valid applications where the Application Amount received does not tally with or is less than the amount equivalent to value of number of NCDs applied for, may be considered for Allotment, to the extent of the Application Amount paid rounded down to the nearest ₹ 1,000 in accordance with the pecking order mentioned above.

All decisions pertaining to the Basis of Allotment of NCDs pursuant to this Tranche VI Issue shall be taken by our Company in consultation with the Lead Manager and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Tranche VI Prospectus. Any other queries / issues in connection with the Applications will be appropriately dealt with and decided upon by our Company in consultation with the Lead Manager.

#### **Retention of oversubscription**

Our Company shall have an option to retain over-subscription up to this Tranche VI Issue limit.

#### **Unblocking of Funds for withdrawn, rejected or unsuccessful or partially successful Applications**

The Registrar shall, pursuant to preparation of Basis of Allotment, instruct the relevant SCSB or the Sponsor Bank (for Applications under the UPI Mechanism), as applicable, to unblock the funds in the relevant ASBA Account/UPI linked bank account, for withdrawn, rejected or unsuccessful or partially successful Applications within six Working Days of this Tranche VI Issue Closing Date.

#### **ISSUANCE OF ALLOTMENT ADVICE**

Our Company shall ensure dispatch of Allotment Advice and/ or give instructions for credit of NCDs to the beneficiary account with Depository Participants upon approval of Basis of Allotment. The Allotment Advice for successful Applicants will be mailed by speed post/registered post to their addresses as per the Demographic Details received from the Depositories.

Our Company shall use best efforts to ensure that all steps for completion of the necessary formalities for commencement

of trading at the Stock Exchange where the NCDs are proposed to be listed are taken within 6 (six) Working Days from this Tranche VI Issue Closing Date.

Allotment Advices shall be issued or Application Amount shall be unblocked within 6 (six) Working Days from this Tranche VI Issue Closing Date or such lesser time as may be specified by SEBI or else the Application Amount shall be unblocked in the ASBA Accounts or the UPI linked bank accounts (for Applications under the UPI Mechanism) of the Applicants forthwith.

Our Company will provide adequate funds required for dispatch of Allotment Advice to the Registrar to this Tranche VI Issue.

## **OTHER INFORMATION**

### **Withdrawal of Applications during this Tranche VI Issue Period**

Applicants can withdraw their Applications until this Tranche VI Issue Closing Date. In case an Applicant wishes to withdraw the Application during this Tranche VI Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite.

In case of Applications (other than under the UPI Mechanism) were submitted to the Designated Intermediaries, upon receipt of the request for withdrawal from the Applicant, the relevant Designated Intermediary, as the case may be, shall do the requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and intimating the Designated Branch of the SCSB to unblock of the funds blocked in the ASBA Account at the time of making the Application. In case of Applications (other than under the UPI Mechanism) submitted directly to the Designated Branch of the SCSB, upon receipt of the request for withdraw from the Applicant, the relevant Designated Branch shall do the requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and unblocking of the funds in the ASBA Account, directly.

### **Withdrawal of Applications after this Tranche VI Issue Period**

In case an Applicant wishes to withdraw the Application after this Tranche VI Issue Closing Date or early closure date, the same can be done by submitting a withdrawal request to the Registrar to the Issue prior to the finalization of the Basis of Allotment.

### **Revision of Applications**

As per the notice No: 20120831-22 dated August 31, 2012 issued by the BSE, cancellation of one or more orders (series) within an Application is permitted during this Tranche VI Issue Period as long as the total order quantity does not fall under the minimum quantity required for a single Application. Please note that in case of cancellation of one or more orders (series) within an Application, leading to total order quantity falling under the minimum quantity required for a single Application will be liable for rejection by the Registrar.

Applicants may revise/ modify their Application details during this Tranche VI Issue Period, as allowed/permitted by the Stock Exchange, by submitting a written request to the Designated Intermediary and the Designated Branch of the SCSBs, as the case may be. For Applications made under the UPI Mechanism, an Applicant shall not be allowed to add or modify the details of the Application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the Applicant may withdraw the Application and reapply.

However, for the purpose of Allotment, the date of original upload of the Application will be considered in case of such revision/ modification. In case of any revision of Application in connection with any of the fields which are not allowed to be modified on the electronic Application platform of the Stock Exchange as per the procedures and requirements prescribed by the Stock Exchange, Applicants should ensure that they first withdraw their original Application and submit a fresh Application. In such a case the date of the new Application will be considered for date priority for Allotment purposes.

Revision of Applications is not permitted after the expiry of the time for acceptance of Application Forms on this Tranche VI Issue Closing Date. However, in order that the data so captured is accurate, the Designated Intermediaries and/ or the Designated Branches of the SCSBs will be given up to one Working Day after this Tranche VI Issue Closing Date to modify/ verify certain selected fields uploaded in the online system during this Tranche VI Issue Period, after which the data will be sent to the Registrar for reconciliation with the data available with the NSDL and CDSL. Please also see, “Issue

*Procedure – Operational Instructions and Guidelines - Modification and cancellation of orders” on page 50.*

### **Depository Arrangements**

We have made depository arrangements with NSDL and CDSL. Please note that Tripartite Agreements have been executed between our Company, the Registrar and both the depositories.

As per the provisions of the Depositories Act, 1996, the NCDs issued by us can be held in a dematerialised form. In this context:

- i. Tripartite agreement dated May 3, 2011 among our Company, the Registrar and CDSL and tripartite agreement dated October 6, 2009 among our Company, the Registrar and NSDL, respectively for offering depository option to the investors.
- ii. An Applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the Application.
- iii. The Applicant must necessarily provide the DP ID and Client ID details in the Application Form.
- iv. NCDs Allotted to an Applicant in the electronic form will be credited directly to the Applicant's respective beneficiary account(s) with the DP.
- v. Non-transferable Allotment Advice will be directly sent to the Applicant by the Registrar to this Issue.
- vi. It may be noted that NCDs in electronic form can be traded only on the Stock Exchange having electronic connectivity with NSDL or CDSL. The Stock Exchange has connectivity with NSDL and CDSL.
- vii. Interest or other benefits with respect to the NCDs held in dematerialised form would be paid to those Debenture Holders whose names appear on the list of beneficial owners given by the Depositories to us as on Record Date. In case of those NCDs for which the beneficial owner is not identified by the Depository as on the Record Date/ book closure date, we would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to us, whereupon the interest or benefits will be paid to the beneficiaries, as identified, within a period of 30 days.

Please note that the NCDs shall cease to trade from the Record Date (for payment of the principal amount and the applicable premium and interest for such NCDs) prior to redemption of the NCDs.

### **PLEASE NOTE THAT TRADING OF NCDs ON THE FLOOR OF THE STOCK EXCHANGE SHALL BE IN DEMATERIALISED FORM ONLY IN MULTIPLE OF ONE NCD.**

Allottees will have the option to re-materialize the NCDs Allotted under this Tranche VI Issue as per the provisions of the Companies Act, 2013 and the Depositories Act.

### **Communications**

All future communications in connection with Applications made in this Tranche VI Issue (except the Applications made through the Trading Members of the Stock Exchange) should be addressed to the Registrar to the Issue, quoting the full name of the sole or first Applicant, Application Form number, Applicant's DP ID and Client ID, Applicant's PAN, number of NCDs applied for, ASBA Account number in which the amount equivalent to the Application Amount was blocked or the UPI ID (for UPI Investors who make the payment of Application Amount through the UPI Mechanism), date of the Application Form, name and address of the Designated Intermediary or Designated Branch of the SCSBs, as the case may be, where the Application was submitted.

Applicants may contact our Compliance Officer and Company Secretary or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of Allotment Advice or credit of NCDs in the respective beneficiary accounts, as the case may be.

### **Interest in case of delay**

Our Company undertakes to pay interest, in connection with any delay in Allotment and demat credit, beyond the time limit as may be prescribed under applicable statutory and/or regulatory requirements, at such rates as stipulated under such applicable statutory and/or regulatory requirements.

### **Undertaking by the Issuer**

“Investors are advised to read the risk factors carefully before taking an investment decision in this Tranche VI Issue. For

taking an investment decision, investors must rely on their own examination of the issuer and the offer including the risks involved. The securities have not been recommended or approved by any regulatory authority in India, including the Securities and Exchange Board of India (SEBI) nor does SEBI guarantee the accuracy or adequacy of this document. Specific attention of investors is invited to the statement of 'Risk factors' on page 19."

The Issuer, having made all reasonable inquiries, accepts responsibility for, and confirms that this Offer Document contains all information with regard to the issuer and this Tranche VI Issue, that the information contained in the offer document is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which make this document as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

The issuer has no side letter with any debt securities holder except the one(s) disclosed in the offer document/offer document. Any covenants later added shall be disclosed on the stock exchange website where the debt is listed.

Our Company undertakes that:

- a. All monies received pursuant to this Tranche VI Issue shall be transferred to a separate bank account as referred to in sub-section (3) of section 40 of the Companies Act, 2013;
- b. Details of all monies utilised out of this Tranche VI Issue referred to in sub-item (a) shall be disclosed under an appropriate separate head in our balance sheet indicating the purpose for which such monies had been utilised;
- c. Details of all unutilised monies out of issue of NCDs, if any, referred to in sub-item (a) shall be disclosed under an appropriate separate head in our balance sheet indicating the form in which such unutilised monies have been invested;
- d. Details of all utilized and unutilised monies out of the monies collected in the previous issue made by way of public offer shall be disclosed and continued to be disclosed in the balance sheet till the time any part of the proceeds of such previous issue remains unutilized indicating the purpose for which such monies have been utilized, and the securities or other forms of financial assets in which such unutilized monies have been invested;
- e. Undertaking by our Company for execution of the Debenture Trust Deed;
- f. We shall utilize this Tranche VI Issue proceeds only upon execution of the Debenture Trust Deed as stated in this Tranche VI Prospectus, on receipt of the minimum subscription of 75% of the Base Issue i.e. ₹ 7,500 lakh and receipt of listing and trading approval from the Stock Exchange;
- g. This Tranche VI Issue proceeds shall not be utilized towards full or part consideration for the purchase or any other acquisition, *inter alia* by way of a lease, of any immovable property business, dealing in equity of listed companies or lending/investment in group companies;
- h. The allotment letter shall be issued or application money shall be unblocked within 6 (six) Working Days from the closure of this Tranche VI Issue or such lesser time as may be specified by SEBI, or else the Application money shall be refunded to the Applicants forthwith;
- i. Details of all monies unutilised out of the previous issues made by way of public offer, if any, shall be disclosed and continued to be disclosed under an appropriate separate head in our balance sheet till the time any part of the proceeds of such previous issue remains unutilized indicating the securities or other forms of financial assets in which such unutilized monies have been invested;
- j. we shall create a recovery expense fund in the manner as maybe specified by the Board from time to time and inform the Debenture Trustee about the same; and
- k. we undertake that the assets on which charge is created to meet the hundred percent security cover, are free from any encumbrances and in cases where the assets are already charged to secure a debt, the permission or consent to create a second or pari-passu charge on the assets of the issuer has been obtained from the earlier creditor.

#### ***Other Undertakings by our Company***

Our Company undertakes that:

- a. Complaints received in respect of this Tranche VI Issue (except for complaints in relation to Applications submitted to Trading Members) will be attended to by our Company expeditiously and satisfactorily;
- b. Necessary cooperation to the relevant credit rating agency(ies) will be extended in providing true and adequate information until the obligations in respect of the NCDs are outstanding;
- c. Our Company will take necessary steps for the purpose of getting the NCDs listed within the specified time, i.e., within six Working Days of this Tranche VI Issue Closing Date;
- d. Funds required for dispatch of Allotment Advice/NCD Certificates (only upon rematerialisation of NCDs at the specific request of the Allottee/ Holder of NCDs) will be made available by our Company to the Registrar to this Tranche VI Issue;
- e. Our Company will forward details of utilisation of the proceeds of this Tranche VI Issue, duly certified by the Joint

Statutory Auditors, to the Debenture Trustee on a half-yearly basis;

- f. Our Company will provide a compliance certificate to the Debenture Trustee on an annual basis in respect of compliance with the terms and conditions of this Tranche VI Issue as contained in this Tranche VI Prospectus;
- g. Our Company will disclose the complete name and address of the Debenture Trustee in its annual report and website; and
- h. Our Company shall make necessary disclosures/ reporting under any other legal or regulatory requirement as may be required by our Company from time to time.

The allotment of NCDs will be done on a first come, first serve basis. In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the applicants from the date of oversubscription and thereafter (based on the date of upload of each Application on the electronic platform of the Stock Exchange, in each Portion). On the successful allotment of the NCDs, this Tranche VI Issue proceeds will be released to the issuer to use in pursuance of the objects specified in this Tranche VI Prospectus.

## **SECTION VIII : MAIN PROVISIONS OF ARTICLES OF ASSOCIATION**

The main provisions of the Articles of Association relating to the issue and allotment of debentures and matters incidental thereto have been summarised below. Please note that each provision herein below is numbered according to the corresponding article number in the Articles of Association. Any reference to the term “Article” hereunder means the corresponding article contained in the Articles of Association.

### **Article 43 – Borrowing Powers**

The Board may, from time to time, and at its discretion, subject to the provisions of the Act and these Articles, accept deposits from Shareholders either in advance of calls or otherwise and generally raise or borrow moneys, either from the Directors, their friends and relatives or from others for the purposes of the Company and/or secure the payment of any such sum or sums of money, provided however, where the moneys to be borrowed together with the moneys already borrowed by the Company (apart from the temporary loans obtained from the Company's bankers in ordinary course of business) and remaining outstanding and undischarged at that time exceed the aggregate of the paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose), the Board shall not borrow such money without the consent of the Company in a General Meeting by a special resolution. The Board may raise and secure the payment of such sum or sums in such manner and upon such terms and conditions as it thinks fit, and in particular by receiving deposits, issue of bonds, debentures, redeemable, debenture stock, or any security of the Company or by mortgage or charge or other security upon all or any part of the property or undertaking of the Company (both present and future), including its uncalled capital for the time being; provided that the Board shall not give any option or right to any person for making calls on the Shareholders in respect of the amount unpaid for the time being on the Shares held by them, without the previous sanction of the Company in a General Meeting.

### **Article 70**

The Board of Directors shall appoint the person nominated by the Debenture Trustee(s) in terms of clause (e) of Regulation 15(1) of the SEBI (Debenture Trustees) Regulations, 1993 as a Director on the Board. Such appointment of a Director shall be subject to the provisions of Debenture Trust Deed, Companies Act, 2013, Reserve Bank of India (‘RBI’) Regulations, SEBI Regulations and all other applicable provisions of law. Such nominee director shall not be liable to retire by rotation.

### **Proceedings of the Board**

### **Article 71**

- (i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.
- (ii) The participation of directors in a meeting of the Board may be either in person or through video conferencing or other audio-visual means which are capable of recording and recognising the participation of the directors and of recording and storing the proceedings of such meetings along with date and time.
- (iii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.

### **Article 72**

- (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.
- (ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.

### **Article 73**

The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the company, but for no other purpose.

### **Article 74**

- (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time

appointed for holding the meeting, the directors present may choose one of their members to be Chairperson of the meeting.

#### **Article 75**

- (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.
- (ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.

#### **Article 76**

- (i) A committee may elect chairperson of its meetings.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.

#### **Article 77**

- (i) A committee may meet and adjourn as it thinks fit.
- (ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.

#### **Article 78**

All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.

#### **Article 79**

Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting 32 of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.

#### **Article 93 - Accounts**

- (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the company, or any of them, shall be open to the inspection of members not being directors.
- (ii) No member (not being a director) shall have any right of inspecting any account or book or document of the company except as conferred by law or authorized by the Board or by the company in general meeting.

#### **Article 95 – Reconstruction**

On any sale of the undertaking of the company, the board or the liquidator on a winding-up may, if authorised by a special resolution may accept fully paid-up shares, debentures or securities of any other company, whether incorporated in India or not, either then existing or to be formed for the purchase in whole or in part of the property of the company, and the board (if the profits of the company permit) or the liquidators (in a winding-up) may distribute such shares or securities or any other property of the company amongst the members without realisation, or vest the same in trustees for them, and any special resolution may provide for the distribution or appropriation of the cash, shares or other securities, benefit or property otherwise than in accordance with the strict legal rights of the members or contributors of the company and for the valuation of any such securities or property at such price and in such manner as the meeting may approve and all holders of shares shall be bound to accept the same and shall be bound by any valuation of distribution so authorised, and waive all rights in relation, thereto.

#### **Article 97 – Others Secrecy**

Every Director, manager, Auditor, trustee, shareholder, member of a committee, officer, servant, agent, accountant or other person employed in the business of the Company shall, if so required by the Board, before entering upon its duties, sign a

declaration pledging to observe strict secrecy in relation to all confidential information of the Company and its customers and shall by such declaration pledge not to reveal any of the matters which may come to its knowledge in the discharge of its duties, except as required by the Board, or by any General Meeting, or by a court of law, or so far as may be necessary in order to comply with any of the provisions of these Articles or the provisions of the Act.

## SECTION IX : MATERIAL CONTRACTS AND DOCUMENTS FOR INSPECTION

The following contracts which are or may be deemed material have been entered or are to be entered into by the Company. These contracts and also the documents for inspection referred to hereunder, may be inspected on Working Days at the Registered Office of the Company situated at Muthoot Centre, TC No 27/3022, Punnen Road, Trivandrum – 695 001, India, from 10.00 a.m. to 4.00 p.m., from the date of the Tranche VI Prospectus until the date of closure of this Tranche VI Issue.

### I. Material Contracts

1. Issue Agreement dated August 8, 2024 between the Company and the Lead Manager.
2. Registrar Agreement dated July 1, 2024, between the Company and the Registrar to the Issue.
3. Debenture Trustee Agreement dated July 1, 2024, between the Company and the Debenture Trustee for the NCD Holders.
4. Public Issue Account and Sponsor Bank Agreement dated June 27, 2025 amongst the Company, the Lead Manager, the Registrar, the Public Issue Account Bank, Sponsor Bank and the Refund Bank.
5. Consortium Agreement dated June 27, 2025 between the Company and the Consortium Members.
6. Tripartite Agreement dated May 3, 2011, between CDSL, the Company and the Registrar to the Issue.
7. Tripartite Agreement dated October 6, 2009, between NSDL, the Company and the Registrar to the Issue.
8. Agreed form of Debenture Trust Deed to be executed between our Company and the Debenture Trustee.

### II. Material Documents

1. Certificate of incorporation of the Company dated June 10, 1997, issued by the RoC.
2. Certificate of incorporation dated March 19, 2002, issued by the RoC.
3. Certificate of commencement of business dated July 3, 1997.
4. Memorandum and Articles of Association of the Company.
5. The certificate of registration No. 16.00170 dated July 23, 2002 issued by the RBI under Section 45 IA of the RBI Act.
6. Credit rating letter dated June 9, 2025 along with the rating rationale dated June 6, 2025, read with the credit bulletin dated June 17, 2025, issued by Crisil Ratings Limited assigning a rating of “Crisil AA-/Stable” for an amount of ₹ 1,90,000 lakhs of NCDs.
7. Board resolution dated May 20, 2024 approving the Issue and related matters including authorised signatories.
8. Shareholders’ resolution dated September 28, 2022 pursuant to Section 180 of the Companies Act, 2013.
9. Copy of the resolution of the Stock Allotment Committee dated July 1, 2024, approving the Issue.
10. Copy of the resolution of the Stock Allotment Committee dated August 8, 2024, approving the Draft Shelf Prospectus.
11. Copy of the resolutions of the Stock Allotment Committee dated August 23, 2024, approving the Shelf Prospectus.
12. Copy of the resolutions of the Stock Allotment Committee dated June 27, 2025, approving this Tranche VI Prospectus.
13. Consents of each of the Directors, Company Secretary and Compliance Officer, Chief Financial Officer, Lead

Manager, Legal Advisors to the Issue, Public Issue Account Bank(s), Sponsor Bank, Refund Bank, Bankers to the Issue, Consortium Member, the Debenture Trustee, Registrar to the Issue, experts and the Credit Rating Agency to act in their respective capacities and consents from the relevant lenders and debenture trustee.

14. Our Company has received the written consent dated January 29, 2025 from Erstwhile Joint Statutory Auditors of our Company, namely M/s. Krishnan Retna & Associates, Chartered Accountants and M/s. Rangamani & Co., Chartered Accountants, to include their name as required under section 26 (1) of the Companies Act, 2013 read with SEBI NCS Regulations, in this Tranche VI Prospectus, and as an “expert” as defined under section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Erstwhile Joint Statutory Auditors, and in respect of their (i) Audit Reports dated May 20, 2024, May 22, 2023 in respect of the Audited Standalone Financial Statement for the financial year ended March 31, 2024, March 31, 2023, respectively and Audit Reports dated May 20, 2024, May 22, 2023 in respect of the Audited Consolidated Financial Statement for the financial year ended March 31, 2024, March 31, 2023 respectively; and the written consent dated June 27, 2025 from M/s. Isaac & Suresh, Chartered Accountants and M/s. Vishnu Rajendran & Co, Chartered Accountants, to include their name as required under section 26 (1) of the Companies Act, 2013 read with SEBI NCS Regulations, in this Tranche VI Prospectus, and as an “expert” as defined under section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Joint Statutory Auditors, and in respect of their (i) Audit Report dated May 24, 2025 in respect of the Audited Standalone Financial Statement for the financial year ended March 31, 2025 and Audit Reports dated May 24, 2025 in respect of the Audited Consolidated Financial Statement for the financial year ended March 31, 2025;; (ii) report on statement of possible tax benefits dated June 27, 2025, and such consent has not been withdrawn as on the date of this Tranche VI Prospectus. However, the term “expert” shall not be construed to mean an “expert” as defined under the U.S. Securities Act, 1993.
15. Industry report titled “*Industry Report on Gold Loans*” released in June 2025.
16. Consent of Crisil Intelligence dated June 24, 2025, with respect to the industry report titled ‘Industry Report on Gold Loans’ released in June 2025.
17. Annual Reports of the Company for the three Fiscals.
18. Statement of possible tax benefits dated June 27, 2025, issued by the Statutory Auditors.
19. In-principle listing approval from BSE, through letter no. DCS/BM/PI-BOND/16/24-25 dated August 21, 2024.
20. Due Diligence Certificate dated June 27, 2025, filed by the Lead Manager with SEBI.
21. Due Diligence Certificate dated August 8, 2024, through letter no. 713/OPR/VTPL/2024-25 from the Debenture Trustee to the Issue.

## DECLARATION

We, the Directors of the Company, hereby certify and declare that all relevant provisions of the Companies Act, 2013 as amended, and the rules prescribed thereunder, to the extent applicable, and the guidelines issued by the Government of India and/or the regulations/guidelines/circulars issued by the Reserve Bank of India and the Securities and Exchange Board of India, established under Section 3 of the Securities and Exchange Board of India Act, 1992, as applicable, including the Securities Contracts (Regulation) Rules, 1957, Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021, as amended, have been complied with and no statement made in this Tranche VI Prospectus is contrary to the provisions of the Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities and Exchange Board of India Act, 1992 or rules made there under, regulations or guidelines or circulars issued, as the case may be. We confirm that the compliance with the Securities and Exchange Board of India Act, 1992 or rules made there under does not imply that payment of dividend or interest or repayment of debt securities, is guaranteed by the Central Government.

We further certify that all the disclosures and statements in this Tranche VI Prospectus are true, accurate and correct in all material respects are in conformity with Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities and Exchange Board of India Act, 1992 or rules made there under, regulations or guidelines or circulars issued, as the case may be and do not omit disclosure of any material fact which may make the statements made therein, in light of circumstances under which they were made, misleading and that this Tranche VI Prospectus does not contain any misstatements. Furthermore, all the monies received under the offer shall be used only for the purposes and objects indicated in this Tranche VI Prospectus. No information material to the subject matter of this form has been suppressed or concealed and whatever is stated in this Tranche VI Prospectus thereto is true, correct and complete and is as per the original records maintained by the Promoter(s) subscribing to the Memorandum of Association and Articles of Association. The contents of the document have been perused by the Board of Directors, and the final and ultimate responsibility of the contents mentioned herein shall also lie with Board of Directors.

Dear Mr. Thomas John Muthoot,

**Re: Review of Crisil Rating on the Rs.1900 Crore Non Convertible Debentures<sup>3</sup> of Muthoot Fincorp Limited**

All ratings assigned by Crisil Ratings are kept under continuous surveillance and review.

Crisil Ratings has, after due consideration, reaffirmed its Crisil AA-/Stable (pronounced as Crisil double A minus rating with Stable outlook) rating on the captioned debt instrument. Securities with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such securities carry very low credit risk.

In the event of your company not making the issue within a period of 180 days from the above date, or in the event of any change in the size or structure of your proposed issue, a fresh letter of revalidation from Crisil Ratings will be necessary.

As per our Rating Agreement, Crisil Ratings would disseminate the rating along with outlook through its publications and other media, and keep the rating along with outlook under surveillance for the life of the instrument. Crisil Ratings reserves the right to withdraw, or revise the rating / outlook assigned to the captioned instrument at any time, on the basis of new information, or unavailability of information, or other circumstances which Crisil Ratings believes may have an impact on the rating. Please visit [www.crisilratings.com](http://www.crisilratings.com) and search with the name of the rated entity to access the latest rating/s.

As per SEBI circular (reference number: CIR/IMD/DF/17/2013; dated October 22, 2013) on centralized database for corporate bonds/debentures, you are required to provide international securities identification number (ISIN; along with the reference number and the date of the rating letter) of all bond/debenture issuances made against this rating letter to us. The circular also requires you to share this information with us within 2 days after the allotment of the ISIN. We request you to mail us all the necessary and relevant information at [debtissue@crisil.com](mailto:debtissue@crisil.com). This will enable Crisil Ratings to verify and confirm to the depositories, including NSDL and CDSL, the ISIN details of debt rated by us, as required by SEBI. Feel free to contact us at [debtissue@crisil.com](mailto:debtissue@crisil.com) for any clarification you may need.

Should you require any clarification, please feel free to get in touch with us.

With warm regards,

Yours sincerely,

Prashant Pratap Mane  
Associate Director - Crisil Ratings

Nivedita Shibu  
Director - Crisil Ratings

*3 Rs 500.81 Crore unutilised*

**Disclaimer:** A rating by Crisil Ratings reflects Crisil Ratings' current opinion on the likelihood of timely payment of the obligations under the rated instrument, and does not constitute an audit of the rated entity by Crisil Ratings. Our ratings are based on information provided by the issuer or obtained by Crisil Ratings from sources it considers reliable. Crisil Ratings does not guarantee the completeness or accuracy of the information on which the rating is based. A rating by Crisil Ratings is not a recommendation to buy / sell or hold the rated instrument; it does not comment on the market price or suitability for a particular investor. Crisil Ratings has a practice of keeping all its ratings under surveillance and ratings are revised as and when circumstances so warrant. Crisil Ratings is not responsible for any errors and especially states that it has no financial liability whatsoever to the subscribers / users / transmitters / distributors of its ratings. Crisil Ratings' criteria are available without charge to the public on the web site, [www.crisilratings.com](http://www.crisilratings.com). Crisil Ratings or its associates may have other commercial transactions with the company/entity. ## Rating Rationale

June 06, 2025 | Mumbai

### Muthoot Fincorp Limited

*'Crisil A+/Stable' assigned to Perpetual Bonds; Rated amount enhanced for Bank Debt and Commercial Paper*

#### Rating Action

Total Bank Loan Facilities Rated	Rs.20700 Crore (Enhanced from Rs.18700 Crore)
Long Term Rating	Crisil AA-/Stable (Reaffirmed)

Rs.50 Crore Perpetual Bonds*	Crisil A+/Stable (Assigned)
Rs.200 Crore Subordinated Debt <sup>1</sup>	Crisil AA-/Stable (Reaffirmed)
Rs.100 Crore Subordinated Debt*	Crisil AA-/Stable (Reaffirmed)
Rs.100 Crore Perpetual Bonds <sup>2</sup>	Crisil A+/Stable (Reaffirmed)
Rs.50 Crore Subordinated Debt	Crisil AA-/Stable (Reaffirmed)
Rs.150 Crore Subordinated Debt	Crisil AA-/Stable (Reaffirmed)
Rs.200 Crore Non Convertible Debentures <sup>* &amp;</sup>	Crisil AA-/Stable (Reaffirmed)
Rs.1900 Crore Non Convertible Debentures <sup>3</sup>	Crisil AA-/Stable (Reaffirmed)
Non Convertible Debentures Aggregating Rs.400 Crore <sup>&amp;4</sup>	Crisil AA-/Stable (Reaffirmed)
Rs.100 Crore Perpetual Bonds	Crisil A+/Stable (Reaffirmed)
Rs.75 Crore Perpetual Bonds	Crisil A+/Stable (Reaffirmed)
Rs.95 Crore Perpetual Bonds	Crisil A+/Stable (Reaffirmed)
Rs.25 Crore Perpetual Bonds	Crisil A+/Stable (Reaffirmed)
Rs.100 Crore Subordinated Debt	Crisil AA-/Stable (Reaffirmed)
Subordinated Debt Aggregating Rs.450 Crore	Crisil AA-/Stable (Reaffirmed)
Non Convertible Debentures Aggregating Rs.1100 Crore	Crisil AA-/Stable (Reaffirmed)
Non Convertible Debentures Aggregating Rs.1557.97 Crore (Reduced from Rs.1794.4 Crore) <sup>5</sup>	Crisil AA-/Stable (Reaffirmed)
Perpetual Bonds Aggregating Rs.404 Crore	Crisil A+/Stable (Reaffirmed)
Rs.2000 Crore (Enhanced from Rs.1700 Crore) Commercial Paper	Crisil A1+ (Reaffirmed)

& Private placement

\* Unutilised

1 Rs 50 Crore unutilised

2 Rs 3 Crore unutilised

3 Rs 500.81 Crore unutilised

4 Rs 100 Crore unutilised

5 Rs 52.15 Crore unutilised

Note: None of the Directors on Crisil Ratings Limited's Board are members of rating committee and thus do not participate in discussion or assignment of any ratings. The Board of Directors also does not discuss any ratings at its meetings.

1 crore = 10 million

Refer to annexure for Details of Instruments & Bank Facilities

#### Detailed Rationale

Crisil Ratings has assigned its '**Crisil A+/Stable**' rating to Rs 50 Crore perpetual bonds of Muthoot Fincorp Ltd (MFL; flagship company of the Muthoot Pappachan group [MPG]). The ratings on other debt instruments and bank facilities of MFL have been reaffirmed at 'Crisil AA-/Crisil A+/Stable/Crisil A1+'.

Crisil Ratings has also **withdrawn** its rating on non-convertible debentures (NCDs) worth Rs 275.58 crore, on receipt of an independent confirmation that these instruments have been fully redeemed, in line with its withdrawal policy. (Refer to 'Annexure - Details of rating withdrawn' for details).

The ratings continue to reflect the healthy performance and strong market position of MFL in the core gold loan portfolio, as indicated by steady growth in its assets under management (AUM) and sound asset quality. The ratings are further supported by the promoters' extensive experience in the loan-against-gold jewellery business, established market position in the gold financing business and diversified product profile of MPG. These strengths are partially offset by geographical concentration in the portfolio and potential challenges associated with non-gold loan segments.

Gold loan portfolio accounted for around 55% of the group's overall AUM as on March 31, 2025, and stood at Rs 28,509 crore (including co-lending of Rs 6,424 crore). Out of the remaining 45% non-gold portfolio, microfinance business accounted for majority (24%) with Rs 12,356 crore AUM as on March 31, 2025, while the AUM of vehicle loans stood at 6% and housing finance stood at 5% with AUM of Rs 3,058 crore and Rs 2,557 crore, respectively.

As far as the gold loan portfolio is concerned, on April 9, 2025, the Reserve Bank of India (RBI) released draft directions on loans against gold jewellery. These draft directions propose to have a harmonised regulatory framework for such loans applicable across various regulated entities. The draft directions also propose to address the concerns observed relating to some of the lending practices being followed and provide necessary clarity on certain aspects. Further, these directions also focus on enhancing transparency and protecting consumers by standardising procedures across entities. Nevertheless, given the directions are at draft stage, any impact on the credit profile of entities (including MFL) will remain a key monitorable.

The capital position has been supported by internal accrual and capital infusion in the microfinance subsidiary during December 2023 through an initial public offering (IPO) with fresh equity of Rs 760 crore and Rs 200 crore through offer for sale. Consequently, consolidated networth increased to Rs 7,432 crore in fiscal 2025 from Rs 6,570 crore in fiscal 2024. Further, consolidated gearing stood at 5.2 times as on March 31, 2025, from ~5 times as on March 31, 2024.

During fiscal 2025, the standalone profit after tax (PAT) of MFL stood at Rs 787 crore translating into return on managed assets (ROMA) of 2.3% against Rs 563 crore and 2.5%, respectively, for fiscal 2024 (one of its highest in the last 4-5 years). On a consolidated level, the PAT stood at Rs 654 crore translating into RoMA of 1.3% as against Rs 1,166 crore and 2.8%, respectively. The profitability in the microfinance portfolio has witnessed asset quality challenges during the last 4-6 quarters impacting the group's overall profitability.

### **Analytical Approach**

For arriving at the ratings, Crisil Ratings has combined the business and financial risk profiles of MFL (engaged in financing against gold jewellery, and financing micro and small and medium enterprises [MSMEs]), Muthoot Microfin Ltd (MML; microfinance), Muthoot Capital Services Ltd (MCSL; two-wheeler finance and MSME loans), and Muthoot Housing Finance Company Ltd (MHFCL; housing finance). This is because all these companies, collectively referred to as MPG, have significant financial, managerial and operational linkages. MML and MHFCL are subsidiaries of MFL while the promoters hold a 62.5% stake in MCSL.

The rating on the perpetual debt instruments reflects the subordinated nature of instruments and factors in the extent of comfortable buffer consistently maintained by MFL over the regulatory capital adequacy requirements and adequate financial flexibility. The rating on the perpetual bonds additionally takes into account restriction to MFL from servicing these instruments if it breaches the minimum regulatory capital requirement or if the regulator denies permission to the company to make payments of interest and principal, if it reports losses.

*Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.*

### **Key Rating Drivers & Detailed Description**

#### **Strengths:**

**Established market position in gold financing, supported by the extensive experience of the promoters:** MFL has an established market position in gold financing. The promoters have spent over seven decades in lending against gold jewellery. Over the years, the group has established a strong reputation and brand in South India and has an appropriate assessment and underwriting methodology. The company's gold loan AUM stood at Rs 28,509 crore as of March 2025 in comparison to Rs 20,484 crore in fiscal 2024. The total gold holding stood at around 56.5 tonne as on March 31, 2025 (48.2 tonne as on March 31, 2024). As far as disbursements are concerned, the company maintained average monthly disbursement rate of close to Rs 5523 crore during fiscal 2025 (against Rs 3,931 crore during fiscal 2024). The AUM per branch accordingly has improved to around Rs 9 crore as on March 31, 2025, against ~Rs 4.4 crore in fiscal 2020.

**Diversified product profile of the MPG:** The MPG has diversified its product profile over the past few years. Currently, the group operates in five major segments: loan against gold jewellery, two-wheeler finance, microfinance, housing finance and small business loans. Overall managed AUM of the group was around Rs 51,534 crore as on March 31, 2025 (Rs 39,170 crore as on March 31, 2024). The proportion of gold loans remained high at 55% in March 2025. The microfinance portfolio is the second largest with around 24% of the group's overall portfolio as on March 31, 2025. Crisil Ratings believes that gold loans will continue to hold the largest share in the consolidated AUM over the medium term.

**Improvement in capitalisation:** Networth at standalone level stood at Rs 4,917 crore (including compulsorily convertible cumulative preference shares [CCCPS]) as on March 31, 2025, against Rs 4,423 crore as on March 31, 2024. Capitalisation is further supported by low asset-side risks (security of gold jewellery, which is liquid and in the lender's possession). On a consolidated level, networth stood at Rs 7,432 crore (including CCCPS) as on March 31, 2025, against Rs 6,570 crore (including CCCPS) as on March 31, 2024, which was bolstered by capital infusion in the microfinance subsidiary during December 2023 through an IPO with fresh equity of Rs 760 crore and Rs 200 crore through offer for sale. The company's tier-1 ratio and overall capital to risk-weighted assets ratio (CRAR) stood at 15.85% and 19.50%, respectively, as on March 31, 2025, as compared to 12.1% and 16.9%, respectively, as on March 31, 2021. Moreover, gearing at the standalone level stood at 5.3 times as on March 2025 (4.5 times adjusted for liquidity and PDI) as compared to 4.5 times in fiscal 2024 and at consolidated level improved to 5.2

times in fiscal 2025 as compared to ~5 times in fiscal 2024. The management is expected to maintain gearing at the current level over the medium term. Any material increase in gearing beyond current thresholds will be a key rating sensitivity factor.

**Healthy asset quality in the gold loan segment to support overall group asset quality:** Gross non-performing assets (GNPAs) for MFL stood at 1.98% as of March 2025 against 1.6% in March 2024. Furthermore, there is negligible impact of the RBI's clarification released in November 2021 on the NPAs as gold loans are demand loans where the interest and principal are due for payment at the end of the tenure. Nevertheless, during the last 6-8 quarters, the company steadily commenced lending to MSME retail outlets and has also been offering loan against property (LAP) loans to salaried customers (against collateral of property). The non-gold portfolio stood at Rs 5,054 crore as on March 31, 2025, and the company is planning to steadily expand the same. MFL is doing regular auctions of gold loans, which would help in reducing GNPA's to below 2% in gold loans. In the gold loan segment, the company has maintained healthy asset quality over the years, backed by strong collection efficiency. Asset quality, as measured by credit costs, has also been under control (within 0.5%) during this period for gold loans. In fiscal 2025, the company reported nil credit cost. The company has been doing regular auctions since June 2021. Furthermore, the company is focusing on short-tenure (less than 12 months) gold loan product which should help MFL to de-risk the portfolio from any sharp movements in gold prices in the near term.

**Stable earnings profile:** Profitability at a standalone level has seen substantial improvement during the last 1-2 years. On a standalone basis, RoMA improved to 2.3% during fiscal 2025 (one of its highest in the last 4-5 years) as against 2.1% during fiscal 2024 (1.9% during fiscal 2023). If we adjust for cash and cash equivalents, profitability improves to 2.5% in fiscal 2025. The company has maintained its focus on regular interest collections in its gold loan portfolio in order to avoid any higher delinquencies and reduce loss, if any, post auctions. On a consolidated level, the PAT stood at Rs 654 crore translating into RoMA of 1.3% as against Rs 1,166 crore and 2.8%, respectively. The profitability in the microfinance portfolio has witnessed asset quality challenges during the last 4-6 quarters impacting the group's overall profitability. RoMA within microfinance stood at negative 1.6% during fiscal 2025 as against 3.6% during fiscal 2024. As far as vehicle finance segment is concerned (which is housed in MCSL), RoMA stood at 1.9% during fiscal 2025 as against 5.1% during fiscal 2024. Nevertheless, given a decent portion of the group is unsecured segment, its ability to maintain credit costs and thereby keep improving its earnings profile will remain monitorable.

#### **Weaknesses:**

**Geographical concentration in portfolio:** High geographical concentration persists, with South India accounting for around 55% of the gold loan portfolio as on March 31, 2025, though it improved from 70% as on March 31, 2019. This was achieved by increase in per branch business from branches other than those in southern India; opening of new branches in North, East and South; and closure or merger of non-viable branches in South India. While concentration has been declining, it is higher than that of peers. Presently, since demand for gold loans has been high in the region, the proportion of AUM from the south may not decline further in subsequent fiscals.

**Potential challenges associated with the non-gold loan segments:** The non-gold segments accounted for 45% of the overall portfolio as on March 31, 2025. While MPG has managed to grow these businesses and increase the segmental share over the last 2-3 years, potential challenges linked to seasoning of the loan book and asset quality remain. In fiscal 2025, vehicle loan and housing finance portfolios registered double-digit growth of 52% and 24%, respectively, while microfinance portfolio remained stable.

In the microfinance segment, the 90+ dpd rose to 5.6% as on March 31, 2025, from 4.2% as on March 31, 2024. Asset quality has been impacted by increase in indebtedness across customers, along with external challenges such as heat waves, elections and ground-level attrition. However, overall asset quality (in terms of collections) started showing some stability, particularly during the fourth quarter of fiscal 2025. Owing to weakening in asset quality, credit cost increased to 7.5% during fiscal 2025, from 1.5% in fiscal 2024 and 2.5% in fiscal 2023. The company cumulatively wrote off Rs 424 crore in fiscal 2025. However, to manage asset quality issues, it has maintained higher provision to cover most of its stressed accounts. The provision cover stood at 73% as on March 31, 2025.

Further, asset quality in vehicle finance segment has improved. The GNPA in case of MCSL stood at 4.9% (10.2% as on March 31, 2024) against 20.55% as on March 31, 2023. The 90+ dpd for MHFCL stood at 1.3% as on March 31, 2025 (0.8% as on March 31, 2024). Nevertheless, Crisil Ratings will continue to closely monitor the delinquency trend and collection efficiencies in the non-gold loan segments over the medium term. Additionally, sufficiency of capital buffers to withstand asset-side shocks remains a key rating sensitivity factor.

#### **Liquidity: Strong**

As per the asset liability management statement as on March 31, 2025, MFL, on a standalone basis, had cumulative positive gaps in the up-to-1-year bucket. As on April 30, 2025, it had liquidity of Rs 2,944 crore (Rs 1,733 crore of cash and equivalent and Rs 1,211 crore of cash credit [CC]/working capital demand loan [WC DL]). Against this, it had total debt repayment (including operating expenses) of Rs 1,393 crore over the next three months (May to July 2025). This excludes CC/WCDL limits, which are typically rolled over. Crisil Ratings notes that MFL has been able to roll over the CC/WCDL limits in the past and during the previous three months and expects to be able to roll over the balance limits falling due in the coming months.

Average monthly collection stood at around Rs 5080 crore during fiscal 2025. In terms of additional funding, in fiscal 2025, MFL raised Rs 9,037 crore in the form of terms loans, CC/WCDL, ECB and CP. While a larger proportion of borrowing has been sourced as funding lines from banks and financial institutions such as term loans and CC/WCDL (79%), the resource profile remained diversified across avenues such as commercial paper (16%) as on March 31, 2024.

#### **Outlook: Stable**

Crisil Ratings believes MFL's business risk profile will continue to be supported by its established market position in the gold loan segment.

## **Rating sensitivity factors**

### **Upward factors**

- Improvement in capital position with reduction in adjusted gearing of MFL, resulting in a similar reduction in adjusted gearing at the group level
- Improvement in consolidated profitability with RoMA at over 3% on a steady state basis
- Improvement in asset quality of the non-gold loan segment

### **Downward factors**

- Deterioration in asset quality with GNPA's increasing and remaining above 5%
- Adjusted gearing at the group level remaining over 8 times
- Deterioration in consolidated profitability with RoMA being less than 2%

## **About the Company**

Set up in 1997, MFL is a non-deposit-taking, systemically important NBFC engaged in lending against gold jewellery. The company has diversified into secured and unsecured MSME segment. It is the flagship company of the MPG, which has diverse businesses such as hospitality, real estate and power generation. The company also distributes mutual funds and general and life insurance products and operates in the money transfer segment and foreign exchanges through its branches. MFL (on a standalone basis) had AUM of Rs 33,563 crore, MML had AUM of Rs 12,356 crore, MCSL had Rs 3,058 crore and Muthoot Housing had Rs 2,557 crore as on March 31, 2025. The microfinance business accounted for majority share (24%), while the AUM of vehicle and housing finance stood at 6% and 5%, respectively.

## **Note on complexity levels of the rated instrument:**

Crisil Ratings' complexity levels are assigned to various types of financial instruments and are included (where applicable) in the 'Annexure - Details of Instrument' in this Rating Rationale.

Crisil Ratings will disclose complexity level for all securities - including those that are yet to be placed - based on available information. The complexity level for instruments may be updated, where required, in the rating rationale published subsequent to the issuance of the instrument when details on such features are available.

For more details on the Crisil Ratings' complexity levels please visit [www.crisilratings.com](http://www.crisilratings.com). Users may also call the Customer Service Helpdesk with queries on specific instruments.

**Note for Media:**

This rating rationale is transmitted to you for the sole purpose of dissemination through your newspaper/magazine/agency. The rating rationale may be used by you in full or in part without changing the meaning or context thereof but with due credit to Crisil Ratings. However, Crisil Ratings alone has the sole right of distribution (whether directly or indirectly) of its rationales for consideration or otherwise through any media including websites and portals.

**About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)**

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

For more information, visit [www.crisilratings.com](http://www.crisilratings.com)

**About Crisil Limited**

Crisil is a leading, agile and innovative global analytics company driven by its mission of making markets function better.

It is India's foremost provider of ratings, data, research, analytics and solutions with a strong track record of growth, culture of innovation, and global footprint.

It has delivered independent opinions, actionable insights, and efficient solutions to over 100,000 customers through businesses that operate from India, the US, the UK, Argentina, Poland, China, Hong Kong and Singapore.

It is majority owned by S&P Global Inc, a leading provider of transparent and independent ratings, benchmarks, analytics and data to the capital and commodity markets worldwide.

**CRISIL PRIVACY NOTICE**

Crisil respects your privacy. We may use your contact information, such as your name, address and email id to fulfil your request and service your account and to provide you with additional information from Crisil. For further information on Crisil's privacy policy please visit [www.crisil.com](http://www.crisil.com).

**DISCLAIMER**

This disclaimer is part of and applies to each credit rating report and/or credit rating rationale ('report') provided by Crisil Ratings Limited ('Crisil Ratings'). For the avoidance of doubt, the term 'report' includes the information, ratings and other content forming part of the report. The report is intended for use only within the jurisdiction of India. This report does not constitute an offer of services. Without limiting the generality of the foregoing, nothing in the report is to be construed as Crisil Ratings provision or intention to provide any services in jurisdictions where Crisil Ratings does not have the necessary licenses and/or registration to carry out its business activities. Access or use of this report does not create a client relationship between Crisil Ratings and the user.

The report is a statement of opinion as on the date it is expressed, and it is not intended to and does not constitute investment advice within meaning of any laws or regulations (including US laws and regulations). The report is not an offer to sell or an offer to purchase or subscribe to any investment in any securities, instruments, facilities or solicitation of any kind to enter into any deal or transaction with the entity to which the report pertains. The recipients of the report should rely on their own judgment and take their own professional advice before acting on the report in any way.

Crisil Ratings and its associates do not act as a fiduciary. The report is based on the information believed to be reliable as of the date it is published, Crisil Ratings does not perform an audit or undertake due diligence or independent verification of any information it receives and/or relies on for preparation of the report. THE REPORT IS PROVIDED ON "AS IS" BASIS. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAWS, CRISIL RATINGS DISCLAIMS WARRANTY OF ANY KIND,

EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE. In no event shall Crisil Ratings, its associates, third-party providers, as well as their directors, officers, shareholders, employees or agents be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of any part of the report even if advised of the possibility of such damages.

The report is confidential information of Crisil Ratings and Crisil Ratings reserves all rights, titles and interest in the rating report. The report shall not be altered, disseminated, distributed, redistributed, licensed, sub-licensed, sold, assigned or published any content thereof or offer access to any third party without prior written consent of Crisil Ratings.

Crisil Ratings or its associates may have other commercial transactions with the entity to which the report pertains or its associates. Ratings are subject to revision or withdrawal at any time by Crisil Ratings. Crisil Ratings may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of the instruments, facilities, securities or from obligors.

Crisil Ratings has in place a ratings code of conduct and policies for managing conflict of interest. For more detail, please refer to: <https://www.crisil.com/en/home/our-businesses/ratings/regulatory-disclosures/highlighted-policies.html>. Public ratings and analysis by Crisil Ratings, as are required to be disclosed under the Securities and Exchange Board of India regulations (and other applicable regulations, if any), are made available on its websites, [www.crisilratings.com](http://www.crisilratings.com) and <https://www.ratingsanalytica.com> (free of charge). Crisil Ratings shall not have the obligation to update the information in the Crisil Ratings report following its publication although Crisil Ratings may disseminate its opinion and/or analysis. Reports with more detail and additional information may be available for subscription at a fee. Rating criteria by Crisil Ratings are available on the Crisil Ratings website, [www.crisilratings.com](http://www.crisilratings.com). For the latest rating information on any company rated by Crisil Ratings, you may contact the Crisil Ratings desk at [crisilratingdesk@crisil.com](mailto:crisilratingdesk@crisil.com), or at (0091) 1800 267 3850.

Crisil Ratings shall have no liability, whatsoever, with respect to any copies, modifications, derivative works, compilations or extractions of any part of this [report/ work products], by any person, including by use of any generative artificial intelligence or other artificial intelligence and machine learning models, algorithms, software, or other tools. Crisil Ratings takes no responsibility for such unauthorized copies, modifications, derivative works, compilations or extractions of its [report/ work products] and shall not be held liable for any errors, omissions or inaccuracies in such copies, modifications, derivative works, compilations or extractions. Such acts will also be in breach of Crisil Ratings' intellectual property rights or contrary to the laws of India and Crisil Ratings shall have the right to take appropriate actions, including legal actions against any such breach.

Crisil Ratings uses the prefix 'PP-MLD' for the ratings of principal-protected market-linked debentures (PPMLD) with effect from November 1, 2011, to comply with the SEBI circular, "Guidelines for Issue and Listing of Structured Products/Market Linked Debentures". The revision in rating symbols for PPMLDs should not be construed as a change in the rating of the subject instrument. For details on Crisil Ratings' use of 'PP-MLD' please refer to the notes to Rating scale for Debt Instruments and Structured Finance Instruments at the following link: <https://www.crisilratings.com/en/home/our-business/ratings/credit-ratings-scale.html>

## Credit Bulletin

June 17, 2025 | Mumbai

We confirm that we are registered with the SEBI and that such registration is valid as on the date of this letter. We enclose a copy of our registration certificate enclosed herein as **Annexure A** and declaration regarding our registration with SEBI as **Annexure B**.

We also confirm that we have not been prohibited by SEBI to act as an intermediary in capital market issues.

We hereby authorise you to deliver this letter of consent to the RoC, pursuant to the provisions of Section 26 of the Companies Act, 2013 and other applicable laws or any other regulatory/statutory authorities as required by law.

We also agree to keep strictly confidential, until such time as the proposed transaction is publicly announced by the Company in the form of a press release, (i) the nature and scope of this transaction; and (ii) our knowledge of the proposed transaction of the Company.

We confirm that we will immediately inform you and the Lead Manager of any change to the above information until the date when the NCDs commence trading on the Stock Exchange. In the absence of any such communication from us, the above information should be taken as updated information until the NCDs commence trading.

All capitalized terms not defined herein would have the same meaning as attributed to it in the Draft Shelf Prospectus.

This letter may be relied upon by you, the Lead Manager and the legal advisors to the Issue in respect of the Issue.

Sincerely

For Vardhman Trusteeship Private Limited

## **ANNEXURE D – FINANCIAL STATEMENTS**

*[Rest of the page intentionally kept blank]*

## INDEPENDENT AUDITOR'S REPORT

To,

THE MEMBERS OF **MUTHOOT FINCORP LIMITED,**

Report on the Audit of the Consolidated Ind AS Financial Statements

### Opinion

We have audited the accompanying Consolidated Ind AS financial statements of **Muthoot Fincorp Limited ("the holding Company"), Muthoot Centre, TC No 14/2074-7, Punnen Road, Thiruvananthapuram – 695 001 and its subsidiaries (together referred as "Group")** which comprise the Consolidated Balance Sheet as at 31st March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Statement of cash flows for the year then ended, including the notes to the Consolidated Ind AS Financial Statements, a summary of significant accounting policies and other explanatory information. [ hereinafter referred to as "Consolidated Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at 31st March, 2025, and its Consolidated profit including other Comprehensive Income, Consolidated Changes in equity and Consolidated cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the other matters section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period.

These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	How it's been addressed in Audit
a) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.	<p>We have accessed the laid down systems and processes of the Holding Company in identifying related party transactions and its ultimate disclosure in the Consolidated Ind AS financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board of the Holding Company in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.</p> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding IT systems and controls. Based on the audit report issued by other auditors, no material weakness was identified in the IT related systems and controls of the subsidiaries.</p>
b) Effectiveness of IT Systems and related controls.	<p>Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be misstated in case of any control lapses in the IT system related controls. We have designed our audit procedures in accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems of Holding Company on a sample basis which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password</p>

	<p>protection, external software/hardware access rights etc of the Holding Company.</p> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding IT systems and controls. Based on the audit report issued by other auditors, no material weakness was identified in the IT related systems and controls of the subsidiaries.</p>
<p>c) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.</p>	<p>At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapses in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have conducted physical visits to key branches of holding company and central loan processing hub of the holding Company which are considered top based on the significant gold loan and unsecured loan portfolio to identify and evaluate the effectiveness of controls in place. We have also tested on a sample basis the independent financial records maintained at the branch level of the holding company and how the same is considered and incorporated in the Consolidated Ind AS financial statements. We have also assessed and analysed the internal audit reports of holding company and how the major observations are dealt with and its impact on the Holding Company's financial accounting and reporting records.</p> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding Accuracy, completeness and correctness of accounting and related controls maintained at the Subsidiary Companies' branches. Based on the audit report issued by auditors of subsidiaries, no major weaknesses were identified.</p>
<p>d) Computation of provision towards impairment of loan assets. As at 31st March 2025, the Group had reported a total impairment loss allowance of Rs.87,428.36 lakhs (31st March 2024 - Rs. 49,373.17 lakhs).</p>	<p>The audit procedures performed for the holding Company, among others, included:</p> <ul style="list-style-type: none"> <li>Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> </ul>

**Isaac & Suresh**

**Chartered Accountants**

**Vishnu Rajendran & Co.**

**Chartered Accountants**

<p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>• Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>• Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<ul style="list-style-type: none"> <li>• Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>• Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding IT systems and controls. Based on the audit report issued by other auditors, no material weakness was identified in the IT related systems and controls of the subsidiaries.</p>
---	--

**Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report Thereon**

The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Annual Report but does not include the Consolidated Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

**Responsibilities of Management and those charged with governance for the Consolidated Ind AS Financial Statements**

The Holding Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Ind AS financial statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance, Consolidated changes in equity and Consolidated cash flows of the Group including its Associates and jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

**Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in planning the scope of our audit work and in evaluating the results of our work; and to evaluate the effect of any identified misstatements in the consolidated Ind AS financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Other Matters**

(a) We did not audit the financial statements / financial information of the subsidiaries, whose financial statements reflect total assets of Rs. 13,57,033.61 lakhs as at 31st March, 2025, total revenues of Rs. 2,99,740.69 lakhs and net cash flows amounting to Rs. (26,028.85) lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements.

(b) This financial statements / financial information has been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

(C) Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information.

### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143 (3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated financial statements;

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated financial statement;

d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder.

e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2025 taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies, incorporated in India is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

f) The modifications relating to the maintenance of accounts and other matters connected therewith in respect of audit trail are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(i)(v) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

g) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer our separate Report in "Annexure A" which is based on the Auditors' Reports of the Holding Company and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to financial statements of those companies.

h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid /provided by the Holding Company and Subsidiary Companies to its Directors during the year is in accordance with the provisions of Section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.

ii. The Group has made provision as required under applicable law or accounting standards for material foreseeable losses, if any, on long term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding company and its subsidiaries.

iv. a) The respective Managements of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, has represented to us and to the other auditors of such subsidiaries that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

**Isaac & Suresh**

**Chartered Accountants**

**Vishnu Rajendran & Co.**

**Chartered Accountants**

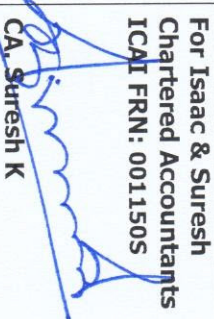

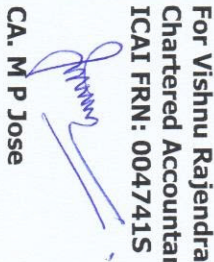

b) The respective Management of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Holding Company or any of such subsidiaries, from any person or entity, including foreign entity ("Funding Parties") with the understanding, whether recorded in writing or otherwise that the Holding Company or any of such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and that performed by the auditors of the subsidiaries, which are Companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Act.

vi Based on our examination which included test checks and on the Holding Company and based on the reports of the auditors of the subsidiaries as represented to us, the Group uses accounting software, which has a feature of recording audit trail (edit log), for maintaining its books of accounts for the financial year ended March 31, 2025 and the same has operated throughout the year for all relevant transactions recorded in the soft wares. Further, no instance of the audit trail feature being tampered with, has come to our attention, during our audit and the audit trail has been preserved by the Group, as per the statutory requirements for record retention.

2. According to the information and explanations given to us and based on our examination of the records of the companies under the group, there has been no adverse remarks by the respective auditors in the Companies (Auditor's Report) Order (CARO) reports of the companies included in the consolidated financial statements.

#### **ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT**

Referred to in Paragraph 1(f) under 'Report on other Legal and Regulatory Requirements' of the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Consolidated Ind AS Financial Statements as of and for the year ended 31st March 2025.

#### **REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("the Act"):**

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of Muthoot Fincorp Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which includes internal financial controls over financial reporting of the Company and its subsidiaries.

#### **Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**Material Accounting Policies**

**1. Corporate Information**

Muthoot FinCorp Limited, (the Company), is a Public Limited Company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. The company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and was classified as a Non Deposit Taking Systemically Important Loan Company (NDSI). Based on the RBI notification RBI/2021-22/112 DOR.CRE.REC.No.60/03.10.001/2021-22, dated October 22, 2021, the Company is classified as NBFC - Middle Layer (NBFC-ML) under the Scale Based Regulation for Non-Banking Financial Companies.

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold, SME Loans, Personal Loans and Loans against Property through its branch network across India. The company also offers Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The company is engaged in real estate business to a very limited extent. The Company's registered office is at Muthoot Centre, TC No 27/3022 Punnem Road, Thiruvananthapuram, Kerala, India, 695001. The Registration details of the Company are as follows:

Corporate Identity Number (CIN): U65929KL1997PLC011518

Reserve Bank of India Registration no.: N - 16.00170

The Company has been granted a corporate agent license on January 16, 2025 from the Insurance Regulatory and Development Authority of India (IRDAI) with Registration Number – CA1017.

The Company has 3 subsidiaries, Muthoot Housing Finance Company Limited (or "MHFCL" or "Muthoot Housing"), Muthoot Pappachan Technologies Limited (or "MPT") and Muthoot Microfin Limited (or "MML" or "Muthoot Microfin") (formerly known as Pancharatna Securities Limited), which are incorporated in India. The Parent Company along with its subsidiaries are referred to as "Group".

Muthoot Housing Finance Company Limited (MHFCL) is a public company domiciled in India and incorporated under provision of the Companies Act, 1956 having Corporate Identity Number (CIN) - U65922KL2010PLC025624, registered with the National Housing Bank ("NHIB") under Section 29 A of the National Housing Bank Act, 1987 and primarily engaged in housing finance activities. The company was incorporated on 05th March 2010, and received the Certificate of Registration from the NHIB on 11th February 2011, enabling the company to carry on business as a Housing Finance Company, without accepting Public Deposits. The Company received its Certificate of Commencement of Business on 1st June 2011. MHFCL has obtained registration from Insurance Regulatory and Development Authority vide Registration No. CA0931 dated 08 April 2024.

Muthoot Pappachan Technologies Private Limited (MPT) having Corporate Identity Number (CIN) - U72200KL2012PLC032664 was initially registered as a Private Limited Company on 16th November 2012. Later, it was converted to Muthoot Pappachan Technologies Limited on 5th July 2013. Based in the Technopark campus at Thiruvananthapuram, the company provides consulting-led integrated portfolio of Information Technology (IT) and IT enabled services to its clients. The company in short, aims at providing software solution as service to its customers.

Muthoot Microfin Limited (MML) was incorporated as a Private Limited Company in the year 1992 under the erstwhile Companies Act, 1956 having Corporate Identity Number (CIN) - L65190MH1992PLC066228. Effective from 18 March 1998, the Company was registered as a non-deposit accepting Non-Banking Financial Company (NBFC-ND) under the rules and regulations framed by the Reserve Bank of India. The company has obtained registration under the category of Non-Banking Financial Company – Micro Finance Institutions (NBFC-MFI) w.e.f. 25 March 2015. The operations of the Company are based on the Grameen model of lending. It is designed to promote entrepreneurship among women and inclusive growth. The Company provides financial assistance through micro loans to women engaged in small income generating activities. During the year ended March 31, 2024, MML has completed Initial Public Offer (IPO) of its shares. Pursuant to IPO, its shares were listed on National Stock Exchange (NSE) and BSE Limited (BSE) on December 26, 2023. The Company has secured a corporate agent license on June 18, 2024 from the Insurance Regulatory and Development Authority of India (IRDAI) with Registration Number - CA0953.

**Muthoot FinCorp Limited**  
Notes forming part of consolidated financial statements

**2. Basis of preparation**

**2.1 Statement of Compliance**

The consolidated financial statements (CFS) of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') issued by RBI and National Housing Bank Guidelines/Regulations ('NHB directions') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Group shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

**2.2 Presentation of financial Statements**

The Group presents its Balance Sheet in order of liquidity. The Group prepares and presents its Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the format prescribed by Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

The Group generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Group offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

**2.3 Principles of consolidation**

The consolidated financial statements incorporate the financial statements of the Parent Company and all its subsidiaries, being the entities that it controls from the date control is gained. Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity's returns. The financial statements of subsidiaries are prepared for the same reporting year as the Parent Company. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Parent Company.

These consolidated financial statements are prepared on the following basis in accordance with Ind AS 110 on "Consolidated Financial Statements" specified under Section 133 of the Act. Following subsidiary companies have been considered in the preparation of the consolidated financial statements:

Name of the Company	Country of incorporation	Consolidated as	% equity shareholding of MFL (Current Year)	% equity shareholding of MFL (Previous Year)
Muthoot Housing Finance Company Limited	India	Subsidiary	82.56%	81.71%
Muthoot Pappachan Technologies Limited	India	Subsidiary	60.00%	60.00%
Muthoot Microfin Limited	India	Subsidiary	50.21%	50.21%

**i) Subsidiaries**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**ii) Non-controlling interest ("NCI")**

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

**iii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other component of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

**iv) Transactions eliminated on consolidation**

The financial statements of the Holding Company and its subsidiary used in the consolidation procedure are drawn up to the same reporting date i.e. March 31, 2025. The financial statements of the Holding Company and its subsidiary are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses. Intra-group balances and transactions, and unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment. The Group follows uniform accounting policies for like transactions and other events in similar circumstances. For additional information as required by Paragraph 2 of the General Instructions for preparation of Consolidated Financial Statements to Schedule III to the Companies Act, 2013, refer Note 51.

**2.4 Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVTOCI)
- ii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)
- iii) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iv) Investments which are held for trading
- v) Assets held for sale are measured at fair value less cost to sell or carrying value whichever is lower
- vi) Defined benefit plans.
- vii) Derivative Financial Instruments

**2.5 Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Group and the currency of the primary economic environment in which the Group operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

**3. Material accounting policies**

**3.1 Recognition of interest income**

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**3.2. Recognition of revenue from sale of goods and services**

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Group recognises revenue from contracts with customers based on a five-step model as set out in Ind 115:

**Step 1:** Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

**Step 2:** Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

**Step 3:** Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

**Step 4:** Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

**Step 5:** Recognise revenue when (or as) the Group satisfies a performance obligation.

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

**3.2.1 Dividend income**

Dividend income is recognised when the Group's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

**3.2.2 Income from assignment transactions**

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the excess interest spread (EIS). In accordance with Ind AS 109 and as per management practice, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognized from the Balance Sheet immediately upon execution of such transaction. Further, where the transfer of financial asset qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as receivable towards assignment transactions and correspondingly recognized as gain on sale of loan assets.

**3.2.3 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

**3.2.4 Fees and commission income**

Fees and commission income such as service charges, commission from fee-based business lines, service income etc. are recognised on point in time basis.

**3.2.5 Miscellaneous Income**

All other income is recognized on an accrual basis, when there is no uncertainty in the ultimate realization/collection.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**3.3 Financial instruments**

**A. Financial Asset**

**3.3.1 Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on the date when the Company becomes party to the contractual provisions. The Group recognises debt securities, deposits and borrowings when funds reach the Group and post allotment, where applicable.

**3.3.2 Initial and subsequent measurement of financial instruments**

The Group classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI).
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL).
4. Equity instruments measured at fair value through other comprehensive income FVTOCI.

The classification depends on the contractual terms of the financial assets' cash flows and the Group's business model for managing financial assets which are explained below:

**Business model assessment**

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Group's assessment.
- ▶ The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

**The SPPI test**

As a second step of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Group classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

**3.3.3 Financial assets measured at amortised cost**

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

**3.3.4 Financial assets measured at fair value through other comprehensive income**

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVTOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

**3.3.5 Financial Instrument measured at fair value through profit or loss**

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Group's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

**3.3.6 Equity instruments**

The Group subsequently measures investment in equity investments at fair value through profit or loss, unless the Group's management has elected to classify irrevocably some of its equity investments as equity instruments at FVTOCI, when such instruments meet the definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified at FVTOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**B. Financial Liabilities**

Initial recognition and measurement

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

**3.4 Derecognition of financial assets and liabilities**

**3.4.1 Financial Asset**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Group has transferred the financial asset if, and only if, either:

- a) The Group has transferred its contractual rights to receive cash flows from the financial asset
- or
- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Group retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- ▶ The Group has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- ▶ The Group cannot sell or pledge the original asset other than as security to the eventual recipients
- ▶ The Group has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Group is not entitled to reinvest such cash flows except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- ▶ The Group has transferred substantially all the risks and rewards of the asset or
- ▶ The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

**3.4.2 Financial Liability**

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

### **3.5 Offsetting**

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Group has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- a. The normal course of business
- b. The event of default
- c. The event of insolvency or bankruptcy of the Group and/or its counter parties.

### **3.6 Impairment of financial assets**

#### **3.6.1 Overview of the Expected Credit Loss (ECL) principles**

The Group has created provisions on all financial assets except for financial assets classified as FVTPL, based on the expected credit loss method. The Group also ensures maintaining the minimum provision requirement as per RBI and NHB regulations.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Group performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Group categorises its loans into three stages as described below:

#### For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Group compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Group recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

#### For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Group recognises lifetime ECL for impaired financial instruments.

#### **3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

considering fresh slippage using historical information. Where historical information is not available for arriving at reasonable default probability, published probability of default for similar loan segments are used.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments

**Loss Given Default (LGD)** - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. The Group uses computed discounted recoveries in NPA accounts that are closed during the year where historical information is available and uses Foundational Internal Ratings Based approach (FIRB) norms in the absence of sufficient historical trends.

**Forward looking information**

While estimating the expected credit losses, the Group reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Group analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Group based on its internal data. While the internal estimates of PD, LGD rates by the Group may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

**Write-offs**

Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

**Collateral**

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as gold, cash, securities, letters of credit/guarantees, stock, current asset etc. However, the fair value of collateral affects the calculation of ECLs. The fair value of the same is based on data provided by third party or management judgements.

**Impairment of Trade receivables**

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

**3.7 Determination of fair value**

The Group measures financial instruments such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Group will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

### **3.8 Foreign Currency translation**

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of exchange ruling at the date of the transaction. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

### **3.9 Finance cost**

Finance costs represents interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to borrowers and advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability.

### **3.10 Other income and expenses**

All Other income and expense are recognized in the period they occur.

### **3.11 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered an integral part of the Group's cash management.

### **3.12 Property, plant and equipment**

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

**3.13 Depreciation**

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 or estimated useful lives estimated by the respective management based on technical evaluation. The holding company and one of its subsidiaries, Muthoot Microfin Limited follow the Straight Line Method for providing depreciation whereas the two other subsidiaries follow Written Down Value Method.

Leasehold improvements and assets held under finance leases are depreciated over the shorter of lease term or their useful life. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

**3.14 Capital work-in-progress**

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses. Assets which are not ready for intended use are also shown under capital work-in-progress.

**3.15 Intangible assets**

The Group's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised by the Group over a period of 3 years, except in case of Muthoot Pappachan Technologies Limited where the computer software is amortised over a period of 10 years or over the estimated useful lives.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

**3.16 Investment Property**

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the Group.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period. The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

**3.17 Impairment of non-financial assets**

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

**3.18 Post-employment benefits**

**3.18.1 Defined contribution schemes**

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The Group has no obligation, other than the contribution payable under the schemes. The Group recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

**3.18.2 Defined Benefit schemes**

*Gratuity*

The Group provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Group. The Group accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Group makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to other equity through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

**3.19 Share Based Payments**

The Group has formulated Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in Other Equity and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the group revises its estimates of the number of options that are expected to vest.

**3.20 Provisions**

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

**3.21 Assets held for sale**

Assets possessed against the settlement of loans are carried in the balance sheet at a value of outstanding principal loan amount or fair value of asset whichever is lower. In case the fair value of the asset acquired is lower than the outstanding principal loan amount; then the shortfall is to be provided for in the books of account in such financial year.

These assets are classified as 'Assets held for sale' under 'Non-financial assets' till the asset acquired is finally disposed. The outstanding overdue interest and other charges will be accounted on realization basis.

Further, if on disposal of the assets so acquired, the sale proceed is higher than the receivable amount (including outstanding loan, outstanding overdue interest, other charges and interest), then the excess will be refunded to the borrowers

**3.22 Taxes**

Income tax expense represents the sum of current tax and deferred tax.

**3.22.1 Current Tax**

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

Interest income / expenses and penalties, if any, related to income tax are included in current tax expense. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in other equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**3.22.2 Deferred tax**

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

**3.22.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses**

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

**3.23 Contingent Liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Group does not have any contingent assets in the financial statements.

**3.24 Earnings Per Share**

The Group reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

**3.25 Dividends on ordinary shares**

The Group recognises a liability to make distributions to equity holders of the Group when the distribution is authorised, and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity

**3.26 Leases**

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

**Group as a lessee**

The Groups lease asset class consists of building and equipment. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

identified asset for a period of time in exchange for consideration. The Group has, at the date of transition, recognized a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are recognized at cost, which comprises the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

***Group as a lessor***

Leases where the Group does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

**3.27 Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

**3.28 Derivative Financial Instruments**

The Group enters into derivative financial instruments such as foreign exchange forward contracts and cross currency interest rate swaps to manage its exposure to foreign exchange rate risk. Derivatives are recognized at fair value and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedge relationship.

**4. Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

**4.1 Business Model Assessment**

Classification and measurement of financial assets depends on the results of the SPP1 and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

#### **4.2 Defined employee benefit assets and liabilities**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### **4.3 Fair value measurement**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **4.4 Impairment of financial assets**

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

#### **4.5 Effective Interest Rate (EIR) method**

The Group's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and lifecycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### **4.6 Lease term**

- The determination of lease term for some lease contracts in which the Group is a lessee, including whether the Group is reasonably certain to exercise lessee options.
- The determination of the incremental borrowing rate used to measure lease liabilities.

#### **4.7 Share based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

#### **4.8 Other estimates**

These include contingent liabilities, useful lives of tangible and intangible assets etc.

**Muthoot Housing Finance Company Limited**

The table below shows the credit quality and the maximum exposure to credit risk based on the Company's internal credit rating system and year-end stage classification. The amounts presented are gross of impairment allowances. Details of the Company's internal grading system are explained in Note 44 and policies on whether ECL allowances are calculated on an individual or collective basis are set out in Note 44.

Particulars	As at 31st March 2025				As at 31st March 2024

Note 8 continued

**Transferred financial assets that are derecognised in their entirety but where the Group has continuing involvement**

The Group has sold some loans and advances as a source of finance. As per terms of the deal, risk and reward has been transferred to the customer. Hence, as per the derecognition criteria of IND AS 109, including transfer of substantially all risks and rewards relating to assets being transferred to the buyer being met, the assets have been derecognised. The table below summarises the carrying amount of the derecognised financial assets.

Under previous GAAP, retained interest receivable on loan assignment transactions were recognised over the period of such assigned loans. Under Ind AS, the gain arising on said transactions are recorded upfront by discounting the future cash flows accruing in the form of differential interest on such assigned loan to their present values.

Particulars	As at 31st March 2025	As at 31st March 2024
Carrying amount of derecognised financial assets	2,84,415.68	2,93,290.68
Gain/(loss) from derecognition	43,747.95	30,055.52

**Transferred financial assets that are not derecognised in their entirety**

The Group uses securitisations as a source of finance and a means of risk transfer. The Group securitised its microfinance loans to different entities. These entities are not related to the Group. Also, the Group neither holds any equity or other interest nor controls them.

As per the terms of the agreement, the Group is exposed to first loss amounting to 5% - 7% (5% - 7.5% as at March 31, 2024) of the amount securitised and therefore continues to be exposed to significant risk and rewards relating to the underlying gold and microfinance loans. These receivables are not derecognised and proceeds received are recorded as a financial liability under borrowings.

The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

Particulars	As at 31st March 2025	As at 31st March 2024
Carrying amount of assets re - recognised due to non transfer of assets	1,02,417.02	1,27,542.15
Carrying amount of associated liabilities	1,13,440.83	1,42,164.29

The carrying amount of above assets and liabilities is a reasonable approximation of fair value.

16 Derivative Financial Liability

The Group undertakes derivative transactions for hedging exposures relating to foreign exchange borrowings. The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts. The nominal amounts indicate the value of transactions outstanding as at the year end and are not indicative of either the market risks or credit risk.

Particulars	As at 31st March 2025		As at 31st March 2024	
	Notional amounts	Fair value liabilities	Notional amounts	Fair value liabilities
Currency Derivatives:				
Forward Contracts	1,83,418.74	716.50	72,148.77	239.65

Employee stock options outstanding	4,911.89	3,157.96
Other Comprehensive income	8,024.41	6,893.73
<b>Total</b>	<b>4,79,797.13</b>	<b>4,15,452.97</b>

24.1. Nature and purpose of reserve

**Securities Premium**

Securities premium is used to record the premium on issue of shares. This can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

**Statutory Reserve (Pursuant to Section 45-IC of the RBI Act 1934)**

Statutory Reserve represents the Reserve Fund created under Section 45-IC of the Reserve Bank of India Act, 1934.

**Statutory Reserve (Pursuant to Section 29C of the NHB Act 1987)**

Statutory reserve is created in terms of Section 29C of the National Housing Bank Act, 1987 read with Section 36(1)(viii) of the Income Tax Act, 1961.

**Retained Earnings**

This Reserve represents the cumulative profits of the Group. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

**General reserve**

Represents the profits or losses made by the Employee Welfare Trust on account of issue or sale of treasury stock and includes transfer of lapsed options.

**Employee stock options outstanding**

The account is used to recognise the grant date value of options issued to employees under Employee stock option plan and adjusted as and when such options are exercised or otherwise expire.

**Other comprehensive income**

Changes in the fair value of loan assets held with the business objective of collect and sell are recognised in other comprehensive income. These changes are accumulated within the FVOCI debt investments reserve within equity. The company transfers amounts from this reserve to the statement of profit and loss when the loan assets are sold. Any impairment loss on such loans are reclassified immediately to the statement of profit and loss. Other comprehensive income also consists of re-measurement of net defined benefit liability and fair value changes on equity instruments measured through other comprehensive income. It also includes effective portion of cash flow hedges representing the cumulative gains/(losses) arising on changes in fair value of the derivative instruments designated as cash flow hedges through OCI. The changes in the fair value of forward element of the forward contract on reporting date where deferred and retained in the cost of hedging reserve, also forms part of other comprehensive income.

Muthoot FinCorp Limited

<b>Total</b>	<b>164.53</b>	<b>130.30</b>

Above figures are exclusive of GST

**(b) CSR Expenditure**

As required under Section 135 of the Companies Act, 2013, the Group was required to spend INR 1,899.97 in the reporting year in pursuance of its Corporate Social Responsibility Policy, being two per cent of the average net profits made during the three immediately preceding financial years. The Group has during the year, spent a total of INR 1,184.34 towards CSR expenditure (including INR 340.88 out of earlier year unspent transferred to designated bank account). The unspent portion of INR 1,056.51 has been transferred to the designated bank account for Unspent Corporate Social Responsibility by the Group.

Particulars	For the Year Ended 31st March 2025	For the Year Ended 31st March 2024
(a) Amount required to be spent by the Group during the year	1,899.97	1,308.02
(b) Amount of expenditure incurred	843.46	651.28
(c) Shortfall at the end of the year	1,056.51	656.74
(d) Total of previous year shortfall	742.63	426.77
(e) Reason for shortfall	<p>The shortfall in CSR expenditure for FY 2024–25 is attributable to the phased execution of the Muthoot Center of Excellence, the company's flagship CSR project aimed at establishing a world-class integrated academic and sports institution.</p> <p>While significant progress was made during the year—including completion of the masterplan, utility design finalization, onboarding of academic and sports advisors, and early-stage program rollouts—the project requires multiple statutory approvals. These include environmental clearance from the Ministry of Environment &amp; Forests (MOEF), followed by additional regulatory approvals, all of which are at various stages of processing.</p> <p>Given the scale of the project, it has undergone rigorous planning and is progressing in a structured and timely manner. As a long-term transformational initiative, we remain fully committed to this dream project. The unspent amount is earmarked for this purpose and will be deployed as approvals are secured and implementation advances in the coming financial year.</p>	<p>To better serve the students, the project's scope was expanded from solely offering a sports facility for football, volleyball, cricket, and other sports to establishing a comprehensive sports academy. This academy will not only provide top-tier sports training but also include educational facilities where students can attend regular academic classes, all meeting international standards. This change was prompted by the unavailability of schools we initially planned to partner with. Groundwork at the site is underway, and we are currently updating the architectural plans to accommodate these enhanced specifications.</p>
(f) Nature of CSR activities	CSR activities were undertaken in the fields of Health, Education & Livelihood.	CSR activities were undertaken in the fields of Health, Education & Livelihood.
(g) Details of related party transactions	N/A	N/A
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	N/A	N/A

### 35 Earnings Per Share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Parent Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of Parent Company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the Year Ended 31st March 2025	For the Year Ended 31st March 2024
Net profit attributable to ordinary equity holders of the parent	71,093.28	88,493.87
Weighted average number of equity shares for basic earnings per share	19,37,12,314	19,37,05,560
Effect of dilution	75,99,074	74,92,507
Weighted average number of equity shares for diluted earnings per share	20,13,11,388	20,11,98,067
Earnings per share		
Basic earnings per share (INR)	36.70	45.68
Diluted earnings per share (INR)	35.32	43.98

A quantitative sensitivity analysis for significant assumptions as at March 31, 2025 and March 31, 2024 are as shown below:

Assumptions	Sensitivity Level	As at 31st March, 2025	As at 31st March, 2024
Discount Rate	Increase by 1%	6,707.16	5,494.32
Discount Rate	Decrease by 1%	7,454.17	6,138.94
Further Salary Increase	Increase by 1%	7,620.89	6,175.80
Further Salary Increase	Decrease by 1%	6,703.10	5,455.85
Employee turnover	Increase by 1%	7,181.55	5,844.24
Employee turnover	Decrease by 1%	7,070.10	5,736.17
Mortality Rate	Increase in expected lifetime by 1 year	7,111.01	5,785.88
Mortality Rate	Increase in expected lifetime by 1 years	7,106.60	5,812.51

1. The weighted average duration of the defined benefit obligation as at 31st March 2025 is 5 to 10 years (2024: 5 to 10 years).
2. Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.
3. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
4. The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:  
*The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.*  
*The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.*

**41 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

**Fair Value Hierarchy of assets and liabilities**

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 31st March 2025:

Particulars	At FVTPL

Loans	-	-	2,95,677.60	2,95,677.60

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

**Level 1:** Quoted prices (unadjusted) for identical instruments in an active market;

**Level 2:** Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

**Level 3:** Inputs which are not based on observable market data (unobservable inputs).

#### Fair value technique

##### Investments at fair value

The equity instruments which are actively traded on public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued on a case-by-case has been classified as Level 3.

**Investment at fair value through profit and loss**

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

For Investments in Security receipts (SRs), Net Asset Value is as certified by the issuer of Security Receipts. Accordingly, the fair valuation technique in this regard is classified under Level 3. The disclosure of the sensitivity of the fair value measurement to changes in unobservable inputs is not considered relevant.

**Financial Liabilities with significant unobservable inputs (Level 3)**

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at March 31, 2025		As at March 31, 2024	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(966.07)	993.71	(390.15)	401.26
Discount for Lack of Marketability	(604.31)	604.31	(249.27)	249.27

**Loan assets carried at fair value through other comprehensive income**

Loan receivables valuation is carried out for two portfolios segregated on the basis of repayment frequency – monthly and weekly. The valuation of each portfolio is done by discounting the aggregate future cash flows with risk-adjusted discounting rate for the remaining portfolio tenor. The discounting factor is applied assuming the cashflows will be evenly received in a month. The overdue cashflows upto 30days are considered in the sixth month and 31-90 days are considered in 12th month. For Stage 3 loans, the outstanding principal after applying LGD is considered in the 12th month cashflow.

Following inputs have been used to calculate the fair value of loans receivables:

- (i) Future cash flows: Include principal receivable, interest receivable and tenor information based on the repayment schedule agreed with the borrowers.
- (ii) Risk-adjusted discount rate: This rate has been arrived using the cost of funds approach.

The following inputs have been used:

- (i) Cost of funds
- (ii) Credit spread of borrowers
- (iii) Servicing cost of a financial asset

Loan portfolio	Fair valuation as at March 31, 2025	Fair valuation as at March 31, 2024
Monthly	4,42,607.53	2,33,664.61
Weekly	99,382.71	61,200.88
<b>Total</b>	<b>5,41,990.23</b>	<b>2,94,865.50</b>

Fair value measurement of Financial Assets sensitivity to significant unobservable inputs as at the end of each reporting period is as follows:

Particulars	Fair valuation as at March 31, 2025	Fair valuation as at March 31, 2024
<b>Impact on fair value if change in risk adjusted discount rate</b>		
- Impact due to increase of 0.50 %	(2,348.00)	(1,033.00)
- Impact due to decrease of 0.50 %	2,363.00	1,039.00
<b>Impact on fair value if change in probability of default (PD)</b>		
- Impact due to increase of 0.50 %	(1,211.00)	(501.00)
- Impact due to decrease of 0.50 %	1,215.00	503.00
<b>Impact on fair value if change in loss given default (LGD)</b>		
- Impact due to increase of 0.50 %	(86.00)	(18.00)
- Impact due to decrease of 0.50 %	86.00	18.00

Other financial liabilities	3	93,706.97	69,851.54	93,706.97	69,851.54
<b>Financial Liabilities</b>		<b>38,24,321.51</b>	<b>32,57,329.37</b>	<b>38,24,321.51</b>	<b>32,57,329.37</b>

**Valuation techniques**

**Short-term financial assets and liabilities**

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

**Loans and advances to customers**

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics ie, type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using Effective interest rate model that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost net of impairment loss allowance is of reasonable approximation of their fair value.

**Financial liability at amortised cost**

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

**42 Segment Reporting**

The Board of Directors and the Managing Director of the Company together constitute the Chief Operating Decision Maker ("CODM"). Operating segment are components of the Group whose operating results are regularly reviewed by the CODM to make decisions about resources to be allocated to the segment and assess its performance and for which The Group is engaged primarily on the business of "Financing" only, taking into account the risks and returns, the organization structure and the internal reporting systems. All the operations of the Group are in India. All non-current assets of the Group are located in India. Accordingly, there are no separate reportable segments as per Ind AS 108 –

**43 Change in liabilities arising from financing activities**

**44 Risk Management**

The Group's principal financial liabilities comprise of borrowings including debt securities, subordinated liabilities as well as trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's principal financial assets include loans, investments, cash and cash equivalents, trade receivables and other receivables that derive directly from its operations.

Predominantly comprising of lending institutions, the Group is exposed to various risks that are related to lending business and operating environment. The principal objective in Group's risk management processes is to measure and monitor the various risks that Group is subject to and to follow policies and procedures to address such risks.

The Risk Management Committee of the Board of Directors constituted in accordance with the RBI directives has overall responsibility for overseeing the implementation of the risk management policy. The committee meets quarterly to review the Risk Management practices and working of the Enterprise Risk Management Department. The Committee consists of members of the Board including the Managing Director and is chaired by an Independent Director. The Enterprise Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Enterprise Risk Management department.

The Group has implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the Group. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Group has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

The major type of risk Group faces in business are credit risk, liquidity risk, market risk and operational risk.

**I) Credit Risk**

Credit risk is the risk that a customer or counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's major income generating activities include gold loan, sme loans, housing loan, microfinance loan, personal loans and others.

The Group addresses credit risk through following major processes:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio monitoring
- Design appropriate credit risk mitigation techniques
- Structured and standardised credit approval process
- Verification of credit history from credit bureau agencies, personal verification of customers business and residence
- Technical and Legal Verification
- Comprehensive credit risk assessment and cash flow analysis

In order to mitigate the impact of credit risk in the future profitability, the Group makes reserves basis the expected credit loss (ECL model) for the outstanding loans.

**A) Impairment Assessment**

The Group's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of material accounting policies.

**Definition of default and cure**

The Group considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

The Group considers a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage I
Standard grade	1-30 DPD	Stage I
Sub-standard grade	31-60 DPD	Stage II
Past due but not impaired	61-89 DPD	Stage II
Individually impaired	90 DPD or More	Stage III

#### *Exposure at Default (EAD)*

The outstanding balance as at the reporting date is considered as EAD by the Group.

#### *Probability of default (PD)*

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Group assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. Where a particular portfolio is relatively new, the published average default probability for similar loans from a leading credit bureau report on lending in India has been considered. PD is calculated using Incremental 90 day DPD approach considering fresh slippage using historical information.

#### *Loss Given Default (LGD)*

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Group expects to receive.

LGD Rates have been computed internally based on the discounted recoveries in NPA accounts that are closed/ written off/ repossessed and upgraded during the year.

When estimating ECLs on a collective basis for a group of similar assets, the Group applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

#### *Significant Increase in credit risk*

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

#### *Management Overlay*

During the year ended March 31, 2025, Muthoot Microfin Limited has created a management overlay of INR 22,965.31 (March 31, 2024 : Nil) in view of the many challenges faced by the microfinance sector during the financial year 2024-25. The overall market conditions are improving but has impacted the portfolio quality and performance. Following are the major factors contributed to the impacts.

##### **Industry level challenges:**

We witnessed a rapid industry growth post-pandemic recovery which has led to over-heating in the segment. Increased competition among MFIs for market share has caused stress on lending practices and risk management. This has resulted in increased leverage among the Microfinance lenders in terms of portfolio outstanding and number of lenders. Isolated political movements and local unrest have disrupted normal economic activities in certain regions. We have seen revival of Karza Mukthi related activities which led to prolonged financial instability in affected areas. Centre and borrower disciplines are taking time to fall in place, leading to higher time consumption for regular collections. MFIs are focusing on collections to reduce delinquency rates, further limiting new loan disbursements. This has impacted the credit availability among the borrowers, which disrupted the customer cash flows resulting in challenges in maintaining repayments. Self-Regulatory Organizations (SROs) have implemented guardrails to control the delinquency situation and aggressive lending practices in sector. This has brought in necessary discipline in the sector.

##### **Karnataka Crisis:**

The microfinance sector in Karnataka has been affected by The Karnataka Micro Loan and Small Loan (Prevention of Coercive Actions) Ordinance, 2025, an initiative by the state government. The act is to prevent un-registered money lenders in the state and against coercive collection practices. The act is expected to help the MFI Industry and registered regulated entities on a long-term basis but had made disruptions in the short term. This has contributed to fluctuations in portfolio performance; though the same peaked in February 2025, the same is currently getting resolved gradually with improved portfolio performance in March 2025.

## **II) Liquidity risk**

#### *Asset Liability Management (ALM)*

Liquidity risk refers to the risk that the Group may not meet its financial obligations. Liquidity risk arises due to the unavailability of adequate funds at an appropriate cost or tenure. The objective of liquidity risk management, is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group consistently generates sufficient cash flows from operating and financial activities to meet its financial obligations as and when they fall due. The Group's treasury teams source funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. They are responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below shows the maturity pattern of the assets and liabilities:

*Maturity pattern of assets and liabilities as on 31st March 2025:*

Particulars	Upto 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
Cash and cash equivalents	3,14,125.31	52,068.18	9,311.56	765.93	4,938.81	9.06	-	-	3,81,218.85

### III) Market risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Group is exposed to two types of market risk as follows:

#### Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings, debt securities and subordinate liabilities are as follows:

Particulars	31st March 2025	31st March 2024
<b>On Borrowings</b>		
1% increase	(27,055.42)	(21,794.35)
1% decrease	27,055.42	21,794.35

Particulars	31st March 2025	31st March 2024

1% increase	(2,250.39)	(2,209.88)
1% decrease	2,250.39	2,209.88

#### Price risk

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified at FVTPL and FVOCI respectively".

A 10% increase/(decrease) in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/ (Decrease) in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensiv e Income
As at March 31, 2025	10/(10)	502.07 / (502.07)	346.19 / (346.19)
As at March 31, 2024	10/(10)	420.39 / (420.39)	405.78 / (405.78)

#### Foreign currency risk

Foreign currency risk is the risk that the value of the financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency risk for the Group arises majorly on account of foreign currency borrowings. The Group has hedged its foreign currency risk on its foreign currency borrowings by entering into forward contracts and cross currency interest rate swaps. The counterparties for such hedge transactions are banks. The Group's exposure on account of Foreign Currency Borrowings at the end of the reporting period is as follows:

Particulars	March 31, 2025		March 31, 2024	
	Amount in USD	Amount in INR	Amount in USD	Amount in INR
Foreign currency borrowings	4,646.08	3,97,387.65	1,455.82	1,21,346.81

Since the foreign currency exposure is completely hedged by equivalent derivative instrument, there will not be any significant impact on sensitivity analysis due to the possible change in the exchange rates where all the variables are held constant. On the date of maturity of the derivative instrument, the sensitivity of profit and loss to changes in the exchange rates will be nil.

**Prepayment risk**

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

**Operational and business risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

Date of grant & dates of approval of the committee	August 30, 2022 (approved on July 19, 2022)
No. of employees to whom such options were granted	796
Number of options granted	26,43,974
Method of settlement	Equity
Vesting conditions	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<p><b>For ESOP Scheme II &amp; IV, 2018</b>  Option will be vested at the  End of year 1 from grant date : 20%  End of year 2 from grant date : 30%  End of year 3 from grant date : 50%</p> <p><b>For ESOP Scheme V, 2018</b>  Option will be vested at the  End of year 1 from grant date : 33.33%  End of year 2 from grant date : 33.33%  End of year 3 from grant date : 33.33%</p> <p><b>For ESOP Scheme III, 2018</b>  Option will be vested at the  End of year 3 from grant date : 100%</p> <p><b>For ESOP Scheme VI, 2018</b>  Option will be vested at the  End of year 1 from grant date : 50%  End of year 2 from grant date : 50%</p> <p><b>For ESOP Scheme, 2018</b>  (i) Option will be vested at the:  End of year 1 from grant date : 20%  End of year 2 from grant date : 30%  End of year 3 from grant date : 50%  (ii) Option will be vested at the:  End of year 1 from grant date : 100%</p>
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00
Exercise period	The options can be exercised over a period of 10 years from the date of grant
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in Options:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
No. of Options:		
Outstanding at the beginning of the year	21,98,506	7,87,919
Granted during the year	2,66,465	15,12,943
Vested during the year	2,71,806	1,90,156
Exercised during the year (pending allotment)	64,795	7,902
Lapsed during the year	2,468	-
Forfeited during the year*	2,26,376	94,454
Outstanding at the end of year	21,71,332	21,98,506
Unvested at the end of year	17,04,448	20,06,648
Exercisable at the end of year	4,26,297	1,82,254
Money realized by exercise of options (INR)	64.80	7.90

\* Due to employee separations and non fulfillment of vesting conditions post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
Weighted average option fair value (Amount in INR)	218.17	214.20
Market price (Amount in INR)	379.75	309.63
Exercise price (Amount in INR)	100.00	100.00
Expected volatility of share price (%) *	40.00% - 43.20%	40.50% - 43.20%
Option Life (years)	5.50 to 6.51 years	5.51 to 6.51 years
Expected dividends yield (%)	1.51% to 3.22%	-
Risk free interest rate (%)	6.64% to 7.31%	7.07% to 7.31%

\*The expected price volatility is determined using annualized standard deviation (a measure of volatility used in Black-Scholes-Merton option pricing) and the historic volatility based on remaining life of the options

#### 45.1.2. Employee Stock Appreciation Plan

(i) The particulars on the Stock Appreciation Plan are as follows:

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018 December 18, 2024
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant & dates of approval of the committee	August 30, 2022 (approved on July 19, 2022)
No. of employees to whom such SAR were granted	2,393
Number of SAR granted	13,28,119
Method of settlement	Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise, performance based parameters and such other conditions as mentioned in the SAR Scheme.
Vesting period	<p><b>For SAR Scheme Scheme II &amp; III, 2018</b> SAR will be vested at the End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%</p> <p><b>MFL Employee stock Appreciation Right Plan 2018</b> SAR will be vested at the End of year 1 from grant date : 50% End of year 2 from grant date : 50%</p>
Exercise Price (Amount in INR)	225.00
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in SAR Options:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
No. of SAR:		
Outstanding at the beginning of the year	9,73,416.00	11,63,592.00
Granted during the year	42,287	42,537
Vested during the year	3,81,610.00	1,96,703.00
Exercised during the year	2,70,451.00	1,95,721.00
Lapsed during the year	-	-
Forfeited during the year*	2,07,501	36,992
Outstanding at the end of year	5,37,751	9,73,416
Unvested at the end of year	5,37,751	9,73,416
Exercisable at the end of year	-	-

\* Due to employee separations and non fulfillment of vesting conditions post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
Weighted average option fair value (Amount in INR)	158.94	63.18
Market price (Amount in INR)	379.75	309.63

#### 45.2. MUTHOOT HOUSING FINANCE COMPANY LIMITED

Muthoot Housing Finance Company Limited (MHFL) has formulated and implemented MHFL Employee Stock Option Plan 2019 ('ESOP 2019') at its EGM held on 7th June 2019 which provides grants up to 13,28,766 (Thirteen Lakh Twenty Eight Thousand Seven Hundred and Sixty Six) employee stock options to the eligible employees of the Company, determined in terms of ESOP 2019, from time to time, in one or more tranches. In accordance with the ESOP 2019, each option on exercise would be eligible for one Equity Share on payment of the exercise price. As on 31 March, 2025, no options granted under ESOP Scheme 2019 have been exercised.

##### GRANT 1

The Company had granted 11,54,380 options on 19 November 2019 at an exercise price of Rs. 43 per option representing 11,54,380 equity shares of Rs. 10 each to the employees of the Company to be settled in equity of the Company. The options would vest over a period of 1-4 years from the date of grant, but not later than 19 November 2023, depending upon options grantee completing continuous service with the Company. The options can be exercised over a period of 10 years from the date of grant.

##### GRANT 2

Under Grant 2 under ESOP Scheme 2019, the Company had granted 3,70,000 options on 01 September 2023 at an exercise price of Rs. 59 per option representing 3,70,000 equity shares of Rs. 10 each to the employees of the Company to be settled in equity of the Company. The options would vest over a period of 1-4 years from the date of grant, but not later than 01 September 2027, depending upon options grantee completing continuous service with the Company. During the current year, 74,000 options were vested and 66,400 options lapsed.

##### GRANT 3

Under Grant 3 under ESOP Scheme 2019, the Company had granted 45,000 options on 06 February 2024 at an exercise price of Rs. 59 per option representing 45,000 equity shares of Rs. 10 each to the employees of the Company to be settled in equity of the Company. The options would vest over a period of 1-4 years from the date of grant, but not later than 06 February 2028, depending upon options grantee completing continuous service with the Company. During the current year, 9,000 options were vested and no options lapsed.

##### 45.2.1 Movement during the year in Options

Particulars	Year ended 31 March 2025	Year ended 31 March 2024
No. of Shares :		
Outstanding at the beginning of the year	13,27,380	9,47,880
Granted during the year	-	4,15,000
Vested during the year	83,000	2,07,345
Exercised during the year	-	-
Lapsed during the year	66,400	35,500
Outstanding at the end of year	12,60,980	13,27,380
Unvested at the end of year	2,65,600	4,15,000
Exercisable at the end of year	9,95,380	9,12,380

##### 45.2.2 The fair value of options have been estimated on the date of grant using Black-Scholes model as under :

Particulars	GRANT 1	GRANT 2	GRANT 3
Weighted average share price (in Rs.)	43.00	58.16	58.16
Exercise price (in Rs.)	43.00	59.00	59.00
Weighted average fair value of the option	20.47	31.19	31.18
Expected volatility of share price	34.74% to 35.15%	42.43% to 44.01%	42.07% to 44.24%
Expected option life (in years)	5.51 to 7.01 years	5.51 to 7.01 years	5.51 to 7.01 years
Expected growth in dividend (p.a.)	-	-	-
Risk free interest rate (p.a.)	6.28% to 6.52%	7.06% to 7.07%	7.01% to 7.02%

Volatility has been calculated based on the daily closing market price of comparable companies.

## INDEPENDENT AUDITOR'S REPORT

To,  
The members of **MUTHOOT FINCORP LIMITED**,  
Report on the Audit of the Standalone Ind AS Financial Statements

### Opinion

We have audited the accompanying Standalone Ind AS financial statements of **MUTHOOT FINCORP LIMITED ("the Company")**, which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of cash flows for the year ended on that date and notes to the Ind AS Financial Statements, including a summary of material accounting policies and other explanatory information. ["Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Ind AS Financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS Financial Statements.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS Financial Statements of the current

period. These matters were addressed in the context of our audit of the Standalone Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
a) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.	We have accessed the laid down systems and processes of the Company in identifying related party transactions and its ultimate disclosure in financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.
b) Effectiveness of IT Systems and related controls.	Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be misstated in case of any control lapses in the IT system related controls. We have designed our audit procedures in accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems on a sample basis which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the

	controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password protection, external software/ hardware access rights etc. We have also considered and reviewed the information system audit reports and internal audit reports to confirm the controls existing. Based on our sample review, no material weakness was identified in the IT related systems and controls.
c) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.	At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapse in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have conducted physical visits to key branches and centre processing hub of the company which are considered top based on the significant gold loan and unsecured loan portfolio to identify and evaluate the effectiveness of controls in place. We have also tested on a sample basis the independent financial records maintained at the branch level and how the same is considered and incorporated in the financial statements. We have also assessed and analyzed the internal audit reports and how the major observations are dealt with and its impact on the entity's financial accounting and reporting records. Based on our sample review, no major weaknesses were identified.
d) Computation of provision towards impairment of loan assets. As at 31st March 2025, the Company had reported a total impairment loss allowance of Rs. 27,943.01 lakhs (31st March 2024 – Rs. 29,729.05 lakhs)	The audit procedures performed, among others, included: <ul style="list-style-type: none"> <li>Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> </ul>

<p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>• Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>• Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<ul style="list-style-type: none"> <li>• Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>• Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements, reviewing loan ledgers and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul>
---	---

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Ind AS Financial statements, Standalone Ind AS Financial statements and our Auditor's Report thereon. Our opinion on the Standalone Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with

the Standalone Ind AS Financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

### **Responsibilities of Management and those charged with governance for the standalone Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Ind AS Financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS Financial Statements, including the disclosures, and whether the Standalone Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Ind AS Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our

work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Ind AS Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143 (3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
  - d) In our opinion, the aforesaid Standalone Ind AS Financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015 as amended.
  - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
  - f) The modifications relating to the maintenance of accounts and other matters connected therewith in respect of audit trail are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014

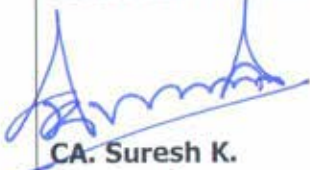

- g) With respect to the adequacy of the internal financial controls with reference to Standalone Ind AS Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure A"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls with reference to Standalone Ind AS Financial Statements.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanation given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- The company has disclosed the impact of pending litigations on its financial position in its Standalone Ind AS Financial Statements.
  - The company has made provision as required under applicable law or accounting standards for material foreseeable losses, if any, on long term contracts including derivative contracts.
  - There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the company.
  - a) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note 51 to the Standalone Ind AS Financial Statements, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;  
b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.
- vi. Based on our examination which included test checks and as represented by the company, the Company has used an accounting software for maintaining its books of accounts for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Companies Act 2013, we give in the **Annexure "B"** a statement on the matters specified in paragraphs 3 and 4 of the Order.

## **ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT**

**Referred to in paragraph 1(f) under 'Report on other legal and regulatory requirements' of the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Standalone Ind AS Financial Statements**

### **REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")**

We have audited the internal financial controls with reference to Standalone Ind AS financial statements of Muthoot Fincorp Limited ("the Company"), as of 31st March 2025, in conjunction with our audit of the Standalone Ind AS Financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") Standards on Auditing, both issued by the ICAI and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls with reference to Standalone Ind AS financial statements and such internal financial controls with reference to Standalone Ind AS financial statements were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT

**Annexure referred to in Paragraph 2 under the heading 'Report on other Legal and Regulatory Requirements in the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Standalone Ind AS Financial Statements as of and for the year ended 31<sup>st</sup> March 2025.**

1. Property, Plant and Equipment
  - a) In respect of the Company's property, plant and equipment, right-of-use assets and intangible assets:
    - i. The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.
    - ii. The Company has maintained proper records showing full particulars of intangible assets.
    - iii. The Company is in the process of automation of its PPE register using FARMS software and the work is in progress, as informed to us.
  - b) As informed to us, fixed assets have been physically verified by the management on a periodic basis during the course of internal branch audit conducted during the year. Since there is a regular programme of verification, we are of the opinion that it is reasonable having regard to the size of the company and the nature of its assets. We have been informed that there have been no material discrepancies during such verification.
  - c) In our opinion and according to the information and explanations given to us, the title deeds of immovable property included in Property, Plant and Equipment and in Investment Property are held in the name of the Company.
  - d) In our opinion and according to the information and explanations given to us, the Company has not revalued any of its property, plant and equipment (including right-of-use assets) and intangible assets during the year.
  - e) As informed to us, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
2. Inventory and Working Capital:
  - a) The Company does not hold any inventory. Accordingly, the provisions stated under clause 3(ii) (a) of the Order are not applicable to the Company.
  - b) In our opinion and according to the information and explanations given to us, the Company has obtained Working Capital Limits in excess of Rs 5 Crores in aggregate from banks and financial Institutions and the quarterly return/statement filed by the Company with such banks or financial Institutions are in agreement with the books of accounts.

3. The company is a Non – Deposit taking Non-Banking Financial Company (NBFC) registered with the Reserve Bank of India. During the year, the company has made investments and in the ordinary course of business granted loans and advances in the nature of secured and unsecured loans to companies, firms, LLPs and other parties. With respect to such Investment and Loans and Advances :
- a) As the principal business of the company is to give loans, paragraph 3(iii)(a) of the Order is not applicable to the Company.
  - b) In our opinion, the terms and conditions of the grant of such loans are, prima facie, not prejudicial to the Interests of the Company.
  - c) In respect of loans granted by the company, the schedule of repayment of principal and payment of interest have been stipulated. Being a non-banking finance company engaged in the business of granting loans, there are instances of irregularities in repayment of principal amount and receipt of interest as per stipulated terms. Having regard to the nature of business undertaken by the company, specific details of irregularities are not reported although the particulars of overdue for more than ninety days as per books of accounts as at the Balance Sheet date has been reported in para (d) below.
  - d) In respect of the loans/ advances in nature of loans, the total amount overdue for more than ninety days as at March 31, 2025 is Rs. 51,643.51 lakhs. In such instances, in our opinion, based on information and explanations provided to us, reasonable steps have been taken by the Company for the recovery of the principal amounts and the interest thereon.
  - e) The provisions of paragraph 3(iii)(e) of the Order are not applicable to the company, as its principal business is to give loans.
  - f) The company has not granted any loans or advances in the nature of loans that were either repayable on demand or without specifying any terms or period of repayment.
4. In our opinion, in respect of loans, investments, guarantees, and security, the company has complied with the provisions of section 185 and 186 of the Act.
5. In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from the public within the meaning of sections 73 to 76 of the Act and rules framed thereunder to the extent notified.
6. The Government of India has not prescribed the maintenance of cost records under sub- section (1) of section 148 of the Act for any of the activities of the company and hence the provisions of this section are not applicable to the Company for the year under review.

7. In respect of statutory dues:

- a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales- tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues have been generally regularly deposited during the year by the company with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues were in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us and the records of the company examined by us, the particulars of statutory dues as at 31st March 2025 which have not been deposited on account of dispute are as follows:

Name of the Statute	Nature of dues	Period to which the amount relates (Financial Year)	Amount (in Lakhs)	Forum where dispute is pending

GST	Excess ITC claimed by the Company.	2019-20	4.48	Appellate Authority, West Bengal

8. In our opinion and according to information and explanations given to us, there are no instances of transactions not recorded in the books of accounts subsequently surrendered as income, in Tax assessments.

9. Repayment of Borrowings

- a) According to the records of the company examined by us and the information and explanations given to us, the company has not defaulted in repayment of dues to any financial institution or bank as at the balance sheet date.

With regard to debentures, there are unpaid debentures that are matured to the tune of Rs.2,500.42 lakhs as on 31.03.2025, out of which Rs.1,747.33 lakhs corresponds to the principal portion and Rs.753.09 lakhs to interest. As explained to us, these are not settled since the investors have not approached the Company with the original investment documents for redemption.

- b) As per the information and explanation given to us, the Company has not been declared as a wilful defaulter by any bank or financial institution or other lender.
- c) According to the information and explanations given by us, term loans taken by the Company from financial institutions are applied for the purpose for which they were obtained.
- d) According to the information and explanations given by us, funds raised on short term basis have not been utilized for long term purposes.
- e) According to the information and explanations given by us, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- f) According to the information and explanations given by us, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

10. a) According to the information and explanations given to us, and on examination of records of the Company, the Company has during the year raised

funds through public issue of Non-Convertible Debentures of Rs. 1,41,588.42 lakhs that were utilized for the purposes for which they were raised.

b) According to the information and explanations given to us, and on examination of records of the Company, the company has made issue of Cumulative, Compulsorily Convertible Preference Shares on Preferential allotment basis of Rs.25,000 lakhs during the year. According to the information and explanations given to us, and on examination of records of the Company, the requirements of the provisions of section 42 and 62 of the Companies Act 2013 have been complied with in this regard and the funds are utilised for the purposes for which they were raised.

**11. Fraud and Whistle-blower Complaints**

- a) According to the information and explanations given to us, and on examination of records of the Company, instances of whistle-blower complaints were raised on various occasions during the year and appropriate actions were taken against those complaints.
- b) No report u/s 143(12) of the Act has been filed in Form ADT-4 regarding any frauds, as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with Central Government, during the year and up to the date of this report.
- c) We have taken into consideration the whistle blower complaints received by the Company during the year (and up to the date of this report) while determining the nature, timing and extent of our audit procedures.

**12. The Company is not a Nidhi Company. Accordingly, the provisions stated under clause 3(xii)(a) to (c) of the Order are not applicable to the Company.**

**13. According to the information and explanations given to us and based on our examination of the records of the company, transactions with the related parties are in compliance with section 177 and 188 of the Act. Where applicable, the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.**

**14. a) In our opinion, the Company has an internal audit system commensurate with the nature and size of the Company's business. Also, the comments of the Internal auditors in their report are considered by us in framing an opinion on the financial statements.**

**b) We have considered internal audit reports issued by internal auditors during our audit in accordance with the guidance provided in SA 610 – 'Using the work of Internal Auditors'.**

15. According to the information and explanations given to us, in our opinion, during the year, the Company has not entered into any non-cash transactions with directors or persons connected with its directors and accordingly, the reporting on compliance with the provisions of Section 192 of the Companies Act, 2013 in clause 3(xv) of the Order is not applicable to the Company.
- 16.(a) The Company being a Non-Banking Financial Company is required to be registered and has obtained the Certificate of Registration as provided under sec 45 IA of The Reserve Bank of India Act 1934.
- (b) The Company has a valid Certificate of Registration (CoR) from the Reserve Bank of India (RBI) for conducting Non-Banking Financial activities and no business has been conducted by the Company without a valid CoR.
- (c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence the reporting requirement under clause (xvi) (c) of para 3 of the Order are not applicable to the company.
- (d) As informed to us, the group does not have CIC. Accordingly, reporting on paragraph 3(xvi)(d) of the Order is not applicable.
17. The company has not incurred any cash losses in the financial year under audit and in the immediately preceding financial year.
18. There has been no resignation of the statutory auditors during the financial year covered by our audit and hence the reporting requirement under clause (xviii) of para 3 of the Order is not applicable.
19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the Standalone Ind AS Financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

20. (a) According to the information and explanation given to us and the records of the company examined by us, there are no unspent amounts towards corporate social responsibility other than ongoing projects requiring a transfer to a fund specified in schedule VII to the Act in compliance with the second proviso to sub section (5) of Section 135 of the said Act.

(b) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has transferred unspent amount under sub section 5 of section 135 of the Companies Act, pursuant to ongoing projects to a special account in compliance with the provision of section 135(6) of the Companies Act.

## **Muthoot FinCorp Limited**

### **Notes forming part of Financial Statements**

#### **Summary of material accounting policies and other explanatory information**

##### **1. Corporate Information**

Muthoot FinCorp Limited, ('MFL' or 'the Company'), is a public limited company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. Based on the RBI notification RBI/2021-22/112 DOR.CRE.REC.No.60/03.10.001/2021-22, dated October 22, 2021, the Company is classified as NBFC - Middle Layer (NBFC-ML) under the Scale Based Regulation for Non-Banking Financial Companies. The company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and was earlier classified as a Non Deposit Taking Systematically Important Loan Company (NDSI).

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold Loans, SME Loans, Personal Loans and Loans against Property through its branch network across India. The company also offers Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The company is engaged in real estate business to a very limited extent. The Company has secured a corporate agent license on January 16, 2025 from the Insurance Regulatory and Development Authority of India (IRDAI) with Registration Number – CA1017.

MFL is the parent company of Muthoot Microfin Limited, Muthoot Housing Finance Company Limited and Muthoot Pappachan Technologies Limited.

The Company's registered office is at Muthoot Centre, TC No 27/ 3022 Pumen Road, Thiruvananthapuram, Kerala, India, 695001.

The Registration details of the Company are as follows:

Reserve Bank of India Registration no.: N - 16.00170

Corporate Identity Number (CIN): U65929KL1997PLC011518

##### **2. Basis of preparation**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs.

### **Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVOCI) or at fair value through statement of profit or loss (FVTPL)
- ii) Investments which are held for trading
- iii) Defined benefit plans.
- iv) Cumulative, Compulsorily Convertible Preference Shares issued at Fair Value through profit or loss (FVTPL)
- v) Derivative Financial Liability

### **Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Company and the currency of the primary economic environment in which the Company operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

### **3. Material accounting policies**

#### **3.1 Recognition of interest income**

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets. Interest income is not recognized on credit impaired assets.

#### **3.2 Recognition of revenue from sale of goods and services**

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

#### **3.2.1 Dividend income**

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

#### **3.2.2 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

#### **3.2.3 Fees and commission income**

Fees and commission income such as service charges, commission from fee based business lines, service income etc. are recognised on point in time basis.

#### **3.2.4 Net gain / loss on fair value changes**

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognises gains / losses on fair value change of financial assets measured at FVTPL on net basis.

#### **3.2.5 Net gain on derecognition of financial instruments**

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the excess interest spread (EIS). In accordance with Ind AS 109 and as per management practice, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognized from the Balance Sheet immediately upon execution of such transaction. Further, where the transfer of financial asset qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as receivable towards assignment transactions and correspondingly recognized as gain on derecognition of financial asset. A provision is recognised against receivables towards assignment transactions in accordance with the Board approved policy.

### **3.3 Financial instruments**

#### **1.1.1. Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on settlement date. The Company recognises debt securities and borrowings when funds reach the Company, post allotment if applicable.

### 1.1.2. Initial and subsequent measurement of financial instruments

The Company classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI)
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
4. Equity instruments in subsidiary companies at cost
5. Equity instruments measured at fair value through other comprehensive income FVTOCI

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

#### Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

#### The SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Company classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

### 1.1.3. Financial assets measured at amortised cost

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

### 1.1.4. Financial assets measured at fair value through other comprehensive income

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVTOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

### 1.1.5. Financial instrument measured at fair value through profit or loss

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Company's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

### 1.1.6. Equity instruments

The Company subsequently measures investment in equity investments at fair value through profit or loss, unless the Company's management has elected to classify irrevocably some of its equity investments as equity instruments at FVTOCI, when such instruments meet the definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified as FVTOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI.

### 3.3.1 Financial Liabilities

#### Initial Measurement

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

#### Subsequent Measurement

Financial liabilities except cumulative compulsorily convertible preference shares and derivative financial liability, are subsequently carried at amortized cost using the effective interest method.

### 3.4 Derecognition of financial assets and liabilities

#### 3.4.1 Financial Asset

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- a) The Company has transferred its contractual rights to receive cash flows from the financial asset
- or
- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- ▶ The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- ▶ The Company cannot sell or pledge the original asset other than as security to the eventual recipients
- ▶ The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- ▶ The Company has transferred substantially all the risks and rewards of the asset or,
- ▶ The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

- The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

### 3.4.2 Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

### 3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and/or its counter parties.

### 3.6 Impairment of financial assets

#### 3.6.1 Overview of the Expected Credit Loss (ECL) principles

The Company has created provisions on all financial assets wherever required, except for financial assets classified as FVTPL, based on the expected credit loss method.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company categorises its loans into three stages as described below:

#### For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.

- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Company recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

#### For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Company recognises lifetime ECL for impaired financial instruments.

### **3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Company uses historical information where available to determine PD. Considering the different products, schemes, ticket size, loan to value and geographies, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information. Where historical information is not available for arriving at reasonable default probability, published probability of default for similar loan segments are used by the Company.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

**Loss Given Default (LGD)** - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. The Company uses computed discounted recoveries in NPA accounts that are closed during the year where historical information is available and uses Foundational Internal Ratings Based approach (FIRB) norms in the absence of sufficient historical trends.

#### **Forward looking information**

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

#### **Write-offs**

Loans and other assets are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

#### **Collateral**

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as gold, securities, stock, current asset etc. However, the fair value of collateral affects the calculation of ECL. The fair value of the same is based on data provided by third party or management judgements.

### Impairment of Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

### 3.7 Determination of fair value

The Company measures financial instruments, such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

**Level 1 financial instruments** – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

**Level 2 financial instruments** – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

**Level 3 financial instruments** – Those that include one or more unobservable input that is significant to the measurement as whole.

### 3.8 Foreign Currency translation

Transactions in foreign currencies, if any, are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

### 3.9 Derivative Financial Liability

The company enters into derivative financial instruments such as foreign exchange forward contracts and cross currency interest rate swaps to manage its exposure to foreign exchange rate risk. Derivatives are recognized at fair value and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedge relationship.

### 3.10 Finance cost

Finance costs represents Interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees including upfront costs incurred in relation to borrowings, commissions payable to advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability. Interest accrued on lease liability recognized and measured in accordance with Ind AS 116 "Leases" also forms part of Finance cost.

### 3.11 Other income and expenses

All Other income and expense are recognized in the period they occur.

### 3.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash, forex balances and short-term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the Company's cash management.

### 3.13 Property, plant and equipment

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

#### 3.13.1 Depreciation

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 on Straight Line Method. The estimated useful lives are as follows:

Particulars	Useful life
Building	60 years
Computer	3 years
Furniture and Fixtures	5 to 30 years
Plant and Equipment	5 to 20 years
Vehicles	5 to 8 years
Windmill	22 years
Office equipment	15 years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

### 3.14 Intangible assets

The Company's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised using the Written down value method to write down the cost of intangible assets to their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on a Written down value basis over a period of 3 years keeping residual value 5%.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

### 3.15 Investment Property

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs, borrowing cost and other directly attributable cost in bringing the asset to its working condition for its intended use. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period.

The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

### 3.16 Impairment of non-financial assets

The Company's assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

### 3.17 Post-employment benefits

#### 3.17.1 Defined contribution schemes

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The company has no obligation, other than the contribution payable under the schemes. The company recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

#### 3.17.2 Defined Benefit schemes

##### *Gratuity*

The Company provides for gratuity covering eligible employees under which a lumpsum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Company makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

##### *Other long-term employee benefits*

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Statement of Profit and Loss. The Company presents the provision for compensated absences under provisions in the Balance Sheet.

#### 3.17.3 Employee Stock Option & Employee Stock Appreciation Right

The Company has formulated its Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in Other Equity and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding

increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest.

### 3.18 Provisions

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

### 3.19 Taxes

Income tax expense represents the sum of current tax and deferred tax.

#### 3.18.1 Current Tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### 3.18.2 Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax relating to items recognised outside profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

### 3.18.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from and / or payable to, the taxation authority is included as part of receivables or payables respectively in the balance sheet.

### 3.20 Contingent Liabilities and assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The company does not have any contingent assets in the financial statements.

### 3.21 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

### 3.22 Dividends on ordinary shares

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

### 3.23 Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

#### *Company as a lessee*

The Company's lease asset class consist of building and equipment. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company has, at the date of transition, recognized a right-of use asset and a corresponding lease liability for all active lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are recognized at cost, which comprises the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

#### *Company as a lessor*

Leases where the Company does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

### 3.24 Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

## 4 Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

### 4.1 Business Model Assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is

evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

#### 4.2 Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### 4.3 Fair value measurement:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### 4.4 Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances. It has been the Company's policy to regularly review its models in the context of actual loss experience, regulatory advisories, market conditions and forecasts and revise when necessary.

#### 4.5 Effective Interest Rate (EIR) method

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### 4.6 Provisions

At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

#### 4.7 Other estimates:

These include contingent liabilities, useful lives of tangible and intangible assets etc.

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2025

(Rupees in lakhs, except for share data and unless otherwise stated)

#### 5 Cash and cash equivalents

Particulars	As at 31st March 2025	As at 31st March 2024
Cash on hand	11,284.74	8,195.84
Balances with Banks		
- in current accounts	1,50,705.46	83,955.65
- in deposit accounts having original maturity less than three months*	1,33,039.32	35,266.24
Others		
- Foreign currency balances	1,143.82	418.11
<b>Total</b>	<b>2,96,173.34</b>	<b>1,27,835.84</b>

\* Includes earmarked balances of INR 2,946.45 as at 31st March 2025 (31st March 2024 - INR 3,527.93) towards bank guarantee & debenture redemption reserve.

#### 6 Bank Balance other than above

Particulars	As at 31st March 2025	As at 31st March 2024
Deposit with original maturity for more than three months but less than twelve months*	12,201.34	6,221.76
Balance with Banks in escrow accounts	15,168.82	7,608.14
<b>Total</b>	<b>27,370.16</b>	<b>13,829.91</b>

\* Includes earmarked balances of INR 11,762.91 as at 31st March 2025 (31st March 2024 - INR 6,118.86) towards margin money, security, debenture redemption reserve & staff security deposits.

#### 7 Receivables

The Company has continued its co-lending arrangements with banks for Gold loans. A total disbursement of INR 14,60,708.29 (31st March, 2024 - INR 2,60,287.10) was undertaken during the year under the Co-lending mechanism. As at 31st March, 2025, the total managed assets under the Co-lending mechanism amounted to INR 6,65,030.09 (INR 98,220.05 as at 31st March, 2024).

The Company did not undertake any securitisation transactions during the year (March 31, 2024 : Nil).

### Credit Quality of Assets

The table below shows the credit quality and the maximum exposure to credit risk based on the Company's internal credit rating system and year-end stage classification. The amounts presented are gross of impairment allowances. Details of the Company's internal grading system are discussed in Note 44.

Particulars	March 31, 2025			Total	March 31, 2024			Total
	Stage 1	Stage 2	Stage 3		Stage 1	Stage 2	Stage 3

Transferred financial assets that are derecognised in their entirety but where the Company has continuing involvement

The Company had sold some loans and advances measured at amortised cost, as a source of finance in previous reporting periods. As per terms of the deal, risk and reward had been transferred to the customer. Hence, as per the derecognition criteria of IND AS 109, including transfer of substantially all risks and rewards relating to assets being transferred to the buyer being met, the assets were derecognised. The table below summarises the carrying amount of the derecognised financial assets:

Particulars	As at 31st March 2025	As at 31st March 2024
Carrying amount of derecognised financial assets	88,162.32	19,310.23
(Gain/loss) from derecognition	27,974.44	7,738.88

16 Derivative Financial Instruments

The Company undertakes derivative transactions for hedging exposures relating to foreign currency and external commercial borrowings. The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts. The nominal amounts indicate the value of transactions outstanding as at the year end and are not indicative of either the market risks or credit risk.

Particulars	As at 31st March 2025		As at 31st March 2024	
	Notional amounts	Fair value liabilities	Notional amounts	Fair value liabilities
Currency Derivatives				
Forward Contracts	1,54,861.96	333.59	55,288.11	231.18
Cross currency interest rate swaps	85,155.00	713.92	-	-
<b>Total</b>	<b>2,40,016.96</b>	<b>1,047.51</b>	<b>55,288.11</b>	<b>231.18</b>
Derivatives held for risk management purposes included above are as follows:				
(i) Fair value hedging	-	-	-	-
(ii) Cash flow hedging	-	-	-	-
Currency derivatives	2,40,016.96	1,047.51	55,288.11	231.18
(iii) Net investment hedging	-	-	-	-
(iv) Undesignated derivatives	-	-	-	-
<b>Total [(i) to (iv)]</b>	<b>2,40,016.96</b>	<b>1,047.51</b>	<b>55,288.11</b>	<b>231.18</b>

16.1 The Company is exposed to certain risks in relation to its ongoing business. The primary risk managed using derivative instruments is foreign currency risk.

16.2 The Company has designated forward contracts and derivative swaps as hedging instruments to mitigate foreign exchange risk from its exposure on foreign currency borrowings.

16.3 There are no derivatives not designated as hedging instruments. The Company has not opted for hedge accounting for derivatives.

<b>total</b>	<b>4,31,245.87</b>	<b>4,08,207.67</b>

**Securities Premium**  
Securities premium is used to record the premium on issue of shares. This can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013

Statutory Reserve  
Statutory Reserve represents the Reserve Fund created under Section 45-1C of the Reserve Bank of India Act, 1934. Accordingly, INR 15,743.02 (March 31, 2024) (INR 11,256.18) representing 20% of profit for the year has been transferred to the reserve.

The balance in General Reserve represents the value of lapsed options under Employee Stock Options issued by the Company.

**Retained Earnings**  
This Reserve represents the cumulative profits of the Company. This is a free reserve which can be utilised for any purpose as may be required.

**Employee stock options outstanding**  
The account is used to recognise the grant date value of options issued to employees under Employee stock option plan and adjusted as and when such options are exercised or lapsed or otherwise expire.

Other comprehensive income consists of re-measurement of net defined benefit liability and fair value changes on equity instruments measured through other comprehensive income.

<b>Total</b>	<b>48.36</b>	<b>39.30</b>

Above figures are exclusive of GST & includes fee paid to the erstwhile joint statutory auditors during the year.

(b) CSR Expenditure

As required under Section 135 of the Companies Act, 2013, the Company was required to spend INR 1,257.20 in the reporting year in pursuance of its Corporate Social Responsibility Policy, being two per cent of the average net profits of the company made during the three immediately preceding financial years. The Company has during the year, spent a total of INR 774.65 towards CSR expenditure (including INR 315.84 out of earlier year unspent transferred to designated bank account). The unspent portion of INR 798.38 pertaining to the current year has been transferred to the designated bank account for unspent corporate social responsibility by the Company.

Particulars	As on 31-03-2025	As on 31-03-2024
(a) Amount required to be spent by the company during the year	1,257.20	1,060.59
(b) Amount of expenditure incurred	458.82	403.85
(c) Shortfall at the end of the year	798.38	656.74
(d) Total of previous year shortfall (net of amount spent out of earlier year shortfall)	969.32	628.42
(e) Reason for shortfall	<p>The shortfall in CSR expenditure for FY 2024-25 is attributable to the phased execution of the Muthoot Center of Excellence, the company's flagship CSR project aimed at establishing a world-class integrated academic and sports institution. While significant progress was made during the year—including completion of the masterplan, utility design finalization, onboarding of academic and sports advisors, and early-stage program rollouts—the project requires multiple statutory approvals. These include environmental clearance from the Ministry of Environment &amp; Forests (MOEF), followed by additional regulatory approvals, all of which are at various stages of processing.</p> <p>Given the scale of the project, it has undergone rigorous planning and is progressing in a structured and timely manner. As a long-term transformational initiative, we remain fully committed to this dream project. The unspent amount is earmarked for this purpose and will be deployed as approvals are secured and implementation advances in the coming financial year.</p> <p>CSR activities were undertaken in the fields of Health, Education &amp; Livelihood.</p>	
(f) Nature of CSR activities	N/A	N/A
(g) Details of related party transactions	N/A	N/A
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	N/A	N/A
(i) Donations made by the Company include political contributions amounting to INR 47.50 during the year ended 31st March 2025 (Year ended 31st March 2024 : Nil)	<p>CSR activities were undertaken in the fields of Health, Education &amp; Livelihood.</p>	

### 34 Earnings Per Share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is calculated by dividing the net profit attributable to equity holders of the company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the Year Ended 31st March 2025	For the Year Ended 31st March 2024
Net profit attributable to ordinary equity holders	78,715.11	56,280.89
Weighted average number of ordinary shares for basic earnings per share	19,37,12,314	19,37,05,560
Effect of dilution	75,99,074	74,92,507
Weighted average number of ordinary shares adjusted for effect of dilution	20,13,11,388	20,11,98,067
Earnings per share		
Basic Earnings per share	40.64	29.05
Diluted Earnings per share	39.10	27.97

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2025

(Rupees in lakhs, except for share data and unless otherwise stated)

#### 35 Income Tax

The components of income tax expense for the year ended 31st March, 2025 and year ended 31st March, 2024 are:

Particulars	For the Year Ended 31st March 2025	For the Year Ended 31st March 2024
Current Income tax expense	23,129.13	18,226.58
Deferred tax relating to origination and reversal of temporary differences	2,688.36	1,650.73
Tax relating to earlier years	-	2,522.41
<b>Total tax expense reported in statement of profit and loss</b>	<b>25,817.49</b>	<b>22,399.72</b>
<b>OCI Section</b>		
Deferred tax related to items recognised in OCI during the period:		
Net gain / (loss) on equity instruments measured through other comprehensive income	(20,995.93)	528.19
Remeasurement of the defined benefit liabilities	(74.52)	(100.92)
<b>Income tax charged to OCI</b>	<b>(21,070.44)</b>	<b>427.27</b>

#### Reconciliation of Income tax expense:

The income tax charge shown in the statement of profit and loss differ from the income tax charge that would apply if all the profits had been charged at India corporate tax rate. A reconciliation between the income tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended 31st March 2025 and year ended 31st March 2024 is, as follows:

Particulars	For the Year Ended 31st March 2025	For the Year Ended 31st March 2024
Accounting profit before tax	1,04,532.60	78,680.62
<b>At India's statutory income tax rate of 25.168%* (2024: 25.168%*)</b>	<b>26,308.77</b>	<b>19,802.34</b>
<b>Adjustments in respect of current income tax of previous year</b>		
(i) Expenses not eligible for deduction under the Income Tax Act	(1,880.16)	(944.74)
(ii) Income chargeable to tax under separate rate of tax (capital gain)	(82.44)	(25.40)
(iii) Deductions eligible under the Income Tax Act	(1,217.04)	(605.61)
<b>Current Income Tax expense reported in the statement of profit or loss</b>	<b>23,129.13</b>	<b>18,226.58</b>
<b>Effective Income Tax Rate</b>	<b>22.13%</b>	<b>23.17%</b>

\* The Company has exercised the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019.

### Deferred Tax

The following table shows deferred tax recorded in the balance sheet and changes recorded in the Income tax expense:

	Deferred tax assets	Deferred tax liabilities	Statement of profit and loss	OCI
	As at 31st March 2025	As at 31st March 2025	2024-25	2024-25
Opening Balance	11,427.62	24,325.60	-	(11,427.62)
Restatement on account of change in tax rate	44.19	-	(44.19)	-
Fixed asset- Timing difference on account of Depreciation and Amortisation	156.91	-	(156.91)	-
Bonus Disallowed due to non-payment	269.60	-	(269.60)	-

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2025

(Rupees in lakhs, except for share data and unless otherwise stated)

#### 36 Retirement Benefit Plan

##### Defined Contribution Plan

The Company makes contributions to Provident Fund & Employee State Insurance which are defined contribution plans for qualifying employees. The amounts recognized for the aforesaid contributions in the statement of profit and loss are shown below:

Particulars	As at 31st March 2025	As at 31st March 2024
Contributions to Provident Fund	3,492.56	2,774.08
Contributions to Employee State Insurance	967.74	812.78
<b>Defined Contribution Plan</b>	<b>4,460.29</b>	<b>3,586.86</b>

##### Defined Benefit Plan

The Company has a defined benefit gratuity plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service gets a gratuity on leaving the service of the company at 15 days salary (last drawn salary) for each completed year of service.

The following tables summarises the components of net benefit expense recognized in the statement of profit and loss and the funded status and amounts recognized in the balance sheet for the gratuity plan

Particulars	As at 31st March 2025	As at 31st March 2024
Present value of funded obligations	4,004.04	3,169.44
Fair value of planned assets	2,898.02	3,045.77
<b>Net Defined Benefit obligation/(asset)</b>	<b>1,106.02</b>	<b>123.66</b>

##### Post employment defined benefit plan

Particulars	As at 31st March 2025	As at 31st March 2024
<b>Net benefit expense recognised in statement of profit and loss</b>		
Current service cost	766.24	530.25
Net interest on net defined benefit liability/(asset)	8.88	14.50
<b>Net benefit expense</b>	<b>775.12</b>	<b>544.76</b>

##### Balance Sheet

Details of changes in present value of defined benefit obligations as follows:

Particulars	As at 31st March 2025	As at 31st March 2024
Defined benefit obligation at the beginning of the year	3,169.44	2,745.95
Current service cost	766.24	530.25
Interest cost on benefit obligations	227.57	204.85
Actuarial (Gain)/ Loss on Total Liabilities	282.48	367.40
Benefits paid	(441.69)	(679.02)
<b>Benefit obligation at the end of the year</b>	<b>4,004.04</b>	<b>3,169.44</b>

Details of changes fair value of plan assets are as follows: -

Particulars	As at 31st March 2025	As at 31st March 2024
Fair value of plan assets at the beginning of the year	3,045.77	2,551.55
Actual Return on Plan Assets	205.09	156.77
Employer contributions	88.85	1,016.47
Benefits paid	(441.69)	(679.02)
<b>Fair value of plan assets as at the end of the year</b>	<b>2,898.02</b>	<b>3,045.77</b>

Particulars	As at 31st March 2025	As at 31st March 2024
<b>Remeasurement gain/ (loss) in other comprehensive income (OCI)</b>		
Actuarial gain/(loss) on obligation	(115.14)	(292.98)
Experience adjustments	(13.59)	(33.58)
<i>Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/(asset)</i>		
Actuarial changes arising from changes in financial assumptions	(167.34)	(74.42)
<b>Actuarial gain/(loss) (through OCI)</b>	<b>(296.07)</b>	<b>(400.98)</b>

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

Particulars	As at 31st March 2025	As at 31st March 2024
Salary Growth Rate	3.00%	3.00%
Discount Rate	6.60%	7.18%
Withdrawal Rate	5.00%	5.00%
Mortality	100% of IALM 2012-14	100% of IALM 2012-14
Interest rate on net DBO	7.18%	7.46%
Expected average remaining working life	26.81	27.14

Investments quoted in active markets:

Particulars	As at 31st March 2025	As at 31st March 2024
Equity instruments	-	-
Debt instruments	-	-
Real estate	-	-
Derivatives	-	-
Investment Funds with Insurance Company	100.00%	100.00%
<i>Of which, Unit Linked</i>	-	-
<i>Of which, Traditional/ Non-Unit Linked</i>	100.00%	100.00%
Asset-backed securities	-	-
Structured debt	-	-
Cash and cash equivalents	-	-
<b>Total</b>	<b>100.00%</b>	<b>100.00%</b>

A quantitative sensitivity analysis for significant assumptions as at 31st March 2025 and 31st March 2024 are as shown below:

Assumptions	As at 31st March 2025	As at 31st March 2024
Discount Rate	3,675.05	2,917.25
Discount Rate	4,387.31	3,462.60
Further Salary Increase	4,396.90	3,471.14
Further Salary Increase	3,662.16	2,906.08
Employee turnover	4,103.62	3,267.70
Employee turnover	3,887.65	3,056.19
Mortality Rate	3,991.08	3,159.18
Mortality Rate	3,966.41	3,139.65

The weighted average duration of the defined benefit obligation as at 31st March 2025 is 10 years (31st March 2024: 10 years).

Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below.

*The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.*

*The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.*

#### 41 Capital

##### Capital Management

The primary objective of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains healthy credit ratings and capital ratios in order to support its business and to maximize shareholder value.

Being an NBFC-SI, the RBI requires the Company to maintain a minimum capital to risk weighted assets ratio ("CRAR") consisting of a minimum Tier 1 Capital of 12% and a combined Tier 1 & Tier 2 Capital of 15% of our aggregate risk weighted assets. The capital management process of the Company ensures to maintain a healthy CRAR at all the times. During the year, the Company has issued cumulative compulsorily convertible preference shares of INR 25,000.00 (March 31, 2024 - Nil), perpetual debt instruments aggregating to INR 9,700.00 (March 31, 2024 - INR 20,000) and subordinated debt of INR 30,000 (March 31, 2024 - INR 15,000) to reinforce the regulatory capital levels.

Regulatory capital	As at 31st March 2025	As at 31st March 2024
Tier 1 Capital	4,52,362	3,63,171
Tier 2 Capital	1,04,090	94,900
<b>Total capital</b>	<b>5,56,453</b>	<b>4,58,071</b>
<b>Risk weighted assets</b>	<b>28,53,513</b>	<b>22,89,044</b>
<b>CRAR</b>		
Tier 1 Capital (%)	15.85%	15.87%
Tier 2 Capital (%)	3.65%	4.15%

Tier 1 Capital comprises of share capital, share premium, reserves, retained earnings including current year profits, cumulative compulsorily convertible preference shares and perpetual debt instruments subject to permissible limits. Certain adjustments are made to Ind AS-based results and reserves, in order to ensure compliance with the directions of the Reserve Bank of India. Tier 2 Capital consists of Subordinated Debt Instruments subject to permissible limits as per the directions of the Reserve Bank of India, general provisions and PDI in excess of 15% of Tier 1 Capital of the Company as at the previous year end.

Right of use assets as at the reporting date have been recognized against underlying tangible assets and hence is not required to be deducted from Owned Fund. However, the right of use assets as at March 31, 2025 have been risk-weighted at 100 per cent, as notified by the Reserve Bank of India vide RBI/2024-25/128 DOR CAP REC No 68/21.01.002/2024-25 dated March 21, 2025.

#### 42 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

#### Fair Value Hierarchy of assets and liabilities

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at March 31, 2025:

Particulars	At FVTPL			
	Level-1	Level-2	Level-3	Total

#### Fair value technique

##### Investment at fair value through profit and loss

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

#### Equity instruments

The equity instruments which are actively traded on public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1.

#### Derivative Financial Instruments (assets/liabilities)

The financial assets/liabilities on derivative contracts been fair valued using closing rate and is classified as Level 2.

#### Financial Liabilities with significant unobservable inputs (Level 3)

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued as at the measurement date or at the nearest available date has been classified as Level 3, where the valuation cannot be corroborated by observable market data.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at 31st March 2025		As at 31st March 2024	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(966.07)	993.71	(390.15)	401.26
Discount for Lack of Marketability	(604.31)	604.31	(249.27)	249.27

#### Movements in Level 3 financial instruments measured at fair value

Particulars	As at 31st March 2025	As at 31st March 2024
<b>Financial liability measured at FYTPL</b>		
<b>Cumulative Compulsorily Convertible Preference Shares (CCCPS)</b>		
Opening Balance	16,202.00	15,732.00
Issued during the year	25,000.00	-
Converted during the year	-	-
Change in fair value	(109.00)	470.00
<b>Closing balance</b>	<b>41,093.00</b>	<b>16,202.00</b>

### Fair value of financial instruments not measured at fair value

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

Particulars	Level	Carrying Value		Fair Value	
		As at 31st March 2025	As at 31st March 2024	As at 31st March 2025	As at 31st March 2024
<b>Financial Assets</b>					
Cash and cash equivalents	1	2,96,173.34	1,27,835.84	2,96,173.34	1,27,835.84

<b>Financial Liabilities</b>		<b>27,74,084.33</b>	<b>21,85,753.46</b>	<b>27,74,084.33</b>	<b>21,85,753.46</b>

### Valuation techniques

#### Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Such amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

#### Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogeneous groups based on similar characteristics ie, type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using effective interest rate model that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost net of impairment loss allowance is of reasonable approximation of their fair value.

#### Financial liability at amortised cost

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

### 43 Segment Reporting

In accordance with Para 4 of IND AS 108, Operating Segments, segment information has been presented in the consolidated financial statements of Muthoot FinCorp Limited and therefore, no separate disclosure has been given in standalone financial statement.

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2025 (Rupees in lakhs, except for share data and unless otherwise stated)

#### 44. Risk Management

The Company's principal financial liabilities comprise secured and unsecured borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, investments, cash and cash equivalents and other receivables that derive directly from its operations.

As a financial lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of Directors constituted in accordance with the RBI directives has overall responsibility for overseeing the implementation of the risk management policy. The committee meets quarterly to review the Risk Management practices and working of the Enterprise Risk Management Department. The Committee consists of members of the Board including the Managing Director and is chaired by an Independent Director. The Enterprise Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Enterprise Risk Management department.

The Company has implemented comprehensive policies and procedures to assess, monitor and manage its risk. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Company has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

The major type of risk Company faces in business are credit risk, liquidity risk, market risk and operational risk.

#### B) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through following major processes:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio appraisal and monitoring
- Design appropriate credit risk mitigation techniques

#### A) Impairment Assessment

The Company is primarily engaged in the business of providing gold, SME loans, digital loans, personal and loans against property. Whereas tenure of gold loans primarily range from 6 to 12 months, tenure of other loans range from 3 months to 180 months.

The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the summary of material accounting policies.

#### Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on his / her contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikelihood to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations.

The Company has considered a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage I
Standard grade	1-30 DPD	Stage I
Sub-standard grade	31-60 DPD	Stage II
Past due but not impaired	61-89 DPD	Stage II
Individually impaired	90 DPD or More	Stage III

#### Exposure at Default (EAD)

The outstanding balance as at the reporting date is considered as EAD by the company.

#### Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information where available to determine PD. For Gold, loans against property, high value and SME loans, considering the different products, schemes, ticket size, loan to value and geographies, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information. For personal loans, the Company has considered the published average default probability for similar loans from a leading credit bureau report on lending in India as the said portfolio is relatively new to the Company. Based on its review of macro-economic developments and economic outlook, the Company has assessed that no adjustment is required for temporary overlays to determine qualitative impact on its PD.

#### Loss Given Default (LGD)

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Company expects to receive. LGD rates for Gold Loans have been computed internally based on the discounted recoveries in NPA accounts that are auctioned during the year. For other loans, LGD rates have been arrived at guided by the Foundational Internal Ratings Based approach (FIRB) norms. When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

#### Significant Increase in credit risk

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

#### B) Liquidity risk

##### Asset Liability Management (ALM)

Liquidity risk is the risk of being unable to raise necessary funds from the market at optimal cost to meet operational and debt servicing requirements. The purpose of liquidity management is to ensure sufficient cash flow to meet all financial commitments and to capitalise on opportunities for business expansion. Board of Directors will have overall responsibility of monitoring, supervision and control of the Asset Liability Management (ALM) mechanism. An Asset Liability Management Committee (ALCO) consisting of the Managing Director, a Whole Time Director and senior executives of the Company shall be responsible for the day to day as well as periodic monitoring and control of Asset Liability management. The discussions of the ALCO is placed before the Board of Directors for review. Our treasury team sources funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. The treasury team is responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below shows the maturity pattern of the assets and liabilities

##### Maturity pattern of assets and liabilities as on 31st March 2025:

Particulars	Up to 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total

**III) Market risk**

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Company is exposed to three types of market risk as follows:

**a) Interest rate risk**

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings is as follows:

Particulars	March 31, 2025	March 31, 2024
<b>On Borrowings</b>		
1% increase	(23,086.03)	(19,070.32)
1% decrease	23,086.03	19,070.32

**b) Price risk**

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified at FVOCI. A 10% increase/(decrease) in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/(Decrease) in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensive Income
As at 31st March 2025	10(10)	220.57 / (220.57)	16,109.92 / (16,109.92)
As at 31st March 2024	10(10)	377.48 / (377.48)	19,232.03 / (19,232.03)

A sudden fall in the gold price can result in increased customers defaults where the loan amount and interest exceeds the market value of gold, though the sentimental value of the gold jewellery to the customers may induce repayment and redemption of the collateral. This risk is partly mitigated by the fact that a minimum 25% margin is retained on the value of gold jewellery for the purpose of calculation of the loan amount. Further, the gold jewellery collateral is appraised solely based on the weight of its gold content, excluding weight and value of the stone studded in the jewellery if any. Though an occasional decrease in gold prices will not increase price risk significantly on account of our adequate collateral security margins, a sustained decrease in the market price of gold can additionally cause a decrease in the size of our loan portfolio and our interest income.

**c) Foreign currency risk**

Foreign currency risk is the risk that the value of the financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency risk for the Company arises majorly on account of foreign currency borrowings. The Company has hedged its foreign currency risk on its foreign currency borrowings as at March 31, 2025 by entering into forward contracts and derivative swaps. The counterparties for such hedge transactions are banks. The Company's exposure on account of Foreign Currency Borrowings at the end of the reporting period as follows:

Particulars	March 31, 2025		March 31, 2024	
	Amount in USD	Amount in INR	Amount in USD	Amount in INR
Foreign currency borrowings	2,776.28	2,37,597.84	658.76	54,193.29

Since the foreign currency exposure is completely hedged by equivalent derivative instruments, there will not be any significant impact on sensitivity analysis due to the possible change in the exchange rates where all the variables are held constant. On the date of maturity of the derivative instrument, the sensitivity of profit and loss to changes in the exchange rates will be nil.

**d) Prepayment risk**

Prepayment risk is the risk that the Company will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

**IV) Operational and business risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Company cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

### 45 Employee Stock Option Plan and Stock Appreciation Plan

The Company has instituted MFL Employee Stock Option Schemes and MFL Employee Stock Appreciation Right Schemes with an objective to reward employees for their association with the Company, their performance, as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company

#### 45.1. Employee Stock Option Plan

(i) The particulars on the Stock Option Plan are as follows:

Scheme name	MFL Employee Stock Option Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement ESOP was granted	July 13, 2018
Date of Board Meeting where grant of options were approved	August 12, 2022
Date of grant & dates of approval of the committee	August 30, 2022 (approved on July 19, 2022) October 18, 2023 (approved on September 14, 2023) July 12, 2024 (approved on March 26, 2024) December 18, 2024 (November 8, 2024)
No. of employees to whom such options were granted	796
Number of options granted	26,43,974
Method of settlement	Equity
Vesting conditions	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<p><b>For ESOP Scheme II &amp; IV, 2018</b></p> <p>Option will be vested at the</p> <p>End of year 1 from grant date : 20%</p> <p>End of year 2 from grant date : 30%</p> <p>End of year 3 from grant date : 50%</p> <p><b>For ESOP Scheme V, 2018</b></p> <p>Option will be vested at the</p> <p>End of year 1 from grant date : 33.33%</p> <p>End of year 2 from grant date : 33.33%</p> <p>End of year 3 from grant date : 33.33%</p> <p><b>For ESOP Scheme III, 2018</b></p> <p>Option will be vested at the</p> <p>End of year 3 from grant date : 100%</p> <p><b>For ESOP Scheme VI, 2018</b></p> <p>Option will be vested at the</p> <p>End of year 1 from grant date : 50%</p> <p>End of year 2 from grant date : 50%</p> <p><b>For ESOP Scheme, 2018</b></p> <p>(i) Option will be vested at the</p> <p>End of year 1 from grant date : 20%</p> <p>End of year 2 from grant date : 30%</p> <p>End of year 3 from grant date : 50%</p> <p>(ii) Option will be vested at the</p> <p>End of year 1 from grant date : 100%</p>
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00

Exercise period	The options can be exercised over a period of 10 years from the date of grant
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in Options:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
No. of Options		
Outstanding at the beginning of the year	21,98,506	7,87,919
Granted during the year	2,66,465	15,12,943
Vested during the year	2,71,806	1,90,156
Exercised during the year (pending allotment)	64,795	7,902
Lapsed during the year	2,468	-
Forfeited during the year*	2,26,376	94,454
Outstanding at the end of year	21,71,332	21,98,506
Unvested at the end of year	17,04,448	20,06,648
Exercisable at the end of year	4,26,297	1,82,254
Money realized by exercise of options (INR)	64,80	7,90

\* Due to employee separations and non fulfillment of vesting conditions post grant of option during the year.

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
Weighted average option fair value (Amount in INR)	218.17	214.20
Market price (Amount in INR)	379.75	309.63
Exercise price (Amount in INR)	100.00	100.00
Expected volatility of share price (%) *	40.00% - 43.20%	40.50% - 43.20%
Option Life (years)	5.50 to 6.51 years	5.51 to 6.51 years
Expected dividends yield (%)	1.51% to 3.22%	-
Risk free interest rate (%)	6.64% to 7.31%	7.07% to 7.31%

\* The expected price volatility is determined using annualized standard deviation in measure of volatility used in Black-Scholes-Merton option pricing and the historic volatility based on remaining life of the options

(iv) The total expense recognised for the period arising from MFL ESOP 2018 amounted to INR 1,408.52 (March 31, 2024 - INR 1,101.59) and the carrying amount for the corresponding liabilities as at March 31, 2025 amounted to INR 2,861.81 (March 31, 2024 - INR 1,456.73).

#### 45.2. Employee Stock Appreciation Plan

(i) The particulars on the Stock Appreciation Plan are as follows:

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018 December 18, 2024
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant & dates of approval of the committee	August 30, 2022 (approved on July 19, 2022) October 18, 2023 (approved on September 14, 2023) December 18, 2024 (approved on November 8, 2024)
No. of employees to whom such SAR were granted	2,393
Number of SAR granted	13,28,119
Method of settlement	Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise performance based parameters and such other conditions as mentioned in the SAR Scheme.

Vesting period	For SAR Scheme Scheme II & III, 2018 SAR will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%
	MFL Employee stock Appreciation Right Plan 2018 SAR will be vested at the: End of year 1 from grant date : 50% End of year 2 from grant date : 50%
Exercise Price (Amount in INR) Pricing Formula	As per valuation from a registered valuer 225.00

(ii) Movement during the year in SAR Options:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
No. of SAR:		
Outstanding at the beginning of the year	9,73,416	11,63,592
Granted during the year	42,287	42,537
Vested during the year	3,81,610	1,96,703.00
Exercised during the year	2,70,451	1,95,721.00
Lapsed during the year	-	-
Forfeited during the year *	2,07,504	36,992
Outstanding at the end of year	5,37,751	9,73,416
Unvested at the end of year	5,37,751	9,73,416
Exercisable at the end of year	-	-

\* Due to employee separations and non fulfillment of vesting conditions post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
Weighted average option fair value (Amount in INR)	158.94	63.18
Market price (Amount in INR)	379.75	309.63
Exercise price (Amount in INR)	225.00	225.00
Expected volatility of share price (%)*	34.70% - 40.37%	26.97% - 34.42%
Option Life (years)	0.27 to 5.72 years	0.46 to 2.59 years
Expected dividends yield (%)	1.51%	-
Risk free interest rate (%)	6.37% to 6.42%	6.50% to 7.22%

\* The expected price volatility is determined using annualized standard deviation to measure of volatility used in Black-Scholes-Merton option pricing) and the historic volatility based on remaining life of the options

(iv) The total expense recognised for the period arising from MFL SAR 2018 amounted to INR 319.21 (March 31, 2024 - INR 283.93) and the carrying amount for the corresponding liabilities as at March 31, 2025 amounted to INR 667.96 (March 31, 2024 - INR 348.76)

## **\*Additional Provisions under IRACP norms for Overdue Loan Renewals**

The Company conducted a review of loan accounts renewed during the financial year based on which additional provisions have been made under IRACP for accounts where loans were renewed after becoming overdue, provided the value of the pledged collateral under the renewed facility equals or exceeds the outstanding principal of the original loan. Based on this review, a provision of INR 347.27 has been created on a total pledge exposure of INR 57,877.90. This provision has been recognized as a prudent measure to align with regulatory expectations and to strengthen the Company's risk management framework.

#### 47 Additional Disclosures as Required by the Reserve Bank of India

##### (i) Frauds

During the year there have been certain instances of fraud on the Company by officers and employees where gold loan related misappropriations / cash embezzlements / burglaries have occurred for amounts aggregating to an amount of INR 652.21 (March 31, 2024 - INR 428.96) of which the Company has recovered INR 26.90 (March 31, 2024 - INR 29.90). The Company has taken insurance cover for such losses and has filed insurance claims in this regard. Further, the Company is in the process of recovering these amounts from the employees and taking legal actions, where applicable. The value of frauds and burglaries (net of recovery), has been fully provided for.

(ii) The Company extends loans to its customers against security of gold not exceeding 75% of the value of gold. Value of gold for this purpose is taken from the rates published by the Association of Gold Loan Companies (AGLOC). AGLOC publishes the value of gold based on the immediately preceding 30 days average price of 22 karat Gold published by Bombay Bullion Association. The Company holds 43.69 tonnes of Gold as at March 31, 2025 (March 31, 2024 - 48.21 tonnes). The loan amount provided against security of gold works out to 60.11% of the value of gold as on 31st March 2025 (As at 31st March 2024 - 68.89%).

(iii) The Company's Percentage of Gold Loan to Total Assets is 67.31% as at 31st March 2025 (As at 31st March 2024 - 73.34%)

# MUTHOOT FINCORP LIMITED

We have audited the accompanying Consolidated Ind AS financial statements of Muthoot Fincorp Limited ("the holding Company"), Muthoot Centre, TC No 14/ 2074-7, Punnen Road, Thiruvananthapuram - 695 001 and its subsidiaries (together referred as "Group") which comprise the Consolidated Balance Sheet as at 31st March, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Statement of cash flows for the year then ended, including the notes to the Consolidated Ind AS Financial Statements, a summary of significant accounting policies and other explanatory information. [ hereinafter referred to as "Consolidated Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at 31st March, 2024, and its Consolidated profit including other Comprehensive Income, Consolidated Changes in equity and Consolidated cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We

EMAIL: [rangamanis@rediffmail.com](mailto:rangamanis@rediffmail.com)

Krishnan Retna & Associates: PH: 0471-2476356  
EMAIL: [trivandrum@krishnanretna.com](mailto:trivandrum@krishnanretna.com)

believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the Key Audit matters to be communicated in our report.

Key Audit Matters	How it's been addressed in Audit
a.) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.	We have accessed the laid down systems and processes of the Holding Company in identifying related party transactions and its ultimate disclosure in the Consolidated Ind AS financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board of the Holding Company in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.
b.) Effectiveness of IT Systems and related controls.	Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be misstated in case of any control lapses in the IT system related controls. We have

	<p>designed our audit procedures in accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems of Holding Company on a sample basis which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password protection, external software/hardware access rights etc of the Holding Company.</p> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding IT systems and controls. Based on the audit report issued by other auditors, no material weakness was identified in the IT related systems and controls of the subsidiaries.</p>
c.) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.	<p>At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapses in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have conducted physical visits to key branches of holding company and central loan processing hub of the holding Company which are considered top based on the significant gold loan and unsecured loan portfolio to identify and evaluate the effectiveness of controls in place. We have also tested on a sample basis the independent financial records maintained at the branch level of the holding company and how the same is considered and incorporated in the Consolidated Ind AS financial statements. We have also assessed and analyzed the internal audit reports of holding company and how the major observations are dealt with and its impact on the Holding</p>

	<p>Company's financial accounting and reporting records.</p> <p>We have relied upon the work done by auditors of Subsidiary Companies (SA 600) regarding Accuracy, completeness and correctness of accounting and related controls maintained at the Subsidiary Companies' branches. Based on the audit report issued by auditors of subsidiaries, no major weaknesses were identified.</p>
<p><b>d.) Computation of provision towards impairment of loan assets.</b></p> <p>As at 31st March 2024, the Group had reported a total impairment loss allowance of 49,932.15 lakhs (31st March 2023 - Rs. 54,978.75 lakhs)</p> <p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>- Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>- Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<p>The audit procedures performed for the holding Company, among others, included:</p> <ul style="list-style-type: none"> <li>-Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> <li>-Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>-Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul>

### Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Annual Report but does not include the Consolidated Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management and those charged with governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Ind AS financial statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance, Consolidated changes in equity and Consolidated cash flows of the Group including its Associates and jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement,

whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

#### **Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether

the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in planning the scope of our audit work and in evaluating the results of our work; and to evaluate the effect of any identified misstatements in the consolidated Ind AS financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matters

- (a) We did not audit the financial statements / financial information of the subsidiaries, whose financial statements reflect total assets of Rs.13,89,207.80 lakhs as at 31st March, 2024, total revenues of Rs. 2,60,099.19 lakhs and net cash flows amounting to Rs.31,142.77 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements.
- (b) This financial statements / financial information has been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
- (c) Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated financial statements;
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
  - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated financial statement;
  - d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder.
  - e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2024 taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies, incorporated in India is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer our separate Report in "Annexure A".
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its Directors during the year is in accordance with the provisions of Section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
  - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts as at 31 March 2024.
  - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding company and its subsidiaries.
  - iv. a) The respective Managements of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, has represented to us and to the other auditors of such subsidiaries that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
  - b) The respective Management of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Holding Company or any of such subsidiaries, from any person or entity, including foreign entity ("Funding Parties") with the understanding, whether recorded in writing or otherwise that the Holding Company or any of such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the

Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and that performed by the auditors of the subsidiaries, which are Companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Act.

vi. Based on our examination which included test checks, the Group has used an accounting software for maintaining its books of accounts for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Refer Note No.50 to the consolidated financial statements.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the Financial Year ended March 31, 2024.

## **ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT**

**Referred to in Paragraph 1(f) under 'Report on other Legal and Regulatory Requirements' of the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Consolidated Ind AS Financial Statements as of and for the year ended 31st March 2024.**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub section 3 of Section 143 of the Companies Act, 2013 ("the Act"):**

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls over financial reporting of **Muthoot Fincorp Limited** (hereinafter referred to as "the Holding Company") and its subsidiary companies, which includes internal financial controls over financial reporting of the Company and its subsidiaries.

### **Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ( the "Guidance Note") and the Standards on Auditing, both issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies are sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that; (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024 based on the criteria for internal financial control over financial reporting established by the respective

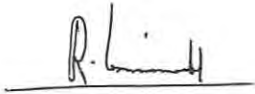

companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### **Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to the subsidiary companies are based solely on the corresponding reports of the auditors of such company.

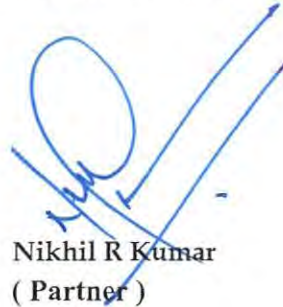

Our opinion is not modified in respect of the above matter.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**Material Accounting Policies**

**1. Corporate Information**

Muthoot FinCorp Limited, (the Company), is a Public Limited Company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. The company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and was classified as a Non Deposit Taking Systemically Important Loan Company (NDSI). Based on the RBI notification RBI/2021-22/112 DOR.CRE.REC.No.60/03.10.001/2021-22, dated October 22, 2021, the Company is classified as NBFC - Middle Layer (NBFC-ML) under the Scale Based Regulation for Non-Banking Financial Companies.

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold, SME Loans, Personal Loans and Loans against Property through its branch network across India. The company also offers Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The company is engaged in real estate business to a very limited extent. The Company's registered office is at Muthoot Centre, TC No 27/ 3022 Punnen Road, Thiruvananthapuram, Kerala, India, 695001. The Registration details of the Company are as follows:

Corporate Identity Number (CIN): U65929KL1997PLC011518

Reserve Bank of India Registration no.: N - 16.00170

The Company has 3 subsidiaries, Muthoot Housing Finance Company Limited (or "MHFCL" or "Muthoot Housing"), Muthoot Pappachan Technologies Limited (or "MPT") and Muthoot Microfin Limited (or "MML" or "Muthoot Microfin") (formerly known as Pancharatna Securities Limited), which are incorporated in India. The Parent Company along with its subsidiaries are referred to as "Group".

Muthoot Housing Finance Company Limited (MHFCL) is a public company domiciled in India and incorporated under provision of the Companies Act, 1956 having Corporate Identity Number (CIN) - U65922KL2010PLC025624, registered with the National Housing Bank ("NHB") under Section 29 A of the National Housing Bank Act, 1987 and primarily engaged in housing finance activities. The company was incorporated on 05th March 2010, and received the Certificate of Registration from the NHB on 11th February 2011, enabling the company to carry on business as a Housing Finance Company without accepting Public Deposits. The Company received its Certificate of Commencement of Business on 1st June 2011.

Muthoot Pappachan Technologies Private Limited (MPT) having Corporate Identity Number (CIN) - U72200KL2012PLC032664 was initially registered as a Private Limited Company on 16th November 2012. Later, it was converted to Muthoot Pappachan Technologies Limited on 5th July 2013. Based in the Technopark campus at Thiruvananthapuram, the company provides consulting-led integrated portfolio of Information Technology (IT) and IT enabled services to its clients. The company in short, aims at providing software solution as service to its customers.

Muthoot Microfin Limited (MML) was incorporated as a Private Limited Company in the year 1992 under the erstwhile Companies Act, 1956 having Corporate Identity Number (CIN) - L65190MH1992PLC066228. Effective from 18 March 1998, the Company was registered as a non-deposit accepting Non-Banking Financial Company (NBFC-ND) under the rules and regulations framed by the Reserve Bank of India. The company has obtained registration under the category of Non-Banking Financial Company – Micro Finance Institutions (NBFC-MFI) w.e.f. 25 March 2015. The operations of the Company are based on the Grameen model of lending. It is designed to promote entrepreneurship among women and inclusive growth. The Company provides financial assistance through micro loans to women engaged in small income generating activities. During the year ended March 31, 2024, MML has completed Initial Public Offer (IPO) of its shares. Pursuant to IPO, its shares were listed on National Stock Exchange (NSE) and BSE Limited (BSE) on December 26, 2023.

**2. Basis of preparation**

**2.1 Statement of Compliance**

The consolidated financial statements (CFS) of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the

**Muthoot FinCorp Limited**  
Notes forming part of consolidated financial statements

Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') issued by RBI and National Housing Bank Guidelines/Regulations ('NHB directions') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Group shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

## 2.2 Presentation of financial Statements

The Group presents its Balance Sheet in order of liquidity. The Group prepares and presents its Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the format prescribed by Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

The Group generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Group offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

## 2.3 Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Parent Company and all its subsidiaries, being the entities that it controls from the date control is gained. Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity's returns. The financial statements of subsidiaries are prepared for the same reporting year as the Parent Company. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Parent Company.

These consolidated financial statements are prepared on the following basis in accordance with Ind AS 110 on "Consolidated Financial Statements" specified under Section 133 of the Act. Following subsidiary companies have been considered in the preparation of the consolidated financial statements:

Name of the Company	Country of incorporation	Consolidated as	% equity shareholding of MFL (Current Year)	% equity shareholding of MFL (Previous Year)
Muthoot Housing Finance Company Limited	India	Subsidiary	81.71%	80.66%
Muthoot Pappachan Technologies Limited	India	Subsidiary	60.00%	60.00%
Muthoot Microfin Limited	India	Subsidiary	50.21%	72.36%

### i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

### ii) Non-controlling interest ("NCI")

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**iii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other component of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

**iv) Transactions eliminated on consolidation**

The financial statements of the Holding Company and its subsidiary used in the consolidation procedure are drawn up to the same reporting date i.e. March 31, 2024. The financial statements of the Holding Company and its subsidiary are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses. Intra-group balances and transactions, and unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment. The Group follows uniform accounting policies for like transactions and other events in similar circumstances. For additional information as required by Paragraph 2 of the General Instructions for preparation of Consolidated Financial Statements to Schedule III to the Companies Act, 2013, refer Note 51.

**2.4 Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVTOCI)
- ii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)
- iii) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iv) Investments which are held for trading
- v) Assets held for sale are measured at fair value less cost to sell or carrying value whichever is lower
- vi) Defined benefit plans.
- vii) Derivative Financial Instruments

**2.5 Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Group and the currency of the primary economic environment in which the Group operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

**3. Material accounting policies**

**3.1 Recognition of interest income**

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

**3.2. Recognition of revenue from sale of goods and services**

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Group recognises revenue from contracts with customers based on a five-step model as set out in Ind 115:

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**Step 1:** Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

**Step 2:** Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

**Step 3:** Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

**Step 4:** Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

**Step 5:** Recognise revenue when (or as) the Group satisfies a performance obligation.

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

**3.2.1 Dividend income**

Dividend income is recognised when the Group's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

**3.2.2 Income from assignment transactions**

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the excess interest spread (EIS). In accordance with Ind AS 109 and as per management practice, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognized from the Balance Sheet immediately upon execution of such transaction. Further, where the transfer of financial asset qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as receivable towards assignment transactions and correspondingly recognized as gain on sale of loan assets.

**3.2.3 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

**3.2.4 Fees and commission income**

Fees and commission income such as service charges, commission from fee-based business lines, service income etc. are recognised on point in time basis.

**3.2.5 Miscellaneous Income**

All other income is recognized on an accrual basis, when there is no uncertainty in the ultimate realization/collection.

**3.3 Financial instruments**

**A. Financial Asset**

**3.3.1 Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on the date when the Company becomes party to the contractual provisions. The Group recognises debt securities, deposits and borrowings when funds reach the Group and post allotment, where applicable.

**3.3.2 Initial and subsequent measurement of financial instruments**

The Group classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI).
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL).
4. Equity instruments measured at fair value through other comprehensive income FVTOCI.

The classification depends on the contractual terms of the financial assets' cash flows and the Group's business model for managing financial assets which are explained below:

**Business model assessment**

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Group's assessment.
- ▶ The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

**The SPPI test**

As a second step of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Group classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

**3.3.3 Financial assets measured at amortised cost**

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

**3.3.4 Financial assets measured at fair value through other comprehensive income**

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVTOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

**3.3.5 Financial Instrument measured at fair value through profit or loss**

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Group's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

**3.3.6 Equity instruments**

The Group subsequently measures investment in equity investments at fair value through profit or loss, unless the Group's management has elected to classify irrevocably some of its equity investments as equity instruments at FVTOCI, when such instruments meet the definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified at FVTOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI.

**B. Financial Liabilities**

Initial recognition and measurement

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

**3.4 Derecognition of financial assets and liabilities**

**3.4.1 Financial Asset**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Group has transferred the financial asset if, and only if, either:

- a) The Group has transferred its contractual rights to receive cash flows from the financial asset  
or
- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Group retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- ▶ The Group has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- ▶ The Group cannot sell or pledge the original asset other than as security to the eventual recipients
- ▶ The Group has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Group is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- ▶ The Group has transferred substantially all the risks and rewards of the asset or
- ▶ The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

**3.4.2 Financial Liability**

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**3.5 Offsetting**

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Group has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- a. The normal course of business
- b. The event of default
- c. The event of insolvency or bankruptcy of the Group and/or its counter parties.

**3.6 Impairment of financial assets**

**3.6.1 Overview of the Expected Credit Loss (ECL) principles**

The Group has created provisions on all financial assets except for financial assets classified as FVTPL, based on the expected credit loss method. The Group also ensures maintaining the minimum provision requirement as per RBI and NHB regulations.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Group performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Group categorises its loans into three stages as described below:

For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Group compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Group recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Group recognises lifetime ECL for impaired financial instruments.

**3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information. Where historical information is not available for arriving at reasonable default probability, published probability of default for similar loan segments are used.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

**Loss Given Default (LGD)** – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. The Group uses computed discounted recoveries in NPA accounts that are closed during the year where historical information is available and uses Foundational Internal Ratings Based approach (FIRB) norms in the absence of sufficient historical trends.

**Forward looking information**

While estimating the expected credit losses, the Group reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Group analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Group based on its internal data. While the internal estimates of PD, LGD rates by the Group may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

**Write-offs**

Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

**Collateral**

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as gold, cash, securities, letters of credit/guarantees, stock, current asset etc. However, the fair value of collateral affects the calculation of ECLs. The fair value of the same is based on data provided by third party or management judgements.

**Impairment of Trade receivables**

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

**3.7 Determination of fair value**

The Group measures financial instruments such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Group will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

### **3.8 Foreign Currency translation**

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of exchange ruling at the date of the transaction. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

### **3.9 Finance cost**

Finance costs represents interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to borrowers and advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability.

### **3.10 Other income and expenses**

All Other income and expense are recognized in the period they occur.

### **3.11 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered an integral part of the Group's cash management.

### **3.12 Property, plant and equipment**

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

### **3.13 Depreciation**

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 or estimated useful lives estimated by the respective management based on technical evaluation. The holding company and one of its subsidiaries, Muthoot Microfin Limited follow the Straight Line Method for providing depreciation whereas the two other subsidiaries follow Written Down Value Method.

Leasehold improvements and assets held under finance leases are depreciated over the shorter of lease term or their useful life. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

### **3.14 Capital work-in-progress**

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses. Assets which are not ready for intended use are also shown under capital work-in-progress.

### **3.15 Intangible assets**

The Group's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised by the Group over a period of 3 years, except in case of Muthoot Pappachan Technologies Limited where the computer software is amortised over a period of 10 years or over the estimated useful lives.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

### **3.16 Investment Property**

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the Group.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period. The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

**3.17 Impairment of non-financial assets**

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

**3.18 Post-employment benefits**

**3.18.1 Defined contribution schemes**

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The Group has no obligation, other than the contribution payable under the schemes. The Group recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

**3.18.2 Defined Benefit schemes**

*Gratuity*

The Group provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Group. The Group accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Group makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to other equity through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

**3.19 Share Based Payments**

The Group has formulated Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in non-financial liability and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the group revises its estimates of the number of options that are expected to vest.

**3.20 Provisions**

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

**3.21 Assets held for sale**

Assets possessed against the settlement of loans are carried in the balance sheet at a value of outstanding principal loan amount or fair value of asset whichever is lower. In case the fair value of the asset acquired is lower than the outstanding principal loan amount; then the shortfall is to be provided for in the books of account in such financial year.

These assets are classified as 'Assets held for sale' under 'Non-financial assets' till the asset acquired is finally disposed. The outstanding overdue interest and other charges will be accounted on realization basis.

Further, if on disposal of the assets so acquired, the sale proceed is higher than the receivable amount (including outstanding loan, outstanding overdue interest, other charges and interest), then the excess will be refunded to the borrowers.

**3.22 Taxes**

Income tax expense represents the sum of current tax and deferred tax.

**3.22.1 Current Tax**

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

Interest income / expenses and penalties, if any, related to income tax are included in current tax expense. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in other equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**3.22.2 Deferred tax**

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

**3.22.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses**

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

**3.23 Contingent Liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Group does not have any contingent assets in the financial statements.

**3.24 Earnings Per Share**

The Group reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

**3.25 Dividends on ordinary shares**

The Group recognises a liability to make distributions to equity holders of the Group when the distribution is authorised, and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

**3.26 Leases**

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

**Group as a lessee**

The Groups lease asset class consists of building and equipment. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

identified asset for a period of time in exchange for consideration. The Group has, at the date of transition, recognized a right-of use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are recognized at cost, which comprises the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

***Group as a lessor***

Leases where the Group does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

**3.27 Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

**3.28 Derivative Financial Instruments**

The Group enters into derivative financial instruments such as foreign exchange forward contracts to manage its exposure to foreign exchange rate risk. Derivatives are recognized at fair value and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedge relationship.

**4. Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

**4.1 Business Model Assessment**

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

#### **4.2 Defined employee benefit assets and liabilities**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### **4.3 Fair value measurement**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **4.4 Impairment of financial assets**

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

#### **4.5 Effective Interest Rate (EIR) method**

The Group's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and lifecycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### **4.6 Lease Term**

- The determination of lease term for some lease contracts in which the Group is a lessee, including whether the Group is reasonably certain to exercise lessee options.
- The determination of the incremental borrowing rate used to measure lease liabilities.

#### **4.7 Share based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

#### **4.8 Other estimates**

These include contingent liabilities, useful lives of tangible and intangible assets etc.

Transferred financial assets that are derecognised in their entirety but where the Group has continuing involvement

The Group has sold some loans and advances as a source of finance. As per terms of the deal, risk and reward has been transferred to the customer. Hence, as per the derecognition criteria of IND AS 109, including transfer of substantially all risks and rewards relating to assets being transferred to the buyer being met, the assets have been derecognised. The table below summarises the carrying amount of the derecognised financial assets.

Under previous GAAP, retained interest receivable on loan assignment transactions were recognised over the period of such assigned loans. Under Ind AS, the gain arising on said transactions are recorded upfront by discounting the future cash flows accruing in the form of differential interest on such assigned loan to their present values.

Particulars	As at 31st March 2024	As at 31st March 2023
Carrying amount of derecognised financial assets	2,31,177.11	1,80,975.19
Gain/(loss) from derecognition	30,055.52	13,631.60

Transferred financial assets that are not derecognised in their entirety

The Group uses securitisations as a source of finance and a means of risk transfer. The Group securitised its microfinance loans to different entities. These entities are not related to the Group. Also, the Group neither holds any equity or other interest nor controls them.

As per the terms of the agreement, the Group is exposed to first loss amounting to 5% - 12.5% (7.25% - 12.5% as at March 31, 2023) of the amount securitised and therefore continues to be exposed to significant risk and rewards relating to the underlying gold and microfinance loans. These receivables are not derecognised and proceeds received are recorded as a financial liability under borrowings. The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

Particulars	As at 31st March 2024	As at 31st March 2023
Carrying amount of assets re - recognised due to non transfer of assets	1,27,542.15	82,330.07
Carrying amount of associated liabilities	1,42,464.20	82,563.93

The carrying amount of above assets and liabilities is a reasonable approximation of fair value.

### (b) CSR Expenditure

As required under Section 135 of the Companies Act, 2013, the Group was required to spend INR 1,308.02 in the reporting year in pursuance of its Corporate Social Responsibility Policy, being two per cent of the average net profits made during the three immediately preceding financial years. The Group has during the year, spent a total of INR 817.82 towards CSR expenditure (including INR 166.54 out of earlier year unspent transferred to designated bank account). The unspent portion of INR 656.74 has been transferred to the designated bank account for Unspent Corporate Social Responsibility by the Group.

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
(a) Amount required to be spent by the Group during the year	1,308.02	959.62
(b) Amount of expenditure incurred	651.28	566.39
(c) Shortfall at the end of the year	656.74	393.23
(d) Total of previous year shortfall	653.46	426.77
(e) Reason for shortfall	To better serve the students, the project's scope was expanded from solely offering a sports facility for football, volleyball, cricket, and other sports to establishing a comprehensive sports academy. This academy will not only provide top-tier sports training but also include educational facilities where students can attend regular academic classes, all meeting international standards. This change was prompted by the unavailability of schools we initially planned to partner with. Groundwork at the site is underway, and we are currently updating the architectural plans to accommodate these enhanced specifications.	
(f) Nature of CSR activities	CSR activities were undertaken in the fields of Health, Education & Livelihood.	CSR activities were undertaken in the fields of Health, Education & Livelihood.
(g) Details of related party transactions		
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	N/A	N/A

(e) In view of regulatory advice and based on approval of the Board of Directors, the Company had during the year written off non-financial assets amounting to INR Nil (INR 2,345.48 during the year ended March 31, 2023) against Employees Provident Fund recovered from the Company in respect of dues towards provident fund of erstwhile staff.

### 35 Earnings Per Share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Parent Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of Parent Company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
Net profit attributable to ordinary equity holders of the parent	88,493.87	58,877.43
Weighted average number of equity shares for basic earnings per share	19,37,05,560	19,37,05,560
Effect of dilution	74,92,507	74,92,507
Weighted average number of equity shares for diluted earnings per share	20,11,98,067	20,11,98,067
Earnings per share		
Basic earnings per share (INR)	45.68	30.40
Diluted earnings per share (INR)	43.98	29.26

**36 Income Tax**

The components of income tax expense for the year ended March 31st 2024 and year ended March 31st 2023 are:

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
Current tax	35,810.60	25,252.16
Deferred tax relating to origination and reversal of temporary differences	908.71	(2,663.94)
Tax relating to prior years	137.17	-
<b>Income tax expense reported in statement of profit and loss</b>	<b>36,856.47</b>	<b>22,588.22</b>
<b>OCI Section</b>		
<b>Deferred tax related to items recognised in OCI during the period:</b>		
Net gain / (loss) on equity instruments measured through other comprehensive income	(157.28)	138.87
Remeasurement of loan assets	(551.28)	(1,380.92)
Remeasurement of the defined benefit liabilities	203.39	38.99
<b>Income tax charged to OCI</b>	<b>(505.17)</b>	<b>(1,203.06)</b>

**Reconciliation of the total tax charge:**

The tax charge shown in the statement of profit and loss differ from the tax charge that would apply if all the profits had been charged at India corporate tax rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended March 31st 2024 and year ended March 31st 2023 are as follows:

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
Accounting profit before tax	1,41,654.23	87,230.54
<b>At India's statutory income tax rate of 25.168%* (2023: 25.168%)</b>	<b>35,651.54</b>	<b>21,954.18</b>
<b>Tax effects of adjustments</b>		
Non deductible items	768.26	625.51
Adjustment on account of different tax rates	3.16	5.85
Others	(17.30)	2.68
<b>Income tax expense reported in the statement of profit or loss</b>	<b>36,719.31</b>	<b>22,588.21</b>
<b>Effective Income Tax Rate</b>	<b>25.92%</b>	<b>25.89%</b>

**Tax relating to earlier years:**

The tax relating to earlier years charged to the statement of profit & loss during the year is net of tax expense pertaining to prior years of Muthoot FinCorp Limited amounting to INR 2,522.41 and reversal of tax expense pertaining to prior years of Muthoot Microfin Limited amounting to INR 2,385.24.

Based on the order passed by the Income Tax Interim Board for Settlement, Muthoot FinCorp had voluntarily ascertained and remitted income tax aggregating to 2,522.41 during the current year, the tax of which pertained to assessment years 2010-11 to 2017-18, which has been charged to the statement of profit and loss as tax relating to earlier years. The said amount of tax pertains to notices under Section 148 for Assessment Year 2010-11 and Section 153A for the Assessment Years 2011-2012 to 2016-2017 and for Assessment Year 2017-18, assessment of which was deemed to be pending by virtue of explanation (iv) to Section 245A(b) as on date of filing the settlement application.

The reversal of tax expense relating to earlier years of Muthoot Microfin Limited pertained to reversal of excess provision for tax created for AY 2023-24 amounting to INR 2,752.36 and Income tax liability discharged based on notice of demand u/s 156 in relation to re-assessment for the AY 2019-20 of INR 367.11.

### 37 Retirement Benefit Plan

#### Defined Contribution Plan

The Group makes contributions to Provident Fund & Employee State Insurance which are defined contribution plans for qualifying employees. The amounts recognized for the aforesaid contributions in the statement of profit and loss are shown below:

Particulars	As at 31st March, 2024	As at 31st March, 2023
Contributions to Provident Fund	5,726.03	4,411.06
Contributions to Employee State Insurance	1,371.62	1,103.65
<b>Defined Contribution Plan</b>	<b>7,097.66</b>	<b>5,514.70</b>

#### Defined Benefit Plan

The Group has a defined benefit gratuity plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service gets a gratuity on leaving the service of the Group at 15 days salary (last drawn salary) for each completed year of service.

The following tables summarises the components of net benefit expense recognized in the statement of profit and loss and the funded status and amounts recognized in the balance sheet for the gratuity plan.

Particulars	As at 31st March, 2024	As at 31st March, 2023
Present value of funded obligations	5,794.67	4,763.27
Fair value of planned assets	4,362.57	4,002.20
<b>Defined Benefit obligation/(asset)</b>	<b>1,432.10</b>	<b>761.06</b>

#### Post employment defined benefit plan

Particulars	As at 31st March, 2024	As at 31st March, 2023
<b>Net benefit expense recognised in statement of profit and loss</b>		
Current service cost	886.38	710.04
Net Interest on net defined benefit liability/ (asset)	55.60	43.08
<b>Net benefit expense</b>	<b>941.99</b>	<b>753.12</b>

#### Balance Sheet

Details of changes in present value of defined benefit obligations as follows:

Particulars	As at 31st March, 2024	As at 31st March, 2023
Defined benefit obligation at the beginning of the year	4,763.27	4,322.66
Current service cost	886.38	710.04
Interest cost on benefit obligations	351.75	291.96
Actuarial (Gain) / Loss on Total Liabilities	725.72	133.93
Benefits paid	(932.45)	(695.32)
<b>Benefit obligation at the end of the year</b>	<b>5,794.67</b>	<b>4,763.27</b>

Details of changes fair value of plan assets are as follows: -

Particulars	As at 31st March, 2024	As at 31st March, 2023
Fair value of plan assets at the beginning of the year	4,002.20	3,629.98
Actual Return on Plan Assets	213.85	227.88
Employer contributions	1,060.51	808.88
Benefits paid	(913.99)	(664.54)
<b>Fair value of plan assets as at the end of the year</b>	<b>4,362.57</b>	<b>4,002.20</b>

<b>Remeasurement gain/ (loss) in other comprehensive income (OCI)</b>	As at 31st March, 2024	As at 31st March, 2023
<i>Actuarial changes arising from changes in financial assumptions</i>	(93.73)	108.21
<i>Experience adjustments</i>	(631.99)	(242.13)
Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/(asset)	(82.40)	(21.00)
<b>Actuarial (gain) / loss (through OCI)</b>	<b>(808.12)</b>	<b>(154.93)</b>

The principal assumptions used in determining gratuity obligations for the Group's plans are shown below:

Particulars	As at 31st March, 2024	As at 31st March, 2023
Salary Growth Rate	3% to 12%	3% to 12%
Discount Rate	7.13% to 7.18%	7.29% to 7.46%
Withdrawal Rate	5% to 29.59%	5% to 31%
Mortality	100% of IALM 2012-14	100% of IALM 2012-14
Interest rate on net DBO	5.15% to 7.46%	5.15% to 7.12%
Expected average remaining working life	2 Yrs to 32.77 Yrs	2 Yrs to 32.76 Yrs

Investments quoted in active markets:

Equity instruments	-	-
Debt instruments	-	-
Real estate	-	-
Derivatives	-	-
Investment Funds with Insurance Group	0 - 100%	0 - 100%
<i>Of which, Unit Linked</i>	-	-
<i>Of which, Traditional/ Non-Unit Linked</i>	0 - 100%	0 - 100%
Asset-backed securities	-	-
Structured debt	-	-
Cash and cash equivalents	-	-
<b>Total</b>	<b>0-100%</b>	<b>0-100%</b>

<This section has been intentionally left blank>

A quantitative sensitivity analysis for significant assumptions as at March 31, 2024 and March 31, 2023 are as shown below:

Assumptions	Sensitivity Level	As at 31st March, 2024	As at 31st March, 2023
Discount Rate	Increase by 1%	5,494.32	4,500.20
Discount Rate	Decrease by 1%	6,138.94	5,063.50
Further Salary Increase	Increase by 1%	6,175.80	5,063.16
Further Salary Increase	Decrease by 1%	5,455.85	4,498.16
Employee turnover	Increase by 1%	5,844.24	4,817.51
Employee turnover	Decrease by 1%	5,736.17	4,699.67
Mortality Rate	Increase in expected lifetime by 1 year	5,785.88	4,749.34
Mortality Rate	Increase in expected lifetime by 1 years	5,812.51	4,720.92

1. The weighted average duration of the defined benefit obligation as at 31st March 2024 is 5 to 10 years (2023: 4 to 11 years).
2. Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.
3. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
4. The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.

**Muthoot FinCorp Limited**  
**Notes to the Consolidated Financial Statements for the year ended 31st March 2024**  
*(Amount in INR Lakhs, except share data and unless otherwise stated)*

**39 Contingent Liabilities (to the extent not provided for)**

Particulars	As at 31st March 2024	As at 31st March 2023
<b>(i) Contingent Liabilities</b>		
(i) Income Tax Demands	3,679.87	3,420.85
(ii) Service Tax Demands	5,106.18	5,106.18
(iii) Value Added Tax Demands	-	1,327.12
(iv) Goods and Services Tax	790.52	-
(v) Bank Guarantees	215.50	43.81
(vi) Cash Margin on Securitisation	54,980.00	33,819.60

(vii) The Company had filed a Writ Petition before the Honourable High Court of Madras on 30th July, 2019 challenging the Order passed by the Income Tax Settlement Commission, Chennai Bench abating the proceedings before it relating to the Settlement Application filed by the Company dated December 17, 2017 ("Settlement Application"); and praying for stay on proceedings initiated by the Joint Commissioner of Income Tax (OSD), Central Circle, Thiruvananthapuram post abatement of proceedings by the Settlement Commission. The tax and interest due on the issues forming part of the Settlement Application totaled to ₹ 7,406 lakh. The Settlement Application related to notices received under Section 148 for Assessment Year 2010-11 and Section 153A of the Income Tax Act, as per which MFL was required to prepare true and correct return of which MFL was assessable for the Assessment Years 2011-2012 to 2016-2017 and for Assessment Year 2017-18, assessment of which was deemed to be pending by virtue of explanation (iv) to Section 245A(b) as on date of filing the settlement application. The Honourable High Court of Madras dismissed the petition filed by the Company on June 29, 2023 on the ground that the cause of action of the matter has arisen fully in Kerala and not within the territorial jurisdiction of the Honourable Madras High Court, thereby ousting its jurisdiction to entertain the petition. Accordingly, Company filed a writ petition before the High Court of Kerala, wherein the High Court passed an order on April 03, 2023 directing the interim board for settlement to reconsider the settlement application and to start afresh. The Interim Board of Settlement has passed an order dated November 15, 2023 opining on the settlement of income under the matter along with the interest to be charged and granting immunity to MFL from prosecution and penalty imposed under the Income Tax Act. The Deputy Commissioner of Income Tax, Central Circle, Thiruvananthapuram subsequently passed Orders giving effect to the Order of the Honourable Interim Board for Settlement for the Assessment Years 2010-11 to 2017-18 with demands aggregating to Rs.13,892.97 lakhs and refunds aggregating to Rs.4,675.93 lakhs. The said Orders were received on March 19, 2024. The Company evaluated the Orders passed and identified incorrect computations which has been intimated to the Central Circle, Thiruvananthapuram.

**(viii) Other commitments**

Loan commitment in respect of partly disbursed loans is INR 8,418.97 (31 March 2023 : INR 5,556.85).

41 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

Fair Value Hierarchy of assets and liabilities

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 31st March 2024:

Particulars	At FVTPL			
	Level-1	Level-2	Level-3	Total
<b>Financial Assets</b>				
Investment in JM Financial India Fund II	275.38	-	-	275.38
Investment in Strugence Debt Fund	-	997.61	-	997.61
Investments in Mutual Fund	4,203.91	-	-	4,203.91
Investments in Security Receipts	-	-	2,135.35	2,135.35
<b>Financial Liabilities</b>

Loans	-	-	2,14,366.76	2,14,366.76

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

**Level 1:** Quoted prices (unadjusted) for identical instruments in an active market;

**Level 2:** Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

**Level 3:** Inputs which are not based on observable market data (unobservable inputs).

#### Fair value technique

##### Investments at fair value

The equity instruments which are actively traded on public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued on a case-by-case basis has been classified as Level 2.

#### Investment at fair value through profit and loss

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

Investments in Security receipts (SRs) are classified as Financial Assets measured at FVTPL. Net Asset Value is as certified by the issuer of Security Receipts. Accordingly, the fair valuation technique in this regard is classified under Level 3. The disclosure of the sensitivity of the fair value measurement to changes in unobservable inputs is not considered relevant.

#### Financial Liabilities with significant unobservable inputs (Level 3)

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at March 31, 2024		As at March 31, 2023	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(390.15)	401.26	(544.00)	564.72
Discount for Lack of Marketability	(249.27)	249.27	(242.03)	242.03

#### Loan assets carried at fair value through other comprehensive income

Loan receivables valuation is carried out for two portfolios segregated on the basis of repayment frequency – monthly and weekly. The valuation of each portfolio is done by discounting the aggregate future cash flows with risk-adjusted discounting rate for the remaining portfolio tenor.

Following inputs have been used to calculate the fair value of loans receivables:

(i) Future cash flows: Include principal receivable, interest receivable and tenor information based on the repayment schedule agreed with the borrowers. Inputs include:

(ii) Risk-adjusted discount rate:

This rate has been arrived using the cost of funds approach.

The following inputs have been used:

- (i) Cost of funds
- (ii) Credit spread of borrowers
- (iii) Servicing cost of a financial asset

Loan portfolio	Fair valuation as at March 31, 2024	Fair valuation as at March 31, 2023
Monthly	2,33,664.61	1,62,454.47
Weekly	61,200.88	51,809.37
<b>Total</b>	<b>2,94,865.50</b>	<b>2,14,263.85</b>

Fair value measurement of Financial Assets sensitivity to significant unobservable inputs as at the end of each reporting period is as follows:

Particulars	Fair valuation as at March 31, 2024	Fair valuation as at March 31, 2023
<b>Impact on fair value if change in risk adjusted discount rate</b>		
- Impact due to increase of 0.50 %	(1,033.00)	(850.00)
- Impact due to decrease of 0.50 %	1,039.00	855.00
<b>Impact on fair value if change in probability of default (PD)</b>		
- Impact due to increase of 0.50 %	(501.00)	(347.00)
- Impact due to decrease of 0.50 %	503.00	348.00
<b>Impact on fair value if change in loss given default (LGD)</b>		
- Impact due to increase of 0.50 %	(18.00)	(14.00)
- Impact due to decrease of 0.50 %	18.00	14.00

<This section has been intentionally left blank>

#### Fair Value Measurement (contd...)

##### Fair value of financial instruments not measured at fair value

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

Particulars	Level	Carrying Value		Fair Value	
		As at 31st March, 2024	As at 31st March, 2023	As at 31st March, 2024	As at 31st March, 2023
<b>Financial assets</b>					
Cash and cash equivalents	1	2,41,911.80	3,35,294.75	2,41,911.80	3,35,294.75
Bank Balance other than above	1	77,408.22	57,793.13	77,408.22	57,793.13

<b>Financial Liabilities</b>					
Payable	3	6,484.32	6,164.34	6,484.32	6,164.34
Debt securities	3	3,83,276.28	4,41,658.04	3,83,276.28	4,41,658.04
Borrowings (other than debt securities)	3	24,64,326.19	18,94,542.99	24,64,326.19	18,94,542.99
Lease Liabilities	3	1,12,786.57	1,02,702.92	1,12,786.57	1,02,702.92
Subordinated liabilities	3	2,14,117.72	2,27,858.69	2,14,117.72	2,27,858.69
Other financial liabilities	3	76,427.70	85,471.58	76,427.70	85,471.58
<b>Financial Liabilities</b>		<b>32,57,418.78</b>	<b>27,58,398.55</b>	<b>32,57,418.78</b>	<b>27,58,398.55</b>

#### Valuation techniques

##### Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

##### Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics ie, type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using Effective interest rate model that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost net of impairment loss allowance is of reasonable approximation of their fair value.

##### Financial liability at amortised cost

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

**42. Segment Reporting**

The Board of Directors and the Managing Director of the Company together constitute the Chief Operating Decision Maker ("CODM"). Operating segment are components of the Group whose operating results are regularly reviewed by the CODM to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. The Group is engaged primarily on the business of "Financing" only, taking into account the risks and returns, the organization structure and the internal reporting systems. All the operations of the Group are in India. All non-current assets of the Group are located in India. Accordingly, there are no separate reportable segments as per Ind AS 108 - "Operating Segments".

**43. Change in liabilities arising from financing activities**

Particulars	As at 31st March, 2023	Cash Flows	Changes in fair value (gain)/loss	Ind AS 116 - Lease Liabilities	Others	As at 31st March, 2024

#### 44 Risk Management

The Group's principal financial liabilities comprise of borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's principal financial assets include loans, investments, cash and cash equivalents, trade receivables and other receivables that derive directly from its operations. Predominantly comprising of lending institutions, the Group is exposed to various risks that are related to lending business and operating environment. The principal objective in Group's risk management processes is to measure and monitor the various risks that Group is subject to and to follow policies and procedures to address such risks.

The Risk Management Committee of the Board of Directors constituted in accordance with the RBI directives has overall responsibility for overseeing the implementation of the risk management policy. The committee meets quarterly to review the Risk Management practices and working of the Enterprise Risk Management Department. The Committee consists of members of the Board including the Managing Director and is chaired by an Independent Director. The Enterprise Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Enterprise Risk Management department.

The Group has implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the Group. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Group has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis. The major type of risk Group faces in business are credit risk, liquidity risk, market risk and operational risk.

##### 1) Credit Risk

Credit risk is the risk that a customer or counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's major income generating activities include gold loan, sme loans, housing loan, microfinance loan, personal loans and others.

The Group addresses credit risk through following major processes:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio monitoring
- Design appropriate credit risk mitigation techniques
- Structured and standardised credit approval process
- Verification of credit history from credit bureau agencies, personal verification of customers business and residence
- Technical and Legal Verification
- Comprehensive credit risk assessment and cash flow analysis

In order to mitigate the impact of credit risk in the future profitability, the Group makes reserves basis the expected credit loss (ECL model) for the outstanding loans.

##### A) Impairment Assessment

The Group's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of material accounting policies.

##### Definition of default and cure

The Group considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikelihood to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

The Group considers a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage I
Standard grade	1-30 DPD	Stage I
Sub-standard grade	31-60 DPD	Stage II
Past due but not impaired	61-89 DPD	Stage II
Individually impaired	90 DPD or More	Stage III

#### Exposure at Default (EAD)

The outstanding balance as at the reporting date is considered as EAD by the Group.

#### Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Group assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. Where a particular portfolio is relatively new, the published average default probability for similar loans from a leading credit bureau report on lending in India has been considered. PD is calculated using Incremental 90 day DPD approach considering fresh slippage using historical information.

Based on its review of macro-economic developments and economic outlook, the Group has assessed that no adjustment is required for temporary overlays to determine qualitative impact on its PD's as at 31st March 2024 and 31st March 2023.

#### Loss Given Default (LGD)

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Group expects to receive. LGD Rates have been computed internally based on the discounted recoveries in NPA accounts that are closed/ written off/ repossessed and upgraded during the year.

When estimating ECLs on a collective basis for a group of similar assets, the Group applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

#### Significant Increase in credit risk

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

#### II) Liquidity risk

##### Asset Liability Management (ALM)

Liquidity risk refers to the risk that the Group may not meet its financial obligations. Liquidity risk arises due to the unavailability of adequate funds at an appropriate cost or tenure. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group consistently generates sufficient cash flows from operating and financial activities to meet its financial obligations as and when they fall due. The Group's treasury teams source funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. They are responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below shows the maturity pattern of the assets and liabilities:

##### Maturity pattern of assets and liabilities as on 31st March 2024:

Particulars	Upto 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
Cash and cash equivalents	2,00,124.31	2,489.25	35,266.24	-	4,032.00	-	-	-	2,41,911.80

**III) Market risk**

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Group is exposed to two types of market risk as follows:

**Interest rate risk**

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings, debt securities and subordinate liabilities are as follows:

Particulars	31st March 2024	31st March 2023
<b>On Borrowings</b>		
1% increase	(21,794.35)	(17,478.17)
1% decrease	21,794.35	17,478.17

Particulars	31st March 2024	31st March 2023
<b>On Debt Securities</b>		
1% increase	(4,124.67)	(4,445.00)
1% decrease	4,124.67	4,445.00

Particulars	31st March 2024	31st March 2023
<b>On Subordinate Liabilities</b>		
1% increase	(2,209.88)	(2,344.43)
1% decrease	2,209.88	2,344.43

#### Price risk

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified at FVTPL and FVOCI respectively".

A 10% increase/(decrease) in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/ (Decrease) in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensive Income
As at March 31, 2024	10/(10)	420.39 / (420.39)	405.78 / (405.78)
As at March 31, 2023	10/(10)	65.01 / (65.01)	319.74 / (319.74)

#### Foreign currency risk

Foreign currency risk is the risk that the value of the financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency risk for the Group arises majorly on account of foreign currency borrowings. The Group has hedged its foreign currency risk on its foreign currency borrowings as at March 31, 2024 by entering into forward contracts. The counterparties for such hedge transactions are banks. The Group's exposure on account of Foreign Currency Borrowings at the end of the reporting period is as follows:

Particulars	March 31, 2024		March 31, 2023	
	Amount in USD	Amount in INR	Amount in USD	Amount in INR
Foreign currency borrowings	855.82	70,628.85	304.83	25,069.28

Since the foreign currency exposure is completely hedged by equivalent derivative instrument, there will not be any significant impact on sensitivity analysis due to the possible change in the exchange rates where all the variables are held constant. On the date of maturity of the derivative instrument, the sensitivity of profit and loss to changes in the exchange rates will be nil.

#### Prepayment risk

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

#### Operational and business risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

**45 Employee Stock Option Plan and Stock Appreciation Plan****45.1. MUTHOOT FINCORP LIMITED**

The Company has instituted MFL Employee Stock Option Schemes and MFL Employee Stock Appreciation Right Schemes with an objective to reward employees for their association with the Company, their performance, as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company.

**45.1.1. Employee Stock Option Plan**

(i) The particulars on the Stock Option Plan are as follows:

Scheme name	MFL Employee Stock Option Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement ESOP was granted	July 13, 2018
Date of Board Meeting where grant of options were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such options were granted	744
Number of options granted	23,57,550
Method of settlement	Equity
Vesting conditions	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<p><b>For ESOP Scheme II &amp; IV, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 20%</p> <p>End of year 2 from grant date : 30%</p> <p>End of year 3 from grant date : 50%</p> <p><b>For ESOP Scheme V, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 33.33%</p> <p>End of year 2 from grant date : 33.33%</p> <p>End of year 3 from grant date : 33.33%</p> <p><b>For ESOP Scheme III, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 3 from grant date : 100%</p> <p><b>For ESOP Scheme VI, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 50%</p> <p>End of year 2 from grant date : 50%</p>
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00
Exercise period	The options can be exercised over a period of 10 years from the date of grant
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in Options:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
No. of Options :		
Outstanding at the beginning of the year	7,87,919	-
Granted during the year	14,92,984	8,64,566
Vested during the year	1,90,156	-
Exercised during the year (pending allotment)	7,902	-
Lapsed during the year	-	-
Forfeited during the year*	84,099	76,647
Outstanding at the end of year	21,88,902	7,87,919
Unvested at the end of year	20,06,648	7,87,919
Exercisable at the end of year	1,82,254	-
Money realized by exercise of options (INR)	7,90	-

\* Due to employee separations post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
Weighted average option fair value (Amount in INR)	214.20	141.00
Market price (Amount in INR)	309.63	197.66
Exercise price (Amount in INR)	100.00	100.00
Expected volatility of share price (%) *	40.50% - 43.20%	42.06% - 43.20%
Option Life (years)	5.51 to 6.51 years	5.51 to 6.51 years
Expected dividends yield (%)	-	-
Risk free interest rate (%)	7.07% to 7.31%	7.07% to 7.12%

\*The expected price volatility is determined using annualized standard deviation (a measure of volatility used in Black-Scholes-Merton option pricing) and the historic volatility based on remaining life of the options

#### 45.1.2. Employee Stock Appreciation Plan

(i) The particulars on the Stock Appreciation Plan are as follows:

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such SAR were granted	2,373
Number of SAR granted	12,85,330
Method of settlement	Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise, performance based parameters and such other conditions as mentioned in the SAR Scheme.
Vesting period	For SAR Scheme Scheme II & III, 2018 SAR will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%
Exercise Price (Amount in INR as per MFL SAR Scheme 2018)	225.00
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in SAR Options:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
No. of SAR:		
Outstanding at the beginning of the year	11,63,592.00	-
Granted during the year	42,537	12,42,793
Vested during the year	1,96,703.00	-
Exercised during the year	1,95,721.00	-
Lapsed during the year	-	-
Forfeited during the year*	36,992	79,201
Outstanding at the end of year	9,73,416	11,63,592
Unvested at the end of year	9,73,416	11,63,592
Exercisable at the end of year	-	-

\* Due to employee separations post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
Weighted average option fair value (Amount in INR)	63.18	74.18
Market price (Amount in INR)	309.63	257.05
Exercise price (Amount in INR)	225.00	225.00
Expected volatility of share price (%)*	26.97% - 34.42%	26.97% - 34.30%
Option Life (years)	0.46 to 2.59 years	0.46 to 2.46 years
Expected dividends yield (%)	-	-
Risk free interest rate (%)	6.50% to 7.22%	6.79% to 7.10%

\*The expected price volatility is determined using annualized standard deviation (a measure of volatility used in Black-Scholes-Merton option pricing) and the historic volatility based on remaining life of the options

#### 45.2. MUTHOOT HOUSING FINANCE COMPANY LIMITED

Muthoot Housing Finance Company Limited (MHFL) has formulated and implemented MHFL Employee Stock Option Plan 2019 ('ESOP 2019') at its EGM held on 7th June 2019 which provides grants up to 13,28,766 (Thirteen Lakh Twenty Eight Thousand Seven Hundred and Sixty Six) employee stock options to the eligible employees of MHFL, determined in terms of ESOP 2019, from time to time, in one or more tranches. In accordance with the ESOP 2019, each option on exercise would be eligible for one Equity Share on payment of the exercise price. As on 31 March, 2024, no options granted under ESOP Scheme 2019 have been exercised.

##### GRANT 1

MHFL had granted 11,54,380 options on 19 November 2019 at an exercise price of Rs. 43 per option representing 11,54,380 equity shares of Rs. 10 each to its employees to be settled in equity. The options would vest over a period of 1-4 years from the date of grant, but not later than 19 November 2023, depending upon options grantee completing continuous service with MHFL. Accordingly, 2,07,345 options (31 March 2023 : 2,57,814 options) were vested during the year. In the current year, 35,500 options (Previous Year: 63,000 options) lapsed/surrendered. The options can be exercised over a period of 10 years from the date of grant.

##### GRANT 2

Under Grant 2 under ESOP Scheme 2019, MHFL had granted 3,70,000 options on 01 September 2023 at an exercise price of Rs. 59 per option representing 3,70,000 equity shares of Rs. 10 each to its employees to be settled in equity. The options would vest over a period of 1-4 years from the date of grant, but not later than 01 September 2027, depending upon options grantee completing continuous service. During the current year, no options were vested.

##### GRANT 3

Under Grant 3 under ESOP Scheme 2019, MHFL had granted 45,000 options on 06 February 2024 at an exercise price of Rs. 59 per option representing 45,000 equity shares of Rs. 10 each to its employees to be settled in equity. The options would vest over a period of 1-4 years from the date of grant, but not later than 06 February 2028, depending upon options grantee completing continuous service with MHFL. During the current year, no options were vested.

##### 45.2.1 Movement during the year in Options:

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
No. of Shares :		
Outstanding at the beginning of the year	9,47,880	10,10,880
Granted during the year	4,15,000	-
Vested during the year	2,07,345	2,57,814
Exercised during the year	-	-
Lapsed during the year	35,500	63,000
Outstanding at the end of year	13,27,380	9,47,880
Unvested at the end of year	4,15,000	2,12,345
Exercisable at the end of year	9,12,380	7,35,535

##### 45.2.2 The fair value of options have been estimated on the date of grant using Black-Scholes model as under :

Particulars	GRANT 1	GRANT 2	GRANT 3
Weighted average share price (in Rs.)	43.00	58.16	58.16
Exercise price (in Rs.)	43.00	59.00	59.00
Weighted average fair value of the option	20.47	31.19	31.18
Expected volatility of share price	34.74% to 35.15%	42.43% to 44.01%	42.07% to 44.24%
Expected option life (in years)	5.51 to 7.01 years	5.51 to 7.01 years	5.51 to 7.01 years
Expected growth in dividend (p.a.)	-	-	-
Risk free interest rate (p.a.)	6.28% to 6.52%	7.06% to 7.07%	7.01% to 7.02%

Volatility has been calculated based on the daily closing market price of comparable companies.

#### 45.3. MUTHOOT MICROFIN LIMITED

Muthoot Microfin Limited (MML) has implemented Employee Stock Option Plan under Muthoot Microfin Employee Stock Option Plan 2016 ("ESOP 2016") and Muthoot Microfin Limited Employee Stock Option Plan 2022 ("ESOP 2022"). The objective is to reward employees for their association with MML, their performance as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company.

##### 45.3.1 Details of Muthoot Microfin Employee Stock Option Plan 2016:

Particulars	Grant -1 December 5, 2016	Grant -2 February 22, 2018	Grant -3 November 9, 2021	Grant -4 August 10, 2023
Date of grant	December 5, 2016	February 22, 2018	November 9, 2021	August 10, 2023
Date of Board Meeting, where ESOP was approved	December 5, 2016	February 22, 2018	November 8, 2021	August 10, 2023
Date of Committee Meeting where grant of options were approved	December 5, 2016	February 22, 2018	November 8, 2021	August 10, 2023
No. of options granted (Including 99,250 options lapsed/cancelled due to resignation of employees)	6,65,000	2,99,000	4,79,864	71,000
No. of employee to whom such options were granted	4	62	37	13

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF MUTHOOT FINCORP LIMITED

#### Report on the Audit of the Standalone Ind AS Financial Statements

#### Opinion

We have audited the accompanying Standalone Ind AS financial statements of **MUTHOOT FINCORP LIMITED ("the Company")**, which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of cash flows for the year the ended on that date and notes to the Ind AS Financial Statements, including a summary of material accounting policies and other explanatory information. ["Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit

evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	How it's been addressed in Audit
a.) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.	We have accessed the laid down systems and processes of the Company in identifying related party transactions and its ultimate disclosure in financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.
b.) Effectiveness of IT Systems and related controls.	Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be misstated in case of any control lapses in the IT system related controls. We have designed our audit procedures in

	<p>accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems on a sample basis which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password protection, external software/hardware access rights etc. Based on our sample review, no material weakness was identified in the IT related systems and controls.</p>
<p>c.) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.</p>	<p>At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapses in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have conducted physical visits to key branches and centre processing hub of the company which are considered top based on the significant gold loan and unsecured loan portfolio to identify and evaluate the effectiveness of controls in place. We have also tested on a sample basis the independent financial records maintained at the branch level and how the same is considered and incorporated in the financial statements. We have also assessed and analyzed the internal audit reports and how the major observations are dealt with and its impact on the entity's financial accounting and reporting records. Based on our sample review, no major weaknesses were identified.</p>

<p><b>d.) Computation of provision towards impairment of loan assets.</b></p> <p>As at 31st March 2024, the Company had reported a total impairment loss allowance of Rs. 29,729.05 lakhs (31st March 2023 - Rs 36,454.29 lakhs)</p> <p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>- Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>- Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<p>The audit procedures performed, among others, included:</p> <ul style="list-style-type: none"> <li>-Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> <li>-Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>-Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul>
--	---

#### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the Standalone Financial Statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available

Rangamani & Co: PH: 0477-2251474  
EMAIL: [rangamanis@rediffmail.com](mailto:rangamanis@rediffmail.com)

Krishnan Retna & Associates: PH: 8281223242  
EMAIL: [trivandrum@krishnanretna.com](mailto:trivandrum@krishnanretna.com)

and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

#### **Responsibilities of Management and those charged with governance for the standalone Ind AS Financial Statements**

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with

SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS Financial Statements, including the disclosures, and whether the Standalone Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Ind AS Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report agree with the books of account;
- d) In our opinion, the aforesaid Standalone Ind AS Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
- f) With respect to the adequacy of the internal financial controls over financial reporting with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer our separate Report in "**Annexure B**".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanation given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements.
  - ii. The company does not have any long-term contracts including derivative contracts for which there was any material foreseeable loss for which any provision is required to be made under the applicable law and Accounting Standards.
  - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the company

- iv. a) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note 51 to the Standalone Financial Statements, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in Note 51 to the Standalone Financial Statements, no funds (which are material either individually or in aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties") with the understanding, whether recorded in writing or otherwise that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.
- vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of accounts for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Refer Note No.52 to the standalone financial statements.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the Financial Year ended March 31, 2024.

## ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

Annexure referred to in Paragraph 1 under the heading 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Standalone Ind AS Financial Statements as of and for the year ended 31st March 2024.

### 1) Tangible and Intangible Assets.

- (a) In our opinion the company has maintained proper records showing particulars including quantitative details and the situation of majority of Property, Plant and Equipment. We are informed that the company is in the process of updating the details in the Fixed Asset module of the software used by the company. To ensure complete recording and updating of the assets in the fixed assets module, the company is in the process of migrating to a new software.
- (b) As informed to us, fixed assets have been physically verified by the management on a periodic basis during the course of internal branch audit conducted during the year. Since there is a regular programme of verification, we are of the opinion that it is reasonable having regard to the size of the company and the nature of its assets. We have been informed that there have been no material discrepancies during such verification.
- (c) In our opinion and according to the information and explanations given to us, the title deeds of immovable property included in Property, Plant and Equipment and in Investment Property are held in the name of the Company.
- (d) In our opinion and according to the information and explanation given to us, the company has not revalued its Property, Plant and Equipment (including Right of use of asset) or Intangible assets or both during the year.
- (e) As informed to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

### 2) Inventory and Working Capital

- (a) The Company does not have any inventory. Hence, the provisions of clause 3(ii) of the Order are not applicable to the Company.
- (b) In our opinion and according to the information and explanations given to us, the Company has obtained Working Capital Limits in excess of Rs 5 Crores in aggregate

from banks and financial Institutions and the quarterly return/statement filed by the Company with such banks or financial Institutions are in agreement with the books of accounts.

- 3) The company is a Non – Deposit taking Non-Banking Financial Company (NBFC) registered with the Reserve Bank of India. During the year, the company has made investments and in the ordinary course of business granted loans and advances in the nature of secured and unsecured loans to companies, firms, LLPs and other parties. With respect to such Investment and Loans and Advances :
- (a) As the principal business of the company is to give loans, paragraph 3(iii)(a) of the Order is not applicable to the Company.
  - (b) In our opinion, the terms and conditions of the grant of such loans are, prima facie, not prejudicial to the Interests of the Company.
  - (c) In respect of loans granted by the company, the schedule of repayment of principal and payment of interest have been stipulated. Being a non-banking finance company engaged in the business of granting loans, there are instances of irregularities in repayment of principal amount and receipt of interest as per stipulated terms. Having regard to the nature of business undertaken by the company, specific details of irregularities are not reported although the particulars of overdue for more than ninety days as per books of accounts as at the Balance Sheet date has been reported in para (d) below
  - (d) In respect of loans granted by the company, the total amount overdue for more than ninety days as per Books of Accounts as at the Balance Sheet date is Rs. 35,146.50 lakhs. In our opinion, and as per information and explanations given to us, reasonable steps have been taken by the company for recovery of the said overdue amounts.
  - (e) The provisions of paragraph 3(iii)(e) of the Order are not applicable to the company, as its principal business is to give loans.
  - (f) The company has not granted any loans or advances in the nature of loans that were either repayable on demand or without specifying any terms or period of repayment.
- 4) In our opinion, in respect of loans, investments, guarantees, and security, the company has complied with the provision of Sec 185 and 186 of the Act.
- 5) In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from the public within the meaning of sections 73 to 76 of the Act and rules framed thereunder to the extent notified.

- 6) The Government of India has not prescribed the maintenance of cost records under sub-section (1) of section 148 of the Act for any of the activities of the company and hence the provisions of this section are not applicable to the Company for the year under review.
- 7) In respect of statutory dues:
- (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales- tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues have been generally regularly deposited during the year by the company with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales- tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues were in arrears as at March 31, 2024 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us and the records of the company examined by us, the particulars of statutory dues as at 31st March 2024 which have not been deposited on account of dispute are as follows;

Statute	Nature of dues	Period to which the amount relates (Financial Year)	Amount (in lakhs)	Forum where dispute is pending
Service Tax	Tax on Income from Foreign Inward Remittances	01.02.2006 to 30.09.2007	17.20	CESTAT, Bangalore.

	Settlement			Trivandrum
GST	Short reversal of Input Tax Credit (UP GST)	2017-18	1.14	Appeallate Authority, Uttar Pradesh
GST	Dissallowance of ITC claimed (Gujarat GST)	2018-19	9.77	Deputy Commissioner of State Tax, Appeal-1, Gujarat
GST	Short reversal of Input Tax Credit and alledged non-remittance of GST on reverse charge basis on auction of gold ornaments (Karnataka GST)	2017-18	776.18	Joint Commissioner of Commercial Taxes, Appeals-V, Bangalore

8) In our opinion and according to information and explanations given to us, there are no instances of transactions not recorded in the books of accounts subsequently surrendered as income in Tax assessments.

9) Repayment of Borrowings

(a) According to the records of the company examined by us and the information and explanations given to us, the company has not defaulted in repayment of dues to any financial institution or bank or as at the balance sheet date.

With regard to debentures, there are unpaid debentures that are matured to the tune of Rs.3,764.93 lakhs as on 31.03.2024, out of which Rs.3,073.09 lakh corresponds to the principal portion and Rs.691.84 to interest. As explained to us, these are not settled since the investors have not approached the Company with the original investment documents for redemption.

(b) As per the information and explanation given to us, the Company has not been declared as a willful defaulter by any bank or financial institution or other lender.

- (c) According to the information and explanations given by us, term loans taken by the Company from financial institutions are applied for the purpose for which they were obtained.
  - (d) According to the information and explanations given by us, funds raised on short term basis have not been utilized for long term purposes.
  - (e) According to the information and explanations given by us, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures,
  - (f) According to the information and explanations given by us, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- 10) (a) According to the information and explanations given to us, and on examination of records of the Company, the Company has during the year raised funds through public issue of Non Convertible Debentures of Rs. 90,538.27 lakhs that were utilized for the purposes for which they were raised.
- (b) According to the information and explanations given to us, and on examination of records of the Company, the company has not made any preferential allotment or private placement of shares or fully or partly or optionally convertible debentures during the year and hence, the reporting requirement under clause(x)(b) of para 3 of the Order are not applicable
- 11) **Fraud and Whistleblower Complaints**
- (a) According to the information and explanations given to us, and on examination of records of the Company, instances of whistleblower complaints were raised on various occasions during the year and appropriate actions were taken against those complaints.
  - (b) No report u/s 143(12) of the Act has been filed in Form ADT-4 regarding any frauds, as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with Central Government, during the year and up to the date of this report.
  - (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) while determining the nature, timing and extent of our audit procedures.
- 12) The Company is not a Nidhi Company and accordingly, paragraph 3 (xii) of the order is not applicable to the Company.

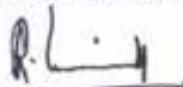

- 13) According to the information and explanations given to us and based on our examination of the records of the company, transactions with the related parties are in compliance with section 177 and 188 of the Act. Where applicable, the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- 14) (a) In our opinion, the Company has an internal audit system commensurate with the nature and size of the Company's business. Also, the comments of the Internal auditors in their report are considered by us in framing an opinion on the financial statements.
- (b) We have considered the Internal Audit reports for the year under Audit, issued to the company during the year in determining the nature, timing and extent of our Audit procedures.
- 15) According to the information and explanations given to us and based on our examination of the records of the company, the company has not entered into non-cash transactions with directors or persons connected with them.
- 16) (a) The Company being a Non Banking Financial Company is required to be registered and has obtained the Certificate of Registration as provided under sec 45IA of The Reserve Bank of India Act 1934.
- (b) The Company has a valid Certificate of Registration (CoR) from the Reserve Bank of India (RBI) for conducting Non-Banking Financial activities and no business has been conducted by the Company without a valid CoR.
- (c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence the reporting requirement under clause (xvi) (c) of para 3 of the Order is not applicable.
- (d) As informed to us, the group does not have CIC. Accordingly, reporting on paragraph 3(xvi)(d) of the Order is not applicable.
- 17) The company has not incurred any cash losses in the financial year under audit and in the immediately preceding financial year.
- 18) There has been no resignation of the statutory auditors during the financial year covered by our audit and hence the reporting requirement under clause (xviii) of para 3 of the Order is not applicable.
- 19) On the basis of the examination of financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statement and knowledge of the Board of Directors and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report that company is capable of meeting its liabilities existing at the

date of balance sheet as and when they fall due within a period of one year from the balance sheet date; We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- 20) (a) According to the information and explanation given to us and the records of the company examined by us, there are no unspent amounts towards corporate social responsibility other than ongoing projects requiring a transfer to a fund specified in schedule VII to the Act in compliance with the second proviso to sub section (5) of Section 135 of the said Act.
- (b) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has transferred unspent amount under sub section 5 of section 135 of the Companies Act, pursuant to ongoing projects to a special account in compliance with the provision of section 135(6) of the Companies Act.
- 21) According to the information and explanations given to us and based on our examination of the records of the company, there has been no adverse remarks by the respective auditors in the Companies (Auditor's Report) Order (CARO) reports of the companies included in the consolidated financial statements

**ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT**

Referred to in paragraph 2(f) under 'Report on other legal and regulatory requirements' of the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Standalone IndAS Financial Statements as of and for the year ended 31 March 2024

**REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")**

**Opinion**

We have audited the internal financial controls over financial reporting of Muthoot Fincorp Limited ("the Company"), as of March 31, 2024, in conjunction with our audit of the Standalone Ind AS Financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") Standards on Auditing, both issued by the ICAI and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

## **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with

authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Muthoot FinCorp Limited**

### **Notes forming part of Financial Statements**

#### **Summary of material accounting policies and other explanatory information**

##### **1. Corporate Information**

Muthoot FinCorp Limited, ('MFL' or 'the Company'), is a public limited company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. The company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and was classified as a Non Deposit Taking Systematically Important Loan Company (NDSI). Based on the RBI notification RBI/2021-22/112 DOR.CRE.REC.No.60/03.10.001/2021-22, dated October 22, 2021, the Company is classified as NBFC - Middle Layer (NBFC-ML) under the Scale Based Regulation for Non-Banking Financial Companies.

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold, SME Loans, Personal Loans and Loans against Property through its branch network across India. The company also offers Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The company is engaged in real estate business to a very limited extent.

MFL is the parent company of Muthoot Microfin Limited, Muthoot Housing Finance Company Limited and Muthoot Pappachan Technologies Limited.

The Company's registered office is at Muthoot Centre, TC No 27/ 3022 Punnen Road, Thiruvananthapuram, Kerala, India, 695001.

The Registration details of the Company are as follows:

Reserve Bank of India Registration no.: N - 16.00170

Corporate Identity Number (CIN): U65929KL1997PLC011518

##### **2. Basis of preparation**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction - Reserve Bank of India (Non-Banking Financial Company - Scale Based Regulation) Directions, 2023 and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC)/CC.PD.No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs.

### Basis of measurement

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVOCI) or at fair value through statement of profit or loss (FVTPL)
- ii) Investments which are held for trading
- iii) Defined benefit plans
- iv) Cumulative, Compulsorily Convertible Preference Shares issued at Fair Value through profit or loss (FVTPL)
- v) Derivative Financial Liability

### Functional and presentation currency

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Company and the currency of the primary economic environment in which the Company operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

### 3. Material accounting policies

#### 3.1 Recognition of interest income

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.

- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets. Interest income is not recognized on credit impaired assets.

#### 3.2 Recognition of revenue from sale of goods and services

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract. For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

### **3.2.1 Dividend income**

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

### **3.2.2 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

### **3.2.3 Fees and commission income**

Fees and commission income such as service charges, commission from fee based business lines, service income etc. are recognised on point in time basis.

### **3.2.4 Net gain / loss on fair value changes**

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognises gains / losses on fair value change of financial assets measured at FVTPL on net basis.

### **3.2.5 Net gain on derecognition of financial instruments**

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the excess interest spread (EIS). In accordance with Ind AS 109 and as per management practice, in case of assignment transactions with complete transfer of risks and rewards without any retention of residual interest, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognized from the Balance Sheet immediately upon execution of such transaction. Further, where the transfer of financial asset qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as receivable towards assignment transactions and correspondingly recognized as gain on derecognition of financial asset.

## **3.3 Financial Instruments**

### **1.1.1. Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on settlement date. The Company recognises debt securities and borrowings when funds reach the Company, post allotment if applicable.

### 1.1.2. Initial and subsequent measurement of financial instruments

The Company classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI)
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
4. Equity instruments in subsidiary companies at cost
5. Equity instruments measured at fair value through other comprehensive income FVTOCI

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

#### *Business model assessment*

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

#### *The SPPI test*

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Company classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

### 1.1.3. Financial assets measured at amortised cost

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and

b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

#### **1.1.4. Financial assets measured at fair value through other comprehensive income**

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and

b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVTOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

#### **1.1.5. Financial instrument measured at fair value through profit or loss**

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Company's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

#### **1.1.6. Equity instruments**

The Company subsequently measures investment in equity instruments at fair value through profit or loss, unless the Company's management has elected to classify irrevocably some of its equity investments as equity instruments at FVTOCI, when such instruments meet the definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified at FVTOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of its investment, in which case, such gains are recorded in OCI.

### 3.3.1 Financial Liabilities

#### Initial Measurement

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

#### Subsequent Measurement

Financial liabilities except cumulative compulsorily convertible preference shares and derivative financial liability, are subsequently carried at amortized cost using the effective interest method.

### 3.4 Derecognition of financial assets and liabilities

#### 3.4.1 Financial Asset

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- a) The Company has transferred its contractual rights to receive cash flows from the financial asset

or

- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients
- The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset or,
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset
- The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

### 3.4.2 Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

### 3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and/or its counter parties.

### 3.6 Impairment of financial assets

#### 3.6.1 Overview of the Expected Credit Loss (ECL) principles

The Company has created provisions on all financial assets wherever required, except for financial assets classified as FVTPL, based on the expected credit loss method.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company categorises its loans into three stages as described below:

#### For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Company recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

#### For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Company recognises lifetime ECL for impaired financial instruments.

#### **3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Company uses historical information where available to determine PD. Considering the different products, schemes, ticket size, loan to value and geographies, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information. Where historical information is not available for arriving at reasonable default probability, published probability of default for similar loan segments are used by the Company.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

**Loss Given Default (LGD)** - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. The Company uses computed discounted recoveries in NPA accounts that are closed during the year where historical information is available and uses Foundational Internal Ratings Based approach (FIRB) norms in the absence of sufficient historical trends.

#### **Forward looking information**

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

#### **Write-offs**

Loans and other assets are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

#### **Collateral**

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as gold, securities, stock, current asset etc. However, the fair value of collateral affects the calculation of ECLs. The fair value of the same is based on data provided by third party or management judgements.

### Impairment of Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

### 3.7 Determination of fair value

The Company measures financial instruments, such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

### 3.8 Foreign Currency translation

Transactions in foreign currencies, if any, are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Company uses an average rate if the same approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

### 3.9 Derivative Financial Liability

The company enters into derivative financial instruments such as foreign exchange forward contracts to manage its exposure to foreign exchange rate risk. Derivatives are recognized at fair value and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedge relationship.

### 3.10 Finance cost

Finance costs represents Interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees including upfront costs incurred in relation to borrowings, commissions payable to advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability. Interest accrued on lease liability recognized and measured in accordance with Ind AS 116 "Leases" also forms part of Finance cost.

### 3.11 Other income and expenses

All Other income and expense are recognized in the period they occur.

### 3.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash, forex balances and short-term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the Company's cash management.

### 3.13 Property, plant and equipment

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life of PPE are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

### 3.13.1 Depreciation

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 on Straight Line Method. The estimated useful lives are as follows:

Particulars	Useful life
Building	60 years
Computer	3 years
Furniture and Fixtures	5 to 30 years
Plant and Equipment	5 to 20 years
Vehicles	5 to 8 years
Windmill	22 years
Office equipment	15 years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

### 3.14 Intangible assets

The Company's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised using the Written down value method to write down the cost of intangible assets to their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on Written down value basis over a period of 3 years keeping residual value 5%.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

### 3.15 Investment Property

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs, borrowing cost and other directly attributable cost in bringing the asset to its working condition for its intended use. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period.

The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

### 3.16 Impairment of non-financial assets

The Company's assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

### 3.17 Post-employment benefits

#### 3.17.1 Defined contribution schemes

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The company has no obligation, other than the contribution payable under the schemes. The company recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

### 3.17.2 Defined Benefit schemes

#### *Gratuity*

The Company provides for gratuity covering eligible employees under which a lumpsum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Company makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

#### *Other long-term employee benefits*

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Statement of Profit and Loss. The Company presents the provision for compensated absences under provisions in the Balance Sheet.

### 3.17.3 Employee Stock Option & Employee Stock Appreciation Right

The Company has formulated its Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in Provisions and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest.

### 3.18 Provisions

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to provisions is presented in the statement of profit and loss net of any reimbursement.

### 3.19 Taxes

Income tax expense represents the sum of current tax and deferred tax.

#### 3.18.1 Current Tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### 3.18.2 Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax relating to items recognised outside profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

#### 3.18.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from and /or payable to, the taxation authority is included as part of receivables or payables respectively in the balance sheet.

### 3.20 Contingent Liabilities and assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The company does not have any contingent assets in the financial statements.

### 3.21 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

### 3.22 Dividends on ordinary shares

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

### 3.23 Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

#### *Company as a lessee*

The Company's lease asset class consist of building and equipment. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company has, at the date of transition, recognized a right-of use asset and a corresponding lease liability for all active lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are recognized at cost. The Company assesses the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease

payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

#### ***Company as a lessor***

Leases where the Company does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

### **3.24 Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

## **4 Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with the Ind AS requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

### **4.1 Business Model Assessment**

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

### **4.2 Defined employee benefit assets and liabilities**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### 4.3 Fair value measurement:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### 4.4 Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances. It has been the Company's policy to regularly review its models in the context of actual loss experience, regulatory advisories, market conditions and forecasts and revise when necessary.

#### 4.5 Effective Interest Rate (EIR) method

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### 4.6 Provisions

At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

#### 4.7 Other estimates:

These include contingent liabilities, useful lives of tangible and intangible assets etc.

# MUTHOOT FINCORP LIMITED

ECL allowance - closing balance	8,067.43	444.10	21,217.52	29,729.05	9,006.98	507.60	26,939.71	36,454.29

Transferred financial assets that are derecognised in their entirety but where the Company has continuing involvement

The Company had sold some loans and advances measured at amortised cost, as a source of finance in previous reporting periods. As per terms of the deal, risk and reward had been transferred to the customer. Hence, as per the derecognition criteria of IND AS 109, including transfer of substantially all risks and rewards relating to assets being transferred to the buyer being met, the assets were derecognised. The table below summarises the carrying amount of the derecognised financial assets:

Particulars	As at 31st March 2024	As at 31st March 2023
Carrying amount of derecognised financial assets	19,310.23	-
Gain/(loss) from derecognition	7,738.88	-

<b>Total</b>	<b>4,06,750.94</b>	<b>3,69,932.89</b>

25.1 Nature and purpose of reserve

Securities Premium

Securities premium is used to record the premium on issue of shares. This can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Statutory Reserve

Statutory Reserve represents the Reserve Fund created under Section 45-IC of the Reserve Bank of India Act, 1934. Accordingly, INR 11,256.18 (March 31, 2023; INR 9,196.22) representing 20% of profit for the year has been transferred to the reserve.

Retained Earnings

This Reserve represents the cumulative profits of the Company. This is a free reserve which can be utilised for any purpose as may be required.

Other Comprehensive Income

Other comprehensive income consists of re-measurement of net defined benefit liability and fair value changes on equity instruments measured through other comprehensive income.

#### (b) CSR Expenditure

As required under Section 135 of the Companies Act, 2013, the Company was required to spend INR 1,060.59 in the reporting year in pursuance of its Corporate Social Responsibility Policy, being two per cent of the average net profits of the company made during the three immediately preceding financial years. The Company has during the year, spent a total of INR 570.39 towards CSR expenditure (including INR 166.54 out of earlier year unspent transferred to designated bank account). The unspent portion of INR 656.74 pertaining to the current year has been transferred to the designated bank account for unspent corporate social responsibility by the Company.

<This section has been intentionally left blank>

Particulars	As on 31-03-2024	As on 31-03-2023
(a) Amount required to be spent by the company during the year	1,060.59	845.49
(b) Amount of expenditure incurred	403.85	452.26
(c) Shortfall at the end of the year	656.74	393.23
(d) Total of previous year shortfall (net of amount spent out of earlier year shortfall)	628.42	401.73
(e) Reason for shortfall	To better serve the students, the project's scope was expanded from solely offering a sports facility for football, volleyball, cricket, and other sports to establishing a comprehensive sports academy. This academy will not only provide top-tier sports training but also include educational facilities where students can attend regular academic classes, all meeting international standards. This change was prompted by the unavailability of schools in the area initially planned to partner with. Groundwork at the site is underway, and we are currently updating the architectural plans to accommodate these enhanced specifications.	
(f) Nature of CSR activities	CSR activities were undertaken in the fields of Health, Education & Livelihood.	CSR activities were undertaken in the fields of Health, Education & Livelihood.

### 35 Income Tax

The components of income tax expense for the year ended 31st March, 2024 and year ended 31st March, 2023 are:

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
Current income tax expense	20,062.43	17,609.54
Deferred tax relating to origination and reversal of temporary differences	(185.13)	(1,347.46)
Tax relating to earlier years	2,522.41	-
<b>Total tax expense reported in statement of profit and loss</b>	<b>22,399.72</b>	<b>16,262.08</b>
<b>OCI Section</b>		
Deferred tax related to items recognised in OCI during the period:		
Net gain / (loss) on equity instruments measured through other comprehensive income	528.19	(91.67)
Remeasurement of the defined benefit liabilities	(100.92)	18.48
<b>Income tax charged to OCI</b>	<b>427.27</b>	<b>(73.19)</b>

#### Reconciliation of Income tax expense:

The income tax charge shown in the statement of profit and loss differ from the income tax charge that would apply if all the profits had been charged at India corporate tax rate. A reconciliation between the income tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended 31st March 2024 and year ended 31st March 2023 is, as follows:

Particulars	For the Year Ended 31st March 2024	For the Year Ended 31st March 2023
Accounting profit before tax	78,680.62	62,243.16
At India's statutory income tax rate of 25.168%* (2023: 25.168%*)	19,802.34	15,665.36
<b>Adjustments in respect of current income tax of previous year</b>		
(i) Expenses not eligible for deduction under the Income Tax Act	891.11	2,231.29
(ii) Income chargeable to tax under separate rate of tax (capital gain)	(25.40)	(287.11)
(iii) Deductions eligible under the Income Tax Act	(605.61)	-
<b>Current income tax expense reported in the statement of profit or loss</b>	<b>20,062.43</b>	<b>17,609.54</b>
<b>Effective Income Tax Rate</b>	<b>25.50%</b>	<b>28.29%</b>

\*The Company has exercised the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019.

#### Tax relating to earlier years:

Based on the order passed by the Income Tax Interim Board for Settlement, the Company had voluntarily ascertained and remitted income tax aggregating to 2,522.41 during the current year, the tax of which pertained to assessment years 2010-11 to 2017-18, which has been charged to the statement of profit and loss as tax relating to earlier years. The said amount of tax pertains to notices under Section 148 for Assessment Year 2010-11 and Section 153A for the Assessment Years 2011-2012 to 2016-2017 and for Assessment Year 2017-18, assessment of which was deemed to be pending by virtue of explanation (iv) to Section 245A(b) as on date of filing the settlement application.

## MUTHOOT FINCORP LIMITED

Notes to standalone financial statements for the year ended March 31, 2024

(Rupees in lakhs, except for share data and unless otherwise stated)

### 36 Retirement Benefit Plan

#### Defined Contribution Plan

The Company makes contributions to Provident Fund & Employee State Insurance which are defined contribution plans for qualifying employees. The amounts recognized for the aforesaid contributions in the statement of profit and loss are shown below:

Particulars	As at 31st March 2024	As at 31st March 2023
Contributions to Provident Fund	2,774.08	2,250.15
Contributions to Employee State Insurance	812.78	666.86
<b>Defined Contribution Plan</b>	<b>3,586.86</b>	<b>2,917.00</b>

#### Defined Benefit Plan

The Company has a defined benefit gratuity plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service gets a gratuity on leaving the service of the company at 15 days salary (last drawn salary) for each completed year of service.

The following tables summarises the components of net benefit expense recognized in the statement of profit and loss and the funded status and amounts recognized in the balance sheet for the gratuity plan.

Particulars	As at 31st March 2024	As at 31st March 2023
Present value of funded obligations	3,169.44	2,745.95
Fair value of planned assets	3,045.77	2,551.55
<b>Net Defined Benefit obligation/(asset)</b>	<b>123.66</b>	<b>194.40</b>

#### Post employment defined benefit plan

Net benefit expense recognised in statement of profit and loss

Particulars	As at 31st March 2024	As at 31st March 2023
Current service cost	530.25	423.13
Net interest on net defined benefit liability/ (asset)	14.50	8.08
<b>Net benefit expense</b>	<b>544.76</b>	<b>431.21</b>

#### Balance Sheet

Details of changes in present value of defined benefit obligations as follows:

Particulars	As at 31st March 2024	As at 31st March 2023
Defined benefit obligation at the beginning of the year	2,745.95	2,711.72
Current service cost	530.25	423.13
Interest cost on benefit obligations	294.85	193.07
Actuarial (Gain) / Loss on Total Liabilities	367.40	(101.50)
Benefits paid	(679.02)	(480.48)
<b>Benefit obligation at the end of the year</b>	<b>3,169.44</b>	<b>2,745.95</b>

Details of changes fair value of plan assets are as follows: -

Particulars	As at 31st March 2024	As at 31st March 2023
Fair value of plan assets at the beginning of the year	2,551.55	2,598.21
Actual Return on Plan Assets	156.77	156.91
Employer contributions	1,016.47	276.90
Benefits paid	(679.02)	(480.48)
Fair value of plan assets as at the end of the year	3,045.77	2,551.55

Particulars	As at 31st March 2024	As at 31st March 2023
<b>Remeasurement gain/ (loss) in other comprehensive income (OCI)</b>		
Actuarial gain/(loss) on obligation	-	-
Experience adjustments	(292.98)	20.62
Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/(asset)	(33.58)	(28.08)
Actuarial changes arising from changes in financial assumptions	(74.42)	80.88
<b>Actuarial gain/(loss) (through OCI)</b>	<b>(400.98)</b>	<b>73.42</b>

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

Particulars	As at 31st March 2024	As at 31st March 2023
Salary Growth Rate	3.00%	3.00%
Discount Rate	7.18%	7.46%
Withdrawal Rate	5.00%	5.00%
Mortality	100% of IALM 2012-14	100% of IALM 2012-14
Interest rate on net DBO	7.46%	7.12%
Expected average remaining working life	27.14	27.19

Investments quoted in active markets:

Particulars	As at 31st March 2024	As at 31st March 2023
Equity Instruments	-	-
Debt Instruments	-	-
Real estate	-	-
Derivatives	-	-
Investment Funds with Insurance Company	100.00%	100.00%
Of which, Unit Linked	-	-
Of which, Traditional/ Non-Unit Linked	100.00%	100.00%
Asset-backed securities	-	-
Structured debt	-	-
Cash and cash equivalents	-	-
<b>Total</b>	<b>100.00%</b>	<b>100.00%</b>

A quantitative sensitivity analysis for significant assumptions as at 31st March 2024 and 31st March 2023 are as shown below:

Assumptions	As at 31st March 2024	As at 31st March 2023
Discount Rate	2,917.25	2,530.52
Discount Rate	3,462.60	2,996.40
Further Salary Increase	3,471.14	3,005.28
Employee turnover	2,906.08	2,519.85
Employee turnover	3,267.70	2,842.64
Mortality Rate	3,056.19	2,635.11
Mortality Rate	3,159.18	2,737.88
Mortality Rate	3,139.65	2,734.02

The weighted average duration of the defined benefit obligation as at 31st March 2024 is 10 years (31st March 2023: 11 years).  
Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.  
The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.  
The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:  
The discount rate is based on the prevailing market yields of Government of India securities at the balance sheet date for the estimated term of the obligations.  
The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.

# **MUTHOOT FINCORP LIMITED**

Notes to standalone financial statements for the year ended March 31, 2024

(Rupees in lakhs, except for share data and unless otherwise stated)

## **39. Contingent Liabilities (to the extent not provided for)**

Particulars	As at 31st March 2024	As at 31st March 2023
<b>Contingent Liabilities</b>		
(i) Income Tax Demands	3,679.87	3,420.85
(ii) Service Tax Demands	5,106.18	5,106.18
(iii) Value Added Tax Demands	-	1,327.12
(iv) Goods & Services Tax Demands	787.09	-
(v) Bank Guarantees	215.50	43.81

(vi) The Company had filed a Writ Petition before the Honourable High Court of Madras on 30th July, 2019 challenging the Order passed by the Income Tax Settlement Commission, Chennai Bench abating the proceedings before it relating to the Settlement Application filed by the Company dated December 17, 2017 ("Settlement Application"); and praying for stay on proceedings initiated by the Joint Commissioner of Income Tax (OSD), Central Circle, Thiruvananthapuram post abatement of proceedings by the Settlement Commission. The tax and interest due on the issues forming part of the Settlement Application totaled to ₹ 7,406 lakh. The Settlement Application related to notices received under Section 148 for Assessment Year 2010-11 and Section 153A of the Income Tax Act, as per which MFL was required to prepare true and correct return of which MFL was assessable for the Assessment Years 2011-2012 to 2016-2017 and for Assessment Year 2017-18, assessment of which was deemed to be pending by virtue of explanation (iv) to Section 245A(b) as on date of filing the settlement application. The Honourable High Court of Madras dismissed the petition filed by the Company on June 29, 2022 on the ground that the cause of action of the matter has arisen fully in Kerala and not within the territorial jurisdiction of the Honourable Madras High Court, thereby ousting its jurisdiction to entertain the petition. Accordingly, Company filed a writ petition before the High Court of Kerala, wherein the High Court passed an order on April 03, 2023 directing the interim board for settlement to reconsider the settlement application and to start afresh. The Interim Board of Settlement has passed an order dated November 15, 2023 opening on the settlement of income under the Income Tax Act. The Deputy Commissioner of Income Tax, Central Circle, Thiruvananthapuram subsequently passed Orders giving effect to the Order of the Honourable Interim Board for Settlement for the Assessment Years 2010-11 to 2017-18 with demands aggregating to Rs.13,892.97 lakhs and refunds aggregating to Rs.4,675.93 lakhs. The said Orders were received on March 19, 2024. The Company evaluated the Orders passed and identified incorrect computations which has been intimated to the Central Circle, Thiruvananthapuram.

#### 41 Capital

##### Capital Management

The primary objective of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains healthy credit ratings and capital ratios in order to support its business and to maximize shareholder value.

Being an NBFC-SI, the RBI requires the Company to maintain a minimum capital to risk weighted assets ratio ("CRAR") consisting of a minimum Tier 1 Capital of 12% and a combined Tier 1 & Tier 2 Capital of 15% of our aggregate risk weighted assets. The capital management process of the Company ensures to maintain a healthy CRAR at all the times. The Company has issued perpetual debt instruments aggregating to INR 20,000 (March 31, 2023 - INR 10,000) during the year thereby strengthening the regulatory capital levels.

Regulatory capital	As at 31st March 2024	As at 31st March 2023
Tier 1 Capital	3,63,171	3,06,097
Tier 2 Capital	94,900	90,219
<b>Total capital</b>	<b>4,58,071</b>	<b>3,96,316</b>
<b>Risk weighted assets</b>	<b>22,89,044</b>	<b>18,57,078</b>
<b>CRAR</b>		
Tier 1 Capital (%)	15.87%	16.48%
Tier 2 Capital (%)	4.15%	4.80%

Tier 1 Capital comprises of share capital, share premium, reserves, retained earnings including current year profits, cumulative compulsorily convertible preference shares and perpetual debt instruments subject to permissible limits. Certain adjustments are made to Ind AS-based results and reserves, in order to ensure compliance with the directions of the Reserve Bank of India. Tier 2 Capital consists of Subordinated Debt Instruments subject to permissible limits as per the directions of the Reserve Bank of India, general provisions and PDI in excess of 15% of Tier 1 Capital of the Company as at the previous year end.

### 42 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

#### Fair Value Hierarchy of assets and liabilities

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at March 31, 2024:

Particulars	At FY TPL			
	Level-1	Level-2	Level-3	Total
<b>Financial Assets</b>				
Investments-IM Financial India Fund II	275.38	-	-	275.38

#### Fair value technique

##### Investment at fair value through profit and loss

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

#### Equity instruments

The equity instruments which are actively traded in public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued as at the measurement date or at the nearest available date has been classified as Level 2.

#### Financial Liabilities with significant unobservable inputs (Level 3)

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at 31st March 2024		As at 31st March 2023	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(390.15)	401.26	(544.00)	564.72
Discount for Lack of Marketability	(249.27)	249.27	(242.03)	242.03

#### Movements in Level 3 financial instruments measured at fair value

Particulars	As at 31st March 2024	As at 31st March 2023
<b>Financial liability measured at FYTPI</b>		
Cumulative Compulsorily Convertible Preference Shares (CCCPS)		
Opening Balance	15,732.00	15,213.00
Issued during the year	-	-
Converted during the year	-	-
Change in fair value	470.00	519.00
Closing balance	16,202.00	15,732.00

#### Fair value of financial instruments not measured at fair value

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

Particulars	Level	Carrying Value		Fair Value	
		As at 31st March 2024	As at 31st March 2023	As at 31st March 2024	As at 31st March 2023

<b>Financial Liabilities</b>		<b>21,85,753.46</b>	<b>19,34,175.60</b>	<b>21,85,753.46</b>	<b>19,34,175.60</b>

#### Valuation techniques

##### Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are not of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Such amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

##### Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogeneous groups based on similar characteristics such as type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using effective interest rate model that incorporates interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost not of impairment loss allowance is a reasonable approximation of their fair value.

##### Financial liability at amortised cost

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

#### 4) Segment Reporting

In accordance with Para 4 of IND AS 108, Operating Segments, segment information has been presented in the consolidated financial statements of Muthoot FinCorp Limited and therefore, no separate disclosure has been given in standalone financial statements.

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2024

(Rupees in lakhs, except for share data and unless otherwise stated)

#### 44. Risk Management

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, investments, cash and cash equivalents and other receivables that derive directly from its operations.

As a financial holding institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of Directors continued in accordance with the RRI directives has overall responsibility for overseeing the implementation of the risk management policy. The committee meets quarterly to review the Risk Management practices and working of the Enterprise Risk Management Department. The Committee consists of members of the Board including the Managing Director and is chaired by an Independent Director. The Enterprise Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Enterprise Risk Management department.

The Company has implemented comprehensive policies and procedures to assess, monitor and manage its risk. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Company has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

The major type of risk Company faces in business are credit risk, liquidity risk, market risk and operational risk.

#### 1) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through following major processes:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio appraisal and monitoring
- Design appropriate credit risk mitigation techniques

#### A) Impairment Assessment

The Company is primarily engaged in the business of providing gold and SME loans. Whereas tenure of gold loans primarily range from 6 to 12 months, tenure of SME loans and loans against property range from 3 months to 180 months. The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the summary of material accounting policies.

#### Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on his / her contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unwillingness to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations.

The Company has considered a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)		Stages
	Not yet due	Stage I	
High grade			
Standard grade	1-30 DPD	Stage I	
Sub-standard grade	31-60 DPD	Stage II	
Past due but not impaired	61-90 DPD	Stage III	
Individually impaired	90 DPD or More	Stage III	

#### Exposure at Default (EAD)

The outstanding balance as at the reporting date is considered as EAD by the company.

#### Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information where available to determine PD. For Gold and SME loans, considering the different products, schemes, ticket size, loan to value and geographicals, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh shipment using historical information. For loans against property and personal loans, the Company has considered the published average default probability for similar loans from a leading credit bureau report on lending in India as the said portfolio is relatively new to the Company.

Based on its review of macro-economic developments and economic outlook, the Company has assessed that no adjustment is required for temporary overlays to determine qualitative impact on its PD.

#### Loss Given Default (LGD)

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Company expects to receive. LGD ratios for Gold Loans have been compared internally based on the discounted recoveries in NPA accounts that are auctioned and upgraded during the year. For other loans, LGD ratios have been arrived at guided by the Foundational Internal Ratings Based approach (IFRB) norms.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

#### Significant increase in credit risk

The internal rating model evaluates the loans on an ongoing basis. The rating model also assumes if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

#### B) Liquidity risk

##### Asset Liability Management (ALM)

Liquidity risk is the risk of being unable to raise necessary funds from the market at optimal cost to meet operational and debt servicing requirements. The purpose of liquidity management is to ensure sufficient cash flow to meet all financial commitments and to capitalise on opportunities for business expansion. Board of Directors will have overall responsibility of monitoring, supervising and control of the Asset Liability Management (ALM) mechanism. An Asset Liability Management Committee (ALCO) consisting of the Managing Director and senior executives of the Company shall be responsible for the day to day as well as periodic monitoring and control of Asset Liability management. The discussions of the ALCO is placed before the Board of Directors for review. Our treasury team sources funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. The treasury team is responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below shows the maturity pattern of the assets and liabilities.

#### Maturity pattern of assets and liabilities as on 31st March 2024:

Particulars	Up to 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total

**III) Market risk**

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factors. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Company is exposed to three types of market risk as follows:

**a) Interest rate risk**

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is subject to interest rate risk, principally because we lend to clients in fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings is as follows:

Particulars	March 31, 2024	March 31, 2023
<b>On Borrowings</b>		
1% increase	(19,070.32)	(17,768.95)
1% decrease	19,070.32	17,768.95

**b) Price risk**

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified as FVOCI. A 10% increase/decrease in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/Decrease in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensive Income
As at 31st March 2024	(0)(10)	377.48 / (377.48)	19,232.03 / (19,232.03)
As at 31st March 2023	(0)(10)	140.30 / (140.30)	18,428.10 / (18,428.10)

A sudden fall in the gold price can result in increased customer defaults where the loan amount and interest exceeds the market value of gold, though the sentimental value of the gold jewellery to the customers may induce repayment and retention of the collateral. This risk is partly mitigated by the fact that a minimum 25% margin is retained on the value of gold jewellery for the purpose of calculation of the loan amount. Further, the gold jewellery collateral is appraised solely based on the weight of the gold content, excluding the craftsmanship of the items included in the jewellery if any. Though an occasional decrease in gold prices will not increase price risk significantly on account of our adequate collateral security margins, a sustained decrease in the market price of gold can ultimately cause a decrease in the size of our loan portfolio and our interest income.

**ei) Foreign currency risk**

Foreign currency risk is the risk that the value of the financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency risk for the Company arises mainly on account of foreign currency borrowings. The Company has hedged its foreign currency risk on its foreign currency borrowings as at March 31, 2024 by entering into forward contracts. The counterparties for such hedge transactions are banks. The Company's exposure on account of Foreign Currency Borrowings at the end of the reporting period is as follows:

Particulars	March 31, 2024		March 31, 2023	
	Amount in USD	Amount in INR	Amount in USD	Amount in INR
Foreign currency borrowings	658.76	34,193.29	-	-

Since the foreign currency exposure is completely hedged by equivalent derivative instrument, there will not be any significant impact on sensitivity analysis due to the possible change in the exchange rates whose all the variables are held constant. On the date of maturity of the derivative instrument, the sensitivity of profit and loss to changes in the exchange rates will be nil.

**di) Prepayment risk**

Prepayment risk is the risk that the Company will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

**IV) Operational and business risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Company cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authentication and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

## 45 Employee Stock Option Plan and Stock Appreciation Plan

The Company has instituted MFL Employee Stock Option Schemes and MFL Employee Stock Appreciation Right Schemes with an objective to reward employees for their association with the Company, their performance, as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company.

### 45.1. Employee Stock Option Plan

(i) The particulars on the Stock Option Plan are as follows:

Scheme name	MFL Employee Stock Option Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement ESOP was granted	July 13, 2018
Date of Board Meeting where grant of options were approved	August 12, 2022
Date of grant	August 30, 2022
Nos. of employees to whom such options were granted	October 18, 2023
Number of options granted	744
Method of settlement	23,57,550
Vesting conditions	Equity
	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<p><b>For ESOP Scheme II &amp; IV, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 20%</p> <p>End of year 2 from grant date : 30%</p> <p>End of year 3 from grant date : 50%</p> <p><b>For ESOP Scheme V, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 33.33%</p> <p>End of year 2 from grant date : 33.33%</p> <p>End of year 3 from grant date : 33.33%</p> <p><b>For ESOP Scheme III, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 3 from grant date : 100%</p> <p><b>For ESOP Scheme VI, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 50%</p> <p>End of year 2 from grant date : 50%</p>
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00
Exercise period	The options can be exercised over a period of 10 years from the date of grant
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in Options:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
No. of Options:		
Outstanding at the beginning of the year	7,87,919	-
Granted during the year	14,92,984	8,64,566
Vested during the year	1,90,156	-
Exercised during the year (pending allotment)	7,902	-
Lapsed during the year	-	-
Forfeited during the year*	84,999	76,647
Outstanding at the end of year	21,88,902	7,87,919
Unvested at the end of year	20,06,648	7,87,919
Exercisable at the end of year	1,83,254	-
Money realized by exercise of options (INR)	7,90	-

\* Due to employee repurchases post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL ESOP 2018	Previous year MFL ESOP 2018
Weighted average option fair value (Amount in INR)	214.20	141.00
Market price (Amount in INR)	309.63	197.66
Exercise price (Amount in INR)	100.00	100.00
Expected volatility of share price (%) *	40.50% - 43.20%	42.06% - 43.20%
Option Life (years)	5.51 to 6.51 years	5.51 to 6.51 years
Expected dividends yield (%)	-	-
Risk free interest rate (%)	7.07% to 7.31%	7.07% to 7.12%

\* The expected price volatility is determined using annualized standard deviation in Black-Scholes-Merton option pricing and the historic volatility based on remaining life of the options

(iv) The total expense recognised for the period arising from MFL ESOP 2018 amounted to INR 1,101.59 (March 31, 2021 - INR 355.14) and the carrying amount for the corresponding liabilities as at March 31, 2024 amounted to INR 1,436.73 (March 31, 2023 - INR 355.14).

#### 45.2. Employee Stock Appreciation Plan

(i) The particulars on the Stock Appreciation Plan are as follows:

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such SAR were granted	October 18, 2023
Number of SAR granted	2,373
Method of settlement	12,85,310 Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise, performance based parameters and such other conditions as mentioned in the SAR Scheme.
Vesting period	For SAR Scheme Scheme II & III, 2018 SAR will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%

Exercise Price (Amount in INR as per MFL SAR Scheme 2018)	225.00
Pricing Formula	As per valuation from a registered valuer

(ii) Movement during the year in SAR Options:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
No. of SAR:		
Outstanding at the beginning of the year	11,63,592.00	-
Granted during the year	42,537	12,42,793
Vested during the year	1,96,703.00	-
Exercised during the year	1,95,721.00	-
Lapsed during the year	-	-
Forfeited during the year*	36,992	79,201
Outstanding at the end of year	9,73,416	11,63,592
Unvested at the end of year	9,73,416	11,63,592
Exercisable at the end of year	-	-

\* Due to employee repatriation post grant of option during the year

(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Current year MFL SAR 2018	Previous year MFL SAR 2018
Weighted average option fair value (Amount in INR)	63.18	74.18
Market price (Amount in INR)	309.63	257.05
Exercise price (Amount in INR)	225.00	225.00
Expected volatility of share price (%)**	26.97% - 34.42%	26.97% - 34.30%
Option Life (years)	0.46 to 2.59 years	0.46 to 2.46 years
Expected dividends yield (%)	-	-
Risk free interest rate (%)	6.50% to 7.22%	6.79% to 7.10%

\*\*The expected price volatility is determined using annualized standard deviation (a measure of volatility used in Black-Scholes-Merton option pricing) and the historic volatility based on remaining life of the options

(iv) The total expense recognised for the period arising from MFL SAR 2018 amounted to INR 283.93 (March 31, 2023 - INR 230.95) and the carrying amount for the corresponding liabilities as at March 31, 2024 amounted to INR 348.76 (March 31, 2023 - INR 230.95)

#### 47 Additional Disclosures as Required by the Reserve Bank of India

##### (i) Frauds

During the year there have been certain instances of fraud on the Company by officers and employees where gold loan related misappropriations / cash embezzlements / burglaries have occurred for amounts aggregating to an amount of INR 428.96 (March 31, 2023 - INR 664.83) of which the Company has recovered INR 29.90 (March 31, 2023 - INR 39.74). The Company has taken insurance cover for such losses and has filed insurance claims in this regard. Further, the Company is in the process of recovering these amounts from the employees and taking legal actions, where applicable. The value of frauds and burglaries (net of recovery), has been fully provided for.

(ii) The Company extends loans to its customers against security of gold not exceeding 75% of the value of gold. Value of gold for this purpose is taken from the rates published by the Association of Gold Loan Companies (AGLOC). AGLOC publishes the value of gold based on the immediately preceding 30 days average price of 22 karat Gold published by Bombay Bullion Association. The Company holds 48.21 tonnes of Gold as at March 31, 2024 (March 31, 2023 - 48.01 tonnes). The loan amount provided against security of gold works out to 68.89% of the value of gold as on 31st March 2024 (As at 31st March 2023 - 61.28%).

(iii) The Company's Percentage of Gold Loan to Total Assets is 73.34% as at 31st March 2024 (As at 31st March 2023 - 70.79%).

(i) Notional principal amount of exchange traded IR derivatives undertaken during the year	-	-
(ii) Notional principal amount of exchange traded IR derivatives outstanding	-	-
(iii) Notional principal amount of exchange traded IR derivatives outstanding and not "highly effective"	-	-
(iv) Mark-to-market value of exchange traded IR derivatives outstanding and not "highly effective"	-	-

#### 3.3 Disclosure on risk exposure in derivatives

##### (A) Qualitative Disclosure

The company's hedge accounting practice only allows for effective hedging relationships to be considered as hedges as per the relevant Ind AS. Hedge effectiveness is determined at the inception of the hedge relationship and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instruments. The company enters into hedge relationships where the critical terms of the hedging instruments match with the terms of the hedged item and so a qualitative and quantitative assessment of effectiveness is performed.

##### (B) Quantitative Disclosure

Particulars	As at 31st March 2024	As at 31st March 2023
(i) Derivatives (Notional Principal Amount)	35,288.11	-
(ii) Marked to Market Positions		
(a) Assets (+)	-	-
(b) Liabilities (-)	(231.18)	-
(iii) Credit Exposure	-	-
(iv) Unhedged Exposure	-	-

#### 4. Securitisation & Assignment transactions

4.1 The Company did not undertake any securitisation transactions during the year (March 31, 2023 ; Nil).

4.2 Details of assignment transactions undertaken:

Particulars	Year ended March 31, 2024	Year ended March 31, 2023
(i) Total number of loan assets assigned during the year (Nos.)	2,998	-
(ii) Book value of loan assets assigned during the year including MRR	23,782.22	-
(iii) Side consideration received during the year	21,404.00	-

4.3 Disclosure pursuant to (Transfer of Loan Exposures) Reserve Bank of India Circular No. RBI/DO/06/2021-22/36 DOB-STB-BEC-51/23.04.04/2021-22 dated September 24, 2021:

(a) Details of assignment transactions in respect of loans not in default:

Particulars	Year ended March 31, 2024	Year ended March 31, 2023
Number of Loan accounts assigned (Nos.)	2,998	-

## Independent Auditors' Report

TO

THE MEMBERS OF **MUTHOOT FINCORP LIMITED,**

Report on the Audit of the Consolidated Ind AS Financial Statements

### Opinion

We have audited the accompanying Consolidated Ind AS financial statements of **Muthoot Fincorp Limited ("the Holding Company")**, Muthoot Centre, TC No 27/ 3022, Punnen Road, Thiruvananthapuram - 695 001, its subsidiaries(together referred as "Group") which comprise the Consolidated Balance Sheet as at 31st March, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Statement of cash flows for the year then ended, including the notes to the Consolidated Ind AS Financial Statements, a summary of significant accounting policies and other explanatory information. [ hereinafter referred to as "Consolidated Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at 31st March, 2023, and its Consolidated profit including other Comprehensive Income, Consolidated Changes in equity and Consolidated cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Ind AS financial statements under the provisions

of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the Key Audit matters to be communicated in our report.

<b>Key Audit Matters</b>	<b>How it's been addressed in Audit</b>
<b>a) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.</b>	We have accessed the laid down systems and processes of the Holding Company in identifying related party transactions and its ultimate disclosure in the Consolidated Ind AS financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board of the Holding Company in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.
<b>b) Effectiveness of IT Systems and related controls.</b>	Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be

	<p>misstated in case of any control lapses in the IT system related controls. We have designed our audit procedures in accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems on a sample basis which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password protection, external software/hardware access rights etc. Based on our sample review and audit report issued by other auditors, no material weakness was identified in the IT related systems and controls of the Group.</p>
<p><b>c) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.</b></p>	<p>At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapses in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have physically visited the Holding Company's branches on a sample basis to identify and assess the effectiveness of the controls operating at the branch level. We have also tested on a sample basis the independent financial records maintained at the branch level and how the same is considered and incorporated in the Consolidated Ind AS financial statements. We have also assessed and analyzed the internal audit reports and how the major observations are dealt with and its impact on the Holding Company's financial accounting and reporting records. Based on our sample review and audit report issued by auditors of subsidiaries, no major weaknesses were identified.</p>

<p><b>d) Computation of provision towards impairment of loan assets.</b></p> <p>As at 31st March 2023, the Group had reported a total impairment loss allowance of Rs. 54,978.75 lakhs (31st March 2022 - Rs 55,626.53 lakhs)</p> <p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>- Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>- Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<p>The audit procedures performed for the Holding Company, among others, included:</p> <ul style="list-style-type: none"> <li>-Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> <li>-Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>-Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul>
---	---

#### **Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report Thereon**

The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Annual Report but does not include the Consolidated Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### **Responsibilities of Management and those charged with governance for the Consolidated Ind AS Financial Statements**

The Holding Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Ind AS financial statements that give a true and fair view of the Consolidated financial position, Consolidated financial performance, Consolidated changes in equity and Consolidated cash flows of the Group including its Associates and jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

### **Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw

attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in planning the scope of our audit work and in evaluating the results of our work; and to evaluate the effect of any identified misstatements in the consolidated Ind AS financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Other Matters**

- (a) We did not audit the financial statements / financial information of the subsidiaries, whose financial statements reflect total assets of Rs.10,15,110.04 lakhs as at 31st March, 2023, total revenues of Rs. 1,68,773.18 lakhs and net cash flows amounting to Rs.3,667.35 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements.
- (b) This financial statements / financial information has been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
- (c) Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information.

### **Report on Other Legal and Regulatory Requirements**

- 1. As required by Section 143 (3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated financial statements;
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other Comprehensive Income), the Consolidated Statement of changes in equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated financial statement;

d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder.

e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2023 taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies, incorporated in India is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer our separate Report in “**Annexure A**”.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its Directors during the year is in accordance with the provisions of Section 197 of the Act.

h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.

ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts as at 31 March 2023.

iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding company and its subsidiaries.

iv. a) The respective Managements of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, has represented to us and to the other auditors of such subsidiaries that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries, ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The respective Management of the Holding Company and its subsidiaries, which are Companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Holding Company or any of such subsidiaries, from any person or entity, including foreign entity ("Funding Parties") with the understanding, whether recorded in writing or otherwise that the Holding Company or any of such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and that performed by the auditors of the subsidiaries, which are Companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Act.
- vi. According to the information and explanations given to us and based on the CARO reports issued by us for the Holding Company and on consideration of CARO reports by statutory auditors of subsidiaries included in the consolidated financial statements of the Holding Company to which reporting under CARO is applicable, we report that there are no qualifications/adverse remarks.

## **ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT**

**Referred to in Paragraph 1(f) under 'Report on other Legal and Regulatory Requirements' of the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Consolidated Ind AS Financial Statements as of and for the year ended 31st March, 2023.**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub section 3 of Section 143 of the Companies Act, 2013 ("the Act"):**

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of **Muthoot Fincorp Limited** (hereinafter referred to as "the Holding Company") and its subsidiary companies, which includes internal financial controls over financial reporting of the Company and its subsidiaries.

### **Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ( the "Guidance Note") and the Standards on Auditing, both issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies are sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that; (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial

reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31,2023 based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to the subsidiary companies are based solely on the corresponding reports of the auditors of such company.

Our opinion is not modified in respect of the above matter.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**Significant Accounting Policies**

**1. Corporate Information**

Muthoot FinCorp Limited, (the Company), is a Public Limited Company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. The Company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and is classified as a Non- Deposit Taking Systematically Important Loan Company (NDSI).

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, together with its subsidiaries (collectively, the Group), provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold Loans through its branch network across India. The Group also offers SME Loans, Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The Company is engaged in real estate business to a very limited extent. The Company's registered office is at Muthoot Centre, TC No.14/2074-7, Punnen Road, Thiruvananthapuram, Kerala, India. The Registration details of the Company are as follows:

Corporate Identity Number (CIN): U65929KL1997PLC011518

Reserve Bank of India Registration no.: N - 16.00170

The Company has 3 subsidiaries, Muthoot Housing Finance Company Limited (or "MHFCL" or "Muthoot Housing"), Muthoot Pappachan Technologies Limited (or "MPT") and Muthoot Microfin Limited (or "MML" or "Muthoot Microfin") (formerly known as Pancharatna Securities Limited), which are incorporated in India.

Muthoot Housing Finance Company Limited (MHFCL) is a public company domiciled in India and incorporated under provision of the Companies Act, 1956 having Corporate Identity Number (CIN) - U65922KL2010PLC025624, registered with the National Housing Bank ("NHB") under Section 29 A of the National Housing Bank Act, 1987 and primarily engaged in housing finance activities. The company was incorporated on 05th March 2010, and received the Certificate of Registration from the NHB on 11th February 2011, enabling the company to carry on business as a Housing Finance Company without accepting Public Deposits. The Company received its Certificate of Commencement of Business on 1st June 2011.

Muthoot Pappachan Technologies Private Limited (MPT) having Corporate Identity Number (CIN) - U72200KL2012PLC032664 was initially registered as a Private Limited Company on 16th November 2012. Later, it was converted to Muthoot Pappachan Technologies Limited on 5th July 2013. Based in the Technopark campus at Thiruvananthapuram, the company provides consulting-led integrated portfolio of Information Technology (IT) and IT enabled services to its clients. The company in short, aims at providing software solution as service to its customers.

Muthoot Microfin Limited (MML) was incorporated as a Private Limited Company in the year 1992 under the erstwhile Companies Act, 1956 having Corporate Identity Number (CIN) - U65922KL2010PLC025624. Effective from 18 March 1998, the Company was registered as a non-deposit accepting Non-Banking Financial Company (NBFC-ND) under the rules and regulations framed by the Reserve Bank of India. The company has obtained registration under the category of Non-Banking Financial Company – Micro Finance Institutions (NBFC-MFI) w.e.f. 25 March 2015. The operations of the Company are based on the Grameen model of lending. It is designed to promote entrepreneurship among women and inclusive growth. The Company provides financial assistance through micro loans to women engaged in small income generating activities.

**2. Basis of preparation**

**2.1 Statement of Compliance**

The consolidated financial statements (CFS) of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') issued by RBI and National Housing Bank Guidelines/Regulations ('NHB directions') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Group shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

## **2.2 Presentation of financial Statements**

The Group presents its Balance Sheet in order of liquidity. The Group prepares and presents its Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the format prescribed by Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

The Group generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Group offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

## **2.3 Principles of consolidation**

The consolidated financial statements incorporate the financial statements of the Parent Company and all its subsidiaries, being the entities that it controls from the date control is gained. Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity's returns. The financial statements of subsidiaries are prepared for the same reporting year as the Parent Company. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Parent Company.

These consolidated financial statements are prepared on the following basis in accordance with Ind AS 110 on "Consolidated Financial Statements" specified under Section 133 of the Act. Following subsidiary companies have been considered in the preparation of the consolidated financial statements:

<b>Name of the Company</b>	<b>Country of incorporation</b>	<b>Consolidated as</b>	<b>% equity shareholding of MFL (Current Year)</b>	<b>% equity shareholding of MFL (Previous Year)</b>
Muthoot Housing Finance Company Limited	India	Subsidiary	80.66%	80.66%
Muthoot Pappachan Technologies Limited	India	Subsidiary	60.00%	60.00%
Muthoot Microfin Limited	India	Subsidiary	72.36%	63.61%

### **i) Subsidiaries**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

### **ii) Non-controlling interest ("NCI")**

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

### **iii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other component of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

**iv) Transactions eliminated on consolidation**

The financial statements of the Holding Company and its subsidiary used in the consolidation procedure are drawn up to the same reporting date i.e. March 31, 2023. The financial statements of the Holding Company and its subsidiary are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses. Intra-group balances and transactions, and unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment. The Group follows uniform accounting policies for like transactions and other events in similar circumstances. For additional information as required by Paragraph 2 of the General Instructions for preparation of Consolidated Financial Statements to Schedule III to the Companies Act, 2013, refer Note 50.

**2.4 Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVOCI)
- ii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)
- iii) Financial assets measured at fair value through other comprehensive income (FVOCI)
- iv) Investments which are held for trading
- v) Assets held for sale are measured at fair value less cost to sell or carrying value whichever is lower
- vi) Defined benefit plans.
- vii) Derivative Financial Instruments

**2.5 Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Group and the currency of the primary economic environment in which the Group operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

**3. Significant accounting policies**

**3.1 Recognition of interest income**

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

**3.2. Recognition of revenue from sale of goods and services**

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Group recognises revenue from contracts with customers based on a five-step model as set out in Ind 115:

**Step 1:** Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

**Step 2:** Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

**Step 3:** Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

**Step 4:** Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

**Step 5:** Recognise revenue when (or as) the Group satisfies a performance obligation

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

**3.2.1 Dividend income**

Dividend income is recognised when the Group's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

**3.2.2 Income from assignment transactions**

Income from assignment transactions i.e., present value of excess interest spread is recognised when the related loan assets are de-recognised. Interest income is also recognised on carrying value of assets over the remaining period of such assets.

**3.2.3 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

**3.2.4 Fees and commission income**

Fees and commission income such as service charges, commission from fee-based business lines, service income etc. are recognised on point in time basis.

**3.2.5 Miscellaneous Income**

All other income is recognized on an accrual basis, when there is no uncertainty in the ultimate realization/collection.

**3.3 Financial instruments**

**A. Financial Asset**

**3.3.1 Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on the date when the Company becomes party to the contractual provisions. The Group recognises debt securities, deposits and borrowings when funds reach the Group and post allotment, where applicable.

**3.3.2 Initial and subsequent measurement of financial instruments**

The Group classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI).
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL).
4. Equity instruments measured at fair value through other comprehensive income FVTOCI.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

The classification depends on the contractual terms of the financial assets' cash flows and the Group's business model for managing financial assets which are explained below:

**Business model assessment**

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Group's assessment.
- ▶ The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

**The SPPI test**

As a second step of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Group classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

**3.3.3 Financial assets measured at amortised cost**

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

**3.3.4 Financial assets measured at fair value through other comprehensive income**

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and

- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

### **3.3.5 Financial Instrument measured at fair value through profit or loss**

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Group's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

### **3.3.6 Equity instruments**

The Group subsequently measures investment in equity investments at fair value through profit or loss, unless the Group's management has elected to classify irrevocably some of its equity investments as equity instruments at FVOCI, when such instruments meet the definition of definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified at FVOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI.

## **B. Financial Liabilities**

### *Initial recognition and measurement*

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

### *Subsequent measurement*

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

## **3.4 Derecognition of financial assets and liabilities**

### **3.4.1 Financial Asset**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Group has transferred the financial asset if, and only if, either:

- a) The Group has transferred its contractual rights to receive cash flows from the financial asset
- or

- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Group retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- ▶ The Group has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- ▶ The Group cannot sell or pledge the original asset other than as security to the eventual recipients
- ▶ The Group has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Group is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- ▶ The Group has transferred substantially all the risks and rewards of the asset  
or
- ▶ The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

### **3.4.2 Financial Liability**

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

### **3.5 Offsetting**

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Group has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- a. The normal course of business
- b. The event of default
- c. The event of insolvency or bankruptcy of the Group and/or its counter parties.

### **3.6 Impairment of financial assets**

#### **3.6.1 Overview of the Expected Credit Loss (ECL) principles**

The Group has created provisions on all financial assets except for financial assets classified as FVTPL, based on the expected credit loss method. The Group also ensures maintaining the minimum provision requirement as per RBI and NHB regulations.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Group performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Group categorises its loans into three stages as described below:

For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Group compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Group recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The Group recognises lifetime ECL for impaired financial instruments.

**3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

**Loss Given Default (LGD)** – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive.

**Forward looking information**

While estimating the expected credit losses, the Group reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Group analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Group based on its internal data. While the internal estimates of PD, LGD rates by the Group may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

**Write-offs**

Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

**Collateral**

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as gold, cash, securities, letters of credit/guarantees, stock, current asset etc. However, the fair value of collateral affects the calculation of ECLs. The fair value of the same is based on data provided by third party or management judgements.

**Impairment of Trade receivables**

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

**3.7 Determination of fair value**

The Group measures financial instruments, such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Group will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

**3.8 Foreign Currency translation**

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

**3.9 Finance cost**

Finance costs represents Interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability.

**3.10 Other income and expenses**

All Other income and expense are recognized in the period they occur.

**3.11 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered an integral part of the Group's cash management.

**3.12 Property, plant and equipment**

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

**3.13 Depreciation**

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 or estimated useful lives estimated by the respective management based on technical evaluation. The holding company and one of its subsidiaries, Muthoot Microfin Limited follow the Straight Line Method for providing depreciation whereas the two other subsidiaries follow Written Down Value Method.

Leasehold improvements and assets held under finance leases are depreciated over the shorter of lease term or their useful life. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains

control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

### **3.14 Capital work-in-progress**

Capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses. Assets which are not ready for intended use are also shown under capital work-in-progress.

### **3.15 Intangible assets**

The Group's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised by the Group over a period of 3 years, except in case of Muthoot Pappachan Technologies Limited where the computer software is amortised over a period of 10 years or over the estimated useful lives.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

### **3.16 Investment Property**

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the Group.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period. The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

### **3.17 Impairment of non-financial assets**

The Groups assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

**3.18 Post-employment benefits**

**3.18.1 Defined contribution schemes**

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The Group has no obligation, other than the contribution payable under the schemes. The Group recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

**3.18.2 Defined Benefit schemes**

*Gratuity*

The Group provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenor of employment with the Group. The Group accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Group makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to other equity through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

**3.19 Share Based Payments**

The Group has formulated Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in non-financial liability and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the group revises its estimates of the number of options that are expected to vest.

**3.20 Provisions**

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

**Muthoot FinCorp Limited**  
**Notes forming part of consolidated financial statements**

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

**3.21 Assets held for sale**

Assets possessed against the settlement of loans are carried in the balance sheet at a value of outstanding principal loan amount or fair value of asset whichever is lower. In case the fair value of the asset acquired is lower than the outstanding principal loan amount; then the shortfall is to be provided for in the books of account in such financial year.

These assets are classified as 'Assets held for sale' under 'Non-financial assets' till the asset acquired is finally disposed. The outstanding overdue interest and other charges will be accounted on realization basis.

Further, if on disposal of the assets so acquired, the sale proceed is higher than the receivable amount (including outstanding loan, outstanding overdue interest, other charges and interest), then the excess will be refunded to the borrowers.

**3.22 Taxes**

Income tax expense represents the sum of current tax and deferred tax.

**3.22.1 Current Tax**

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

Interest income / expenses and penalties, if any, related to income tax are included in current tax expense. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**3.22.2 Deferred tax**

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

**3.22.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses**

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

### **3.23 Contingent Liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Group does not have any contingent assets in the financial statements.

### **3.24 Earnings Per Share**

The Group reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

### **3.25 Dividends on ordinary shares**

The Group recognises a liability to make distributions to equity holders of the Group when the distribution is authorised, and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

### **3.26 Leases**

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

#### ***Group as a lessee***

The Groups lease asset class consists of building, equipment and vehicles. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group has, at the date of transition, recognized a right-of use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are recognized at cost, which comprises the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

#### ***Group as a lessor***

Leases where the Group does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

### **3.27 Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or

expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

### **3.28 Derivative Financial Instruments**

The Group enters into derivative financial instruments such as foreign exchange forward contracts to manage its exposure to foreign exchange rate risk. Derivatives are initially recognized at fair value on the date when a derivative contract is entered into and are subsequently remeasured to their fair value at each Balance Sheet date and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedge relationship. The Group has designated the derivative financial instruments as cash flow hedges of recognized liabilities and unrecognized firm commitments.

### **3.29 Hedge Accounting**

In order to manage particular risks, the Group applies hedge accounting for transactions that meet specific criteria. At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship and the risk management objective and strategy for undertaking the hedge. Such hedges are expected to be highly effective if the hedging instrument is offsetting changes in fair value or cashflows of the hedged item attributable to the hedged risk. The assessment of hedge effectiveness is carried out at inception and on an ongoing basis to determine that the hedging relationship has been effective throughout the financial reporting periods for which they were designated.

### **3.30 Cash Flow Hedges**

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit and loss. For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognized directly in Other Comprehensive Income (OCI) within equity (cash flow hedging reserve). The ineffective portion of the gain or loss on the hedging instrument is recognized immediately in the Statement of Profit and Loss. When the hedged cash flow affects the Statement of Profit and Loss, the effective portion of the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the Statement of Profit and Loss. When a hedging instrument is expired, sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognized in OCI at that time remains in OCI and is recognized when the hedged forecast transaction is ultimately recognized in the Statement of Profit and Loss. When a forecasted transaction is no longer expected to occur, the cumulative gain or loss that was reported in OCI is immediately transferred to the Statement of Profit and Loss.

## **4. Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

### **4.1 Business Model Assessment**

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity

to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

#### **4.2 Defined employee benefit assets and liabilities**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### **4.3 Fair value measurement**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **4.4 Impairment of financial assets**

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

#### **4.5 Effective Interest Rate (EIR) method**

The Group's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and lifecycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### **4.6 Lease Term**

- The determination of lease term for some lease contracts in which the Group is a lessee, including whether the Group is reasonably certain to exercise lessee options.
- The determination of the incremental borrowing rate used to measure lease liabilities.

#### **4.7 Share based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

#### **4.8 Other estimates**

These include contingent liabilities, useful lives of tangible and intangible assets etc.

*Note 8 continued*

**Transferred financial assets that are derecognised in their entirety but where the Group has continuing involvement**

The Group has sold some loans and advances as a source of finance. As per terms of the deal, risk and reward has been transferred to the customer. Hence, as per the derecognition criteria of IND AS 109, including transfer of substantially all risks and rewards relating to assets being transferred to the buyer being met, the assets have been derecognised. The table below summarises the carrying amount of the derecognised financial assets.

Under previous GAAP, retained interest receivable on loan assignment transactions were recognised over the period of such assigned loans. Under Ind AS, the gain arising on said transactions are recorded upfront by discounting the future cash flows accruing in the form of differential interest on such assigned loan to their present values.

Particulars	As at 31st March 2023	As at 31st March 2022
Carrying amount of derecognised financial assets	1,80,975.19	1,67,158.19
Gain/(loss) from derecognition	11,153.74	9,140.61

**Transferred financial assets that are not derecognised in their entirety**

The Group uses securitisations as a source of finance and a means of risk transfer. The Group securitised its microfinance loans to different entities. These entities are not related to the Group. Also, the Group neither holds any equity or other interest nor controls them.

As per the terms of the agreement, the Group is exposed to first loss amounting to 7.25% - 12.5% (7.25% - 12% as at March 31, 2022) of the amount securitised and therefore continues to be exposed to significant risk and rewards relating to the underlying gold and microfinance loans. These receivables are not derecognised and proceeds received are recorded as a financial liability under borrowings.

The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

Particulars	As at 31st March 2023	As at 31st March 2022
Carrying amount of assets re - recognised due to non transfer of assets	82,330.07	38,497.06
Carrying amount of associated liabilities	82,563.93	41,304.17

The carrying amount of above assets and liabilities is a reasonable approximation of fair value.

**Note a**

(i) The Group had during the previous year, issued 15,00,00,000, 14% CCCPS of INR 10 each at a price of INR 10 each to BPEA Credit – India Fund III – Scheme C & BPEA Credit – India Fund III – Scheme F (Collectively referred as investors) amounting to INR 15,000. The equity shares issued upon Conversion of the CCPS will in all respects rank pari passu with equity shares at the time of conversion.

(ii) CCCPS shall be convertible to equity shares at the option of the investor at any time after the expiry of a period of 43 (forty three) months from the Closing Date (refer paragraph iii for exception) or upon the expiry of a period of 10 (ten) years from the Closing Date and shall be converted at lower of the fair values of the Equity Shares as determined by the:

(a) valuation report dated December 9, 2020 issued by Ernst & Young Merchant Banking Services LLP in relation to the issuance of the CCCPS; or  
(b) valuation report to be issued by a registered valuer (in a form acceptable to the holders of the CCCPS) following the issuance of the Conversion Notice by the holders of the CCCPS.

(iii) The holders of the CCCPS may issue the Conversion Notice at any time after the Closing Date, upon the occurrence of any of the following events:

(a) non-payment of dividend by the Company in manner stipulated as per agreement on the relevant dividend payment dates,  
(b) credit rating of the Company falling below A- (as certified by any credit rating agency); and/or  
(c) any failure by the Company to maintain a Net Interest Margin of 7.0 (Seven percent) % or higher;  
(d) any failure by the Company to maintain an overall Capital to Risk Assets Ratio of 16.0 (Sixteen percent) % or higher;  
(e) any failure by the Company to maintain the aggregate Tier 2 Capital at 50% (Fifty percent) or lower than the aggregate Tier 1 Capital; or  
(f) any failure by the Company to maintain the Gross Non-Performing Assets at 5.5% (Five decimal five percent) or lower and Net Non-Performing Assets at 4.0% (Four percent) or lower, to be tested on a semi-annual basis for Company as on (a) 31 March of each financial year, and (b) 30 September of each financial year

**Note b - Change in fair value**

Particulars	As at 31st March 2023	As at 31st March 2022
Cumulative change in fair value of the preference shares attributable to changes in credit risk	732.00	213.00
Change during the year in the fair value of the preference shares attributable to changes in credit risk	519.00	213.00

**Note c - Derivative Financial Instruments**

The Group undertakes derivative transactions for hedging exposures relating to foreign currency borrowings. The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts. The notional amounts indicate the value of transactions outstanding at the year end and are not indicative of either the market risk or credit risk.

Particulars	As at March 31, 2023	
	Notional Amounts	Fair Value Liabilities
<b>(i) Currency derivatives:</b>		
-Forward Contracts	26,062.40	89.19
<b>Total</b>	<b>26,062.40</b>	<b>89.19</b>
Included in above are derivatives held for hedging and risk management purposes as follows:		
(i) Fair value hedging:	-	-
(ii) Cash flow hedging:		
- Currency derivatives	26,062.40	89.19

Other Comprehensive income	5,860.25	3,538.77
<b>Total</b>	<b>3,53,987.03</b>	<b>2,99,408.96</b>

**24.1. Nature and purpose of reserve****Securities Premium**

Securities premium is used to record the premium on issue of shares. This can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

**Statutory Reserve (Pursuant to Section 45-IC of the RBI Act 1934)**

Statutory Reserve represents the Reserve Fund created under Section 45-IC of the Reserve Bank of India Act, 1934.

**Statutory Reserve (Pursuant to Section 29C of the NHB Act 1987)**

Statutory reserve is created in terms of Section 29C of the National Housing Bank Act, 1987 read with Section 36(1)(viii) of the Income Tax Act, 1961.

**Retained Earnings**

This Reserve represents the cumulative profits of the Group. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

**General reserve**

Represents the profits or losses made by the Employee Welfare Trust on account of issue or sale of treasury stock.

**Employee stock options outstanding**

The account is used to recognise the grant date value of options issued to employees under Employee stock option plan and adjusted as and when such options are exercised or otherwise expire.

**Other comprehensive income**

Changes in the fair value of loan assets held with the business objective of collect and sell are recognised in other comprehensive income. These changes are accumulated within the FVOCI debt investments reserve within equity. The company transfers amounts from this reserve to the statement of profit and loss when the loan assets are sold. Any impairment loss on such loans are reclassified immediately to the statement of profit and loss. Other comprehensive income also consists of re-measurement of net defined benefit liability and fair value changes on equity instruments measured through other comprehensive income.

(e) Reason for shortfall	<p>Major portion of the funds was allocated for the Sports Infrastructure project at Palakkad. Due to COVID situations, the process of getting work permit has gotten delayed and is awaited from the concerned Department. The Smile Please mission- Gulbarga &amp; another partnership project in Rajasthan also got delayed due to the COVID third wave and Omicron challenges.</p> <p>With regard to the Sports Infrastructure project at Palakkad, based on advise from Architects, a wider road alternative had to be considered, evaluation and negotiations of which delayed the start of the construction work.</p>	

Particulars	For the Year Ended 31st March 2023	For the Year Ended 31st March 2022
(f) Nature of CSR activities	CSR activities were undertaken in the fields of Health, Education & Livelihood.	CSR activities were undertaken in the fields of Health, Education & Livelihood.
(g) Details of related party transactions	N/A	N/A
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	N/A	N/A

(c) In view of regulatory advise and based on approval of the Board of Directors, the Company has during the year written off non-financial assets amounting to INR 2,345.48 against Employees Provident Fund recovered from the Company in respect of dues towards provident fund of erstwhile staff.

### 34 Earnings Per Share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Parent Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of Parent Company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the Year Ended 31st March 2023	For the Year Ended 31st March 2022
Net profit attributable to ordinary equity holders of the parent	58,877.43	39,170.72
Weighted average number of equity shares for basic earnings per share	19,37,05,560	19,37,05,560
Effect of dilution	74,92,507	60,96,643
Weighted average number of equity shares for diluted earnings per share	20,11,98,067	19,98,02,203
Earnings per share		
Basic earnings per share (INR)	30.40	20.22
Diluted earnings per share (INR)	29.26	19.60

**Muthoot FinCorp Limited**

**Muthoot FinCorp Limited****Notes to the Consolidated Financial Statements for the year ended 31st March 2023***(Amount in INR Lakhs, except share data and unless otherwise stated)***36 Retirement Benefit Plan****Defined Contribution Plan**

The Group makes contributions to Provident Fund & Employee State Insurance which are defined contribution plans for qualifying employees. The amounts recognized for the aforesaid contributions in the statement of profit and loss are shown below:

Particulars	As at 31st March, 2023	As at 31st March, 2022
Contributions to Provident Fund	4,411.06	3,883.35
Contributions to Employee State Insurance	1,103.65	1,057.38
<b>Defined Contribution Plan</b>	<b>5,514.70</b>	<b>4,940.73</b>

**Defined Benefit Plan**

The Group has a defined benefit gratuity plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service gets a gratuity on leaving the service of the Group at 15 days salary (last drawn salary) for each completed year of service.

The following tables summaries the components of net benefit expense recognized in the statement of profit and loss and the funded status and amounts recognized in the balance sheet for the gratuity plan.

Particulars	As at 31st March, 2023	As at 31st March, 2022
Present value of funded obligations	4,763.27	4,322.66
Fair value of planned assets	4,002.20	3,629.98
<b>Defined Benefit obligation/(asset)</b>	<b>761.06</b>	<b>692.68</b>

**Post employment defined benefit plan**

Net benefit expense recognised in statement of profit and loss	As at 31st March, 2023	As at 31st March, 2022
Current service cost	710.04	732.36
Net Interest on net defined benefit liability/ (asset)	43.08	139.67
<b>Net benefit expense</b>	<b>753.12</b>	<b>872.04</b>

**Balance Sheet****Details of changes in present value of defined benefit obligations as follows:**

Particulars	As at 31st March, 2023	As at 31st March, 2022
Defined benefit obligation at the beginning of the year	4,322.66	3,757.45
Current service cost	710.04	732.36
Interest cost on benefit obligations	291.96	237.70
Actuarial (Gain) / Loss on Total Liabilities	133.93	36.19
Benefits paid	(695.32)	(441.05)
<b>Benefit obligation at the end of the year</b>	<b>4,763.27</b>	<b>4,322.66</b>

Details of changes fair value of plan assets are as follows: -

Particulars	As at 31st March, 2023	As at 31st March, 2022
Fair value of plan assets at the beginning of the year	3,629.98	1,570.65
Actual Return on Plan Assets	227.88	152.56
Employer contributions	808.88	2,342.96
Benefits paid	(664.54)	(436.18)
<b>Fair value of plan assets as at the end of the year</b>	<b>4,002.20</b>	<b>3,629.99</b>

Remeasurement gain/ (loss) in other comprehensive income (OCI)	As at 31st March, 2023	As at 31st March, 2022
<i>Actuarial changes arising from changes in financial assumptions</i>	108.21	84.02
<i>Experience adjustments</i>	(242.13)	(187.95)
Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/(asset)	(21.00)	122.27
<b>Actuarial (gain) / loss (through OCI)</b>	<b>(154.93)</b>	<b>18.34</b>

The principal assumptions used in determining gratuity obligations for the Group's plans are shown below:

Particulars	As at 31st March, 2023	As at 31st March, 2022
Salary Growth Rate	3% to 12%	0 % to 10%
Discount Rate	7.29% to 7.46%	4.25 % to 5.79%
Withdrawal Rate	5% to 31%	5 % to 23%
Mortality	100% of IALM 2012-14	100% of IALM 2006-2008
Interest rate on net DBO	5.15% to 7.12%	4.25 % to 5.79%
Expected average remaining working life	2 Yrs to 32.76 Yrs	2 Yrs to 33.08Yrs

<This section has been intentionally left blank>

A quantitative sensitivity analysis for significant assumptions as at March 31, 2023 and March 31, 2022 are as shown below:

Assumptions	Sensitivity Level	As at 31st March, 2023	As at 31st March, 2022
Discount Rate	Increase by 1%	4,500.20	4,090.48
Discount Rate	Decrease by 1%	5,063.50	4,617.29
Further Salary Increase	Increase by 1%	5,063.16	4,645.79
Further Salary Increase	Decrease by 1%	4,498.16	4,034.70
Employee turnover	Increase by 1%	4,817.51	4,366.69
Employee turnover	Decrease by 1%	4,699.67	4,271.16
Mortality Rate	Increase in expected lifetime by 1 year	4,749.34	4,353.86
Mortality Rate	Increase in expected lifetime by 3 years	4,720.92	4,263.10

1. The weighted average duration of the defined benefit obligation as at 31st March 2023 is 4 to 11 years (2022: 5 to 10 years).
2. Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.
3. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
4. The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:

*The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.*

*The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.*

**Muthoot FinCorp Limited****Notes to the Consolidated Financial Statements for the year ended 31st March 2023**

(Amount in INR Lakhs, except share data and unless otherwise stated)

**38 Contingent Liabilities (to the extent not provided for)**

Particulars	As at 31st March 2023	As at 31st March 2022
<b>(i) Contingent Liabilities</b>		
(i) Income Tax Demands	3,420.85	3,419.85
(ii) Service Tax Demands	5,106.18	5,106.18
(iii) Value Added Tax Demands	1,327.12	1,327.12
(iv) Bank Guarantees	43.81	36.90
(v) Claims not acknowledged as debt in view of counter claims raised	-	917.78
(vi) Cash Margin on Securitisation	33,819.60	20,253.40

(vii) The Company had filed a Writ Petition before the Honourable High Court of Madras on 30th July, 2019 challenging the Order passed by the Income Tax Settlement Commission, Chennai Bench abating the proceedings before it relating to the Settlement Application filed by the Company dated December 17, 2017 ("Settlement Application"); and praying for stay on proceedings initiated by the Joint Commissioner of Income Tax (OSD), Central Circle, Thiruvananthapuram post abatement of proceedings by the Settlement Commission. The tax and interest due on the issues forming part of the Settlement Application totaled to ₹ 7,406 lakh. The Settlement Application related to notices received under Section 147 of the Income Tax Act, as per which the income chargeable to tax for the Financial Years 2011-12 to 2016-17 of MFL has not been assessed, and Section 153A of the Income Tax Act, as per which MFL was required to prepare true and correct return of which MFL was assessable for the Assessment Years 2011-2012 to 2016-2017. The Honourable High Court of Madras has dismissed the petition filed by the Company on June 29, 2022 on the ground that the cause of action of the matter has arisen fully in Kerala and not within the territorial jurisdiction of the honourable Madras High Court, thereby ousting its jurisdiction to entertain the petition. Accordingly, the Company has filed a writ petition before the Honorable High Court of Kerala proceedings of which are ongoing.

(viii) Other commitments

Loan commitment in respect of partly disbursed loans is INR 5,556.85 (31 March 2022 : INR 4,419.14).

**40 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

**Fair Value Hierarchy of assets and liabilities**

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 31st March 2023:

Particulars	At FVTPL			
	Level-1	Level-2	Level-3	Total

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

**Level 1:** Quoted prices (unadjusted) for identical instruments in an active market;

**Level 2:** Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

**Level 3:** Inputs which are not based on observable market data (unobservable inputs).

#### Fair value technique

##### Investments at fair value

The equity instruments which are actively traded on public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued on a case-by-case has been classified as Level 2.

##### Investment at fair value through profit and loss

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

Investments in Security receipts (SRs) are classified as Financial Assets measured at FVTPL. Since the investment was made in the month of March 2023 and the investment value approximates the net asset value as at March 31, 2023 as confirmed by the Asset Reconstruction Company (ARC), disclosure of sensitivity of fair value measurement in unobservable inputs is not considered relevant.

##### Financial Liabilities with significant unobservable inputs (Level 3)

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at March 31, 2023		As at March 31, 2022	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(544.00)	564.72	(511.25)	531.08
Discount for Lack of Marketability	(242.03)	242.03	(234.05)	234.05

**Loan assets carried at fair value through other comprehensive income**

Loan receivables valuation is carried out for two portfolios segregated on the basis of repayment frequency – monthly and weekly. The valuation of each portfolio is done by discounting the aggregate future cash flows with risk-adjusted discounting rate for the remaining portfolio tenor.

Following inputs have been used to calculate the fair value of loans receivables:

(i) Future cash flows: Include principal receivable, interest receivable and tenor information based on the repayment schedule agreed with the borrowers. Inputs include:

(ii) Risk-adjusted discount rate:

This rate has been arrived using the cost of funds approach.

The following inputs have been used:

(i) Cost of funds

(ii) Credit spread of borrowers

(iii) Servicing cost of a financial asset

Loan portfolio	Fair valuation as at March 31, 2023	Fair valuation as at March 31, 2022
Monthly	1,51,105.20	1,46,330.73
Weekly	48,833.30	65,938.08
<b>Total</b>	<b>1,99,938.50</b>	<b>2,12,268.82</b>

Fair value measurement of Financial Assets sensitivity to significant unobservable inputs as at the end of each reporting period is as follows:

Particulars	Fair valuation as at March 31, 2023	Fair valuation as at March 31, 2022
<b>Impact on fair value if change in risk adjusted discount rate</b>		
- Impact due to increase of 0.50 %	(850.00)	(916.00)
- Impact due to decrease of 0.50 %	855.00	922.00
<b>Impact on fair value if change in probability of default (PD)</b>		
- Impact due to increase of 0.50 %	(347.00)	(316.00)
- Impact due to decrease of 0.50 %	348.00	317.00
<b>Impact on fair value if change in loss given default (LGD)</b>		
- Impact due to increase of 0.50 %	(14.00)	(89.00)
- Impact due to decrease of 0.50 %	14.00	89.00

**Reconciliation**

The following tables show the reconciliation of the opening and closing amounts of Level 3 financial assets and liabilities measured at fair value:

Particulars	As at 31st March 2023		As at 31st March 2022

<b>Financial Liabilities</b>		<b>27,58,398.56</b>	<b>24,46,357.19</b>	<b>27,58,398.56</b>	<b>24,46,357.19</b>

**Valuation techniques****Short-term financial assets and liabilities**

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

**Loans and advances to customers**

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics ie, type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using Effective interest rate model that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost net of impairment loss allowance is of reasonable approximation of their fair value.

**Financial liability at amortised cost**

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

**Muthoot FinCorp Limited**

(Amount in INR Lakhs, except share data and unless otherwise stated)

**41 Segment Reporting**

The Board of Directors and the Managing Director of the Company together constitute the Chief Operating Decision Maker (“CODM”). Operating segment are components of the Group whose operating

results are regularly reviewed by the CODM to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The Group is engaged primarily on the business of “Financing” only, taking into account the risks and returns, the organization structure and the internal reporting systems. All the operations of the Group

are in India. All non-current assets of the Group are located in India. Accordingly, there are no separate reportable segments as per Ind AS 108 – “Operating Segments”.

**43 Risk Management**

The Group's principal financial liabilities comprise of borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the Group's operations. The Group's principal financial assets include loans, investments, cash and cash equivalents, trade receivables and other receivables that derive directly from its operations.

As a financial lending institution, Group is exposed to various risks that are related to lending business and operating environment. The principal objective in Group's risk management processes is to measure and monitor the various risks that Group is subject to and to follow policies and procedures to address such risks.

The Groups Risk Management Committee (RMC) comprise of the Board of directors constituted in accordance with the RBI rules. The RMC has overall responsibility for overseeing the implementation of the Risk Management Policy. The committee meets on a quarterly basis to review the risk management practices and working of the risk management department. The committee is chaired by an Independent Director. Risk Management Department periodically places its report to the committee for review. The committee's suggestions for improving the risk management practices are implemented by the Risk Management Department.

The Group has implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the Group. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Group has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

The major type of risk Group faces in business are credit risk, liquidity risk, market risk and operational risk.

**I) Credit Risk**

Credit risk is the risk that a customer or counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's major income generating activity is gold loan, housing loan, microfinance loan personal loans and others.

The Group addressess credit risk through following major processess:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio monitoring
- Design appropriate credit risk mitigation techniques
- Structured and standardised credit approval process
- Verification of credit history from credit bureau agencies, personal verification of customers business and residence
- Technical and Legal Verification
- Comprehensive credit risk assessment and cash flow analysis

In order to mitigate the impact of credit risk in the future profitability, the Company makes reserves basis the expected credit loss (ECL model) for the outstanding loans.

**A) Impairment Assessment**

The Group's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of significant accounting policies.

**Definition of default and care**

The Group considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

The Group considers a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

<b>Rating</b>	<b>Loans Days past due (DPD)</b>	<b>Stages</b>
High grade	Not yet due	Stage I
Standard grade	1-30 DPD	Stage I
Sub-standard grade	31-60 DPD	Stage II
Past due but not impaired	61-89 DPD	Stage II
Individually impaired	90 DPD or More	Stage III

***Exposure at Default (EAD)***

The outstanding balance as at the reporting date is considered as EAD by the Group.

***Probability of default (PD)***

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Group assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Group uses historical information where available to determine PD. Considering the different products and schemes, the Group has bifurcated its loan portfolio into various pools. PD is calculated using Incremental 90 day DPD approach considering fresh slippage using historical information. Based on its review of macro-economic developments and economic outlook, the Group has assessed that no adjustment is required for temporary overlays to determine qualitative impact on its PD's as at 31st March 2023 and 31st March 2022.

***Loss Given Default (LGD)***

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Group expects to receive.

LGD Rates have been computed internally based on the discounted recoveries in NPA accounts that are closed/ written off/ repossessed and upgraded during the year.

When estimating ECLs on a collective basis for a group of similar assets, the Group applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

***Significant Increase in credit risk***

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

**II) Liquidity risk*****Asset Liability Management (ALM)***

Liquidity risk refers to the risk that the Group may not meet its financial obligations. Liquidity risk arises due to the unavailability of adequate funds at an appropriate cost or tenure. The objective of liquidity risk management, is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group consistently generates sufficient cash flows from operating and financial activities to meet its financial obligations as and when they fall due. Our treasury team sources funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. They are responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

**III) Market risk**

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Group is exposed to two types of market risk as follows:

**Interest rate risk**

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings, debt securities and subordinate liabilities are as follows:

Particulars	31st March 2023	31st March 2022
<b>On Borrowings</b>		
1% increase	(17,478.17)	(15,288.07)
1% decrease	17,478.17	15,288.07

Particulars	31st March 2023	31st March 2022
<b>On Debt Securities</b>		
1% increase	(4,445.00)	(4,650.86)
1% decrease	4,445.00	4,650.86

Particulars	31st March 2023	31st March 2022
<b>On Subordinate Liabilities</b>		
1% increase	(2,344.43)	(2,465.17)
1% decrease	2,344.43	2,465.17

#### **Price risk**

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified at FVTPL and FVOCI respectively”.

A 10% increase/(decrease) in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/ (Decrease) in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensive Income
As at March 31, 2023	10/(10)	65.01 / (65.01)	319.74 / (319.74)
As at March 31, 2022	10/(10)	407.64 / (407.64)	354.10 / (354.10)

#### **Prepayment risk**

Prepayment risk is the risk that the Group will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

#### **Operational and business risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

#### 44 Employee Stock Option Plan and Stock Appreciation Plan

The Company has launched MFL Employee Stock Option Schemes and MFL Employee Stock Appreciation Right Schemes during the year with an objective to reward employees for their association with the Company, their performance as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company.

##### 44.1. Employee Stock Option Plan

###### (i) The particulars on the Stock Option Plan are as follows:

Scheme name	MFL Employee Stock Option Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement ESOP was granted	July 13, 2018
Date of Board Meeting where grant of options were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such options were granted	301
Number of options granted	8,64,566
Method of settlement	Equity
Vesting conditions	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<p><b>For ESOP Scheme II &amp; IV, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 20%</p> <p>End of year 2 from grant date : 30%</p> <p>End of year 3 from grant date : 50%</p> <p><b>For ESOP Scheme V, 2018</b></p> <p>Option will be vested at the:</p> <p>End of year 1 from grant date : 33.33%</p> <p>End of year 2 from grant date : 33.33%</p> <p>End of year 3 from grant date : 33.33%</p>
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00
Exercise period	The options can be exercised over a period of 10 years from the date of grant.
Pricing Formula	As per valuation from a registered valuer

<This section has been intentionally left blank>

**(ii) Movement during the year in Options:**

Particulars	MFL ESOP 2018
No. of Options :	
Outstanding at the beginning of the year	-
Granted during the year	8,64,566
Vested during the year	-
Exercised during the year	-
Lapsed during the year	-
Cancelled during the year*	76,647
Outstanding at the end of year	7,87,919
Unvested at the end of year	7,87,919
Exercisable at the end of year	-

\* Due to employee separations post grant of option during the year

**(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:**

Particulars	MFL ESOP 2018
Weighted average option fair value (Amount in INR)	141
Exercise price (Amount in INR)	100.00
Expected volatility of share price (%) *	42.06% - 43.20%
Option Life (years)	5.51 to 6.51 years
Expected dividends yield (%)	-
Risk free interest rate (%)	7.07% to 7.12%

\*The expected volatility was determined based on historical volatility data of comparable peers whose are shares are listed

**44.2. Employee Stock Appreciation Plan****(i) The particulars on the Stock Appreciation Plan are as follows:**

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such SAR were granted	2,315
Number of SAR granted	12,42,793
Method of settlement	Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise, performance based parameters and such other conditions as mentioned in the SAR Scheme.
Vesting period	<b>For SAR Scheme Scheme II &amp; III, 2018</b> SAR will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%
Exercise Price (Amount in INR as per MFL SAR Scheme 2018)	225.00
Pricing Formula	As per valuation from a registered valuer

**(ii) Movement during the year in SAR Options:**

Particulars	MFL SAR 2018
No. of SAR:	
Outstanding at the beginning of the year	-
Granted during the year	12,42,793
Vested during the year	-
Exercised during the year	-
Lapsed during the year	-
Cancelled during the year*	79,201
Outstanding at the end of year	11,63,592
Unvested at the end of year	11,63,592
Exercisable at the end of year	-

\* Due to employee separations post grant of option during the year

**(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:**

Particulars	MFL SAR 2018
Weighted average option fair value (Amount in INR)	74.18
Exercise price (Amount in INR)	225.00
Expected volatility of share price (%)*	26.97% - 34.30%
Option Life (years)	0.46 to 2.46 years
Expected dividends yield (%)	-
Risk free interest rate (%)	6.79% to 7.10%

\*The expected volatility was determined based on historical volatility data of comparable peers whose are shares are listed

## Independent Auditor's Report

TO

THE MEMBERS OF **MUTHOOT FINCORP LIMITED,**

Report on the Audit of the Standalone Ind AS Financial Statements

### Opinion

We have audited the accompanying Standalone Ind AS financial statements of **Muthoot Fincorp Limited ("the Company")**, **Muthoot Centre, TC No 27/ 3022, Punnen Road, Thiruvananthapuram - 695 001** which comprise the Balance Sheet as at 31st March, 2023, the Statement of Profit and Loss (including Other Comprehensive Income) and the Statement of changes in equity and the Statement of cash flows for the year then ended, including the notes to the Ind AS Financial Statements, a summary of significant accounting policies and other explanatory information. ["Ind AS Financial Statements"]

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2023, and its profit including other Comprehensive Income, Changes in equity and cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the Key Audit matters to be communicated in our report.

Key Audit Matters	How it's been addressed in Audit
<b>a) Completeness in identification and disclosure of related party transactions in accordance with the applicable reporting framework.</b>	We have accessed the laid down systems and processes of the Company in identifying related party transactions and its ultimate disclosure in financial statements in accordance with the applicable reporting framework. We have designed the audit procedures in accordance with the guidelines prescribed in Standard on Auditing (SA 550) to identify the risks of material misstatement arising from an entity's failure to appropriately account for or disclose material related party transactions. We have also reviewed the minutes of meetings of the board in the course of the audit to identify any transactions that may require disclosure in accordance with the applicable reporting framework.
<b>b) Effectiveness of IT Systems and related controls.</b>	Due to the automated controls and high degree of dependence in information systems, there is a risk that the financial accounting and reporting records may be misstated in case of any control lapses in the IT system related controls. We have designed our audit procedures in accordance with the guidelines laid down in the Standard on Auditing (SA 530) and tested the controls in the Information Technology Systems on a sample basis

	<p>which has an impact on the financial accounting and reporting records. We have also tested on a sample basis the controls related to access management including user rights in passing entries, approval for authorizing entries, authorization for reversing entries, segregation of duties, system password protection, external software/hardware access rights etc. Based on our sample review, no material weakness was identified in the IT related systems and controls.</p>
<p><b>c) Accuracy, completeness and correctness of accounting and related controls maintained at the entity's branches.</b></p>	<p>At the branch level, entries related to daily operations are passed. We have addressed this as a key audit matter since any control lapses in the branch level accounting may result in the financial accounting and reporting records of the entity being misstated. We have physically visited the entity's branches on a sample basis to identify and assess the effectiveness of the controls operating at the branch level. We have also tested on a sample basis the independent financial records maintained at the branch level and how the same is considered and incorporated in the financial statements. We have also assessed and analyzed the internal audit reports and how the major observations are dealt with and its impact on the entity's financial accounting and reporting records. Based on our sample review, no major weaknesses were identified.</p>

<p><b>d) Computation of provision towards impairment of loan assets.</b></p> <p>As at 31st March 2023, the Company had reported a total impairment loss allowance of Rs. 36,454.29 lakhs (31st March 2022 - Rs 30,792.59 lakhs)</p> <p>A significant degree of judgment is required to determine the timing and amount of Impairment loss allowance to be recognized with respect to loan assets. Based on our risk assessment, the following are the significant judgments and estimates, that impact impairment loss allowance:</p> <ul style="list-style-type: none"> <li>- Completeness and timing of recognition of default, in accordance with the prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Loan Assets;</li> <li>- Measurement of provision is dependent on the probability of default (PD) and loss given default (LGD) of each category of loan asset. Identification of PD and LGD involves significant judgments and estimates related to forward looking information.</li> </ul>	<p>The audit procedures performed, among others, included:</p> <ul style="list-style-type: none"> <li>-Considering the board policies and processes for NPA identification and assessing compliance with the RBI norms.</li> <li>-Understanding, evaluating and testing the design and effectiveness of key controls around identification of impaired accounts.</li> <li>-Performing other procedures including substantive audit procedures covering the identification of NPAs such as: <ul style="list-style-type: none"> <li>• Reading account statements and related information of the borrowers on a sample basis.</li> <li>• Performing inquiries with credit and risk departments to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA.</li> <li>• Holding discussions with the management on sectors where there is perceived credit risk and the steps taken to mitigate the risks to identified sectors.</li> </ul> </li> </ul>
---	---

### **Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

### **Responsibilities of Management and those charged with governance for the standalone Ind AS Financial Statements**

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, the board of directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial statements as a whole are free from material misstatement, whether due to fraud

or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS

financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in planning the scope of our audit work and in evaluating the results of our work; and to evaluate the effect of any identified misstatements in the Standalone Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the **Annexure "A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Balance Sheet, the Statement of Profit and Loss (including other Comprehensive Income), the Statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;

d) In our opinion, the aforesaid Standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant Rules issued thereunder.

e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer our separate Report in “**Annexure B**”.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with Section 197(16) of the Act, the remuneration paid by the Company to its directors is in accordance with the provisions of Section 197.

h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The company has disclosed the impact of pending litigations on its financial position.

ii. The company does not have any long-term contracts including derivative contracts for which there were any material foreseeable loss for which any provision is required to be made under the applicable law and Accounting Standards.

iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the company

iv. a) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note 50 to the standalone financial statements, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the

Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in Note 50 to the standalone financial statements, no funds (which are material either individually or in aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties") with the understanding, whether recorded in writing or otherwise that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.

## ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

**Annexure referred to in Paragraph 1 under the heading 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the members of Muthoot Fincorp Limited on the Standalone Ind AS Financial Statements as of and for the year ended 31st March 2023.**

1) Tangible and Intangible Assets:

- (a) In our opinion the company has maintained proper records showing particulars including quantitative details and situation of majority of Property, Plant and Equipment. We are informed that the company is in the process of updating the details in the Fixed Asset module of the software used by the company. To ensure complete recording and updating of the assets in the fixed assets module, the company is in the process of migrating to new software.
- (b) As informed to us, fixed assets have been physically verified by the management on a periodic basis during the course of internal branch audit conducted during the year. Since there is a regular programme of verification, we are of the opinion that it is reasonable having regard to the size of the company and the nature of its assets. We have been informed that there have been no material discrepancies during such verification.
- (c) In our opinion and according to the information and explanations given to us, the title deeds of immovable property included in Property, Plant and Equipment and in Investment Property are held in the name of the Company.
- (d) In our opinion and according to the information and explanation given to us, the company has not revalued its Property, Plant and Equipment (including Right of use of asset) or Intangible assets or both during the year.
- (e) As informed to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2) Inventory and Working Capital:

- (a) The Company does not have any inventory. Hence, the provisions of clause 3(ii) of the Order are not applicable to the Company.
- (b) In our opinion and according to the information and explanations given to us, the Company has obtained Working Capital Limits in excess of Rs 5 Crores in aggregate

from banks and financial Institutions and the Quarterly return/statement filed by the Company with such banks or financial Institutions are in agreement with the books of accounts.

- 3) The company is a Non – Deposit taking Non Banking Financial Company (NBFC) registered with the Reserve Bank of India. During the year, the company has made investments and in the ordinary course of business granted loans and advances in the nature of secured and unsecured loans to companies, firms, LLPs and other parties. With respect to such Investment and Loans and Advances :
  - (a) As the principal business of the company is to give loans, the paragraph 3(iii)(a) of the Order is not applicable to the Company.
  - (b) In our opinion, the terms and conditions of the grant of such loans are, prima facie, not prejudicial to the Interests of the Company.
  - (c) In respect of loans granted by the company, the schedule of repayment of principal and payment of interest has been stipulated. Being a non banking finance company engaged in the business of granting loans, there are instances of irregularities in repayment of principal amount and receipt of interest as per stipulated terms. Having regard to the nature of business undertaken by the company, specific details of irregularities are not reported although the particulars of overdue for more than ninety days as per books of accounts as at the Balance Sheet date has been reported in para (d) below
  - (d) In respect of loans granted by the company, the total amount overdue for more than ninety days as per Books of Accounts as at the Balance Sheet date is Rs. 37,161.13 lakhs. In our opinion, and as per information and explanations given to us, reasonable steps have been taken by the company for recovery of the said overdue amounts.
  - (e) The provisions of paragraph 3(iii)(e) of the Order are not applicable to the company, as its principal business is to give loans.
  - (f) The company has not granted any loans or advances in the nature of loans that were either repayable on demand or without specifying any terms or period of repayment.
- 4) In our opinion, in respect of loans, investments, guarantees, and security, the company has complied with the provision of Sec 185 and 186 of the Act.
- 5) In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from the public within the meaning of sections 73 to 76 of the Act and rules framed thereunder to the extent notified.
- 6) The Government of India has not prescribed the maintenance of cost records under sub-section (1) of section 148 of the Act for any of the activities of the company and hence the provisions of this section are not applicable to the Company for the year under review.

7) In respect of statutory dues:

- (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales- tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues have been generally regularly deposited during the year by the company with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales- tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues were in arrears as at March 31, 2023 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us and the records of the company examined by us, the particulars of statutory dues as at 31st March 2023 which have not been deposited on account of dispute are as follows;

Statute	Nature of dues	Period to which the amount relates (Financial Year)	Amount (in lakhs)	Forum where dispute is pending
Service Tax	Tax on Income from Foreign Inward Remittances	01.02.2006 to 30.09.2007	17.17	CESTAT, Bangalore.
Service Tax	Tax on receipts related to assignment of receivables	01.04.2007 to 31.03.2012	1,451.58	CESTAT, Bangalore.
Service Tax	Tax on Notional consideration against support services rendered to group concerns	01.04.2008 to 31.03.2012	2,132.11	CESTAT, Bangalore
Service Tax	Tax on Income from Foreign Inward	01.04.2014 to 30.06.2017	347.27	Commissioner of GST and Central Excise. (Appeals),

	Remittances			Cochin.
Service Tax	Service Tax demand on taxability on assignment of receivables	01.04.2014 to 30.06.2017	1,158.01	CESTAT, Bangalore.
Income Tax	Demand payable u/s 143(3) - net of refund adjustments	AY 10-11	1,463.50	CIT(A) - III, Cochin
Income Tax	Demand payable u/s 143(3) - net of refund adjustments	AY 13-14	741.70	CIT(A) - III, Cochin
Income Tax	Non deduction of Tax at Source	AY 15-16	570.37	DCIT, TDS (Trivandrum)
Income Tax	Demand payable u/s 143 (3)	AY 18-19	577.43	CIT(A) - III, Cochin
Income Tax	Demand Payable u/s 143(1)	AY 19-20	66.86	CIT(A) - III, Cochin
Income Tax	Penalty u/s 271H	AY 15-16	1.00	CIT(A) - III, Cochin
Value Added Tax	Purchase Tax	AY 13-14	1,327.12	Assessing Authority SGST, Thiruvananthapuram

- 8) In our opinion and according to information and explanations given to us, there are no instances of transactions not recorded in the books of accounts subsequently surrendered as income in Tax assessments.

9) Repayment of Borrowings

- (a) According to the records of the company examined by us and the information and explanations given to us, the company has not defaulted in repayment of dues to any financial institution or bank or as at the balance sheet date.

With regard to debentures, there are unpaid debentures that are matured to the tune of Rs 4,828.69 lakhs as on 31.03.2023. As explained to us, these are not settled since the investors have not approached the Company with the original investment documents for redemption. The total amount of redemption done for the period starting from 01.04.2023 to 21.05.2023 is stated to be 2,769.18 lakhs including interest.

- (b) As per the information and explanation given to us, the Company has not been declared as a willful defaulter by any bank or financial institution or other lender.
- (c) According to the information and explanations given by us, term loans taken by the Company from financial institutions are applied for the purpose for which they were obtained.
- (d) According to the information and explanations given by us, funds raised on short term basis have not been utilized for long term purposes.
- (e) According to the information and explanations given by us, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures,
- (f) According to the information and explanations given by us, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

- 10) (a) According to the information and explanations given to us, and on examination of records of the Company, the Company has during the year raised funds through public issue of Non Convertible Debentures of Rs. 68,200.57 lakhs that were utilized for the purposes for which they were raised.

(b) According to the information and explanations given to us, and on examination of records of the Company, the company has not made any preferential allotment or private placement of shares or fully or partly or optionally convertible debentures during the year and hence, the reporting requirement under clause(x)(b) of para 3 of the Order are not applicable

11) Fraud and Whistleblower Complaints

- (a) According to the information and explanations given to us, and on examination of records of the Company, instances of whistleblower complaints were raised on various occasions during the year and appropriate actions were taken against those complaints.
  - (b) No report u/s 143(12) of the Act has been filed in Form ADT-4 regarding any frauds, as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with Central Government, during the year and up to the date of this report.
  - (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) while determining the nature, timing and extent of our audit procedures.
- 12) The Company is not a Nidhi Company and accordingly, paragraph 3 (xii) of the order is not applicable to the Company.
- 13) According to the information and explanations given to us and based on our examination of the records of the company, transactions with the related parties are in compliance with section 177 and 188 of the Act. Where applicable, the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- 14) (a) In our opinion, the Company has an internal audit system commensurate with the nature and size of the Company's business. Also, the comments of the Internal auditors in their report are considered by us in framing an opinion on the financial statements.
- (b) We have considered the Internal Audit reports for the year under Audit, issued to the company during the year in determining the nature, timing and extent of our Audit procedures.
- 15) According to the information and explanations given to us and based on our examination of the records of the company, the company has not entered into non-cash transactions with directors or persons connected with them.
- 16) (a) The Company being a Non Banking Financial Company is required to be registered and has obtained the Certificate of Registration as provided under sec 45IA of The Reserve Bank of India Act 1934.
- (b) The Company has a valid Certificate of Registration (CoR) from the Reserve Bank of India (RBI) for conducting Non-Banking Financial activities and no business has been conducted by the Company without a valid CoR.

(c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence the reporting requirement under clause (xvi) (c) of para 3 of the Order is not applicable.

(d) As informed to us, the group does not form part of a CIC. Accordingly, reporting on paragraph 3(xvi)(d) of the Order is not applicable.

- 17) The company has not incurred any cash losses in the financial year under audit and in the immediately preceding financial year.
- 18) There has been no resignation of the statutory auditors during the financial year covered by our audit and hence the reporting requirement under clause (xviii) of para 3 of the Order is not applicable.
- 19) On the basis of the examination of financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statement and knowledge of the Board of Directors and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report that company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date; We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- 20) (a) According to the information and explanation given to us and the records of the company examined by us, there are no unspent amounts towards corporate social responsibility other than ongoing projects requiring a transfer to a fund specified in schedule VII to the Act in compliance with the second proviso to sub section (5) of Section 135 of the said Act.
- (b) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has transferred unspent amount under sub section 5 of section 135 of the Companies Act, pursuant to ongoing projects to a special account in compliance with the provision of section 135(6) of the Companies Act.

- 21) According to the information and explanations given to us and based on our examination of the records of the company, there has been no adverse remarks by the respective auditors in the Companies (Auditor's Report) Order (CARO) reports of the companies included in the consolidated financial statements

## **ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT**

**Referred to in paragraph 2(f) under ‘Report on other legal and regulatory requirements’ of the Independent Auditors’ Report of even date to the members of Muthoot Fincorp Limited on the Ind AS Financial Statements as of and for the year ended 31 March 2023**

### **REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)**

#### **Opinion**

We have audited the internal financial controls over financial reporting of Muthoot Fincorp Limited ("the Company"), as of March 31, 2023 in conjunction with our audit of the Ind AS Financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### **Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") Standards on Auditing, both issued by the ICAI and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

## **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable

assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Muthoot FinCorp Limited**

### **Notes forming part of Financial Statements**

#### **Significant Accounting Policies**

##### **1. Corporate Information**

Muthoot FinCorp Limited, ('MFL' or 'the Company'), is a public limited company, incorporated on June 10, 1997 under the provisions of Companies Act, 1956. The company is a Non-Deposit Accepting Non-Banking Financial Company (NBFC) registered with Reserve Bank of India (RBI) and is classified as a Non Deposit Taking Systematically Important Loan Company (NDSI).

Muthoot FinCorp Limited, the flagship company of the Muthoot Pappachan Group, provides a diverse mix of retail offerings catering to the various needs of its customers and is primarily engaged in business of Gold Loans through its branch network across India. The company also offers SME Loans, Loans against Property, Forex Services, Money Transfer Services and Wealth Management Services to its customers in its strive to be the most trusted financial service provider. The company is engaged in real estate business to a very limited extent.

MFL is the parent company of Muthoot Microfin Limited, Muthoot Housing Finance Company Limited and Muthoot Pappachan Technologies Limited.

The Company's registered office is at Muthoot Centre, TC No.14/2074-7, Punnen Road, Thiruvananthapuram, Kerala, India.

The Registration details of the Company are as follows:

Reserve Bank of India Registration no.: N - 16.00170

Corporate Identity Number (CIN): U65929KL1997PLC011518

##### **2. Basis of preparation**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI to the extent applicable. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs.

##### **Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for following assets and liabilities which have been measured at fair value:

- i) Investments in equity instruments at fair value through other comprehensive income (FVOCI) or at fair value through statement of profit or loss (FVTPL)
- ii) Investments which are held for trading

- iii) Defined benefit plans.
- iv) Cumulative, Compulsorily Convertible Preference Shares issued at Fair Value through profit or loss (FVTPL)

### **Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) which is also functional currency of the Company and the currency of the primary economic environment in which the Company operates. All values are rounded to the nearest lakhs, except when otherwise indicated.

### **3. Significant accounting policies**

#### **3.1 Recognition of interest income**

Interest income is recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL.

The EIR in case of a financial asset is computed:

- a. As the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows.
- c. Including all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets. Interest income is not recognized on credit impaired assets.

#### **3.2 Recognition of revenue from sale of goods and services**

Revenue (other than for financial instruments) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from contract with customer for rendering services is recognised at a point in time when performance obligation is satisfied.

### **3.2.1 Dividend income**

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

### **3.2.2 Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss, unless the increase is in line with expected general inflation, in which case lease income is recognised based on contractual terms.

### **3.2.3 Fees and commission income**

Fees and commission income such as service charges, commission from fee based business lines, service income etc. are recognised on point in time basis.

### **3.2.4 Net gain / loss on fair value changes**

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognises gains / losses on fair value change of financial assets measured at FVTPL on net basis.

### **3.2.5 Net gain on derecognition of financial instruments**

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the excess interest spread (EIS).

## **3.3 Financial instruments**

### **1.1.1. Initial recognition**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Loans are recognised when funds are transferred to the customers' account. Investments are recognised on settlement date. The Company recognises debt securities and borrowings when funds reach the Company, post allotment if applicable.

### **1.1.2. Initial and subsequent measurement of financial instruments**

The Company classifies its financial assets into the following measurement categories:

1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI)
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
4. Equity instruments in subsidiary companies at cost
5. Equity instruments measured at fair value through other comprehensive income FVTOCI

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

#### Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

#### The SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Company classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

#### **1.1.3. Financial assets measured at amortised cost**

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

#### **1.1.4. Financial assets measured at fair value through other comprehensive income**

A 'debt instrument' is measured at fair value through other comprehensive income if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows and selling the assets and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the income statement.

#### **1.1.5. Financial Instrument measured at fair value through profit or loss**

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVOCI criteria may be designated as at FVTPL upon initial recognition, if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Company's investment is classified as FVTPL, if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking.

Financial instruments held at fair value through profit or loss, are initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

#### **1.1.6. Equity instruments**

The Company subsequently measures investment in equity investments at fair value through profit or loss, unless the Company's management has elected to classify irrevocably some of its equity investments as equity instruments at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments classified at FVOCI are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI.

### **3.3.1 Financial Liabilities**

#### **Initial Measurement**

All financial liabilities are initially recognised at fair value. Transaction cost that are directly attributable to the acquisition or the issue of financial liability, which are not at fair value through profit or loss, are adjusted to fair value at initial recognition.

### Subsequent Measurement

Financial liabilities except cumulative compulsorily convertible preference shares, are subsequently carried at amortized cost using the effective interest method.

## **3.4 Derecognition of financial assets and liabilities**

### **3.4.1 Financial Asset**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- a) The Company has transferred its contractual rights to receive cash flows from the financial asset
- or
- b) It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- ▶ The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- ▶ The Company cannot sell or pledge the original asset other than as security to the eventual recipients
- ▶ The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- ▶ The Company has transferred substantially all the risks and rewards of the asset or,
  - ▶ The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset
- 
- ▶ The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

### 3.4.2 Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

### 3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset, and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all the following circumstances:

- a. The normal course of business
- b. The event of default
- c. The event of insolvency or bankruptcy of the Company and/or its counter parties.

### 3.6 Impairment of financial assets

#### 3.6.1 Overview of the Expected Credit Loss (ECL) principles

The Company has created provisions on all financial assets wherever required, except for financial assets classified as FVTPL, based on the expected credit loss method.

The ECL provision is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company categorises its loans into three stages as described below:

#### For non-impaired financial instruments

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of initial recognition.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Company recognises lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then entities recognize 12 months of ECL.

#### For impaired financial instruments:

Financial instruments are classified as stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative

impact on the estimated future cash flows of a loan or a portfolio of loans. The Company recognises lifetime ECL for impaired financial instruments.

### **3.6.2 The calculation of ECLs**

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

The Company uses historical information where available to determine PD. Considering the different products, schemes, ticket size, loan to value and geographies, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

**Loss Given Default (LGD)** – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive.

#### **Forward looking information**

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

#### **Write-offs**

Loans and other assets are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when it is determined that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

#### **Collateral**

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as gold, securities, stock, current asset etc. However, the fair value of collateral affects the calculation of ECLs. The fair value of the same is based on data provided by third party or management judgements.

#### **Impairment of Trade receivables**

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables.

### **3.7 Determination of fair value**

The Company measures financial instruments, such as, investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which enough data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

### **3.8 Foreign Currency translation**

Transactions in foreign currencies, if any, are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

### **3.9 Finance cost**

Finance costs represents Interest expense recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees including upfront costs incurred in relation to borrowings, commissions payable to advisers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability. Interest accrued on lease liability recognized and measured in accordance with Ind AS 116 “Leases” also forms part of Finance cost.

### **3.10 Other income and expenses**

All Other income and expense are recognized in the period they occur.

### **3.11 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, short-term deposits with an original maturity of three months or less and forex balances, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short- term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the Company’s cash management.

### **3.12 Property, plant and equipment**

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

#### **3.12.1 Depreciation**

Tangible assets are stated at historical cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is charged based on a review by the management during the year and at the rates derived based on the useful lives of the assets as specified in Schedule II of the Companies Act, 2013 on Straight Line Method.

The estimated useful lives are as follows:

Particulars	Useful life
Buildings	60 years
Computer	3 years
Furniture and Fixtures	5 to 30 years
Plant and Equipment	5 to 20 years
Vehicles	5 to 8 years
Windmill	22 years
Office equipment	15 years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

### **3.13 Intangible assets**

The Company's intangible assets consist of computer software.

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are amortised using the Written down value method to write down the cost of intangible assets to their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on a Written down value basis over a period of 3 years keeping residual value 5%.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

### **3.14 Investment Property**

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs, borrowing cost and other directly attributable cost in bringing the asset to its working condition for its intended use. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period.

The fair value of investment property is disclosed in the notes accompanying these financial statements. Fair value has been determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

### **3.15 Impairment of non-financial assets**

The Company's assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

### **3.16 Post-employment benefits**

#### **3.16.1 Defined contribution schemes**

Contributions to the Employees Provident Fund Scheme maintained by the Central Government, Employee State Insurance Corporation (ESIC) etc. are accounted for on an accrual basis. Retirement benefit in the form of provident fund is a defined contribution scheme.

The company has no obligation, other than the contribution payable under the schemes. The company recognizes contribution payable to the provident fund scheme / ESIC as expenditure, when an employee renders the related service. If the contribution payable to the scheme / ESIC for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

### **3.16.2 Defined Benefit schemes**

#### *Gratuity*

The Company provides for gratuity covering eligible employees under which a lumpsum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenor of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method. The Company makes contributions to a Gratuity Fund administered by the Life Insurance Corporation of India.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

#### *Other long-term employee benefits*

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Statement of Profit and Loss. The Company presents the provision for compensated absences under provisions in the Balance Sheet.

### **3.16.3 Employee Stock Option & Employee Stock Appreciation Right**

The Company has formulated its Employees Stock Option Schemes and Stock Appreciation Right Schemes (SAR). The fair value of options granted under Employee Stock Option Plan is recognised as an employee benefits expense with a corresponding increase in Provisions and the fair value of SAR granted is recognized as an employee benefit expense having a corresponding increase in financial liability. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest.

### **3.17 Provisions**

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

### **3.18 Taxes**

Income tax expense represents the sum of current tax and deferred tax.

#### **3.18.1 Current Tax**

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws.

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### **3.18.2 Deferred tax**

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax relating to items recognised outside profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

#### **3.18.3 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses**

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from and / or payable to, the taxation authority is included as part of receivables or payables respectively in the balance sheet.

### **3.19 Contingent Liabilities and assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The company does not have any contingent assets in the financial statements.

### **3.20 Earnings Per Share**

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

### **3.21 Dividends on ordinary shares**

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

### **3.22 Leases**

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

#### ***Company as a lessee***

The Company's lease asset class consist of building and equipment. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company has, at the date of transition, recognized a right-of use asset and a corresponding lease liability for all active lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term lease) and low value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are recognized at cost, which comprises the present value of the lease liability as at the date of transition. Right-of-use assets are depreciated on a straight-line basis over the shorter of the balance lease term and useful life of the underlying asset. The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease

payments are discounted using the interest rate implicit on the lease or, if not readily determinable, using the incremental borrowing rates. Interest accrued on lease liability and lease payments made, are subsequently adjusted to the initial recognition of lease liability.

#### ***Company as a lessor***

Leases where the Company does not transfer substantially all the risks and benefits incidental to ownership of the leased items are operating leases. Rental Income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in rental income in the statement of profit and loss.

### **3.23 Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

## **4 Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

### **4.1 Business Model Assessment**

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

### **4.2 Defined employee benefit assets and liabilities**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### **4.3 Fair value measurement:**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **4.4 Impairment of financial assets**

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by several factors, changes in which can result in different levels of allowances. It has been the Company's policy to regularly review its models in the context of actual loss experience, regulatory advisories, market conditions and forecasts and revise when necessary.

#### **4.5 Effective Interest Rate (EIR) method**

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

#### **4.6 Other estimates:**

These include contingent liabilities, useful lives of tangible and intangible assets etc.

**MUTHOOT FINCORP LIMITED**

Notes to standalone financial statements for the year ended March 31, 2023

(Rupees in lakhs, except for share data and unless otherwise stated)

**5 Cash and cash equivalents**

Particulars	As at 31st March 2023	As at 31st March 2022
Cash on hand	9,275.14	8,775.44
Balances with Banks		
- in current accounts	1,13,093.97	1,53,882.08

As required under Section 135 of the Companies Act, 2013, the Company was required to spend INR 845.49 in the reporting year in pursuance of its Corporate Social Responsibility Policy, being two per cent of the average net profits of the company made during the three immediately preceding financial years. The Company has during the year, spent a total of INR 452.26 towards CSR expenditure. The unspent portion of INR 393.23 has been transferred to the designated bank account for unspent corporate social responsibility by the Company.

<This section has been intentionally left blank>

Particulars	As on 31-03-2023	As on 31-03-2022
(a) Amount required to be spent by the company during the year	845.49	692.06
(b) Amount of expenditure incurred	452.26	290.33
(c) Shortfall at the end of the year	393.23	401.73
(d) Total of previous year shortfall	401.73	-
(e) Reason for shortfall	With regard to the Sports Infrastructure project at Palakkad, based on advise from Architects, a wider road alternative had to be considered, evaluation and negotiations of which delayed the start of the construction work.	Major portion of the funds was allocated for the Sports Infrastructure project at Palakkad. Due to COVID situations, the process of getting work permit has gotten delayed and is awaited from the concerned Department. The Smile Please mission- Gulbarga was not implemented since the Medical Council has not given consent due to the omicron spread in the region. One other partnership project in Rajasthan also got delayed due to the COVID third wave and Omicron challenges.
(f) Nature of CSR activities	CSR activities were undertaken in the fields of Health, Education & Livelihood.	CSR activities were undertaken in the fields of Health, Education & Livelihood.
(g) Details of related party transactions	N/A	N/A
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	N/A	N/A

(c) In view of regulatory advise and based on approval of the Board of Directors, the Company has during the year written off non-financial assets amounting to INR 2,345.48 against Employees Provident Fund recovered from the Company in respect of dues towards provident fund of erstwhile staff.

### 33 Earnings Per Share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of the company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the Year Ended 31st March 2023	For the Year Ended 31st March 2022
Net profit attributable to ordinary equity holders	45,981.08	34,685.13
Weighted average number of ordinary shares for basic earnings per share	19,37,05,560	19,37,05,560
Effect of dilution:	74,92,507	60,96,643
Weighted average number of ordinary shares adjusted for effect of dilution	20,11,98,067	19,98,02,203
Earnings per share		
Basic Earnings per share	23.74	17.91
Diluted Earnings per share	22.85	17.36

**MUTHOOT FINCORP LIMITED**

Notes to standalone financial statements for the year ended March 31, 2023

(Rupees in lakhs, except for share data and unless otherwise stated)

**34 Income Tax**

The components of income tax expense for the year ended 31st March, 2023 and year ended 31st March, 2022 are:

Particulars	For the Year Ended 31st March 2023	For the Year Ended 31st March 2022
Current Income tax expense	17,609.54	13,719.62
Deferred tax relating to origination and reversal of temporary differences	(1,347.46)	(1,591.11)
<b>Total tax expense reported in statement of profit and loss</b>	<b>16,262.08</b>	<b>12,128.51</b>
<b>OCI Section</b>		
Deferred tax related to items recognised in OCI during the period:		
Net gain / (loss) on equity instruments measured through other comprehensive income	(91.67)	493.93
Remeasurement of the defined benefit liabilities	18.48	45.12
<b>Income tax charged to OCI</b>	<b>(73.19)</b>	<b>539.05</b>

**Reconciliation of Income tax expense:**

The income tax charge shown in the statement of profit and loss differ from the income tax charge that would apply if all the profits had been charged at India corporate tax rate. A reconciliation between the income tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended 31st March 2023 and year ended 31st March 2022 is, as follows:

Particulars	For the Year Ended 31st March 2023	For the Year Ended 31st March 2022
Accounting profit before tax	62,243.16	46,813.64
<b>At India's statutory income tax rate of 25.168%* (2021: 25.168%*)</b>	<b>15,665.36</b>	<b>11,782.06</b>
<b>Adjustments in respect of current income tax of previous year</b>		
(i) Expenses not eligible for deduction under the Income Tax Act	2,231.29	1,937.56
(ii) Income chargeable to tax under separate rate of tax (capital gain)	(287.11)	-
<b>Current Income Tax expense reported in the statement of profit or loss</b>	<b>17,609.54</b>	<b>13,719.62</b>
<b>Effective Income Tax Rate</b>	<b>28.29%</b>	<b>29.31%</b>

\*The Company has exercised the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019.

The following table shows deferred tax recorded in the balance sheet and changes recorded in the Income tax expense:

	Deferred tax assets	Deferred tax liabilities	Statement of profit and loss	OCI

<i>Experience adjustments</i>	20.62	10.90
<i>Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/(asset)</i>	(28.08)	50.31
Actuarial changes arising from changes in financial assumptions	80.88	118.06
<b>Actuarial gain /(loss) (through OCI)</b>	<b>73.42</b>	<b>179.27</b>

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

<b>Particulars</b>	<b>As at 31st March 2023</b>	<b>As at 31st March 2022</b>
Salary Growth Rate	3.00%	3.00%
Discount Rate	7.46%	7.12%
Withdrawal Rate	5.00%	5.00%
Mortality	100% of IALM 2012-14	100% of IALM 2012-14
Interest rate on net DBO	7.12%	6.65%
Expected average remaining working life	27.19	27.12

**Investments quoted in active markets:**

<b>Particulars</b>	<b>As at 31st March 2023</b>	<b>As at 31st March 2022</b>
Equity instruments	-	-
Debt instruments	-	-
Real estate	-	-
Derivatives	-	-
Investment Funds with Insurance Company	100.00%	100.00%
<i>Of which, Unit Linked</i>	-	-
<i>Of which, Traditional/ Non-Unit Linked</i>	100.00%	100.00%
Asset-backed securities	-	-
Structured debt	-	-
Cash and cash equivalents	-	-
<b>Total</b>	<b>100.00%</b>	<b>100.00%</b>

A quantitative sensitivity analysis for significant assumptions as at 31st March 2023 and 31st March 2022 are as shown below:

Assumptions	Sensitivity Level	As at 31st March 2023	As at 31st March 2022
Discount Rate	Increase by 1%	2,530.52	2,487.66
Discount Rate	Decrease by 1%	2,996.40	2,974.11
Further Salary Increase	Increase by 1%	3,005.28	2,982.66
Further Salary Increase	Decrease by 1%	2,519.85	2,477.28
Employee turnover	Increase by 1%	2,842.64	2,804.44
Employee turnover	Decrease by 1%	2,635.11	2,604.28
Mortality Rate	Increase in expected lifetime by 1 year	2,737.88	2,702.74
Mortality Rate	Increase in expected lifetime by 3 years	2,754.02	2,687.26

The weighted average duration of the defined benefit obligation as at 31st March 2023 is 11 years (2022: 10 years).

Gratuity liability is funded through a Gratuity Fund managed by Life Insurance Corporation of India Ltd.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:

*The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.*

*The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.*

(Rupees in lakhs, except for share data and unless otherwise stated)

**38. Contingent Liabilities (to the extent not provided for)**

Particulars	As at 31st March 2023	As at 31st March 2022
<b>Contingent Liabilities</b>		
(i) Income Tax Demands	3,420.85	3,419.85
(ii) Service Tax Demands	5,106.18	5,106.18
(iii) Value Added Tax Demands	1,327.12	1,327.12
(iv) Bank Guarantees	43.81	36.90
(v) Claims not acknowledged as debt in view of counter claims raised	-	917.78

(vi) The Company had filed a Writ Petition before the Honourable High Court of Madras on 30th July, 2019 challenging the Order passed by the Income Tax Settlement Commission, Chennai Bench abating the proceedings before it relating to the Settlement Application filed by the Company dated December 17, 2017 ("Settlement Application"); and praying for stay on proceedings initiated by the Joint Commissioner of Income Tax (OSD), Central Circle, Thiruvananthapuram post abatement of proceedings by the Settlement Commission. The tax and interest due on the issues forming part of the Settlement Application totaled to ₹ 7,406 lakh. The Settlement Application related to notices received under Section 147 of the Income Tax Act, as per which the income chargeable to tax for the Financial Years 2011-12 to 2016-17 of MFL has not been assessed, and Section 153A of the Income Tax Act, as per which MFL was required to prepare true and correct return of which MFL was assessable for the Assessment Years 2011-2012 to 2016-2017. The Honourable High Court of Madras has dismissed the petition filed by the Company on June 29, 2022 on the ground that the cause of action of the matter has arisen fully in Kerala and not within the territorial jurisdiction of the honourable Madras High Court, thereby ousting its jurisdiction to entertain the petition. Accordingly, the Company has filed a writ petition before the Honorable High Court of Kerala proceedings of which are ongoing.

## MUTHOOT FINCORP LIMITED

Notes to standalone financial statements for the year ended March 31, 2023

(Rupees in lakhs, except for share data and unless otherwise stated)

### 40 Capital

#### Capital Management

The primary objective of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains healthy credit ratings and capital ratios in order to support its business and to maximize shareholder value.

Being an NBFC-SI, the RBI requires the Company to maintain a minimum capital to risk weighted assets ratio ("CRAR") consisting of a minimum Tier I Capital of 12% and a combined Tier I & Tier II Capital of 15% of our aggregate risk weighted assets. The capital management process of the Company ensures to maintain a healthy CRAR at all the times. The Company has issued perpetual debt instruments aggregating to INR 10,000 (March 31, 2022 - INR 13,500) during the year and had issued cumulative compulsorily convertible preference shares aggregating to INR 15,000 during the previous year ended March 31, 2022 thereby strengthening the regulatory capital levels.

Regulatory capital	As at 31st March 2023	As at 31st March 2022
Tier I Capital	3,06,097	2,69,746
Tier II Capital	90,219	85,992
<b>Total capital</b>	<b>3,96,316</b>	<b>3,55,738</b>
<b>Risk weighted assets</b>	<b>18,57,078</b>	<b>18,31,579</b>
<b>CRAR</b>		
Tier I Capital (%)	16.48%	14.73%
Tier II Capital (%)	4.86%	4.69%

Tier I Capital comprises of share capital, share premium, reserves, retained earnings including current year profits, cumulative compulsorily convertible preference shares and perpetual debt instruments subject to permissible limits. Certain adjustments are made to Ind AS-based results and reserves, in order to ensure compliance with the directions of the Reserve Bank of India. Tier II Capital consists primarily of Subordinated Debt Instruments, subject to permissible limits as per the directions of the Reserve Bank of India and PDI in excess of 15% of Tier I Capital of the Company as at the previous year.

#### 41 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

#### Fair Value Hierarchy of assets and liabilities

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at March 31, 2023:

Particulars	At FVTPL			
	Level-1	Level-2	Level-3	Total

Inv-Speckle Internet Solutions Private Limited	-	198.10	-	198.10

#### Fair value technique

#### Investment at fair value through profit and loss

For investment at fair value through profit and loss, valuation are done using quoted prices from active markets or on published Net Asset Values of the investment at the measurement date or at the nearest available date.

#### Equity instruments

The equity instruments which are actively traded on public stock exchanges with readily available active prices on a regular basis are classified as Level 1. Units held in mutual funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions are generally Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured as per fair valuation report and valued as at the measurement date or at the nearest available date has been classified as Level 2.

#### Financial Liabilities with significant unobservable inputs (Level 3)

This level of hierarchy includes financial liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data, this level of hierarchy includes cumulative compulsory convertible preference shares.

The fair value of the CCCPS is measured using the Monte Carlo Simulation technique. The Monte Carlo Simulation Method is one where a risk-neutral framework is used to simulate a range of simulated values, representing all the potential paths a variable could move over the period of the simulation. The inputs to this model are taken from observable market where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Significant unobservable inputs	As at March 31, 2023		As at March 31, 2022	
	Increase by 1%	Decrease by 1%	Increase by 1%	Decrease by 1%
Discount Rate of CCCPS Conversion Feature	(544.00)	564.72	(511.25)	531.08
Discount for Lack of Marketability	(242.03)	242.03	(234.05)	234.05

#### Movements in Level 3 financial instruments measured at fair value

Particulars	As at 31st March 2023	As at 31st March 2022

Other financial liabilities	3	58,878.16	61,040.36	58,878.16	61,040.36
<b>Financial Liabilities</b>		<b>19,34,175.60</b>	<b>19,01,951.80</b>	<b>19,34,175.60</b>	<b>19,01,951.80</b>

**Valuation techniques****Short-term financial assets and liabilities**

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, trade receivables, balances other than cash and cash equivalents and trade payables without a specific maturity. Such amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

**Loans and advances to customers**

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default and loss given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics ie, type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using effective interest rate model that incorporate interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating probability of defaults and loss given defaults. Hence, the carrying amount of such financial assets at amortised cost net of impairment loss allowance is of reasonable approximation of their fair value.

**Financial liability at amortised cost**

The fair values of financial liability held-to-maturity are estimated using a effective interest rate model based on contractual cash flows using actual yields. Since the cost of borrowing on the reporting date is not expected to be significantly different from the actual yield considered under effective interest rate model, the carrying value of financial liabilities at amortised cost is considered a reasonable approximation of their fair value.

**42 Segment Reporting**

In accordance with Para 4 of IND AS 108, Operating Segments, segment information has been presented in the consolidated financial statements of Muthoot FinCorp Limited and therefore, no separate disclosure has been given in standalone financial statement.

## MUTHOOT FINCORP LIMITED

### Notes to standalone financial statements for the year ended March 31, 2023

(Rupees in lakhs, except for share data and unless otherwise stated)

#### 43. Risk Management

The Company's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, investments, cash and cash equivalents and other receivables that derive directly from its operations.

As a financial lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of Directors constituted in accordance with the RBI rules has overall responsibility for overseeing the implementation of the Risk Management Policy. The committee meets quarterly to review the Risk Management practices and working of the Risk Management Department. The committee is chaired by an Independent Director. The Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Risk Management department.

The Company has implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the Group. The risk management process is continuously reviewed, improved and adapted in the changing risk scenario and the agility of the risk management process is monitored and reviewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis. The Company has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis.

The major type of risk Company faces in business are credit risk, liquidity risk, market risk and operational risk.

#### D) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through following major processes:

- Standardize the process of identifying new risks and designing appropriate controls for these risks
- Minimize losses due to defaults or untimely payments by borrowers
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio appraisal and monitoring
- Design appropriate credit risk mitigation techniques

#### A) Impairment Assessment

The Company is primarily engaged in the business of providing gold and SME loans. Whereas tenure of gold loans primarily range from 6 to 12 months, tenure of SME loans and loans against property range from 3 months to 180 months.

The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the summary of significant accounting policies.

#### Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations.

The Company has considered a financial instrument as 'cured' and therefore re-classified out of Stage 3 during the year only once the entire dues have been received.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage I
Standard grade	1-30 DPD	Stage I
Sub-standard grade	31-60 DPD	Stage II
Past due but not impaired	61-89 DPD	Stage II
Individually impaired	90 DPD or More	Stage III

**Exposure at Default (EAD)**

The outstanding balance as at the reporting date is considered as EAD by the company.

**Probability of default (PD)**

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 month ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information where available to determine PD. Considering the different products, schemes, ticket size, loan to value and geographies, the Company has bifurcated its loan portfolio into various pools. PD is calculated using Incremental NPA approach considering fresh slippage using historical information.

Based on its review of macro-economic developments and economic outlook, the Company has assessed that no adjustment is required for temporary overlays to determine qualitative impact on its PD.

**Loss Given Default (LGD)**

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Company expects to receive. LGD rates for Gold Loans have been computed internally based on the discounted recoveries in NPA accounts that are closed/ auctioned and upgraded during the year. For other loans, LGD rates have been arrived at guided by the Foundational Internal Ratings Based approach (FIRB) norms.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

**Significant Increase in credit risk**

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

**II) Liquidity risk****Asset Liability Management (ALM)**

Liquidity risk is the risk of being unable to raise necessary funds from the market at optimal cost to meet operational and debt servicing requirements. The purpose of liquidity management is to ensure sufficient cash flow to meet all financial commitments and to capitalise on opportunities for business expansion. Board of Directors will have overall responsibility of monitoring, supervision and control of the Asset Liability Management (ALM) mechanism. Board will have a sub-committee of Directors (ALM Committee) to review the ALM position of the Company on at least half yearly intervals. An Asset Liability Committee (ALCO) consisting of senior executives of the Company including the Managing Director shall be responsible for the day to day as well as periodic monitoring and control of Asset Liability management. Our treasury team sources funds from multiple sources, including from banks, financial institutions, capital & retail markets to maintain a healthy mix of sources. The treasury team is responsible for diversifying fund raising sources, managing interest rate risks and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below shows the maturity pattern of the assets and liabilities:

**Maturity pattern of assets and liabilities as on 31st March 2023:**

Particulars	Up to 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total

**III) Market risk**

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates and other market changes. The Company is exposed to three types of market risk as follows:

**a) Interest rate risk**

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability management, and ensures that all significant mismatches, if any, are being managed appropriately.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings is as follows:

Particulars	March 31, 2023	March 31, 2022
<b>On Borrowings</b>		
1% increase	(17,768.95)	(17,782.04)
1% decrease	17,768.95	17,782.04

**b) Price risk**

Equity price risk is the risk that the fair value of equities decreases as the result of changes in level of equity indices and individual stocks. The trading and non-trading equity price risk exposure arises from equity securities classified at FVOCI". A 10% increase/(decrease) in the equity price (traded and non-traded) would have the impact as follows:

Particulars	Increase/(Decrease) in percentage	Sensitivity of profit or loss	Sensitivity of Other Comprehensive Income
As at 31st March 2023	10/(10)	140.30 / (140.30)	18,428.10 / (18,428.10)
As at 31st March 2022	10/(10)	166.81 / (166.81)	16,130.37 / (16,130.37)

A sudden fall in the gold price can result in increased customers defaults where the loan amount and interest exceeds the market value of gold, though the sentimental value of the gold jewellery to the customers may induce repayment and redemption of the collateral. This risk is partly mitigated by the fact that a minimum 25% margin is retained on the value of gold jewellery for the purpose of calculation of the loan amount. Further, the gold jewellery collateral is appraised solely based on the weight of its gold content, excluding weight and value of the stone studded in the jewellery if any. Though an occasional decrease in gold prices will not increase price risk significantly on account of our adequate collateral security margins, a sustained decrease in the market price of gold can additionally cause a decrease in the size of our loan portfolio and our interest income.

**c) Prepayment risk**

Prepayment risk is the risk that the Company will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected.

**Operational and business risk**

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Company cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

## MUTHOOT FINCORP LIMITED

Notes to standalone financial statements for the year ended March 31, 2023

(Rupees in lakhs, except for share data and unless otherwise stated)

### 44 Employee Stock Option Plan and Stock Appreciation Plan

The Company has launched MFL Employee Stock Option Schemes and MFL Employee Stock Appreciation Right Schemes during the year with an objective to reward employees for their association with the Company, their performance as well as to attract, retain and motivate employees to contribute to the growth and profitability of the Company.

#### 44.1. Employee Stock Option Plan

(i) The particulars on the Stock Option Plan are as follows:

Scheme name	MFL Employee Stock Option Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement ESOP was granted	July 13, 2018
Date of Board Meeting where grant of options were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such options were granted	301
Number of options granted	8,64,566
Method of settlement	Equity
Vesting conditions	The actual vesting of options will depend on continuation to hold the services being provided to the Company at the time of exercise of options, performance based parameters and such other conditions as mentioned in the ESOP Scheme.
Vesting period	<b>For ESOP Scheme II &amp; IV, 2018</b> Option will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50% <b>For ESOP Scheme V, 2018</b> Option will be vested at the: End of year 1 from grant date : 33.33% End of year 2 from grant date : 33.33% End of year 3 from grant date : 33.33%
Exercise Price (Amount in INR as per MFL ESOP Scheme 2018)	100.00
Exercise period	The options can be exercised over a period of 10 years from the date of grant.
Pricing Formula	As per valuation from a registered valuer

<This section has been intentionally left blank>

**(ii) Movement during the year in Options:**

Particulars	MFL ESOP 2018
No. of Options :	
Outstanding at the beginning of the year	-
Granted during the year	8,64,566
Vested during the year	-
Exercised during the year	-
Lapsed during the year	-
Cancelled during the year*	76,647
Outstanding at the end of year	7,87,919
Unvested at the end of year	7,87,919
Exercisable at the end of year	-

\* Due to employee separations post grant of option during the year

**(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:**

Particulars	MFL ESOP 2018
Weighted average option fair value (Amount in INR)	141
Exercise price (Amount in INR)	100.00
Expected volatility of share price (%) *	42.06% - 43.20%
Option Life (years)	5.51 to 6.51 years
Expected dividends yield (%)	-
Risk free interest rate (%)	7.07% to 7.12%

\*The expected volatility was determined based on historical volatility data of comparable peers whose are shares are listed

(iv) The total expense recognised for the period arising from MFL ESOP 2018 amounted to INR 355.14 and the carrying amount for the corresponding liabilities as at March 31, 2023 amounted to INR 355.14.

**44.2. Employee Stock Appreciation Plan****(i) The particulars on the Stock Appreciation Plan are as follows:**

Scheme name	MFL Employee SAR Scheme 2018
Date of Shareholders Meeting, where approval to introduce and implement SAR was granted	July 13, 2018
Date of Board Meeting where grant of SAR were approved	August 12, 2022
Date of grant	August 30, 2022
No. of employees to whom such SAR were granted	2,315
Number of SAR granted	12,42,793
Method of settlement	Cash
Vesting conditions	The actual vesting of SAR will depend on continuation to hold the services being provided to the Company at the time of exercise, performance based parameters and such other conditions as mentioned in the SAR Scheme.
Vesting period	<b>For SAR Scheme Scheme II &amp; III, 2018</b> SAR will be vested at the: End of year 1 from grant date : 20% End of year 2 from grant date : 30% End of year 3 from grant date : 50%
Exercise Price (Amount in INR as per MFL SAR Scheme 2018)	225.00
Pricing Formula	As per valuation from a registered valuer

**(ii) Movement during the year in SAR Options:**

Particulars	MFL SAR 2018
No. of SAR:	
Outstanding at the beginning of the year	-
Granted during the year	12,42,793
Vested during the year	-
Exercised during the year	-
Lapsed during the year	-
Cancelled during the year*	79,201
Outstanding at the end of year	11,63,592
Unvested at the end of year	11,63,592
Exercisable at the end of year	-

\* Due to employee separations post grant of option during the year

**(iii) The fair value of the options was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:**

Particulars	MFL SAR 2018
Weighted average option fair value (Amount in INR)	74.18
Exercise price (Amount in INR)	225.00
Expected volatility of share price (%)*	26.97% - 34.30%
Option Life (years)	0.46 to 2.46 years
Expected dividends yield (%)	-
Risk free interest rate (%)	6.79% to 7.10%

\*The expected volatility was determined based on historical volatility data of comparable peers whose are shares are listed

(iv) The total expense recognised for the period arising from MFL SAR 2018 amounted to INR 230.95 and the carrying amount for the corresponding liabilities as at March 31, 2023 amounted to INR 230.95

<This section has been intentionally left blank>

(iii) Provision as per IRACP norms against (ii) cumulatively above up to June 2020	-	37.89
(iv) Provisions adjusted during the respective accounting periods against slippages and the residual provisions	-	134.62

#### 46 Additional Disclosures as Required by the Reserve Bank of India

##### (i) Frauds

During the year there have been certain instances of fraud on the Company by officers and employees where gold loan related misappropriations / cash embezzlements / burglaries have occurred for amounts aggregating to an amount of INR 664.83 (March 31, 2022 - INR 614.08) of which the Company has recovered INR 39.74 (March 31, 2022 - INR 61.94). The Company has taken insurance cover for such losses and has filed insurance claims in this regard. Further, the Company is in the process of recovering these amounts from the employees and taking legal actions, where applicable. The value of frauds and burglaries (net of recovery), has been fully provided for.

(ii) The Company extends loans to its customers against security of gold not exceeding 75% of the value of gold. Value of gold for this purpose is taken from the rates published by the Association of Gold Loan Companies (AGLOC). AGLOC publishes the value of gold based on the immediately preceding 30 days average price of 22 Carrot Gold published by Bombay Bullion Association. The Company holds 48.01 tonnes of Gold as at March 31, 2023 (March 31, 2022 - 54.03 tonnes). The loan amount provided against security of gold works out to 63.28% of the value of gold as on 31st March 2023 (As at 31st March 2022 - 65.79%).

(iii) The Company's Percentage of Gold Loan to Total Assets is 70.79% as at 31st March 2023 (As at 31st March 2022 - 73.17%).

(iv) In accordance with the relevant circulars issued by the Reserve Bank of India with respect to Micro, Small and Medium Enterprises (MSME) sector – Restructuring of Advances, the Company has restructured certain eligible MSME accounts.

Particulars	No. of accounts	Amount
FY 2022-23	0	-
FY 2021-22	1014	1,730.79

(v) The Company has neither transferred nor acquired any loans not in default / stressed loans to / from other entities during the years ended March 31, 2023 and March 31, 2022.
